Special Departmental Requirements

Admission Requirements

Applicants are expected to have a bachelor's degree from an accredited university or its equivalent, with a grade point average of at least 3.0 overall (on a 4.0 scale) and at least 3.0 in the student's major. There is no specific major requirement, but applicants must show a record of course work (or equivalent experience) demonstrating that they are sufficiently prepared to do graduate work in philosophy. For applicants interested in the bioethics track, professional training or experience that involved health care ethics could be accepted in lieu of coursework. Applicants must also show an appropriate level of achievement on the Graduate Record Examination (GRE) General Test.

Program Requirements

Students are required to take a minimum of 30 credit hours, including a 6 credit hour thesis written under the guidance of an appropriate faculty committee (Students who elect the bioethics concentration may substitute for the thesis a 6 credit hour research project, completed under the guidance of an appropriate faculty committee. Examples of admissible research projects: research that leads to a paper of sufficient length and quality to be considered for publication in a peer-reviewed journal; a comprehensive briefing paper for a legislative hearing; an analysis of a hospital, institutional, or research policy.)

The program is divided into three modules. Students must complete 6 credit hours in core areas of philosophy (module 1), 18 credit hours in concentration-specific courses (module 2), and 6 credit hours toward a thesis or research project (module 3). Students must attend and complete these courses at IUPUI, excepting those courses accepted for transfer. At least 15 credit hours must be taken at IUPUI.
