

Accreditation

Indiana University Kokomo is accredited by The Higher Learning Commission and is a member of the North Central Association of Colleges and Schools, which is located at 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504.

Campus Commitment to Assessment of Student Learning

As a reflection of our commitment to the student learning mission of IU Kokomo, the campus community is actively engaged in ongoing, systematic assessment of student learning. This process gives faculty information on how effectively academic programs are meeting their goals for student learning and provides guidance for enhancing those programs. In addition, ongoing, systematic assessment is required for the campus to continue to meet the accreditation standards of the North Central Association/Higher Learning Commission.

The faculty in the various degree programs develop the student learning outcomes for their programs and are responsible for assessing those outcomes. As part of this process, students will be asked to participate in activities such as surveys, standardized exams, or focus groups. In addition, student performance on examinations, quizzes, papers, or other assignments in a course may be used to assess learning outcomes. In all cases, the purpose is to assess the effectiveness of the program as a whole in achieving its student learning goals. So assessment results are aggregated. No individual students or faculty are identified in any assessment report.

Students who have questions about student learning assessment, or are interested in obtaining the results of a program's assessment of student learning may contact the Dean of the School in which the program resides.

Fast Facts

- 3318 total student enrollment
- 65 percent of students are female and 35 percent are male
- 70 percent of undergraduate students attend full time
- 56 percent of undergraduate students are between 18 and 24 years old
- 80 percent of students work full or part time
- 45 percent of students receive financial aid

Overview

Indiana University

Indiana University was founded in 1820 at Bloomington and is one of the oldest institutions of higher education west of the Allegheny Mountains. Its facilities and programs are internationally known for their excellence and diversity. With 109,000 full- and part-time students on eight campuses, as well as a faculty of more than 6,000, Indiana University is one of the largest universities in the

nation. The university offers 5,000 courses of instruction and 880 degree programs, and it attracts students from all 50 states and more than 150 countries.

Indiana University has eight campuses: Indiana University Bloomington, Indiana University–Purdue University Indianapolis, Indiana University Northwest (Gary), Indiana University South Bend, Indiana University–Purdue University Fort Wayne, Indiana University Kokomo, Indiana University Southeast (New Albany), and Indiana University East (Richmond). It also offers courses through Columbus, Elkhart, and many other sites. The university puts quality education within reach of all Indiana citizens.

Indiana University Kokomo

Indiana University Kokomo was built upon the foundations of another institution, the Kokomo Junior College. Organized in 1932, the Junior College offered a basic two-year collegiate program. Throughout its 13-year history, it maintained an average enrollment of about 75 students.

In 1945, the Junior College asked Indiana University to assume its function and to establish an extension center in the former Junior College building at 508 West Taylor Street. In 1947, to accommodate steadily increasing enrollment, the university purchased the Seiberling-Kingston mansion at 1200 West Sycamore Street.

IU Kokomo's main classroom building was occupied in 1965 on South Washington Street. Housing classrooms, lounges, faculty research facilities, and a community auditorium, it is located on a 51-acre site in the southern part of the city.

Mission Statement

The mission of Indiana University Kokomo, a regional campus of Indiana University, is to enhance the educational and professional attainment of residents of north central Indiana by providing a wide range of bachelor's degrees, and a limited number of master's and associate degrees. Indiana University Kokomo is further dedicated to enhancing research, creative work, and other scholarly activity, promoting diversity, and strengthening the economic and cultural vitality of the region and the state through a variety of partnerships and programs.

Division of Allied Health Science

Chair: John Hughey,

Clinical Assistant Professors: Hughey, Mishler, Sabastian

Clinical Liason: Davis

Assistant Professor: Hancock, Henderson

Majors/Minors

Bachelors Degrees

- Bachelor of Applied Science (pending approval)
- Bachelor of Science in Health Science
- Clinical Laboratory Science
- Cytotechnology
- Dental Hygiene, Indiana School of Dentistry
- Health Information Administration (School of Informatics)
- Medical Imaging Technology
- Nuclear Medicine Technology

- Occupational Therapy
- Paramedic Science
- Physical Therapy
- Radiation Therapy
- Respiratory Therapy

Minors

- Coaching

Associates Degrees

- Associate of Science in Radiography

Certificate Programs

- Coding Technology Certificate

Courses

- Undergraduate Courses

Coding Technology Certificate

Students may complete this program entirely at Kokomo. New regulations that govern the payment of health service claims issued by various government entities, and also by third-party agencies, have created a sharp growth in the demand for qualified coders. Although most coding positions, at present, do not require associate or bachelor's degrees in health information, this growth career field does require specialized training in areas that are related to insurance and health care in general. The Coding Technology Certificate program has been developed to meet the need for quality training for individuals interested in pursuing this field. It combines an understanding of medical terminology and the disease process with ICD-9-CM and CPT coding principles and guidelines.

Certificate Requirements

Students must successfully complete ANAT-A215 Basic Human Anatomy, PHSL-P 215 Basic Human Physiology, CLAS-C 209 Greek and Latin Elements in Medical Terminology, MICR-J 200 Microbiology and Immunology, AHLT-M 190 Medical Coding I, AHLT-M 191 Medical Coding II and AHLT-M 192 Introduction to HIM & Reimbursement Methodologies with a minimum grade of C in each course.

Coding Technology Courses—Kokomo

Note: The university reserves the right to cancel courses for insufficient enrollment.

P = pre-requisite R = recommended C = co-requisite * = lab fee

AHLT-M 101 Introduction to Health Records (3 cr.); focus on the role of the coding professionals as an essential part of the healthcare team.

AHLT-M 102 Clinical Experience I (2-4 cr.) Clinical assessment in systems and processes for collecting, maintaining, and disseminating health related information; development of professional attitude for interacting with consumers and other professions in the health care industry.

AHLT-M 190 Coding I (3 cr.) The study of ICD-9-CM coding and classification principles and CPT coding

principles, as used in acute ambulatory and long-term care facilities.

AHLT-M 191 Coding II (3 cr.) Advanced principles of the ICD-9-CM classification system; optimization; DRG's, sequencing, reimbursement; application of CPT coding principles in acute and ambulatory settings.

AHLT-M 192 Introduction to HIM and Reimbursement Methodologies (3 cr.) Introduction to health information management, health records, standards, regulations and content; overview of release of information principles, privacy and security; reimbursement methodologies including Medicare, third party payers, ambulatory settings and physician practices.

AHLT-M 301 Electronic Medical Records Management (3 cr.) This course is designed to introduce the student to the basics of electronic medical records (EMR) management. This course outlines the essential documents/data content required for maintaining legal medical records using electronic and paper media.

Medical Imaging Technology

Students may complete this program entirely at Kokomo. Applicants must be ART certified to be admitted to this program.

The medical imaging technologist in radiologic sciences is a skilled radiographer qualified to provide diagnostic imaging services in advanced modalities such as vascular and intervention procedures. Students will choose from imaging modality tracks including computed tomography, ultrasonography (both grey scale and vascular), echocardiography, Picture Archiving and Communication (PACS) and magnetic resonance imaging. These areas represent the most advanced imaging in diagnostic radiology. Effective medical imaging technologists utilize principles of radiation protection and physics as they determine imaging factors and position patients for a variety of examinations. They are also capable of assisting in surgical procedures performed during the examination, assessing the technical quality of the image, and providing basic patient care. The technologist must function as a member of the health care team.

Graduates receive a Bachelor of Science degree and are eligible to take specialty examinations, depending on their major area of concentration. IU Kokomo campus has earned primary pathway status through the ARRT or CCI for ultrasound, magnetic resonance imaging.

Radiography

Students may complete this program entirely at Kokomo. Radiography is a science involving the medical use of X-rays in the diagnosis of disease. A radiologist is a physician specializing in this science, and a radiographer is the technical assistant to the radiologist. Radiographers make up the largest group of imaging professionals. Their principal duties consist of producing diagnostic radiographs and performing patient care assessments. They also assist in fluoroscopic examinations and in special radiographic procedures. Tasks performed by radiographers vary.

Radiographers must be able to handle seriously ill and injured patients to obtain the maximum amount of information without injury to the patient and with the least amount of pain and discomfort from the examination. They

may assist the radiologist, a specially trained physician, in some complex procedures, often involving the injection of opaque media through needles or catheters. Radiographers must be well trained and experienced in aseptic techniques, requiring skills often comparable to those of nurses in some specialties. Most radiographers are employed in hospitals, clinics, and physicians' offices. Graduates receive an Associate of Science degree and are eligible to take the certification examination of The American Registry of Radiologic Technologists (ARRT) to become certified as a Registered Radiographer R.T. (R).

Please consult the Kokomo Allied Health Division Office for additional admission requirements and prerequisite courses.

Bachelor of Science in Health Science

The Bachelor of Science in Health Sciences is for people who are interested in human health and service to individual persons, communities, and populations. Health Sciences also serves as a foundational degree for those who want to continue their education in public health, exercise science, or professional schools such as medicine, nursing, dentistry, pharmacy, occupational or physical therapy.

The coursework is interdisciplinary and includes human biology, nutrition, and specialized health courses. Health Sciences majors can choose a concentration in Exercise Science or Health Promotion. The Exercise Science concentration includes courses in human movement, and sports and fitness. The Health Promotion concentration includes courses in population health that move beyond a focus on individual behavior towards a wide range of interventions and policies to promote health and prevent disease.

The primary goal of the degree is to provide students the basic, technical and applied aspects of health sciences.

Another goal is to help students apply this knowledge to a variety of career opportunities. A baccalaureate degree in Health Sciences will enable students to gain knowledge of problem solving skills relevant to health related professions, medicine and interrelated fields of health and wellness care.

The Health Sciences degree is suitable for Pre-Occupational Therapy or Pre-Physical Therapy students who wish to pursue graduate work in professional health programs such as Occupational Therapy or Physical Therapy. Students wishing to pursue Pre-Occupational or Pre-Physical Therapy in the Health Sciences should consult and work closely with an advisor to assure proper course requirements are fulfilled.

Bachelor of Applied Science

The purpose of the Bachelor of Applied Science is to provide students who have completed an Associate of Applied Science a pathway for completion of the baccalaureate degree. In addition, there are four proposed tracks that will allow students to do further study in an area, which will better prepare students for the work environment. In addition, students with a technical background may choose this degree as they can complete the first two years at a community College and transfer into this degree completion program. A student must

have completed a two year Associate of Applied Science degree to be eligible for this degree completion program. The curriculum consists of 120 credit hours.

- 30 credits of B.A.S. classes – 18 of these credits are required, the rest are to be taken in one of the following tracks:

Health Management

New Media

Interdisciplinary

Communications

Sustainability

- 3 - 10 credit hours of additional electives, for a minimum of 120 total hours

The B.A.S. degree is appropriate for those students seeking to further their career by finishing a baccalaureate degree. Most of these students will be in technical fields where the path ahead in their careers requires completion of a baccalaureate degree. Please see a professional Health Science advisor for complete curricular mapping of each concentration.

Coaching Minor

Coaching Minor:

Participation in sport at any level can be a richly rewarding experience for athletes. The variety of opportunities is continually expanding for both male and females from youth programs in all sports, middle and high schools, collegian interscholastic athletics, as well as community recreation programs.

A well-qualified coach, who understands the many facets of his or her role, is the single most important aspect of a successful program. A properly trained coach can provide the setting in which all athletes receive maximum benefits from their participation.

The IU Kokomo Coaching Minor is designed to give students the necessary information and experience to coach at many levels. *The coaching minor is open to all IU Kokomo students meeting 2.0 minimum GPA.*

Minor Requirements (15 -17 cr)

Course numbers pending approval. Please contact Division of Allied Health Sciences for enrollment information.

- **AHLT – W 165** (3 cr) First Aid and Emergency Care - fall/ spring
- **HPER – P 402** (3 cr) Sports Ethics – fall
- **AHLT – C 360** (3 cr) Philosophical Foundations of Coaching – summer/spring
- **HPER - P 405** (3 cr) Introduction To Sports Psychology
- **AHLT – C 485** (1 – 6 cr) *Practicum in Coaching (Junior/Senior standing and admission to the Coaching Minor) CPR Certification must be completed and recorded prior to enrollment in AHLT-C 485. May be repeated. – any*

The remaining two credits will be selected from the courses below which include coaching of a variety of

individual, dual, and team sports as well as a sports officiating class. Students may take one of the following for credit but do not have to for earning a minor in coaching. Three hours of theory/principles below can substitute for Practicum credit course. Students may take as many of these courses as they choose.

- **Select one from the following Theory and Technique courses (2 credit hours):**

AHLT – C 350 Theory and Technique of Coaching of Basketball (2)

AHLT – C 351 Theory and Technique of Coaching of Baseball (2)

AHLT – C 352 Theory and Technique of Coaching of Soccer (2)

AHLT – C 353 Theory and Technique of Coaching Softball (2)

AHLT – C 354 Theory and Technique of Coaching of Volleyball (2)

AHLT – C 355 Theory and Technique of Coaching Tennis (2)

AHLT – C 340 Principles of Sports Officiating (1)

Evaluation

Assessment of the Coaching Minor curriculum will be conducted through course-embedded assessment tools such as practice activities, development of training plans, and course exams. Students must attain a 2.0 GPA in the minor overall. Students must complete the practicum with a satisfactory evaluation by the practicum supervisor. Note that the practicum experiences can range from grade school and middle school or high school coaching to assistant coaching at the collegiate level; in a club setting such as a swimming, soccer, or basketball youth association; or at a recreational level, such as youth baseball or softball.

Note: It is the student's responsibility to check with their school/degree unit to determine whether this minor may be *officially* recorded on the transcript. The various schools on the IU Campuses may limit the number of hours outside their school that will count toward a degree. Students should check with an advisor in **their school** for information about minor rules.

Clinical Laboratory Science

Students may only complete the first three years of this program at IU Kokomo.

The clinical laboratory scientist is a member of the laboratory team in diagnosis and research who performs many of the tests on tissue and blood that physicians need to treat diseases properly. The first three years of the clinical laboratory science curriculum are designed to provide a broadly based background in chemistry and the biological sciences, as well as an opportunity to elect courses from the humanities and social and behavioral sciences. The fourth year is spent in the clinical laboratory at the IU Medical Center. Selection of the fourth-year students will be made by the faculty of the clinical laboratory science program at IUPUI. Upon graduation, students are eligible to apply for examination for certification by the Board of Registry of the American

Society of Clinical Pathologists. Persons with the B.S. in Clinical Laboratory Science find job opportunities in hospitals, clinics, research institutes, industry, and physicians' offices.

Degree Requirements

Students must:

1. Satisfactorily complete 90 credit hours, including general education requirements and program prerequisites.
2. Attain a cumulative grade point average of 2.5 or better and a science grade point average of 2.5 or better on a 4.0 scale.
3. Attain no less than a grade of C in the life and physical science prerequisite courses.
4. Satisfactorily complete the fourth (clinical) year.

Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Cytotechnology

Students may only complete the first three years of this program at IU Kokomo. The cell, the keystone of life and control point for health or disease, is the object of the cytotechnologist's attention. This fascinating field involves the microscopic inspection and evaluation of individual cells or groups of cells to detect cancer or other diseases.

The work of the cytotechnologist, which blends with that of pathologists and other physicians, involves developing and utilizing simple and reliable methods of collecting and evaluating cell samples from every organ of the body. The prime objective is to detect cancer early when treatment can often result in a cure for that disease.

Degree Requirements

The cytotechnology program is four years in length. It leads to a Bachelor of Science in Cytotechnology degree conferred by the Indiana University School of Medicine.

Students are admitted to the professional year of the cytotechnology program (at the IU Medical Center) after they have earned 90 credit hours of college course work. The professional year usually is the senior year of college study. However, a student who holds a degree in another field also may be admitted into the cytotechnology program. Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses. Questions regarding alternative biology courses should be directed to the cytotechnology program faculty.

Histotechnology

Student may complete all prerequisites for an Associate of Science degree in Histotechnology at IU Kokomo campus. There is also a Certificate program through IUPUI.

Length of Program One year of full-time certificate-level course work, or prior certification by the Board of Registry of the American Society for Clinical Pathology, plus additional time for completion of degree requirements. Students should aim to complete the course work in no more than five years from the time they first enroll in the program.

Structure of Program Designed for the employed histologist, the professional course work is offered by distance education. General-education courses may be completed at Indiana University or at other accredited colleges or universities.

Design of Professional Curriculum Completion of the certificate-level course work (24 credit hours) is required before pursuit of the associate degree. Alternately, the previously certified HT(ASCP) may apply for special credit in lieu of completion of the certificate course work. Required general-education courses may be transferred from any accredited college or university, in accordance with university and school policy. A minimum of 30 credit hours must be completed at Indiana University. The histotechnology capstone course, offered by distance education via Adobe Presenter and Adobe Connect web-conferencing, will be taken as the student nears degree completion.

Program Facilities The Histotechnology program office is in the IU Health Pathology Laboratory Building at Indiana University-Purdue University Indianapolis. Students access accredited course work by attendance at IUPUI or another college or university or through distance education offerings.

Upon successful completion of all standard academic requirements established for this program, the graduate is entitled to receive a Certificate in Histotechnology from Indiana University. By virtue of the standards required by this program, the graduate is eligible to take the Histotechnician Certification Examination administered by the American Society for Clinical Pathology's Board of Registry. The didactic and practical experience provided by the course of instruction should enable the graduate to accomplish the following objectives:

A. Technical Skill

1. Perform procedures of basic histologic laboratory techniques, instrumentation, and problem solving at entry-level competency.
2. Demonstrate knowledge of general and specific histologic methodology.
3. Perform procedures with accuracy and precision.
4. Monitor internal and external quality assurance measures.
5. Demonstrate knowledge of operational principles of commonly used laboratory instruments, to include the ability to perform daily preventative maintenance and correct simple malfunctions.
6. Exercise independent judgment regarding choice of procedure and evaluation of results.
7. Organize tasks to cope with volume of work and unexpected demands.

B. Communication

1. Communicate effectively with the clinical education supervisor and program director regarding curriculum and training courses.
2. Effectively organize and present information both in written assignments and oral communication.
3. Communicate effectively with other laboratory and health care providers.

C. Professional Behavior

1. Display an attitude reflecting pride and professionalism in daily laboratory duties.
2. Demonstrate adaptability, integrity, initiative, neatness, maturity, stability, and a desire for excellence.

Scholarships The American Society for Clinical Pathology, the National Society for Histotechnology, and several states' histology professional organizations sponsor scholarships for students in histotechnology. Other scholarship and financial aid opportunities may be available through the IUPUI Office of Scholarships and Financial Aid.

Courses are taught via distance education to students in qualifying histology laboratories around the United States. For more information please follow the link to IUPUI advising:

<http://www.iupui.edu/~bulletin/iupui/2012-2014/schools/medicine/undergraduate/histotechnology/index.shtml>

Health Information Administration

Students may only complete the first three years of this program at IU Kokomo. In every aspect of medical care, precise records are important. They are necessary for the physician to prescribe treatment for continuous patient care. They are vital to medical and hospital staff members in research and administration, and they become pivotal in medicolegal matters.

The training of specialists to develop, manage, and improve health information systems is the aim of the health information administration program. The field is both an art and a science. It involves data collection and analysis of medical records for research purposes and for improved health care delivery.

Degree Requirements

The four-year health information administration program leads to the degree of Bachelor of Science in Health Information Administration. It is conferred by the Indiana University School of Informatics.

Under this program, students take courses in medical record science; directed practice experience; medical terminology; medical care; hospital organization and management; and medicine and the law; along with courses in basic sciences, humanities, and business. In addition, students have a month-long clinical affiliation in the senior year. Assignments are usually made to a hospital outside the Indianapolis area.

Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Nuclear Medicine Technology

Students may only complete the first two years of this program at IU Kokomo. The graduate nuclear medicine technologist is a skilled person qualified to provide patient diagnostic and therapeutic services using ionizing radiation in the form of gamma rays, X-rays, and beta rays. These radiations emanate from radioactive materials. Nuclear medicine technologists perform patient organ imaging procedures, radioactive analysis of biological specimens (blood, urine), and some therapeutic applications of radioactive materials. Effective nuclear medicine technologists utilize principles

of radiation protection as they prepare and administer radioactive materials for a variety of examinations. They are capable of performing quality control procedures on the instrumentation and on the radioactive materials. Nuclear medicine technologists also assist physicians in surgical procedures and during examinations, give intravenous injections, draw blood, assess the technical quality of the studies, and provide basic patient care. The technologist must function as a member of the health care team.

Graduates receive a Bachelor of Science degree and are eligible to take the certification examination of the American Registry of Radiologic Technologists and the Nuclear Medicine Technology Certification Board to become certified as a nuclear medicine technologist, R.T. (N), or C.N.M.T.

Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Occupational Therapy

A pre-OT baccalaureate degree programs are available at IU Kokomo. See the Bachelor of Health Sciences in Allied Health Sciences; Biological and Physical Sciences Degree in the School of Sciences; or the Bachelor of Science in Psychology, General Science Degree in the Department of Psychology, School of Humanities and Social Sciences section in this bulletin.

Among the fastest growing of the allied health professions is occupational therapy. Professionals in this field are concerned with an individual's ability to engage in the normal activities of everyday life. Focusing on self-care, work, and play, registered occupational therapists determine the extent to which their patients or clients can function. Inability to function in certain areas may be due to lack of muscle strength, limitations in the range of motion in extremities, or the inability to properly integrate sensation. Other reasons include emotional disorders and social problems. After the assessment of the individual's level of function, the therapist plans a treatment program, taking into account the needs, abilities, and desires of the patient. The treatment techniques may include a variety of therapeutic methods, as well as common activities specifically adapted for the patient.

Degree Requirements

The occupational therapy program offers a Master of Occupational Therapy professional degree. The degree is conferred by the Indiana University School of Health and Rehabilitation Sciences at IUPUI. The prerequisites are a baccalaureate degree including courses in: Abnormal Psychology/Psychopathology, Human Growth and Development, Medical Terminology, Kinesiology, Statistics, Human Anatomy (with a lab) and Human Physiology (with a lab).

Paramedic Science

Students may only complete the first year of this program at IU Kokomo.

Emergency medical technicians (EMTs), formerly called ambulance attendants, care for people at the scene of emergencies and transport them to hospitals or other health care institutions. EMTs (basic, intermediate, and paramedic) determine the nature and extent of victims' medical and trauma-related emergencies and provide

limited care. Depending on their level of training and on state regulations, EMTs may provide such care as opening and maintaining airways, controlling bleeding, immobilizing fractures, and administering certain drugs.

The Associate of Science in Paramedic Science degree program is designed to prepare emergency medical technicians-paramedics to deliver emergency patient care in the pre-hospital setting. The EMT-paramedic primarily provides pre-hospital emergency care to acutely ill or injured patients by ambulance service and mobile advanced life-support units under medical command authority and, secondarily, provides care in other appropriate settings that are under physician supervision.

Degree Requirements

The paramedic science program is two years in length. It leads to an Associate of Science in Paramedic Science degree conferred by the Indiana University School of Medicine.

Students are admitted to the professional year of the paramedic science program (at the IU Medical Center) after they have earned 29 credit hours of college course work.

Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Physical Therapy

A pre-OT baccalaureate degree programs are available at IU Kokomo. See the Bachelor of Health Sciences in Allied Health Sciences; Biological and Physical Sciences Degree in the School of Sciences; or the Bachelor of Science in Psychology, General Science Degree in the Department of Psychology, School of Humanities and Social Sciences section in this bulletin.

Physical therapists work with individuals of all ages and treat patients with conditions such as burns; soft tissue injuries; heart and lung disabilities; and problems with nerves, muscles, and bones. Physical therapists use their skills to assist in patient rehabilitation following many types of surgical procedures.

Physical therapists, as members of the health care team, have roles in addition to direct work with patients. They may organize prenatal classes. They have responsibility for many aspects of preventive medicine such as developing screening programs in schools. Some physical therapists are in administration, others work in research, and some teach courses in physical therapy.

Because physical therapists (PTs) are involved in total maintenance and restoration of health and the prevention of disease, they must know how to apply physical, biological, social, and medical sciences to individuals.

It is essential for physical therapists to evaluate the physical status of patients. Based on results of the evaluations, the PTs, in consultation with referring physicians, establish treatment programs. Then, the physical therapist guides the application of the treatments and makes alterations as the needs of the patient change.

Degree Requirements

The physical therapy program encompasses three years of study and leads to a Doctor of Physical Therapy degree awarded by the Indiana University School of Health and

Rehabilitation Sciences at IUPUI. Students are accepted into the physical therapy program after completing a Baccalaureate degree.

Students must include Human Anatomy, Human Physiology, and one year of General Chemistry, one year of Physics, General Psychology, Life Span Development, and a course in Statistics as part of their undergraduate curriculum. Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Radiation Therapy

Students may only complete the first two years of this program at IU Kokomo. Radiation therapy involves the use of differing forms of ionizing radiation for the treatment of benign and malignant tumors. Radiation therapists administer the prescribed dose of radiation to specific sites of the patient's body as directed by the physician. They operate various types of equipment, including high-energy linear accelerators and radioactive materials, while practicing the principles of radiation protection. The radiation therapy technologist also monitors the patient's care during the treatment period. The Bachelor of Science degree curriculum is based on a combination of general education courses, professional courses, and clinical practicums. Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Respiratory Therapy

Students may only complete the first two years of this program at IU Kokomo.

Respiratory therapists help in the diagnosis and treatment of a wide variety of patients with heart and lung problems. Patients may be in newborn nursery units, in surgical and medical units, in emergency rooms, and in outpatient departments and intensive care units of hospitals. Patients may have chronic conditions that threaten their lives, or have birth defects or accident connected disabilities affecting their heart, lungs, or other body organs.

Sophisticated equipment may be necessary to help people continue breathing. Respiratory therapists assist patients with systems and procedures such as airway management, artificial mechanical ventilation, external cardiac massage, and other heart and lung support measures. Many patients who might not otherwise have survived are now returning to active lives. Respiratory therapists also perform patient care in carrying out physicians' orders with specific therapeutic measures. They may provide and recommend specialized respiratory care. They are concerned about total patient welfare, realizing that some procedures may affect a patient's overall physiologic status. Respiratory therapists use a variety of testing techniques to assist in medical research and diagnosis of disease in performing their function as a part of the health care team.

Degree Requirements

The respiratory therapy program offers a Bachelor of Science in Respiratory Therapy degree. In the first two years of college, students take prerequisite courses so that they may enter the professional portion of the degree program in the junior year. Counselors assist the students in choosing the proper beginning courses. Students apply for admission to the respiratory therapy program in the

fall semester one year prior to their anticipated entry. The admission process includes a personal interview during the spring semester.

The curriculum provides an understanding of the biological and physical sciences and disease processes, as well as of the technical equipment and procedures necessary to prepare graduates to function as important members of the health care team. Students become acquainted with the field through classes, laboratories, and in-hospital clinical experiences. Six hospitals in Indianapolis provide laboratory and direct patient care experience.

Please consult the *IUPUI Bulletin* for additional admission requirements and prerequisite courses.

Dental Hygiene, Indiana School of Dentistry

Students may only complete the first year of this program at IU Kokomo. The dental hygienist is a member of the dental health team who provides educational, preventive, and therapeutic oral health services. Employment opportunities may be available in private dental practice, hospitals, public health, educational institutions, and research. Indiana University offers a program leading to an Associate of Science degree.

Prerequisite Courses—Written communication (3 cr.), General Psychology (3 cr.), Introductory Sociology (3 cr.), Public Speaking (3 cr.), Chemistry (5 cr.), Arts and Humanities (6 cr.), Basic Human Anatomy (5 cr.), Basic Human Physiology (5 cr.), and Microbiology (4 or 5 cr.).

Information about dental auxiliary education programs may be obtained from the following sources:

Emergency Medical Services (EMT)

An educational program in Emergency Medical Technician—Basic and Paramedic Science is located on the Indiana University—Purdue University Indianapolis campus and is offered through the IU School of Medicine Department of Emergency Medicine in conjunction with Wishard Memorial Hospital Division of Emergency Medical Services.

Health, Physical Education and Recreation

HPER courses at IU Kokomo are those involving Health, Physical Education and Recreation. HPER courses are provided through the Division of Allied Health Sciences. Most are one credit hour courses that can be used for

a variety of University electives or core requirements.

Please see an Allied Health Science advisor for specifics.

HPER courses offered through IU Kokomo at typically provided by our fitness and wellness partners including the Kokomo Sports Center, Logansport YMCA and Peru YMCA. Beginning in the fall of 2013 the Kokomo campus hopes to expand the offerings and provide additional courses in it new on campus Fitness Center. Course offerings may vary by semester, season and availability of facility.

Allied Health Science Undergraduate Courses

AHLT-A 344 Strength Training and Conditioning

(3 cr.) This course is intended to cover the essentials of strength training and conditioning to prepare a student who is interested in becoming a Certified Strength and Conditioning Specialist or a Certified Personal Trainer. (P: ANAT-A 215, PHYS-P 215)

AHLT-C 180 Introduction to Clinical Laboratory (1 cr.)

This course is an accelerated 8 week course. An overview and introduction to laboratory safety and basic skills as used in specimen processing and laboratory information systems, urinalysis, hematology, chemistry, immunology, immunochemistry, and microbiology and phlebotomy. Universal precautions and proper procedures in regard to specimen processing will be taught to the student. Laboratory quality control, and the proper use of instrumentation will be presented as used in the clinical laboratory settings. Normal human laboratory values will be discussed. Students will take field trips to local health facilities' laboratories. Attendance for these trips is mandatory for success in this course.

AHLT-C 340 Principles of Sports Officiating (1 cr.)

Topics in sports officiating will include sports such as football, basketball, softball (baseball) and volleyball. Ethics of sport officiating; mastery, interpretation, and application of sports rules. Laboratory and classroom experiences.

AHLT-C 350 Theory and Technique of Coaching

Basketball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Basketball at elementary, secondary, and collegiate levels.

AHLT-C 351 Theory and Technique of Coaching of

Baseball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Baseball at elementary, secondary, and collegiate levels.

AHLT-C 352 Theory and Technique of Coaching

of Soccer (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Soccer at elementary, secondary, and collegiate levels.

AHLT-C 353 Theory and Technique of Coaching

Softball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Softball at elementary, secondary, and collegiate levels.

AHLT-C 354 Theory and Technique of Coaching of

Volleyball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Volleyball at elementary, secondary, and collegiate levels.

AHLT-C 355 Theory and Technique of Coaching

Tennis (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Tennis at elementary, secondary, and collegiate levels.

AHLT-C 360 Philosophical Foundations of Coaching

(3 cr.) A philosophical approach to coaching for various sports. Topics include, but are not limited to, different coaching styles and strategies, growth and development characteristics, legal issues and liability, pedagogical considerations, coaching relationships, and other issues and problems related to sport.

AHLT-C 424 Issues in Intercollegiate Athletics (3 cr.)

Examination of current issues in intercollegiate sport in America. This course presents the historical foundation of current issues and solutions, and examines current positions and arguments.

AHLT-C 485 Practicum in Coaching (1-6 cr.)

Under the advisement of a faculty member and supervision of a coach/ sports/ fitness specialist, the student will work or otherwise actively participate in a coaching setting. (Junior/Senior standing and admission to the Coaching Minor) CPR Certification must be completed and recorded prior to enrollment in AHLT-C 485. May be repeated for credit.

AHLT-E 371 Exercise Physiology (3 cr.) Evaluation of the acute responses and chronic adaptations of the body to the stresses of exercise. (P: ANAT-A 215; PHSY-P 215; AHLT-E 409)

AHLT-E 409 Foundations of Exercise Science (3 cr.)

History, philosophy, and scientific foundations of exercise science and sport. Overview of careers, fields of study and requirements in physical education and allied disciplines. Issues, challenges, and current/future trends are also addressed.

AHLT-E 440 Basic Exercise Physiology (3 cr.)

A survey of human physiology parameters as related to physical exercise and work, and the development of physiological fitness factors. Physiological foundations will be considered.

AHLT-F 144 Foundations of Human Movement (3 cr.)

Identification, analysis, and evaluation of fundamental motor patterns, progressions in skill development and skills for effective teaching. Analysis, evaluation and development of personal movement and sports skills.

AHLT-F 165 First Aid and Emergencies (3 cr.)

First Aid and Emergencies covers the necessary First Aid and knowledge about emergencies to proper care for someone who experiences injury or sudden illness.

AHLT-F 340 Physical Fitness Appraisal and

Performance Assessments (3 cr.) A study of the basic scientific components of fitness and the measurement of different indices of physical fitness. (P: ANAT-A 215; PHSY-P 215)

AHLT-H 327 Intro to Public Health (3 cr.) A foundational overview of the field of Public Health to include policy and functions of governmental health organizations and disease containment.

AHLT-H 331 Environmental Health (3 cr.) This course is a survey course intended to give students a basic understanding of how environmental factors impact the health of people and the community, and of the efforts made to prevent or minimize the effects of negative impacts.

AHLT-H 364 Stress Management in Health Professions (3 cr.) This course examines the biology of stress and the psychological aspects of stress and its relationship to physiological/ psychological illnesses. Practical and effective stress management options such as coping strategies, time management, behavior modification, and relaxation techniques are explored.

AHLT-H 400 Topics in Health Sciences (3 cr.) The course topic, civic engagement and cancer, has a focus on public health education and advocacy and the politics of breast cancer. The course begins with a recognition that ethical issues can arise in the breast cancer advocacy movement. Other topics will cover chronic diseases such as diabetes, cardiovascular disease and obesity

AHLT-H 404 Consumer and Environmental Health (3 cr.) The course is divided into two, eight week sections. The first section, Environmental Health, consists of an in-depth overview of the interrelationship between environmental systems and humans and the impact of the ecosystem (air, water, noise, chemical, nuclear and industrial pollutants) on the health of individual communities. The second section, Consumer Health, consists of comprehensive examination of the factors involved in the selection and evaluation of health products and services including protection laws and services, fraudulent practices/products, consumerism, and traditional and alternative health care.

ALTH-H 411 Health Communications (3 cr.) Concepts, theories and applied approaches for health communications with emphasis on social marketing, media, advocacy and the process of media messages on health behaviors. (P: SPCH-S 121, and AHLT-H 327, or instructor permission)

AHLT-H 415 Child and Adolescent Health (3 cr.) An overview of determinants and indicators of health of children and adolescents.

AHLT-H 419 Advocacy Internship (3 cr.) Learn about the science of breast cancer and how to be a credible health advocate and apply knowledge at the local and national levels. Student will participate in a national summit in Washington DC and serve as a civilian lobbyist on Capitol Hill.

AHLT-H 434 Diseases of Diverse Population (3 cr.) This course covers current information about infectious and chronic diseases from a community health perspective; including physiological, psychological, social, cultural, political, environmental, healthcare and economic aspects influencing disease of diverse populations of the world.

AHLT-H 499 Senior Health Sciences Capstone (3 cr.)

Demonstration of competencies and skills acquired throughout the health sciences education program. To include a professional portfolio (Senior in Health Science major or consent of Professor).

AHLT-K 410 Kinesiology (3 cr.) A course designed to aid the student's understanding of the muscular control of the body and the mechanics of body and implement control. This course is designed to develop a basic understanding of sport mechanics and an appreciation of how superior sport techniques are based on the use of developmentally appropriate scientific concepts and natural law. (P: ANAT-A 215; PHSY-P 215 and Health Science Major).

AHLT-M 101 Introduction to Health Records (3 cr.) Focus on the role of the coding professionals as an essential part of the healthcare team.

AHLT-M 102 Clinical Experience (2-4 cr.) Clinical assessment in systems and processes for collecting, maintaining, and disseminating health related information; development of professional attitude for interacting with consumers and other professions in the health care industry.

AHLT-M 190 Coding I (3 cr.) The study of ICD-9-CM coding and classification principles and CPT coding principles, as used in acute ambulatory and long-term care facilities.

AHLT-M 191 Coding II (3 cr.) Advanced principles of the ICD-9-CM classification system; optimization; DRG's, sequencing, reimbursement; application of CPT coding principles in acute and ambulatory settings.

AHLT-M 192 Introduction to HIM and Reimbursement Methodologies (3 cr.) Introduction to health information management, health records, standards, regulations and content; overview of release of information principles, privacy and security; reimbursement methodologies including Medicare, third party payers, ambulatory settings and physician practices.

AHLT-M 195 Medical Terminology (3 cr.) This course presents a study of basic medical terminology. Prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols are included in the content. A programmed learning, word building systems approach will be used to learn word parts that are used to construct or analyze new terms. This provides the opportunity to decipher unfamiliar terms and check their spelling. Emphasis is placed on spelling, definition, usage and pronunciation. Abbreviations will be introduced as related terms. *This course is now an-line offering.*

AHLT-M 301 Electronic Medical Records Management (3 cr.) This course is designed to introduce the student to the basics of electronic medical records (EMR) management. This course outlines the essential documents/data content required for maintaining legal medical records using electronic and paper media.

AHLT-N 130 Introduction to Foods (3 cr.) This course examines the relationship between nourishment, lifestyle choices, and health and disease. Topics include sources and functions of nutrients and

their metabolism. Investigation of eating patterns using database technology demonstrates the relationship between food consumption and nutrient adequacy. The economic, cultural and psychological implications of food choices and eating behaviors are studied.

AHLT-N 220 Principles of Nutrition (3 cr.) Introduces the student to the investigation of the principles of nutrition as applied to humans. It is an introductory nutrition course for nutrition majors as well as non-majors and does not require a prerequisite.

AHLT-N 271 Cultural Gustatory Perceptions (3 cr.) The phrase "go for the gusto" medical terminology wise refers to the sense of taste. The sense of taste is necessary to identify food and forms a taste preference, although the appeal of both sweet- and salty-tasting substances, in large part at least, is innately determined. Designed on one hand to examine food preferences, delicacies and taboos tied to some of the world's most unusual sources of sustenance, the course is also crafted to connect the simple acts of eating, no matter how unusual the product or preparation, with the supper table's intricate links to culture, identity, politics and economics. This course seeks to explore ways people are working to preserve their food cultures. In doing so, students also receive education through concepts and basic nutrition knowledge.

AHLT-N 314 Nutritional Assessment (3 cr.) This course will include the review of devices utilized in nutritional assessment practice. Review of all indication, strengths, weaknesses, methodologies, and scope of practice will be discussed. Current evidence based guidelines will be reviewed and assessment guidelines and interpretation will be studied. The value of healthcare provider nutrition assessment evaluation will be emphasized.

AHLT-N 323 Topics in Nutritional Science (3 cr.) The topical seminars relate to current issues in the field of nutrition/ dietetics. Possible topics for this seminar are weight reduction and fad diets, food additives, diet and human performance (diet for the athlete), vegetarianism, child nutrition, diet for senior citizens, diet and disease (*P: AHLT - N 130 or HPER -N 220*)

AHLT-N 336 Nutrition Through the Lifecycle (3 cr.) Application of nutrition principles to the human life cycle: nutrient functions, needs from infants to mature aging.

AHLT-N 362 Science of Nutrition (3 cr.) *P: ANAT-A 215, PHSY-P 215, AHLT-N 220* This course is an intended to explore the relationship between nourishment, lifestyle choices, and long term health. Topics include classes, sources, and functions of nutrients; and their digestion, absorption, and metabolism. Investigation of eating patterns using database technology demonstrates the relationship between food consumption and nutrient adequacy. The economic, cultural, and psychological implications of food choices and eating behaviors are studied.

AHLT-N 378 Global Nutrition (3 cr.) The history of food and hunger, and the global nature of our food systems focusing on the impact of our food decisions on the environment, agricultural production, world population relative to food supply, hunger, biotechnology, and safety

of our food supply. No prerequisites to this course. Also discuss community nutrition and resources for underserved populations such as meals-on-wheel and WICS.

AHLT-N 402 Nutrition and Fitness (3 cr.) *P: ANAT-A 215, AHLT-N 220* This course examines human growth and development through the lifecycle, from prenatal nutrition through old age. It involves the study of the interrelationship between eating habits, exercise habits, and some of the following: preventative care; cardiovascular health; flexibility and strength; physical endurance; stress; substance abuse; and eating and behavioral disorders. In addition, this course will explore current trends in processing and marketing foods and other important socioeconomic, cultural and life cycle factors that affect human growth and development.

AHLT-N 420 Nutrition and Disease (3 cr.) This course will provide an in-depth look at the relationship between nutrition and disease. Cancer, cardiovascular, digestive, diabetes and various other diseases will be discussed. The nutritional strategies of prevention and treatment for evidence based medicine and applied research. Evidence based health practice will be identified. An overall comprehensive plan of integrating positive nutritional impacts in to the interdisciplinary team will be addressed.

AHLT-N 442 Exercise and Nutrition (3 cr.) Nutritional needs of individuals participating in physical activity and sport. Topics include the role of individual nutrients in metabolism, estimation of energy needs, fluid balance, food fads, meal planning and nutritional needs of the body during various stages of activity.

AHLT-N 456 Nutrition through the Life Cycle (3 cr.) Application of nutrition principles to the human life cycle: nutrient functions, needs from infants to mature aging.

AHLT-R 100 Orientation to Radiologic Technology (2 cr.) *C or P: AHLT-R 101, AHLT-R 102, and AHLT-R 181.* Introduction to the field of radiology and its history. Students learned proper ethical standards, become acquainted with the duties and responsibilities in personal care for the patient, and investigate radiation protection for the patient and personnel.

AHLT-R 101 Radiologic Procedures 1 (4 cr.) *C or P: AHLT-R 100, AHLT-R 102, and AHLT-R 181.* Concepts in radiography with emphasis on the radiographic procedures used to demonstrate the skeletal system.*

AHLT-R 102 Principles of Radiography I (3 cr.) *C or P: AHLT-R 101, AHLT-R 181.* Basic concepts of radiation, its production, and its interactions with matter. Includes the production of the radiographic image and film processing.

AHLT-R 181 Clinical Experience in Radiography I (4 cr.) *C or P: AHLT-R 100.* Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 182 Clinical Experience in Radiography II (4 cr.) *P: AHLT-R 101 and AHLT-R 181.* Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a

registered technologist until mastery of clinical objectives is reached.*

AHLT-R 200 Pathology (2 cr.) P: ANAT-A 215 and PHSL-P 215. A survey of the changes that occur in the diseased state to include general concepts of disease, causes of disease, clinical symptoms and treatment, and diseases that affect specific body systems.

AHLT-R 201 Radiographic Procedures II (4 cr.) C or P: AHLT-R 101, and AHLT-R 182. Concepts in radiography with emphasis on radiographic procedures used to demonstrate the skull and those requiring the use of contrast media.*

AHLT-R 202 Principles of Radiography II (3 cr.) C or P: AHLT-R 102, R 201, and R 181. Continuation of R102 with emphasis on the properties that affect the quality of the radiographic image.

AHLT-R 205 Radiographic Procedures III (4 cr.) C or P: AHLT-R 201 and AHLT-R 222. Concepts in radiography with emphasis on special radiographic procedures and related imaging modalities.*

AHLT-R 207 Current Topics in Radiography (2 cr.) Individual and group study focusing on the state of the art in radiography.

AHLT-R 208 Topics in Radiography (2 cr.) Selected topics in radiography. May be repeated for credit if topics differ. Prerequisites may exist for some topics.

AHLT-R 222 Principles of Radiography III (3 cr.) P: AHLT-R 202 Continuation of AHLT-R 202 with emphasis on the application of radiography principles on imaging equipment.

AHLT-R 250 Physics Applied to Radiology (3 cr.) P: MATH-M 117 Fundamentals of radiation physics, X-ray generation, and equipment quality control.

AHLT-R 260 Radiation Biology and Protection in Diagnostic Radiology (3 cr.) P: AHLT-R 250 Study of the biological effects of ionizing radiation and the standards and methods of protection. Emphasis is placed on X-ray interactions. Also included are discussions on radiation exposure standards and radiation monitoring.

AHLT-R 281 Clinical Experience in Radiography III (5 cr.) P: AHLT-R 201 and AHLT-R 182. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 282 Clinical Experience in Radiography IV (5 cr.) P: AHLT-R 201 and AHLT-R 182. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 283 Clinical Experience in Radiography V (3 cr.) P: AHLT-R 201 and AHLT-R 182. Clinical application of radiography positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a

registered technologist until mastery of clinical objectives is reached.*

AHLT-R 290 Comprehensive Experience (5 cr.) P: AHLT-R 281, AHLT-R 282, and AHLT-R 283. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology under the direct supervision of a registered technologist. Successful completion involves mastery of all clinical aspects of the program.*

AHLT-R 404 Sectional Imaging Anatomy (3 cr.) An in-depth study of sectional anatomy pertinent to ultrasound, computed tomography, and magnetic resonance imaging. Standard transverse, parasagittal, and coronal planes are included, utilizing images from all three imaging modalities. A discussion of technique, artifacts, and pathology-related alterations of cross-sectional anatomic appearances is included.

AHLT-R 405 Advanced Diagnostic Imaging I (3 cr.) Physics and imaging concepts in cardiovascular interventional technology, computed tomography, diagnostic medical sonography, and magnetic resonance imaging.

AHLT-R 406 Advanced Diagnostic Imaging II (3 cr.) Procedural concepts in cardiovascular interventional technology, computed tomography, diagnostic medical sonography, and magnetic resonance imaging. Image analysis of normal and abnormal studies will be presented.

AHLT-R 407 Seminar: Advanced Medical Imaging Technology (3 cr.) Seminar in advanced imaging modalities. Topics will vary.

AHLT-R 408 Topics in Radiologic Sciences (3 cr.) Study of selected topics in radiologic sciences. May be repeated once for credit if topics differ.

AHLT-R 409 Senior Project in Medical Imaging Technology (3 cr.) Independent readings and research on a selected medical imaging topic. A paper in publishable form must be written as part of the project.

AHLT-R 481 Clinical Practicum: Vascular Imaging (8-12 cr.) Clinical experience in the performance of vascular and neurological imaging studies.*

AHLT-R 482 Clinical Practicum: Computed Tomography (8-12 cr.) Clinical experience in the performance of computed tomographic imaging studies.*

AHLT-R 483 Clinical Practicum: Magnetic Resonance Imaging (8-12 cr.) Clinical experience in the performance of magnetic resonance imaging studies.*

AHLT-R 484 Clinical Practicum: Ultrasound Imaging (8-12 cr.) Clinical experience in the performance of ultrasound imaging studies.*

AHLT-R 485 Clinical Practicum (6 cr.) Clinical experience in various radiological modalities –Variable topics.*

AHLT-R 490 Independent Study in Medical Imaging Technology (1-6 cr.) Prerequisite currently enrolled in MIT major or instructor consent. This course is designed to offer medical imaging technology students the ability to complete various topics of study related to this field but

that are not covered in other MIT courses. Topics will vary according to the student's desired direction of study.

AHLT-S 214 Introduction to Health Sciences (3 cr.)

This course is designed for students to explore a wide array of subject areas in the field of health sciences. This course will focus on the Health, Exercise, Fitness and Sports. Topics will include sport psychology, exercise psychology, motor behavior, and health and wellness.

AHLT-S 280 Principles of Athletic Training (3 cr.)

this course will provide the student an introduction to athletic training which will include history, injury prevention establishing a program for injury prevention and rehabilitation. Emphasis will be on preventing injuries and recognition. (P. ANAT- A 215 or consent of instructor)

AHLT-S 455 Topics in Sports and Fitness (3 cr.)

The aim of this course is to explore the social psychological research and theories that facilitate understanding of personal excellence in sport. The course introduces theoretical and empirical work on participation and acquisition of expertise in sport as well as methodological issues related to developmental research in sport. Specific discussion will focus on developmental aspects and learning conditions that allow individuals to maintain participation and reach high levels of performance in sport.

AHLT-S 491 Sports and Fitness Internship (1-6 cr.)

Under the advisement of a faculty member and supervision of a coach/ sports/ fitness specialist, the student will work or otherwise actively participate in a sports and fitness setting. (Prerequisites: Declared Health Science major; junior or senior standing or permission of instructor). May be repeated for credit

AHLT-W 100 Careers in the Health Professions (3 cr.)

This course explores many of the primary Allied Health Science professions found in health care.

AHLT-W 120 Lifetime Fitness and Wellness (3 cr.)

Designed to provide students the knowledge and opportunity to develop and participate in a fitness program to include the four health-related physical fitness components: cardiovascular endurance, muscular strength & endurance, flexibility, and body composition.

AHLT-W 165 First Aid and Emergencies (3 cr.) Covers the necessary First Aid and knowledge about emergencies to proper care for someone who experiences injury or sudden illness.

AHLT-W 210 Current Issues in Health Care (3 cr.)

This course is designed to expose students to a variety of issues relevant to healthcare and promotions of healthy lifestyles. This course is aimed at examining current issues that affect health of individuals, USA population and global populations. Emphasis will be placed on life-style behaviors contributing to health wellness and disease prevention. This course will have different topics and issues depending on the climate of health care. Various governmental policies and global events.

AHLT-W 280 Principles of Athletic Training (3 cr.)

Counts towards coaching minor* : An introduction to the

principles of injury prevention through proper application of current training techniques.

AHLT-W 301 Intergraded and Complimentary Health (3 cr.)

This course focuses on the pathophysiology and holistic health management of acute and chronic problems.

AHLT-W 310 Women's Health (3 cr.)

Examines the relationship of women to health and health care. Five dimensions of health – physical, mental, emotional social and spiritual- provide a framework for comparison and contrast of health concerns unique to women and common to both sexes of all ages.

AHLT-W 314 Ethics for Health Professionals (3 cr.)

Professionals provides a thorough grounding in ethical theories and principles as reflected in current health care issues and policies. Students are introduced to a variety of frameworks for ethical decision-making and policy analysis. Current trends in the political, economic, and legal spheres of the contemporary health care arena are analyzed through the use of case studies, articles and video presentations.

AHLT-W 340 Physical Fitness Appraisal and Performance Assessments (3 cr.)

A study of the basic scientific components of fitness and the measurement of different indices of physical fitness. (P ANAT – A 215; PHSY – P 215)

Nutritional Science Minor

Nutritional Science Minor:

Nutrition or rather the lack of proper nutrition is becoming a national epidemic. Many medical experts have listed obesity as the number one community health issues in America. The purpose of this minor in Nutritional Sciences is to provide students with knowledge that will allow them to make better informed choices in their personal life as well as be able to educate others about the need for proper nutrition and chronic diseases that are associated with lack of proper nutrition and exercise at various stages in the human life cycle. These courses will help the student separate facts from fiction; provide insight into food safety and nutrition for the global communities. The student will gain knowledge of the community health systems from local not-for-profits to national governmental agencies that may be helpful in providing nutritional sustenance for those that cannot afford to purchase healthy foods and meals. Other nutritional material taught in this minor will be teaching individuals how to read and interpret labels and apply this knowledge to the FDA and ADA guidelines for daily requirements of nutrients.

Sciences will be applied to gaining knowledge of how vitamins, minerals and herbal supplements can contribute to a healthy diet and exercise plans.

Students wishing to apply science and health interests to nutrition will find this minor a perfect complement for many majors. The minor will provide students with knowledge of food, how the body uses nutrients, nutritional issues for personal health, health in the community, as well as the association of nutrition and disease.

Nutritional Science Minor (15 cr.) (NUTRIMIN)

Division of Allied Health Sciences effective for students matriculating fall 2013. The minor requires 15 credit

hours including at least 6 credit hours at the 300 level or above. A minimum of 9 credit hours of the nutritional science minor must be completed at IU Kokomo. A 2.0 minimum cumulative minor GPA required. A minimum grade of (C-) is required in each course. No Pass/Fail option permitted

Required courses: (3 credits)

HPER – N 220 (3 Cr.) Principles of Nutrition: This course is designed to introduce the student to the investigation of the principles of nutrition as applied to humans. It is an introductory nutrition course for nutrition majors as well as non- majors and does not require a prerequisite. Basic scientific principles of nutrition will be the primary focus of the course. Practical applications for nutrition will also be included. Topics will include classes, sources, and function of nutrients, digestion and absorption, and metabolism with applications to normal and therapeutic nutritional needs.

Elective courses: (Select 4 out of 6 courses) (12 credits)

- *AHLT-N 323* Topics in Nutritional Science (3 Cr.)
- *AHLT-N 336* Nutrition Through the Life Cycle (3 Cr.)
- *AHLT-N 442* Exercise and Nutrition (3 Cr.)
- *AHLT-N 387* Global Nutrition (3 Cr.)
- *AHLT-N 271* Cultural Gustatory Perceptions (3 Cr.)

School of Business

Erwin Boschmann, Interim Dean

Gloria Preece, M.B.A. Director

Professors: Chulkov, Cox, Meybodi, Parkison, Rink, Roden

Associate Professor: Ficht

Assistant Professors: Kim, Nur, Smith, VanAlstine

Lecturer: Preece

The School of Business offers the Master of Business Administration, and Bachelor of Science in Business with concentrations in Accounting, Finance and Economics, Management, and Marketing. The School also offers a Post-Baccalaureate Certificates in Accounting and in Business Fundamentals. These programs provide opportunities for breadth of education as well as for a reasonable level of specialization.

Mission

The School of Business provides innovative, quality, and cost-effective undergraduate and graduate business education in North Central Indiana. The School prepares students with the skills to excel and function responsibly in a diverse global economy. The faculty is dedicated to excellence in teaching, research, and service. (Adopted 4/19/2013 by the School of Business)

Accreditation

The School of Business is accredited by the Association to Advance Collegiate Schools of Business (AACSB) International on both undergraduate and graduate levels.

Undergraduate Programs

The baccalaureate program of the School of Business is based on the principle of a balanced education in business

administration and economics with a foundation in the arts and sciences. The undergraduate program allows students to specialize in professional fields integral to contemporary enterprise and management. It prepares students in north central Indiana to become effective organizational leaders and managers. The undergraduate curriculum consists of three parts: (1) general education, (2) basic business administration, and (3) professional courses. In addition, the program includes courses covering the principles, practices, and trends involved in managing organizations in today's dynamic economic, social, and political environment. Seniors have a range of elective courses in their concentration area. Courses on this level require participation by students in the discussion and solution of cases, projects, and special problems drawn from the contemporary business world.

Undergraduate Scholarships and Awards

Beta Gamma Sigma (BGS) Scholarship

One Beta Gamma Sigma (BGS) Scholarship is awarded to a current BGS member or a student who will be invited to become a member during the academic year and will be a degree-seeking student in the School of Business at IU Kokomo. The scholarship is contingent upon acceptance of the membership invitation.

Business and Economics Accounting Scholarship Excellence Award

The Business and Economics Accounting Excellence Scholarship at IU Kokomo is designed to recognize excellence and superior academic performance. The Accounting Excellence Award is normally a \$750 scholarship based on several factors. Financial need is not a factor.

Bucheri, McCarty & Metz Scholarships

One Bucheri, McCarty, & Metz Scholarship is awarded to a senior with a business concentration or an M.B.A. student taking a minimum of six credit hours. Recipient must be a resident of Howard County.

Business and Economics General Undergraduate Scholarship

The Business and Economics General Scholarship is awarded to an outstanding junior or senior with a concentration in finance and economics, management, or marketing and international business. Overall G.P.A. must be 3.0 with a 3.5 in business and economics courses. The recipient is carefully selected on the basis of his/her academic achievements, co-curricular activities and recommendations.

Fingleton Scholarship

The Fingleton Scholarship, established by Richard Fingleton, is awarded to an individual having strong academic performance in accounting and business. Service activity is also a major consideration. Preference is given to those with service to the accounting program, e.g., Accounting Council and VITA. The scholarship is \$1000, awarded in both the fall and spring semesters based on several factors.

Outstanding Accounting Student Scholarship

The Outstanding Accounting Student Scholarship established by Professor Emerita Marilyn Kintzele is designed to recognize excellence and superior academic performance. The scholarship is \$1500.

Patricia Pencek Endowed Scholarship

The Pencek Endowed Scholarship established by the Realtor Association of Central Indiana (RACI) in honor of Patricia Pencek is awarded to a junior or senior business major enrolled at IU Kokomo. Applicants must have a record of academic excellence as demonstrated by a minimum G.P.A. of 3.0 on a 4.0 scale and a resident of Howard County or contiguous counties (Carroll, Cass, Clinton, Grant, Miami, and Tipton).

Sita C. and C. L. Amba-Rao Service Award

The Amba-Rao Service Award donated by Professor Emerita Sita Amba-Rao is given annually to a student in management. Recipient must be junior standing with a record of academic excellence as demonstrated by a cumulative G.P.A. of at least 3.2 on a 4.0 scale. Students should demonstrate managerial and leadership potential through participation in campus and community organizations.

Scholarship and award criteria may be found in the School of Business office, KO 185. Scholarship and award recipients are expected to be enrolled during the following academic year.

Non-monetary Awards/Plaques

Outstanding Undergraduate Student in Business
Outstanding student in Accounting (Given by the Indiana CPA Society)

M.B.A. Scholarships and Awards**Bucheri, McCarty & Metz Scholarship**

(Please see listing in the undergraduate section.)

Business and Economics General Graduate Scholarship

The Business and Economics General Scholarship is awarded to an outstanding student in the School of Business' M.B.A. program with a minimum overall G.P.A. of at least 3.5. The recipient is carefully selected on the basis of their academic achievements, leadership in M.B.A. Association, and recommendations from the School of Business faculty.

Pendse Outstanding M.B.A. Student Award

This fund established by former M.B.A. director Dr. Dilip Pendse and Mrs. Vijaya Pendse recognizes an outstanding M.B.A. student in the School of Business. The recipient will be an IU Kokomo M.B.A. student who will be completing program requirements in the spring semester or have already completed in the previous summer or fall semester. Recipient must have a G.P.A. of at least 3.7 on a 4.0 scale. The award will be given strictly on the basis of academic achievement, not financial need.

Sita C. and C. L. Amba-Rao Service Award

The Amba-Rao Service Award was donated by Professor Emerita Sita Amba-Rao and is given annually to an M.B.A. student. The candidate should have a record of academic excellence as demonstrated by a cumulative G.P.A. of at least 3.2 on a 4.0 scale. Students should demonstrate managerial and leadership potential through participation in campus and community organizations.

Guidelines and criteria for the above scholarships and awards are available in the School of Business office, Main Building, Room 185. Scholarship and award recipients are expected to be enrolled during the following academic year.

Non-monetary Awards/Plaques

Outstanding M.B.A. Student in Business

Policies Governing Undergraduate Studies**Admissions and Graduation Requirements**

The requirements for admission to the Bachelor of Science in Business program are completion of 26 credit hours, a minimum G.P.A. of 2.0 and a minimum grade of C- in ENG-W 131, SPCH-S 121 and MATH-M 118 or MATH-M 133 and M 134. Further, for graduation, a minimum grade of C- and overall G.P.A. of 2.0 (C) is required for all courses.

Degree Requirements

Graduates of the School of Business undergraduate program must fulfill all of the General Education requirements as passed by the Faculty Senate. These general education requirements are effective with the Fall 2013 admitted students and are found elsewhere in this bulletin. Students in the School of Business are responsible for planning their own programs and for meeting degree requirements. It is their responsibility to understand fully and to comply with all the provisions of this bulletin. However, they are strongly encouraged to meet with an Undergraduate Advisor to discuss their plan and standing in the program.

Degree Applications

Candidates for a degree are expected to meet proper deadlines for the filing of degrees. Graduation dates at IU Kokomo occur in December, May, and August. Students planning to graduate in December must apply for their degrees by September 1. The application deadline for May and August graduations is January 15.

Credit Hour Requirement

The minimum number of credit hours required for the baccalaureate degree is 120 in courses meeting the various requirements stated in this bulletin. Thirty of the last 45 credit hours must be taken at IU Kokomo, and at least 50 percent of business credits must be earned at Indiana University.

Credit Deadline

All credit for a degree, except that for the work of the current semester, must be on record at least one month prior to the conferring of the degrees.

Grade Point Average Requirements

A minimum cumulative grade point average of 2.0 (C) is required for graduation. Grades of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F are included in the grade point average. Students may replace a grade by retaking a class (up to 3 classes totaling 9 credit hours) and filing the appropriate form. A grade of at least C- must be earned in all Business and Economics classes, and all general education requirements.

Academic Standing

Students who consistently maintain a grade point average of 2.0 (C) or higher in both their cumulative and semester records are considered to be in good standing.

Statute of Limitations

Students who are candidates for the Bachelor of Science in Business degree have the right to complete degree requirements specified by the bulletin in effect at the time they matriculated at Indiana University, provided (1) that the necessary courses are available, and (2) that no more than eight calendar years have elapsed since matriculation. In the event that courses are not available or more than eight years have elapsed, students must consult with a Business advisor to update their programs to the bulletin currently in effect.

Junior College, Community College, and Correspondence Study Credits

The maximum number of credit hours allowed from a community or junior college is 64 unless otherwise approved in an articulation agreement. Online courses at the 300-400 level must be taken at an AACSB accredited school and be approved by the undergraduate advisor. Students seeking exceptions to the above policy must obtain the written approval of the dean of the School of Business. Thirty of the last forty-five credit hours must be taken at IU Kokomo.

Transfer-Credit Policy

Students who transfer from approved colleges to undergraduate study in the School of Business must take required courses if they have not had equivalent courses in the school from which they transferred. Courses in

advanced business and economics subjects that are not open to IU Kokomo freshmen and sophomores, but that are taken in other institutions in the freshman and sophomore years, are not accepted as equivalents of Indiana University courses unless the student passes validation examinations in such subjects. Courses transferring in as 300- and 400-level business or economics courses must have been taken at an AACSB accredited school. Business and economics courses taken at other institutions more than ten years prior to the student's acceptance into the school are not accepted as equivalents of Indiana University courses. Only grades earned at Indiana University count toward a student's grade point average. Grades from other universities transfer as credits only, although transfer grades appear on the credit transfer report. The School of Business does not accept credit from educational programs of non-collegiate organizations. In some cases, the experience from these programs may qualify a student for a special credit examination.

Requirements for a Second Bachelor's Degree

Holders of a bachelor's degree in areas other than business may seek a second bachelor's degree in business through the School of Business. The candidate will, of course, be exempted from any requirements already fulfilled in the first bachelor's degree. Normally, the holder of a bachelor's degree wanting to pursue further education is encouraged to seek admission to graduate study. In certain cases, however, a student may be admitted for a second bachelor's degree. When such admission is granted, the candidate must earn at least 30 additional credit hours in residence and meet the requirements of the School of Business and of the chosen concentration. Students who have been awarded the B.S. degree in business at Indiana University may register as special students to meet the requirements of another concentration, but they cannot receive the same degree a second time.

Business Minor

Students may obtain a minor in business by successfully fulfilling the following requirements (9-12 cr.):

- ECON-E 300 Survey of Economics (3 cr.) OR ECON-E 201 Introduction to Microeconomics AND ECON-E 202 Introduction to Macroeconomics (6 cr.)
- BUS-A 201 Introduction to Financial Accounting I (3 cr.)
- BUS-Z 302 Managing and Behavior in Organizations (3 cr.)

Choose three of the following six courses (9 cr.):

- BUS-D 301 International Business Environment (3 cr.)
- BUS-F 301 Financial Management (3 cr.)
- BUS-K 302 Intro to Management Science (3 cr.)
- BUS-L 201 Legal Environment of Business (3 cr.)
- BUS-M 301 Intro to Marketing Management (3 cr.)
- BUS-S 302 Management Information Systems (3 cr.)

Students must earn a minimum of C- in each course, and a cumulative G.P.A. of 2.0

***Note:** ECON-E 300 cannot be counted as a required course toward an undergraduate business degree.

Bachelor of Science in Business

The following is a list of core requirements for all business students, regardless of concentration. Descriptions of general education courses are listed in the "School of Arts and Sciences" section of this bulletin.

1. Communication (12 cr.)
 - ENG-W 131 Elementary Composition I (3 cr.)
 - ENG-W 132 Elementary Composition II (3 cr.)
 - SPCH-S 121 Public Speaking (3 cr.)
 - SPCH-S 223 Business and Professional Speaking (3 cr.)
2. Mathematics (10-12 credits) (Choose 1 of 3 options)

Option 1

 - MATH-M 133 and MATH-M 134
 - ECON-E 270 Statistical Theory in Economics and Business (3 cr.)
 - BUS-K 302 Management Science(3 cr.)

Option 2

 - MATH-M 118 Finite Mathematics (3 cr.)
 - ECON-E 270 Statistical Theory in Economics and Business (3 cr.)
 - BUS-K 302 Management Science(3 cr.)

Option 3

 - MATH-M 215 Calculus 1 (5 cr.)
 - ECON-E 270 Statistical Theory in Economics and Business (3 cr.)
 - BUS-K 302 Management Science(3 cr.)
3. Social and Behavioral Sciences (12 cr.)
 - PSY-P 103 General Psychology (3 cr.)
 - SOC-S 100 Introduction to Sociology (3 cr.)
 - Electives (6 cr.). See the undergraduate advisor for a list of approved electives.
4. Arts and Humanities (6 cr.)
 - See an undergraduate advisor for a list of approved courses.
5. Physical and Life Sciences (8 cr.)
 - See an undergraduate advisor for a list of approved courses.
6. General Education Electives (7 cr.)
 - Courses may be chosen from throughout the university, excluding School of Business courses.

Concentrations in Business

Accounting

The accounting curriculum prepares students for careers in auditing, corporate accounting and management services, governmental and nonprofit organizations, and taxation. In addition, it equips the prospective business executive with tools for analysis, prediction, decision-making, and control. It also provides an excellent background for students considering graduate work in business administration or law.

Career in Public Accounting (CPA)

To sit for the CPA Exam in Indiana, a minimum of 150 credit hours and certain specified courses are required. IU Kokomo's degree with an accounting concentration satisfies all course specifications. You can sit for the CPA Exam as soon as you have earned 150 hours. Steps to a CPA: (1) Earn the 120-hour Baccalaureate Degree in Business with concentration in Accounting at IU Kokomo. (2) Ways to earn 150 hours of college work at IU Kokomo. Method #1. Earn a Master of Business Administration degree (only an additional 33 credit hours). A master's degree will be worth much more in the way of prestige and lifetime earnings than merely achieving 150 hours of college work or taking a double major. Method #2. Earn the Post Baccalaureate Certificate. For students who already possess a bachelor's degree in a field other than accounting. It requires 30 hours of accounting and 24 hours of non-accounting business courses. Careers in corporate, governmental, and not-for-profit accounting do not require 150 hours of college credits. A baccalaureate degree in accounting is sufficient. Students who do not wish to pursue a career in public accounting have many other career options, including corporate, governmental, and not-for-profit accounting. The 120-hour Baccalaureate degree will qualify the graduate to sit for some certification exams designed for these private sector careers, such as the Certified Management Accountant (CMA) and the Certified Internal Auditor (CIA) exams; however, no certification is required for a private sector career.

Sequencing toward the B.S. in Accounting degree

Semester Course

Freshman Year No Accounting Taken

Sophomore Year

- Fall BUS-A 201
- Spring BUS-A 202

Junior Year

- Fall BUS-A 311, BUS-A 325
- Spring BUS-A 312, BUS-L 303

Senior Year

- Fall BUS-A 328, BUS-A 422
- Spring BUS-A 339, BUS-A 424

Course Requirements: Sophomore Year: BUS-A 201, BUS-A 202, BUS-L 201. Junior and Senior Years: BUS-A 311, BUS-A 312, BUS-A 325, BUS-A 328, BUS-A 422, BUS-A 424, and BUS-L 303. In addition, each student is required to complete an applied learning experience. See an advisor for options.

Finance and Economics

The concentration in finance and economics prepares students for management careers in banking, investing, manufacturing, and insurance. In addition, graduates will be attractive candidates for positions in government, utilities, communications, and nonprofit organizations. The finance and economics curriculum also provides an excellent background for students who desire to pursue graduate work in business administration, economics, finance, or law. The courses offered in this concentration are designed to equip students with the necessary background for interpreting data, forecasting, and decision making in a changing global economy. Course

Requirements: Junior and Senior Years: BUS-F 302, BUS-F 420, ECON-E 303, BUS-F 494, any two 300-400 level Business and Economics courses. In addition, each student is required to complete an applied learning experience. See an advisor for options.

Management

The management curriculum is designed with maximum flexibility to accommodate those students who have explicit career objectives and interests in several management areas including human resources. The courses offered in this concentration develop the student's capacity as a decision maker in an organization. The student, working with a faculty advisor, can design a course of study that allows in-depth work in an area while attaining comprehensive understanding of managerial and processes associated with the human resource function in organizational settings. Course Requirements: Junior and Senior Years: BUS-L 406, BUS-W 430, BUS-Z 440, BUS-D 302 and any two 300-400-level business or economics courses. In addition, each student is required to complete an applied learning experience. See an advisor for options.

Marketing

This concentration is concerned with activities related to the marketing of goods and services from the source of supply to the source of demand. Areas of study include buyer behavior, product and service development, pricing policies, institutions and channels of distribution, advertising and promotion, marketing research, personal selling, industrial marketing, Internet marketing, international marketing, and marketing strategy and policy. The marketing and international business curriculum focuses on the skills needed to plan, implement, and evaluate an organization's programs related to marketing of goods and services. The curriculum helps students develop a clear understanding of marketing functions and how they interrelate with other functions of the firm. This concentration is particularly appropriate for careers in advertising, sales, brand management, retailing, wholesaling, market planning, industrial marketing, international marketing, marketing research, distribution, and marketing management in various types of organizations. Course Requirements: Junior and Senior Years: BUS-M 405, BUS-M 450, BUS-M 401, BUS-M 415, and any two 300-400-level business or economics courses. In addition, each student is required to complete an applied learning experience. See an advisor for options.

The Post-Baccalaureate Certificate in Accounting

This program is designed to prepare individuals for careers in public, industrial, or governmental accounting. Students will be prepared to sit for the Certified Public Accountant examination. Requirements (1) A baccalaureate degree from an accredited institution; (2) admission to Indiana University as a regular student; (3) completion of a minimum of 54 credit hours; 30 credit hours must be taken at Indiana University and 15 of the 30 credit hours must be taken at IU Kokomo; (4) a cumulative grade point average of 2.0 (C) or higher. Required Courses: BUS-A 201, BUS-A 202, BUS-A 311, BUS-A 312, BUS-A 325, BUS-A 328, BUS-A 339, BUS-A 422, BUS-A 424. Elective Courses: choose 24 cr. from the following list: BUS-L 201, BUS-L 303, ECON-E 201,

ECON-E 202, ECON-E 270, BUS-K 201, BUS-F 301, BUS-M 301, BUS-P 301, BUS-S 302, BUS-D 301, BUS-Z 302, and BUS-J 404.

4+1 Program

By working with the undergraduate and graduate advisors and taking 15 credits a semester, it is possible to graduate in 5 years with both Bachelor of Science in Business and Masters of Business Administration (M.B.A.) degrees. Students interested in this program must be qualified to begin calculus their freshman year or must enroll in summer classes. Contact the undergraduate business advisor for more information.

Master of Business Administration

The IU Kokomo Master of Business Administration program, established in 1991, is designed to meet the needs of working professionals and employers in north central Indiana for high-quality graduate management education. IU Kokomo's M.B.A. program fosters effective management of resources in diverse organizational units and settings. Attuned to the regional industry base, the M.B.A. program focuses especially on managing in a changing environment.

Policies Governing the Master of Business

Admission Requirements

To qualify for admission to the M.B.A. program, a person must hold a bachelor's degree from an accredited college or university. This degree may be in business or another field. Admission is determined by a combination of criteria: (a) completion of the application materials, including an essay statement about career interests and felony disclosure form; (b) official undergraduate transcript(s); (c) attainment of at least 1,000 on the M.B.A. Admissions Index (A.I.) and (d) payment of the \$40 application fee or proof of waiver. (The A.I. is determined as follows: $AI = 200 \times \text{composite undergraduate G.P.A.} + \text{G.M.A.T. score}$). Applicants holding a graduate degree from an appropriately accredited college or university are exempted from the G.M.A.T. requirement. Applicants holding an undergraduate degree from an AACSB accredited college or university with a cumulative G.P.A. of 3.75 or higher, are exempted from the G.M.A.T. requirement. Satisfactory completion of courses in calculus, statistics and composition and a background in microcomputer applications are required as well. Deficiencies in these areas can be made up after admission. Because of space and resource constraints, admission of qualified applicants is not automatic. Admission decisions are based on an overall assessment of the applicant's academic capability, professional achievement, and potential. The M.B.A. program admits students for fall, spring, and summer semesters. Application deadlines for domestic students are August 1 for fall entry, December 15 for spring entry, April 15 for entry in summer session I, and May 15 for entry in summer session II. Application deadlines for international students are June 1 for fall entry and October 1 for spring entry only. A separate application form and \$60 application fee are required for international applicants. Applicants must meet Indiana University Kokomo's graduate English proficiency requirements.

Please note that students may qualify for admission into Phase I of the M.B.A. program prior to meeting the requirements of the M.B.A. Admissions Index (AI). No student will be allowed to enroll in Phase II courses until the AI requirement as outlined above has been achieved.

Overall Program Requirements

Graduation with the M.B.A. degree requires successful completion of a minimum of 30 credit hours. A person holding an undergraduate degree in business administration might complete the program in 30 credit hours, whereas an individual having none of the Core foundation course work would require up to 6 additional core courses. Waiver of Core foundation courses is determined through an analysis of an applicant's transcripts. Degree requirements must be completed within six years of admission.

Student Course Load

Most M.B.A. students at IU Kokomo are employed full time in positions of responsibility. The high standards and workload in the M.B.A. program requires considerable time and effort that must be balanced with other life and work demands. For this reason, part-time students are advised to take no more than 6 credit hours in fall and spring, and 3 credit hours during any one summer session. Course schedules are constructed accordingly, with most courses offered after 4 p.m.

Transfer of Credit

Up to 6 graduate credit hours may be transferred into the M.B.A. program from an AACSB accredited or AACSB candidate schools. No graduate courses where the student earned below a B can be transferred into the program. Transfer credit determination is made by the M.B.A. director in consultation with the appropriate faculty. Only grades earned at Indiana University count toward a student's grade point average. Grades from other universities transfer as credits only.

Waiver

As noted above, Core foundation course requirements may be waived if satisfactory completion of equivalent course work is demonstrated in the student's undergraduate or graduate transcript (C- or higher grade required). Work experience and noncredit courses normally do not satisfy the foundation requirements, but may serve as confirming evidence along with academic course work. Validation exams are available for several Core courses.

Academic Standards

Graduation with the M.B.A. degree requires a cumulative grade point average (G.P.A.) of at least 3.0 or a B average. A student whose G.P.A. falls below 3.0 will be placed on probation and will be required to bring the G.P.A. back to 3.0 within the next 9 credit hours of course work. Failure to remove the deficiency in this timeframe will result in immediate dismissal from the program. A student cannot compensate for deficient course work by completing more credits beyond those required in the program of study.

Advising

Shortly after admission to the program, each M.B.A. student will plan a program of study with the M.B.A. director. In addition, M.B.A. students seeking career development information are encouraged to confer with the faculty in their area of interest. The IU Kokomo Career Services office is available for career information, and students' own employers often provide career planning assistance.

Degree Application

Candidates for a degree are expected to meet proper deadlines for the filing of degrees. Graduation dates at IU Kokomo occur in December, May, and August. Students planning to graduate in December must apply for their degrees by September 15. The application deadline for May and August graduations is January 15.

Decision-Making and Appeal Process

The Curriculum and Policy Committee (C.P.C.) is the main governing body for the M.B.A. program. This committee, which is responsible for academic policy and curriculum, consists of members of the faculty, the dean of the school (ex-officio), and the M.B.A. director. It is also responsible for recommending admission policy, handling appeals concerning admissions, grades, and related academic matters for which a student seeks redress. The M.B.A. director is the program executive, responsible for day-to-day operations, admissions, and program advising. The M.B.A. director refers exceptional cases to the C.P.C. for decision, upon written request by the applicant or student.

The M.B.A. Curriculum

Prerequisites

Satisfactory background in calculus, finite mathematics, English composition, and statistics

Core Foundation Knowledge

Complete 18-21 credit hours in the following course areas, depending upon equivalent preparation:

Note: All of Core course requirements may be completed at the undergraduate level. Any or all may be waived if equivalent background is in evidence. A minimum grade of a C- is required for a core course to count as completed.

- BUS-A 201 Introduction to Financial Accounting
- BUS-F 301 Financial Management
- BUS-K 302 Introduction to Management Science
- BUS-M 301 Introduction to Marketing Management
- BUS-Z 302 Managing and Behavior in Organizations
- ECON-E 300 Survey of Economics OR ECON-E 201 Principles of Microeconomics AND ECON-E 202 Principles of Macroeconomics

M.B.A. Courses (30 cr.)

M.B.A. Core Courses (27 cr.)

- BUKO-C 599 Project Demonstrating Expertise
- BUKO-D 542 Advanced Managerial Accounting
- BUKO-E 542 Strategic Managerial Economics
- BUKO-F 542 Advanced Financial Management
- BUKO-L 512 Law and Ethics in Business
- BUKO-J 560 Organizational Strategy, Policy, and Innovation
- BUKO-M 560 Advanced Marketing Management
- BUKO-M 570 Advanced Operations Management

- BUKO-Z 542 Creating, Leading and Maintaining High Performance Organizations

M.B.A. Electives (3 cr.)

A range of electives is available to students. These electives help deepen the skills and knowledge needed in the student's area of interest. Electives are generally offered in the summer.

M.B.A. Concentrations in Finance and Human Resources Management

Students wanting to complete an M.B.A. with a concentration in either Finance or Human Resource Management may do so by completing the 27 credit hour core requirement and an additional 9 credit hours in the area.

Finance (9 cr.)

- BUKO-C 567 Issues in Financial Management: Seminar/Variable Topics (3 cr.)
- BUKO-C 567 Issues in Financial Management: Investments (3 cr.)
- BUKO-C 571 International Corporate Finance (3 cr.)

Human Resources Management (9 cr.)

- BUKO-C 570 Issues in Human Resources Management: Seminar/Variable Topics (3 cr.)
- BUKO-C 570 Issues in Human Resources Management: Organizations and Organizational Change (3 cr.)
- BUKO-L506 Employment Problems and the Law (3 cr.)

PLEASE NOTE: Some courses at the 500 level may be offered as 400 level courses. Graduate students are required to do additional work. A course taken at the 400 level may not be repeated at the 500 level.

Business Courses Undergraduate

BUS-A 201 Introduction to Financial Accounting (3 cr.)

P: completion of 26 credit hours. Concepts and issues of financial reporting for business entities; analysis and recording of economic transactions.

BUS-A 202 Introduction to Managerial Accounting (3 cr.)

P: BUS-A 201 Concepts and issues of management accounting; budgeting; cost determination and analysis.

BUS-A 311 Intermediate Accounting (3 cr.) P: BUS-A 202 Theory of asset valuation and income measurement. Principles underlying published financial statements including consideration of enterprise assets and liabilities.

BUS-A 312 Intermediate Accounting (3 cr.) P: BUS-A 311. Application of intermediate accounting theory to problems of accounting for economic activities, including long-term liabilities, corporations, earnings per share, tax allocation, pensions, and leases. Also covered are the statement of changes in financial position, and inflation accounting.

BUS-A 325 Cost Accounting (3 cr.) P: BUS-A 202. Conceptual and technical aspects of management and cost accounting. Product costing; cost control over projects and products; profit planning.

BUS-A 328 Introduction to Taxation (3 cr.) P: BUS-A 202 or consent of instructor. Internal Revenue Code

and regulations. Emphasis on the philosophy of taxation, including concepts, exclusions from income, deductions, and credits.

BUS-A 339 Advanced Income Tax (3 cr.) P: BUS-A 328. Internal Revenue Code and regulations; advanced aspects of income, deductions, exclusions, and credits, especially as applied to tax problems of partnerships and corporations.

BUS-A 380 Professional Practice in Accounting (3-6 cr.) P: junior or senior year standing in major area and consent of instructor. Provides work experience in a cooperating firm or agency. Comprehensive written report required. Grades of S or F are assigned by faculty.

BUS-A 422 Advanced Financial Accounting (3 cr.) P: BUS-A 312 Generally accepted accounting principles, as applied to partnerships, business combinations, branches, foreign operations, and nonprofit organizations. Particular emphasis on consolidated financial statements.

BUS-A 424 Auditing (3 cr.) P: BUS-A 312. Public accounting organization and operation; review of internal control, including EDP system; verification of balance sheet and operating accounts; statistical applications in auditing.

BUS-A 490 Independent Study in Accounting (1-3 cr.) P: consent of instructor.

BUS-D 301 The International Business Environment (3 cr.) P: ECON-E 201, ECON-E 202, 56 cr. hours. The national and international environmental aspects of international business. Examines the cultural, political, economic, systemic, legal-regulatory, trade, and financial environments; and how they affect the international business activities of firms in the United States and, selectively, in other countries.

BUS-D 302 International Business: Operations of International Enterprises (3 cr.)

P: BUS-D 301 The administration of international aspects of business organizations through an examination of their policy formulation, forms of foreign operations, methods of organization and control, and functional adjustments.

BUS-D 490 Independent Study in International Business (1-3 cr.)

P: Consent of instructor. Supervised individual study and research in student's special field of interest. The student will propose the investigation desired and, in conjunction with the instructor, develop the scope of work to be completed. Written report required.

BUS-F 301 Financial Management (3 cr.) P: Admission to BUS, 56 cr., BUS-A 202, ECON-E 201, ECON-E 202, ECON-E 270. Conceptual framework of the firm's investment, financing, and dividend decision; includes working capital management, capital budgeting, and capital structure strategies.

BUS-F 302 Financial Decision Making (3 cr.) P: BUS-F 301. Application of financial theory and techniques of analysis in the search of optimal solutions to financial management problems.

BUS-F 420 Equity and Fixed Income Investment (3 cr.) P: BUS-F 301. Conceptual and analytical frameworks for formulating investment policies, analyzing securities,

and constructing portfolio strategies for individuals and institutions.

BUS-F 480 Professional Practice in Finance (3-6 cr.)

P: junior or senior standing in major area and consent of instructor. Work experience is offered in cooperating firms and agencies. Comprehensive written report required. Grades of S or F are assigned by faculty.

BUS-F 490 Independent Study in Finance (1-3 cr.)

P: Consent of instructor. Supervised individual study and research in a student's special field of interest. The student will propose the investigation desired and, in conjunction with the instructor, develop the scope of work to be completed. Written report required.

BUS-F 494 International Finance (3 cr.) P: BUS-F 301 or equivalent. Covers the international dimension of both investments and corporate finance. Develop strategies for investing internationally, including lodging exchange rate risk, adjusting to client preferences and home currencies, evaluating performance, estimating a corporation's exposure to real exchange rate risk, strategies to hedge risk or to dynamically adjust to shocks, and reasons for a corporation to hedge. Also covers international capital budgeting, multinational transfer pricing, and international cash management.

BUS-J 401 Administrative Policy (3 cr.) P: BUS-F 301, BUS-M 301, BUS-P 301, BUS-Z 302. Administration of business organizations — policy formulation, organization, methods, and executive control.

BUS-J 404 Business and Society (3 cr.) P: Senior standing. Intellectual, philosophical, and scientific foundations of business. The business dynamic; its role in the evolution of enterprise and society from the small and simple to the large and complex; structure, discipline, and goals of a business society.

BUS-K 201 The Computer in Business (3 cr.)

Introduction to digital computers and illustrations of their use in business. Stored program concept, types of languages, instruction in a special language, utilization of Business Computing Center. Impact of computers upon business management and organization. Note: Student may receive credit for only one of BUS-K 201, CSCI-C 201, and CSCI-C 301.

BUS-K 302 Introduction to Management Science (3 cr.)

P: BUS-K 201 or equivalent. An introductory management science course with a forecasting component of approximately 25 percent of the course. Topics covered include multiple regression, smoothing techniques, linear programming, integer programming, statistical decision theory, simulation and network analysis; coverage may also include inventory theory, Markov process, and goal programming. heavy emphasis on the application of these topics to business decision making using computer.

BUS-L 201 Legal Environment of Business (3 cr.) P: sophomore standing. Emphasis on the nature of law by examining a few areas of general interest: duty to avoid harming others (torts), duty to keep promises (contracts), and government regulation of business (trade regulation). Credit not given for both BUS-L 201 and BUS-L 302.

BUS-L 303 Commercial Law II (3 cr.) P: BUS-L 201. Covers the law of ownership, forms of business organization, commercial paper, and secured transactions.

For accounting majors and others desiring a rather broad and detailed knowledge of commercial law.

BUS-L 406 Employment Problems and the Law (3 cr.)

P: BUS-L 201. Current legal problems in the area of employment. Topics include race and sex discrimination, harassment, the American with Disabilities Act, employment at will, privacy issues such as drug testing, and limits on monitoring and testing.

BUS-M 301 Introduction to Marketing Management (3 cr.)

P: Admission to BUS, 56 cr., ECON-E 201, ECON-E 202, BUS-A 201, BUS-A 202. Overview of marketing for all undergraduates. Marketing planning and decision making, examined from firm's and consumer's points of view; marketing concept and its company-wide implications; integration of marketing with other functions. Market structure and behavior and their relationship to marketing strategy. Marketing systems viewed in terms of both public and private policy in a pluralistic society.

BUS-M 401 International Marketing (3 cr.)

P: BUS-M 301. Covers world markets, their respective consumers, and their political/economic marketing environments. Examines the marketing issues required to meet the product, promotion, price, and distribution demands of a world market. Although the course has a global orientation, issues specific to exporting are discussed.

BUS-M 405 Buyer Behavior (3 cr.)

P: BUS-M 301. Description and explanation of consumer behavior in retail markets. Topics include demographic, socioeconomic, psychographic, attitudinal, and group influences on consumer decision making. Applications to promotion, product design, distribution, pricing, and segmentation strategies.

BUS-M 415 Advertising and Promotion Management (3 cr.)

P: BUS-M 301. Basic advertising and sales-promotion concepts. The design, management, and integration of a firm's promotional strategy. Public policy aspects and the role of advertising in marketing communications in different cultures.

BUS-M 450 Marketing Strategy (3 cr.)

P: BUS-M 301, BUS-M 303, BUS-M 405, and senior standing. Ideally taken in student's last semester. Elective capstone course for marketing majors. Draws on and integrates materials previously taken. Focuses on decision problems in marketing strategy and policy design, and application of analytical tools for marketing and decision making. Note: course is restricted to students in marketing concentration.

BUS-M 480 Professional Practice in Marketing (3-6 cr.)

P: BUS-M 301 and permission of instructor. Work experience is provided in cooperating firms and agencies. Comprehensive written report required. Grades of S or F are assigned by the faculty.

BUS-M 490 Special Studies in Marketing (3-6 cr.)

P: BUS-M 301 and permission of instructor. Offers supervised individual study and research in the student's field of interest. The student will propose the investigation desired and, in conjunction with the instructor, will develop the scope of the work to be completed. Comprehensive written report required.

BUS-P 301 Operations Management (3 cr.)

P: Admission to BUS, 56 cr., BUS-K 201, ECON-E 201, ECON-E 202, ECON-E 270. Analysis of planning and

control decisions made by the operations manager of any enterprise. Topics include forecasting, production and capacity planning, project planning, operations scheduling, inventory control, work measurement, and productivity improvement.

BUS-P 302 Management Information Systems (3 cr.)

P: 56 cr., BUS-K 201 or consent of instructor. Overview of management information systems (MIS) within a business context, MIS theory and practice as they relate to management and organization theories; current trends in MIS; managerial usage of information systems; computer hardware, software, and telecommunications; functional information systems; systems development process; the role of microcomputers. Experiential learning with widely used software packages.

BUS-W 100 Business Administration: Introduction (3 cr.)

Business administration from the standpoint of a manager of a business firm operating in the contemporary economic, political, and social environment. No credit if taken in the junior or senior year.

BUS-W 430 Organizations and Organizational Change (3 cr.)

P: BUS-Z 302. Analysis and development of organizational theories, with emphasis on environmental dependencies, socio-technical systems, structural design, and control of the performance of complex systems. Issues in organizational change such as barriers to change, appropriateness of intervention strategies and techniques, organizational analysis, and evaluation of formal change programs.

BUS-W 480 Professional Practice in Management (3-6 cr.)

P: Junior or senior standing with a concentration in management and consent of instructor. Application filed through Professional Practice Programs office. Provides work experience in cooperating firm or agency. Comprehensive written report required. Grades of S or F are assigned by faculty.

BUS-W 490 Independent Study in Business Administration (1-6 cr.)

P: Consent of instructor.

BUS-X 293 Honors Seminar in Business (1-3 cr.) For student in the Business Honors Program. May be taken twice for credit.

BUS-X 393 Honors Writing Experience (1 cr.) For students in the School of Business Honors Program.

BUS-X 487 Seminar in Business Administration (3-6 cr.)

Instruction of an interdisciplinary nature for student groups involved in university-related, nonprofit ventures. Interested groups must be sponsored by a School of Business faculty member, as approved by the Curriculum and Policy Committee (CPC). May be repeated up to a maximum of 6 credits except in the marketing concentration. Students must have a cumulative G.P.A. of 2.0 to enroll in the course.

BUS-X 493 Honors Seminar in Business (1-3 cr.)

For students in the Business Honors Program. May be repeated twice for credit.

BUS-X 496 Supervised Independent Honors Research in Business (1-5 cr.)

P: Senior-year standing. For students in the Business Honors Program.

BUS-Z 302 Managing and Behavior in Organizations (3 cr.)

P: SOC-S 100, PSY-P 103, and junior standing.

Integration of behavior and organizational theories.

Application of concepts and theories toward improving individual, group, and organizational performance. Builds from a behavioral foundation toward an understanding of managerial processes. Credit given for only one of BUS-Z 300, BUS-Z 301, or BUS-Z 302.

BUS-Z 440 Personnel-Human Resource Management (3 cr.)

P: BUS-Z 302. Nature of human resource development and utilization in American society and organizations. Government programs and policies, labor force statistics, organizational personnel departments, personnel planning, forecasting, selection, training and development. Integration of government and organizational human resource programs.

BUS-Z 480 Professional Practice in Human Resource Management (3-6 cr.)

P: Junior or senior standing with a concentration in management and consent of instructor. Application filed through Professional Practice Programs office. Provides work experience in cooperating firm or agency. Comprehensive written report required. Grades of S or F assigned by faculty.

BUS-Z 490 Independent Study in Personnel Management and Organizational Behavior (1-3 cr.)

P: BUS-Z 302. For senior-year students with consent of instructor. Research, analysis, and discussion of current topics. Written report required.

Master of Business Administration Courses

BUKO-C 564 Effective Negotiations (3 cr.)

P: BUS-Z 302 or equivalent. The study of establishing coalitions and systems of authority and power configurations and the issue of control in the organization. The course examines the relationships of people, interests, mutual gain, and the use of objective criteria in problem solving and conflict resolution.

BUKO-C 566 Issues in International Management (1-3 cr.)

P: BUS-D 301 or equivalent. Issues and topics relating to managing and global environment. The focal areas could include international marketing, financing and producing; the cultural and national context; multinational corporate operations; political, legal and economic aspects and other areas of special current interest.

BUKO-C 567 Issues in Financial Management (1-3 cr.)

P: BUS-F 301 or equivalent. Application of financial theory to current problems and topics in financial management. The approach may include case analyses and active class discussion; emphasis on decision making in an uncertain financial environment. Topics include dividend theory, capital structure, investments and agency theory.

BUKO-C 568 Issues in Marketing Management (1-3 cr.)

P: BUS-M 301 or equivalent. Major contemporary issues confronting marketing managers; development of appropriate marketing plans and strategies that may incorporate analytical and/or heuristic techniques and inter-functional aspects of marketing. Topics may include: global marketing, technology marketing, intelligence marketing, value marketing, Eco marketing, ethics and marketing, marketing's change role, and services marketing.

BUKO-C 570 Issues in Human Resource Management (1-3 cr.) P: BUS-Z 302 or equivalent. This course examines in depth selected topics in human resource management, such as strategic human resource planning and recruitment, employee rights and responsibilities, performance appraisal and training, and occupational health and safety. ("Staffing Organizations" typical topic offered).

BUKO-C 571 International Corporate Finance (3 cr.) P: BUS-F 301 or equivalent. This course examines how firms and investors manage their operation or investments in an international environment. Topics to be discussed include foreign exchange risk management, financing the global firm, foreign investment decisions and multinational capital budgeting.

BUKO-C 573 Issues in Legal Environment of Business (1-3 cr.) P: BUS-L 201 or equivalent. Focus on fundamental legal principles and issues concerning the legal environment of business. Examples include business ethics, intellectual property, computer law, international sales transactions, business organizations, government regulation and the international legal environment.

BUKO-C 578 International Marketing (3 cr.) P: BUS-M 301 or equivalent. Differences in market arrangements and in legal, cultural, and economic factors in different countries. Planning and organizing for international marketing operations, forecasting and analyses; interrelationships with other functions; and strategy of product, pricing, promotion and channels.

BUKO-C 581 Advertising and Sales Promotion (3 cr.) P: BUS-M 301 or equivalent. Theories and practices of advertising, sales promotion and public relations as they relate to the overall marketing program. Emphasis is placed on policy planning, decision tools, and the legal and social environment.

BUKO-C 590 Independent Study In Business And Administration (1-3 cr.) (permission of instructor and MBA Director) The objective behind independent study is to provide an opportunity to the graduate student to study, analyze, and/or evaluate in-depth some topic of interest.

BUKO-C 599 Project Demonstrating Expertise (PDE) (3-6 cr.) (permission of instructor and MBA Director) A significant project in the student's field that demonstrates expertise in applying knowledge to the benefit of the organization and student. Expectations, determined jointly by faculty and executive mentors, include the ability to effectively manage the responsibilities involved. To optimize learning, PDE may coincide with other projects and studies.

BUKO-D 542 Advanced Managerial Accounting (3 cr.) P: BUS-A 201. Spring Semesters. The uses of accounting information for decision making, and for planning and controlling business operations. The behavioral aspects of performance reports, budgets, and variance analysis.

BUKO-E 530 Survey of International Economics (3 cr.) P: ECON-E 201 and ECON-E 202 or equivalent. Basis for and effects of international trade, commercial policy and effects of trade restrictions, balance of payments and exchange rate adjustments, international monetary systems, and fixed vs. flexible exchange rates.

BUKO-E 542 Strategic Managerial Economics (3 cr.) Prerequisites: ECON-E 201 and ECON-E 202 or equivalent. Fall Semesters. Provides the microeconomic understanding that business managers will find useful in making decisions under conditions of uncertainty. Topics include demand and cost estimations, pricing, market structure and analysis, and the organization of the firm. The course will include case analyses of situations in business using a managerial economics perspective.

BUKO-F 542 Advanced Financial Management (3 cr.) P: BUS-F 301. Spring Semesters. Study of the aggregation and distribution of financial resources. Topics include analysis of money and capital markets, financial instruments and securities, interest rate theory, and public and private institutions of the United States financial system.

BUKO-J 512 Small Business Management and Entrepreneurship (3 cr.) (permission of instructor) This course integrates students' knowledge in various application of management theory and development of practical solutions for real problems necessary to formulate a business plan. Attention is given to the role of the entrepreneur or small business manager.

BUKO-J 560 Organizational Strategy and Policy (3 cr.) Spring Semesters. This course emphasizes the integration and application of diverse knowledge and understanding to organizational strategy. Students, as top executive decision makers, study actual business cases; then test and present their ideas. Successful global commerce requires innovative strategies. Use of analytical, creative, collaborative, and teamwork skills.

BUKO-L 506 Employment Problems and the Law (3 cr.) Current legal problems in the area of employment. Topics include the hiring process, managing a diverse workforce, affirmative action, race and sex discrimination, harassment, the American with Disabilities Act, pay equity, employment at will, privacy issues such as drug testing and limits on monitoring and testing, termination issues and post-termination issues.

BUKO-L 512 Law and Ethics in Business (3 cr.) Fall Semesters. The objective is to provide the student of management with that knowledge of the American legal system--its processes and the substantive law itself--which is necessary to the making of informed and effective business decisions. Because the law develops and evolves in response to changing social, economic, political, and technological forces, and because business decisions often carry long-lasting as well as delayed effects, this course will emphasize the study of legal change. It is hoped that consideration of past legal developments will give prospective managers sufficient insight into the dynamics of this process to enable them to predict as soundly as possible the future legal environment in which their present decisions will bear fruit.

BUKO-M 560 Advanced Marketing Management (3 cr.) P: BUS-M 301. Fall Semesters. The formulation and implementation of strategic marketing plans for the development, pricing, promotion, and distribution of products and services in domestic and international markets. Topics include the role of marketing research and information systems, market opportunity analysis, market segmentation, and analytical tools for optimizing

marketing decisions. Extensive use of selected readings, cases, and research projects.

BUKO-M 570 Advanced Operations Management (3 cr.) P: BUS-K 302. Spring Semesters. An in-depth study of topics such as operations planning, material requirements, planning, capacity planning, scheduling, master production scheduling, forecasting, inventory management, the just in time inventory system, and operations control.

BUKO-Z 542 Creating, Leading, and Maintaining High Performance Organizations (3 cr.) P: BUS-Z 302. Fall Semesters. This course explores how managers create high-performance organizations by marshaling traditional and non-traditional human resource management, organization leadership and change-management practices to align those practices with organizational strategy.

General Information

History of the School of Education

The first teacher education programs at Kokomo were offered by the Indiana University School of Education in response to the needs of local teachers for courses to meet state licensing requirements. The Kokomo School of Education was later established to serve the growing needs of north central Indiana citizens for easily accessible quality programs. The campus awarded its first Bachelor of Science in Elementary Education degree in 1969 and the Master of Science in Education degree in May 1985.

Mission

The School of Education maintains the highest standards for students in its initial teacher education programs. The successful teacher must master both a body of content knowledge and effective teaching skills. The initial teacher education programs offer a balance of broad liberal arts education and specialized knowledge in professional education and concentrated areas. Students choose from a variety of options to fulfill their educational requirements. The School's advanced teacher education program provides practicing classroom teachers with graduate study aligned with the National Board for Professional Teacher Standards. P-12 classroom teachers gain advanced knowledge of educational foundations, technology, inquiry, subject area content and content pedagogy. The purposes of the initial teacher education programs are (1) to prepare students to serve as effective teachers and members of the profession, (2) to assist students in meeting Indiana certification requirements for public school personnel, and (3) to assist Indiana University graduates in securing satisfying professional positions. The purposes of the advanced teacher education program are (1) to prepare P-12 classroom teachers in reflective and inquiry-based practices, (2) to prepare P-12 classroom teachers in effectively and efficiently utilizing technology in their practice, and (3) to ultimately improve classroom teaching and student learning in central Indiana.

Programs

The School of Education offers two baccalaureate degrees: Bachelor of Science in Elementary Education, and a Bachelor of Science in Secondary Education. In addition, a post-baccalaureate licensing program and a Master of Science in Education is offered at IU Kokomo.

Accreditation

The Indiana University Kokomo School of Education initial and advanced teacher education programs are accredited by the National Council for Accreditation of Teacher Education (NCATE), and the Indiana Department of Education Office of Educator Effectiveness and Leadership. Student's Responsibility

Advisors assist students in planning a program of study to satisfy requirements; however, each student assumes final responsibility for meeting deadlines and completing

requirements for licensure and/or graduation. It is therefore essential that all students be familiar with the degree and licensure requirements set forth in the bulletin and student handbooks.

Affirmative Action

The School of Education has a strong policy against discrimination that affects student teaching and teacher placement. Discrimination refers to the exclusion of a teacher or a prospective teacher from any position, assignment, or learning opportunity on the basis of any of the following criteria: race, color, minor variations in accent or dialect, religion, gender, national or social origin, economic condition of birth, age, disability, sexual orientation, or any other criterion not directly related to ability as a teacher. The central characteristic of discrimination is the denial of an objective judgment of individual worth by assigning, deliberately or unintentionally, stereotyped status to an individual. It thus introduces criteria that are not relevant to confirmable professional judgment of the quality of an individual's performance. Any complaint concerning discrimination should be called to the attention of the Dean of Education at IU Kokomo.

Services Available to Education Students

The Curriculum Lab/Teacher Resource Center (CuLab) is located in Room KO 176 of the Main Building on the IU Kokomo campus. This information commons provides resources for educators. It houses books and materials for research and lesson planning. Holdings include magazines, puppets, instructional aids, textbooks, computers, and audiovisual items. In addition, the collection of children's literature, fiction and non-fiction, is quite substantial and diverse. Students are encouraged to utilize the CuLab for individual and small group work. Tables provide space for preparation and construction of materials needed for practicum experiences. Computers, printers, and scanners are available to students as they create documents and develop/ edit their program requirements and course assignments. Events scheduled for the CuLab include New Student Orientation, visits by prospective students, workshops on special topics, and book talks. Student organizations (EdSAC, meshEd, Pi Lambda Theta) hold meetings, open houses, and post information regarding activities.

The Office of Placement and Student Services in the School of Education at Bloomington accepts registration from any person who has either earned a degree from Indiana University or who successfully completed 30 credit hours at Indiana University. Students are encouraged to complete their placement dossiers prior to graduation. The IU Kokomo Office of Career Development and Placement also is available to assist students in preparing and conducting a job search. The office is a point of contact between employers and students or alumni seeking employment.

Opportunities are frequently available for undergraduate students to work with faculty on education research projects, and they may be supported by grants. Each student is strongly encouraged to consult with faculty whose academic area is congruent with the student's interest.

Students with at least a 3.3 grade point average are eligible to earn both university and education honors.

Honors in education may be completed within two years and include a summer internship. Interested students should contact the Honors program director for further information.

Organizations

A student organization, the Education Student Advisory Council (EdSAC), represents elementary student concerns to the School of Education to faculty and administration. In addition, EdSAC provides opportunities for education and service to students beyond the formal classroom. The organization promotes educational leadership skills and assists the School in various professional activities. At Indiana University Kokomo, students may obtain their grades 5-12 licensure in one of six content areas: Mathematics, English/Language Arts, Science (Chemistry, Physics, Physical Science, Earth/Space Science, or Life Science), Social Studies (History, Political Science, Sociology, Psychology, or Economics), Fine Arts: Visual Arts, and Exceptional Learners: Mild Intervention. It is the goal of meshEd to work together to represent the interests of all six content areas, as well as Education. Members of meshEd plan events and workshops, as well as schedule speakers to supplement the Education classes offered by IU Kokomo. Pi Lambda Theta is an international honor and professional association of professionals from all levels of education, the health professions, and library science who have achieved high academic excellence and have a demonstrated potential for leadership. Organized in 1910, Pi Lambda Theta now has more than 16,000 members in campus and community-based chapters. The Indiana University Kokomo chapter, Gamma Gamma, has won awards for both innovation and leadership. Students in the education programs at IU Kokomo are strongly encouraged to join and support external associations in their field, including the International Reading Association, the Association for Childhood Education, the National Science Teachers Association, the National Council of Teachers of Mathematics, the National Council for the Social Studies, and the National Council for Teachers of English.

Undergraduate Programs

All program descriptions reflect current regulatory guidelines, but programs may be altered by the School of Education to meet changing requirements of the Indiana Department of Education Division of Educator Licensing/Development. Every effort will be made to ensure that changes do not jeopardize the progress of the matriculated student. However, students who extend their programs over several years should expect to be required to complete current standards. Students should confer with their advisor concerning the current educational requirements.

Admission Requirements

Students are admitted directly into the School of Education upon declaring an education major. To complete admission, each student must attend an orientation seminar and be assigned an advisor. Admission to the education major does not guarantee subsequent admission to the Teacher Education Program.

Transfer Credit Policies

The following policies govern the transfer of credit at IU Kokomo and in this program:

1. The Office of Admissions determines the credit that may be accepted from other institutions and applied toward a degree.
2. Courses from other institutions applied toward an undergraduate education degree must be equivalent to courses offered at Indiana University.
3. Credit is not accepted for work in institutions not approved by the Indiana Department of Education Division of Educator Licensing/Development.
4. No more than 60 credits required by the degree earned at a junior or community college will apply toward an undergraduate degree at Indiana University.
5. No credit will be allowed for work in which the student has earned a letter grade lower than C or its equivalent.

Teacher Education Program (TEP)

The IU Kokomo teacher education programs leading to initial licensure in Indiana are based on the Professional Educator Model, which is aimed at the development of teachers from novice to professional. Elements of the programs include content knowledge; general pedagogical knowledge; curriculum knowledge; knowledge of learners and their characteristics; pedagogical content knowledge; knowledge of educational contexts; and knowledge of education ends; purposes, values, and their philosophical and historical grounds. The programs aim to develop teachers who have:

- Strong, balanced general education with work in the humanities, social sciences, mathematics, and physical and biological sciences.
- Thorough understanding of the subject matter of their teaching field or fields.
- Ability to communicate effectively both orally and in writing.
- Competence to design and implement effective instruction using a variety of instructional models.
- Competence to create an effective classroom climate.
- Commitment and capacity to design learning experiences that foster critical thinking and decision making.
- Understanding of and ability to use computer and electronic technologies.
- Ability to design appropriate evaluation strategies, both quantitative and qualitative, to appraise their instructional effectiveness, and to assess the achievements of their students.
- Capacity to make sound judgments regarding the use of instructional materials.
- Commitment and capacity to address issues of justice and equity and sensitivity to cultural differences and global concerns.
- Commitment and capacity to build effective relationships with students, colleagues, and members of the community
- Understanding of the legal rights and responsibilities of students, teachers, and schools.

- Commitment and capacity to approach their profession ethically with a guiding set of responsible social and personal values.
- Commitment to continuing professional renewal.

Admission to the Teacher Education Program

Students who wish to pursue programs that lead to initial teacher licensure must apply for admission to the Teacher Education Program (TEP). Admission to the TEP is separate from admission to the university and from admission to the education major. Formal acceptance is required before students are permitted to enroll in any special methods courses. Students generally apply to the TEP at the end of their sophomore year on forms available from the School of Education office. Standards for Admission to the Teacher Education Program apply to both education and non-education majors. In order to be admitted, a student must:

1. Earn an overall GPA of 2.5 or higher.
2. Attain a grade of C or better in all required general education courses. Please consult specific program planning guide.
3. Achieve a C+ or better in all professional education courses required for the student's program.
4. Complete minimum number of credit hours in General Education and teaching major required by the student's program. (Secondary students have a minimum GPA in Teaching Major courses of 2.5 as well as no grade less than a C).
5. Earn passing scores, as established by the Indiana Department of Education Division of Educator Licensing/Development on PRAXIS I, CASA or Praxis I alternative (See program planning guide) in the areas of reading, writing, and mathematics.
6. Receive formal acceptance into the program by the education faculty.

Undergraduate Academic Policies

Correspondence Courses Students in the School of Education receive credit for correspondence work only in exceptional cases, with the consent of the Dean of Education. If a correspondence course is to be applied toward graduation requirements during the current semester, it must be completed at least 15 days prior to the close of regular campus classes that semester. Students may take a maximum of 9 credit hours in general education academic subjects by correspondence. Exceptions to this rule will be considered on an individual basis by the Dean of Education. In no case will correspondence credit exceed 18 credit hours, and no required professional education courses may be completed by correspondence. See university grading policies in the Academic Regulations section of this Bulletin.

Students should file an application for the degree with the Dean of the School of Education at Indiana University Kokomo at their last registration before completing degree requirements. Students completing degrees in the School of Education in absentia must notify the Dean at least two months prior to the date the degree is to be granted. Graduation dates at IU Kokomo occur in December, May, and August. Students planning to graduate in December must apply for their degrees by September 15. May, and August graduates must apply by January 15. Application for a degree is the student's responsibility. The School

of Education will not be responsible for students who fail to file their application in time. Basic Skills Competency Options: Praxis I and Alternatives

Prior to admission to a teacher preparation program, prospective Indiana educators are required to pass the Praxis I tests, which measure basic academic skills, or an approved alternative. The following additional assessments/routes are acceptable to document basic skills competency at the time of admission to a teacher preparation program:

ACT with a score of at least 24 based on Math, Reading, Grammar, and Science;

SAT with a score of at least 1100 based on Critical Reading and Math;

GRE with a score of at least 1100 based on Verbal and Quantitative prior to 8/1/11;

GRE with a score of at least 301 based on Verbal and Quantitative after 8/1/11; or

Praxis I composite score of at least 527 based on Reading, Writing, and Math.

Notes: ACT, SAT, and GRE scores do not include writing. Anyone with a Master's Degree or higher from a regionally accredited institution is exempt from this requirement.

After December 31, 2012, Praxis I will not be offered.

Beginning January 1, 2013, for admission to the Teacher Education Program (TEP) students will take the Pearson Core Academic Skills Assessment.

Note:

Beginning September 1, 2013, the Indiana CORE Assessments for Educator Licensure will be the sole means of assessing the developmental (pedagogical) and content area knowledge of candidates seeking Indiana educator Licensure. All candidates for an initial practitioner license will be required to pass a developmental (pedagogy) area assessment and appropriate content area assessments. Candidates seeking to add a content area to their license will be required to achieve passing scores on the Indiana CORE content area assessment(s) that match the license.

Courses required in the four-year degree curriculum may be found on the IU Kokomo School of Education Web site (www.iuk.edu/academics/majors/education/index.shtml). Students should plan their programs in consultation with an academic advisor and should monitor their programs to ensure all degree requirements are met. Failure to do so will delay program completion.

A three-year degree program is also available for students who attain at least a 3.5 out of 4.00 GPA at their high school, receive at least 1100 on their SAT or 25 on their ACT, and who receive an Academic Honors diploma. A program of study may be found on the IU Kokomo School of Education Web site (www.iuk.edu/academics/majors/education/index.shtml).

Field Experience and Student Teaching

Field experiences are important and essential components of the initial teacher education programs at IU Kokomo. All students must complete a series of continuous and ongoing experiences in early childhood, elementary or secondary classrooms, including observations, field practica, and student teaching.

Admission to the Teacher Education Program is required to enroll in special methods courses and their related field experiences.

Applications for student teaching of any type must be filed in the year prior to the academic year in which the work is to be done. The published deadlines are posted on the School of Education website where applications are available. Student teaching is a full-time experience requiring complete participation in the school program, including evening activities as required. Student teachers should plan accordingly.

In order to be eligible for student teaching, students must:

1. Be formally admitted to the Teacher Education Program.
2. Submit a student teaching application to the School of Education at IU Kokomo.
3. Attain senior or graduate standing in the university or be within two semesters and one summer session of graduation/program completion.
4. Complete all professional education courses designated as prerequisites to student teaching.
5. Complete all the required courses (exclusive of student teaching for the K-6 program) or complete at least 75 percent of the required work in the 5-12 teaching major.
6. Earn an overall GPA of at least 2.5 in all work taken at Indiana University (for undergraduates pursuing the B.S. Elementary Education).
7. Earn a GPA of at least 2.5 in the teaching major (for 5-12 programs)
8. Meet the required testing requirements for licensure by the Indiana Department of Education prior to student teaching.
9. Meet all other standards and requirements of the Indiana University Kokomo School of Education and the Indiana Department of Education.

Bachelor of Science in Education

Students in the Bachelor of Science in Elementary Education and Bachelor of Science in Secondary Education are held responsible for meeting all requirements for graduation and for completing them by the expected graduation date. Each program is designed to meet the course requirements for both the degree and the appropriate teaching license. The degree requirements for the Bachelor of Science in Education are:

1. Meet the regular matriculation requirements of the university.
2. Admission to the Teacher Education Program (TEP).
3. Completion of at least 35 credit hours of junior and senior courses (courses numbered 300 or above).
4. Completion of at least 30 of the last 60 credit hours required for a specific degree program at Indiana University Kokomo. These 30 credit hours will, with rare exception, include student teaching and methods courses in the major teaching areas. Students must also take some of the work in the major area at IU Kokomo unless they are transfer students from an IU campus where a degree in the major is offered. In this case, the requirement of some work in the major area at IU
5. Completion of the professional education courses as stipulated in the specific program, and all of the general education and subject matter courses required by IU Kokomo for the appropriate degree.

6. Completion of the number of total credit hours specified by each program.
7. Meet GPA requirements of the program as previously specified, including a minimum GPA of 2.5 in each special teaching area.
8. Meet all Decision Point requirements.
9. Recommendation by the student's academic advisor and approval by the education faculty.

Bachelor of Science in Elementary Education

The Bachelor of Science in Elementary Education leads to an Elementary Generalist license (K-6). Students will be admitted into the program in a cohort and will continue to move through the program with others who have begun the program at the same time. The Bachelor of Science degree in Elementary Education will comprise: **General Education Requirements—B.S. Elementary Education (51 cr.):** Content courses focus on the following: Communication Skills; Quantitative Literacy; Information Literacy; Critical Thinking; Cultural Diversity; Ethics and Civic Engagement; Social and Behavioral Science; Humanities and Arts; Physical and Life Sciences. All courses must have a grade of at least C. Students should plan their programs in consultation with an academic advisor and monitor their programs to ensure content requirements are met. Failure to do so will delay program completion. **Communication Skills and Information Literacy (9 cr.)**

- ENG-W 131 Elementary Composition I (3 cr.)
- ENG-W 132 Elementary Composition II (3 cr.)
- SPCH-S 121 Public Speaking (3 cr.)

Quantitative Literacy (12 cr.)

- MATH-M 118 Finite Mathematics (3 cr.)
- MATH-T 109 Mathematics for Elementary Education I (3 cr.)
- MATH-T 110 Mathematics for Elementary Education II (3 cr.)
- EDUC-K 490 Assessment I (3 cr.)

Critical Thinking (3 cr.)

- EDUC-P 251 Elementary Educational Psychology (3 cr.)

Cultural Diversity (3 cr.)

- EDUC-M 300 Teaching in a Pluralistic Society (3 cr.)

Ethics and Civic Engagement (3 cr.)

- EDUC-H 340 Education and the American Culture (3 cr.)

Social and Behavior Science (6 cr.)

Two 3-credit hour courses, each from a different area: Sociology, Psychology, Economics, Political Science, and History (We advise taking a World History and either Sociology or Psychology)

- HIST-H 113 History of Western Civilization I (3 cr.) or HIST-H 114 History of Western Civilization II (3 cr.) or POLS-Y 217 Introduction to Comparative Politics (3 cr.) or POLS-Y 219 Introduction to International Relations (3 cr.)

- PSY-P 103 General Psychology (3 cr.) or SOC-S 100 Introduction to Sociology (3 cr.) or SOC-S 101 Social Problems and Policies (3 cr.)

Humanities and Arts (7 cr.)

- EDUC-M 333 Elementary Art Methods (2 cr.)
- EDUC-M 323 Elementary Music Methods (2 cr.)

One course from the following:

- Humanities (HSS-E 103: Note course counted only one time)
- Any ENG-L course • Any PHIL course except PHIL P-150

Physical and Life Sciences (8 cr.)

One 5-credit hour course with a lab and one 3-credit hour course from a different area. (We advise a Biology course and a Geology course)

- BIOL-L 100 Humans and the Biological World (5 cr.) or BIOL-L 105 Introduction to Biology (5) or BIOL-L 270 Humans and Microorganisms (3) or BIOL-L 370 Plants, Animals, and Civilization (3) or PLSC-B 203 Survey of the Plant Kingdom (5 cr.) or PLSC-B 364 Summer Flowering Plants (5 cr.) or ANAT-A 215 Basic Human Anatomy (5) or PHSL-P 215 Basic Human Physiology (5) or MICR-J 200 Microbiology and Immunology (3) or SSCI-E 105
- GEOG-G 107 Physical Systems of the Environment or GEOG-G 315 Environmental Conservation

Physics

- PHYS-P 100 Physics in the Modern World (5 cr.)
- PHYS-P 201 General Physics I (5 cr.)
- SSCI-E 105 (when content is appropriate) (3 cr.)

Chemistry

- CHEM-C 100 The World of Chemistry (3 cr.) and CHEM-C 120 Lab (2 cr.)
- CHEM-C 101 Elementary Chemistry (3 cr.) and CHEM-C 121 Lab (2 cr.)
- CHEM-C 105 Principles of Chemistry (3 cr.) and CHEM-C 125 Lab (2 cr.)
- CHEM-C 390 Environmental Science (3 cr.)
- SSCI-E 105 (when content is appropriate) (3 cr.)

(3 cr.) or GEOL-G 100 General Geology (5 cr.) or GEOL-G 133 Geology of the United States or GEOL-G 400 Energy: Sources and Needs (3) or GEOL-T 312 Geology of Indiana (3 cr.) or SSCI-E 105

Content Minor (minimum 15 credit hours)

Students choose from among the IU Kokomo approved minors list. The Indiana Department of Education and the School of Education recommend minors in elementary content areas. A Special Education minor (26 credits) is also an option for the content minor. Successful completion of this minor will result in dual licensure in Elementary Generalist (K-6) and Exceptional Learners: Mild Intervention (P-12). Special Education required courses include:

- EDUC-K 370 Language and Learning Disorders (3)
- EDUC-K 343 Emotional and Behavioral Disorders I (3)
- EDUC-K 352 Learning Disability Methods (3)

- EDUC-K 495A Special Education Field Experience I (1)
- EDUC-K 344 Emotional and Behavioral Disorders II (3)
- EDUC-K 495B Special Education Field Experience II (2)
- EDUC-K 361 Assistive Technology (2)
- EDUC-K 362 Team Approaches to Educating Students with Disabilities (3)
- EDUC-K 371 Assessment and Individualized Instruction in Reading and Mathematics (3)
- EDUC-K 380 Curriculum and Methods for Educating Mentally Retarded (3)

Professional Education Requirements (Elementary Education)

Professional Education courses are intended to develop the knowledge, dispositions, and skills required for entry to the profession. The Pre-Professional courses are taken during the freshman and sophomore years and prior to formal admission into the Teacher Education Program (TEP). These courses develop the knowledge, skills, and dispositions that underlie all teacher education regardless of the developmental focus. These include inquiry, learning theory, introduction to special needs children, diversity, technology and general methods. Within the Professional Education component of the degree, there are both foundational and specialized requirements. During the junior and senior years, students must be formally admitted into TEP and complete all content courses, education courses, and program requirements assigned to Movements A-D. At Decision Points, faculty review and approval are required as conditions for program continuation.

Freshman and Sophomore Years - Year 1 and 2 Pre-professional courses

- EDUC-F 205 Study of Education and the Practice of Teaching (3 cr.)
- EDUC-K 205 Introduction to Exceptional Children (3 cr.)
- EDUC-P 251 Educational Psychology for Elementary Teachers with Field (3 cr.)
- EDUC-Q 200 Introduction to Scientific Inquiry (3 cr.)
- EDUC-W 200 Computers in Education (3 cr.)
- EDUC-M 311 Elementary General Methods (1 cr.)

Junior Year - Fifth Semester (Fall or Spring) Movement A

- EDUC-E 339 Elementary Language Arts Methods (3 cr.)
- EDUC-E 335 Introduction to Early Childhood Education (3 cr.)
- EDUC-M 300 Teaching in a Pluralistic Society (3 cr.)
- EDUC-M 323 The Teaching of Music in Elementary Schools (2 cr.)*
- HPER-P 290 Movement Experiences for P-6 children (2 cr.)

Junior Year - Sixth Semester (Fall or Spring) Movement B

- EDUC-E 325 Social Studies in the Elementary Schools (3 cr.)
- EDUC-E 340 Elementary Reading Methods I (3 cr.)
- EDUC-E 343 Mathematics in the Elementary Schools (3 cr.)

- EDUC-H 340 Education and the American Culture (3 cr.)*
- EDUC-M 333 Art Experiences for the Elementary Teacher (2 cr.)*

Senior Year - Seventh Semester (Fall or Spring) Movement C

- EDUC-E 328 Science in the Elementary Schools (3 cr.)
- EDUC-K 305 Teaching the Exceptional Learner in Elementary (3 cr.)
- EDUC-E 341 Elementary Reading Methods II (3 cr.)
- EDUC-K 490 Assessment I (3 cr.)
- *EDUC-X 460 Books for Reading Instruction (3 cr.)*

*May be taken during summer

Senior Year - Eighth Semester (Fall or Spring) Movement D (Successful scores on State required test(s) are required before entering Movement D)

- EDUC-M 425 Student Teaching in the Elementary Schools (12 cr.) (Students choosing the Special Education minor will take EDUC-M 425 (6 cr.) and EDUC-K 488 Special Education Student Teaching (6 cr.)

NOTE:

- EDUC-H 340 fulfills the IU Kokomo General Education Ethics and Civic Engagement Standard.
- EDUC-M 300 fulfills the IU Kokomo General Education Cultural Diversity Standard.
- EDUC-K 490 fulfills the statistical components of the IU Kokomo General Education Quantitative Literacy Standard.
- EDUC-P 251 fulfills the IU Kokomo General Education Critical Thinking Standard.

Bachelor of Science in Secondary Education

The Bachelor of Science in Secondary Education leads to the secondary school teacher license (grades 5-12) in Mathematics, Language Arts/English, Physics, Chemistry, Physical Science, Life Science, Earth/Space Science, Historical Perspectives, Government and Citizenship, Sociology, Psychology, Economics or Exceptional Needs: Mild Intervention; secondary teacher license (P-12) in Fine Arts: Visual Arts. A minimum of 120 credit hours is needed for the degree. Students will be admitted to the program in a cohort and will continue to move through the program with others who have begun the program at the same time.

The Bachelor of Science degree in Secondary Education will comprise: General Education Requirements – B.S. Secondary Education: For any student in Education, he/she must have a minimum of 42 credit hours. All courses must have a grade of at least C. Students should plan their programs in consultation with an academic advisor and monitor them to ensure content requirements are met. Failure to do so will delay program completion.

Communication Skills and Information Literacy (9 cr.)

- ENG-W 131 Elementary Composition I (3 cr.)
- ENG-W 132 Elementary Composition II (3 cr.)
- SPCH-S 121 Public Speaking (3 cr.)

Quantitative Literacy (minimum of 6 cr.)

- EDUC-K 490 Assessment I (3 cr.)

One of the following:

- MATH-M 118 Finite Mathematics (3 cr.)
- MATH-M 119 Survey of Calculus (3 cr.)
- MATH-M 215 Calculus I (5 cr.)
- MATH-M 133 (2 cr.) AND MATH-M 134 (2 cr.)
Except math and science majors.

Critical Thinking (3 cr.)

- EDUC-P 255 Educational Psychology for Middle and Secondary Teachers (3 cr.)

Cultural Diversity (3 cr.)

- EDUC-M 300 Teaching in a Pluralistic Society (3 cr.)

Ethics and Civic Engagement (3 cr.)

- EDUC-H 340 Education and American Culture (3 cr.)

Social and Behavioral Sciences (6 cr.)

Two 3-credit hour courses, each from a different area: Sociology, Psychology, Economics, Political Science, and History)

History

- HIST-H 105 American History I (3 cr.)
- HIST-H 106 American History II (3 cr.)
- HIST-H 113 History of Western Civilization I (3 cr.)
- HIST-H 114 History of Western Civilization II (3 cr.)

Political Science

- POLS-Y 103 Introduction to American Politics (3 cr.)
- POLS-Y 217 Introduction to Comparative Politics (3 cr.)
- POLS-Y 219 Introduction to World Politics (3 cr.)

Economics

- ECON-E 175 Survey of Economics for Teachers (3 cr.)
- ECON-E 200 Fundamentals of Economics (3 cr.)
- ECON-E 201 Introduction to Micro Economics (3 cr.)
- ECON-E 202 Introduction to Macro Economics (3 cr.)

Sociology

- SOC-S 100 Introduction to Sociology (3 cr.)
- SOC-S 101 Social Problems and Politics (3 cr.)

Psychology

- PSY-P 103 General Psychology (3 cr.)
- HSS-E 104 when content is appropriate (3 cr.)

Humanities and Arts (6 cr.) One 3-credit hour course from each of the two areas: Literature & Philosophy and Fine, Performing & Communication Arts

- ENG-L XXX (3 cr.)
- ENG-E XXX (3 cr.)
- PHIL-P XXX (3 cr.) [except PHIL P 150 Elementary Logic (3 cr.)]
- FINA-A 101 Ancient and Medieval Art (3 cr.)
- FINA-A 102 Renaissance through Modern Art (3 cr.)
- SPAN-S 360 Introduction to Spanish Literature (3 cr.)
- HSS-E 103 when content is appropriate (3 cr.)

Fine, Performing and Communications Art

- FINA-A 101 Ancient and Medieval Art (3 cr.)
- FINA-A 102 Renaissance through Modern Art (3 cr.)

- Any studio course (3)
- MUS-M 174 Appreciation to Music (3 cr.)
- MUS-U 320 Women in Music History (3 cr.)
- MUS-X 001 IU Kokomo Singers (2 cr.)
- MUS-X 040 Instrumental Ensemble Hand-bells (1 cr.)
- MUS-X 070 Instrumental Ensemble Choral (1 cr.)
- Any music performance course (1-3 cr.)
- THTR-T 120 Acting I (3 cr.)
- HUMA-U 101 Intro. to Humanities: What happens in Hamlet? (3 cr.)
- HUMA-U 102 Intro. to Humanities: The Live Performance (3 cr.)
- HUMA-U 103 Introduction to Creative Arts (3 cr.)
- HUMA-U 305 Art and Music in the 20th Century (3 cr.)
- ENG-W 203 Creative Writing (3 cr.)
- SPCH-S 201 Communicating in Public
- HSS-E 103 when content is appropriate (3 cr.)

Physical and Life Sciences (minimum of 8 cr.) One 5 credit hour course with a lab and one 3-credit hour course from a different area **Biology**

- BIOL-L 100 Man and the Biological World (5 cr.)
- BIOL-L 105 Introduction to Biology (5 cr.)
- BIOL-L 270 Humans and Microorganisms (3 cr.)
- BIOL-L 370 Plants, Animals and Civilization (3 cr.)
- ANAT-A 215 Basic Human Anatomy (5 cr.)
- PHSL-P 215 Basic Human Physiology (5 cr.)
- MICR-J 200 Microbiology and Immunology (3 cr.)
- PLSC-B 203 Survey of the Plant Kingdom (5 cr.)
- PLSC-B 364 Summer Flowering Plants (5 cr.)
- SSCI-E 105 when content is appropriate (3 cr.)

Physics

- PHYS-P 100 Physics in the Modern World (5 cr.)
- PHYS-P 201 General Physics I (5 cr.)
- SSCI-E 105 when content is appropriate (3 cr.)

Chemistry

- CHEM-C 100 The World of Chemistry (3 cr.) and CHEM-C 120 Lab (2 cr.)
- CHEM-C 101 Elementary Chemistry (3 cr.) and CHEM C-121 Lab (2 cr.)
- CHEM-C 105 Principles of Chemistry (3 cr.) and CHEM C-125 Lab (2 cr.)
- CHEM-C 390 Environmental Science (3 cr.)
- SSCI-E 105 when content is appropriate (3 cr.)

Geology

- GEOL-G 100 General Geology (5 cr.)
- GEOG-G 107 Physical Systems of the Environment (3 cr.)
- GEOG-G 315 Environmental Conservation (3 cr.)
- GEOL-G 133 Geology of the United States (3 cr.)
- GEOL-G 400 Energy: Sources and Needs (3 cr.)
- GEOL-T 312 Geology of Indiana (3 cr.)
- SSCI-E 105 Topics in Natural and Math Sciences (3 cr.)

*Education courses have been approved to satisfy the General Education Core Level Requirements:

- EDUC-K 490 for Quantitative Literacy

- EDUC-M 300 for Cultural Diversity
- EDUC-H 340 for Ethics and Civic Engagement
- EDUC-P 255 for Critical Thinking

Professional Education Requirements (Secondary Education)

Professional Education courses are intended to develop the knowledge, dispositions and skills required for entry to the profession. The Pre-Professional courses are taken during the freshman and sophomore years and prior to formal admission into the Teacher Education Program (TEP). These courses develop the knowledge, skills and dispositions that underlie all teacher education regardless of the developmental focus. These include inquiry, learning theory, special needs children, diversity, technology and general methods. Within the Professional Education component of the degree, there are both foundational and specialized requirements. During the junior and senior years, students must be formally admitted into TEP and complete all content courses, education courses and program requirements assigned to Movements I - III. At each Decision Point, faculty review and approval are required as conditions for program continuation.

- EDUC-F 205 Study of Education and Practice of Teaching (3 cr.)
- EDUC-K 205 Introduction to Exceptional Children (3 cr.)
- EDUC-P 255 Educational Psychology for Middle and Secondary Teachers (3 cr.)
- EDUC-Q 200 Introduction to Scientific Inquiry (3 cr.)
- EDUC-W 200 Computers in Education (3 cr.)*
- EDUC-M 313 Secondary General Methods (1 cr.)*
- EDUC-M 300 Teaching in a Pluralistic Society (3 cr.)
- EDUC-H 340 Education and American Culture (3 cr.)
- EDUC-M 459 Secondary Mathematics Methods (3 cr.)
- EDUC-M 446 Secondary Science Methods (3 cr.)
- EDUC-M 442 Secondary Social Studies Methods (3 cr.)
- EDUC-M 416 Secondary Language Arts Methods (3 cr.)
- EDUC-M 430 Secondary Fine Arts: Visual Arts Methods (3 cr.)
- EDUC-M 464 Methods of Teaching Reading (3 cr.)
- EDUC-K 306 Teaching the Exceptional Learner in Secondary (3 cr.)
- EDUC-K 490 Assessment I (3 cr.)
- EDUC-M 441 Methods of Teaching SH/JH/MS Social Studies (3 cr.)
- EDUC-M 437 Methods of Teaching SH/JH/MS Science (3 cr.)
- EDUC-M 452 Methods of Teaching SH/JH/MS Eng/Lang Arts (3 cr.)
- EDUC-M 457 Methods of Teaching SH/JH/MS Mathematics (3 cr.)

- EDUC-M 333 Art Experience for the Elementary Teacher (Fine Arts Major) (2 cr.)
- EDUC-M 480 Student Teaching in the Secondary School (12 cr.)
- EDUC-M 480 Student Teaching in the Secondary School (5 cr.)
- EDUC-M 480 Student Teaching in the Secondary School (4 cr.)
- Fine Arts: Visual Arts (P-12)
- EDUC-M 425 Student Teaching in the Elementary School (6 cr.)
- EDUC-M 480 Student Teaching in the Secondary School (6 cr.)

* May be taken in Summer

Teaching Major Requirements

B.S. Secondary Education degree has a minimum of 41 credit hours for each teaching major license (Mathematics, English/Language Arts, Science, Social Studies, Fine Arts: Visual Arts, and Exceptional Learners: Mild Intervention).

Special Education

This Special Education license for grade 5-12 is a licensure area within the secondary education program but has its own planning guide. The program is a total 126 credit hours. The General Education Content requirements and the Year 1 and 2 Pre-professional courses are the same as the Secondary Education program. Additional pre-professional special education courses are as follows:

- EDUC-K 370 Language and Learning Disorders
- EDUC-K 343 Emotional and Behavioral Disorders I
- EDUC-K 352 Educating Students with Learning Disorders
- EDUC-K 495A Special Education Field Experience I
- EDUC-K 362 Team Approaches to Educating Students with Disabilities*

Movement I

- EDUC-K 361 Assistive Technology (2)*
- EDUC-M 300 Teaching in a Pluralistic Society
- EDUC-H 340 Education and the American Culture*
- EDUC-K 371 Assessment & Individualized Instruction in Reading and Mathematics*
- EDUC-K 495B Special Education Field Experience II

Movement II

- EDUC-K 344 Emotional & Behavior Disorders II*
- EDUC-K 380 Curriculum and Methods for Educating Mentally Retarded
- EDUC-M 464 Reading in the Content Areas
- EDUC-K 490 Assessment I

Movement III (Successful scores on State required test(s) are required before entering Movement III)

- EDUC-K 488 Special Education Student Teaching (9)

All Secondary Education majors choosing Special Education as their licensure area will need to take at least 24 additional credit hours in a Core Academic Subject Area. The Indiana Department of Education and the IU Kokomo School of Education recommend the following

Core Academic Subject Areas: English, Reading or Language Arts, Mathematics, Fine Arts: Visual Arts, Science, and Social Studies in the areas of Economics, Government, and History.

Mathematics Teaching Major (minimum 41 cr.)

Teaching major requirements are fulfilled by completing a minimum of 41 credit hours in Mathematics. A minimum GPA of 2.5 in the teaching major is required (with a grade of C or better in each course).

- MATH-M 215 Calculus I (5 cr.)
- MATH-M 216 Calculus II (5 cr.)
- MATH-M 311 Calculus III (5 cr.)
- MATH-M 303 Linear Algebra for Undergraduates (3 cr.)
- MATH-M 403 Introduction to Modern Algebra I (3 cr.)
- MATH-M 360 Elements of Probability (3 cr.)
- MATH-M 366 Elements of Statistical Inference (3 cr.)
- MATH-T 336 Topics in Euclidean Geometry (3 cr.)
- MATH-M 347 Discrete Math (3 cr.)
- MATH-M 313 Elementary Differential Equations with Applications (3 cr.)
- MATH-M 404 Introduction to Modern Algebra II (3 cr.)
- MATH-M 413 Introduction to Analysis II (3 cr.)

Science Teaching Major

Teaching major requirements are fulfilled by completing a minimum of 41 credit hours in Science. A minimum GPA of 2.5 is required in the teaching major with a grade of C or better in each course. The IU Kokomo Teacher Education Program requires students to choose one licensure area and complete at least 41 credit hours.

Life Science

- BIOL-L 105 Intro to Biology (5 cr.)
- MICR-M 310 Microbiology (3 cr.)
- BIOL-L 211 Introduction to Molecular Biology and BIOL-L 213 Lab (5 cr.)
- BIOL-L 473 Ecology and BIOL-L 474 Lab (5 cr.)
- BIOL-L 364 Principles of Genetics (3 cr.)
- BIOL-L 203 Evolution & Diversity of Life (3 cr.)
- CHEM-C 483 Biological Chemistry (3 cr.)
- CHEM-C 105 General Chemistry I and CHEM C-125 Lab (5 cr.)
- PHYS-P 201 General Physics I (5 cr.) or PHYS-P 221 Physics I (5 cr.)
- GEOL-G 100 General Geology (5 cr.) or GEOG-G 107 Physical Systems of the Environment (3 cr.)
- MATH-K 310 Statistical Techniques (3 cr.)

Physical Science

- PHYS-P 201 General Physics I (5 cr.) or PHYS-P 221 Physics I (5 cr.)
- PHYS-P 202 General Physics II (5 cr.) or PHYS-P 222 Physics II (5 cr.)
- PHYS-P 301 Contemporary Physics (3 cr.)
- PHYS-P 310 Environmental Physics (3 cr.)
- CHEM-C 105 General Chemistry I and CHEM-C 125 Lab (5 cr.)
- CHEM-C 106 General Chemistry II and CHEM-C 126 Lab (5 cr.)

- CHEM-C 341 Organic Chemistry I (3 cr.) and CHEM-C 343 Organic Chemistry I Lab (2 cr.) or CHEM-C 361 Introductory Physical Chemistry (3 cr.)
- BIOL-L 105 Intro to Biology (5 cr.)
- GEOL-G 100 General Geology (5 cr.) or GEOG-G 107 Physical Systems of the Environment (3 cr.)
- MATH-M 215 Calculus I (5 cr.)

Chemistry

- CHEM-C 105 General Chemistry I and CHEM-C 125 Lab (5 cr.)
- CHEM-C 106 General Chemistry II and CHEM-C 126 Lab (5 cr.)
- CHEM-C 483 Biological Chemistry (3 cr.)
- CHEM-C 341 Organic Chemistry and CHEM-C 343 Laboratory (5 cr.)
- CHEM-C 361 Introductory Physical Chemistry (3 cr.)
- CHEM-C 430 Inorganic Chemistry (3 cr.)
- BIOL-L 105 Intro to Biology (5 cr.)
- PHYS-P 201 General Physics I (5 cr.) or PHYS-P 221 Physics I (5 cr.)
- GEOL-G 100 General Geology (5 cr.) or GEOG-G 107 Physical Systems of the Environment (3 cr.)
- MATH-M 215 Calculus I (5 cr.)

Earth/Space Science

- CHEM-C 105 General Chemistry I and CHEM-C 125 Lab (5 cr.)
- AST-A 110 Introduction to Astronomy (3 cr.)
- GEOG-G 107 Physical Systems of the Environment (3 cr.)
- GEOG-G 315 Environmental Conservation (3 cr.)
- GEOL-G 100 General Geology (5 cr.)
- GEOL-G 133 Geology of the United States (5 cr.)
- GEOL-G 400 Energy: Sources and Needs (3 cr.)
- GEOL-T 312 Geology of Indiana (3 cr.)
- GEOL-T 326 Geology of Mineral Resources (3 cr.)
- BIOL-L 105 Introduction to Biology (5 cr.)
- MATH-K 310 Statistical Techniques (3 cr.)

Physics

- PHYS-P 201 General Physics I (5 cr.) or PHYS P 221 Physics I (5 cr.)
- PHYS-P 202 General Physics II (5 cr.) or PHYS P 222 Physics II (5 cr.)
- PHYS-P 301 Contemporary Physics (3 cr.)
- PHYS-P 310 Environmental Physics (3 cr.)
- AST-A 100 Solar System (3 cr.)
- AST-A 110 Introduction to Astronomy (3 cr.)
- BIOL-L 105 Intro to Biology (5 cr.)
- CHEM-C 105 General Chemistry I and CHEM-C 125 Lab (5 cr.)
- GEOL-G 100 General Geology (5 cr.) or GEOG-G 107 Physical Systems of the Environment (3 cr.)
- MATH-M 215 Calculus I (5 cr.)

Social Studies Teaching Major

Teaching major requirements are fulfilled by completing a minimum of 41 credit hours in Social Studies. A minimum GPA of 2.5 in the teaching major is required (with no grade less than a C in the teaching major). The IU Kokomo Teacher Education Program requires that Historical Perspectives and Government and Citizenship

be the licensure areas. Student may want to choose a minor in either Sociology, Psychology, or Economics to add an additional licensure area. The minor will be additional credit hours.

- HIST-H 105 American History I (3 cr.)
- HIST-H 106 American History II (3 cr.)
- HIST-H 113 History of Western Civilization I (3 cr.)
- HIST-H 114 History of Western Civilization II (3 cr.)
- HIST-A 333 History of Indiana or HIST-A 334 History of Indiana II
- Any H-3XX US History course (3 cr.)
- Any H-3XX International History course (3 cr.)
- POLS-Y 103 Introduction to Political Science (3 cr.)
- POLS-Y 215 Introduction to Political Theory (3 cr.)
- POLS-Y 217 Introduction to Comparative Politics (3 cr.) or
- POLS-Y 219 Introduction to World Politics (3 cr.)
- Any POLS-Y 3XX US Political Science course (3 cr.)
- Any POLS-Y 3XX World Political Science course (3 cr.)
- Any POLS-Y 3XX Political Science (3 cr.)
- Any HIST-H 3XX History course (3 cr.) or POLS-Y3XX Political Science course (3 cr.)

Optional minors in Economics, Psychology or Sociology.

- ECON-E 201 Introduction to Micro Economics (3 cr.)
- ECON-E 202 Introduction to Macro Economics (3 cr.)
- ECON-E 270 Introduction to Statistical Theory in Economics and Business (3 cr.)
- ECON-E 303 Survey of International Economics or BUS-D 301 International Business Environment (3 cr.)
- Any ECON-E 3XX course or above
- PSY-P 103 Introduction to Psychology (3 cr.)
- PSY-P 2?? Introduction to Psychological Inquiry (3 cr.)
- PSY-P 216 Lifespan Development (3 cr.)
- PSY-P 320 Social Psychology (3 cr.)
- PSY-P 324 Abnormal Psychology (3 cr.)
- PSY-P 325 Psychology of Learning (3 cr.)
- PSY-P 326 Neuroscience (3 cr.)
- PSY-P 335 Cognitive Psychology (3cr.)
- SOC-S 100 Introduction to Sociology (3 cr.)
- SOC-S 252 Methods of Sociological Research (3 cr.)
- SOC-S 340 Social Theory (3 cr.)
- SOC-S 316 The Family (3 cr.)
- SOC-S 317 Inequality (3 cr.)
- SOC-S 331 Sociology of Aging (3 cr.) or SOC-S 335 Race and Ethnic Relations (3 cr.) or SOC-S 338 Gender Roles (3 cr.)
- SOC-S 325 Criminology (3 cr.) or SOC-S 328 Juvenile Delinquency (3 cr.)
- SOC-S 419 Social Movements and Collective Action (3 cr.)

Fine Arts: Visual Arts Teaching Major

Teaching major requirements are fulfilled by completing a minimum of 41 credit hours in Fine Arts: Visual Arts. A minimum GPA of 2.5 in the teaching major is required (with a grade of C or better in each course).

- FINA-F 101 Fundamental Studio 3-D (3 cr.)
- FINA-F 102 Fundamental Studio 2-D (3 cr.)
- FINA-S 200 Drawing I (3 cr.)
- FINA-S 230 Painting I (3 cr.)
- FINA-S 272 Objects in Time and Space (3 cr.)
- FINA-S 280 Metalsmithing I (3 cr.)
- FINA-S 260 Ceramics I (3 cr.)
- FINA-S 215 Digital Media Studio (3 cr.)
- FINA-F 100 Fundamental Studio: Drawing (3 cr.)
- FINA-S 240 Introduction to Printmaking Media (3 cr.)
- FINA-A 101 Ancient/Medieval Art (3 cr.)
- FINA-A 102 Renaissance through Modern Art (3 cr.)
- Any FINA-A 2XX or FINA-A 3XX (3 cr.)
- FINA-P 346 Philosophy of Art (3 cr.)

Exceptional Learners: Mild Intervention

This Special Education license for grade 5-12 is a licensure area within the secondary education program but has its own planning guide. The program is a total 126 credit hours. The General Education Content requirements and the Year 1 and 2 Pre-professional courses are the same as the Secondary Education program. Additional pre-professional special education courses are as follows:

- EDUC-K 370 Language and Learning Disorders
- EDUC-K 343 Emotional and Behavioral Disorders I*
- EDUC-K 352 Educating Students with Learning Disorders
- EDUC-K 495A Special Education Field Experience I (1)
- EDUC-K 362 Team Approaches to Educating Students with Disabilities*

Movement I

- EDUC-K 361 Assistive Technology (2)*
- EDUC-M 300 Teaching in a Pluralistic Society
- EDUC-H 340 Education and the American Culture*
- EDUC-K 371 Assessment & Individualized Instruction in Reading and Mathematics*
- EDUC-K 495B Special Education Field Experience II (2)

Movement II

- EDUC-K 344 Emotional and Behavior Disorders II
- EDUC-K 380 Curriculum and Methods for Educating Mentally Retarded
- EDUC-M 464 Reading in the Content Areas
- EDUC-K 490 Assessment I

Movement III (Successful scores on State required test(s) are required before entering Movement III)

- EDUC-K 488 Special Education Student Teaching (12)

*May be taken in the summer.

All Secondary Education majors choosing Special Education as their licensure area will need to take at least 24 additional credit hours in a Core Academic Subject

Area. The Indiana Department of Education and the IU Kokomo School of Education recommend the following Core Academic Subject Areas: English, Reading or Language Arts, Mathematics, Fine Arts: Visual Arts, Science, and Social Studies in the areas of Economics, Government, and History.

Change to Education

The Change to Education Program Secondary is for those individuals who have already earned a baccalaureate degree and who are interested in becoming secondary education teachers. All applications for the Change to Education Program Secondary must be received by the School of Education at IU Kokomo by mid-April for Fall admits and mid-October for Spring admits.

Admission Requirements

1. Eligible candidate must have completed a baccalaureate degree at an accredited institution with a major in the same subject area in which the candidate is seeking licensure: Language Arts, Mathematics, Science, Social Studies.
2. Candidate must have a grade point average of 2.5 on a four (4.00) point scale, both in the major and overall.
3. A Master of Science degree from an accredited institution of higher education, with a major in the same subject area for which licensure is sought, may also qualify one for admission.
4. A cover letter (approximately two pages) in which the candidate outlines goals, reasons for pursuing a teaching license and how the C2E program will match these goals.
5. Official score reports from PRAXIS I, indicating you have passed this tests. (After September 1, 2013, TEP candidates will take the Pearson CASA.)
6. A detailed resume.
7. Official copies of past college or university transcripts.

Required Courses

Three semesters of education-related coursework, delivered in seminar format and online, followed by one semester of student teaching. Seminar content will focus on the Essential Pedagogies: Development, Curriculum, Instruction, Assessment, and Professionalism. Field experiences may be accomplished by paid internship/ substitute teaching in one of the School of Education's Center for Educational Partnership (CEP) twenty-three school corporations.

Master of Science in Education

The Master of Science in Education is a 2-year degree program that provides graduate-level study to P-12 classroom teachers. M.S. in Education candidates are admitted into the program in a cohort beginning Fall semester and continue through the program for six semesters, including Summer semesters. The M.S. in Education degree is a 36-credit hour advanced teacher education program, composed of four broad areas of coursework:

- EDUC-P 514 Life Span Development: Birth to Death (3 cr.)
- EDUC-K 505 Intro to Special Education for Graduate Students (3 cr.)
- EDUC-P 507 Assessment in the Schools (3 cr.)
- EDUC-H 520 Education and Social Issues (3 cr.)
- EDUC-W 505 Professional Development Workshop: Multimedia in the Classroom (3 cr.)
- EDUC-W 505 Professional Development Workshop: Electronic Portfolios Part 1 (1 cr.)
- EDUC-W 505 Professional Development Workshop: Electronic Portfolios Part 2 (1 cr.)
- EDUC-W 505 Professional Development Workshop: Electronic Portfolios Part 3 (1 cr.)
- EDUC-Y 520 Strategies for Educational Inquiry (3 cr.)
- EDUC-Y 595 Educational Inquiry: Authentic Application (3 cr.)
- EDUC-J 500 Instruction in the Context of Curriculum (3 cr.)
- *500-level Content Pedagogy or 400- and 500-level Content Course (3 cr.)
- *500-level Content Pedagogy or 400- and 500-level Content Course (3 cr.)
- *500-level Content Pedagogy or 400- and 500-level Content Course (3 cr.)

*subject to approval from the Graduate Advisor

The M.S. in Education degree program is intended to provide graduate study in teacher education and is aligned with the National Board for Professional Teacher Standards (NBPTS) Besides the course work outlined above, the program offers candidates a range of program experiences including: 1) evaluating undergraduate teacher education portfolios, 2) leading undergraduate teacher education candidates in field and clinical experiences, 3) implementing teacher-developed curriculum at field sites, and 4) conducting action research within classroom/ school parameters. All candidates are monitored for progression through the program with use of a five benchmark sequence. Benchmark I includes admission into the program, Benchmarks II through Benchmark IV include course work as well as program experiences, and Benchmark V is a check of successful completion. At the completion of each Benchmark, faculty review and approval are required as conditions for program continuation.

- EDUC-W 505 Multimedia in the Classroom (3 cr.)
- EDUC-W 505 Electronic Portfolio Development Part 1 (1 cr.)
- EDUC-Y 520 Strategies for Educational Inquiry (3 cr.)
- EDUC-J 500 Instruction in the Context of Curriculum (3 cr.)
- EDUC-K 505 Special Education for Graduate Students (3 cr.)

- EDUC-W 505 Electronic Portfolio Development Part 2 (1 cr.)
- Content Pedagogy or Content Course (3 cr.)
- EDUC-P 514 Life Span Development: Birth to Death (3 cr.)
- EDUC-H 520 Education and Social Issues (3 cr.)
- EDUC-Y 595 Educational Inquiry: Authentic Application (3 cr.)
- Content Pedagogy or Content Course (3 cr.)

Summer Semester – Benchmark 4

- EDUC-P 507 Assessment in the Schools (3 cr.)
- Content Pedagogy or Content Course (3 cr.)
- EDUC-W 505 Electronic Portfolio Development Part 3 (1 cr.)

The following policies govern the application of graduate courses into the M.S. degree program:

- The School of Education determines the credit that may be accepted from other institutions and applied toward the M.S. degree.
- Courses applied to program requirements must have been completed at an accredited institution within 36 months of M.S. program admission.
- A maximum of 6 credit hours may be transferred from other institutions and applied to M.S.
- No undergraduate courses may be used to satisfy M.S. program requirements.
- Coursework applied to M.S. program requirements must carry a grade of “C” or better.

Education Courses Undergraduate

EDUC-E 325 Social Studies in the Elementary Schools (3 cr.) P: EDUC-E 339, and EDUC-M 299. Emphasizes the development of objectives, teaching strategies, and evaluation procedures that facilitate the social learning of young children. Special attention given to concept learning, inquiry, decision making and value analysis.**

EDUC-E 328 Science in the Elementary Schools (3 cr.) P: EDUC-E 339, EDUC-E 340, and EDUC-M 299. Objectives, philosophy, selection, and organization of science materials and methods. Concept development and use of the multidimensional materials in science experiments. Analysis of assessment techniques and bibliographical materials. Field experience arranged in public schools. **

EDUC-E 335 Introduction to Early Childhood Education (3 cr.) P: Admission to the TEP. This course has a dual focus. The first involves an overview of the field including a historic perspective, program models, goals of early childhood education, and professional organizations. The second emphasizes the study of observation skills, the characteristics of young children, teacher-child interaction, and classroom management skills.**

EDUC-E 339 Methods of Teaching Language Arts in the Elementary Schools I (3 cr.) P: Admission to the TEP. Describes the methods, materials, and techniques employed in the elementary language arts program.**

EDUC-E 340 Methods of Teaching Reading in the Elementary Schools I (3 cr.) P: EDUC-E 339. Focuses on materials, methods, and techniques employed in a developmental reading program. Field experience arranged in public schools.**

EDUC-E 341 Methods of Teaching Reading in the Elementary Schools II (3 cr.) P: EDUC-E 339. Focuses on classroom procedures and materials used to provide diagnostic and corrective instruction for learning needs in reading.**

EDUC-E 343 Mathematics in the Elementary Schools (3 cr.) P EDUC-M 299, MATH-T 109, and MATH-T 110. Emphasizes the developmental nature of the arithmetic process and its place as an effective tool in the experiences of the elementary school child. Field experience arranged in public schools.**

EDUC-E 349 Teaching and Learning for All Young Children I: Focus on Birth to Age 3 (3 cr.) skills in real-life settings with typically and atypically developing young children, birth to age three. They will learn how to become keen observers of children, and will acquire proficiency in designing, implementing, and assessing environments that are developmentally appropriate and literacy-rich.**

EDUC-E 352 Teaching and Learning in Preschool/Kindergarten II (6 cr.) P: EDUC-E 349. This course engages students in the development, implementation, and assessment of curricula for all children ages 3-5 years. Content areas of mathematics, social studies, science, literacy, and art will be emphasized.**

EDUC-E 353 Foundations of Early Care and Education: III (6 cr.) P: EDUC-E 351. Students will examine how historical, social, cultural, and political factors influence the growth, development, and learning of the K-3 child. They will examine how these factors influence the K-3 child's educational experiences and how programs should be designed to address the needs of all children.**

EDUC-E 354 Teaching and Learning for All Young Children: III Focus on K/Primary (6 cr.) P: EDUC-E 352. This course engages students in the development, implementation, and assessment of curricula for all children in K- Grade 3 classrooms. Content areas of mathematics, social studies, science, literacy, and art will be emphasized.**

EDUC-E 490 Research in Elementary Education (1-3 cr.) P: consent of instructor. Individual research.**

EDUC-E 524 Workshop in Early Childhood Education (arr. cr.) Individual and group study of problems in nursery school and kindergarten education. Emphasis on broadening understanding of curriculum problems and their application to teaching in nursery schools and kindergarten.

EDUC-E 525 Advanced Curriculum Study in Early Childhood Education (3 cr.) Curriculum planning, guiding and evaluating learning experiences, and interpreting values of early childhood education. New approaches to teaching.

EDUC-E 535 Elementary School Curriculum (3 cr.) Social, economic, and educational forces influencing changes in the curriculum of the elementary school;

observation and study of the curriculum and methods of evaluating it.

EDUC-E 536 Supervision of Elementary School Instruction (3 cr.) Modern concepts of supervision and the evolutionary processes through which they have emerged. Supervisory work of the principal, general supervisor, and supervisor or consultant. Study of group processes in a democratic school system.

EDUC-E 543 Advanced Study in the Teaching of Mathematics in the Elementary Schools (3 cr.) Designed to help the experienced teacher improve the teaching of mathematics. Opportunities will be provided for individual and group study of content, methodology, and instructional materials for modern mathematics programs.

EDUC-E 545 Advanced Study in the Teaching of Reading in the Elementary Schools (3 cr.) For experienced teachers. Review of developmental reading program in the elementary school, use of reading in various curriculum areas, appraisal of reading abilities, and techniques and materials for individualized instruction.

EDUC-E 547 Advanced Study in the Teaching of Social Studies in the Elementary Schools (3 cr.) For experienced teachers. Goals and functions of social studies and underlying principles that influence the teaching of social studies; content, resources, and methodology that facilitate the implementation of these.

EDUC-E 548 Advanced Study in the Teaching of Science in the Elementary Schools (3 cr.) Helps experienced teachers gain proficiency in the teaching of science in the elementary school. Characteristics of good elementary school science programs.

EDUC-E 549 Advanced Study in the Teaching of Language Arts in the Elementary Schools (3 cr.) Helps experienced teachers gain further insight into the development of the English language and how best to teach language arts. Emphasizes basic communication skills and significant trends and materials.

EDUC-E 553 The Teacher and Elementary School Organization (3 cr.) The structure and organization of the elementary school and the role of the teacher in its effective operation. For classroom teachers.

EDUC-F 205 Study of Education and the Practice of Teaching (3 cr.) A review of the literature on various approaches to education as a discipline and a field of inquiry, and an exploration of several approaches to teacher education. Integrates scholarship and inquiry with the development of educational possibilities. Students will begin the process of constructing a set of personal and social commitments that will guide their future teaching activities.

EDUC-H 340 Education and the American Culture (3 cr.) P: EDUC-F 205, EDUC-P 251 or EDUC-P 255 and admission to TEP. The present educational system - its social impact and future implications - viewed in historical, philosophical, and sociological perspectives. Special attention is given to ethnic, minority, and cultural aspects.

EDUC-H 520 Education and Social Issues (3 cr.) Identification and analysis of major problems set for education by the pluralistic culture of American society.

EDUC-J 500 Instruction in the Context of Curriculum (3 cr.) Extends concepts introduced in undergraduate teacher preparation. Topics include conceptions and definitions of curriculum and instruction; and their impact on social contexts, learning theories, and schooling practices. Elementary and secondary contexts are studied.

EDUC-K 205 Introduction to Exceptional Children (3 cr.) P: EDUC-F 205. An overview of the characteristics and the identification of exceptional children. The course presents the issues in serving exceptional children and the educational, recreational, and social aspects of their lives.**

EDUC-K 305 Teaching Students with Special Needs in the Elementary Classroom (3 cr.) P: EDUC-K 205. Knowledge, attitudes, and skills basic to the education of exceptional learners (students who are handicapped as well as gifted and talented in the regular elementary classroom). Topics include historical and international perspectives, the law and public policy, profiling the exceptional learner, a responsive curriculum, teaching and management strategies, teachers as persons and professionals. **

EDUC-K 306 Teaching Students with Special Needs in the Secondary Classroom (3 cr.) P: EDUC-K 205. This course includes an overview of the skills and knowledge necessary for effective instruction of students with disabilities in inclusive secondary programs. **

EDUC-K 343 Emotional and Behavioral Disorders I (3 cr.) P: EDUC-K 205. A basic survey of the field of emotional disturbance and social maladjustment. Definitions, classifications, characteristics, and diagnostic and treatment procedures are discussed from a psycho-educational point of view.

EDUC-K 344 Emotional and Behavioral Disorders II (3 cr.) P: EDUC-K 343. A survey of educational curricula, procedures, and materials for socially and emotionally disturbed children. Development of teaching skills is emphasized.

EDUC-K 352 Learning Disability Methods (3 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A. Educational programs for optimum growth and development of educable mentally retarded and learning disabled children. Study and observation of curriculum content, organization of special schools and classes, and teaching methods and materials.

EDUC-K 361 Assistive Technology (2 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A, EDUC-K 362. Prepares future teachers with the knowledge required to integrate assistive technology into curricula for students with mild to moderate disabilities.

EDUC-K 362 Team Approaches to Educating Students with Disabilities (3 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A. Students will learn techniques related to effective collaboration and interactive teaming in educational settings. Focus will be the development of skills necessary to serve as consultant or co-teacher in school environments.

EDUC-K 370 Language and Learning Disorder (3 cr.) P: EDUC-K 205. Survey of historical development and

current status of definitions, classifications, assessment, and treatment procedures for learning-disabled students.

EDUC-K 371 Assessment and Individualized Instruction in Reading and Math (3 cr.) P: EDUC-K 362. Emphasizes assessment and remediation procedures that address reading and math problems of mildly handicapped students.

EDUC-K 441 Transition Across the Lifespan (3 cr.) P: EDUC-K 362. Gives prospective teachers the information and skills necessary to effectively teach students with disabilities at the high school level. An overview of characteristics of secondary students with mild disabilities, school programs, transition from school life to adult life, curriculum issues, and strategies of effective instruction for students with disabilities will be covered.

EDUC-K 488 Student Teaching in Special Education (6 cr.) Provides students an opportunity to teach exceptional children under the supervision of a licensed special education teacher and a university special education supervisor.**

EDUC-K 490 Topical Seminar: Assessment 1 (3 cr.) Assessment and Instruction This seminar assists students in gaining knowledge of formal and informal assessment techniques; how to link assessment to curriculum and instruction; and how to effectively choose, construct, deliver, and evaluate curriculum and instruction to students with diverse learning needs

EDUC-K 495A Special Education Field Experience (1 cr.) P: EDUC-K 343, EDUC-K 370. Provides the student with a field-based, supervised experience with individuals with severe handicaps. It allows the opportunity to interact within school/ work/community settings on a daily basis (three hours/day, five days/week). Specific assignments, which are mutually agreed upon between student, cooperating teacher, and practicum supervisor, are also required.**

EDUC-K 495B Special Education Field Experience (2 cr.) P: EDUC-K 495A. Provides the student with a field-based, supervised experience with individuals with severe handicaps. It allows the opportunity to interact within school/ work/community settings on a daily basis (three hours/day, five days/week). Specific assignments, which are mutually agreed upon between student, cooperating teacher, and practicum supervisor, are also required.**

EDUC-K 505 Introduction to Special Education for Graduate Students (3 cr.) P: graduate standing or consent of instructor. Basic special education principles for graduate students with no previous course work in special education.

EDUC-M 199 Passing scores on PRAXIS I (0 cr.) Beginning January 1, 2013, for admission to the Teacher Education Program (TEP) students will take the Pearson Core Academic Skills Assessment.

EDUC-M 299 Admission to Teacher Education Program (0 cr.)

EDUC-M 300 Teaching in a Pluralistic Society (3 cr.) P: EDUC-F 205, EDUC-P 251 or EDUC-P 255 and admission to TEP. These courses are designed to introduce the students to teaching as a profession. Students focus upon the self as teacher, learning styles,

cultural pluralism, and classroom teaching strategies that respond positively to the personal and ethnic diversity of the learner.**

EDUC-M 323 The Teaching of Music in the Elementary Schools (2 cr.) P: EDUC-M 299. Fundamental procedures of teaching elementary school music, stressing music material suitable for the first six grades.

EDUC-M 333 Art Experience for the Elementary Teacher (2 cr.) P: FINA-A 101 or FINA-A 102 and admission to TEP. The selection, organization, guidance, and evaluation of art activities, both individual and group. Laboratory experiences with materials and methods of presenting projects.

EDUC-M 416 Inquiry into Secondary English Methods: High School (3 cr.) Study of current trends, issues, theory, and research in teaching and learning English/ Language Arts. Explores language, composition, literature, and media arts; developing multicultural curricula; and engaging students in meaningful inquiry facilitating students' responsibility for themselves and their world.**

EDUC-M 423 Student Teaching: Early Childhood (6 cr.) Full-time supervised student teaching for a minimum of eight weeks in a preschool identified by the university. The experience is directed by a qualified supervising teacher and has university provided supervision.**

EDUC-M 424 Student Teaching: Kindergarten-Primary (6 cr.) Full-time supervised student teaching for a minimum of eight weeks in a kindergarten or primary grade in a school accredited by the state of Indiana. The experience is directed by a qualified supervising teacher and has university-provided supervision.**

EDUC-M 425 Student Teaching in the Elementary Schools (9-15 cr.) P: Consent of the faculty. Classroom teaching and other activities associated with the work of the full-time elementary classroom teacher. Minimum of 14 weeks.**

EDUC-M 430 Foundations of Art Education and Methods II (3 cr.) Advanced study of curriculum developments in art education. Special attention is given to art teaching in secondary schools.**

EDUC-M 437 Teaching Science 5-12 (3 cr.) Focuses on curriculum decisions teachers make every day. Specifically, students in this course will examine current learning theories and apply these theories to instructional practices at the middle grades and high school.

EDUC-M 440 Teaching Problems and Issues (3 cr.) Seminar taught as a co-requisite with early childhood (EDUC-M 423), kindergarten/primary (EDUC-M 424), elementary (EDUC-M 425), and/or middle/junior high school (EDUC-M 470) student teaching experiences. This seminar will address several issues related to the process of becoming a teacher.

EDUC-M 441 Methods of Teaching Senior High/Junior High/Middle School Social Studies (3 cr.) Develops concepts and theories from social science, humanities, and education into practices of successful social studies instruction. Integrates social issues and reflective thinking skills into the social studies curriculum. Emphasis on curriculum development skills and building a repertoire

of teaching strategies appropriate for middle/secondary school learners.**

EDUC-M 442 Teaching Secondary School Social Studies (3 cr.) | Includes consideration of philosophical and psychological perspectives, development and practice of skills and techniques, selection of content and materials, and evaluation of student and teacher performance. Micro-teaching laboratory included.**

EDUC-M 446 Methods of Teaching Senior High/Junior High/Middle School Science (3 cr.) P: 35 credit hours of science. Designed for students who plan to teach biology, chemistry, earth science, general science, or physics in junior high/middle school or secondary school.**

EDUC-M 452 Methods of Teaching Senior High/Junior High/Middle School English (3 cr.) Methods, techniques, content, and materials applicable to the teaching of English in the secondary school. Field experiences with secondary students and teachers provided to assess ongoing programs in public schools and to study materials appropriate for these programs.**

EDUC-M 457 Methods of Teaching Senior High/Junior High/Middle School Mathematics (3 cr.) Study of methodology, heuristics of problem solving, curriculum design, instructional computing, professional affiliations, and teaching of daily lessons in the domain of secondary and/or junior high/middle school mathematics.**

EDUC-M 459 Teaching Mathematics 5-12 (3 cr.) Focuses on the curriculum and instruction issues that teachers make every day in the classroom. Specifically, students in the course will examine current theories and apply these theories to instructional practices.**

EDUC-M 464 Methods of Teaching Reading (3 cr.) Focuses on middle, junior high, and senior high school. Curriculum, methods, and materials for teaching students to read more effectively.**

EDUC-M 480 Student Teaching: Secondary (1-14 cr.) Full-time supervised student teaching in the student's major certification area and in the grades included within a high school, or at another level if the major area permits; within the state of Indiana unless the integral program includes student teaching in an approved and accredited out-of-state site. Each student assumes, under the direction of the selected supervising teacher and with university-provided supervision, responsibility for teaching in the cooperating school. Grade: S or F.**

EDUC-M 550 Practicum: (variable title) (1-8 cr.) Teaching or experience in an accredited school, normally in Indiana. Credit will be commensurate with time spent in the instructional setting. Grade: S or F.**

EDUC-P 251 Educational Psychology for Elementary Teachers (3 cr.) P: EDUC-F 205. The application of psychological concepts to school learning and teaching using the perspective of development from childhood through preadolescence. Special attention is devoted to the needs of the handicapped.**

EDUC-P 255 Educational Psychology for Middle and Secondary School Teachers (3 cr.) P: EDUC-F 205. The application of psychological concepts to school learning and teaching in the perspective of development from

the beginning of preadolescence adolescence. Special attention is devoted to the needs of the handicapped.**

EDUC-P 290 Professional Practices: Education (2 cr.) P: Admission to the TEP. Provides students with knowledge of basic concepts in physical education and potential outcomes of preschool and elementary school motor development programs. Further, the implementation and evaluation of such programs and appropriate movement experiences for young children will be provided. Emphasis will be placed on curriculum planning and design that is developmentally appropriate.**

EDUC-P 348 Foundations of Child Growth and Development: Focus on Birth to Age 3 (3 cr.) P: Admission to the TEP. Students will examine historical as well as contemporary theories of child growth and development for typically and atypically developing children throughout the early childhood period. All facets of development will be examined including physical, emotional, social, language, and cognitive development. Particular focus will be on prenatal to age three development.**

EDUC-P 351 Foundations of Child Development: Focus on 3 to 8 year old children (3 cr.) P: P 348. Students will examine child growth and development for typically and atypically developing children, including physical, emotional, social, language, and cognitive development. Particular focus will be on 3- to 8-year old children.**

EDUC-P 501 Statistical Method Applied to Education (3 cr.) An introduction to statistical methods needed for basic data analysis in education. Includes an introduction to distribution of variables, measures of central tendency, variability, hypothesis testing, and correlation techniques. Emphasis on theoretical and computational skills.

EDUC-P 503 Introduction to Research (3 cr.) Methods and procedures in educational research.

EDUC-P 507 Testing in the Classroom (3 cr.) An introduction to the central concepts of tests and measurements, and formal and informal assessment strategies for assessing students and instructional programs.

EDUC-P 510 Psychology in Teaching (3 cr.) Basic study of psychological concepts and phenomena in teaching. An analysis of representative problems and the teacher's assumptions about human behavior and its development. This course is intended for those working toward the master's degree and who currently are or are planning to be classroom teachers.

EDUC-P 514 Life Span Development: Birth to Death (3 cr.) A survey course of human development from infancy through old age, emphasizing the life span perspective of development. Classical stage theorists, current popular conceptions, major research findings, and educational implications for all life stages from birth to death.

EDUC-P 540 Learning and Cognition in Education (3 cr.) Survey of theoretical positions in the areas of learning and cognition, with emphasis on their relevance for the design of classroom learning situations.

EDUC-P 570 Behavior Problems in the Public Schools (3 cr.) For teachers, administrators, psychologists, case workers, and others concerned with the adjustment of children in school. Recognition of behavioral symptoms indicative of the need for special attention; role and methods used in dealing with behavioral problem children.

EDUC-Q 200 Introduction to Scientific Inquiry (3 cr.) Course provides the elementary education major with background in the science process skills needed to complete required science courses.**

EDUC-Q 528 Demonstration and Field Strategies in Science (1-6 cr.) Identification, selection, design, implementation, and evaluation of demonstrations and field trips. Strategies in science for elementary, middle school, junior high, and secondary school teachers.

EDUC-Q 540 Teaching Environmental Education (3 cr.) For elementary and secondary teachers. Basic principles of environmental/conservation education stressed in grades K-12. Methods and techniques for integrating these principles into existing curricula. Designed for the development and evaluation of new interdisciplinary teaching materials.

EDUC-S 503 Secondary School Education (3 cr.) Designed to provide an overview for the teacher of the basic theories underlying the secondary school curriculum, as well as an examination of the subject areas, problems, trends, challenges for the future and significant research in the field.

EDUC-S 505 The Junior High and Middle School (3 cr.) Role of the junior high school and middle school in American education. Total program: philosophy, functions, curriculum, guidance, activities, personnel, and administration.

EDUC-S 507 The Teacher and Secondary School Organization (3 cr.) For teachers and administrators. Functions of school personnel, organization of professional and lay people for a more effective school program, professional leadership, lay participation, and effective personnel organization.

EDUC-S 514 Advanced Study in the Teaching of Reading in the Junior High and Secondary School (3 cr.) The developmental reading program in junior high and secondary schools; use of reading in various curriculum areas, appraisal of reading abilities, and techniques and materials for helping reluctant and retarded readers.

EDUC-S 530 Junior High and Middle School Curriculum (3 cr.) The educational program designed for the junior high and middle school. Functions, organization, planning, and evaluation of the junior high and middle school curriculum in specific areas.

EDUC-W 200 Computers in Education: An Introduction (3 cr.) Required of all students pursuing teacher certification. Introduction to instructional computing, educational computing literature, and BASIC programming. Review of and applied experience with educational software packages and commonly used microcomputer hardware. For education majors only.

EDUC-W 505 Multimedia in the Classroom (3 cr.) Intended to equip teachers and administrators with

confidence when using the myriad of technology tools available for educators. Skills covered include: scanning, digital camera photography, video capture, creating slide shows, developing web pages, and audio capture.

EDUC-X 460 Books for Reading Instruction (3 cr.) P: EDUC-E 349. Examines use of trade books and non-text materials for teaching Language Arts and Reading K-8. Special sessions may focus on specific student populations.

EDUC-X 490 Research in Reading (1-6 cr.) P: Consent of instructor. Individual research.

EDUC-X 504 Diagnosis of Reading Difficulties in the Classroom (3 cr.) P: EDUC-E 545 or EDUC-S 514 or consent of instructor. Treats the theory, correlates, instruments, and techniques of diagnosing reading difficulties in the classroom.

EDUC-X 530 Topical Workshop in Reading (3 cr.) Individual and group study of special topics in the field of reading. Means for improving the teaching of reading. One credit hour is offered for each week of full-time work.

EDUC-Y 520 Strategies for Educational Inquiry (3 cr.) Methods and procedures in educational research. The primary purpose of this course is to introduce students to the basics of educational research, principally as it occurs in and is applied to practical, classroom settings. Course design will include lecture and discussions, independent study, individual conferences/ tutorials with the instructor, and student-led presentations related to proposed research projects.

EDUC-Y 595 Educational Inquiry: Authentic Application (3 cr.) P: Successful completion of EDUC-Y 520. Application of methods and procedures in educational research. The primary purpose of this course is to apply educational inquiry strategies and skills learned in Y 520 Strategies for Educational Inquiry. Course design will include lecture and discussions, independent study, individual conferences/tutorials with the instructor, and student-led presentations related to completed research projects.

Graduate Courses

EDUC-E 325 Social Studies in the Elementary Schools (3 cr.) P: EDUC-E 339, and EDUC-M 299. Emphasizes the development of objectives, teaching strategies, and evaluation procedures that facilitate the social learning of young children. Special attention given to concept learning, inquiry, decision making and value analysis.**

EDUC-E 328 Science in the Elementary Schools (3 cr.) P: EDUC-E 339, EDUC-E 340, and EDUC-M 299. Objectives, philosophy, selection, and organization of science materials and methods. Concept development and use of the multidimensional materials in science experiments. Analysis of assessment techniques and bibliographical materials. Field experience arranged in public schools. **

EDUC-E 335 Introduction to Early Childhood Education (3 cr.) P: Admission to the TEP. This course has a dual focus. The first involves an overview of the field including an historic perspective, program models, goals of early childhood education, and professional organizations. The second emphasizes the study of

observation skills, the characteristics of young children, teacher-child interaction, and classroom management skills.**

EDUC-E 339 Methods of Teaching Language Arts in the Elementary Schools I (3 cr.) P: Admission to the TEP. Describes the methods, materials, and techniques employed in the elementary language arts program.**

EDUC-E 340 Methods of Teaching Reading in the Elementary Schools I (3 cr.) P: EDUC-E 339. Focuses on materials, methods, and techniques employed in a developmental reading program. Field experience arranged in public schools.**

EDUC-E 341 Methods of Teaching Reading in the Elementary Schools II (3 cr.) P: EDUC-E 339. Focuses on classroom procedures and materials used to provide diagnostic and corrective instruction for learning needs in reading.**

EDUC-E 343 Mathematics in the Elementary Schools (3 cr.) P EDUC-M 299, MATH-T 109, and MATH-T 110. Emphasizes the developmental nature of the arithmetic process and its place as an effective tool in the experiences of the elementary school child. Field experience arranged in public schools.**

EDUC-E 349 Teaching and Learning for All Young Children I: Focus on Birth to Age 3 (3 cr.) skills in real-life settings with typically and atypically developing young children, birth to age three. They will learn how to become keen observers of children, and will acquire proficiency in designing, implementing, and assessing environments that are developmentally appropriate and literacy-rich.**

EDUC-E 352 Teaching and Learning in Preschool/Kindergarten II (6 cr.) P: EDUC-E 349. This course engages students in the development, implementation, and assessment of curricula for all children ages 3-5 years. Content areas of mathematics, social studies, science, literacy, and art will be emphasized.**

EDUC-E 353 Foundations of Early Care and Education: III (6 cr.) P: EDUC-E 351. Students will examine how historical, social, cultural, and political factors influence the growth, development, and learning of the K-3 child. They will examine how these factors influence the K-3 child's educational experiences and how programs should be designed to address the needs of all children.**

EDUC-E 354 Teaching and Learning for All Young Children: III Focus on K/Primary (6 cr.) P: EDUC-E 352. This course engages students in the development, implementation, and assessment of curricula for all children in K- Grade 3 classrooms. Content areas of mathematics, social studies, science, literacy, and art will be emphasized.**

EDUC-E 490 Research in Elementary Education (1-3 cr.) P: consent of instructor. Individual research.**

EDUC-E 524 Workshop in Early Childhood Education (arr. cr.) Individual and group study of problems in nursery school and kindergarten education. Emphasis on broadening understanding of curriculum problems and their application to teaching in nursery schools and kindergarten.

EDUC-E 525 Advanced Curriculum Study in Early Childhood Education (3 cr.) Curriculum planning, guiding and evaluating learning experiences, and interpreting values of early childhood education. New approaches to teaching.

EDUC-E 535 Elementary School Curriculum (3 cr.) Social, economic, and educational forces influencing changes in the curriculum of the elementary school; observation and study of the curriculum and methods of evaluating it.

EDUC-E 536 Supervision of Elementary School Instruction (3 cr.) Modern concepts of supervision and the evolutionary processes through which they have emerged. Supervisory work of the principal, general supervisor, and supervisor or consultant. Study of group processes in a democratic school system.

EDUC-E 543 Advanced Study in the Teaching of Mathematics in the Elementary Schools (3 cr.) Designed to help the experienced teacher improve the teaching of mathematics. Opportunities will be provided for individual and group study of content, methodology, and instructional materials for modern mathematics programs.

EDUC-E 545 Advanced Study in the Teaching of Reading in the Elementary Schools (3 cr.) For experienced teachers. Review of developmental reading program in the elementary school, use of reading in various curriculum areas, appraisal of reading abilities, and techniques and materials for individualized instruction.

EDUC-E 547 Advanced Study in the Teaching of Social Studies in the Elementary Schools (3 cr.) For experienced teachers. Goals and functions of social studies and underlying principles that influence the teaching of social studies; content, resources, and methodology that facilitate the implementation of these.

EDUC-E 548 Advanced Study in the Teaching of Science in the Elementary Schools (3 cr.) Helps experienced teachers gain proficiency in the teaching of science in the elementary school. Characteristics of good elementary school science programs.

EDUC-E 549 Advanced Study in the Teaching of Language Arts in the Elementary Schools (3 cr.) Helps experienced teachers gain further insight into the development of the English language and how best to teach language arts. Emphasizes basic communication skills and significant trends and materials.

EDUC-E 553 The Teacher and Elementary School Organization (3 cr.) The structure and organization of the elementary school and the role of the teacher in its effective operation. For classroom teachers.

EDUC-F 205 Study of Education and the Practice of Teaching (3 cr.) A review of the literature on various approaches to education as a discipline and a field of inquiry, and an exploration of several approaches to teacher education. Integrates scholarship and inquiry with the development of educational possibilities. Students will begin the process of constructing a set of personal and social commitments that will guide their future teaching activities.

EDUC-H 340 Education and the American Culture (3 cr.) P: EDUC-F 205, EDUC-P 251 or EDUC-P 255 and

admission to TEP. The present educational system - its social impact and future implications - viewed in historical, philosophical, and sociological perspectives. Special attention is given to ethnic, minority, and cultural aspects.

EDUC-H 520 Education and Social Issues (3 cr.)

Identification and analysis of major problems set for education by the pluralistic culture of American society.

EDUC-J 500 Instruction in the Context of Curriculum (3 cr.)

Extends concepts introduced in undergraduate teacher preparation. Topics include conceptions and definitions of curriculum and instruction; and their impact on social contexts, learning theories, and schooling practices. Elementary and secondary contexts are studied.

EDUC-K 205 Introduction to Exceptional Children (3 cr.)

P: EDUC-F 205. An overview of the characteristics and the identification of exceptional children. The course presents the issues in serving exceptional children and the educational, recreational, and social aspects of their lives.**

EDUC-K 305 Teaching Students with Special Needs in the Elementary Classroom (3 cr.)

P: EDUC-K 205. Knowledge, attitudes, and skills basic to the education of exceptional learners (students who are handicapped as well as gifted and talented in the regular elementary classroom. Topics include historical and international perspectives, the law and public policy, profiling the exceptional learner, a responsive curriculum, teaching and management strategies, teachers as persons and professionals. **

EDUC-K 306 Teaching Students with Special Needs in the Secondary Classroom (3 cr.)

P: EDUC-K 205. This course includes an overview of the skills and knowledge necessary for effective instruction of students with disabilities in inclusive secondary programs. **

EDUC-K 343 Emotional and Behavioral Disorders I (3 cr.)

P: EDUC-K 205. A basic survey of the field of emotional disturbance and social maladjustment. Definitions, classifications, characteristics, and diagnostic and treatment procedures are discussed from a psycho-educational point of view.

EDUC-K 344 Emotional and Behavioral Disorders II (3 cr.)

P: EDUC-K 343. A survey of educational curricula, procedures, and materials for socially and emotionally disturbed children. Development of teaching skills is emphasized.

EDUC-K 352 Learning Disability Methods (3 cr.)

P: EDUC-K 343; EDUC-K 370, EDUC-K 495A. Educational programs for optimum growth and development of educable mentally retarded and learning disabled children. Study and observation of curriculum content, organization of special schools and classes, and teaching methods and materials.

EDUC-K 361 Assistive Technology (2 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A, EDUC-K 362. Prepares future teachers with the knowledge required to integrate assistive technology into curricula for students with mild to moderate disabilities.

EDUC-K 362 Team Approaches to Educating Students with Disabilities (3 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A. Students will learn techniques related

to effective collaboration and interactive teaming in educational settings. Focus will be the development of skills necessary to serve as consultant or co-teacher in school environments.

EDUC-K 370 Language and Learning Disorder (3 cr.)

P: EDUC-K 205. Survey of historical development and current status of definitions, classifications, assessment, and treatment procedures for learning-disabled students.

EDUC-K 371 Assessment and Individualized Instruction in Reading and Math (3 cr.)

P: EDUC-K 362. Emphasizes assessment and remediation procedures that address reading and math problems of mildly handicapped students.

EDUC-K 441 Transition Across the Lifespan (3 cr.)

P: EDUC-K 362. Gives prospective teachers the information and skills necessary to effectively teach students with disabilities at the high school level. An overview of characteristics of secondary students with mild disabilities, school programs, transition from school life to adult life, curriculum issues, and strategies of effective instruction for students with disabilities will be covered.

EDUC-K 488 Student Teaching in Special Education (6 cr.)

Provides students an opportunity to teach exceptional children under the supervision of a licensed special education teacher and a university special education supervisor.**

EDUC-K 490 Topical Seminar: Assessment 1 (3 cr.)

Assessment and Instruction This seminar assists students in gaining knowledge of formal and informal assessment techniques; how to link assessment to curriculum and instruction; and how to effectively choose, construct, deliver, and evaluate curriculum and instruction to students with diverse learning needs

EDUC-K 495A Special Education Field Experience (1 cr.)

P: EDUC-K 343, EDUC-K 370. Provides the student with a field-based, supervised experience with individuals with severe handicaps. It allows the opportunity to interact within school/ work/community settings on a daily basis (three hours/day, five days/week). Specific assignments, which are mutually agreed upon between student, cooperating teacher, and practicum supervisor, are also required.**

EDUC-K 495B Special Education Field Experience (2 cr.)

P: EDUC-K 495A. Provides the student with a field-based, supervised experience with individuals with severe handicaps. It allows the opportunity to interact within school/ work/community settings on a daily basis (three hours/day, five days/week). Specific assignments, which are mutually agreed upon between student, cooperating teacher, and practicum supervisor, are also required.**

EDUC-K 505 Introduction to Special Education for Graduate Students (3 cr.)

P: graduate standing or consent of instructor. Basic special education principles for graduate students with no previous course work in special education.

EDUC-M 199 Passing scores on PRAXIS I (0 cr.)

Beginning January 1, 2013, for admission to the Teacher Education Program (TEP) students will take the Pearson Core Academic Skills Assessment.

EDUC-M 299 Admission to Teacher Education Program (0 cr.)**EDUC-M 300 Teaching in a Pluralistic Society (3 cr.)**

P: EDUC-F 205, EDUC-P 251 or EDUC-P 255 and admission to TEP. These courses are designed to introduce the students to teaching as a profession. Students focus upon the self as teacher, learning styles, cultural pluralism, and classroom teaching strategies that respond positively to the personal and ethnic diversity of the learner.**

EDUC-M 323 The Teaching of Music in the Elementary Schools (2 cr.) P: EDUC-M 299. Fundamental procedures of teaching elementary school music, stressing music material suitable for the first six grades.

EDUC-M 333 Art Experience for the Elementary Teacher (2 cr.) P: FINA-A 101 or FINA-A 102 and admission to TEP. The selection, organization, guidance, and evaluation of art activities, both individual and group. Laboratory experiences with materials and methods of presenting projects.

EDUC-M 416 Inquiry into Secondary English Methods: High School (3 cr.) Study of current trends, issues, theory, and research in teaching and learning English/Language Arts. Explores language, composition, literature, and media arts; developing multicultural curricula; and engaging students in meaningful inquiry facilitating students' responsibility for themselves and their world.**

EDUC-M 423 Student Teaching: Early Childhood (6 cr.) Full-time supervised student teaching for a minimum of eight weeks in a preschool identified by the university. The experience is directed by a qualified supervising teacher and has university provided supervision.**

EDUC-M 424 Student Teaching: Kindergarten-Primary (6 cr.) Full-time supervised student teaching for a minimum of eight weeks in a kindergarten or primary grade in a school accredited by the state of Indiana. The experience is directed by a qualified supervising teacher and has university-provided supervision.**

EDUC-M 425 Student Teaching in the Elementary Schools (9-15 cr.) P: Consent of the faculty. Classroom teaching and other activities associated with the work of the full-time elementary classroom teacher. Minimum of 14 weeks.**

EDUC-M 430 Foundations of Art Education and Methods II (3 cr.) Advanced study of curriculum developments in art education. Special attention is given to art teaching in secondary schools.**

EDUC-M 437 Teaching Science 5-12 (3 cr.) Focuses on curriculum decisions teachers make every day. Specifically, students in this course will examine current learning theories and apply these theories to instructional practices at the middle grades and high school.

EDUC-M 440 Teaching Problems and Issues (3 cr.) Seminar taught as a co-requisite with early childhood (EDUC-M 423), kindergarten/primary (EDUC-M 424), elementary (EDUC-M 425), and/or middle/junior high school (EDUC-M 470) student teaching experiences. This seminar will address several issues related to the process of becoming a teacher.

EDUC-M 441 Methods of Teaching Senior High/Junior High/Middle School Social Studies (3 cr.) Develops concepts and theories from social science, humanities, and education into practices of successful social studies instruction. Integrates social issues and reflective thinking skills into the social studies curriculum. Emphasis on curriculum development skills and building a repertoire of teaching strategies appropriate for middle/secondary school learners.**

EDUC-M 442 Teaching Secondary School Social Studies (3 cr.) I Includes consideration of philosophical and psychological perspectives, development and practice of skills and techniques, selection of content and materials, and evaluation of student and teacher performance. Micro-teaching laboratory included.**

EDUC-M 446 Methods of Teaching Senior High/Junior High/Middle School Science (3 cr.) P: 35 credit hours of science. Designed for students who plan to teach biology, chemistry, earth science, general science, or physics in junior high/middle school or secondary school.**

EDUC-M 452 Methods of Teaching Senior High/Junior High/Middle School English (3 cr.) Methods, techniques, content, and materials applicable to the teaching of English in the secondary school. Field experiences with secondary students and teachers provided to assess ongoing programs in public schools and to study materials appropriate for these programs.**

EDUC-M 457 Methods of Teaching Senior High/Junior High/Middle School Mathematics (3 cr.) Study of methodology, heuristics of problem solving, curriculum design, instructional computing, professional affiliations, and teaching of daily lessons in the domain of secondary and/or junior high/middle school mathematics.**

EDUC-M 459 Teaching Mathematics 5-12 (3 cr.) Focuses on the curriculum and instruction issues that teachers make every day in the classroom. Specifically, students in the course will examine current theories and apply these theories to instructional practices.**

EDUC-M 464 Methods of Teaching Reading (3 cr.) Focuses on middle, junior high, and senior high school. Curriculum, methods, and materials for teaching students to read more effectively.**

EDUC-M 480 Student Teaching: Secondary (1-14 cr.) Full-time supervised student teaching in the student's major certification area and in the grades included within a high school, or at another level if the major area permits; within the state of Indiana unless the integral program includes student teaching in an approved and accredited out-of state site. Each student assumes, under the direction of the selected supervising teacher and with university-provided supervision, responsibility for teaching in the cooperating school. Grade: S or F.**

EDUC-M 550 Practicum: (variable title) (1-8 cr.) Teaching or experience in an accredited school, normally in Indiana. Credit will be commensurate with time spent in the instructional setting. Grade: S or F. **

EDUC-P 251 Educational Psychology for Elementary Teachers (3 cr.) P: EDUC-F 205. The application of psychological concepts to school learning and teaching using the perspective of development from childhood

through preadolescence. Special attention is devoted to the needs of the handicapped.**

EDUC-P 255 Educational Psychology for Middle and Secondary School Teachers (3 cr.) P: EDUC-F 205. The application of psychological concepts to school learning and teaching in the perspective of development from the beginning of preadolescence to adolescence. Special attention is devoted to the needs of the handicapped.**

EDUC-P 290 Professional Practices: Education (2 cr.) P: Admission to the TEP. Provides students with knowledge of basic concepts in physical education and potential outcomes of preschool and elementary school motor development programs. Further, the implementation and evaluation of such programs and appropriate movement experiences for young children will be provided. Emphasis will be placed on curriculum planning and design that is developmentally appropriate.**

EDUC-P 348 Foundations of Child Growth and Development: Focus on Birth to Age 3 (3 cr.) P: Admission to the TEP. Students will examine historical as well as contemporary theories of child growth and development for typically and atypically developing children throughout the early childhood period. All facets of development will be examined including physical, emotional, social, language, and cognitive development. Particular focus will be on prenatal to age three development.**

EDUC-P 351 Foundations of Child Development: Focus on 3 to 8 year old children (3 cr.) P: P 348. Students will examine child growth and development for typically and atypically developing children, including physical, emotional, social, language, and cognitive development. Particular focus will be on 3- to 8-year old children.**

EDUC-P 501 Statistical Method Applied to Education (3 cr.) An introduction to statistical methods needed for basic data analysis in education. Includes an introduction to distribution of variables, measures of central tendency, variability, hypothesis testing, and correlation techniques. Emphasis on theoretical and computational skills.

EDUC-P 503 Introduction to Research (3 cr.) Methods and procedures in educational research.

EDUC-P 507 Testing in the Classroom (3 cr.) An introduction to the central concepts of tests and measurements, and formal and informal assessment strategies for assessing students and instructional programs.

EDUC-P 510 Psychology in Teaching (3 cr.) Basic study of psychological concepts and phenomena in teaching. An analysis of representative problems and the teacher's assumptions about human behavior and its development. This course is intended for those working toward the master's degree and who currently are or are planning to be classroom teachers.

EDUC-P 514 Life Span Development: Birth to Death (3 cr.) A survey course of human development from infancy through old age, emphasizing the life span perspective of development. Classical stage theorists, current popular conceptions, major research findings, and

educational implications for all life stages from birth to death.

EDUC-P 540 Learning and Cognition in Education (3 cr.) Survey of theoretical positions in the areas of learning and cognition, with emphasis on their relevance for the design of classroom learning situations.

EDUC-P 570 Behavior Problems in the Public Schools (3 cr.) For teachers, administrators, psychologists, case workers, and others concerned with the adjustment of children in school. Recognition of behavioral symptoms indicative of the need for special attention; role and methods used in dealing with behavioral problem children.

EDUC-Q 200 Introduction to Scientific Inquiry (3 cr.) Course provides the elementary education major with background in the science process skills needed to complete required science courses.**

EDUC-Q 528 Demonstration and Field Strategies in Science (1-6 cr.) Identification, selection, design, implementation, and evaluation of demonstrations and field trips. Strategies in science for elementary, middle school, junior high, and secondary school teachers.

EDUC-Q 540 Teaching Environmental Education (3 cr.) For elementary and secondary teachers. Basic principles of environmental/conservation education stressed in grades K-12. Methods and techniques for integrating these principles into existing curricula. Designed for the development and evaluation of new interdisciplinary teaching materials.

EDUC-S 503 Secondary School Education (3 cr.) Designed to provide an overview for the teacher of the basic theories underlying the secondary school curriculum, as well as an examination of the subject areas, problems, trends, challenges for the future and significant research in the field.

EDUC-S 505 The Junior High and Middle School (3 cr.) Role of the junior high school and middle school in American education. Total program: philosophy, functions, curriculum, guidance, activities, personnel, and administration.

EDUC-S 507 The Teacher and Secondary School Organization (3 cr.) For teachers and administrators. Functions of school personnel, organization of professional and lay people for a more effective school program, professional leadership, lay participation, and effective personnel organization.

EDUC-S 514 Advanced Study in the Teaching of Reading in the Junior High and Secondary School (3 cr.) The developmental reading program in junior high and secondary schools; use of reading in various curriculum areas, appraisal of reading abilities, and techniques and materials for helping reluctant and retarded readers.

EDUC-S 530 Junior High and Middle School Curriculum (3 cr.) The educational program designed for the junior high and middle school. Functions, organization, planning, and evaluation of the junior high and middle school curriculum in specific areas.

EDUC-W 200 Computers in Education: An Introduction (3 cr.) Required of all students pursuing teacher certification. Introduction to instructional

computing, educational computing literature, and BASIC programming. Review of and applied experience with educational software packages and commonly used microcomputer hardware. For education majors only.

EDUC-W 505 Multimedia in the Classroom (3 cr.)

Intended to equip teachers and administrators with confidence when using the myriad of technology tools available for educators. Skills covered include: scanning, digital camera photography, video capture, creating slide shows, developing web pages, and audio capture.

EDUC-X 460 Books for Reading Instruction (3 cr.) P:

EDUC-E 349. Examines use of trade books and non-text materials for teaching Language Arts and Reading K-8. Special sessions may focus on specific student populations.

EDUC-X 490 Research in Reading (1-6 cr.) P: Consent of instructor. Individual research.

EDUC-X 504 Diagnosis of Reading Difficulties in the Classroom (3 cr.) P: EDUC-E 545 or EDUC-S 514 or consent of instructor. Treats the theory, correlates, instruments, and techniques of diagnosing reading difficulties in the classroom.

EDUC-X 530 Topical Workshop in Reading (3 cr.)

Individual and group study of special topics in the field of reading. Means for improving the teaching of reading. One credit hour is offered for each week of full-time work.

EDUC-Y 520 Strategies for Educational Inquiry (3 cr.)

Methods and procedures in educational research. The primary purpose of this course is to introduce students to the basics of educational research, principally as it occurs in and is applied to practical, classroom settings. Course design will include lecture and discussions, independent study, individual conferences/ tutorials with the instructor, and student-led presentations related to proposed research projects.

EDUC-Y 595 Educational Inquiry: Authentic Application (3 cr.) P: Successful completion of EDUC-Y 520. Application of methods and procedures in educational research. The primary purpose of this course is to apply educational inquiry strategies and skills learned in Y 520 Strategies for Educational Inquiry. Course design will include lecture and discussions, independent study, individual conferences/tutorials with the instructor, and student-led presentations related to completed research projects.

English/Language Arts Teaching Major

The School of Education works cooperatively with the English Department to administer a dual degree program in English/Secondary Education. Students participating in this program will complete both a Bachelor of Arts in English degree and a Bachelor of Science in Secondary Education degree (English/Language Arts). Students in this program will be certified to teach at the secondary school level. Please see an advisor in either SHSS or the School of Education for more information about this program.

Language

- ENG-G 205 Introduction to the English Language (3 cr.) and ENG-G 301 History of the English Language (3 cr.)

Oral, Visual, Written Literacy

- SPCH-S 122 Interpersonal Communications (3 cr.) or SPCH-S 336 Communication Theory (3 cr.) or SPCH-S201 Communicating in Public (3 cr.)
- THTR-T 115 Introduction to Oral Interpretation (3 cr.)

Reading

- Any ENG-L 2XX or above any ENG-E 2XX or above in Beginings through 18th Century
- Any ENG-L 2XX or above any ENG-E 2XX or above in 19th Century
- Any ENG-L 2XX or above any ENG-E 2XX or above in 20-21st Century
- Any ENG-L 2XX or above any ENG-E 2XX or above in World/Gender Multicultural
- Any ENG-E 3XX or above or ENG-L 3XX or above course

Composition

- Any ENG-W 2XX or above course
- Any ENG-W 2XX or above course

Literature

- ENG-L 202 Literacy Interpretation (3 cr.)
- ENG-L 371 Critical Practices (3 cr.)

Media

- SPCH-C 200 Introduction to Mass Communication (3 cr.) or CMLT-C 190 Introduction to Film (3cr.) or CMLT-C 390 Film and Society (3 cr.) or CMLT-C 392 Genre Study in Film (3 cr.)

History/Political Science Major

The History/Political Science program works cooperatively with the School of Education to administer a dual degree program in History/Political Science-Secondary Education. Students participating in this program will complete both a Bachelor of Science in History/Political Science degree and a Bachelor of Science in Secondary Education degree. Students in this program will be certified to teach at the secondary school level with expertise in both History and Government. Please see an advisor in either SHSS or the School of Education for more information about this program.

Professional Education Requirements (Elementary Education)

Professional Education courses are intended to develop the knowledge, dispositions and skills required for entry to the profession. The Pre-Professional courses are taken during the freshman and sophomore years and prior to formal admission into the Teacher Education Program (TEP). These courses develop the knowledge, skills and dispositions that underlie all teacher education regardless of the developmental focus. These include inquiry, learning theory, special needs children, diversity, technology and general methods. Within the Professional Education component of the degree, there are both

foundational and specialized requirements. During the junior and senior years, students must be formally admitted into TEP and complete all content courses, education courses and program requirements assigned to Movements I - III. At each Decision Point, faculty review and approval are required as conditions for program continuation.

Freshman and Sophomore Years - Year 1 and 2 Pre-professional courses

- EDUC-F 205 Study of Education and Practice of Teaching (3 cr.)
- EDUC-K 205 Introduction to Exceptional Children (3 cr.)
- EDUC-P 2251 Educational Psychology for Elementary Teachers with Field (3 cr.)
- EDUC-Q 200 Introduction to Scientific Inquiry (3 cr.)
- EDUC-W 200 Computers in Education (3 cr.)*
- EDUC-M 311 Elementary General Methods (1 cr.)*

Junior Year - Fifth Semester (Fall or Spring) Movement A

- EDUC-E 339 Elementary Language Arts Methods (3 cr.)
- EDUC-E 335 Introduction to Early Childhood Education (3 cr.)
- EDUC-M 300 Teaching in a Pluralistic Society (3 cr.)
- EDUC-M 323 The Teaching of Music in Elementary Schools (3 cr.)
- HPER-P 290 Movement Experiences for P-6 Children (2 cr.)

Junior Year-Sixth Semester (Fall or Spring) Movement B

- EDUC-E 325 Social Studies in the Elementary Schools (3 cr.)
- EDUC-E 340 Elementary Reading Methods I (3 cr.)
- EDUC-E 343 Mathematics in the Elementary Schools (3 cr.)
- EDUC-H 340 Education and the American Culture (3 cr.)*
- EDUC-M 333 Art Experiences for the Elementary Teacher (2 cr.)

Senior Year - Seventh Semester (Fall or Spring) Movement C

- EDUC-E 341 Elementary Reading Methods II (3 cr.)
- EDUC-E 328 Science in the Elementary Schools (3 cr.)
- EDUC-K 305 Teaching the Exceptional Learner in Elementary (3 cr.)
- EDUC-K 490 Assessment I (3 cr.)
- *EDUC-X 460 Books for Reading Instruction (3 cr.)

* May be taken in Summer

Senior Year-Eighth Semester (Fall or Spring) Movement D (Successful scores on state required test(s) are required before entering Movement D)

- EDUC-M 425 Student Teaching in the Elementary Schools (12 cr.) (Students choosing the Special Education minor will take EDUC-M 425 (6 cr.) and

EDUC-K 488 Special Education Student Teaching (6 cr.)

School of Humanities and Social Sciences

Dean: Scott Jones

Chair of Criminal Justice and Homeland Security: Nancy Greenwood

Chair of Psychology: Christina Downey

Chair of History, Political Science, and Sociology: Nancy Greenwood

Professors: Aniskiewicz, Greenwood, McGovern, Sciamie-Giesecke

Associate Professors: Bradley, Calhoon, Cameron, Clark, Darr, Downey, Holcomb, Jones, McFarland, McLean, White

Assistant Professors: Alnusair, Batis, Cook, Deerly, Douglas, Heath, Keener, Sposato, Steel

Clinical Assistant Professor: Davis

Senior Lecturers: Ison, Pico-Argel, Snoddy, Stouse, Taff

Lecturers: Kaiser, Provost

Courses in the School of Humanities and Social Sciences can be taken in one graduate program - Master of Arts in Liberal Studies (MALS) - and four undergraduate departments: Humanities; Psychology; Sociology, History, and Political Science; and Criminal Justice and Homeland Security. Course descriptions and specific degree requirements for each department follow after a general discussion of the basic school curriculum and degree requirements.

The Master Arts and Liberal Studies program provides students with the opportunity to take an individualized program of graduate courses and interdisciplinary core seminars in a variety of disciplines in humanities, science, psychology, and social sciences.

The Bachelor of Arts and Bachelor of Science degrees are four-year undergraduate degrees. Students may complete all requirements and be awarded either degree at Indiana University Kokomo. Comparable to the traditional arts and sciences degrees awarded by other colleges and universities, IU Kokomo offers Bachelor of Arts degrees in humanities, psychology, and social and behavioral sciences encompass discipline-specific degrees in English, communication arts, fine arts, new media communication, history/political science, psychology, and sociology. The unique nature and flexibility of these programs enable students to be generalists, capable of dealing with the complexities of modern society, and to focus their studies in a particular field of interest, thus preparing themselves for a specific career or graduate school objective. The Bachelor of Science degrees offered by the school offer students a deeper, more focused approach to their chosen discipline with less study in general areas. The School offers Bachelor of Science degrees in most of the areas it offers Bachelor of Arts degrees, as well as criminal justice and homeland security. The School also offers a Bachelor of Fine Arts degree in fine arts and a post-baccalaureate certificate in new media communication.

Minors in art history, communication arts, creative arts, criminal justice, English literature, English writing, film studies, history, international studies, Irish studies, leadership, new media communication, philosophy, political science, pre-law, psychology, sociology, Spanish, and women/gender studies are available. Also, students can complete minors from other schools at IU Kokomo. Please consult an advisor for additional information about all of the minors available at Indiana University Kokomo.

A SHSS student may complete all of the pre-professional requirements for entry into law school in the process of earning a Bachelor degree at IU Kokomo. Popular degrees that prepare a student for law school include Communication Arts, Criminal Justice, English, and History/Political Science. The American Bar Association offers guidelines for prospective students concerning necessary areas of preparation. Both the departments of English and History/Political Science offer pre-law concentrations and minors for interested students. (See a faculty advisor for details.)

School of Humanities and Social Sciences students who intend to continue onto graduate school can receive a solid foundation in a variety of fields, including communication arts, criminal justice, English, fine arts, history, new media communication, political science, psychology, and sociology. Students may prepare for careers in business, industry, and government service by concentrating in the humanities and social sciences and by supplementing their concentration with up to 15 credit hours of course work in business, education, or engineering technology.

Mission The School of Humanities and Social Sciences at Indiana University Kokomo plays a central role in the mission of this comprehensive regional campus. It is the largest of the campus' schools and has been at the center of IU Kokomo's academic and intellectual life since the campus' inception. The school offers a liberal arts education that combines broad exposure to the insights and methods of the principal academic disciplines with focused study in one or more areas. It is also responsible for basic-skills courses in oral and written communication, as well as many of the courses fulfilling system school and campus general-education requirements. Because of the richness and diversity of its majors and minors students have a variety of choices when selecting programs in the school. Although the content of courses has changed over the years, the primary mission of the faculty housed in the School of Humanities and Social Sciences continues to be to foster the well-rounded development of students to enable them to take their place in society as effective citizens and lifelong learners. Simultaneously, the school provides students with opportunities to develop skills that are required for the workplace and/or for advanced study. A liberal arts education emphasizes the ability to reason clearly, to extract the essential significance of large bodies of information, to apply general principles in new contexts, to communicate effectively, and to be sensitive to human creativity and morality.

General Humanities and Social Sciences Curriculum Initially taking a guided selection of introductory courses, the student also develops a solid base of skills by taking courses within the humanities, social sciences, and natural and mathematical sciences. Because the uniquely flexible nature of the humanities and social sciences majors

allows the student to select from a wide variety of courses, students should work closely with an academic advisor in preparing a curriculum relevant to the student's own academic and career interests.

Courses

- Undergraduate Courses

Bachelor of Arts Degrees

General requirements for the Bachelor of Arts degrees are listed below. Specific requirements for each degree program are listed under the department information.

1. The regular matriculation requirements of Indiana University.
2. A minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher. See requirements for specific degree programs.
3. English--A demonstrated ability to use written and spoken English in a correct, clear, and effective manner. This requirement will be satisfied by completing ENG-W 131 and ENG-W 132 Elementary Composition I-II with a grade of C or higher and ENG-W 350 Advanced Expository Writing or an approved intensive writing course in the major with a grade of C- or higher. These courses do not count toward the distribution or concentration requirements. A student may earn an exemption from ENG-W 131 in one of four ways: 1) scoring 3 or higher on either the AP English Language and Composition exam or the AP English Literature and Composition exam, 2) scoring 670 or higher on the verbal section of the SAT, 3) scoring 29 or higher on the English section of the ACT, or 4) scoring 8 on the IU Kokomo Placement test. Please consult the program director of English for further information on exemption from W 131 and further options for receiving credit through further testing.
4. Speech--Students must demonstrate a proficiency in speech by completing SPCH-S 121, Public Speaking with a grade of C or above.
5. Computer Literacy--Students must complete CSCI-C 100 Computing Tools (1 cr.) or earn exemption from this requirement by demonstrating that they have access to a computer with legal word processing, spreadsheet, and database software and that they are able to use that software.
6. Foreign Language--There is a language requirement of 6 credit hours at the 200 level (or higher) in a foreign language. The first year (100 level) in the student's first language will apply as credit toward the degree completed at IU Kokomo. (These credits may or may not apply toward degrees completed at other campuses or institutions.) First- and second-

year courses in the student's first language may not be taken on the Pass/Fail option. All students who have had a foreign language before entering Indiana University are encouraged to take the College Entrance Examination Board Achievement Test in that language. Students who place into the second year or higher of a language on the test will be eligible to receive S credit for the first year upon completion of a second-year course in that language with a grade of C or better. Similarly, students who place into the second semester of a language will be eligible for S credit for the first semester upon completion of the second-semester course with a grade of C or better. International students may not receive credit for their native languages.

7. Mathematics--Students must demonstrate a proficiency in mathematics by completing MATH-M 133 Topics in Probability & Statistics and MATH-M 134 Topics in Mathematics with a grade of C- or better; or completing MATH-M 125 Precalculus or MATH-M 118 Finite Mathematics with a grade of C or better; or by completing MATH-M 119 Brief Survey of Calculus I or MATH-M 215 Calculus I with a grade of C- or better; or by scoring 620 or higher on the Mathematics SAT or 27 or higher on the Mathematics ACT.
8. General Education
 1. Eight to nine credit hours in Humanities (literature, performance, and ethics).
 2. Thirteen credit hours in the Biological and Physical Sciences.
 3. Fifteen credit hours in the three different disciplines in the Social and Behavioral Sciences. Note, students should check with an advisor for specifics of general education requirements.
9. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.
10. Major--24-48 credit hours depending on the major requirements of the specific degree program.
11. Completion of 30 of the last 60 credit hours at Indiana University Kokomo.
12. No more than 15 credit hours in courses outside the School of Humanities and Social Sciences and the School of Sciences.
13. Graduation dates at IU Kokomo occur in December, May, and August. Students planning to graduate in December must apply for their degrees by September 15. The application deadline for May and August graduations is January 15.

Department of Psychology

Chair: Christina Downey

Associate Professors: Calhoon, Clark, Downey, Holcomb

Assistant Professor: Batis

Clinical Assistant: Davis

Mission The mission of the psychology program is to provide students with one of three available bachelor's degrees in psychology: the Bachelor of Arts (B.A.), which follows the traditional liberal arts framework

for college education; and two Bachelor of Science (B.S.) degrees, which allow more focused study of the science of psychology. Thus, our program contributes to IU Kokomo's mission of providing undergraduate coursework leading to the baccalaureate degree for residents of North Central Indiana. We in the psychology department strive to help our majors understand the major theoretical approaches to human behavior and cognition; develop abilities to gather, analyze, synthesize, and apply psychology information; develop a healthy skepticism about conclusions presented without supporting data; and communicate more effectively. The psychology program seeks to provide students the opportunity to develop and achieve their personal and career aspirations, including opportunities for engaging in research with faculty, independent research, and practicum experiences within the community. Thus, our program contributes to IU Kokomo's mission to enhance research and develop partnerships between our degree and various community programs.

Majors/Minors

Bachelors Degrees

- Bachelor of Arts in Psychology
- Bachelor of Science in Psychology, General Science Track
- Bachelor of Science in Psychology, Psychological Science Track

Minors

- Psychology

Courses

- Undergraduate Courses

Bachelor of Arts in Psychology

The Bachelor of Arts degree in psychology provides broad coverage of modern scientific psychology, including the methods by which knowledge is acquired in this field. As a science, psychology seeks to understand the basic principles by which living organisms adapt their behavior to the changing physical and social environments in which they live. The breadth of the discipline, with its links to the humanities, mathematics, computer sciences, and other social and natural sciences, encourages the development of broad problem-solving skills through exposure to research methodology and statistical analysis and contributes to personal growth and the development of communication skills.

The psychology major requirements reflect the belief of the faculty that all psychology majors should be exposed to a core of courses, and be allowed to select other courses in the field that are of particular interest. The major is designed so that, in consultation with his or her advisor, each student will be prepared to enter the workforce prepared for positions in human services, social services, or business areas such as personnel or management. The major requirements are also suitable for the psychology major who is considering furthering his or her education at the graduate level in social work, marriage and family counseling, vocational counseling, or the more traditional applied and experimental psychology programs. The program is also appropriate for those who

would like to pursue careers that emphasize scientific training and quantitative skills.

1. See the “Degree Requirements for a B.A. in Humanities and Social Sciences” section under the “School of Humanities and Social Sciences” for General Education and other basic requirements.
2. Psychology Major Requirements for B.A.: Students must complete a minimum of 39 credit hours in psychology with a grade of C- or higher in each course. Questions about other psychology courses that might meet Cluster I, II, or III below should be directed to the department.

Psychology Core Requirements: The following courses are required of all students declaring a B.A. in Psychology major in 2013-2014:

- PSY-P 103 General Psychology (3 cr.) - this also serves as a general education course for psychology majors
- PSY-P 390 Introduction to Psychological Inquiry (3 cr.) - this course will be taught at the 200 level, with a new course number to follow in future years
- PSY-P 216 Life Span Developmental Psychology (3 cr.)
- PSY-K 300 Statistical Techniques (3 cr.)
- PSY-P 355 Experimental Psychology (3 cr.)
- PSY-P 459 History & Systems of Psychology (3 cr.)*

Category I: Choose 2 of these 4 courses:

- PSY-P 303 Health Psychology (3 cr.)
- PSY-P 319 Psychology of Personality (3 cr.)
- PSY-P 320 Social Psychology (3 cr.)
- PSY-P 324 Abnormal Psychology (3 cr.)

Category II: Choose 1 of these 2 courses:

- PSY-P 325 Psychology of Learning (3 cr.)
- PSY-P 335 Cognitive Psychology (3 cr.)

Category III: Choose 1 of these 2 courses:

- PSY-P 326 Neuroscience (3 cr.)
- PSY-P 390 Psychopharmacology (3 cr.)

Supervised Skills Sequence: Students should consult with academic advisors and with the psychology faculty in deciding which 1 of these 2 sequences to complete:

- PSY-P 493 (3 cr.) + PSY-P 494 (3 cr.) Supervised Research I & II
- PSY-P 381 Helping Skills and Ethics (3 cr.) + PSY-P 495 Practicum** (3 cr.)

*Psychology majors are not required to take ENG W 350. The intensive writing requirement is fulfilled in PSY-P 459 History & Systems of Psychology.

**Several courses are listed each semester using the P495 course number; please consult with your advisor to ensure enrollment in the correct section of this course.

Bachelor of Science in Psychology, Psychological Science Track

The Bachelor of Science in Psychology is designed to meet the needs of students who want an emphasis on either psychological or natural sciences as well as greater flexibility in electives. Students who graduate

with a Bachelor of Science in Psychology will understand the major theoretical approaches to human behavior and cognition; develop abilities to gather, analyze, synthesize, and apply psychology information; develop a healthy skepticism about conclusions presented without supporting data; and effectively communicate orally and in writing. The Bachelor of Science in Psychology has a strong scientific focus, giving students the opportunity to develop skills in scientific inquiry and interpretation.

The Psychological Science track emphasizes scientific inquiry in psychology, and is most suitable for students who wish to pursue graduate work in psychology. The program is also appropriate for those who would like to pursue careers that emphasize scientific training and quantitative skills.

Requirements for Bachelor of Science in Psychology, Psychological Science track:

1. General Education: Students are required to complete the IU Kokomo General Education program (described here)
2. Psychology Major Requirements for B.S.: Students must complete a minimum of 39 credit hours in psychology with a grade of C- or higher in each course. Questions about other psychology courses that might meet Cluster I, II, or III below should be directed to the department.

Psychology Core Requirements: The following courses are required of all students declaring a B.S. in Psychology, Psychological Science major in 2013-2014:

- PSY-P 103 General Psychology (3 cr.) - this also serves as a general education course for psychology majors
- PSY-P 390* Introduction to Psychological Inquiry (3 cr.) - this course will be taught at the 200 level, with a new course number to follow in future years
- PSY-P 216 Life Span Developmental Psychology (3 cr.)
- PSY-K 300 Statistical Techniques (3 cr.)
- PSY-P 355 Experimental Psychology (3 cr.)
- PSY-P 459 History & Systems of Psychology (3 cr.)

Category I: Choose 2 of these 4 courses:

- PSY-P 303 Health Psychology (3 cr.)
- PSY-P 319 Psychology of Personality (3 cr.)
- PSY-P 320 Social Psychology (3 cr.)
- PSY-P 324 Abnormal Psychology (3 cr.)

Category II: Choose 1 of these 2 courses:

- PSY-P 325 Psychology of Learning (3 cr.)
- PSY-P 335 Cognitive Psychology (3 cr.)

Category III: Choose 1 of these 2 courses:

- PSY-P 326 Neuroscience (3 cr.)
- PSY-P 390* Psychopharmacology (3 cr.)

Supervised Skills Sequence: Students completing the B.S. in Psychology, Psychological Science track are required to complete

- PSY-P 493 (3 cr.) + PSY-P 494 (3 cr.) Supervised Research I & II (No substitutes.)

One additional psychology course from Category I or Category II above.

Psychology Elective. One additional 3 credit hour psychology course at the 200-, 300- or 400-level is required.

One additional Physical and Life Sciences course (must be a lab course) (4-5 cr.): Between the general education and the psychology major requirements in Physical and Life Sciences courses, the student must have completed at least one Biology course with a lab.

*Several courses may be listed each semester using the P390 course number; please consult with your advisor to ensure enrollment in the correct section of this course.

Minor in Psychology

Students must complete 15 credit hours in psychology with a grade of C– or higher in each course.

- PSY-P 103 General Psychology (3 credits)
- Four additional 3 credit hour psychology classes (i.e., courses designated PSY) above the 100 level, with at least two of those four at the 300 or 400 level (totaling 12 credits)

Psychology Courses Undergraduate

PSY-K 300 Statistical Techniques (3 cr.) Fall and Spring. P: MATH-M 118 or MATH-M 119 or equivalent. Introduction to statistics, nature of statistical data, ordering and manipulation of data, measures of central tendency and dispersion, elementary probability. Concepts of statistical inference decision- making, estimation, and hypothesis testing. Special topics include regression and correlation, analysis of variance, nonparametric methods.

PSY-P 103 General Psychology (3 cr.) Fall, Spring, and Summer. Introduction to psychology: its methods, data, and theoretical interpretations in areas of learning, sensory psychology, psychophysiology, individual differences, personality development, and abnormal and social psychology.

PSY-P 216 Life Span Developmental Psychology (3 cr.) Fall, Spring, and Summer. P: PSY-P 103. A survey course that integrates the basic concepts of physical, cognitive, and psychosocial development from the prenatal period to death. Throughout the life span, theories, research, and critical issues in developmental psychology are explored, with consideration of practical implications. Credit not given for both PSY-P 216 and PSY-P 316.

PSY-P 2?? Introduction to Psychological Inquiry (3 cr.) Fall and Spring (will be offered starting Fall 2013, and will be taught under the variable course number PSY-P 390 until further notice). P: PSY-P 103 and ENG-W 132. Students entering the psychology major in Fall 2012 or after are required to take this course. Credit not to be given for both PSY-P 211 Methods of Experimental Psychology, and Introduction to Psychological Inquiry.

This course will provide psychology majors with an introduction to the basic processes of psychological inquiry. Students will be assisted in becoming more effective learners and critical thinkers, reading primary literature in psychology, and conducting basic survey research as well as learning about the most common methods in psychological research. This course will

also include an overview of the psychology major and opportunities for graduate study and careers.

PSY-P 303 Health Psychology (3 cr.) Spring, 2015. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Focuses on role of psychological factors in health and illness. Through readings, lecture, and discussion, students will become better consumers of research on behavior-health interactions and develop a broad base of knowledge concerning how behavior and other psychological factors can impart health both positively and negatively.

PSY-P 319 Psychology of Personality (3 cr.) Fall 2013. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Methods and results of scientific study of personality. Basic concepts of personality traits and their measurements; developmental influences; problems of integration.

PSY-P 320 Social Psychology (3 cr.) Fall 2014. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. The study of psychological theories and research dealing with social influence and social behavior, including topics such as conformity, personal perception, aggression, attitudes, and group dynamics.

PSY-P 322 Psychology in the Courtroom (3 cr.) Spring, 2015. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. This course considers the psychological aspects of roles and interactions in the courtroom. Topics include: definitions of “sanity” and “competency”, eyewitness testimony, jury selection, instructions, and the role of psychologists as “expert witnesses” and jury selection consultants. Emphasis will be placed on empirical law-psychology research.

PSY-P 324 Abnormal Psychology (3 cr.) Fall and Spring. P: PSY-P 103. R: completion of 26 credit hours. A first course in abnormal psychology, with emphasis on forms of abnormal behavior, etiology, development, interpretation, and final manifestations.

PSY-P 325 Psychology of Learning (3 cr.) Every Fall. P: PSY-P 103. R: completion of 26 credit hours. Facts and principles of human and animal learning, especially as treated in theories attempting to provide a framework for understanding what learning is and how it takes place.

PSY-P 326 Neuroscience (3 cr.) Spring 2014. Alternate years. P: PSY-P 103. R: BIOL-L 100 or BIOL-L 105 and completion of 26 credit hours. Central nervous system functions in relation to sensory processes, motivation, and learning.

PSY-P 335 Cognitive Psychology (3 cr.) Spring, 2015. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Introduction to human cognitive processes, including attention and perception, memory, psycholinguistics, problem solving, and thinking.

PSY-P 355 Experimental Psychology (3 cr.) Spring, 2014. Alternate years. P: Introduction to Psychological Inquiry, ENG-W 132, PSY-K 300. Scientific methods applied to the problems of psychology. Design and execution of simple psychological experiments, treatment of results, and preparation of written reports. This course is required for students entering the psychology major in

Fall, 2012 or later. Students entering the major prior to Fall, 2012 are NOT required to take this course.

PSY-P 381 Helping Skills and Ethics (3 cr.) Every Fall and Spring. P: 6 credit hours in psychology. Introduction to the helping relationship, including theories and strategies of effective helping, ethical issues, and limitations of the helper role.

PSY-P 391 Psychology of Gender and Ethnicity (3 cr.) Spring, 2014. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Basic psychological concepts and research from the perspectives of gender and ethnicity, focusing on both the similarities and differences across gender and ethnic groups. Explores the impact of social and political forces on psychological development and adjustment. Contemporary theory on ethnicity, gender, and class will also be examined.

PSY-P 459 History and Systems of Psychology (3 cr.) Fall 2013 and Spring 2014. P: PSY-P 103 and completion of 12 credit hours of psychology. Historical background and critical evaluation of major theoretical systems of modern psychology: structuralism, functionalism, associationism, behaviorism, Gestalt psychology, and psychoanalysis. Methodological problems of theory construction and system-making. Emphasizes integration of recent trends.

PSY-P 493 Supervised Research I (3 cr.) Scheduled with agreement of instructor, Fall, Spring, or Summer. P: consent of instructor. Active participation in research. An independent experiment of modest magnitude; course will include a research proposal submitted to the appropriate research ethics review board. Students who enroll in PSY-P 493 will be expected to enroll in PSY-P 494.

PSY-P 494 Supervised Research II (3 cr.) Scheduled with agreement of instructor, Fall, Spring, or Summer. P: PSY-P 493. A continuation of PSY-P 493. Course will include a journal-type report of the two semesters of work.

PSY-P 495 Topics Course (1-3 cr.) P: Consent of instructor. Participation in ongoing research in a single laboratory or independent reading and writing on a psychological topic. Other topic currently in use: **Practicum in Psychology (3 cr.)** Fall, Spring, and Summer. P: PSY-P 381 and consent of instructor. This course involves participation in a supervised field experience of at least 120 on-site hours, in an applied area. Common placements involve problems of the mentally retarded, children, the elderly, family relations, industrial relations, and mental health. Reflective writing is also required.

Bachelor of Science in Psychology, General Science Track

The Bachelor of Science in Psychology is designed to meet the needs of students who want an emphasis on either psychological or natural sciences as well as greater flexibility in electives. Students who graduate with a Bachelor of Science in Psychology will understand the major theoretical approaches to human behavior and cognition; develop abilities to gather, analyze, synthesize, and apply psychology information; develop a healthy skepticism about conclusions presented without supporting data; and effectively communicate orally and in writing. The Bachelor of Science in Psychology has a

strong scientific focus, giving students the opportunity to develop skills in scientific inquiry and interpretation.

The General Science track emphasizes the connections between the science of psychology, and various other physical and natural sciences. Therefore, this program requires additional study in natural science, and is suitable for students who wish to pursue graduate work in professional health programs such as occupational therapy or physical therapy, medicine, or medical or geriatric social work. The program is also appropriate for those who would like to pursue careers that emphasize scientific training and quantitative skills.

Requirements for the Bachelor of Science in Psychology, General Science track:

1. General Education: Students are required to complete the IU Kokomo General Education program (described here)
2. Psychology Major Requirements for B.S.: Students must complete a minimum of 39 credit hours in psychology with a grade of C- or higher in each course. Questions about other psychology courses that might meet Cluster I, II, or III below should be directed to the department.

Psychology Core Requirements: The following courses are required of all students declaring a B.S. in Psychology, General Science major in 2013-2014:

- PSY-P 103 General Psychology (3 cr.) - this also serves as a general education course for psychology majors
- PSY-P 390* Introduction to Psychological Inquiry (3 cr.) - this course will be taught at the 200 level, with a new course number to follow in future years
- PSY-P 216 Lifespan Developmental Psychology (3 cr.)
- PSY-K 300 Statistical Techniques (3 cr.)
- PSY-P 355 Experimental Psychology (3 cr.)
- PSY-P 459 History & Systems of Psychology (3 cr.)

Category I: Choose 2 of these 4 courses:

- PSY-P 303 Health Psychology (3 cr.)
- PSY-P 319 Psychology of Personality (3 cr.)
- PSY-P 320 Social Psychology (3 cr.)
- PSY-P 324 Abnormal Psychology (3 cr.)

Category II: Choose 1 of these 2 courses:

- PSY-P 325 Psychology of Learning (3 cr.)
- PSY-P 335 Cognitive Psychology (3 cr.)

Category III: Choose 1 of these 2 courses:

- PSY-P 326 Neuroscience (3 cr.)
- PSY-P 390* Psychopharmacology (3 cr.)

Supervised Skills Sequence: Students should consult with academic advisors and with the psychology faculty in deciding which 1 of these 2 sequences to complete:

- PSY-P 493 (3 cr.) + PSY-P 494 (3 cr.) Supervised Research I & II
- PSY-P 381 Helping Skills and Ethics (3 cr.) + PSY-P 495 Practicum** (3 cr.)

Psychology Elective. One additional 3 credit hour psychology course at the 200-, 300- or 400-level is required

Three additional Physical and Life Sciences courses (two with labs) (12-15 cr.) - Between the general education and the psychology major requirements in Physical and Life Sciences courses, the student must have completed three courses that are either Biology or Chemistry courses, and two of those must include labs.

*Several courses may be listed each semester using the P 390 course number; please consult with your advisor to ensure enrollment in the correct section of this course.

**Several courses are listed each semester using the P 495 course number; please consult with your advisor to ensure enrollment in the correct section of this course.

Bachelor of Science Degrees

General requirements for the Bachelor of Science degrees are listed below.

1. The regular matriculation requirements of Indiana University.
2. A minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
3. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.
4. Completion of 30 of the last 60 credit hours at Indiana University Kokomo.
5. No more than 15 credit hours in courses outside the School of Humanities and Social Sciences and the School of Sciences
6. Major - at least 40 credit hours. See requirements for specific degree programs.
7. [The campus General Education requirements](#)

School of Humanities and Social Sciences Interdisciplinary Minors

International Studies The international studies minor is designed to provide students with:

- (a) awareness of international issues, challenges and opportunities,
- (b) knowledge of global similarities, differences, ways of understanding and approaches to policymaking,
- (c) opportunities for cross-disciplinary and/or interdisciplinary approaches to academic study, and
- (d) experience with cultures outside the United States.

This 15 credit minor is easy to combine with a variety of campus majors and plans of study and allows students to explore in-depth areas which compliment their major course work—such as international business, comparative political systems, or cross-cultural communication. While not required, students who pursue this minor are strongly encouraged to combine their interest in international studies with in-depth study of languages like Spanish and coursework which provides broad international content. Please consult the International Studies Minor website on a regular basis for an update as to which courses are

being offered in any given semester. If you have questions about the minor or seek advising as to how to incorporate the minor into your plan of study, please consult Dr. Donna McLean at domclean@iuk.edu.

The international studies minor is open to all students on the IU Kokomo campus.

Requirements: The minor comprises at least 15 credit hours of course work including:

1. **Gateway Course: I100 Introduction to International Studies**
2. **Capstone class: Any approved overseas study course (3 credit class)** which may include, but is not restricted to the following: BUS-D 496 Foreign Study in Business, HSS-F 200 Foreign Study, NURS-K 433 Korean Culture and Healthcare practicum (2 credits) with NURS-K 432 Korean Culture and Healthcare (1 credit), or HSS-I 450 The Innovations Symposium (3 credits) or SPCH-S 427 Cross-cultural Communication. As a capstone experience students are required to take either S427 Cross-cultural Communication (as long as they have not taken the course as part of their third requirement for the minor described below—you can only get credit once in the minor for taking this class), or any overseas study class offered through the university. To satisfy the overseas study requirement for students not taking SPCH-S 427, students must complete at least 3 credits of course work which involves travel, an internship or service work opportunity outside of the US, or an in-depth approved study of a culture unfamiliar to the student.
3. **An additional nine credits of course work from any of the following categories:**

Global Markets and Governance Course work in political science, economics or business with broad international content.

- POLS-Y 217 Introduction to Comparative Politics (3 credits)
- POLS-Y 219 Introduction to International Relations (3 credits)
- POLS-Y 339 African politics (3 credits)
- BUS-D 300 International Business Administration (3 credits)
- BUS-D 301 The International Business Environment (3 credits)
- BUS-D 302 International Business: Operations of International Enterprise (3 credits)

Possible special topics courses may also be approved as part of this requirement. Such courses are generally not available on a regular rotation, but when available, students can determine whether a course meets the requirement by contacting Dr. McLean or consulting their advisor.

Arts and Civilization Course work in the humanities, fine arts or history with broad international content.

- FINA-A 108 Art of the Western World (3 credits)
- ENG-L 225 Introduction to World Masterpieces (3 credits)
- ENG-G 301 History of the English Language (3 credits)

- HIST-H 228 History of the Vietnam War (3 credits)

Possible special topics courses may also be approved as part of this requirement.

These courses are generally not available on a regular rotation, but if a course meeting criteria determining broad international content was offered in the area of arts and civilization, students would be able to authorize the course as part of the international studies minor. An example of a special topics course might be ENG-L 381, Recent Writing: Twentieth-Century World Literature.

Health and Environment Course work in nursing, public policy or the natural sciences with broad international content.

- CHEM-C 390 Special topics in Chemistry (3 credits)
- NURS-K 432 Korean Culture and Healthcare (1 credit)
- NURS-K 433 Korean Culture and Healthcare practicum (2 credits)

Possible special topics courses may also be approved as part of this requirement. These courses are generally not available on a regular rotation, but if a course meeting criteria determining broad international content was offered in the area of health and environment, students would be able to authorize the course as part of the international studies minor

Culture and Society Course work in communication, sociology or cultural study with broad international content.

- S200 Workshop in special topics: Hispanic Culture (3 credits)
- PSY-P 391 Psychology of Gender and Ethnicity (3 credits)
- SPCH-S 427 Cross-cultural communication (3 credits)
- SOC-S 335 Race and Ethnic Relations
- SOC-S 363 Sociology of Development (3 credits)
- SOC-S 419 Social movements and collective action

Possible special topics courses may also be approved as part of this requirement. Special topics courses are generally not available on a regular rotation, but if a course meeting criteria determining broad international content was offered in the area of culture and society, students would be able to authorize the course as part of the international studies minor. A possible special topics class might be SOC-S 344, Sociology of Childhood (3 credits)

If students would like to certify that a special topics course will fit into the international studies minor, they are requested to send the course number with a brief description of the course to the International Studies Committee. Please email the request to: domclean@iuk.edu for distribution to the International Studies Committee. The committee will review the matter and get back to the student as soon as possible through email.

Leadership Minor

The Leadership minor is designed to provide students with:

1. Knowledge about leadership theories and practices as well as which approaches work best in different situations
2. Opportunity for cross-disciplinary approaches to leadership studies
3. Experiential learning involving applying classroom gained knowledge in real-world situations

The 18 credit hour minor is easy to combine with a variety of campus majors and plans of study.

Requirements for a Minor in Leadership The Leadership minor is comprised of at least 18 credit hours.

Required Courses -- 9 Credit Hours

- HSS -S 200 Introduction to Leadership Studies
- HSS -S 300 Leadership Practicum - Leadership in Action
- HSS -S 400 Leadership Capstone

Elective Courses -- 9 Credit Hours

An additional 9 credits from any of the following categories: Courses with an asterisk (*) have additional prerequisites. For all categories, additional special topics courses may be offered periodically that also might count toward the minor.

Business

This includes course work in business with a leadership focus.

- BUS-Z 302 Management and Behavior in Organizations
- BUS-X 487 Business Seminar (SIFE - Students in Free Enterprise)
- BUS-Z 447 Leadership, Teamwork, and Diversity*

Public Administration

This includes course work in non-profit management with a leadership focus.

- PAHM-V 462 Non-Profit Management and Leadership*
- PAHM-V 412 Leadership and Ethics*
- PAHM-V 473 Management, Leadership, and Policy*

Interdisciplinary

This includes any of the course work listed above in Business and Public Administration, any other approved course work with a leadership focus, as well as the following:

- SPCH-S 122 Interpersonal Communication
- SPCH-S 229 Discussion and Group Methods
- SPCH-C 380 Organizational Communication
- SPCH-S 322 Advanced Interpersonal Communication
- SPCH-S 427 Cross Cultural Communication

Approved travel courses with a leadership or service component can also be included. Recent examples include:

- HSS -I 450 Innovation Symposium to England
- HSS -F 200 Foreign Study Trip to Guatemala

Leadership Minor Courses

HSS-S 200 Introduction to Leadership Studies (3 cr.)

This course provides an overview of leadership theories and practices. It is offered in the hybrid format, meeting once per week on campus and once per week online.

HSS-S 300 Leadership Practicum - Leadership in Action (1-2 cr.)

This course provides hands-on experiences with leadership activities and events that provide a leadership opportunity. Students will take this class for three credits-- either as three one-credit modules or as a one credit/two credit sequence.

HSS-S 400 Leadership Capstone (3 cr.)

This course is an applied, experiential learning course where students can practice the knowledge gained in other courses. It serves as a capstone for the minor and students will complete a semester-long project.

Women and Gender Studies

Women and Gender Studies is a rapidly growing academic field dedicated to the study of women and their changing position in society. Its importance lies both in its interdisciplinary approach to the study of women and in the timely opportunity it offers for the study of issues long neglected by traditional academic scholarship. Minor in Women and Gender Studies can potentially complement any major at Indiana University Kokomo. The minor helps students understand the position of women in society, the changes that come about through efforts to eradicate discriminatory social practices, and the transformation still needed to achieve a just and caring society. Such knowledge and sensitivity to women's concerns should enrich students' educational experience both personally and professionally, give insight into their own situations and society, and enable them to work more effectively in their careers. For more information on the minor in Women's Studies, please contact your academic advisor.

Requirements for the Minor in Women and Gender Studies

The Women's Studies minor requires the completion of 15 credit hours: 3 required credit hours and 12 credit hours of elective Women's Studies courses approved by the Women and Gender Studies Committee. Students are encouraged to consult the Women and Gender Studies director for advising as they complete the minor.

Required Course: WOST-W 350 Women: Images and Perspectives (3 cr.)

Fall or spring. This interdisciplinary course studies how women's lives in America are shaped by social values; by cultural beliefs, traditions, and ideology; and by social, political, and economic institutions or policies. It also considers how these are reflected in imaginative literature as well as social reality.

Electives cross-listed with Sociology:

Consult the "Sociology, History and Political Science" section for a description of these courses.

- SOC-S 316 The Family (3 cr.)
- SOC-S 338 Gender Roles (3 cr.)
- SOC-S 363 Sociology of Development (3 cr.)

Cross-listed with Humanities:

Consult the "Humanities" section for a description of these courses.

- ENG-L 378 Studies in Women and Literature (3 cr.)

Note: The women's studies faculty periodically develop new courses in women's studies. For an updated listing of courses, students should consult the Schedule of Classes each semester.

Minors in Other Schools and Divisions

Students can also select minors from other schools or divisions of IU Kokomo, such as minors in Business, Mathematics, or Biology. For more information on minors outside the School of Humanities and Social Sciences, please see other sections of this Bulletin.

Department of Humanities

Professors: Sciamé-Giesecke **Associate Professors:** Cameron, Darr, Jones, McLean, White

Assistant Professors: Alnusair, Cook, Deerly, Douglas, Keener, Mosley, Steel

Senior Lecturers: Ison, Pico-Argel, Snoddy, Stouse, Taff
Lecturers: Kaiser, Provost

The IU Kokomo Department of Humanities promotes personal and professional growth through degree programs, general education courses, research, and service providing people in our region and beyond with abilities in expression, critical thinking and critical awareness and appreciation of culture and diversity to make them effective, enlightened citizens. Ranging from traditional areas such as philosophy, sculpture, painting, music, language and literature, to more recent fields such as communication studies, graphic design, and web design, we offer a wide variety of areas of study.

Majors/Minors

Bachelors Degrees

- Bachelor of Arts in Communication Arts
- Bachelor of Arts in English
- Bachelor of Arts in English (Language and Literature)
- Bachelor of Arts in English (Pre-Law)
- Bachelor of Arts in English (Writing, Editing, and Media)
- Bachelor of Arts in Fine Arts (BA)
- Bachelor of Arts in Humanities
- Bachelor of Arts in New Media Communication
- Bachelor of Fine Arts (BFA)
- Bachelor of Science in Communication Arts
- Bachelor of Science in New Media Communication

Masters Degrees

- Master of Arts in Liberal Studies

Minors

- Art History
- Communication Arts
- Creative Arts
- English Literature
- English Writing
- Film Studies
- Irish Studies

- New Media Communication
- Philosophy
- Pre-Law
- Spanish

Certificate Programs

- Certificate in Spanish
- Post Baccalaureate Certificate in New Media Communication

Courses

- Undergraduate Courses
- Graduate Courses

Bachelor of Arts in Communication Arts

The Bachelor of Arts in Communication Arts prepares individuals for the communication demands of social and professional life through a broad-based liberal arts program studying the nature, processes, and effects of messages. The degree also prepares students to communicate in varied channels and contexts of contemporary communication, analyze communication messages of multiple forms and styles, communicate ethically, and employ the theory and methods of the field while appreciating the history and content of the discipline.

Communication Arts majors will find job opportunities in a variety of fields, including public communication, public relations, journalism and fields in management, training and customer service. Specific careers include integrated marketing communications, corporate and public sector consulting, speech writing, publicity, sales, community relations, public affairs, government, public and social service, news reporting, radio, public relations, human resources/relational management, sports marketing, media relations, primary and secondary teaching, personnel, editing or writing for various media, business and industrial communication. Additionally, Communication Arts graduates will be well-prepared for graduate studies.

To earn the B.A. in Communication Arts, you must complete a minimum of 120 credit hours. In addition to the general education requirements of the School of Arts and Sciences (See "Degree Requirements" section under "School of Humanities and Social Sciences"), you will complete at least 42 credit hours as follows:

Requirements

Part 1: Core. (24 hours)

The core of the Communication Arts curriculum grounds graduates in the theoretical and applied nature of the discipline, culminating in a capstone project in the Senior Seminar. All Communication Arts majors must complete each of the following courses:

- JOUR-C 200 Introduction to Mass Communication (3 cr.)
- SPCH-S 205 Introduction to Speech Communication (3 cr.)
- SPCH-C 321 Persuasion (3 cr.)
- SPCH-S 336 Communication Theory (3 cr.)
- SPCH-C 380 Organizational Communication (3 cr.)
- SPCH-S 398 Independent Study in Speech Communication (Senior Seminar) (3 cr.)

- SPCH-S 427 Cross Cultural Communication (3 cr.)
- SPCH-C 300 Internship/Practicum OR any 300 level communication class not taken to satisfy a requirement in Part 2 or Part 3 of the degree. (3 cr.)

Part 2: Experiential Component. (6 hours)

The experiential component of the Communication Arts degree is designed to provide students with real world experience in the field of communication. These courses link students to the broader community, beyond the campus, pushing them to work with and/or develop projects with constituent groups outside the classroom. Through class assignments, such as interviewing workshops (SPCH-C 325) and group designed and administered surveys (SPCH-C 393), students will initiate and manage projects and campaigns designed to address real world problems in a mentored and supportive setting. Students choose two courses from among the following:

- SPCH-C 393 Communication Research Methods (3 cr.)
- SPCH-C 300 Radio (3 cr.)
- SPCH-C 325 Interviewing (3 cr.)
- SPCH-S 201 Communicating in Public (3 cr.)
- JOUR-J 343 Broadcast News (3 cr.)

Part 3: Concentration. (12 hours)

The final component of the B.A. in Communication Arts is the concentration. These concentrations build upon the core and experiential components of the degree by providing students with a focused area of study. Students must complete each course in the chosen concentration, and will choose from the following:

1. Public Communication. The Public Communication concentration focuses on developing students' presentational skills and is designed to prepare them for careers in business, government, marketing, sales, advertising, speech writing, and other careers in which oral and written communication skills are essential.
 - SPCH-S 228 Argumentation and Debate (3 cr.)
 - SPCH-C 444 Political Communication (3 cr.)
 - HSS-S 200 Leadership Studies (3 cr.)
 - NMCM-N 351 Cyberculture and Community (3 cr.)
2. Journalism. The journalism concentration develops student writing, editing, layout and photography skills, teaching students the journalism basics of reporting and editing. Students are encouraged to combine their understanding of core skills in the profession with online media and their own unique interests to better prepare them for a market which demands great breadth and sensitivity to the intersections between social issues, human nature and technology.
 - JOUR-J 200 Writing for Mass Media (3 cr.)
 - ENG-W 365 Theories and Practices of Editing (3 cr.)
 - NMCM-N 250 Graphic Design I (3 cr.) OR JOUR-J 344 Photojournalism Reporting (3 cr.)
 - JOUR-J 290 Internship in Journalism (3 cr.)
3. Public Relations/Corporate Communications. The Public Relations/Corporate Communication concentration prepares students to strategically manage communication resources for both profit and nonprofit organizations. Coursework prepares

students to enhance a corporation's image and reputation, monitor and resolve its issues, influence relevant attitudes and opinions, in efforts to adapt the organization to its environment and the environment to the organization. Grounded in communication theory and the four-step process, students will enhance their writing and planning skills and learn a variety of communication formats and media techniques for relating to diverse publics.

- SPCH-S 233 Intro to Public Relations (3 cr.)
- SPCH-S 333 Public Relations (3 cr.)
- SPCH-C 391 Public Relations Campaigns (3 cr.)
- NMCM-N 250 Graphic Design (3 cr.)

Bachelor of Science in Communication Arts

The Bachelor of Science in Communication Arts is appropriate for students seeking employment in various fields, including public communication, public relations, journalism, and other fields that require writing, research, and presentational proficiency. Other careers include integrated marketing communications, corporate and public sector consulting, speech writing, publicity, community relations, public affairs, government, public and social service, news reporting, radio, sports marketing, media relations, editing or writing for various media, business and industrial communication. The B.S. is also appropriate for those students seeking to enter a graduate program in communication, as those programs are typically writing and research intensive.

Students who complete the Bachelor in Science Degree in Communication Arts will have broad knowledge of communication and an in-depth understanding of various forms of writing and research within the academic discipline and related professions. The students will have experience conducting and presenting research in both written and oral formats. The students will have the ability to develop and carry out communication research.

The Bachelor of Science differs from the Bachelor of Arts by adding more coursework in the Experiential component and the Concentrations that engage students in additional writing and research. It will also require students to take a related minor, where the B.A. does not.

To earn the Bachelor of Science in Communication Arts, you must complete a minimum of 120 credit hours. In addition to the general education requirements (see "General Education Requirements" under the section "Academic Regulations" earlier in the Bulletin), you will complete a related minor (subject to approval by the Communication Arts Faculty) and at least 48 credit hours as follows:

Requirements

Part 1: Core. (21 hours)

The core of the Communication Arts curriculum grounds graduates in the theoretical and applied nature of the discipline, culminating in a capstone project in the Senior Seminar. All Communication Arts majors must complete each of the following courses:

- SPCH-C 200 Introduction to Mass Communication (3 cr.)
- SPCH-S 205 Introduction to Speech Communication (3 cr.)

- SPCH-C 321 Persuasion (3 cr.)
- SPCH-S 336 Communication Theory (3 cr.)
- SPCH-C 380 Organizational Communication (3 cr.)
- SPCH-S 398 Independent Study in Speech Communication (Senior Seminar) (3 cr.)
- SPCH-S 427 Cross Cultural Communication (3 cr.)

Part 2: Experiential Component. (12 hours)

The experiential component of the Communication Arts degree is designed to provide students with real world experience in the field of communication. These courses link students to the broader community, beyond the campus, pushing them to work with and/or develop projects with constituent groups outside the classroom. Through class assignments, such as interviewing workshops (SPCH-C 325) and group designed and administered surveys (SPCH-C 393), students will initiate and manage projects and campaigns designed to address real world problems in a mentored and supportive setting. Students in the Bachelor of Science will also take Statistics (K 300) and an Independent Study Research Project (SPCH-C 398) that will hone their research skills. Students must take the following:

- SPCH-C 393 Communication Research Methods (3 cr.)
- SPCH-S 398 Independent Study in Speech Communication (Research Project) (3 cr.)
- PSY-K 300 Statistical Techniques (3 cr.)
- SPCH-C 325 Interviewing OR SPCH-S 201 Communicating in Public (3 cr.)

Part 3: Concentration. (15 hours)

The final component of the B.S. in Communication Arts is the concentration. These concentrations build upon the core and experiential components of the degree by providing students with a focused area of study. Students must complete each course in the chosen concentration, and will choose from the following:

1. **Public Communication.** The Public Communication concentration focuses on developing students' presentational skills and is designed to prepare them for careers in business, government, marketing, sales, advertising, speech writing, and other careers in which oral and written communication skills are essential.

- SPCH-S 228 Argumentation and Debate (3 cr.)
- SPCH-C 444 Political Communication (3 cr.)
- HSS -S 200 Leadership Studies (3 cr.)
- NMCM-N 351 Cyberculture and Community (3 cr.)
- ENG W-321 Advanced Technical Writing (3 cr.)

2. **Journalism.** The journalism concentration develops student writing, editing, layout and photography skills, teaching students the journalism basics of reporting and editing. Students are encouraged to combine their understanding of core skills in the profession with online media and their own unique interests to better prepare them for a market which demands great breadth and sensitivity to the intersections between social issues, human nature and technology.

- SPCH-J 200 Writing for Mass Media (3 cr.)
- ENG-W 365 Theories and Practices of Editing (3 cr.)
- NMCM-N 250 Graphic Design I (3 cr.) OR JOUR-J 344 Photojournalism Reporting (3 cr.)

- JOUR-J 290 Internship in Journalism (3 cr.)
- JOUR-J 343 Broadcast News (3 cr.)

3. Public Relations/Corporate Communications. The Public Relations/Corporate Communication concentration prepares students to strategically manage communication resources for both profit and nonprofit organizations. Coursework prepares students to enhance a corporation's image and reputation, monitor and resolve its issues, influence relevant attitudes and opinions, in efforts to adapt the organization to its environment and the environment to the organization. Grounded in communication theory and the four step process, students will enhance their writing and planning skills and learn a variety of communication formats and media techniques for relating to diverse publics.

- SPCH-S 233 Intro to Public Relations (3 cr.)
- SPCH-S 333 Public Relations Writing (3 cr.)
- SPCH-C 391 Public Relations Campaigns (3 cr.)
- NMCM-N 250 Graphic Design I (3 cr.)
- NMCM-N 351 Cyberculture and Community (3 cr.) or ENG-W 321 Advanced Technical Writing

Bachelor of Arts in English

The Bachelor of Arts in English is a four-year undergraduate degree for students who want to develop their talents in reading and writing, who want a solid grounding in literature and English studies for secondary or postsecondary teaching, who wish to prepare for graduate or professional study in such fields as English, library science, journalism, law, or business, or who wish to develop analytical and expressive skills valuable in many careers. The major consists of at least 36 credit hours above the 100 level in English language, literature, linguistics, and writing courses: 9 credit hours are specified to ensure that all majors have a common background in literary interpretation and theory; 27-39 credit hours are chosen from among advanced courses in several specified categories.

Students may concentrate in one of three areas within the English major: Language and Literature, Pre-Law, or Writing, Editing, and Media. Each of these three concentrations is described below. The English department also offers minors in English Literature, English Writing, and Pre-Law.

The English department works cooperatively with the School of Education to administer a dual degree program in English/Secondary Education. Students participating in this program will complete both a Bachelor of Arts in English degree and a Bachelor of Science in Secondary Education degree (English/Language Arts). Students in this program will be certified to teach at the secondary school level. Please see an advisor in either SHSS or the School of Education for more information about this program.

Please see the Humanities department website regarding frequently asked questions about our degree programs, projected course offerings, and sample plans of study.

Mission Statement

The mission of the English program is to provide students with a bachelor's degree in English within a liberal arts tradition. The program introduces students to major literary works in English, teaches them the professional

vocabulary of literary analysis and theory, and instructs them in the methods of research and interpretation. The program enables students to achieve goals relating both to career and to personal development.

Bachelor of Arts in English (Language and Literature)

See Degree Requirements section under the School of Humanities and Social Sciences.

1. 9 specified hours:

- ENG-L 202 Literary Interpretation (3 cr.)
- ENG-L 371 Critical Practices (3 cr.)
- ENG-L 495 Senior Seminar (3 cr.)

3. 27 credit hours (from the following categories):

- Literatures in English: Beginnings through 18th Century (3 cr.)
- Literatures in English: 19th Century (3 cr.)
- Literatures in English: 20th/21st Century (3 cr.)
- World/Gender/Multicultural Literature (3 cr.)
- English electives (prefixes L, W, G, or E) at the 200-level or above (15 cr.)

4. No more than 12 credit hours in the major may be at the 200 level.

5. In item 3 above, students may substitute one elective at the 300-level or above from a related field or discipline approved by a departmental advisor (literature in another language, history, film studies, African American studies, women's studies, folklore, new media communication, philosophy, etc.).

6. No grade in any of these courses may be lower than a C-.

Bachelor of Arts in English (Pre-Law)

See Degree Requirements section under the School of Humanities and Social Sciences.

1. 9 specified hours:

- ENG-L 202 Literary Interpretation (3 cr.)
- ENG-L 371 Critical Practices (3 cr.)
- ENG-L 495 Senior Seminar (3 cr.)

3. 39 credit hours (from the following categories):

- Literatures in English: Beginnings through 18th Century (3 cr.)
- Literatures in English: 19th Century (3 cr.)
- Literatures in English: 20th/21st Century (3 cr.)
- World/Gender/Multicultural Literature (3 cr.)
- ENG-W 368 Research Methods and Materials (3 cr.)
- POLS-Y 215 Introduction to Political Theory (3 cr.)*
- One 300+-level history course (3 cr.)*
- One 300+-level philosophy course (3 cr.)*
- Choice of SPCH S 228 Argumentation and Debate, SPCH-C 321 Persuasion, OR SPCH-C 325 Interviewing (3 cr.)*
- Choice of ENG-W 398 Internship in Writing OR ENG-W 498 Internship in English (3 cr.)
- English electives (prefixes L, W, G, or E) at the 200-level or above (9 cr.)

*Note: These courses may also be used to meet general education requirements in SHSS.

4. No more than 12 credit hours in the major may be at the 200 level.

5. In item 3 above, students may substitute one elective at the 300-level or above from a related field or discipline approved by a departmental advisor (literature in another language, history, film studies, African American studies, women's studies, folklore, new media communication, philosophy, etc.).
6. No grade in any of these courses may be lower than a C-.

Bachelor of Arts in English (Writing, Editing, and Media)

See Degree Requirements section under the School of Humanities and Social Sciences.

1. 9 specified hours:
 - ENG-L 202 Literary Interpretation (3 cr.)
 - ENG-L 371 Critical Practices (3 cr.)
 - ENG-L 495 Senior Seminar (3 cr.)
3. 33 credit hours (from the following categories):
 - Literatures in English: Beginnings through 18th Century (3 cr.)
 - Literatures in English: 19th Century (3 cr.)
 - Literatures in English: 20th/21st Century (3 cr.)
 - World/Gender/Multicultural Literature (3 cr.)
 - ENG-W 365 Theories and Practices of Editing (3 cr.)
 - English writing electives (prefix W) at the 200-level or above (9 cr.)

(Note: Courses in journalism, grantwriting, and publishing may also fulfill the writing Electives requirement. Please see an academic advisor for details.)

- ENG-W 398 Internship in Writing (3 cr.)
- Digital media or journalism electives (6 cr.)* Please see an advisor for details.

***Note:** These courses may also be used to meet general education requirements in SHSS.

4. No more than 12 credit hours in the major may be at the 200 level.
5. In item 3 above, students may substitute one elective at the 300-level or above from a related field or discipline approved by a departmental advisor (literature in another language, history, film studies, African American studies, women's studies, folklore, new media communication, philosophy, etc.).
6. No grade in any of these courses may be lower than a C-.

Master of Arts in Liberal Studies **Netty Provost, Interim Director**

Program overview

The Master of Arts in Liberal Studies (M.A.L.S.) program at IU Kokomo is an integrative program that explores various aspects of the humanities, social/behavioral sciences, and natural sciences, and emphasizes the connections between them. This program utilizes existing coursework in the arts and sciences, supplemented with seminars designed especially for this degree. The latter will assist the student in discovering the relationship among the disciplines of the arts and sciences and in developing a broad overview of those areas. Students will also be expected to do independent work, often including the design and execution of projects. Students

may choose from three different emphases or tracks: the Individualized Track, the Academic Teaching Track, and the Global Studies Track. The M.A.L.S. program at IU Kokomo is an Associate Member of the Association of Graduate Liberal Studies Programs (AGLSP).

Objectives

The M.A.L.S. Program is designed to meet the needs of several populations within the broad region that Indiana University Kokomo serves. Its goal is to produce critical thinkers with a global understanding who are capable of interdisciplinary innovation. It meets the educational goals for individuals whose careers will be enhanced by a graduate credential, those who might wish to change careers, or those who wish to complete a challenging program of study for personal fulfillment.

M.A.L.S. Program Goals

The M.A.L.S. program enables all students to acquire the following knowledge and skills while completing the program:

- the ability to analyze and interpret scholarly works in a variety of academic disciplines
- knowledge of the methods and approaches of at least one particular academic discipline
- the ability to communicate in a variety of academic disciplines
- the ability to recognize and communicate the interconnectivity of academic disciplines

Admission Requirements

Students are admitted to the Master of Arts in Liberal Studies program by the M.A.L.S. Advisory Board. In order to be admitted to this program, a student is expected to have earned a baccalaureate degree (B.A. or B.S.) from an accredited college or university with an overall grade point average of at least 3.0 on a 4.0 scale. Students who do not meet the GPA requirement may be admitted provisionally upon the recommendation of the director of the M.A.L.S. program and/or the M.A.L.S. Advisory Board. Completed applications include the following:

- application form
- application fee (\$40)
- cover letter
- at least two letters of recommendation (at least one faculty letter)
- a research-based writing sample (8 - 20 pages)
- scores from the Graduate Record Exam (GRE) or equivalent graduate exam scores
- transcripts of all previous undergraduate and graduate study

A student whose native language is not English must have a minimum TOEFL score of 560 (standard grading) or 220 (computer graded). The recommended TOEFL score is 600 (standard grading) or 250 (computer graded). Here is a helpful link for the TOEFL: <http://www.ets.org/toefl/>

Exceptions to these requirements may be made at the discretion of the M.A.L.S. Advisory Board. Application materials can be submitted to Master of Arts in Liberal Studies, c/o Humanities Department, Indiana University Kokomo, 2300 S. Washington Street, Kokomo, IN 46904.

Graduation Requirements

- At least 30 credit hours including: 3 credit hours of introduction to the program, 21 credit hours in area of concentration, and 6 credit hours of thesis work. (The Academic Teaching Track requires 6 credit hours additional in teaching methods and practice.)
- An overall GPA of 3.0
- Approval of the M.A.L.S. Director

Required Courses for all Tracks

Introduction to Graduate Liberal Studies (LBST D 510)

A comprehensive introduction to graduate liberal studies. Explores the cultures of the humanities, social sciences, and sciences. Investigates interdisciplinary methodologies. Offers strategies for graduate-level reading, research, and writing for other publics.

Thesis Proposal (LBST-D 603)

Independent initial research/exploration of thesis topic including a formal proposal containing a statement of purpose, a background or rationale, an extensive literature review, a methodology, and a working thesis title. This course is a prerequisite for students registering for LBST-D 604.

Thesis (LBST-D 604)

Independent thesis work conducted in consultation with Thesis Committee.

Bachelor of Arts in Fine Arts (BA)

The Bachelor of Arts in Fine Arts (BA) offers a well-rounded liberal arts education with a focus in fine arts. The studio art courses provide students with experiences in a variety of media including, painting, drawing, printmaking, sculpture, metalsmithing, ceramics, graphic design, digital media, and animation.

The Bachelor of Arts in Fine Arts is 120 credit hours, 47 of which are fine arts courses. The courses can be broken down as follows:

1. General Education Requirements for Arts & Sciences
2. Fine Arts Core
 - 9 hours of Art History (A101, A102, one other 200 or above)
 - 3 hours of Philosophy of Art
 - 12 hours of fundamental studio courses (F100, F101, F102, S215)
 - 21 hours of studio courses at the 200 level or above (no more than 6 hrs. at the 200 level)
 - All art courses require a C- or higher to count toward the major.
 - 2 hours of senior capstone experience
3. Senior Capstone experience

The purpose of the senior capstone experience is to provide students with opportunities to demonstrate they have mastered a depth of knowledge in the major, they can integrate knowledge within their creative endeavors, and that they are able to communicate coherently. The capstone experience is comprised of the following:

- An individual exhibition of the student's representative work reflecting the program goals.

- A written statement about the student's exhibit, goals, techniques, process approach and influences, and course for future direction.

Objectives

- Students in the program will:
- Analyze and express the essential aspects of visual forms in a creative manner
- Discuss historical and contemporary conceptual issues in design
- Demonstrate skills in the tools, techniques, and processes to produce work in their chosen area(s) of emphasis
- Demonstrate an understanding of the place of their media of emphasis in the history of art, as well as in contemporary theory and practices
- Demonstrate facile use of visual vocabulary for making art and a sophisticated critical language for analyzing art
- Demonstrate a high degree of professionalism in presenting and exhibiting their work and portfolio
- Discuss the history of art as it relates to their media
- Reflect and write about their art-making process, including resume, artist statement, grant-writing, and a senior capstone project

Bachelor of Fine Arts (BFA)

The Bachelor of Fine Arts (BFA) degree offers students the most extensive study in the fine arts. With over 60 hours in studio art and 30 hours in studio art at the 300 level or above, students will explore numerous art media and at least two areas in great depth. The degree will best prepare students for admission in Masters of Fine Arts (MFA) programs. The studio art courses provide students with experiences in a variety of media including, painting, drawing, printmaking, sculpture, metalsmithing, ceramics, graphic design, digital media, and animation.

The Bachelor of Fine Arts is 120 credit hours, 84 of which are fine arts courses. The courses can be broken down as follows:

1. Campus Wide General Education Requirements
2. Fine Arts Core (minimum of 84 cr. hr.)
 - 15 hours of Art History A 101, A 102, Contemporary Art, Philosophy of Art, one other 200 or above
 - 12 hours of foundations studio courses (F100, F101, F102, S215)
 - 54 hours of studio courses courses at the 200 level or above with a minimum of 30 at the 300 level or higher.
 - All art courses require a grade of a C- or higher to count toward the major.
 - A senior capstone experience (S400 – 2 cr. hrs. and Y398 – 1 cr. hr.) must be satisfactorily completed.
3. The Senior Capstone Experience in Fine Arts

The purpose of the senior capstone experience is to provide students with opportunities to demonstrate that they have mastered a depth of knowledge in the major, that they can integrate knowledge within their creative endeavors, and that they are able to communicate coherently.

The capstone experience is made up of the following:

- An individual exhibition of their representative work reflecting the program goals.
- A written statement about their exhibit, goals, techniques, process approach and influences and course for future direction.

Liberal Studies Courses Graduate

LBST-D 501 Humanities Seminar (3 cr.) An interdisciplinary graduate seminar in the humanities. Topics vary from semester to semester. May be repeated twice for credit

LBST-D 502 Social Science Seminar (3 cr.) An interdisciplinary graduate seminar in the social sciences. Topics vary from semester to semester. May be repeated twice for credit.

LBST-D 503 Science Seminar (3 cr.) An interdisciplinary graduate seminar in the sciences. Topics vary from semester to semester. May be repeated twice for credit.

LBST-D 510 Introduction to Graduate Liberal Studies (3 cr.) A comprehensive introduction to graduate liberal studies. Explores the cultures of the humanities, social sciences, and sciences. Investigates interdisciplinary methodologies. Offers strategies for graduate-level reading, research, and writing for other publics.

LBST-D 511 Humanities Elective (3 cr.) P: LBST-D 510. M.A.L.S. graduate elective course in the humanities. Topics vary. May be repeated for credit.

LBST-D 512 Social Science Elective (3 cr.) P: LBST-D 510. M.A.L.S. graduate elective course in the social sciences. Topics vary. May be repeated for credit.

LBST-D 513 Science Elective (3 cr.) P: LBST-D 510. M.A.L.S. graduate elective course in the sciences. Topics vary. May be repeated for credit.

LBST-D 514 Graduate Liberal Overseas Study (3-6 cr.) P: LBST-D 510. This course will enable M.A.L.S. students to participate in overseas studies. In some cases there may be a language prerequisite.

LBST-D 525 Topics in International Studies (1-6 cr.) P: LBST-D 510. This course is a graduate seminar with varied topics in international studies. The content will vary, but it will always focus on international issues and topics in different fields of studies. At times, this course will have an interdisciplinary and/or comparative focus.

LBST-D 550 Teaching Assistantship (3-6 cr.) P: LBST-D 510 and prior consent of director and instructor. This course will enable students to have a practical experience in teaching by assisting a faculty member in planning, teaching and grading a course in the student's area of concentration. This course is a requirement for the academic teaching track.

LBST-D 551 Research Assistantship (3-6 cr.) P: LBST-D 510 and prior consent of director and instructor. This course will enable students to assist resident faculty in their research.

LBST-D 591 Graduate Workshop on Teaching (3 cr.) P: LBST-D 510 and prior consent of director and instructor. This course is a requirement for the academic teaching track. This workshop will focus on best practices in teaching including syllabus construction, teaching

philosophy, assessment of student work, faculty and student conduct and an introduction to the scholarship of teaching and learning.

LBST-D 594 Liberal Studies Directed Readings

(1-3 cr.) P: LBST-D 510 and prior consent of instructor. Independent study involving systematic schedule of readings sponsored and supervised by a faculty member. May be repeated up to a maximum of 6 credit hours.

LBST-D 596 Liberal Studies Independent Research

(1-3 cr.) P: LBST-D 510 and prior consent of instructor. An independent research project formulated and conducted in consultation with a faculty member and culminating in a final analytical paper. May be repeated up to a maximum of 6 credit hours.

LBST-D 600 Public Intellectual Practicum (3 cr.)

P: Completion of all other program course work. A capstone seminar for the M.A.L.S. public intellectual option. Students will study the history of public intellectuals, explore the variety of ways in which public intellectuals carry out their work, and create a portfolio of their own public intellectual work.

LBST-D 603 Thesis Proposal (3 cr.) Independent initial research/exploration of thesis topic including a formal proposal containing a statement of purpose, a background or rationale, an extensive literature review, a methodology, and a working thesis title. This course is a prerequisite for students registering for D604.

LBST-D 604 Thesis (3 cr.) Independent thesis work conducted in consultation with Thesis Committee.

Bachelor of Arts in Humanities

The Bachelor of Arts in Humanities prepares students to pursue a special interest in one or more humanities disciplines, prepare themselves for graduate or professional study, or develop analytical and expressive skills valuable in many careers. Because the major includes few required courses, the student is free to select those advanced courses that reflect personal or professional interests. A student selects courses with the continuing assistance of a faculty advisor.

Mission Statement

The mission of the humanities program is to provide students with a bachelor's degree in the liberal arts. The program introduces students to a variety of disciplines that study artistic, cultural, and philosophical achievements. In these disciplines, students learn the professional vocabulary of analysis and interpretation and the methods of research and criticism. The program enables students to achieve goals relating both to career and to personal development.

Objectives Students in the program will:

- gain in-depth experience of at least one humanities subject;
- become familiar with a variety of methods and subject areas within the humanities;
- gain an appreciation of what is shared by humanities subjects, in particular the ways "texts," broadly construed, are studied in more than one humanities subject

- acquire latitude in devising a program that addresses their particular needs

Requirements

1. See "Degree Requirements" section under "School of Humanities and Social Sciences"
 2. 36 credit hours of Humanities Department course at the 200 level or above within the major
 3. No grade lower than a C- will count toward the degree.
 4. Students must complete the requirements of a minor in a humanities field (15-18 cr.).
 5. Students will choose 3-6 credit hours in humanities electives within the major (3-6 cr.).
 6. Students must complete the Capstone course which meets concurrently with ENG-L 495 (3 cr.).
 7. Students must take four (4) 300-400 level courses in addition to courses used to satisfy their chosen humanities minor. Each of these 4 courses must come from a different category of those listed below (12 cr.)
- Communication
 - English
 - Fine Arts, Theater and Music
 - Languages (note: a course taken from this area would need to be in addition to course the student uses to meet HSS or campus General Education Requirements)
 - New Media
 - Philosophy, Religion and Gender

Bachelor of Arts in New Media Communication

The Bachelor of Arts in New Media Communication is a four-year, undergraduate degree for students wishing to develop practical skills and strong knowledge in new media communication. Students will learn strong computer and design skills, preparing them for a variety of careers and graduate school. Students take a core set of courses in New Media Communication, choose one of four areas to concentrate in, and take electives to further tailor the degree to their interests and plans. The analytical and communication skills and knowledge they learn are valuable in many occupations, including graphic design, web design and development, and information design. The major consists of 36 credit hours of courses in New Media Communication, divided amongst a required core, courses within a chosen concentration, and electives. At IU Kokomo, the Bachelor of Arts Degree in New Media Communication features an innovative multidisciplinary approach, with coursework taught by faculty from a variety of fields. Coursework includes topics such as web site design, graphic design, professional writing, video production, and internships. Students are encouraged to tailor their coursework to focus on their interests and goals.

Mission Statement

The mission of the IU Kokomo New Media Communication degree program is to prepare students to be critical, creative, problem-solving, and effective designers and communicators, able to be successful citizens and professionals in emerging digital technological fields.

Goals

Students who complete the program will:

- understand how to produce multimedia works such as web pages
- understand how to create visual designs
- have both practical and theoretical knowledge of new media communication
- understand the work practices of new media communication professionals
- think critically about new media works and developments

Objectives

- To acquaint students with tools: Web site design and management, graphic design, and multimedia development
- To explore professional practice: exposure to professional development practices through internships and service learning experiences
- To provide students with the opportunity to explore theory/historical context; the study of new media theory; computer mediated communication, aesthetics, and visual literacy.

Requirements

1. See "Requirements for a Bachelor of Arts Degree" section under "School of Humanities and Social Sciences."
2. New Media Communication Core

Required: All students earning a Bachelor of Arts in New Media Communication must take:

- NMCM-N 201 Introduction to New Media Communication (3 cr.)
 - NNCM-N 215 Digital Studio (3 cr.)
 - NMCM-N 401 Senior Seminar (3 cr.)
 - NMCM-N 411 New Media Theory (3 cr.)
3. New Media Communication Concentration Areas (Choose one)

Web Design Concentration

Required: All students earning a Web Design concentration must take FINA-F 102 2D Design. Concentration electives: Students must also take their choice of 4 of the following courses:

- NMCM-N 213 Web Design and Development (3 cr.)
- NMCM-N 245 Intro to Web Site Design Principles and Practice (Extensible Markup Language) (3 cr.)
- NMCM-N 262 Introduction to Web Scripting (3 cr.)
- NMCM-N 345 Intermediate Web Site Design Principles and Practice (Content Management Systems and Information Architecture) (3 cr.)
- NMCM-N 362 Server-side Web Programming Using PHP (3 cr.)
- NMCM-N 445 Advanced Web Site Design Principles and Practice (Database-driven Web Application Development) (3 cr.)
- INFO-I 300 Human Computer Interaction (3 cr.)

Students take 9 additional credit hours of New Media Electives.

Graphic Design Concentration

Required: All students earning a Graphic Design concentration must take:

- FINA-F 102 2D Design (3 cr.)
- FINA-F 100 Basic Drawing (3 cr.)
- NMCM-N 211 Typography (3 cr.)

Concentration electives: Students must also take their choice of 4 of the following courses:

- NMCM-N 250 Graphic Design 1 (3 cr.)
- NMCM-N 255 History of Graphic Design (3 cr.)
- NMCM-N 312 Digital Illustration (3 cr.)
- NMCM-N 361 Graphic Design 2 (3 cr.)
- NMCM-N 371 Identity Design and Branding (3 cr.)
- NMCM-N 372 Graphic Design Production and Practice (3 cr.)
- NMCM-N 410 Publication & Editorial Design (3 cr.)

Students take 3 additional credit hours of New Media Electives.

Creative Digital Development Concentration

Required: All students earning a Creative Digital Development concentration must take:

- FINA-F 100 Basic Drawing (3 cr.)
- FINA-F 102 2D Design (3 cr.)

Concentration electives: Students must also take their choice of 4 of the following courses:

- NMCM-N 261 Action Script 3 Programming (3 cr.)
- NMCM-N 320 Video Production (3 cr.)
- NMCM-N 330 Studio in Digital Media I (3 cr.)
- NMCM-N 370 Animation for Integrated Media (3 cr.)
- NMCM-N 260 Video Production Practicum (3 cr.)
- NMCM-N 360 Advanced Video Production (3 cr.)
- NMCM-N 2XX Mobile Device Application Programming (3 cr.)
- NMCM-N 408 Advanced Photography and Cinematography

Students take 6 additional credit hours of New Media Electives.

Approved New Media Electives

Any course listed in the above concentrations, any course with the NMCM prefix (except NMCM N 202), as well as any of the following courses can be used in the New Media Communication degrees, certificate, and minor.

- ENG-W 311 Creative Nonfiction (3 cr.)
- ENG-W 321 Advanced Technical Writing (3 cr.)
- ENG-W 350 Advanced Expository Writing (3 cr.)
- ENG-W 365 Theories and Practices of Editing (3 cr.)
- INFO-I 202 Social Informatics (3 cr.)
- INFO-I 300 Human Computer Interaction (3 cr.)
- JOUR-J 200 Writing for Mass Media (3 cr.)
- SPCH-S 333 Public Relations Writing (3 cr.)
- SPCH-S 336 Communication Theory (3 cr.)
- SPCH-C 380 Organizational Communication (3 cr.)
- SPCH-C 393 Communication Research Methods (3 cr.)

Bachelor of Science in New Media Communication

The Bachelor of Science in New Media Communication is a four-year, undergraduate degree for students wishing to develop practical skills and strong knowledge in new

media communication. Compared to the Bachelor of Arts degree in New Media Communication, the Bachelor of Science degree features more courses within New Media Communication and more flexibility in choice of electives at the expense of fewer general education courses. Students will learn strong computer and design skills, preparing them for a variety of careers and graduate school. Students take a core set of courses in New Media Communication, choose one of four areas to concentrate in, and take electives to further tailor the degree to their interests and plans. The analytical and communication skills and knowledge they learn are valuable in many occupations, including graphic design, web design and development and information design.

The major consists of 45 credit hours of courses in New Media Communication, divided amongst a required core, courses within a chosen concentration, and electives. At IU Kokomo, the Bachelor of Arts Degree in New Media Communication features an innovative multidisciplinary approach, with coursework taught by faculty from a variety of fields. Coursework includes topics such as web site design, graphic design, professional writing, video production, and internships. Students are encouraged to tailor their coursework to focus on their interests and goals.

Mission Statement

The mission of the IU Kokomo New Media Communication degree program is to prepare students to be critical, creative, problem-solving, and effective designers and communicators, able to be successful citizens and professionals in emerging digital technological fields.

Goals

Students who complete the program will:

- understand how to produce multimedia works such as web pages
- understand how to create visual designs
- have both practical and theoretical knowledge of new media communication
- understand the work practices of new media communication professionals
- think critically about new media works and developments

Objectives

- To acquaint students with tools: Web site design and management, graphic design, and multimedia development
- To explore professional practice: exposure to professional development practices through internships and service learning experiences
- To provide students with the opportunity to explore theory/historical context; the study of new media theory; computer mediated communication, aesthetics, and visual literacy.

Requirements

1. See Degree Requirements" section under "School of Humanities and Social Sciences."
2. New Media Communication Core

Required: All students earning a Bachelor of Science in New Media Communication must take:

- NMCM-N 201 Introduction to New Media Communication (3 cr.)
 - NMCM-N 215 Digital Studio (3 cr.)
 - NMCM-N 401 Senior Seminar (3 cr.)
 - NMCM-N 411 New Media Theory (3 cr.)
3. New Media Communication Concentration Areas (choose one)

Web Design Concentration

Required: All students earning a Web Design concentration must take FINA-F 102 2D Design.

Concentration electives: Students must also take their choice of 6 of the following courses:

- NMCM-N 213 Web Design and Development (3 cr.)
- NMCM-N 245 Intro to Web Site Design Principles and Practice (Extensible Markup Language) (3 cr.)
- NMCM-N 262 Introduction to Web Scripting (3 cr.)
- NMCM-N 345 Intermediate Web Site Design Principles and Practice (Content Management Systems and Information Architecture) (3 cr.)
- NMCM-N 362 Server-side Web Programming Using PHP (3 cr.)
- NMCM-N 445 Advanced Web Site Design Principles and Practice (Database-driven Web Application Development) (3 cr.)
- INFO-I 300 Human Computer Interaction (3 cr.)

Students take 12 additional credit hours of New Media Electives.

Graphic Design Concentration

Required: All students earning a Graphic Design concentration must take:

- FINA-F 102 2D Design (3 cr.)
- FINA-F 100 Basic Drawing (3 cr.)
- NMCM-N 211 Typography (3 cr.)

Concentration electives: Students must also take their choice of 6 of the following courses:

- NMCM-N 250 Graphic Design 1 (3 cr.)
- NMCM-N 255 History of Graphic Design (3 cr.)
- NMCM-N 312 Digital Illustration (3 cr.)
- NMCM-N 361 Graphic Design 2 (3 cr.)
- NMCM-N 371 Identity Design and Branding (3 cr.)
- NMCM-N 372 Graphic Design Production and Practice (3 cr.)
- NMCM-N 410 Publication & Editorial Design (3 cr.)

Students take 6 additional credit hours of New Media Electives.

Creative Digital Development Concentration

Required: All students earning a Creative Digital Development concentration must take:

- FINA-F 100 Basic Drawing (3 cr.)
- FINA-F 102 2D Design (3 cr.)

Concentration electives: Students must also take their choice of 6 of the following courses:

- NMCM-N 261 Action Script 3 Programming (3 cr.)
- NMCM-N 320 Video Production (3 cr.)
- NMCM-N 330 Studio in Digital Media I (3 cr.)
- NMCM-N 370 Animation for Integrated Media (3 cr.)
- NMCM-N 260 Video Production Practicum (3 cr.)

- NMCM-N 360 Advanced Video Production (3 cr.)
- NMCM-N 2XX Mobile Device Application Programming (3 cr.)
- NMCM-N 408 Advanced Photography and Cinematography (3 cr.)

Students take 9 additional credit hours of New Media Electives.

Approved New Media Electives

Any course listed in the above concentrations, any course with the NMCM prefix (except NMCM-N 202), as well as any of the following courses can be used in the New Media Communication degrees, certificate, and minor.

- ENG-W 311 Creative Nonfiction (3 cr.)
- ENG-W 321 Advanced Technical Writing (3 cr.)
- ENG-W 350 Advanced Expository Writing (3 cr.)
- ENG-W 365 Theories and Practices of Editing (3 cr.)
- INFO-I 202 Social Informatics (3 cr.)
- INFO-I 300 Human Computer Interaction (3 cr.)
- JOUR-J 200 Writing for Mass Media (3 cr.)
- SPCH-S 333 Public Relations Writing (3 cr.)
- SPCH-S 336 Communication Theory (3 cr.)
- SPCH-C 380 Organizational Communication (3 cr.)
- SPCH-C 393 Communication Research Methods (3 cr.)

Post-Baccalaureate Certificate in New Media Communication

The Post-Baccalaureate Certificate in New Media Communication is for people who already possess a 4-year college degree and wish to develop expertise in New Media Communication without having to earn a whole new 4-year degree. Students can be generalists, or they can specialize in an area such as graphic design, web design, or digital development. The certificate consists of only 18 credit hours - just 6 courses. Up to 3 credit hours can be transferred in from other universities.

Requirements

1. Admission requirements
Students must possess a baccalaureate degree from an accredited institution and be admitted to Indiana University as a regular student.
2. 18 specified hours
Courses can be any courses listed in the New Media Communication Bachelor of Arts degree, as long as you meet the following requirements:
 - At least 6 credit hours must be at the 300-level or higher
 - No more than 3 credit hours can be taken in courses without the NMCM designation, such as English or Speech courses

Minors in the Humanities

Students may complete minors in the areas listed below. The interdisciplinary minors in international studies, leadership, pre-law, and women's studies are described in the School of Humanities and Social Sciences section of the Bulletin.

Communication Arts

The minor consists of 15 credit hours, 9 of which must be at the 300 level or above.

Required courses:

1. SPCH-S 205 Introduction to Speech Communication (3 cr.)
2. SPCH-S 336 Current Topics in Communication: Communication Theory (3 cr.)

And any 9 credits of coursework from the following courses:

- SPCH-C 321 Persuasion (3 cr.)
 - SPCH-C 325 Interviewing Principles and Practices (3 cr.)
 - SPCH-C 391 Seminar (e.g., Group Dynamics, Family Communication) (3 cr.)
 - SPCH-S 122 Interpersonal Communication (3 cr.)
 - SPCH-S 229 Discussion and Group Methods (3 cr.)
 - JOUR-C 200 Introduction to Mass Communications (3 cr.)
 - SPCH-S 333 Public Relations (3 cr.)
 - SPCH-C 380 Organizational Communication. (3 cr.)
 - SPCH-S 233 Introduction to Public Relations (3 cr.)
 - SPCH-S 440 Organizational Communication and Training (3 cr.)
 - TEL-R 309 Television Production (3 cr.)
 - SPCH-S 223 Business and Professional Communication (3 cr.)
 - SPCH-C 437 Creative Dramatics (3 cr.)
 - SPCH-S 201 Communicating in Public (3 cr.)
 - SPCH-C 205 Introduction to Oral Interpretation (3 cr.)
 - SPCH-S 427 Cross Cultural Communication (3 cr.)
3. Students may petition to include a communication class not listed above. They should contact their advisor.

Creative Arts (visual arts, music, or theatre) Minor

The minor consists of 16-19 semester hours. Students select a minimum of one concentration area from music, theatre, or visual arts.

Required Core course for all Creative Arts Minors:

- HUMA-U 103 Introduction to Creative Arts (3 cr.)

Area 1: Music Concentration

Core (7 cr.)

- MUS-U 320 Seminar: Capstone (1 cr.)
- MUS-Z 111 Introduction to Music Theory (3 cr.)
- MUS-M 174 Music for the Listener (3 cr.)

Performance (3 cr.) A minimum of one course from:

- MUS-X 040 Crescendos Show Choir (2 cr.)
- MUS-X 070 Instrumental Ensemble: Band (2 cr.)
- MUS-X 040 Jazz Band (2 cr.)

Select additional 9 hours from:

- HUMA-U 102 Introduction to Humanities: the Live Performance (3 cr.)
- MUS-U 320 Women in Music History (3 cr.)
- MUS-Z 201 History of Rock and Roll (3 cr.)
- MUS-Z 301 Rock and Roll Music in the 70s and 80's (3 cr.)
- MUS-Z 315 Music for Films (3 cr.)
- MUS-Z 373 The American Musical (3 cr.)

- MUS-Z 393 History of Jazz (3 cr.)
- MUS-Z 103 Musicians in the Movies (3 cr.)
- MUS-U 320 History of Country Music (3 cr.)

Area II Theater Concentration Core (4 cr.)

- THTR-T 120 Acting 1 (3 cr.)
- Capstone Project in Theater (1 cr.)

Performance (6 cr.) Choose at least 2 performance courses:

- THTR-T 115 Oral Interpretation (3 cr.)
- THTR-T 220 Acting II (3 cr.)
- THTR-T 226 Shakespeare in Production (3 cr.)
- SPCH-C 437 Creative Dramatics (3 cr.)
- THTR-T 149/T349 Theatre Practicum (3 cr.)

Choose at least 3 credit hours from:

- HUMA-U 102 Introduction to Humanities: The Live Performance (3 cr.)
- ENG-L 203 Introduction to Drama (3 cr.)
- ENG-L 220 Introduction to Shakespeare (3 cr.)

Area III: Visual Arts Concentration

- FINA-F 100 Fundamental Studio Drawing (3 cr.)
- FINA-F 101 Fundamental Studio 3-D (3 cr.) or FINA-F 102 Fundamental Studio 2-D (3 cr.)
- Choose 9 credit hours from courses in the studio arts including drawing, painting, printmaking, sculpture, ceramics, metalsmithing, graphic design, photography, and digital media. One course in art history can be substituted for one studio course in the minor.
- FINA-S 400 Independent Studio Projects (1 cr.)

Art History Minor

The minor in Art History is ideal for students wishing to develop a strong foundation of knowledge in art history. A minor in Art History is helpful for students wishing to go into education, art administration or graduate programs in fine arts. To earn an art history minor, a student must take the following courses, for a total of 18 credit hours:

Required-6 credit hours

- FINA-A 101 Ancient and Medieval Art
- FINA-A 102 Renaissance Through Modern Art

Choose 12 credit hours in other art history courses:

- No more than 6 credit hours at the 100 level
- At least 9 credit hours at the 300 level or above
- One course in the Philosophy of Art may be used

English Literature Minor

The minor consists of 15 credit hours in literature, including

1. ENG-L 202 Literary Interpretation (3 cr.)
2. One of the following: ENG-E 301, ENG-E 302, ENG-E 303, ENG-E 304 (3 cr.)
3. Three 3-credit-hour, 200- to 400-level ENG-L or ENG-E courses
4. At least one elective course must be taken at the 300 level.

At least 9 credit hours of the above courses must be taken at IU Kokomo.

English Writing Minor

Prerequisites: ENG-W 131 and ENG-W 132

Students may earn a minor in writing by completing 15 credits. Choose 9-15 credits from the following courses:

- ENG-W 203 Creative Writing (3 cr.)
- ENG-W 231 Professional Writing Skills (3 cr.)
- ENG-W 301 Fiction Writing (3 cr.)
- ENG-W 311 Creative Nonfiction (3 cr.)
- ENG-W 321 Advanced Technical Writing (may not receive credit for both ENG-W 231 and ENG-W 321) (3 cr.)
- ENG-W 331 Business and Administrative Writing (3 cr.)
- ENG-W 350 Advanced Expository Writing (3 cr.)
- ENG-W 365 Theories and Practices of Editing (3 cr.)
- ENG-W 368 Research Methods and Materials (3 cr.)
- ENG-W 395 Individual Study of Writing (1-3 cr.)
- ENG-W 398 Internship in Writing (0-3 cr.)
- ENG-W 400 Issues in Teaching Writing (3 cr.)
- ENG-W 411 Directed Writing (1-3 cr.)
- ENG-W 462 Rhetoric and Composition (3 cr.)

Students may also take the following courses as part of their minor. However, no more than 6 credits may be taken in courses outside of English.

- JOUR-J 200 Reporting, Writing, and Editing (3 cr.)
- PHIL-P 150 Elementary Logic (3 cr.)
- SPCH-S 228 Argumentation and Debate (3 cr.)
- SPCH-C 325 Interviewing Principles and Practices (3 cr.)
- SPCH-C 391 Seminar: Public Relations Writing (3 cr.)

Film Studies Minor The film studies minor provides a strong foundation for students interested in film analysis, the history of film, theoretical and critical approaches to film, mass communication, and film production. Students choose from a variety of courses offered in the disciplines of Comparative Literature, English, Journalism, Music, and New Media Communication.

Students may earn the minor in Film Studies by completing the following (for a total of 18 credits):

Required: CMLT-C190 Introduction to Film (3 cr.)

Choose 15 credits from the following courses:

- CMLT-C 390 Film and Society (3 cr.)
- CMLT-C 392 Genre Study in Film (3 cr.). May be repeated once for credit with a different topic.
- CMLT-C 491 Authorship in the Cinema (3 cr.)
- ENG-L 295 American Film Culture (3 cr.)
- ENG-L 395 British and American Film Studies (3 cr.)
- JOUR-C 200 Introduction to Mass Communication (3 cr.)
- MUS-Z 103 Special Topics in Music for Nonmajors: Musicians and the Movies (3 cr.)
- NMCM-N 260 Video Production Practicum (3 cr.)
- NMCM-N 360 Advanced Video Production Practicum (3 cr.)

Notes:

- At least 9 credit hours of the total 18 credit hours for the minor MUST be taken at the 300-level or above

- At least 9 credit hours of the total 18 credit hours for the minor MUST be taken at IU Kokomo
- Other film courses may be considered as fulfilling requirements in this minor program. Please consult an advisor or a faculty member in the program.

Irish Studies Minor The Irish Studies Minor introduces students to key themes in Irish historical and cultural development. It offers students a deeper understanding of the Irish post-colonial and immigrant experience, particularly the diasporic experience of the Irish in America and throughout the British Commonwealth. The minor also provides students with the opportunity to study issues in contemporary Ireland. The Irish Studies Minor is interdisciplinary in scope, offering courses in several disciplines.

The Irish Studies Minor requires 15 semester hours of courses with a significant Irish focus. Courses may come from different disciplines, but will only be accepted towards the minor when they deal with Irish topics. At least 9 of the required 15 hours must be completed at IU Kokomo. Students choose 15 credit hours from the following courses:

- ENG-L 335 Victorian Literature (3 cr.)
- ENG-L 346 Twentieth-Century British Fiction (3 cr.)
- ENG-L 366 Modern Drama: Irish Drama (3 cr.)
- ENG-L 369 Studies in British and American Authors (3 cr.)
- ENG-L 379 American Ethnic and Minority Literature (3 cr.)
- ENG-L381 Recent Writing: Ireland (3 cr.)
- ENG-L383 Studies in British or Commonwealth Culture (3 cr.)
- ENG-L388 Studies in Irish Literature and Culture (3 cr.)
- ENG-L431 Topics in Literary Studies (3cr.)
- ENG-L450 Seminar: Irish Authors (3 cr.)
- ENG-L480 Seminar: Literature and History (3 cr.)
- HIST-H425 Topics in History: Irish History (3 cr.)
- CMLT-C392 Genre Study in Film: Ireland in Film and Literature (3cr.)

New Media Communication Minor

The minor is an excellent choice for students wishing to develop a strong understanding of new media technologies so they can apply them to their chosen field. The minor consists of 15 credit hours.

Required course:

- NMCM-N 201 Introduction to New Media Communication (3 cr.)

Students must take 12 more credit hours from the courses listed as included in the New Media Communication Bachelor of Arts degree, at least 1 of which must be from that degree's list of designated core courses.

Philosophy Minor

1. The minor consists of 15 credit hours in philosophy.
2. No more than 6 credit hours may be at the 100 level.
3. The student must complete at least one course in each of the following 3 categories. Note that with specific approval of the philosophy coordinator a

student may count a section of PHIL-P 383 Topics in Philosophy toward one of the three categories. The category that a PHIL-P 383 course would count towards depends on the topic of that course.

Value Theory (including):

- PHIL-P 140 Introduction to Ethics (3 cr.)
- PHIL-P 242 Applied Ethics (3 cr.)
- PHIL-P 311 Environmental Ethics (3 cr.)
- PHIL-P 342 Problems in Ethics (3 cr.)
- PHIL-P 345 Problems in Social and Political Philosophy (3 cr.)
- PHIL-P 348 Philosophy and Literature (3 cr.)

Reasoning (including):

- PHIL-P 105 Critical Thinking (3 cr.)
- PHIL-P 150 Elementary Logic (3 cr.)
- PHIL-P 375 Philosophy of Law (3 cr.)

Foundations of Inquiry (including):

- PHIL-P 100 Introduction to Philosophy (3 cr.)
- PHIL-P 335 Phenomenology and Existentialism (3 cr.)
- PHIL-P 346 Philosophy and Art (3 cr.)
- PHIL-P 360 Philosophy of Mind (3 cr.)
- PHIL-P 371 Philosophy of Religion (3 cr.)

Pre-Law Minor

The Pre-Law minor offers students interested in either exploring the idea of law school or committed to it but preferring to major in a traditional degree program such as History/Political Science, English or Sociology. The program strives to provide students with a basic understanding of our society's historical and political development, solid reading, writing, communication, and critical thinking skills, and some experience with the law directly. The Pre-Law minor is coordinated by the department of History/Political Science. Both the department of History/Political Science and the English department also offer concentrations in Pre-Law within their Bachelor's degree programs. Minors must complete 18 credit hours with a grade of C- or higher from the following:

- Political Science Foundation: POLS-Y 215 Introduction to Political Theory (3 cr.)
- History Foundation: any 300+-level History course (3 cr.)
- Literature Foundation: Any ENG-E- or ENG-L 300+ literature course (except ENG-L 390 and ENG-L 391) (3 cr.)
- Humanities Foundation (3 cr.):

Choose one of the following courses:

Ethics and Philosophy

- PHIL-P 342 Problems in Ethics
- PHIL-P 345 Problems in Social and Political Philosophy
- PHIL-P 375 Philosophy of Law

Debate and Argumentation

- SPCH-S 228 Argumentation and Debate
- SPCH-C 310 Rhetoric and Public Address
- SPCH-C 321 Persuasion
- SPCH-C 325 Interviewing
- SPCH-C 444 Political Communication

Law Electives (6 cr., with at least 3 cr. at the 300-level or above) from Public Administration and Health Management (PAHM), Criminal Justice and Homeland Security (CJHS), Psychology, Labor Studies, Sociology, Political Science, or Business)

Public Administration and Health Management

- PAHM-V 376 Law and Public Policy (requires PAHM-V 170 as a prerequisite)

Criminal Justice and Homeland Security – all require CJHS-J 101 as a prerequisite

- CJHS-J 320 Substantive Criminal Law
- CJHS-J 321 Court Procedure and Evidence
- CJHS-J 305 The Juvenile Justice System
- CJHS-J 220 American Criminal Courts
- CJHS-J 210 Introduction to Law Enforcement
- CJHS-J 324 Correctional Law
- CJHS-J 409 Crime and Public Policy

Sociology

- SOC-S 325 Criminology
- SOC-S 328 Juvenile Delinquency
- SOC-S 360 Topics in Social Policy
- SOC-S 420 Topics in Deviance

Note - All Sociology courses require SOC-S 100 or SOC-S 101 as a prerequisite and SOC-S 316 is required as a prerequisite for SOC-S 360 Family Violence

Psychology:

- PSY-P 322 Psychology in the Courtroom

Business:

- BUS-L 200 Elements of Business Law OR
- BUS-L 201 Legal Environment of Business

Political Science:

- POLS-Y 304 Constitutional Law
- POLS-Y 371 Workshop in International Topics (if it pertains to the law directly)

Note 1: Many of these courses have prerequisites in their fields.

Note 2: A course not listed, but related to one of the categories can be accepted to count for that category with the permission of the Pre-Law advisor.

Note 3: At least 12 of the 18 credits must be taken at the 300-level or above.

Note 4: Please see the website for the American Bar Association (<http://www.americanbar.org>) for suggestions on preparing for law school.

Spanish

This minor allows students to place special emphasis on the study of Spanish as a foreign language and culture, with a secondary emphasis on literature. The minor requires a total of 12 credit hours beyond the second year. A student is required to take three specified courses and an additional course in Spanish at the 300 or 400 level. Prerequisite: SPAN-S 204 Second-Year Spanish II (3 cr.) Required: 12 credit hours

- SPAN-S 311 Spanish Grammar (3 cr.)
- SPAN-S 312 Spanish Composition (3 cr.)
- SPAN-S 275 Hispanic Culture (3 cr.) OR SPAN-S 325 Oral Spanish for Teachers (3 cr.)

- one 3-credit-hour elective course in Spanish at the 300 or 400 level. Currently offered courses that meet this requirement include SPAN-S 317 Spanish Conversation and Diction (3 cr.), SPAN-S 360 Introduction to Hispanic Literature (3 cr.), and SPAN-S 325 Oral Spanish for Teachers (3 cr.). SPAN S 325 may not be used to satisfy more than one category. Other courses may be added to this list; consult a faculty member in Spanish or and academic advisor for more information.

Humanities Courses Undergraduate

Afro-American Studies (AFRO)

AFRO-A 150 Survey of the Culture of Black Americans (3 cr.) The culture of blacks in America viewed from a broad interdisciplinary approach, employing resources from history, literature, folklore, religion, sociology, and political science.

AFRO-A 210 The Black Woman in America (3 cr.) A historical overview of the black woman's role in American society, including family, social, and political relationships.

AFRO-A 303 Topics in Afro-American Studies (1-3 cr.) Study of selected topics or issues in Afro-American studies, occasionally, but not always, coordinated with symposia and/or conferences sponsored by the Afro-American Studies Program.

Classical Studies

CLAS-C 209 Medical Terms from Greek and Latin (2 cr.) This course introduces students to the process by which technical medical terms are formed.

Comparative Literature

CMLT-C 190 Introduction to Film (3 cr.) History of film and growth of cinematic techniques from Melies and the Lumiere brothers to the present. Topics such as adaptation, the visual image, genres, and the film as social document, and how they relate to the history and development of film art. Students will become familiar with the basic terminology and technical aspects of film study.

CMLT-C 390 Film and Society (3 cr.) P: CMLT-C 190 or consent of instructor. Film and politics; censorship; social influences of the cinema; and rise of the film industry.

CMLT-C 392 Genre Study in Film (3 cr.) P: CMLT-C 190 or consent of instructor. Problems of definition; the evolution of film genres such as criminal or social drama, comedy, the western, science fiction, horror, or documentary film; themes, subject matter, conventions, and iconography peculiar to given genres; relationship of film genres to literary genres. Focus is on one specific genre each time the course is offered. May be repeated once with different topic.

East Asian Languages and Cultures

EALC-E 100 East Asia: An Introduction (3 cr.) Basic introduction to China, Japan, and Korea. Intended to help students understand the unique character of each of these three cultures within the general framework of East Asian civilization, comprehend the historical importance of the three countries, and appreciate the crucial role they play in the world today.

English

ENG-W 303 Writing Poetry (3 cr.) P: Submission of acceptable manuscript to instructor in advance of registration. R: W103 or W203.

ENG-L 395 British and American Film Stds (3 cr.)

Intensive study of specific topics related to film narratives; emphasis on American or British film as a cultural phenomenon. Topic varies.

ENG-A 303 Topics in Afro-American Studies (3 cr.)

Study of selected topics or issues in Afro-American studies.

ENG-E 205 Introduction to the English Language (3 cr.)

Acquaints the student with contemporary studies of the nature of language in general and of the English language in particular.

ENG-E 301 Literatures in English 1600-1800 (3 cr.)

Representative study of British and American literature of the sixteenth through the eighteenth centuries in the context of transatlantic cultural developments.

ENG-E 303 Literatures in English 1800-1900 (3 cr.)

Representative study of nineteenth-century British and American literature in the context of transatlantic cultural developments.

ENG-E 304 Literatures in English 1900-Present (3 cr.)

Representative study of twentieth-century literatures in English. In addition to Britain and North America, cultural locations may include the Indian subcontinent, Australasia, Anglophone Africa, the Caribbean, etc. Focus on themes associated with modernity and cross-cultural contacts.

ENG-G 301 History of the English Language (3 cr.)

Historical and structural analysis of English language in the stages of its development. Political and social events affecting development of language; interrelationship of language and literature; evolution of modern phonology and syntax.

ENG-L 101 Western World Masterpieces I (3 cr.)

Literary masterpieces from Homer to Chaucer. Aims to teach thoughtful, intensive reading and to introduce students to the aesthetic values of the classical literary heritage of Western literature.

ENG-L 102 Western World Masterpieces II (3 cr.)

Literary masterpieces from Shakespeare to the present. Introduces the student to the literature of the modern world and its aesthetic and philosophical values. May be taken before ENG-L 101.

ENG-L 202 Literary Interpretation (3 cr.) Close analysis of representative texts (poetry, drama, fiction) designed to develop the art of lively, responsible reading through class discussion and writing of papers. Attention to literary design and critical method.

ENG-L 203 Introduction to Drama (3 cr.) Representative significant plays to acquaint students with characteristics of drama as a type of literature. Readings will include plays from several ages and countries.

ENG-L 204 Introduction to Fiction (3 cr.) Representative works of fiction; structural techniques in the novel. Novels and stories from several ages and countries.

ENG-L 205 Introduction to Poetry (3 cr.) Kinds, conventions, and elements of poetry in a selection of poems from several historical periods.

ENG-L 207 Women and Literature (3 cr.) Issues and approaches to the critical study of women writers and their treatment in British and American literature.

ENG-L 209 Topics in American Literature and Culture (3 cr.) Selected works of American literature in relation to a single cultural problem or theme. Topics will vary from semester to semester.

ENG-L 220 Introduction to Shakespeare (3 cr.) Rapid reading of at least a dozen of Shakespeare's major plays and poems. May not be taken concurrently with ENG-L 313 or ENG-L 314.

ENG-L 225 Introduction to World Masterpieces (3 cr.) Representative masterpieces in all genres from world literature of any period.

ENG-L 230 Science Fiction (3 cr.) Study of the kinds, conventions, and theories of science fiction. Course may include both literature (predominantly British and American) and film.

ENG-L 295 American Film Culture (3 cr.) Film in relation to American culture and society. Topic varies. Works of literature may be used for comparison, but the main emphasis will be on film as a narrative medium and as an important element in American culture.

ENG-L 308 Elizabethan and 17th Century Drama (3 cr.) English drama from Shakespeare's time to the closing of the theaters in 1642 and beyond.

ENG-L 315 Major Plays of Shakespeare (3 cr.) A close reading of a representative selection of Shakespeare's major plays.

ENG-L 320 Restoration and Early Eighteenth-Century Literature (3 cr.) Major poetry and prose with emphasis on Dryden, Swift, and Pope.

ENG-L 327 Later Eighteenth-Century Literature (3 cr.) Major poetry and prose 1730-1800 with emphasis on Johnson and Boswell.

ENG-L 331 Studies in 19th Century British Literature (3 cr.) British authors; groups of authors; genres and modes. Topic varies.

ENG-L 332 Romantic Literature (3 cr.) Major Romantic writers, with emphasis on two or more of the following: Blake, Wordsworth Coleridge, Byron, Shelley, and Keats.

ENG-L 335 Victorian Literature (3 cr.) Major poetry and prose, studied against social and intellectual background of the period.

ENG-L 346 Twentieth-Century British Fiction (3 cr.) Modern fiction and its techniques and experiments. Particular emphasis is on Joyce, Lawrence, and Woolf; some later novelists may be included.

ENG-L 347 British Fiction to 1800 (3 cr.) Forms, techniques, and theories of fiction as exemplified by such writers as Defoe, Richardson, Fielding, Smollett, and Sterne.

ENG-L 348 Nineteenth-Century British Fiction (3 cr.) Forms, techniques, and theories of fiction as exemplified by such writers as Scott, Dickens, Eliot, and Hardy.

ENG-L 350 Early American Writing and Culture to 1800 (3 cr.) Broad survey of American writers in Colonial, Revolutionary, and Republican periods.

ENG-L 351 Critical and Historical Study of American Literature I (3 cr.) American writers to 1865. Emerson, Hawthorne, Melville, Whitman, and two or three additional major writers.

ENG-L 352 Critical and Historical Study of American Literature II (3 cr.) American writers 1865-1914: Twain, Dickinson, James, and two or three additional major writers.

ENG-L 354 American Literature Since 1914 (3 cr.) American writers since 1914: Faulkner, Hemingway, Eliot, Frost, and two or three additional major writers.

ENG-L 355 American Fiction to 1900 (3 cr.) Survey of representative nineteenth century American novels, with emphasis on works of Cooper, Hawthorne, Melville, Twain, James, and Dreiser.

ENG-L 357 Twentieth-Century American Poetry (3 cr.) American poetry since 1900, including such poets as Pound, Eliot, Frost, Stevens, Williams, and Lowell.

ENG-L 358 Twentieth-Century American Fiction (3 cr.) American fiction since 1900, including such writers as Dreiser, Lewis, Fitzgerald, Hemingway, Faulkner, and Bellow.

ENG-L 366 Modern Drama: English, Irish, American, and Post-Colonial (3 cr.) Shaw, Synge, O'Neill, and other significant dramatists, such as Harold Pinter, Edward Albee, August Wilson, Athol Fugard, and Wole Soyinka.

ENG-L 369 Studies in British and American Authors (3 cr.) Studies in single authors (such as Wordsworth and Melville), groups of authors (such as minority writers), and periods (such as American writers of the 1920s). Topics will vary from semester to semester. May be repeated once for credit.

ENG-L 370 Recent Black American Writing (3 cr.) A study of selected black American writers of the late nineteenth and twentieth centuries, with emphasis on very recent writing. The focus of this course will be on the literary qualities unique to those writers as individuals and as a group. Credit not given for both ENG-L 370 and AFRO-A 370.

ENG-L 371 Critical Practices (3 cr.) P: ENG-L 202. Study of and practice in critical methodologies; can be focused on specific topics; may be repeated once for credit by departmental permission.

ENG-L 378 Studies in Women and Literature (3 cr.) British and American authors such as George Eliot, Gertrude Stein; groups of authors such as the Brontë sisters, recent women poets; or genres and modes such as autobiography, film, and criticism. Topics will vary from semester to semester.

ENG-L 379 American Ethnic and Minority Literature (3 cr.) A survey of representative authors and of works of American ethnic and minority literature, with a primary

focus on African-American, Hispanic, and American-Indian literature.

ENG-L 381 Recent Writing (3 cr.) Selected writers of contemporary significance. May include groups and movements such as black writers, poets of projective verse, new regionalist, para-journalists and other experimenters in pop literature, folk writers, and distinctly ethnic writers; several recent novelists, poets, or critics; or any combination of groups. May be repeated once for credit.

ENG-L 383 Studies in British or Commonwealth Culture (3 cr.) Study of a coherent period of British or Commonwealth culture (such as medieval, Elizabethan, or Victorian England, or modern Canada), with attention to the relations between literature, the other arts, and the intellectual milieu.

ENG-L 388 Studies in Irish Literature and Culture (3 cr.) An intensive classroom and on-site study of Irish culture and the literature it has produced.

ENG-L 390 Children's Literature (3 cr.) Historical and modern children's books and selections from books. Designed to assist future teachers, parents, or others in selecting the best in children's literature for each period of the child's life.

ENG-L 391 Literature for Young Adults (3 cr.) Study of books suitable for junior high and high school youths. Special stress on works of fiction dealing with contemporary problems; but also including modern classics, biography, science fiction, and other areas of interest to young adults.

ENG-L 406 Topics in African-American Literature (3 cr.) Focuses on a particular genre, time, and period. Topics may include 20th-century African-American women's novels, black male identity in African-American literature, or African-American autobiography. May be repeated once for credit with different focus.

ENG-L 431 Topics in Literary Study (3 cr.) Studies in individual authors, groups of authors, movements, themes, modes, or genres. Topic varies.

ENG-L 433 Conversations with Shakespeare (3 cr.) An interdisciplinary and intertextual study of Shakespeare's work and its influence to the present day. Students will compare Shakespeare texts with latter day novels, plays, poems, and films that allude to or incorporate some aspect of Shakespeare's art.

ENG-L 450 Seminar: British and American Authors (3 cr.) Intensive study of a major author or a school, or closely-related authors.

ENG-L 460 Seminar: Literary Form, Mode, and Theme (3 cr.) Study of texts written in several historical periods united by a common mode or form (narrative, romanticism, lyric, etc.), or by a common theme (Bildungsroman, the city and the country, the two cultures question, the uses of literacy, etc.).

ENG-L 495 Individual Reading in English (1-3 cr.) P: Consent of instructor and department chair. May be repeated once for credit.

ENG-L 553 Studies in Literature (3 cr.) Variable topics at the graduate level related to the study of literature.

ENG-W 105 Composition Lab (0-1 cr.) A composition lab in which students will practice writing skills taught in ENG-W 131.

ENG-W 131 Elementary Composition I (3 cr.) Offers instruction and practice in the reading, writing, and critical thinking skills required in college. Emphasis is on written assignments that require summary, synthesis, analysis, and argument.

ENG-W 132 Elementary Composition II (3 cr.) P: ENG-W 131. Continuation of ENG-W 131, with emphasis on writing from secondary sources: research, evaluation of evidence, and documentation. Introduces both MLA and APA documentation styles.

ENG-W 202 English Grammar Review (1 cr.) Provides basic understanding of grammatical terms and principles sufficient to enable students to edit their own prose with confidence. No prior knowledge of grammar is assumed or required.

ENG-W 203 Creative Writing (3 cr.) P: Sophomore standing and consent of the instructor in advance of registration. Exploratory course in imaginative writing: fiction, poetry, and drama.

ENG-W 231 Professional Writing Skills (3 cr.) P: ENG-W 131. This course helps students in any field develop writing skills appropriate for situations and tasks encountered in workplace and organizational settings. Course assignments and activities emphasize the role of professional writing and the importance of developing professional writing skills, emphasizing documents done in the world of work, such as letters, memos, reports, proposals, etc. Credit will not be given for both ENG-W 231 and ENG-W 321.

ENG-W 301 Writing Fiction (3 cr.) P: Consent of instructor. Writing workshop. May be repeated once for credit.

ENG-W 311 Creative Nonfiction (3 cr.) P: completion of 100-level writing requirements. Study and practice of the essay utilizing creative writing techniques. Genres such as memoir, personal essay, nature essay, segmented essay, critical essay, and literary journalism will be studied.

ENG-W 321 Advanced Technical Writing (3 cr.) P: ENG-W 131. Instruction in preparing engineering and other technical proposals and reports, with an introduction to the use of graphics. Credit will not be given for both ENG-W 231 and ENG-W 321.

ENG-W 331 Business and Administrative Writing (3 cr.) P: ENG-W 131 or ENG-W 231 or consent of instructor. Emphasizes principles of business writing, such as audience analysis and adaptation, design and readability of written documents, stylistic analysis and control, persuasion, communicating negative news, and the ethics of communication. The course focuses on writing documents, such as challenging business letters and memos, proposals, and performance appraisals.

ENG-W 350 Advanced Expository Writing (3 cr.) P: Completion of English composition requirement. Close examination of assumptions, choices, and techniques

that go into a student's own writing and into the writing of others.

ENG-W 365 Theories and Practices of Editing (3 cr.)

P: ENG-W 131. Students examine the workplace roles of editors while developing their own editing skills. Topics include editorial practices, style, grammar, ethics, and resources for editing.

ENG-W 368 Research Materials and Methods (3 cr.)

P: ENG-W 131. Introduction to information sources and research methods in English studies, textual studies, and digital humanities. Explores databases, concordances, bibliographies, archives, electronic text editing, text encoding and analysis, and other online and library sources. Emphasis on locating, analyzing, and evaluating relevant and credible sources as the basis for effective research.

ENG-W 395 Individual Study of Writing (1-3 cr.) P:

Consent of instructor. Exercise in the study of written expression and communication in informative, persuasive, or imaginative writing. May be repeated once for credit.

ENG-W 398 Internship in Writing (0-3 cr.) P: Consent

of instructor. Internship in the Writing Center, designated IU Kokomo offices, or other arranged settings. Focus on writing, the teaching of writing, and writing-related tasks. Apply during semester prior to desired internship.

ENG-W 400 Issues in Teaching Writing (3 cr.) Focuses

on the content of rhetoric and composition and considers fundamental theoretical and practical issues in the teaching of writing. Reviews rhetorical and compositional principles that influence writing instruction, textbook selection, and curriculum development.

ENG-W 411 Directed Writing (1-3 cr.) Individualized

project assigned by instructor consenting to direct it. Individual critical projects worked out with director. Credit varies with scope of project.

ENG-L 498 Internship in English (0-3 cr.) P. Major

standing, minimum GPA of 3.0, 12 credit hours in English at 200 level or above (including ENG-L 202), prior arrangement with faculty member or editor. Supervised experience in various English department positions, in editing, or in approved work setting. May be repeated once for a maximum of 6 credit hours; only 3 credit hours may count toward the major.

ENG-W 512 Topics in English Studies (1-3 cr.)

Examines areas within the discipline of English Studies: rhetoric, composition, linguistics, literacy, technology, and literature. Topics vary.

Fine Arts

FINA-S 215 Digital Media Studio (3 cr.)

Introductory work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.

FINA-A 262 Introduction to Japanese Art and Culture (3 cr.)

A historical survey of Japanese art in the context of culture, society, and politics; the arts of traditional Buddhism; ink painting and other arts associated with the Zen sect; the created landscape, in painting and garden design; historical narratives and scenes of ordinary life;

and decorative and useful things, e.g., ceramics, lacquer, textiles, and "golden screens."

FINA-A 280 Art of the Comics (3 cr.)

Analysis of the visual and narrative language of comics from the earliest newspaper strips to the graphic novels of today.

FINA-S 330 Studio in Digital Media II (3 cr.)

Intermediate work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.

FINA-Y 398 Professional Practice in Fine Arts (1 cr.)

This course addresses professional issues related to the art field such as portfolio preparation, approaching galleries, dealing with and establishing alternative studio spaces, internships, residencies, job application and granting opportunities. Preparation for graduate school, exhibition, careers in the art field and installation strategies will be central to the class.

FINA-S 408 Advanced Photography/Cinematography (3 cr.)

This is an advanced course in the use of photography and cinematography. The recent developments in digital cameras and the inclusion of video capabilities are compelling. The ability to use still and moving images are at the core of the cultural communications milieu and require our attention. This course will explore the creative use of the digital image in still and moving formats. Emphasis will be on the possibilities provided by this advanced technology and the growing sets of delivery options available. Students will learn to think and adopt creative approaches to photography and cinematography/videography through a set of challenging class projects, exercises, demonstrations, and presentations.

FINA-A 101 Ancient and Medieval Art (3 cr.) A survey of

major styles and monuments in art and architecture from prehistoric times to the end of the Middle Ages.

FINA-A 102 Renaissance Through Modern Art (3 cr.)

A survey of major artists, styles, and movements in European and American art and architecture from the fifteenth century to the present.

FINA-A 200 Topics in Art History (3 cr.) Various topics

in the history of art will be offered depending upon instructors and their area of expertise. May be repeated with a different topic for a maximum of 6 credit hours.

FINA-A 333 From Van Eyck to Vermeer (3 cr.) CASE

S&H R: FINA-A 101, FINA-A 102, or consent of instructor. Survey of major artists and themes in Netherlandish painting from the fifteenth to the seventeenth century.

FINA-A 340 Topics in Modern Art (3 cr.) Special topics

in the history and study of nineteenth and twentieth-century European and American art. May be repeated with different topics for a maximum of 6 credits.

FINA-F 100 Fundamental Studio-Drawing (3 cr.)

Development of visual awareness and coordination of perceptual and manual skills; seeing, representing, and inventing on an experimental, exploratory level in two dimensions. Includes placement, scale, volume, light,

formal articulation, and investigations of graphic tools and media.*

FINA-F 101 Fundamental Studio-3D (3 cr.) Volume, space, material, and physical force studies provide the basis for exploration of three-dimensional form; includes carving, construction, modeling, and casting, using wood, plaster, styrofoam, clay, etc.*

FINA-F 102 Fundamental Studio-2D (3 cr.) Color, shape, line, and value structures are studied as the basis for exploration of two-dimensional spatial relationships; includes investigation of conventional and invented tools and media.*

FINA-P 490 Topics in Studio Fine Arts (1-6 cr.) In-depth projects and studies of special studio art topics closely related to existing areas of concentration. May be repeated.*

FINA-S 200 Drawing I (3 cr.) Preliminary course for advancement in drawing stressing basic visual awareness; seeing, representing, and technical command on a two dimensional surface. Problems in handling placement, scale, space, volume, light, and formal articulation.*

FINA-S 230 Painting I (3 cr.) P: FINA-F 100, FINA-F 102, or consent of the instructor. Preliminary course for advancement in painting. Exploration of the technical and visual aspects of color media. Emphasis on media command and structural problems in painting. Media: oil and acrylics.*

FINA-S 240 Basic Printmaking Media (3 cr.) Introduction to printmaking. Emphasis on three basic media: intaglio, lithography, and silkscreen. Problems in pictorial composition and drawing. Study of the interrelationships of all graphic media.*

FINA-S 260 Ceramics I (3 cr.) CASE A&H A limited introduction to hand-building, throwing, glaze mixing, and glaze application, including lectures on basic ceramic techniques. Critiques of student work.*

FINA-S 270 Sculpture I (3 cr.) P: Foundation in basic technical and formal methods of traditional and contemporary sculpture. Use of tools and equipment for additive and subtractive techniques including wood construction, steel fabrication, clay modeling, plaster mold making and cold casting, and assemblage. Emphasis placed on technical execution, conceptualization, and creative problem solving.*

FINA-S 272 Studio in Objects, Time, and Space I (3 cr.) Introduction to object making and sculptural theory in contemporary art. Explores visual and object-based outcomes for the use of sculpture in the modern world.*

FINA-S 280 Metalsmithing and Jewelry Design I (3 cr.) CASE A&H P: FINA-S 101, FINA-S 102, or consent of instructor. Introductory course for exploring metalworking and jewelry design as a serious form of creative expression. Focuses on the basic techniques of piercing of metals, soldering, sheet metal construction, surface embellishment, mechanical joining, wire forming and forging, stretching of sheet metals, and various metal finishing techniques.*

FINA-S 301 Drawing II (3 cr.) P: FINA-S 200. Intermediate course in drawing from the model and other sources. Emphasis on technical command of the media in

conjunction with the development of a visual awareness. Continued problems in the articulation of space, scale, volume, value, and linear sensitivity. May be repeated once.*

FINA-S 331 Painting II (3 cr.) P: FINA-S 230. Intermediate course in painting from the model and other sources. Emphasis on technical command and understanding of the components of painting space, color, volume, value, and scale. Media: oil or acrylics. May be repeated once.*

FINA-S 341 Printmaking II Intaglio (3 cr.) Advanced study with emphasis on intaglio. Problems in pictorial composition and drawing stressed.*

FINA-S 343 Printmaking II Lithography (3 cr.) Advanced study with emphasis on lithography. Problems in pictorial composition and drawing stressed.*

FINA-S 344 Printmaking II Silk Screen (3 cr.) Advanced study with emphasis on silkscreen. Problems in pictorial composition, color, and collage design strategies stressed.*

FINA-S 351 Graphic Design II (3 cr.) P: FINA-S 250 or NMCM-N 250. Further studies exploring design principles. Students utilize both hand and digital methods to solve design problems creatively and effectively. Course includes typographic exploration.*

FINA-S 361 Ceramics II (3 cr.) CASE A&H P: FINA-S 260. Continued practice in forming and glazing, with emphasis on wheel throwing, surface decoration, and kiln firing techniques. Instruction through lectures, demonstrations, and critiques. May be repeated once.*

FINA-S 371 Sculpture II: Studio in Objects, Time, and Space II (3 cr.) Development of skills in both traditional and contemporary sculpture methodology. Rotating semester topics include figurative sculpture, casting, steel/wood construction, installation art, and ideas through the sculptural form and knowledge of materials and historical traditions. May be repeated once.*

FINA-S 381 Metalsmithing and Jewelry Design II (3 cr.) CASE A&H P: FINA-S 280. Extensive designing and model making for exploring forms and ideas in metal and mixed media, either as jewelry, hollowware objects, flatware, tea strainers and infusers, boxes, or small-scale sculpture. Focus on techniques of angle raising, repoussé and chasing, forging of flatware, stone setting, and lost-wax casting, jewelry mechanisms, hinge making, and patination of metals. May be repeated for a maximum of 6 credit hours.*

FINA-S 431 Painting III (3 cr.) P: FINA-S 331. Advanced course in painting. Continuation of FINA-S 331. May be repeated for a total of 20 credit hours.*

FINA-S 445 Relief Print Media (1-3 cr.) P: FINA-S 240 or consent of instructor. Relief printmaking media: woodcut, linocut, monotype, and collograph. Students create prints in each medium in both black-and-white and color using a variety of traditional and innovative techniques such as photo and the computer. May be repeated for a total of 20 credit hours.*

FINA-S 471 Sculpture III (3 cr.) P: FINA-S 270, FINA-S 371. Advanced work in sculpture for qualified students

working in the chosen materials. The course focuses on the development of ideas as manifest in sculptural form.*

FINA-S 472 Sculpture IV (3 cr.) P: FINA-S 270, FINA-S 371, FINA-S 471. Production of a body of work reflecting the student's specific interests. Students meet independently with professor and in group critiques to maintain a dialogue and provide technical advice.*

FINA-S 481 Metalsmithing and Jewelry Design III (arr. cr.) P: FINA-S 381. Improves and expands knowledge and skill in metalsmithing and jewelry design. Guidance toward developing a personal direction of creative expression, artistic aesthetic, and art philosophy. Advanced techniques include large-scale vessel forming from sheet metal, large-scale soldering, die forming, jewelry mechanisms, chain making, chasing and repoussé, enameling, stone cutting, PNP etching, and working with alternative materials. May be repeated for a total of 20 credit hours.*

FINA-T 320 Video Art (3 cr.) Exploration of the medium of video as an aesthetic expression. Time and sound are elements incorporated into visual composition's traditional concerns. Emphasis on technical command of video camera and digital editing procedures in conjunction with development of a visual sensitivity. Readings and a research project are required.*

FINA-U 200 Digital Art (3 cr.) Introduction to digital art will cover a variety of digital means for the creation of art work and design work. Photoshop, Illustrator, Flash, Dreamweaver, and digital audio will be introduced and examined in projects designed to create a familiarity with the digital work flow, storage and output. This course is cross-listed with NMCM-N 200.*

FINA-U 301 Special Topics in Studio Art (1-3 cr.) Selected intermediate-level topics not ordinarily covered in other studio art courses. May be repeated once with a different topic for a maximum of 6 credit hours.

FINA-U 400 Sources and Resources: Professional Skills in Fine Arts (1-3 cr.) P: BFA major or advanced BA studio art major. Focuses on both personal and cultural issues in aesthetics and on building professional skills for careers in art. Seminar format will be structured to foster individual growth and insight in understanding both conceptual and practical concerns of choosing to be an artist.*

FINA-U 401 Special Topics in Studio Art (1-3 cr.) Selected topics in studio art not ordinarily covered in other departmental courses. May be repeated once with a different topic.*

FINA-U 450 Independent Studio Projects (1-3 cr.) Individual studio projects under guidance of faculty member or committee. Does not fulfill a specific course requirement for a fine arts major.*

Folklore

FOLK-F 101 Introduction to Folklore (3 cr.) A view of the main forms and varieties of folklore and folk expression in tales, ballads, myth, legends, beliefs, games, proverbs, riddles, and traditional arts and crafts. The role of folklore in human society.

French

FREN-F 260 French Lit & Civilization (3 cr.)

Readings of representative literature from period chosen, their political, social and philosophical background, and parallel trends in the arts and music. Lectures in English. Readings in English.

FREN-F 111 Elementary French I (4 cr.) Drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary. Includes elements of French culture.

FREN-F 112 Elementary French II (3 cr.) P: FREN-F 111 or equivalent. Continuation of FREN-F 111. Drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary. Includes elements of French culture.

FREN-F 203 Second Year French I (3 cr.) P: FREN-F 112 or equivalent. Composition, conversation, and grammar coordinated with the study of expository and literary texts.

FREN-F 204 Second Year French II (3 cr.) P: FREN-F 203 or equivalent. Continuation of FREN-F 203. Composition, conversation, and grammar coordinated with the study of expository and literary texts.

German

GER-G 111 Elementary German I (4 cr.) Intensive introduction to present-day German with drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary.

GER-G 112 Elementary German II (4 cr.) P: GER-G 111 or equivalent. Continuation of GER-G 111. Intensive introduction to present-day German with drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary.

GER-G 203 Second Year German I (3 cr.) P: GER-G 112 or equivalent. Intensive review of important structural problems and vocabulary primarily through the reading and discussion of modern German fiction and nonfiction.

GER-G 204 Second Year German II (3 cr.) P: GER-G 203 or equivalent. Continuation of GER-G 203. Intensive review of important structural problems and vocabulary primarily through the reading and discussion of modern German fiction and nonfiction.

GER-G 306 Introduction to German Literature (3 cr.) P: GER-G 204 or equivalent. Study of a single literary theme (such as music, generational conflict, love, revolution) as represented in two or more periods. Conducted in German.

GER-G 363 Introduction to German Cultural History (3 cr.) P: GER-G 204 or equivalent. A survey of the cultural history of German-speaking countries, with reference to its social, economic, and political context.

Humanities

HUMA-U 101 Introduction to Humanities (3 cr.) This course provides the student with multiple opportunities to experience Shakespeare's 400-year-old classic drama. This class will feature a series of filmed performances of various actors playing Hamlet. Students will explore the playwright's use of verse through various drama and speech activities and will analyze and perform a soliloquy.

HUMA-U 102 Introduction to Modern Humanities: The Live Performances (3 cr.) This course examines the approach to attending live performances including opera, symphony, theatre, and dance. Topics include protocol and traditions of the audience, criteria for critical listening, and discrimination of basic elements of performance. Students will attend live performances, engage in discussions of performances by genre, and develop critical listening skills.

HUMA-U 103 Introduction to Creative Arts (3 cr.) An interdisciplinary course that brings together music, art, dance, theatre, cinema, and storytelling into a cohesive, comprehensive, and thematic study of the interrelationships of the fine arts.

HUMA-U 305 Art and Music in the 20th Century (3 cr.) This course will explore the similarities of artistic movements in the 20th century, starting with the Impressionism of Monet and Debussy through the Minimalism of Robert Morris and Philip Glass.

Journalism

JOUR-J 343 Broadcast News (3 cr.) Techniques of gathering, analyzing, and writing news and features for broadcast. Practice in interviewing, observation, and use of documentary references that include computer information retrieval and analysis skills.

JOUR-C 200 Introduction to Mass Communications (3 cr.) Survey of functions, responsibilities, and influence of various mass communications media. Directed toward the consumer and critic of mass media in modern society.

JOUR-J 200 Writing for Mass Media (3 cr.) P: ENG-W 131. Working seminar stressing principles of writing for mass media. Emphasis on development of story ideas, information gathering, organization, and effective presentation of material for various news media; print and electronic. Basics of computer proficiency introduced.

Music

MUS-M 174 Appreciation of Music I (3 cr.) How to listen to music, art of music and its materials, instrument and musical forms.

MUS-T 109 Rudiments of Music (3 cr.) Entry level class for students interested in how music works. The class deals with the fundamentals of notation, ear training, and music reading. Melody and harmony are explored.

MUS-U 110 Special Topics in Music (2 cr.) Various topics from semester to semester.

MUS-X 001 Ensemble Singing - The IU Kokomo Singers (2 cr.) This course may be taken for up to 8 credit hours of elective credit toward an arts and sciences degree.

MUS-X 004 Ensemble Lab (1 cr.) Audition required. Student must register for MUS-X 001, IU Kokomo Singers. This course will focus on vocal proficiency, pronunciation and performance style. May be repeated twice for credit.

MUS-X 040 Instrumental Ensemble: Band (1-2 cr.) This course may be taken for up to 8 credit hours with different topics. Topics currently in use: Band (2 cr.) and Handbells (1 cr.).

MUS-X 070 University Choral Ensemble (2 cr.) Course requires an audition.

MUS-Z 111 Introduction to Music Theory (3 cr.) A study of fundamentals of the language and notation of music: listening, music reading and writing, and the elements of music as used in a variety of genres and historical periods. Open to non-music majors and students in the School of Music interested in a general background in music.

MUS-Z 201 History of Rock 'n' Roll Music (3 cr.) A history and appreciation of rock's classic era. The course begins with the 1964 British Invasion, which signaled the arrival of rock's second generation. Examines the major musical figures and social issues (civil rights struggle, the war in Vietnam) of the 1960s.

MUS-Z 301 Rock Music in the 70s and 80s (3 cr.) A lecture-oriented course that covers the history of rock 'n' roll in the 1970s and 1980s. The post-Sgt. Pepper "splintering" of rock and ensuing style changes are highlighted.

MUS-Z 315 Music for Film (3 cr.) P: CMLT-C 190, Introduction to Film. A stylistic and analytic survey of music for moving pictures, concentrating on American and English narrative films.

MUS-Z 373 The American Musical: Context and Development (3 cr.) The origins of the American Musical: its societal impact and its development from vaudeville and European operetta to the rock musicals of today.

MUS-Z 393 History of Jazz (3 cr.) Periods, major performers and composers, trends, influences, stylistic features, and related materials. For non-music majors only.

New Media Communication

NMCM-N 200 Digital Art (3 cr.) Introduction to digital art will cover a variety of digital means for the creation of art work and design work. Photoshop, Illustrator, Flash, Dreamweaver, and digital audio will be introduced and examined in projects designed to create a familiarity with the digital work flow, storage and output. This course is cross-listed with FINA-U 200.*

NMCM-N 201 Introduction to New Media Communication (3 cr.) P: ENG-W 131. This course is an introduction to New Media Communication. Through readings and projects, students learn basic principles of web sites and other online communication, focusing on creating content, developing designs, and producing graphics. Particular attention is paid to learning web site creation and management software.*

NMCM-N 210 Visual Communication (3 cr.) P: ENG W-131. This course looks at the visual aspects of print and electronic communication. It deals with issues of page design, visuals and other graphics, from practical, historical, and theoretical perspectives. Students will produce visual designs, including flyers and brochures.*

NMCM-N 211 Typography (3 cr.) This course is an introduction to the aesthetics, mechanics, history, terminology, specifications, and use of type in design. Typefaces will be evaluated and rendered in a variety of studio assignments using both hand written and computer techniques.

NMCM-N 213 Web Site Design and Development

(3 cr.) This course introduces web site design and development covering high level concerns along with hands-on activities. Topics range from infrastructure and page design to XHTML and Javascript.*

NMCM-N 215 Studio in Digital Media I (3 cr.)

Introductory work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.*

NMCM-N 220 Introduction to Business Website Design

(3 cr.) Focuses on the design and creation of websites for small businesses and nonprofit organizations. Still will be able to make their own basic business and nonprofit websites. No prior website creation experience is needed. Primarily intended for non-majors.

NMCM-N 231 Introduction to Video Game Design

(3 cr.) Introduces video game design, including game concept, scripting, and development.*

NMCM-N 245 Introduction to Website Design

Principles and Practices (3 cr.) P: INFO-I 213, NMCM-N 213 or permission from the instructor. Teaches basic principles of web design and gives students practice creating sites using these principles and common website creation tools. Students will become comfortable using professional tools to create websites.*

NMCM-N 250 Graphic Design I (3 cr.) Emphasis on visual communication through the perceptive use of line, form, and color. Elementary study of letter forms and typography. Introduction to basic tools, drawing disciplines of graphic design, and computer graphics.*

NMCM-N 255 History of Graphic Design (3 cr.) Explore how the technologies used in graphic design have evolved as well as consequences of those changes for designers.

NMCM-N 260 Video Production Practicum (3 cr.)

Students will receive hands-on instruction in a production lab setting. Gain experience in field and studio camera operation. Camera techniques, video editing, and related production software.*

NMCM-N 261 ActionScript 3 Programming (3 cr.)

Introduction to Action Script programming for Flash. Students will use technology to create artwork, design, games, databases interfaces, web interfaces, and others. Basic skills for further study of JAVA, Objective C, C++, and others.*

NMCM-N 262 Intro to Web Scripting (3 cr.) This course introduces students to fundamental programming concepts and techniques. Students will develop a solid foundation that can be used to learn other programming languages. Using the JavaScript programming language as a basis for instruction, this course focuses on client-side Web programming and teaches students how to create highly dynamic and interactive Web pages.*

NMCM-N 281 Honors Study in Beginning New Media

Communication (1-3 cr.) P: consent of the instructor. For outstanding students, in place of a 200-level course in New Media Communication. Meets concurrently with course it replaces. May be repeated once with a different course.

NMCM-N 298 Intermediate Photography (3 cr.)

This course uses more advance photography techniques

including compositional strategies for shooting individuals and groups of people, lighting techniques using natural and off-camera strobe light and editing workflow using the latest versions of Lightroom and Photoshop. Special attention will also be paid to journalism or documentary photography.

NMCM-N 301 Advanced Web Layout and Design (3 cr.)

P: NMCM-N 201 and either NMCM-N 213 or INFO-I 213, or consent of instructor. Focuses on using advanced CSS techniques and advanced features of web design software (such as Dreamweaver) to produce attractive, professional-level websites.*

NMCM-N 310 Advanced Visual Design (3 cr.)

P: NMCM-N 200 and NMCM-N 210 or consent of instructor. Focuses on learning and applying advanced principles of various aspects of visual design, including typography, layout (including grid theory), color, and theme. Students learn to produce professional quality brochures, advertisements, flyers, posters, logos, and other visual designs.*

NMCM-N 311 Evolution of New Media Communication

(3 cr.) P: ENG-W 131. This course examines how new media communication has evolved throughout history, examining the impact of the development of various media on society, ranging from the invention of writing to the development of a computer networked society. Students will develop a critical understanding of media of the past, present, and future.*

NMCM-N 312 Digital Illustration (3 cr.) Course explores basic development of digital illustrations for use in graphic design.*

NMCM-N 315 Web Usability and Information

Architecture (3 cr.) P: ENG-W 131. This course covers designing professional web sites. It focuses on learning principles to make web sites both well-structured and usable. Activities include web site analysis, design, and usability testing.*

NMCM-N 320 Video Production (3 cr.)

Exploration of the medium of video as an aesthetic expression. Time and sound are elements incorporated into visual composition's traditional concerns. Emphasis on technical command of video camera and digital editing procedures in conjunction with development of a visual sensitivity. Readings and a research project are required.*

NMCM-N 330 Studio in Digital Media II (3 cr.)

Intermediate work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.*

NMCM-N 345 Intermedia Website Design Principles

and Practice (3 cr.) P: NMCM-N 245 or permission of instructor. Teaches intermediate principles of web design and gives students practice creating sites using these principles and common website creation tools. Students should learn to produce professional-quality websites.*

NMCM-N 351 Cyberculture and Community (3 cr.)

The rise of new media communication technology has altered stretches of our social landscape. This course explores how emerging technologies form new types of social networks while also changing the rules of communication in existing social units.*

NMCM-N 360 Adv. Video Prod Prac (3 cr.) Students will take a leadership role in the video production process and coordinate the development of a program. They will also gain additional video production experience.*

NMCM-N 361 Graphic Design II (3 cr.) P: NMCM-N 250. Further studies exploring design principles. Students utilize both hand and digital methods to solve design problems creatively and effectively. Course includes typographic exploration.*

NMCM-N 362 Server-side Web Programming Using PHP (3 cr.) This course discusses server-side Web programming using the PHP programming language. Through a detailed discussion of PHP programming fundamentals, students will develop a comprehensive understanding of the server-side aspects of developing interactive Web applications using the PHP programming language. This course also offers an introductory overview of interfacing web applications with relational databases. Students are expected to develop real-world server-side Web applications with MySQL database connectivity.*

NMCM-N 365 Type in Motion (3 cr.) Learn to create motion typography for traditional domains, such as movies & television, along with interactive interfaces such as web sites & information kiosks.*

NMCM-N 370 Animation For Integrated Media (3 cr.) Images and animation converge to develop an animated sequence. Using text, graphics and sound, students will create animation and visualizations. Photoshop and Illustrator plus Flash will be used in addition to traditional methods for creating animations.*

NMCM-N 371 Identity Design & Branding (3 cr.) Teaches how to create a visual identity that communicates the essential qualities desired by the particular business.*

NMCM-N 372 Graphic Design Prod & Prac (3 cr.) This course focuses on the interaction graphic designers have with clients & printers. professional graphic design skills.*

NMCM-N 381 Honors Study in Intermediate New Media Communication (1-3 cr.) P: consent of the instructor. For outstanding students, in place of a 300-level course in New Media Communication. Meets concurrently with course it replaces. May be repeated once with a different course.*

NMCM-N 391 Seminar (1-8 cr.) P: consent of the instructor. Topics announced in prior semester. Oriented toward current topics in new media communication; readings, projects, and papers as indicated by the topic and instructor. May be repeated up to a total of 8 credit hours.

NMCM-N 395 Independent Study in New Media Communication (1-3 cr.) P: consent of the Instructor and Department Chair. May be repeated once for credit.

NMCM-N 398 Internship in New Media Communication (1-6 cr.) P: Consent of the instructor. Internship focusing on producing and managing new media communication projects. Apply during semester prior to desired internship. Must represent a minimum of 45 hours of experience per credit hour. May be repeated once for credit, but no more than 6 credits total may be earned.

NMCM-N 401 Senior Seminar (1-3 cr.) P: Junior or Senior Status or approval of instructor. Senior

experience for New Media Communication students. Meets concurrently with ENG-L 495 and SPCH-C 398.

NMCM-N 408 Advanced Photography and Cinematography (3 cr.) P: FINA-N198, FINA-N298 or instructor consent. This is an advanced course in the use of photography and cinematography. The recent developments in digital cameras and the inclusion of video capabilities are compelling. The ability to use still and moving images are at the core of the cultural communications milieu and require our attention. This course will explore the creative use of the digital image in still and moving formats. Emphasis will be on the possibilities provided by this advanced technology and the growing sets of delivery options available. Students will learn to think and adopt creative approaches to photography and cinematography/videography through a set of challenging class projects, exercises, demonstrations, and presentations.

NMCM-N 410 Publication & Editorial Design (3 cr.) Despite the rise of the Internet, downloadable .PDF and .ps files, the eBook and microfilm, the basic book of ink and paper is still the main conveyor of written information in the 21st century. It is important for a designer's success to have a basic understanding of the structure of a book and the various problems encountered when designing one.*

NMCM-N 411 New Media Communication Theory (3 cr.) P: ENG-W 131. This course examines various theories of new media communication and its effects on the world. Theories of design, criticism and computer-mediated communication will be explored. After taking this course, students should be able to critique new media and their societal effects.

NMCM-N 445 Advanced Website Design Principles and Practice (3 cr.) : NMCM-N 345 or permission of instructor. Teaches advanced principles of web design and gives students practice creating sites using these principles and common website creation tools. Students will produce high-quality, professional level website.*

NMCM-N 481 Honors Study in Advanced New Media Communication (1-3 cr.) P: consent of the instructor. For outstanding students, in place of a 400-level course in New Media Communication. Meets concurrently with course it replaces. May be repeated once with a different course.

Philosophy

PHIL-P 100 Introduction to Philosophy (3 cr.) Perennial problems of philosophy, including problems in ethics, in epistemology and metaphysics, and in the philosophy of religion. Readings in selected writings of philosophers from Plato to the present.

PHIL-P 105 Critical Thinking (3 cr.) Basic rules of correct reasoning; roles of definitions and language in thinking; roles of observation, hypothesis and theory in knowledge and basic techniques for gather information, testing and evaluating arguments for truth and problem solving.

PHIL-P 140 Elementary Ethics (3 cr.) Some ancient, medieval, or modern philosophers' answers to ethical problems (e.g., nature of good and evil, relation of duty to self-interest, objectivity of moral judgments).

PHIL-P 145 Introduction to Social and Political Philosophy (3 cr.) Fundamental problems of social and political philosophy: the nature of the state, political obligation, freedom and liberty, quality, justice, rights, social change, revolution, and community. Readings from classical and contemporary sources.

PHIL-P 150 Elementary Logic (3 cr.) Development of critical tools for the evaluation of arguments.

PHIL-P 242 Applied Ethics (3 cr.) Application of moral theory to a variety of personal, social, and political contexts, such as world hunger, nuclear weapons, social justice, life and death decisions, and problems in medical ethics.

PHIL-P 304 Nineteenth-Century Philosophy (3 cr.) Selected survey of post-Kantian philosophy, including Hegel, Marx, Kierkegaard, and Mill.

PHIL-P 311 Environmental Ethics (3 cr.) Selective survey of philosophical problems concerning environmental ethics. Topics may include defining environment, different approaches to the study of environmental ethics, determining the value of environment, issues of preservation and sustainability and the relationship between human social issues and environmental values.

PHIL-P 335 Phenomenology and Existentialism (3 cr.) P: 3 credit hours of philosophy. Selective survey of central themes in nineteenth- and twentieth- century phenomenology and existentialism. Readings from some or all of Buber, Camus, Heidegger, Husserl, Jaspers, Kierkegaard, Marcel, Nietzsche, Beauvoir, and Sartre.

PHIL-P 342 Problems in Ethics (3 cr.) May concentrate on a single large problem, e.g., whether utilitarianism is an adequate ethical theory, or several more or less independent problems, e.g., the nature of goodness, the relation of good to ought, the objectivity of moral judgments.

PHIL-P 345 Problems in Social and Political Philosophy (3 cr.) Problems of contemporary relevance: civil disobedience, participatory democracy, conscience and authority, law and morality.

PHIL-P 346 Classics in Philosophy of Art (3 cr.) P: 3 cr. of Philosophy. Readings from Plato and Aristotle to Nietzsche and Dewey. Topics include the definition of art, the nature of beauty, and art and society.

PHIL-P 360 Introduction to Philosophy of Mind (3 cr.) Selected topics from among the following: the nature of mental phenomena (e.g., thinking, volition, perception, emotion); the mind-body problem (e.g., dualism, behaviorism, functionalism); connections to cognitive science issues in psychology, linguistics, and artificial intelligence; computational theories of mind.

PHIL-P 371 Philosophy of Religion (3 cr.) Topics include the nature of religion, religious experience, the status of claims of religious knowledge, the nature and existence of God.

PHIL-P 375 Philosophy of Law (3 cr.) Selective survey of philosophical problems concerning law and the legal system. Topics include nature and validity of law, morality

and law, legal obligation, judicial decision, rights, justice, responsibility, and punishment.

PHIL-P 383 Topics in Philosophy (3 cr.) An advanced study of special, experimental, or timely topics drawn from the full range of philosophical discussion and designed to pursue interests unmet in the regular curriculum.

Religion

REL-R 152 Introduction to Religions of the West (3 cr.) Origins, development, institutions, beliefs, and current status.

REL-R 153 Introduction to Religions of the East (3 cr.) Human ideas and value systems in the religions of India, China, and Japan.

REL-R 212 Comparative Religions (3 cr.) Approaches to the comparison of recurrent themes, religious attitudes, and practices found in selected Eastern and Western traditions.

REL-R 233 Introduction to the Hebrew Bible (Old Testament) (3 cr.) A critical examination of the literary, political, cultural, and religious history of Israel from the period of the Patriarchs to the Restoration, with emphasis on the growth and formation of the major traditions contained in the Hebrew Bible.

REL-R 243 Introduction to the New Testament (3 cr.) An examination of the history, culture, and literature of the New Testament period, with special emphasis on the emergence of early Christian beliefs.

Spanish

SPAN-S 111 Elementary Spanish I (4 cr.) Intensive introduction to present-day Spanish, with drills for mastery or phonology, basic structural patterns, and functional vocabulary.

SPAN-S 112 Elementary Spanish II (4 cr.) P: SPAN-S 111 or equivalent. Continuation of SPAN S111. Intensive introduction to present-day Spanish, with drills for mastery or phonology, basic structural patterns, and functional vocabulary.

SPAN-S 160 Spanish for Health Care Personnel (3 cr.) This course examines the approach to attending live performances including opera, symphony, theatre, and dance. Topics include protocol and traditions of the audience, criteria for critical listening, and discrimination of basic elements of performance. Students will attend live performances, engage in discussions of performances by genre, and develop critical listening skills.

SPAN-S 203 Second-Year Spanish I (3 cr.) P: SPAN-S 112 or equivalent. Intensive drill reviewing important structural and vocabulary problems, coordinated with literary readings.

SPAN-S 204 Second-Year Spanish II (3 cr.) P: SPAN-S 203 or equivalent. Continuation of SPAN S203. Discussions in Spanish of contemporary Spanish literature. Practice in composition both semesters.

SPAN-S 275 Hispanic Culture and Conversation (3 cr.) Practice of language skills through reading and discussion of Hispanic culture. Discusses facets of popular culture, diversity of the Spanish speaking world, and themes

of social and political importance. Prior knowledge of Spanish not required.

SPAN-S 311 Spanish Grammar (3 cr.) P: SPAN-S 204 or equivalent. This course is designed to integrate the four basic language skills into a review of the major points of Spanish grammar. Course work will combine grammar exercises with brief controlled compositions based on a reading assignment and class discussion in Spanish. Sentence exercises will be corrected and discussed in class.

SPAN-S 312 Written Composition in Spanish (3 cr.) P: SPAN-S 204 or equivalent. This course integrates the four basic language skills into a structured approach to composition. Some review of selected points of Spanish grammar will be included. Each student will write a weekly composition, increasing in length as the semester progresses. Emphasis will be on correct usage, vocabulary building, and stylistic control.

SPAN-S 317 Spanish Conversation and Diction (3 cr.) P: SPAN-S 204 or equivalent. Practice of conversation in Spanish with emphasis on pronunciation, vocabulary development, and fluency.

SPAN-S 325 Spanish for Teachers (3-4 cr.)

SPAN-S 360 Introduction to Hispanic Literature (3 cr.) Study of literature in Spanish.

Speech

SPCH-C 205 Introduction to Oral Interpretation (3 cr.) Basic principles and practice in analysis and reading of selections from prose, poetry, and drama. Public presentation of programs. Lecture and recitation.

SPCH-C 281 Topics in Nonverbal Communication (1-3 cr.) Explores the basic theories of nonverbal behavior and experientially focuses on the ways in which nonverbal codes combine and interact to satisfy important communication functions. May be repeated under different topics up to a total of 6 credit hours.

SPCH-C 300 Practicum (0-8 cr.) Practical experience in various departmental areas as selected by the student prior to registration, outlined in consultation with the instructor, and approved by the department. Must represent a minimum of 40 hours of practical experience per credit hour. A student shall take no more than a total of 9 credit hours of SPCH-C 300 and SPCH-S 398.

SPCH-C 305 Advanced Oral Interpretation (3 cr.) Continuation of SPCH-C 205.

SPCH-C 310 Rhetoric and Public Address (3 cr.) P: SPCH-S 121 or equivalent. Development of theory of oral discourse; the influence of public address; historical and current problems in rhetoric of conflict, in freedom of speech, and in propaganda and persuasion. Lectures and oral reports.

SPCH-C 321 Persuasion (3 cr.) P: SPCH-S 121 or equivalent. Motivational appeals in influencing behavior, psychological factors in speaker-audience relationship, principles and practice of persuasive speaking. Lecture and recitation.

SPCH-C 325 Interviewing Principles and Practices (3 cr.) P: SPCH-S 121 or equivalent. Study and practice of methods used in business and industrial interviews,

emphasis on the logical and psychological bases for the exchange of information-attitudes. Lecture and recitation.

SPCH-C 330 Diffusion of Innovations (3 cr.) This course will explore the process by which disruptive technologies become adopted within cultures. Three major themes will be explored: development of innovations, manner in which innovations become adopted, and the consequences of innovations on individuals, organizations, and cultures.

SPCH-C 380 Organizational Communication (3 cr.) The application of communication theory and research to the study of communication within the formal organization. Communication behavior is examined in a variety of organizational settings: interpersonal, small group, and inter-organizational units.

SPCH-C 391 Topics Course (1-8 cr.) Current topics in use include: **Seminar** (1-3 cr.) P: consent of instructor. Topic announced in prior semester; oriented to current topics in communication and theatre; readings, projects, and papers as indicated by the topic and instructor. May be repeated up to a total of 8 credit hours. Topics currently in use are: **Public Relations Campaigns** (1-3 cr.) This course teaches students public relations theories, methods, and practice. Working in teams, students design and place three media messages for community-based public relations clients; **Organizational Training and Development** (3 cr.) Provides experience in the design, development, presentation, and evaluation of instructional communication training programs.

SPCH-C 393 Communication Research Methods (3 cr.) P: ENG-W 131 This course explores major research methods used by communication scholars, including experimental research, survey research, textual analysis, and ethnography. Students learn how to interpret, evaluate and propose research.

SPCH-C 437 Creative Dramatics (3 cr.) Laboratory course in informal dramatics that emphasizes the child rather than the production; includes methods of stimulating the child to imaginative creation of drama with the materials of poetry, stories, choral readings, and music.

SPCH-C 444 Political Communication (3 cr.) Examination of communication in political campaigns and social movements. Campaign topics include speech-making, advertising, news coverage, and debates. Case studies in social movements, including anti-war, civil rights, feminism, and others.

SPCH-S 121 Public Speaking (3 cr.) Theory and practice of public speaking; training in thought processes necessary to organize speech content, personality, components of effective delivery, and language.

SPCH-S 122 Interpersonal Communication (3 cr.) Practical consideration of spontaneous human interaction in face-to-face situations. Special attention to perception, language, and attitudes, in dyads and small groups.

SPCH-S 130 Public Speaking, Honors (3 cr.) For outstanding students, in place of SPCH-S 121.

SPCH-S 201 Communicating in Public (3 cr.) R: SPCH-S 121. Theory and advanced practice of public speaking. Designed primarily for, but not limited to, majors in communication-related fields.

SPCH-S 205 Introduction to Speech Communication (3 cr.) Overview of the theories and principles of effective communication in interpersonal, group, organizational, and public settings.

SPCH-S 223 Business and Professional Speaking (3 cr.) P: SPCH-S 121. Preparation and presentation of types of speeches and oral reports appropriate to business and professional occupations; group discussion and parliamentary procedures.

SPCH-S 229 Discussion and Group Methods (3 cr.) Leadership and participation in group, committee, conference, and public discussion; logical and psychological aspects of group process.

SPCH-S 233 Introduction to Public Relations (3 cr.) A survey of the historical antecedents and contemporary practice of public relations in the U.S. Emphasis is on the nature of day-to-day tasks and the communication responsibility of public relations practitioners in a variety of professional settings.

SPCH-S 301 Rhetoric and Society (3 cr.) This course examines the impact of verbal and nonverbal symbol systems on communities and cultures. Students explore the way in which meaning is created, maintained, affirmed or altered across time and periods of social change. Although the topic and focus of the class varies from semester to semester, this course emphasizes the process by which communication systems may transform users or be transformed by users over time.

SPCH-S 322 Advanced Interpersonal Communication (3 cr.) P: SPCH-S 122. Advanced consideration of communication in human relationships. Emphasis given to self-concept; perception; language; nonverbal interaction; listening; interpersonal conflict; and communication skills in family, social, and work situations.

SPCH-S 323 Speech Composition (3 cr.) R: SPCH-S 121 and either SPCH-S 223 or SPCH-S 229. Advanced speechwriting; theories of style, written and spoken language; logical proofs; and emotional and ethical appeals. Practice in composition and delivery.

SPCH-S 333 Public Relations (3 cr.) Principles of contemporary public relations, including ethics of public relations; impact on society; and uses by government, business, and social institutions for international and external communication. Public relations as a problem solving process utilizing theoretical and application strategies.

SPCH-S 336 Current Topics in Communication (3 cr.) Extensive analysis of selected problems in contemporary speech communication. Topics vary each semester and are listed in the Schedule of Classes. May be repeated once for credit.

SPCH-S 398 Independent Study in Speech Communication (1-6 cr.) P: junior standing and approval of instructor. Independent study or practicum experience. Projects must be approved by faculty member before enrolling. May be repeated up to a total of 6 credit hours.

SPCH-S 427 Cross-Cultural Communication (3 cr.) A survey study of national, cultural, and cross-cultural persuasion in theory and practice.

SPCH-S 440 Organizational Communication (3 cr.) Examination of internal and external communication in business and other professional organizations, with emphasis on theory, techniques, practices, goals, and the social environment in which such communication exists.

Telecommunications

TEL-R 309 Television Production (3 cr.) Introduction to the production process in the studio and in the field.

TEL-R 407 Field Television Production (3 cr.) P: TEL-R 309 and consent of instructor. Planning, writing, producing, and editing program inserts and segments for television using portable video equipment.

TEL-R 424 Advanced Production Workshop (3 cr.) P: TEL-R 407 or TEL-R 409 or consent of instructor. Advanced production techniques in a specialized area. The topics will cover advanced theory and concepts that build upon lower-level video production courses. May be repeated once with different topic.

TEL-T 283 Introduction to Production Techniques and Practices (3 cr.) Introduction to audio, field, and studio production bridges the theoretical and practical aspects of production through written hands-on exercises.

TEL-T 337 Video Field Production (3 cr.) P: TEL-T 283 or TEL-R 309. Advanced course in video production. Students will apply their knowledge of visual aesthetics, production, and communication to produce a corporate video campaign.

Theatre

THTR-C 130 Introduction to Theatre (3 cr.) An introduction to the study of theatre; the wide range of critical, historical, aesthetic, and practical interests necessary to a well-rounded view; emphasis on theatre as an art form; elements of dramatic construction.

THTR-C 300 Practicum (1-8 cr.) Practical experience in various departmental areas as selected by the student prior to registration, outlined in consultation with the instructor, and approved by the department. Must represent a minimum of 45 hours of practical experience per credit hour.

THTR-C 437 Creative Dramatics (3 cr.) Laboratory course in informal dramatics that emphasizes the child rather than the production; includes methods of simulating the child to imaginative creation of drama with the materials of poetry, stories, choral reading, and more.

THTR-T 120 Acting I (3 cr.) Introduction to theories, methodology and skills; body movement, voice and diction, observations, concentration, imagination. Emphasis on improvisation exercises.

THTR-T 149 Introductory Speech and Theatre Practicum (1-2 cr.) Introductory directed projects in speech and theatre.

THTR-T 220 Acting II (3 cr.) P: THTR-T 120 or consent of instructor. Textual analysis and techniques of communicating with body and voice. Study and performance of characters in scenes from Shakespeare and modern realistic and nonrealistic dramas.

THTR-T 226 Readers Theatre I (3 cr.) Exploration of theory and techniques, Practical experience materials; fiction and nonfiction, poetry, prose, dramatic dialogue.

THTR-T 236 Readers Theatre I (3 cr.) Exploration of theory and techniques. Practical experience with a variety of materials: fiction and nonfiction, poetry, prose, dramatic dialogue.

THTR-T 245 Living Theatre (1-2 cr.) Attendance at eight selected productions in the community during the semester, lecture and discussion of each production, short written analyses, and term paper. No withdrawal permitted after second week of class. For 1 credit hour: attend lectures and productions. For 2 credit hours: complete course as described. May be repeated for a maximum of 4 credit hours.

THTR-T 320 Acting III (3 cr.) P: THTR-T 220 and audition. Character analysis and use of language on stage. Study and performance of characters in scenes from Shakespeare and modern realistic and nonrealistic dramas. Lecture and laboratory.

THTR-T 336 Readers Theatre II (3 cr.) Continued practice in Readers Theatre. Development of one or more productions.

THTR-T 345 Theatre for Children (3 cr.) Purposes, principles, and problems of staging plays for children.

THTR-T 349 Speech and Theatre Practicum (1-2 cr.) Directed projects in speaker's bureau, rhetorical research, theatre practice, and other projects connected with production and events in process. Project plans, report, and term paper required. May be repeated for a maximum of 9 credit hours.

Certificate in Spanish

Students can earn a certificate in Spanish by completing the Humanities and Social Sciences requirement of two years of Spanish and either S275, Hispanic Culture and Conversation. or S325, Oral Spanish for Teachers, plus one additional course at the 300-or-400 level.

Sociology, History, and Political Science

Chair: Nancy Greenwood

Professors: Aniskiewicz, Greenwood, McGovern

Associate Professors: Bradley, McFarland

Assistant Professors: Heath, Weller, Sposato

Mission

The overall mission of the Sociology, History, and Political Science is to offer high quality degree programs to our students. We seek to make educational opportunities available to a diverse student population by offering content-rich and pedagogically solid courses. The department is also dedicated to offering out-of-classroom learning opportunities by encouraging participation in discipline-specific clubs, interdisciplinary programs, meetings of professional organizations, field trips, seminars and conferences/ workshops. We promote academic excellence by encouraging qualified students to take advantage of opportunities afforded by the IU Kokomo Honors program and by offering opportunities to engage in independent study, research projects,

internships, and practica. The department helps students to prepare for careers and post-graduate education.

Bachelor of Arts in Sociology

The Bachelor of Arts degree in sociology provides students with a broad exposure to the theories, methods, and substantive areas of the discipline. The program provides training in social theory, research skills, and specialized course work that prepares students for a variety of careers within human and social services. The B.A. degree also serves as a foundation for graduate work in sociology as well as in other professional fields such as social work, public administration, law, and business. Students may select a **traditional or applied sociology/human services track** within this degree. **Specialty concentrations in "Children and Families" and/or "Crime and Society"** may also be selected within the sociology electives needed for this degree. It is strongly recommended that students selecting a major or a minor in sociology complete SOC-S 252, Methods of Sociological Research, at the earliest possible opportunity before taking advanced upper level courses in sociology

Requirements for the Traditional Track within the B.A. in Sociology (BA-T):

1. See "Degree Requirements" section under "Humanities and Social Sciences."
2. Sociology Major (BA-T) - Students must complete a minimum of 30 credit hours in sociology with a grade of C or higher in each course. The following 15 credit hours of courses are required in addition to S100:
 - SOC-S 100 Introduction to Sociology (3 cr.) (counts for general education*)
 - SOC-S 252 Methods of Sociological Research (3 cr.)

- SOC-S 340 Social Theory (3 cr.)
- SOC-S 360 Topics in Social Policy: Statistics for Social & Health Professionals (3 cr.)
- SOC-S 494 Field Experience in Sociology or SOC-S 495 Individual Readings in Sociology
- SOC-S 470 Senior Seminar (3 cr.)

*Please note that SOC-S 100 applies to the general education core but must also be taken for the major.

3. Sociology Electives for BA-T - In addition to the courses listed in requirement 2, students must complete a minimum of 15 additional credit hours in sociology, to be selected from the following list:

- SOC-R 320 Sexuality and Society (3 cr.)
- SOC-S 302 Organizational Life (3 cr.)
- SOC-S 314 Social Aspects of Health and Medicine (3 cr.)
- SOC-S 315 Work and Occupations (3 cr.)
- SOC-S 316 The Family (3 cr.)
- SOC-S 317 Inequality (3 cr.)
- SOC-S 325 Criminology (3 cr.)
- SOC-S 328 Juvenile Delinquency (3 cr.)
- SOC-S 331 Sociology of Aging (3 cr.)
- SOC-S 335 Race and Ethnic Relations (3 cr.)
- SOC-S 338 Gender Roles (3 cr.)
- SOC-S 344 Sociology of Childhood (3 cr.)
- SOC-S 360 Topics in Social Policy: Drugs and Society (3 cr.)
- SOC-S 360 Topics in Social Policy: Family Violence** (3 cr.)
- SOC-S 363 Sociology of Development (3 cr.)
- SOC-S 361 Cities and Suburbs (3 cr.)
- SOC-S 363 Sociology of Development (3 cr.)
- SOC-S 375 Issues in Human and Social Service Agencies (3 cr.)***
- SOC-S 411 Sociology of Power (3 cr.)
- SOC-S 419 Social Movements and Collective Action (3 cr.)
- SOC-S 420 Topics in Deviance (3 cr.)
- SOC-S 431 Topics in Social Psychology (3 cr.)
- SOC-S 494 Field Experience in Sociology (3 cr.)
- SOC-S 495 Individual Readings in Sociology (cr. arr.)

4. Optional Specialty Concentrations within a Sociology Degree - these tracks can be taken with either a B S or a B.A. and within either the Traditional track or Applied Sociology/Human Services track

Children and Families Concentration (12 cr.) (Any of the following five courses or 12.0 credit hours)

- SOC-S 316 Family
- SOC-S 331 Aging
- SOC-S 338 Gender
- SOC-S 344 Sociology of Childhood
- SOC-S 360 Topics in Social Policy: Family Violence

Crime & Society Concentration (12.0 cr.) Students will complete two of the following courses:

- SOC-S 325 Criminology
- SOC-S 328 Juvenile Delinquency

- SOC-S 420 Topics in Deviance: White Collar Crime/Organized Crime
- And Students will complete two of the following courses:
 - SOC-S 360 Topics in Social Policy: Family Violence
 - SOC-S 360 Topics in Social Policy: Drugs and Society
 - HIST-A 375 Crime and Punishment in U.S. History
 - One CJHS or PAHM course as approved by sociology faculty such as CJHS-J 331 Corrections or PAHM-V 376 Law and Public Policy

*Please note that along with SOC-S 100 or SOC-S 101, SOC-S 252 will be a prerequisite for all upper level sociology courses totaling 6.0 credit hours prerequisite. Some courses also have other additional prerequisites. **These courses have 9.0 credit hours as prerequisite (SOC-S 100 or SOC-S 101, SOC-S 252, and SOC-S 316 family*****SOC-S 375** strongly recommended for the Applied Sociology/Human Services Track. ****Also please note that courses taken in Public Management and Health Administration (PMHA) are counted as non-Humanities and Social Sciences but will still count toward the major.

Requirements for the Applied Sociology/Human Services Track within the B.A. in Sociology (BA-AS/HS)

1. See "Degree Requirements" section under "Humanities and Social Sciences."
2. Sociology Major (BA-AS/HS) - Students must complete a minimum of 30 credit hours in sociology with a grade of C or higher in each course. The following 18 credit hours of courses are required in addition to S100:
 - SOC-S 100 Introduction to Sociology (counts for general education) (3 cr.)
 - SWK-S 141 Introduction to Social Work or HUMS 101 from Ivy Tech (3 cr.)
 - SOC-S 252 Methods of Sociological Research (3 cr.)
 - SOC-S 340 Social Theory (3 cr.)
 - SOC-S 360 Topics in Social Policy: Statistics for Social & Health Professionals (3 cr.)
 - SOC-S 497 Field Experience in Human /Social Services (3 cr.)
 - SOC-S 471 Senior Seminar in Applied Sociology/ Human Services (3 cr.)

Please note that SOC-S 100 applies to general education core but must be taken for the major.

3. Sociology Elective Courses in the Applied Sociology/ Human Services Track (BA - AS/HS) (4 courses or 12 credit hours from the list below.)
 - SOC-R 320 Sexuality and Society (3 cr.)
 - SOC-S 302 Organizational Life (3 cr.)
 - SOC-S 314 Social Aspects of Health and Medicine (3 cr.)
 - SOC-S 315 Work and Occupations (3 cr.)
 - SOC-S 316 Family (3 cr.)
 - SOC-S 317 Inequality (3 cr.)

- SOC-S 325 Juvenile Delinquency (3 cr.)
- SOC-S 328 Criminology (3 cr.)
- SOC-S 331 Aging (3 cr.)
- SOC-S 344 Sociology of Childhood ** (3 cr.)
- SOC-S 335 Race and Ethnic Relations (3 cr.)
- SOC-S 338 Gender Roles (3 cr.)
- SOC-S 360 Topics in Social Policy: Drugs and Society (3 cr.)
- SOC-S 360 Topics in Social Policy: Family Violence** (3 cr.)
- SOC-S 360 Topics in Social Policy: Drugs and Society (3 cr.)
- SOC-S 363 Sociology of Development (3 cr.)
- SOC-S 375 Issues in Human & Social Service Policy*** (3 cr.)
- SOC-S 419 Social Movements and Collective Action (3 cr.)
- SOC-S 420 Topics in Deviance: White Collar Crime/Organized Crime (3 cr.)

Up to two courses (6 credit hours) of the above 15 credit hours may be selected from Interdisciplinary Electives for AS/HS Track from the following courses from the approved list of upper level courses from other disciplines. Those approved interdisciplinary elective courses include the following:

- PSY-P 303 Health Psychology
- PSY-P 324 Abnormal Psych
- PSY-P 381 Helping Skills
- PAHM-V 362 Nonprofit sector****
- PAHM-V 373 Human Resource Management****
- PAHM-V 379 Program Evaluation****
- SPCH-C 380 Organizational Communication****

*Please note that along with SOC-S 100 or SOC-S 101, SOC-S 252 will be a prerequisite for all upper level sociology courses totaling 6.0 credit hours prerequisite. Some courses also have other additional prerequisites.**These courses have 9.0 credit hours as prerequisite (SOC-S 100 or SOC-S 101, SOC-S 252, and SOC-S 316 family****This course is strongly recommended for the Applied Sociology/Human Services Track. Please note that courses taken in Public Management and Health Administration (PMHA) are counted as non-Arts and Science electives but will still count toward the major.

4. Optional Specialty Concentrations within a Sociology Degree - these tracks can be taken with either a BS or a B.A. and with either the Traditional track or Applied Sociology/Human Services track – see Optional Specialty Requirements for the BA Traditional (BA T) degree

Children and Families Concentration (12 cr.) (Any of the following five courses or 12.0 credit hours)

- SOC-S 316 Family
- SOC-S 331 Aging
- SOC-S 338 Gender
- SOC-S 344 Sociology of Childhood
- SOC-S 360 Topics in Social Policy: Family Violence

Crime & Society Concentration (12.0 cr.) Students will complete two of the following courses:

- SOC-S 325 Criminology

- SOC-S 328 Juvenile Delinquency
- SOC-S 420 Topics in Deviance: White Collar Crime/Organized Crime
- And Students will complete two of the following courses:
 - SOC-S 360 Topics in Social Policy: Family Violence
 - SOC-S 360 Topics in Social Policy: Drugs and Society
 - HIST-A 375 Crime and Punishment in U.S. History
 - One CJHS or PAHM course as approved by sociology faculty such as CJHS-J 331 Corrections or PAHM-V 376 Law and Public Policy

Bachelor of Science in Sociology

The **Bachelor of Science degree in sociology** provides students with a broad exposure to the theories, methods, and substantive areas of the discipline. The program provides training in social theory, research skills, and specialized course work that prepares students for a variety of careers within human and social services but especially provides options for applied and interdisciplinary work as preparation for careers in social and human services. The B.S. degree also serves as a foundation for graduate work in sociology as well as in other professional fields such as social work, public administration, law, and business. **Students may select a traditional or applied sociology/human services track within this degree.** Specialty concentrations in “**Children and Families**” and/or “**Crime and Society**” may also be selected within the sociology electives needed for the degree. It is strongly recommended that IU Kokomo students selecting a major or a minor in sociology complete SOC-S 252, Methods of Sociological Research, at the earliest possible opportunity before taking advanced upper level courses in sociology.

Requirements for the Traditional Track within the B.S. in Sociology (BS-T)

1. See “Degree Requirements” section under “Humanities and Social Sciences.”
2. Sociology Major (BS-T) - Students must complete a minimum of 42 credit hours in sociology with a grade of C or higher in each course. The following 15 credit hours of courses in addition to S100 are required:
 - SOC-S 100 Introduction to Sociology (3 cr.) (counts for general education)*
 - SOC-S 252 Research Methods (3 cr.)
 - SOC-S 340 Social Theory (3 cr.)
 - SOC-S 360 Topics in Social Policy: Statistics for the Social and Health Professionals (3 cr.)
 - SOC-S 494 Field Experience in Sociology (3 cr.) or SOC-S495 Independent Readings in Sociology (3 cr.)
 - SOC-S 470 Senior Seminar

*Please note that SOC-S 100 applies to general education core but must be taken for the major

3. Sociology Elective Courses in Traditional Track for the B.S. in Sociology (BS-T) (9 courses or 27 credit hours from the list below.)*

- SOC-R 320 Sexuality & Society (3 cr.)
- SOC-S 302 Organizational Life (3 cr.)
- SOC-S 314 Social Aspects of Health and Medicine (3 cr.)
- SOC-S 315 Work and Occupations (3 cr.)
- SOC-S 316 Family (3 cr.)
- SOC-S 317 Inequality (3 cr.)
- SOC-S 325 Juvenile Delinquency (3 cr.)
- SOC-S 328 Criminology (3 cr.)
- SOC-S 331 Aging (3 cr.)
- SOC-S 344 Sociology of Childhood (3 cr.) **
- SOC-S 335 Race and Ethnic Relations (3 cr.)
- SOC-S 338 Gender Roles (3 cr.)
- SOC-S 360 Topics in Social Policy: Family Violence (3 cr.)**
- SOC-S 360 Topics in Social Policy: Drugs and Society (3 cr.)
- SOC-S 363 Sociology of Development (3 cr.)
- SOC-S 375 Issues in Human & Social Service Policy (3 cr.)***
- SOC-S 419 Social Movements and Collective Action (3 cr.)
- SOC-S 420 Topics in Deviance: White Collar Crime (3 cr.)
- SOC-S 420 Topics in Deviance: Organized Crime (3 cr.)
- SOC-S 495 Individual Readings in Sociology (3 cr.)

4. Optional Specialty Concentrations within a Sociology Degree - these tracks can be taken with either a BS or a B.A. and with either the Traditional track or Applied Sociology/Human Services track. See Optional Special Concentrations for all degree options under the BA-T degree.

Children and Families Concentration (12 cr.)

(Any of the following five courses or 12.0 credit hours)

- SOC-S 316 Family
- SOC-S 331 Aging
- SOC-S 338 Gender
- SOC-S 344 Sociology of Childhood
- SOC-S 360 Topics in Social Policy: Family Violence

Crime & Society Concentration (12.0 cr.)

1) Students will complete two of the following courses:

- SOC-S 325 Criminology
- SOC-S 328 Juvenile Delinquency
- SOC-S 420 Topics in Deviance: White Collar Crime or Organized Crime

2) And Students will complete two of the following courses:

- SOC-S 360 Topics in Social Policy: Family Violence
- SOC-S 360 Topics in Social Policy: Drugs and Society
- HIST-A 375 Crime and Punishment in U.S. History

- One CJHS or PAHM course as approved by sociology faculty such as CJHS-J 331 Corrections or PAHM-V 376 Law and Public Policy

Requirements for the Applied Sociology/Human Services track within the B.S. in Sociology (BS-AS/HS)

1. See "Degree Requirements" section under "Humanities and Social Sciences."
2. Sociology Major (BS-AS/HS) - Students must complete a minimum of 42 credit hours in sociology with a grade of C or higher in each course. The following 18 credit hours of courses are required in addition to S100:

- SOC-S 100 Introduction to Sociology (counts for general education)*
- SWK-S 141 Introduction to Social Work (or HUMS 101 from Ivy Tech)
- SOC-S 252 Research Methods
- SOC-S 340 Social Theory
- SOC-S 360 Topics in Social Policy: Statistics for Social and Health Professionals
- SOC-S 497 Field Experience in Human/Social Services
- SOC-S 471 Senior Seminar in Applied Sociology/ Human Services

*Please note that SOC-S 100 applies to general education core but must be taken for the major

3. Sociology Elective Courses in Applied Sociology/ Human Services for the B.S. in Sociology (6 courses or 18 credit hours from the list below.*

- SOC-R 320 Sexuality & Society
- SOC-S 302 Organizational Life
- SOC-S 314 Social Aspects of Health and Medicine
- SOC-S 315 Work and Occupations
- SOC-S 316 Family
- SOC-S 317 Inequality
- SOC-S 325 Juvenile Delinquency
- SOC-S 328 Criminology
- SOC-S 331 Aging
- SOC-S 344 Sociology of Childhood **
- SOC-S 335 Race and Ethnic Relations
- SOC-S 338 Gender Roles
- SOC-S 360 Topics in Social Policy: Family Violence**
- SOC-S 360 Topics in Social Policy: Drugs and Society
- SOC-S 375 Issues in Human & Social Service Policy**
- SOC-S 419 Social Movements and Collective Action
- SOC-S 420 Topics in Deviance: White Collar Crime/ Organized Crime
- SOC-S 495 Individual Readings in Sociology

*Please note that along with SOC-S 100 or SOC-S 101, SOC-S 252 will now be a new added prerequisite for all upper level sociology courses totally 6.0 credit hours prerequisite. Some courses also have other additional prerequisites. **These courses have 9.0 credit hours as prerequisite (SOC-S 100 or SOC-S 101, SOC-S 252 Research Methods, and SOC-S 316 Family).

***This course is strongly recommended for the Applied Sociology/Human Services Track

Interdisciplinary Electives for the Applied Sociology/ Human Services Track in the B.S. in Sociology

(Two courses or 6.0 credit hours)

Students in the AP/HS track will select two of the following courses from an approved list of upper level courses from other disciplines. Those approved courses include:

- PSY-P 303 Health Psychology
- PSY-P 324 Abnormal Psych
- PSY-P 381 Helping Skills
- PAHM-V 362 Nonprofit sector*
- PAHM-V 373 Human Resource Management*
- PAHM-V 379 Program Evaluation*
- SPCH-C 380 Organizational Communication*

*Please note that courses taken in Public Management and Health Administration (PMHA) are counted as non-Arts and Science electives but will still count toward the major.

4. Optional Specialty Concentrations within a Sociology Degree - these tracks can be taken with either a BS or a B.A. and with either the Traditional track or Applied Sociology/Human Services track. See Optional Specialty Concentrations for all degree options under the BA-T degree.

Children and Families Concentration (12 cr.)

(Any of the following five courses or 12.0 credit hours)

- SOC-S 316 Family
- SOC-S 331 Aging
- SOC-S 338 Gender
- SOC-S 344 Sociology of Childhood
- SOC-S 360 Topics in Social Policy: Family Violence

Crime & Society Concentration (12.0 cr.)

1) Students will complete two of the following courses:

- SOC-S 325 Criminology
- SOC-S 328 Juvenile Delinquency
- SOC-S 420 Topics in Deviance: White Collar Crime or Organized Crime

2) And Students will complete two of the following courses:

- SOC-S 360 Topics in Social Policy: Family Violence
- SOC-S 360 Topics in Social Policy: Drugs and Society
- HIST-A 375 Crime and Punishment in U.S. History
- One CJHS or PAHM course as approved by sociology faculty such as CJHS-J 331 Corrections or PAHM-V 376 Law and Public Policy

Sociology, History, and Political Science Courses Undergraduate

Sociology

SOC-R 320 Sexuality and Society (3 cr.) P: S100 or S101 The study of social issues and problems related to human sexuality using sociological perspectives. Examines diversity with regard to in sexual practices among various cultures and categories of people. Includes sociological research about topics such as the use of sex in the media and advertising, social controversies surrounding sexual orientation, and the sexualization of children.

SOC-S 100 Introduction to Sociology (3 cr.) Every semester. Introduction to the concepts and methods of sociology with a focus on American Society as well as global issues.

SOC-S 101 Social Problems and Policies (3 cr.) Provides an introduction to sociology through an in-depth study of major social problems; explores the policy implications of the general sociological perspective and of sociological knowledge of particular problems. Problems include population, drug use, science and technology, and poverty.

SOC-S 252 Methods of Sociological Research (3 cr.) P: S100 or S101 and Sophomore standing. Every fall semester. P: 3 credit hours of sociology. This course is a prerequisite for most upper level (300-400 level) courses in sociology. A survey of methods and techniques used by sociologists for gathering and interpreting information about human social behavior.

SOC-S 302 Organizational Life (3 cr.) P: 3 credit hours of sociology or consent of instructor. Sources, types, and consequences of variations in organizational structures and functions. Varying organizational arrangements as they have affected and are affected by changes in input and output. Complex organizations and their impact from a comparative perspective.

SOC-S 314 Social Aspects of Health and Medicine (3 cr.) P: 3 credit hours of sociology or consent of instructor. Survey of the nature of health care systems. Patient and professional role behavior are explored, as well as the characteristics of different health care settings.

SOC-S 315 Work and Occupations (3 cr.) P: 3 credit hours of sociology or consent of instructor. Examines work roles within such organizations as factory, office, school, government, and welfare organizations; career and occupational mobility in work life; formal and informal organizations within work organizations; labor and management conflict and cooperation; problems of modern industrial workers.

SOC-S 316 The Family (3 cr.) Every semester. P: 3 credit hours of sociology or consent of instructor. The sociological study of family relationships and the interconnections between the individual, family and wider society. Considers American families as well as other cultural family types. Emphasis on theories and empirical research explaining family patterns.

SOC-S 317 Inequality (3 cr.) P: 3 credit hours of sociology or consent of instructor. Nature, functioning, and maintenance of systems of social stratification in local communities and societies. Correlates and consequences of social class position and vertical mobility.

SOC-S 325 Juvenile Delinquency (3 cr.) P: 3 credit hours of sociology or consent of instructor. Factors in

genesis of crime and organization of criminal behavior from points of view of the person and the group.

SOC-S 328 Criminology (3 cr.) P: 3 credit hours of sociology or consent of instructor. Legal definition of delinquency, measurement and distribution of delinquency. Causal theories considered for empirical adequacy and policy implications. Procedures for processing juvenile offenders by police, courts, and prisons are examined.

SOC-S 331 Sociology of Aging (3 cr.) P: 3 credit hours of sociology or consent of instructor. Survey of the social dimensions of the aging process within a multidisciplinary context. Emphasis on the empirical and theoretical findings with regard to the role of the elderly in society, problems of the elderly, and cross-cultural differences in the aging process.

SOC-S 335 Race and Ethnic Relations (3 cr.) P: 3 credit hours of sociology or consent of instructor. Relations between racial and ethnic minority and majority groups; psychological, cultural, and sociological theories of prejudice and discrimination; comparative analysis of diverse systems of intergroup relations.

SOC-S 338 Gender Roles (3 cr.) P: 3 credit hours of sociology or consent of instructor. Exploration of the research and theories explaining gender roles in contemporary societies. Emphasis on defining gender roles; tracing their historical development; considering their implications for work, marriage, parenting, and equality in society. Includes cross-cultural comparisons.

SOC-S 340 Social Theory (3 cr.) P: 3 credit hours of sociology or consent of instructor. Junior standing recommended. Sociological theory, with focus on content, form, and historical development. Relationship between theories, data, and sociological explanations.

SOC-S 344 Sociology of Childhood (3 cr.) P: SOC-S 100 or SOC-S 101 and SOC-S 316, and SOC S232 recommended or by consent of the instructor. Analysis of childhood as a structural form and children as social agents who contribute to societal reproduction and change. Considers the relation of childhood to other social institutions and children's contributions to society historically and cross-culturally. Examines how social policies in education, family, work, and the media affect children's lives.

SOC-S 360 Topics in Social Policy: (3 cr.)

P: 3 credit hours of sociology or consent of instructor, but some courses have additional prerequisites. Variable topics in social policy. May be repeated for credit with different topics. Recent topics include:

1. Statistics for Social and Health Professionals (Spring) P: 3 hours of sociology and Math 118 or Math 119 or equivalent. This course replaces PSY K 300 and is the required statistics course for all sociology majors.
2. Drugs and Society (P: 3 hours of sociology.)
3. Family Violence (P: 6 hours of sociology including SOC S316; SOC S252 recommended.)

1-5

SOC-S 361 Cities and Suburbs (3 cr.) P: 3 credit hours of sociology or consent of instructor. Introduction to theory

and research on the changing scale and complexity of social organization (urbanization), the quality of life in urban areas, demographic and ecological city growth patterns, and public policy concerns in contemporary urban society.

SOC-S 363 Sociology of Development (3 cr.) P: 3 credit hours of sociology or consent of instructor. An introduction to the various theoretical perspectives and empirical studies pertaining to development. Specific topics include women in development, sustainable development, and the third world within the context of the global political economy.

SOC-S 375 Issues in Human and Social Service Policy (3 cr.) P: Junior or Senior standing and completion of at least 12 credits in sociology including SOC-S 100 or SOC-S 101, SWK S141 or equivalent, and 2 other courses or instructor approval. Recommended for students before enrolling in SOC-S 494/497 Field Experience. Examination of theories in sociology relevant to human/social services delivery, as well as the ethical and professional issues of workers in human/social service agencies with clients from diverse populations. Application of sociological concepts, theories, and methods as they apply to the management, practice, and evaluation of human/social service agencies.

SOC-S 411 Sociology of Power (3 cr.) P: 3 credit hours of sociology or consent of instructor. Power in social systems; its nature, organization, distribution, determinants, and consequences.

SOC-S 419 Social Movements and Collective Action (3 cr.) P: 3 credit hours of sociology or consent of instructor. Change-oriented social and political collective action and consequences for groups and societies. Resource mobilization, historical and comparative analysis of contemporary movements, and collective action.

SOC-S 420 Topics in Deviance: White Collar Crime or Organized Crime (3 cr.) P: 3 credit hours of sociology or consent of instructor. An examination of the historical development, causes, and consequences of white collar or organized crime. Emphasis given to law enforcement responses to these forms of criminal behavior. White collar crime topic offered alternating offerings with Organized Crime topic.

SOC-S 470 Senior Seminar in Sociology (Traditional Track) (3 cr.) P: Completion of core requirements including S252, S340, S360 Topics in Social Policy: Statistics for Social & Health Professionals, Senior standing, and completion of a minimum of 18 credit hours in sociology or consent of instructor. Capstone course in sociology for the Traditional track of the B.A. or B.S. degree. Students conduct individual research projects under faculty supervision, make presentations, discuss sociological issues, prepare for applying to graduate school and seeking employment with a sociology degree after graduation. May not be repeated as SOC-S471.

SOC-S 471 Senior Seminar in Applied Sociology/Human Services (3 cr.) P: Completion of core requirements including S252, S340, S360 Topics in Social Policy: Statistics for Social & Health Professionals, Senior standing, and completion of a minimum of 18 credit hours in sociology or consent of instructor. Capstone Course for the Applied Sociology/Human Services Track in the Sociology B.A. or B.S. Students will investigate

issues related to social service agencies, their clients, and/or workers as well as employment strategies after graduation and graduate school options. May not be repeated as SOC-S470.

SOC-S 494 Field Experience in Sociology (3 cr.) C: for students in the Traditional Track of the Sociology B.A. or B.S. SOC-S 494 Field Experience in Sociology (3 cr.) P: Junior or Senior Standing and Consent of instructor. Faculty-directed study of aspects of sociology based on field experience, in conjunction with directed readings and writings. Specifically, each intern is required to keep a daily journal that is given at regular intervals to the faculty sponsor, and write an analytic paper dealing with the field experience. May not be repeated as SOC-S 497.

SOC-S 495 Individual Readings in Sociology (arr. cr.) P: Junior or Senior Standing and Consent of instructor. Prior arrangement required.

SOC-S 497 Field Experience in Human/Social Services (arr. cr.) C: For students in the Applied Sociology/Human Services track in the Sociology B.A. or B.S. P: Junior or Senior Standing with completion of 15 hours of upper level sociology courses including SOC-S 100 or SOC-S 101, SOC-S 252, SOC-S 340, and S-360 Statistics, and consent of instructor. Practical work in a social service agency under direction of a site supervisor and completion 120 hours of supervised internship. Student will job shadow key persons, observe client cases and assist with the usual work of the agency as approved by the site supervisor. Under direction of instructor, student will keep a journal applying sociological concepts and write a directed research paper about an issue related to the experience. May be repeated once for credit in varied setting. May not be repeated as SOC-S 494.

History

HIST-H 105 American History I (3 cr.) Every semester. I: colonial period, revolution, confederation and constitution, national period to 1865.

HIST-H 106 American History II (3 cr.) Every semester. 1865 to present. Evolution of American society: political, economic, social structure; racial and ethnic groups; sex roles; Indian, inter- American, and world diplomacy of United States; evolution of ideology, war, territorial expansion, industrialization, urbanization, international events and their impact on American history.

HIST-H 113 History of Western Civilization I (3 cr.) Every semester. I: Rise and fall of ancient civilizations; barbarian invasions; rise, flowering, and disruption of medieval church; feudalism; and national monarchies.

HIST-H 114 History of Western Civilization II (3 cr.) Every semester. Rise of middle class; parliamentary institutions, liberalism, political democracy; industrial revolution, capitalism, and socialist movements; nationalism, imperialism, international rivalries, and world wars.

HIST-A 314 United States History, 1917-1945 (3 cr.) R: HIST-H 106 or completion of 56 credit hours. Political, demographic, economic, and intellectual transformations. 1917-1945: World War I, the twenties, the depression, the New Deal, World War II.

HIST-A 315 United States Since World War Two (3 cr.) R: HIST-H 106 or completion of 56 credit hours. Alternate

years. Political, demographic, economic, and intellectual transformations. 1945-present: the cold war, problems of contemporary America.

HIST-A 333 History of Indiana I (3 cr.) I: The course deals with the development of a midwestern state, with emphasis on the French and British periods; the West in the American Revolution; the transition from territory to state; political, economic, and cultural patterns; and the sectional crisis.

HIST-A 334 History of Indiana II (3 cr.) The period since 1865, tracing the development of a modern industrial commonwealth—agriculture, industry, politics, society, education, and the arts.

HIST-B 361 Europe in the Twentieth Century I (3 cr.) Economic, social, political, and military-diplomatic developments, 1900 to present. I: 1900-1930: origins, impact, and consequences of World War I; peacemaking; postwar problems; international communism and fascism; the Great Depression.

HIST-B 362 Europe in the Twentieth Century II (3 cr.) 1930-present: Depression politics; crisis of democracy; German national socialism; World War II; Cold War; postwar reconstruction and recovery.

HIST-A 375 Crime and Punishment in American History (3 cr.) R: HIST-H 106 or completion of 56 credit hours. Alternate years. This course focuses on the history of crime and punishment in the 20th-century United States.

HIST-A 382 The Sixties (3 cr.) R: HIST-H 106 or completion of 56 credit hours. Alternate years. This course focuses on the history of the United States during the 1960s and the political change and dissent; rights movements; United States foreign policy and the conflict in Vietnam; gender, exploitation, and legal change that occurred. It addresses a variety of topics, including; and the increasing diversity of expression in social values and cultural practices.

HIST-H 405 Global History of Modern Sport (3 cr.) Alternate Years. Origins and development of sport in the modern world. From British public schools and ideals of fair play, through the Olympic movement, international soccer, holliganism and fandom, sport's role in identity creation and nationalism, and mass culture.

HIST-D 410 Russian Revolutions and Soviet Regime (3 cr.) Alternate years. Causes and development of Russian revolutions and civil war; Lenin, Trotsky, and Stalin; purges, terror, economic development, society, and arts under Stalin; struggle against Hitler; scope and limits of de-Stalinization under Khrushchev; minorities; dissent, and life in the former Soviet Union today.

HIST-H 421 Topics: Asia, Africa, Latin America (3 cr.) Intensive study and analysis of selected historical issues and/or problems in African, Asian, or Latin American history. Topics will vary from semester to semester.

HIST-H 425 Topics in History (1-3 cr.) Intensive study and analysis of selected historical issues and problems of limited scope. Topics will vary; but will ordinarily cut across fields, regions, and periods. May be repeated once for credit.

HIST-H 495 Individual Readings in History (arr. cr.)
Every semester (undergraduate). P: consent of instructor.

HIST-J 495 Senior Seminar for History Majors (3 cr.)
Alternate years, Spring Semester. Senior Seminar for History/Political Science majors. P: consent of instructor.

HIST-H 496 Internship in History (arr. cr.) Every semester (undergraduate). P: consent of instructor.

Anthropology

ANTH-A 103 Human Origins and Prehistory (3 cr.) Humans, their biological evolution, and their archaeological history through stone and metal ages.

ANTH-A 104 Culture and Society (3 cr.) Every semester. Introduction to the comparative study of contemporary human cultures and social processes that influence behavior.

ANTH-E 329 Indians in the U.S. in the Twentieth (3 cr.) Position of the American Indian as an ethnic minority, including health, education, economy, and political consideration of proposals to change the Indian's status.

ANTH-E 445 Medical Anthropology (3 cr.) A cross-cultural examination of human biocultural adaptation in health and disease, including biocultural epidemiology; ethnomedical systems in the prevention, diagnosis, and treatment of disease; and sociocultural change and health.

ANTH-E 455 Anthropology of Religion (3 cr.) Critical evaluation of current approaches to the analysis of religious myth, ritual, and symbolism. Problems in understanding religious beliefs of other cultures. Modern development of the anthropology of religion.

ANTH-P 360 Prehistory of North America (3 cr.) Introduction to antiquity of the American Indian, principal culture areas, and field methods and techniques incident to recovery of archaeological data and materials.

Political Science

POLS-Y 103 Introduction to American Politics (3 cr.) Every semester. Introduction to the nature of government and the dynamics of American politics. Origin and nature of the American federal system and its political party base.

POLS-Y 215 Introduction to Political Theory (3 cr.) Every three semesters. An introduction to major ideas and theories in Western political thought, including theories of democracy and the analysis of conflict and cooperation. The course also addresses the attempts made by prominent political philosophers – from Aristotle and Plato to Locke, Marx, and Rawls – to understand and describe the nature of politics.

POLS-Y 217 Introduction to Comparative Politics (3 cr.) Every three semesters. A course that introduces students to the major political systems of the world. Students will study systems within Western and non-Western countries. Comparisons will include executive and legislative structures, elections, political parties, interest groups and key areas of public policy. Not open to students who have completed POLS-Y 107.

POLS-Y 219 Introduction to International Relations (3 cr.) An introduction to the global political system, and issues that shape relations among countries. The course looks at problems of conflict resolution, the role of international law and organizations, the challenges

of poverty and development, and the other major policy issues over which nations cooperate, argue, or go to war. Not open to students who have completed POLS-Y 109.

POLS-Y 301 Political Parties and Interest Groups (3 cr.) Theories of American party activity; behavior of political parties, interest groups, and social movements; membership in groups; organization and structure; evaluation and relationship to the process of representation.

POLS-Y 304 Constitutional Law (3 cr.) Nature and function of law and judicial process; selected Supreme Court decisions interpreting the American constitutional system.

POLS-Y 311 Democracy and National Security (3 cr.) Exploration of a basic dilemma in a democratic polity: How can demands for national security be reconciled with democratic practices and values? Concepts of civil-military relations, national security structure, professional and political commitments of the military, human resource utilization, popular control of policy, and the nature of individual liberty.

POLS-Y 338 African Politics (3 cr.) Politics in contemporary sub-Saharan Africa. Topics include processes of nation building, dependency and underdevelopment; role of political parties, leadership, ideology, and military rule; continuing relevance of colonial heritage and traditional culture; network of international relations; and special situation of South Africa.

POLS-Y 360 United States Foreign Policy (3 cr.) Analysis of institutions and processes involved in the formation and implementation of United States foreign policy. Emphasis is on post-World War II policies.

POLS-Y 480 Undergraduate Readings in Political Science (arr cr.) Every semester. Individual readings and research. May be taken only with consent of the instructor.

POLS-Y 481 Field Experience in Political Science (arr cr.) P: junior or senior standing and approval of instructor. Faculty-directed study of aspects of the political process through internship experience in local, state, or national government.

POLS-Y 490 Senior Seminar in Political Science (3 cr.) Alternate years, Spring Semester. Senior Seminar for History/Political Science majors. P: consent of instructor.

Bachelor of Arts in History/Political Science

The Bachelor of Arts degree in History/Political Science is an undergraduate program that provides students with an opportunity to concentrate in History, Political Science, or Law and Society. The degree prepares students for a wide array of employment possibilities in government, public administration, public history and museums as well as post-graduate opportunities in law, history, political science and public administration.

Requirements:

See "Degree Requirements" Section under "Humanities and Social Sciences". The History/Political Science major consists of 30 credit hours that must be completed with a grade of C– or better in each course. See a History/Political Science advisor for additional information concerning degree-specific opportunities and

requirements. The following courses are required of all History/Political Science majors:

- POLS-Y 103 Introduction to American Politics (taken towards general education)
- HIST-H 105 American History I (taken towards general education)
- HIST-H 106 American History II (taken towards general education)
- HSS-S 400 Senior Seminar

Tracks for History/Political Science Degree History Track (30 cr.)

- Six Upper-level History Courses
- HSS-S 400 Senior Seminar

(Students are encouraged to take HIST-H 495 or HIST-H 496 as part of the above requirements)

Two of the following:

- POLS-Y 215 Introduction to Political Theory
- POLS-Y 217 Introduction to Comparative Politics
- POLS-Y 219 Introduction to International Relations
- Upper-level Social & Behavioral Sciences Elective

Political Science Track (30 cr.)

Two of the following:

- POLS-Y 215 Introduction to Political Theory
- POLS-Y 217 Introduction to Comparative Politics
- POLS-Y 219 Introduction to International Relations
- Four Upper-level Political Science Courses
- HSS-S 400 Senior Seminar

(Students are encouraged to take POLS-Y 480 or POLS-Y 481 as part of the above requirements)

- Two Upper-level History Courses
- HSS-S 400 Senior Seminar
- Upper-level Social and Behavioral Sciences Elective

Law and Society Track (36 cr.)

History/Political Science Foundation

- POLS-Y 215 Introduction to Political Theory
- Two Upper-Level History Courses (one on US history, one on world history)
- One Upper-Level Political Science Course

Humanities Foundation

- Choose one of: PHIL-P 342 Problems in Ethics, PHIL-P 345 Problems in Social and Political Philosophy, or PHIL-P 375 Philosophy of Law
- Any one ENG E or ENG-L 300+ literature course except ENG-L 390 and ENG-L 391
- Choose one of: SPCH-S 228 Argumentation and Debate, SPCH-C 310 Rhetoric and Public Address, SPCH-C 321 Persuasion, SPCH-C 325 Interviewing, SPCH-C 444 Political Communication
- Law Specific Electives (3 classes from 2 different majors, 2 of which must be at the 300 level or higher from the below courses)
 - Criminal Justice: CJHS-J 320 Substantive Criminal Law, CJHS-J 220 American Criminal Courts, CJHS-J 210 Introduction to Law Enforcement, CJHS-J 324 Correctional Law,

CJHS-J 409 Crime and Public Policy, CJHS-J 321 Court Procedures and Evidence, CJHS-J 305 The Juvenile Justice System

- Public Administration and Health Management; PAHM-V 376 Law and Public Policy
- Sociology: SOC-S 325 Criminology, SOC-S 328 Juvenile Delinquency, SOC-S 360 Topics in Social Policy: Family Violence, SOC-S 420 Topics in Deviance
- Psychology: PSYC-P 322 Psychology in the Courtroom
- Business: BUS-L 200 Elements of Business Law, BUS-L 201 Legal Environment of Business
- Internship and Capstone

- Required internship as either HIST-H 496 or POLS-Y 481
- HSS -S 400 Senior Seminar

Note: Under the History and Political Science tracks the following Criminal Justice and Public Administration courses may be used as political science options: CJHS-J 320, Substantive Criminal Law; PAHM-V 264, Urban Structure and Policy; and PAHM-V 376, Law and Public Policy.

Bachelor of Science in History/Political Science

The Bachelor of Science degree in History/Political Science is an undergraduate program that provides students with an opportunity to concentrate in History and Political Science, and also develop a subconcentration in another field. The degree prepares students for a wide array of employment possibilities in government, public administration, public history and museums as well as post-graduate opportunities in law, history, political science and public administration.

In particular, the B.S. degree in History/Political Science is meant to facilitate dual degree programs with other majors that offer mostly B.S. degrees. Most notably, we work cooperatively with the School of Education so that students can complete both a Bachelor of Science in History/Political Science and a Bachelor of Science in Secondary Education. Students participating in this program will be certified to teach at the secondary school level with expertise in both History and Government.

Please see an advisor in either HSS or the School of Education for more information.

Core Requirements

See "Degree Requirements" Section under "Humanities and Social Sciences". The History/Political Science major consists of 45 credit hours that must be completed with a grade of C- or better in each course. See a History/Political Science advisor for additional information concerning degree-specific opportunities and requirements.

The following courses are required of all History/Political Science majors (18 cr.):

- POLS-Y 103 Introduction to American Politics (taken towards general education)
- HIST- H 113 Western Civilization I (taken towards general education)
- HIST- H 114 Western Civilization II

- HIST-H 105 American History I
- HIST-H 106 American History II
- HSS-S 400 Senior Seminar
- 6 credits from: POLS-Y 215 Introduction to Political Theory, POLS-Y 217 Introduction to Comparative Politics, POLS-Y 219 Introduction to International Relations

Tracks for History/Political Science Degree (21 cr.)

All students choose 1 track in this category.

History Track

- Seven Upper-Level (300+) History Courses

Political Science Track

- Five Upper-Level (300+) Political Science Courses
- Two Upper-Level (300+) History Courses

Balanced Track

- Four Upper-Level (300+) History Courses
- Three Upper Level (300+) Political Science Courses

Sub-Specializations (6 cr.)

All students choose 1 specialization in this category.

History

- 300+ Level History Course
- HIST-H 496 Internship in History

Political Science

- 300+ Level Political Science Course
- POLS-Y481 Field Experience in History

Education

- EDUC-M 300 Teaching in a Pluralsitic Society
- EDUC-H 340 Education and American Culture

Sociology

- 300+ Level Sociology Course
- SOC-S 340 Social Theory

Labor Studies

- 300+ Level Labor Studies Course
- 200+ Level Labor Studies Course

Public Affairs/Management

- Two 300+ Level Public Affairs/Management Courses

Criminal Justice

- Two 300+ Level Criminal Justice Courses

New Media

- NMCM-N 201 Introduction to New Media Communication
- 300+ Level New Media Course

Communication Arts

- SPCH-C 200 Introduction to Mass Communication
- 300+ Level Communication Course

Philosophy

- Two 300+ Level Philosophy Courses

Art/Art History

- Two 300+ Level Art or Art History Courses

Business

- BUS-D 301 International Business
- 300+ Level Business Course

Economics

- ECON-E 202 Macroeconomics
- ECON-E 303 International Economcis

Note: Students must take 1 elective at the 300+ level if they choose a sub-specialization in which 1 class is below the 300 level to ensure that they take the required 30 credit hours at the 300+ level. This class does not have to be from the History/Political Science program or the sub-specialization.

Minors in Sociology, History, and Political Science

Students may complete a minor in history, political science, or sociology by fulfilling the following requirements.

Sociology

Students must complete 18 credit hours in sociology with a grade of C or higher in each course.

1. SOC-S 100 Introduction to Sociology (3 cr.) or SOC-S 101 Social Problems and Policies (3 cr.).
2. SOC-S 252 Methods of Sociological Research. It is strongly recommended that I U Kokomo students selecting a minor in sociology complete SOC-S252, Methods of Sociological Research, at the earliest possible opportunity before taking advanced upper level courses in sociology.)
3. Any four 300-, or 400-level sociology courses (12 cr.).

History

Students must complete 15 credit hours in history with a grade of C– or higher in each course.

1. HIST-H 113 or HIST-H 114 History of Western Civilization I or II (3 cr.), and HIST-H 105 or HIST-H 106 American History: General Course I or II (3 cr.)
2. Any three 300- or 400-level history courses (9 cr.).

Political Science

Students must complete 15 credit hours in political science with a grade of C– or higher in each course.

1. POLS-Y 103 Introduction to American Politics (3 cr.)
2. POLS-Y 217 Introduction to Comparative Politics (3 cr.) or POLS-Y 219 Introduction to International Relations (3 cr.)
3. Any three 200, 300, or 400-level political science courses (9 cr.) with a limit of 3 credit hours at the 200 level.

Bachelor of Science in Criminal Justice

Chair: Nancy Greenwood, Ph.D.

Associate Professor: Kelly Brown, Ph.D.

Visiting Lecturer: Timothy Fulk, M.S.

MISSION STATEMENT

The Department of Criminal Justice and Homeland Security (CJHS) is committed to academic excellence and the improvement of criminal justice and homeland security practices through research and service. The department offers an excellent education designed to give students both a broad and in-depth knowledge of the criminal justice components and skills needed to succeed in a variety of careers in criminal justice or homeland security fields. Additionally, this program of study will prepare students for graduate studies. The department is dedicated to offering learning opportunities beyond the classroom including independent studies, research projects, internships, and participation in field trips, seminars, workshops, conferences, and student organization activities.

Bachelor of Science in Criminal Justice

Program Requirements

1. See the "Degree Requirements" section under the "School of Humanities and Social Sciences."
2. Criminal Justice Major: Students must complete a minimum of 42 credit hours in criminal justice with a grade of C- or higher in each course.
3. Criminal Justice Required Courses: The following courses are required of all criminal justice majors and may not be substituted:
 - CJHS-J 101 The American Criminal Justice System (3 cr.) (prerequisite for all other criminal justice course)
 - CJHS-J 201 Theoretical Foundations of Criminal Justice Policies (3 cr.)
 - CJHS-J 202 Criminal Justice Data, Methods and Resources (3 cr.)
 - CJHS-J 301 Substantive Criminal Law (3 cr.)
 - CJHS-J 306 The Criminal Courts (3 cr.)
 - CJHS-J 321 American Policing (3 cr.)
 - CJHS-J 331 Corrections (3 cr.)
 - CJHS-J 305 Juvenile Justice System (3 cr.)

4. Criminal Justice Elective Courses (18 cr.): Six additional 200-, 300- or 400-level criminal justice courses are required. Homeland security/emergency management courses may count as a criminal justice elective.

Certificate in Homeland Security and Emergency Management

The Certificate in Homeland Security and Emergency Management offers students an in-depth understanding of the issues and concerns surrounding homeland security and emergency management. The certificate also provides students with practical solutions in the management of natural and unnatural threats and emergency events. Upon completion of the certificate, students will be better equipped to lead their agency, department, organization, company, and community in the preparedness, response, recover, and mitigation of both natural and human-initiated disasters.

Certificate Requirements:

1. Students must meet the regular Indiana University admission requirements.
2. Students who are interested in pursuing the CJHS Certificate in Homeland Security and Emergency Management must demonstrate competence in ENG-W 131 or have taken CJHS-J101. Students seeking waiver of these courses must have either completed similar courses before applying to the program or have several years working experience in a criminal justice, homeland security, or related field. Waiver for these courses must be submitted in writing by the student to the department of CJHS and will be granted only by the department chair. Students must complete 15 credit hours in homeland security and emergency management with a grade of C- or higher in each course.
3. Students requesting substitution of any course below must complete and submit for approval the **Request for Possible Substitution of Courses in Criminal Justice** form which may be obtained from a Criminal Justice advisor.
4. This certificate is available for currently enrolled BS students in Criminal Justice and is financial aid eligible.
5. The courses for this certificate are usually offered only online.
6. The following courses (15 cr.) are required of all students seeking a certificate in homeland security and emergency management:
 - CJHS-J 278 Principles and Practices in Homeland Security (3 cr.)
 - CJHS-J 377 Foundations of Homeland Security (3 cr.)
 - CJHS-J 272 Terrorism and Public Policy (3 cr.)
 - CJHS-J 275 Introduction to Emergency Management (3 cr.)
 - CJHS-J 378 Public Administration and Emergency Management (3 cr.)

The Certificate in Correctional Management and Supervision

The Certificate in Correctional Management and Supervision is aimed at the non-degree student who is interested in obtaining collegiate experience in the field of

American corrections. This certificate is not financial aid eligible. Currently enrolled Criminal Justice majors are not eligible for this certificate.

Requirements for the Certificate in Correctional Management and Supervision are below:

1. Students must meet the regular Indiana University admission requirements.
2. Students must complete 15 credit hours in correctional management and supervision with a grade of C- or higher in each course.
3. Required courses may not be substituted for other courses
4. The following courses are required of all students seeking a certificate in correctional management and supervision:
 - CJHS-J101 American Criminal Justice System (3 cr.)
 - CJHS-J331 Corrections (3 cr.)
 - CJHS-J304 Correctional Law (3 cr.)
 - CJHS-J370 Seminar in Criminal Justice-Topic--Correctional Counseling (3 cr.)
 - CJHS-J370 Seminar in Criminal Justice-Topic--Correctional Administration (3 cr.)

Certificate in Public Safety

This certificate is aimed at the non-degree student who is interested in obtaining collegiate experience in the law enforcement field. This certificate is not financial aid eligible. Currently enrolled Criminal Justice majors are not eligible for this certificate.

Certificate in Public Safety Requirements:

1. Students must meet the regular Indiana University admission requirements.
2. Public Safety Certificate: Students must complete 15 credit hours in public safety with a grade of C- or higher in each course.
3. The following courses are required of all students seeking a certificate in public safety and may not be substituted:
 - CJHS-J 101 The American Criminal Justice System
 - CJHS-J 301 Substantive Criminal Law or 310 Introduction to Administrative Processes
 - CJHS-J 321 American Policing
 - CJHS-J 320 Criminal Investigation
 - CJHS-J 322 Introduction to Criministics
 - CJHS-J 370 Seminar in Criminal Justice

For many, one of these certificates will be beginning of further study leading to the B.S.C.J. Those interested in continuing their studies at IU Kokomo will find that their certificate hours will apply toward course requirements for this degree.

Criminal Justice Minor

Any IU Kokomo student enrolled in a baccalaureate program, except those enrolled in CJHS may pursue the following minor. This minor reinforces and enhances career options for a wide variety of majors, including those interested in attending law school after graduation. Students must complete 15 credit hours (5 courses) in criminal justice with a grade of C- or higher in each course. Required courses will not be substituted for other

courses. Substitution of elective courses requires the student to complete and submit for approval the **Request for Possible Substitution of Courses in the Criminal Justice** form which may be obtained from a Criminal Justice advisor.

Three Required Courses (9 cr.): (These courses may not be substituted.)

- CJHS-J101 American Criminal Justice System (3 cr.)
- CJHS-J201 Theoretical Foundations of Criminal Justice Policies (3 cr.)
- CJHS-J301 Substantive Criminal Law* (3 cr.)

Two Elective Courses (6 cr.) from this list:

- CJHS-J201 Theoretical Foundations of Criminal Justice Policies (3 cr.)
- CJHS-J306 Criminal Courts (3 cr.)
- CJHS-J321 American Policing (3 cr.)
- CJHS-J331 Corrections (3 cr.)

***Note:** CJHS-J301 is a prerequisite to all other criminal justice courses.

Criminal Justice Courses Undergraduate

CJHS-J 460 Police in the Community (3 cr.) In-depth examination of crime as an urban policy problem; focusing on the role of police and victims in defining crime as a policy problem, and their role in seeking to reduce the incidence of crime.

CJHS-J 101 American Criminal Justice System (3 cr.) Introduction to elements of the criminal justice system: the police, the courts, and corrections, and how they function in contemporary American society.

CJHS-J 201 Theoretical Foundations of Criminal Justice Policies (3 cr.) This course examines the impact of sociological, biological, and economic theories of crime and the practice of criminal justice. Focus is upon the natural and importance of theory, context of theoretical developments, methods for the critical analysis of theoretical developments, and policy implications of the varying perspectives considered.

CJHS-J 202 Criminal Justice Data, Methods and Resources (3 cr.) Course examines basic concepts of criminal justice. Students become familiar with research techniques necessary for systematic analysis of the criminal justice system, offender behavior, crime trends, and program effectiveness. Students will learn to critically evaluate existing research. Students will become familiar with existing sources of criminal justice data and will learn to assess the quality of that data.

CJHS-J 278 Principles and Practices in Homeland Security (3 cr.) An examination of the basic operations, functions, and issues involved in securing our homeland from domestic and international threats including possible threats and proactive and reactive measures against such threats.

CJHS-J 301 Substantive Criminal Law (3 cr.) The development, limitations, and applications of substantive criminal law utilizing the case-study method.

CJHS-J 302 Procedural Criminal Law (3 cr.) Criminal Law application and procedure from the initiation of police

activity through the correctional process utilizing the case-study method.

CJHS-J 303 Evidence (3 cr.) The rules of law governing proof at trial of disputed issues of fact; burden of proof; presumptions and judicial notice; examination, impeachment, competency, and privileges of witnesses hearsay rule and exceptions. All related as nearly possible to criminal as opposed to civil process.

CJHS-J 304 Correctional Law (3 cr.) Legal problems from conviction to release: pre-sentence investigations, sentencing, probation and parole, incarceration, loss and restoration of civil rights.

CJHS-J 305 The Juvenile Justice System (3 cr.) Current developments in the legal, administrative, and operational aspects of the juvenile justice system

CJHS-J 306 The Criminal Courts (3 cr.) An analysis of the criminal justice process from prosecution through appeal. The organization and operation of felony and misdemeanor courts are examined. Topics include: prosecutorial decision-making, plea bargaining, judicial selection, the conduct of trials, sentencing, and appeal.

CJHS-J 310 Introduction to Administrative Processes (3 cr.) Theory of investigation; crime scene procedures; interviews, interrogations, surveillance and sources of information; collection and preservation of physical evidence; investigative techniques in specific crimes.

CJHS-J 321 American Policing (3 cr.) A broadly based study of the operations and interrelationships of the American police system, including discussion of the limitations of the police function, inter-jurisdictional matters, and intra-agency processes.

CJHS-J 322 Introduction to Criminalistics (3 cr.) The broad range of physical evidence developed through the investigative process, and methods of identifying and establishing validity and relevance through forensic laboratory techniques.

CJHS-J 323 Court Procedure and Evidence (3 cr.) Criminal law application and procedure from the initiation of police activity through the correctional process and the rules of law governing proof at trial of disputed issues of fact; burden of proof; presumptions and judicial notice; examination, impeachment, competency, and privileges of witnesses; hearsay rule and exceptions. The focus will be on the criminal rather than the civil process. This course also includes a discussion on the 4th amendment and admissibility of evidence.

CJHS-J 331 Corrections (3 cr.) A survey of contemporary correctional systems, including analysis of federal, state, and local corrections; adult and juvenile facilities and programs; probation and parole. This course is not open to students who have not completed SOC-S 420 Topics in Deviance: Corrections.

CJHS-J 355 Global Criminal Justice Perspectives (3 cr.) This course will survey various criminal justice systems from a variety of cultures and regions of the world. Particular attention will be given to the contrast of eastern and western systems, as well as systems that do not fit neatly into established categories.

CJHS-J 360 Seminar in Criminal Justice (3 cr.) Selected Contemporary topics in criminal justice. May be repeated for credit.

CJHS-J 380 Internship in Criminal Justice (1-6 cr.) P: Permission of instructor and junior or senior status. May be repeated for credit. Course grade is S/F (Satisfactory/Fail). Students are placed with a criminal justice agency for assigned tasks. Students also complete an academic component.

CJHS-J 387 Foundations of Homeland Security (3 cr.) An examination of the theory and research driving homeland security and emergency management measures and an analytical look at the practices and principles of homeland security from an empirical perspective.

CJHS-J 439 Crime and Public Policy (3 cr.) This course is an introduction to the major efforts designed to control or reduce crime. A review of existing knowledge is followed by an investigation of current crime control theories, proposals, and programs.

CJHS-J 440 Corrections in the Community (3 cr.) An introduction to correctional alternatives to incarceration that focus on the reintegration of the offender while remaining in the community. Because of their extensive use, considerable attention is given to probation and parole. Other topics include diversion, community residential programs, restitution, halfway houses, and home detention.

CJHS-J 470 Seminar in Criminal Justice (3 cr.) Senior standing. Emphasizes current developments in legal, administrative, and operational aspects of the criminal justice system.

CJHS-J 480 Research in Criminal Justice (1-6 cr.) Junior standing and consent of instructor. Individual research under guidance of faculty member.

PAHM-V 272 Terrorism and Public Policy (3 cr.) Survey of the incidence of terrorism in democratic societies, with particular emphasis on public policy responses designed to combat terrorism in cities. Overviews of ongoing conflicts with terrorist organizations in various countries are interspersed with analysis of significant terrorist events and public policies and responses such events create.

PAHM-V 275 Introduction to Emergency Management (3 cr.) An examination of the background and nature of the profession, the central theoretical debates concerning natural and human-induced disasters, mitigating and reacting to these catastrophic events and the roles and responsibilities of emergency managers. Current practical problems and future directions will be explored.

PAHM-V 387 Public Administration and Emergency Management (3 cr.) An examination of the American federal system and how it affects policy making and emergency management. Topics include: government programs, participation of agencies and actors from all three levels of the government, the nonprofit sector, and the private sector. Administrative processes involved in managing major hazards and disasters will be presented.

Dean: Linda Wallace

Graduate Program Assistant Dean: Mary Bourke
RN-BSN Completion Program Assistant Dean: Lynda Narwold
Pre-Licensure Program Assistant Dean: Bridget Whitmore

Clinical Professor: Narwold
Associate Professor: Bourke, Wallace
Clinical Associate Professor: Heckman, Whitmore, Zody
Assistant Professor: Mouser, Poe-Greskamp, Tormoehlen
Lecturer: Atkin, Hollingsworth, Pratt, Rosales
Visiting Lecturer: Covington, Jones, Ledbetter, Leffler, Whang
Clinical Liaison: Connolly

The philosophy of the Indiana University Kokomo School of Nursing is consistent with the mission and purposes of Indiana University and Indiana University Kokomo. The faculty of the Indiana University Kokomo School of Nursing believe that the education of students is our primary mission. In accordance with Indiana University Kokomo, the School of Nursing faculty support a strong commitment to excellence in instruction, scholarship through research or creativity, educational outreach and service, and activities that enhance the quality of life in the region and the state. Faculty and students share accountability for creating an educational system that reflects respect, collaboration, intellectual inquiry, and creativity through the framework of the nursing metaparadigm. See Student Nursing Handbook for complete list of General Beliefs.

Mission Statement In support of Indiana University Kokomo's statements of commitment, the mission of the School of Nursing is to provide educational opportunities that prepare nurses at the baccalaureate and higher degree levels to provide safe, culturally component, evidence-based health care. Reflective of the faculty commitment to professional nursing, students are presented with opportunities for community involvement, professional engagement and lifelong learning.

Vision Statement Indiana University Kokomo School of Nursing strives to be the institution of choice for Baccalaureate and higher education, known for its excellence in preparing nurses who positively impact the nursing profession and health and wellness of the residents of North Central Indiana. We accomplish this through engagement in scholarly activities and delivery of high quality academic programs, continuing education and relevant community involvement.

Bachelor of Science in Nursing

The nursing program at IU Kokomo is a high quality baccalaureate degree program that prepares nurses as effective leaders, capable of collaborating with the interdisciplinary health team to promote safety and to achieve optimal patient outcomes across a variety of settings, including the hospital, home, and community. The BSN degree program integrates a strong background in the sciences and liberal arts with an excellent education in the profession of nursing.

The nursing program is tailored to meet the needs of beginning students as well as experienced nurses returning to complete a BSN. The nursing program provides a strong background for students in practice and for future graduate study. The curriculum is based on the AACN Essentials of Baccalaureate Nursing Practice (2008), the [ANA Code of Ethics for Nurses](#), the ANA Standards of Practice, and [Indiana State Nurse Practice Act](#).

Accreditation

The Bachelor of Science in Nursing program at Indiana University Kokomo is accredited by the Commission on Collegiate Nursing Education (CCNE) One DuPont Circle NW, Suite 530, Washington, DC 20036 (202) 887-6791. The Masters of Science in Nursing program has been granted candidacy status with the National League for Nursing Accrediting Commission (NLNAC).

Nondiscrimination Policy

Indiana University is committed to equal opportunity for all persons and provides its services without regard to gender, age, race, religion, ethnic origin, sexual orientation, veteran status, or disability. The university director of affirmative action is administratively responsible for carrying out the affirmative action program. There is also an affirmative action officer on each campus who develops and administers the affirmative action program there.

Scholarships and Financial Aid

Pre-nursing and nursing students are eligible for scholarships and financial aid offered to IU Kokomo students. Information may be found in the "Scholarships and Financial Aid" section of this bulletin. Information can also be obtained by contacting the Office of Scholarships and Financial Aid, Kelley Student Center.

Honors and Awards

Students have the opportunity to be recognized for academic excellence while pursuing their degree and at graduation. Full-time pre-nursing and nursing students will be placed on the Dean's List each semester they earn a GPA of 3.5 or higher. Part-time students are eligible for the Dean's List after the completion of 12 credit hours and

for each semester they have accumulated an additional 12 credit hours of course work on the Kokomo campus with a GPA of 3.5 or higher.

To graduate with academic distinction, baccalaureate students must complete a minimum of 60 credit hours at Indiana University and be in the top 10 percent of the graduating class. (Academic distinction is campus- and program specific. Students should check with the Advising Center for Allied Health and Nursing on the Kokomo campus for policy interpretation and procedures.)

Sigma Theta Tau

The School of Nursing at IU Kokomo is a proud member of the Alpha Chapter of Sigma Theta Tau, the International Honor Society of Nursing. The mission of Sigma Theta Tau is to support the learning, knowledge, and professional development of nurses committed to making a difference in health worldwide. Membership is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship, and to nurse leaders exhibiting exceptional achievements in nursing.

Back

General Policies for IU Kokomo School of Nursing

Student Responsibility

Students admitted to the School of Nursing are responsible for knowing and completing all requirements for their degree program. Academic counselors, faculty, and administrators are available to clarify the academic requirements and assist students in academic planning to progress toward their degree. All policies contained in the Indiana University Kokomo Bulletin are applicable for the year in which students are admitted to the Bachelor of Science in Nursing Degree program. The university and School of Nursing have ultimate authority to implement policy/curriculum changes as needed. All students are responsible for acquainting themselves with all university and School of Nursing policies pertaining to their admission, progression, and graduation, and will be subject to policy or curriculum changes as they progress. Students are accountable for compliance with the same throughout their course of study.

Disability Statement

Some students may have disabilities that would influence their ability to meet nursing program requirements at IU Kokomo. If you have a documented disability or other needs that may require consideration you are responsible for contacting the Career Services/Disability Services Office at 765.455.9301, Kelley Center Room 200 regarding your needs. The School of Nursing will make reasonable accommodation to assist the student with documented disabilities to successfully complete all requirements of the nursing program. If there is a question about whether a student's disability will interfere with successful program completion, the Student Affairs Committee will consider the case with the assistance of the Affirmative Action Officer. The School of Nursing makes no guarantee to students regarding accommodations that will be made for NCLEX testing or in future professional employment.

Confidentiality of Student Records

In accordance with federal statutes and regulations, student records are confidential. Disclosure of any information contained in these records to anyone other than the student will be made only in accordance with procedures described in the Code of Student Ethics.

Professional Liability Insurance

All undergraduate nursing students have liability insurance under the malpractice contract of Indiana University. This policy covers students only while caring for patients/clients in the student role.

Health Insurance

Students are required to have health insurance once admitted to the major, and should carry their card with them during each clinical course. Should an incident necessitating student treatment occur while in the clinical setting, associated costs will be the responsibility of the student and billed to the student's insurance provider.

Health Requirements

All nursing students must provide evidence of compliance with health and safety requirements (immunizations, drug and TB testing, physical examination, background check, CPR, and orientation requirements). Failure to adhere to the policy as posted in the Handbook for Nursing Students may lead to serious consequences, up to and including course failure and program dismissal. Requirements are subject to change at the discretion of healthcare agencies. Student result information will be provided to the clinical agency upon request. Notification of requirement changes will be forwarded as soon as they are communicated to the school. Submission of this documentation is a requirement of the healthcare agencies, and not a requirement of the university. Failure to submit the documentation will result in non-placement for clinical courses, and thus prohibit the student from progressing in the nursing major.

Clinical Attendance

Missing 20% or more of the clinical hours for a course will constitute failure in that course. Further guidance may be found in the Handbook for Nursing Students.

Inappropriate Behavior in Clinical Setting

If at any time, in the judgment of an IU Kokomo School of Nursing faculty member, a student appears to be unable to perform clinical responsibilities safely or in any way compromises safe client care, the student will be dismissed from clinical for that day and may not return until the situation is resolved to the satisfaction of the School of Nursing. If a representative of the clinical facility and/or faculty member requests the student have a drug screen prior to leaving the facility, the student must comply (at the student's expense) or face dismissal from the nursing program. Further guidance may be found in the Handbook for Nursing Students

Laboratory Learning Experiences

In order to maximize learning opportunities in the learning laboratory, students will be involved in learning through role playing and on a one-to-one basis. These activities include, but are not limited to physical assessment, health interviews, and simulation.

Standardized Testing

Students in the pre-licensure nursing major will be required to take standardized competency tests pertaining to each of the major content areas throughout the curriculum, as well as at program entry and near graduation. These exams may be scheduled at times other than course meeting times. Further guidance may be found in the Handbook for Nursing Students.

Dosage Calculation Testing

Students must pass a medication administration proficiency exam at 90% in the sophomore 2 semester in order to progress to the junior year. Medication calculation questions may appear on any or all core nursing exams, even if such calculation was not a part of the material taught directly in that course.

Dress Code

While in clinical and laboratory experiences, nursing students are expected to wear professional attire and the approved photo identification badge in compliance with the Handbook for Nursing Students. Students not appropriately attired may be asked to leave the clinical area by their instructor. BSN students admitted to the nursing major are required to purchase the official Indiana University Kokomo crimson uniform bearing the Indiana University logo.

Transportation Requirements

Clinical learning experiences are varied in setting, location, day of week, and time of day. Students are responsible for providing their own transportation to and from all clinical experiences.

Drug-Free Campus Policy

Students are prohibited by Indiana University to use or possess alcoholic beverages, any drug or controlled substance, or drug paraphernalia on university property or in the course of a university activity or student organization activity. Students are responsible for acquainting themselves with this policy and with sanctions for violation of the policy. This policy includes any educational experience associated with successfully completing the nursing program.

Eligibility for Licensure

Those who apply for licensure examination as a registered nurse in the state of Indiana are required to submit to the Indiana State Board of Nursing written evidence, verified by oath, that they (1) have not been convicted of any act that would constitute grounds for disciplinary sanction under the State Board rules and regulations, or any felony that has direct bearing on their ability to practice competently (note that convictions include the possession and use of alcohol, drugs or controlled substances); (2) have completed an approved high school course of study or its equivalent, as approved by the appropriate educational agency; (3) have completed all graduation requirements at a state-accredited school of nursing; (4) have completed a criminal background check; and (5) fingerprinting. It is each student's responsibility to meet licensure application deadlines. Students wishing to take the licensure examination in another state must contact that state's board of nursing directly. International students and graduates of foreign nursing programs should contact

the Indiana State Board of Nursing for specific licensure requirements.

Sex Offenders Screening Policy

The Indiana Sex Offenders Registry is reviewed every semester for all enrolled students. Any student enrolled in an undergraduate nursing program who has been convicted of a sex offense against children shall be dismissed from the program. Any student already admitted to an undergraduate nursing program whose name appears on the Registry during the time of enrollment in the nursing major shall be ineligible for continuation or completion of their current or any other nursing program.

Back

Academic Policies for Undergraduate Nursing Programs

Good Standing

In order to remain in good standing, a student must:

- Maintain a grade of C (2.0) or above in required general education (pre-nursing) courses, with not more than one repeat in any course.
- Repeat no more than three (3) required general education courses. Of the three (3) courses, no more than two (2) courses may be a science.
- Maintain a grade of C (2.0) or above in each Nursing major course.

Progression

Progression to the next level of didactic and clinical courses is contingent upon successful completion of the previous semester's general education, didactic, and clinical courses.

Academic Probation

A student will be placed on academic probation when the semester grade point average is below a 2.0 or when the cumulative grade point average falls below a 2.0 on a 4.0 scale. Academic probation will be removed following the semester in which the cumulative and semester grade point averages are 2.0 or higher.

Continuation in the Program

The internal grade point average (nursing GPA) must be at least 2.0 to enter each semester of the program.

Dismissal

A student will be dismissed from the program when any of the following situations occur:

1. Failure of more than three (3) required general education courses. Of the three (3) courses, only two (2) failures will be allowed in science coursework. Any grade below C (2.0) is considered failing.
2. Failure to achieve an internal grade point average (nursing GPA) of 2.0 at the completion of each semester.
3. Failure to achieve a 2.0 IU semester grade point average in any two consecutive semesters.
4. Failure to achieve a grade of C (2.0) or above in any two nursing courses or co-requisite sets of didactic and laboratory (clinical) nursing courses on the first attempt.

5. Failure to achieve a grade of C (2.0) or above in any one nursing course or in one of a co-requisite set of didactic and laboratory (clinical) nursing courses after two attempts.
6. Failure to meet probationary stipulations (for example, learning contracts and tutoring sessions) in the semester following the assignment of probation.
7. Lack of personal integrity, as demonstrated by but not limited to falsification of records and reports, plagiarism, or cheating on an examination, quiz, or any other assignment.
8. A health condition that has the potential to place the student or patients under his/her care at a safety risk.
9. Failure to adhere to legal and ethical professional requirements, including, but not limited to confidentiality rules (i.e. HIPAA).

Students who are admitted to the major but fail to register for first semester courses must seek readmission to the program, subject to competitive review.

Any student who has been dismissed from the school has the right to make an appeal according to the guidance in the Handbook for Nursing Students.

Withdrawal Policies

1. Withdrawal from a required general education course in the semester indicated in the curriculum design requires approval from the Advising Center for Allied Health and Nursing.
2. Once admitted to the major, students may have only 2 nursing course withdrawals.
3. If a student withdraws from any course with a co-requisite didactic, clinical or lab component, they must withdraw from all components in which they do not already have a final grade assigned.
4. Failure to register in each sequential semester, excluding summer sessions, constitutes withdrawal from the nursing program.
5. After the date for withdrawal with an automatic 'W' has passed, if a student chooses to withdraw from any course the instructor may assign a grade of either W or F, depending upon the level of work to date.

Reinstatement

Students who have interrupted their nursing program for more than 1 semester and wish to return need to adhere to the following procedural steps: (1) submit written notification of their intent to reenter the program to the Nursing and Allied Health Advising Center AND the pre-licensure program assistant dean by March 15 for fall semester, or October 15 for spring semester; and (2) submit current health and safety requirements August 1 for fall semester, or December 1 for spring semester.

All requests for reentry will be evaluated on the basis of the availability of classroom and clinical space. Regardless of the reason for the extended absence, the 6-year rule applies for program completion. Students whose program progression is interrupted will be subject to any curriculum and/or policy changes occurring during the period of interrupted progress.

All students must successfully complete an individualized clinical and math skill competency plan as determined

by the Assistant Dean of the Pre-Licensure Program or designee prior to the start of the semester for clinical re-entry/continuation.

Intercampus Transfers

Students in the nursing major who are in good academic standing may seek intercampus transfer by sending a written request to the Advising Center for Allied Health and Nursing. Intercampus transfer requests will be evaluated individually on the basis of student record review. Transfer students must meet or exceed admission qualifications relevant to the class into which transfer is requested. Further, the availability of courses, faculty, and facilities to meet student needs and program objectives will be considered.

Academic Status

Full-time status is given to undergraduate students enrolled in 12 or more credit hours during a regular semester or 6 or more credit hours during a summer term. Enrollment of fewer than 12 credit hours during a regular semester or fewer than 6 during a summer term constitutes part-time status. This may impact the student's qualification for financial aid.

Auditing of Courses

Students have the option of registering for non-nursing classes on a credit or audit basis. Students who are auditing must officially register for a class and pay the applicable fees. Upon completion, the course is entered on the permanent university transcript as taken for no credit (NC). Required general education courses taken for NC will not apply toward completion of nursing program requirements. Students may not audit any lab or clinical nursing course. The opportunity to audit a didactic nursing course is dependent on the availability of space and demonstration of adequate program progression on the part of the student.

Correspondence/Independent Study Courses

Students must have completed any correspondence/independent study courses prior to enrollment in the final semester of the program or register for the on-campus course in the final semester.

Determination of Grade Point Average (GPA)

The Cumulative Grade Point Average is a reflection of all work completed at Indiana University. Courses transferred from another institution are not used in calculating this average. The Interim Grade Point Average reflects grades received between the time students are admitted to the nursing major and the time that they actually begin nursing course work. Students must maintain a 2.5 interim GPA, or admission to the major will be revoked. If the admission is revoked, reapplication to the major is required. The Pre-nursing Grade Point Average includes all IU and transfer grades earned in the pre-nursing courses applicable toward the program, including initial and repeat attempts and excluding IU FX'd grades.

Nursing Contact Hours

Theory or didactic course credits are generally arranged on a one-to-one credit/contact hour basis. (For example, a 3-credit-hour course meets three hours per week for 15 weeks.) Clinical laboratory courses are scheduled in

a 1-to-3 ratio. (For example, a 2-credit course meets six hours per week for 15 weeks). Additionally, the School of Nursing abides by a 50-minute hour in clinical and lab courses. Some differences may occur in courses with significant online or outside experiential learning.

Back

Bachelor of Science in Nursing Program of Study

The purpose of the baccalaureate program is to offer a program for the education of professional nurses prepared to meet current and future healthcare needs of society. The curriculum prepares a generalist in professional nursing and prepares students for graduate study. Baccalaureate education in nursing requires a broad foundation in the sciences and humanities necessary for preparing professional nurses capable of practicing as knowledgeable generalists, and who are responsible, informed citizens in a democratic society. The baccalaureate graduate in nursing uses the nursing process to assist clients in attaining mutually established health goals and in adapting patterns of functioning to promote maximum health potential. As a generalist, the graduate practices in the roles of provider of care, manager of care, and member of the profession. The baccalaureate nurse is responsible and accountable for providing quality nursing care in practice settings that include, but are not limited to, hospital, home, and community. The graduate demonstrates leadership behavior in collaborating with interdisciplinary health team members and others to design health care plans and to develop more efficient and effective approaches to health care delivery and achievement of desired health outcomes.

Program Outcomes for the Bachelor of Science in Nursing meet the nationally recognized standards: BSN Essentials for Baccalaureate Nursing Practice (2008), the ANA Code of Ethics for Nurses, the ANA Standards of Practice, and the Indiana State Nurse Practice Act. Differences are based on degree track that relate to the distinctive needs of the pre-licensure and RN to BSN student.

Degree Requirements

Prospective students should study the requirements for admission to the School of Nursing, the specific curriculum requirements, course sequences, and requirements for the degree. Students are responsible for meeting degree requirements and making application for degree candidacy. The School of Nursing is not responsible for student degree certification if they do not file a graduation application. Application for the degree must be made by the deadlines published by Indiana University Kokomo School of Nursing.

All candidates for the degree Bachelor of Science in Nursing must fulfill the following requirements:

1. Meet IU residency requirements;
2. Minimum 2.7 grade point average in the courses required to apply to the major;
3. Satisfactory completion of a minimum of 120 credit hours that apply to the degree;
4. Credits earned in remedial skills courses do not apply to the degree Bachelor of Science in Nursing;

5. Credits from courses that have been repeated may be counted only one time to meet degree requirements;
6. Minimum cumulative grade point average of 2.5 and minimum nursing grade point average of 2.7;
7. Minimum grade of C (2.0) in a required course or equivalent by the second completed attempt;
8. May repeat no more than three (3) courses totaling 11 credit hours in the general education courses to earn a C (2.0) or higher; and
9. Students must complete all coursework within six (6) years of receipt of a first semester sophomore year nursing course grade.

Back

Pre-Licensure Bachelor of Science Program

(for students who are not already RNs) For program information, contact Assistant Dean Bridget Whitmore, MSN, at 765.455.9274 or bwhitmor@iuk.edu.

IU Kokomo BSN Pre-Licensure Program Outcomes: The IU Kokomo Pre-Licensure BSN graduate will meet program outcomes and embody them in their professional practice as a nurse who is:

1. a critical thinker who demonstrates intellectual engagement and uses evidence as a basis for clinical reasoning and decision making;
2. a culturally sensitive individual who provides holistic individual, family, community, and population-centered nursing care;
3. a knowledgeable care coordinator who facilitates access to resources across the continuum of health care environments in order to meet the evolving health care needs of individuals, families, communities, and populations;
4. an individual who understands and considers the impact of health care policy, finance, and regulatory environments on care delivery;
5. an individual who embodies the professional identity of the nurse and who translates the inherent values of the nursing profession into the ethical and legal practice of nursing;
6. an effective communicator who collaborates with interprofessional team members, patients, and their support systems for improved health outcomes;
7. a competent care provider who is prepared to practice to the full capacity of the professional nurse role in diverse health care environments;
8. an accountable leader and manager who applies principles of systems and organizational processes and who balances resources to promote quality care and patient safety; and
9. an individual who embraces and employs innovations in information management and technology in the delivery of quality patient care.

General Education Coursework:

In addition to 63 credits of nursing courses in the major, pre-licensure students are required to complete 57-59 general education credits distributed as follows:

Communication and info literacy = 10

Quantitative literacy = 7-9

Social and behavioral sciences = 9

Physical and life sciences (Anatomy, Physiology, Microbiology, Chemistry) = 17

Humanities and art = 6

General electives = 8

General education total credits = 57–59

Nursing Major credits = 63

Total program credits = 120 credits

Pre-Licensure Plan of Study

Sophomore 1 Courses (7 cr.)

- NURS-B 232 Introduction to the Discipline of Nursing (2 cr.)
- NURS-B 244 Health Assessment (3 cr.)
- NURS-B 245 Health Assessment Practicum (2 cr.)

Sophomore 2 Courses (10 cr.)

- NURS-B 216 Pharmacology (2 cr.)
- NURS-B 252 Pathophysiology (3 cr.)
- NURS-B 248 Science and Technology of Nursing (3 cr.)
- NURS-B 249 Science and Technology of Nursing Practicum (2 cr.)

Junior 1 Courses (10 cr.)

- NURS-H 351 Alterations in Neuro Psychological Health (3 cr.)
- NURS-H 352 Alterations in Neuro Psychological Health Practicum (2 cr.)
- NURS-H 353 Alterations in Health 1 (3 cr.)
- NURS-H 354 Alterations in Health 1 Practicum (2 cr.)

Junior 2 Courses (13 cr.)

- NURS-H 361 Alterations in Health 2 (3 cr.)
- NURS-H 362 Alterations in Health 2 Practicum (2 cr.)
- NURS-H 363 Developing Family and Child (4 cr.)
- NURS-H 364 Developing Family and Child Practicum (2 cr.)
- NURS-H 365 Nursing Research (2 cr.)

Senior 1 Courses (10 cr.)

- NURS-S 470 Restorative Health Related to Multi System Failures (3 cr.)
- NURS-S 471 Restorative Health Related to Multi System Failures Practicum (2 cr.)
- NURS-S 472 A Multi-System Approach to the Health of the Community (3 cr.)
- NURS-S 473 A Multi-System Approach to the Health of the Community Practicum (2 cr.)

Senior 2 Courses (10 cr.)

- NURS-S 481 Nursing Management (2 cr.)
- NURS-S 482 Nursing Management Practicum (2 cr.)
- NURS-S 483 Clinical Nursing Practice Capstone (3 cr.)

- NURS-S 485 Professional Growth and Empowerment (3 cr.)

Elective Courses:

- A minimum of 3 credits of nursing elective courses must be completed

Consideration of Applications to the Pre-Licensure Nursing Major:

Applicants must meet the deadlines for filing an application for admission. If a student is admitted to the nursing major but declines to accept, the student must reapply for reconsideration, and admission is not guaranteed. The student who fails to accept the offer of admission to the major for the second time is no longer eligible for future consideration. All students with completed applications who meet all of the admission criteria stated herein will be rank ordered according to the sum of the rank of the pre-nursing GPA and the rank results of the standardized pre-nursing achievement examination. Students with at least 12 credits from IU Kokomo will have 5 points subtracted from their overall rank. Selection will begin with students at the lowest (best) rank and proceed until seats are filled or there are no further qualified candidates. Students should direct all inquiries concerning the School of Nursing, counseling, application and admission to the campus where they plan to enroll in the major.

Admission to Pre-Licensure Nursing Major Considerations:

Unless approved by the School of Nursing administration, nursing major courses are open only to basic students accepted into the School of Nursing after applying and meeting application requirements. Students should direct all inquiries concerning the School of Nursing, counseling, and application to the campus where they plan to enroll in the major. See General Education: Fundamental Skills requirements in the "Academic Regulations" section of this bulletin. Please refer to "Academic Policies for All Nursing Programs" in this bulletin.

Admission to Pre-Licensure Nursing Major:

Admission to the School of Nursing is a competitive process. Achievement of minimum application criteria does not guarantee admission. The number of students admitted to the major depends upon the number of student spaces available, faculty, clinical resources, and applicants' performance on admission criteria. Admission is campus-specific and competitive. Satisfactory completion of the prerequisite courses does not guarantee acceptance to the nursing major.

- All applicants must be admitted to IU Kokomo as a degree seeking student and be in good academic standing at time of application.
- All applicants must be advised by a Nursing Advisor.
- All applicants will have achieved satisfactory performance on a standardized pre-nursing achievement exam. Contact the Advising Center for Allied Health and Nursing for details regarding the exam and necessary scores to qualify for application.
- At least one of these three required sciences (ANAT-A 215, PHSL-P 215, MICR-J 200/J 201) must be successfully completed in order to apply to the

major; at least 2 of these required 3 sciences must be completed to begin the nursing major.

- One of the following math courses must be completed in order to apply: Math-M 117, MATH-M 118, MATH-M 119, MATH-M 125, MATH-M 215, or MATH-M 133/M 134.
- Students may fail (with a C- or below) no more than 3 pre-nursing courses totaling 11 credits. Of the 3 failures, only 2 are allowed in the sciences. Students exceeding any of these limits are ineligible to apply to the nursing program.
- Cumulative GPA—If an IU GPA is not available the cumulative GPA from his/her most recent institution will be used in determining the cumulative GPA.

RN to BSN Completion Programs (in person or online)

In-Person RN to BSN Completion Program Admission Policy

All applicants must hold an unencumbered Indiana RN license. Applicants must have a cumulative GPA of 2.5 on a 4.0 scale in order to apply. Applicants are considered by cohort according to the categories listed below. The number of students selected for each cohort depends upon the number of student spaces available and applicants' performance on admission criteria. Admission is campus-specific and competitive. Selection will be made at least 45 days prior to the start of the first term for the cohort group. Specific selection dates will be available in the Advising Center for Allied Health and Nursing. Students will be notified of acceptance by letter. In cases where two cohorts will be started at the same time (i.e. for off-site offering), two separate category lists will be generated. The student may sign up on both lists if desired, however they must attend at the site where accepted. Applications submitted are only good for the cohort beginning in the semester noted on the form. If a student chooses to be considered for another starting semester they must complete and submit a new application.

Complete applications are due:

July 1 for Fall Semester cohort; November 1 for Spring Semester cohort; March 1 for Summer Semester cohort. Please check with your advisor as cohorts of RN to BSN students do not begin every semester, but will begin at least one time per academic year.

Category 1: (first priority selection)

1) RN has a Cumulative GPA of at least 2.5 on a 4.0 scale either from Indiana University or from the degree granting institution for the ASN or Diploma. In case both GPA scores are available, the higher GPA will be used in determining placement; and

2) Student has 12 or fewer remaining credits needed to meet general education requirements.

Students seeking category 1 consideration to a fall semester cohort must meet the above criterion as of the spring immediately preceding the desired fall start date.

Students seeking category 1 consideration to a spring semester cohort must meet the above criterion as of summer II immediately preceding the desired spring start date.

Students are ranked according to GPA within category 1, and selection begins with the highest GPA. If places are still available at the conclusion of the Category 1 selection process, the selection process will continue to fill available slots with Category 2 students.

Category 2: (second priority selection)

1) RN has a Cumulative GPA of at least 2.5 on a 4.0 scale either from Indiana University or from the degree granting institution for the ASN or Diploma. In case both GPA scores are available, the higher GPA will be used in determining placement. Students with a GPA of 2.3 – 2.5 may be admitted on a probationary status, but must achieve and maintain a 2.5 GPA in Pod 1 courses in order to progress from Pod 1 forward. This performance standard must be met each successive semester; and

2) Student has more than 12 remaining credits needed to achieve general education requirements.

Students in this category are ranked according to the number of general education credits yet to be completed, and selection begins with those needing the fewest credit hours. Students who do not meet the minimum GPA requirements to fulfill these criteria may take courses at Indiana University to generate or improve an IU GPA (and should work with advisors to ensure that courses taken apply to the general education requirements).

All Online RN to BSN Completion Program

An all online RN to BSN Completion Program is available and delivered via web-based and video technologies rather than requiring the student to come to campus. To apply, contact the IU campus closest to you. The campus to which you apply will be where your diploma will be issued and where you will receive academic advising as well as student and technical support. Contact the Allied Health and Advising Center for additional information. Application requirements include the following:

1. application may be done any time and enter the program in the fall, spring or summer semesters;
2. all general education courses must be complete before beginning nursing coursework;
3. a current, unencumbered RN license in the state in which you are practicing and/or plan to meet your clinical requirements;
4. graduation from an NLNAC accredited school of nursing;
5. a cumulative GPA of 2.5 from the ASN or diploma program; and
6. completion of a criminal background check on the campus to which you are applying.

Online RN to BSN Completion Program Credit Distribution

Nursing Credits: 33
 Special Credits (Credentialed): 35
 General Education Credits: 52-54
 Total Credits: 120

Following is the plan of study listing nursing coursework to be completed each semester.

Note: curriculum changes occurring between print versions of this bulletin will be posted to the nursing website.

Pod 1: Socialization to Baccalaureate Nursing (12 cr.)
Term 1: NURS-B 231: Communication for Health Care Professionals (3cr.)

NURS-S 474: Ethics Applied to Health Care (3cr.)

Term 2: NURS-B 304: Professional Seminar 1: Health Policy (3cr.)

NURS-B 404: Professional Nursing Seminar 2: Informatics (3cr.)

Pod 2: BSN Expanded Roles (12 cr.)

Term 1: NURS-H 355: Data Analysis in Clinical Practice and Health Care Research (3cr.)

NURS-H 365: Nursing Research (3cr.)

Term 2: NURS-S 487: Nursing Management (3cr.)

Nursing Elective from approved list (3cr.)

Pod 3: Managing Communities (9 cr.)

Term 1: NURS-S 472: A Multi-system Approach to the Health of the Community (3cr.)

Term 2: NURS-S 483: Clinical Nursing Capstone (3 cr.)

Nursing Elective from approved list (3 cr.)

Master's Degree In Nursing

For program information, contact Graduate Program Assistant Dean Mary Bourke, PhD, at 765.455.9326 or mbourke@iuk.edu.

The Master of Science in Nursing Program at IU Kokomo is a 39 credit hour curriculum designed to prepare registered nurses with advanced practice nursing knowledge in the areas of nursing education or nursing administration. Students begin their study with classroom-based didactic courses in a hybrid format, building the theoretical and contextual background necessary for advanced nursing practice. Students progress to specific courses in either nursing education or nursing administration.

The MSN program is comprised of three components:

1. Nursing core courses:

- NURS-R 500 Nursing Research
- NURS-N 502 Nursing Theory
- NURS-R 505 Measurement and Data Analysis
- NURS-Y 510 & NURS-Y 520 Advanced Practice Nursing Concepts I and II
- NURS-I 630 Introduction to Nursing Informatics

2. Education or Administration track

- NURS-L 574 Administrative Management in Nursing
- NURS-L 671 Financial Management
- NURS-N 504 Leadership for Advanced Nursing Practice
- NURS-L 530 Legal Environment of Health Care
- NURS-L 579 Nursing Administration Practicum
- NURS-R 590 Nursing Study.

Administration track graduates will be prepared to serve in nursing leadership and nursing administrative roles

that may provide opportunities for enhanced health care delivery systems and ultimately improved health for the citizens of our regions. The program prepares graduates to take administrative certification exams through either the the American Organization of Nurse Executives or the American Nurses Credentialing Center.

- NURS-T 615 Curriculum in Nursing
- NURS-T 617 Evaluation in Nursing
- NURS-T 670 Teaching in Nursing
- NURS-T 619 Computer Technologies for Nurse Educators
- NURS-T 679 Nursing Education Practicum and NURS-R 590 nursing study.

Education track graduates will be prepared to serve in the nurse educator role by teaching in schools of nursing or as educational staff for clinical agencies. The program prepares graduates for the Certified Nurse Educator (CNE) Certification Exam.

3. A culminating experience for Administration track or Education track.

Completion time: Approximately 2 years depending on how many credits a student chooses to take at a time and course availability. Courses include traditional classroom, hybrid, and online delivery formats.

MSN Program Learning Outcomes

1. Model excellence in nursing leadership to improve nursing practice within the health care system.
2. Function within an ethical-legal framework.
3. Synthesize knowledge from nursing, biological, behavioral, social, administrative, educational, and communication sciences for application to area of specialty.
4. Demonstrate scholarly inquiry and reflection that exemplifies clinical reasoning, critical, creative, and systems thinking.
5. Frame problems, design interventions, specify outcomes, and maintain quality while balancing human, fiscal, and material resources.
6. Use information technology and knowledge-based resources to inform practice.
7. Articulate the effects of culture, diversity, values, and globalization in the design, delivery, and evaluation of health services.
8. Engage in lifelong learning activities that contribute to the professional nursing development and advancement of the nursing profession.

MSN Admission Requirements

1. Graduation from an accredited baccalaureate degree program in nursing.
2. Minimum undergraduate GPA of 3.0 on a 4.0 scale.
3. Valid, unencumbered RN license in the state where practicum will be completed.
4. At least one year experience as an RN or currently working as an RN.
5. Completion of an undergraduate statistics course with a grade of C or better.
6. Completion of a criminal background check.
7. Submission of an Official College Transcript (Degree granting and graduate courses if applicable).
8. Submission of the following:

- Personal Statement - See website for directions.
- Two professional references - See website for directions.
- CV/Résumé

9. Payment of an application fee.

International Students

In addition to the MSN admission requirements listed above, international students and students for whom English is not their primary language must submit TOEFL-iBT scores with a required total minimum of 80, and at least 20 for each section.

Back

Nursing Courses Undergraduate

Following are undergraduate nursing courses, listed in alphanumeric order.

The university reserves the right to cancel courses for insufficient enrollment.

P = prerequisite R = recommended C = co-requisite

NURS-B 216 Nursing Pharmacology (2 cr.) This course focuses on the physiological actions of drugs and their therapeutic use; the nurse's role in administering drugs, and the need for continuous study of drug therapy. (P: ANAT-A 215, PHSL-P 215)

NURS-B 231 Communication for Health Care

Professionals: RN to BSN (3 cr.) Note: this course must be taken in the first semester for RN to BSN Students.

This course addresses professional communication, inter/intra professional collaboration, and professional engagement to foster growth and development in nursing. This course also focuses on issues related to professional practice, theory, development and use, professional organization participation, service, continuing education, autonomy and accountability.

NURS-B 232 Introduction to the Discipline of Nursing: Theory, Practice, Research (2 cr.) This course focuses on the core theoretical concepts of nursing practice: health, wellness, illness, holism, caring environment, self-care, uniqueness of persons, interpersonal relationships, and decision-making. This course helps the student understand nursing's unique contribution to meeting societal needs through integrating theory, research and practice.

NURS-B 233 Health and Wellness (3 cr.) This course focuses on the use of concepts from nursing, nutrition, pharmacology, and biopsycosocial sciences to critically examine the determinants of health, wellness, and illness across the lifespan. Environmental, sociocultural, and economic factors that influence health care practices are emphasized. Theories of health, wellness and illness are related to health promotion, disease prevention and illness prevention nursing interventions.

NURS-B 244 Comprehensive Health Assessment (2 cr.) This course focuses on helping students acquire skills to conduct a comprehensive health assessment, including the physical, psychological, social, functional, and environmental aspects of health. The process of data collection, interpretation, documentation, and

dissemination of assessment data will be addressed. (C: NURS-B 245)

NURS-B 245 Comprehensive Health Assessment: Practicum (2 cr.) Students will have the opportunity to use interview, observation, percussion, palpation, inspection, and auscultation in assessing clients across the life span in simulated and actual environments. (C: NURS-B 244)

NURS-B 248 Science and Technology of Nursing (3 cr.) This course focuses on the fundamentals of nursing from a theoretical research base. It provides an opportunity for basic care nursing skills development. Students will be challenged to use critical thinking and problem solving in developing the ability to apply an integrated nursing therapeutics approach for clients experiencing health alterations across the life span. (C: NURS-B 249)

NURS-B 249 Science and Technology of Nursing: Practicum (2 cr.) Students will have the opportunity to demonstrate fundamental nursing skills in the application of nursing care for clients across the life span. (C: NURS-B 248)

NURS-B 252 Pathophysiology (3 cr.) This course focuses on the development of student understanding of alterations in normal human physiological functioning. Students will explore alterations of health and related basic diagnostic tests related to the management of selected alterations. (P: ANAT-A 215, PHSL-P 215)

NURS-B 304 Professional Nursing Seminar 1: Health Policy (3 cr.) Social, ethical, cultural, economic, and political issues that affect the delivery of health and nursing services globally are critically analyzed. Government and entrepreneurial interests are examined. Emphasis is placed on the impact of policy decisions on professional nursing practice and health services. This course is restricted to RN to BSN students only.

NURS-B 403 Gerontological Nursing (3 cr.) This course promotes a holistic approach to persons in the later years of life. Death and dying, legal and ethical issues, family care giving, and future challenges will be discussed in the context of best practices as outlined by the John A Hartford Foundation: Institute for Geriatric Nursing. Note: some sections of this course are restricted to RN to BSN students.

NURS-B 404 Professional Nursing Seminar 2: Informatics (3 cr.) This course addresses nursing informatics: state of the science and issues for research, development, and practice. It clarifies concepts of nursing, technology, and information management; and comprises theory, practice, and the social and ethical issues in nursing and health care informatics. This course is restricted to RN to BSN students only.

NURS-H 351 Alterations in Neuro-Psychological Health (3 cr.) This course focuses on individuals and small groups experiencing acute and chronic neuropsychological disorders. Content includes the effect of the brain-body disturbances on health functioning. Other content areas are growth and development, stress, mental status, nurse-client relationships, psychopharmacology, and nursing approaches for clients

experiencing DSM-IV neuropsychological disorders. (P: All sophomore-level courses. C: NURS-H 352)

NURS-H 352 Alterations in Neuro-Psychological Health: Practicum (2 cr.) Students will provide nursing care to individuals and small groups who are experiencing acute and chronic neuropsychological disturbances related to psychiatric disorders. Student experiences will be with individuals and small groups in supervised settings such as acute care, community-based, transitional, and/or the home. (C: NURS-H 351)

NURS-H 353 Alterations in Health I (3 cr.) This course focuses on the pathophysiology and holistic nursing care management of clients experiencing acute and chronic problems. Students will use critical thinking and problem solving skills to plan interventions appropriate to health care needs. (P: All sophomore-level courses. C: NURS-H354)

NURS-H 354 Alterations in Health I: Practicum (2 cr.) Students will apply the science and technology of nursing to perform all independent, dependent, and interdependent care functions. Student will engage clients in a variety of settings to address alteration in health functioning, identify health care needs, and determine the effectiveness of interventions given expected care outcomes. (C: NURS-H 353)

NURS-H 355 Data Analysis in Clinical Practice and Health Care Research (3 cr.) This course introduces nursing and other health sciences students to the basic concepts and techniques of data analysis needed in professional health-care practice. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. Differences in types of qualitative data and methods by which these types of data can be interpreted are also explored. Emphasis is placed on the application of fundamental concepts to real-world situations in client care. Note: some sections of this course are restricted to RN to BSN students.

NURS-H 361 Alterations in Health II (3 cr.) This course builds on Alterations in Health I and continues to focus on pathophysiology and holistic nursing care management of clients experiencing acute and chronic health problems and their associated needs. (P: NURS-H 351, NURS-H 352, NURS-H 353, NURS-H 354, all sophomore-level courses. C: NURS-H 362)

NURS-H 362 Alterations in Health II: Practicum (2 cr.) Students will continue to apply the science and technology of nursing to perform all independent, dependent, and interdependent care functions. Students will engage clients in a variety of settings to address alterations in health functioning. (C: NURS-H 361, P: NURS-H 351, NURS-H 352, NURS-H 353, NURS-H 354 and all sophomore courses)

NURS-H 363 The Developing Family and Child (4 cr.) This course focuses on the needs of individuals and their families who are facing the phenomena of growth and development during the childbearing and child raising phases of family development. Factors dealing with preserving, promoting, and restoring health status of family members will be emphasized. (C: NURS-H 364)

NURS-H 364 The Developing Family and Child: Practicum (2 cr.) Students will have the opportunity to

work with childbearing and child raising families, including those experiencing alterations in health. (C: NURS-H 363)

NURS-H 365 Nursing Research (2 cr.) This course is on development of students' skills in using the research process to define clinical research problems and to determine the usefulness of research in clinical decisions related to practice. The critique of nursing and nursing related research studies will be emphasized in identifying applicability to nursing practice. (C: NURS-H 361, NURS-H 362, NURS-H 363, NURS-H 364)

NURS-I 630 Introduction to Nursing Informatics (3 cr.) This course provides an introduction to the field of nursing informatics, the current state of the science, and major issues for research, development, and practice. It includes clarification of the concepts of nursing, technology, and information management. In addition, the course also explores the theoretical underpinnings of nursing informatics and the practice of nursing informatics.

NURS-J 360/K 490 Operating Room Nursing/Peri-operative Nursing (lecture -- 2 cr., clinical -- 2 cr. cr.) This course is designed to enable the student to participate in the professional and technical components of peri-operative nursing practice with supervision. Learning opportunities include care of the patient undergoing the stress of surgery in the pre-, intra-, and post-operative phases. The student participates as a member of the surgical team in the circulating and scrub nurse's role. The student will also participate in the care of the patient pre-operatively by doing admission assessments.

NURS-J 595 Nursing Administrative Elective (3 cr.) This course is an intensive study and discussion of a specific topic of current interest in the theory and/or practice of Nursing Administration.

NURS-K 301 The Art and Science of Complementary Health (3 cr.) This course will serve as an introduction to a variety of complementary therapies, including healing touch, guided imagery, hypnosis, acupuncture, aromatherapy, reflexology, and massage. The class will critically examine each therapy through assigned readings, literature reviews, presentations, guest lecturers, and optional experiential activities. Note: some sections of this course are restricted to RN to BSN students.

NURS-K 304 Nursing Specialty Elective (3 cr.) This course allows the RN to BSN student to apply nationally recognized specialty nursing knowledge and skills to the BSN degree, through a portfolio or independent study approach. National specialty standards will be used to devise learning objectives, implementation and evaluation plan. This course is restricted to RN to BSN students only.

NURS-K 305 New Innovation in Health and Health Care (3 cr.) This course explores emergent trends in health and health care, including technological advances in health care, developing approaches to care based on new knowledge and/ or research findings, and trends in health care delivery in a themed, survey or independent study format. Note: some sections of this course are restricted to RN to BSN students.

NURS-K 415 Special Needs Children in the Community (2-4 cr.) This course focuses on children with special health needs in the community setting. Concepts of growth

and development will be explored in relationship to the identified health needs. Principles of health education, health maintenance, and health promotion will be integrated in the experiential component of the course.

NURS-K 432 Korean Culture and Healthcare (1 cr.) This course provides a forum for students to explore Korean culture in terms of history, culture, language, business, foods, traditions, perspectives, and healthcare. Students interact with their peers from a Korean University.

NURS-K 433 Korean Culture and Healthcare: Practicum (2 cr.) This 2-week cultural immersion experience is based at a school of nursing in South Korea. Students will participate in classroom, laboratory, clinical, cultural and leisure time activities with Korean students. Prerequisites: Must be a student in good standing in the IU School of Nursing, successfully complete the Korean Culture & Healthcare course, and be selected to participate.

NURS-K 434 Global Health Issues in Nursing (3 cr.) This course is designed to provide learning opportunities to acquire knowledge about global health issues, the diverse conditions that contribute to health and global health disparities, and an understanding of nursing's role in addressing these health problems. Issues addressed include infectious and chronic illness, reproductive and women's health issues, politics and public health policy, economics and health care, and health in conflict environments. Conceptual models and health equity concepts, evidence-based practice, and health care delivery systems are analyzed to explore strategies for addressing global health issues. Learning opportunities emphasize the knowledge and skills needed to use technology to investigate global health issues, advocate for health justice from a human rights perspective, and critically appraise global health issues.

NURS-K 440 Critical Care Elective (2 cr.) Students will hear presentations from physicians and advanced practice nurses and participate in discussions related to critical care concepts and hemodynamic monitoring. (P: Sophomore and junior level courses)

NURS-K 441 Critical Care Clinical (2 cr.) Students will participate in a preceptored critical care clinical experiences and simulations to promote critical thinking.

NURS-K 490 Clinical Nursing Elective (1-6 cr.) Planned and supervised clinical experience in an area of concentration. Course is S/F graded. (P: Consent of instructor)

NURS-K 492 Nursing Elective (1-6 cr.) Opportunity for the student to pursue study in an area of interest. (P: Consent of instructor)

NURS-K 499 Genetics and Genomics (3 cr.) This course introduces a basic knowledge of genetics in health care, including genetic variation and inheritance; ethical, legal, and social issues in genetic health care; genetic therapeutics; nursing roles; genetic basis of selected alterations to health across the life span; and cultural considerations in genetic health care are all considered. Note: some sections of this course are restricted to RN to BSN students.

NURS-L 530 Legal Environment of Health Care (3 cr.) This course further develops the ability to analyze, synthesize, and utilize knowledge related to the complex and interdependent legal environment of health care. This is accomplished through a variety of experiences including formal lecture, seminars, clinical experiences, and independent study.

NURS-L 574 Administrative Management (3 cr.) This course encompasses concepts, theories, perspectives, and research relevant to administration of nursing services. Emphasis on management principles and organizational processes related to patient care delivery systems. Examines contemporary literature in nursing and business.

NURS-L 579 Nursing Administration Practicum (3 cr.) This course is a practicum experience designed for synthesis of theory and practice. Agency observation and activities are independently planned. Includes Web-supported communication. P: Must complete all core and administration track courses except R590 Nursing Study which can be taken concurrently to after completion of the practicum.

NURS-L 671 Financial Management (3 cr.) This course is designed to inform nurses of the concepts and principles related to budget preparation and fiscal management of a nursing unit or division. Constructs to be examined include the following: methods of obtaining personnel input, estimating costs, and cost justification.

NURS-N 502 Nursing Theory (3 cr.) This course focuses on evaluating the factors and issues influencing the development of theory in nursing. Theoretical terminology and criteria for the evaluation of theories are examined. Linkages applied between theory, research and best practice are explored.

NURS-N 504 Leadership for Advanced Nursing Practice (3 cr.) This course addresses core competencies such as leadership, professional role, health care economics, policy, and law and ethics that are essential to all advanced nursing practice roles and health care in complex systems.

NURS-P 216 Pharmacology (3 cr.) This course focuses on basic principles of pharmacology. It includes the pharmacologic properties of major drug classes and individual drugs, with an emphasis on the clinical application of drug therapy through the nursing process. Note: some sections of this course are restricted to RN to BSN students.

NURS-R 500 Nursing Research (3 cr.) This course provides a survey of research in nursing, including critique of research literature, research designs, sampling, data collection and measurement strategies, relation of research and theory, development of researchable problems, and theory utilization.

NURS-R 505 Measurement and Data Analysis (3 cr.) This course analyzes principles and application of data analysis, descriptive, inferential, and multivariate statistics. Considers the research purpose and phenomenon under study as determinants of measurement techniques and data analysis. The purpose, assumptions, and limitations of statistics will be presented. Tools and techniques for data presentation and analysis will be utilized. Introductory

Item Response Theory will be explored. These topics will be considered from the perspective of research in nursing and health care.

NURS-R 590 Nursing Study (3 cr.) This course is a guided experience in identifying a researchable problem and in developing and implementing a research proposal.

NURS-S 470 Restorative Health Related to Multi-System Failures (3 cr.) This course focuses on the pathophysiology and nursing care management of clients experiencing multisystem alterations in health status. Correlations among complex system alterations and nursing interventions to maximize health potential are emphasized. (P: All Sophomore and Junior level courses. C: NURS-S 471, NURS-S 472, NURS-S 473.)

NURS-S 471 Restorative Health Related to Multi-System Failures: Practicum (2 cr.) The students will apply the nursing process to the care of clients experiencing acute multi-system alterations in health. (C: NURS-S 470, NURS-S 472, NURS-S 473.)

NURS-S 472 A Multi-System Approach to the Health of the Community (3 cr.) This course focuses on the complexity and diversity of groups or aggregates within communities and their corresponding health care needs. Through a community assessment of health trends, demographics, epidemiological data, and social/political issues in local and global communities, the student will be able to determine effective interventions for community-centered care. (P: All junior level courses. C: NURS-S 470, NURS-S 471, NURS-S 473.)

NURS-S 473 A Multi-System Approach to the Health of the Community: Practicum (2 cr.) Students will have the opportunity to apply the concepts of community assessment, program planning, prevention, and epidemiology to implement and evaluate interventions for community-centered care to groups or aggregates. Professional nursing will be practiced in collaboration with diverse groups within a community. (C: NURS-S 470, NURS-S 471, NURS-S 472.)

NURS-S 474 Applied Healthcare Ethics (3 cr.) Building on the ANA Code of Ethics for Nurses, this course explores the nurse's role in ethical clinical practice, academic work, health policy, and research conduct, focusing particularly on the advocacy role of the nurse. Common ethical problems are discussed and strategies for resolution of ethical dilemmas are applied. Note: some sections of this course are restricted to RN to BSN students.

NURS-S 475 A Multi-System Approach to the Health of the Community: RN to BSN (3 cr.) Basic epidemiological principles and community health nursing models are applied in collaboration with diverse groups. Disease prevention strategies are applied to individuals and populations to promote health. Students apply the concepts of community assessment, disease prevention, and health promotion to plan, implement, and evaluate interventions for populations in the community. This course is restricted to RN to BSN students only.

NURS-S 481 Nursing Management (2 cr.) This course focuses on the development of management skills assumed by professional nurses, including delegation of responsibilities, networking, facilitation of groups,

conflict resolution, leadership, case management and collaboration. Concepts addressed include organizational structure, change, managing quality and performance, workplace diversity, budgeting and resource allocation, and delivery systems. (P: All Sophomore, Junior, and First Semester Senior level courses. C: NURS-S 481, NURS-S 482, NURS-S 483, NURS-S 485.)

NURS-S 482 Nursing Management: Practicum (2 cr.) Students will have the opportunity to apply professional management skills in a variety of nursing leadership roles. (C: NURS-S 481, NURS-S 483, NURS-S 485.)

NURS-S 483 Clinical Nursing Practice Capstone (3 cr.) Students will have the opportunity to demonstrate competencies consistent with program outcomes and to refine their nursing care practice skills. Students will collaborate with faculty and a preceptor in choosing a care setting, planning and organizing a learning experience, and practicing professional nursing in a safe and effective manner. (C: NURS-S 481, NURS-S 482, NURS-S 485.)

NURS-S 485 Professional Growth and Employment (3 cr.) This course focuses on issues related to professional practice, career planning, personal goal setting, and empowerment of self and others. Students will discuss factors related to job performance, performance expectations and evaluation, reality orientation, and commitment to life-long learning. (C: NURS-S 481, NURS-S 482, NURS-S 483.)

NURS-S 487 Nursing Management: RN to BSN (3 cr.) This course focuses on development of management skills assumed by professional nurses, including delegation of responsibilities, networking, and facilitation of groups, conflict resolution, leadership, case management, and collaboration. Concepts addressed include organizational structure, delivery systems, change, managing quality and performance, budgeting and resource allocation, staffing, scheduling, evaluation and career development. This course is restricted to RN to BSN students only.

NURS-T 615 Curriculum in Nursing (3 cr.) This course is designed for persons who are or will be engaged in teaching within nursing education settings. The primary focus is the process of curriculum development; philosophical, social, political, economic, and professional issues that need to be considered in planning curricula, evaluating existing curricula, and changing curricula are examined.

NURS-T 617 Evaluation in Nursing (3 cr.) This course integrates concepts of assessment and evaluation into a nursing framework. Students analyze assessment/evaluation concepts, models, and frameworks for applicability for students, faculty, curricula, and programs.

NURS-T 619 Computer Technologies for Nurse Educators (3 cr.) This course provides nurse educators an opportunity to acquire knowledge and skills for using computer technologies to support the teaching/learning process. Emphasis is given to theoretical frameworks that guide the selection, use, and integration of computer technologies in nursing education programs.

NURS-T 670 Teaching in Nursing (3 cr.) This course provides seminar and guided experiences in teaching of nursing, including planning, developing, implementing, and evaluating classroom and clinical instruction.

NURS-T 675 Nursing Elective (3 cr.) This course is an intensive study and discussion of a specific topic of current interest in the theory and/or practice of nursing education.

NURS-T 679 Nursing Education Practicum (3 cr.) This course is a capstone practicum experience designed for application, demonstration and synthesis of theory and competencies related to the role of nurse educator. Learning experiences are planned and negotiated to meet individual learning goals in the context of preceptor-supervised experiences in classroom and/or clinical health care practice settings. P: Must complete all core and education track courses except NURS-R 590 Nursing Study which can be taken concurrently or after completion of the practicum.

NURS-Y 510 Advanced Practice Concepts 1 (3 cr.) This course analyzes selected nursing concepts and related research with a focus on ethics, human diversity and social issues including genomics and genetics as well as health promotion and disease prevention including select pathophysiology, pharmacology, and health assessment. Course investigates the advanced practice nurse role in population health and public health science. Relationship of concepts to advanced practice models is explored.

NURS-Y 520 Advanced Practice Concepts 2 (3 cr.) This course analyzes selected nursing concepts and related research with a focus on health care policy, organization of health care delivery systems, health care financing and health care economics and the impact of quality and safety on these concepts. Relationship of concepts to advanced practice models is explored.

NURS-Z 490 Clinical Experience in Nursing (1-6 cr.) P: consent of instructor. S/F graded. Planned and supervised clinical experiences in the area of the student's major interest.

NURS-Z 492 Individual Study in Nursing (1-6 cr.)
P: Consent of instructor. Opportunity for the student to pursue independent study of topics in nursing under the guidance of a selected faculty member.

Nursing Courses Graduate

NURS-B 216 Nursing Pharmacology (2 cr.) This course focuses on the physiological actions of drugs and their therapeutic use; the nurse's role in administering drugs, and the need for continuous study of drug therapy. (P: ANAT-A 215, PHSL-P 215)

NURS-B 231 Communication for Health Care Professionals: RN to BSN (3 cr.) Note: this course must be taken in the first semester for RN to BSN Students. This course addresses professional communication, inter/intra professional collaboration, and professional engagement to foster growth and development in nursing. This course also focuses on issues related to professional practice, theory, development and use, professional organization participation, service, continuing education, autonomy and accountability.

NURS-B 232 Introduction to the Discipline of Nursing: Theory, Practice, Research (2 cr.) This course focuses on the core theoretical concepts of nursing practice: health, wellness, illness, holism, caring environment, self-care, uniqueness of persons, interpersonal relationships, and decision-making. This course helps the student

understand nursing's unique contribution to meeting societal needs through integrating theory, research and practice.

NURS-B 233 Health and Wellness (3 cr.) This course focuses on the use of concepts from nursing, nutrition, pharmacology, and biopsychosocial sciences to critically examine the determinants of health, wellness, and illness across the lifespan. Environmental, sociocultural, and economic factors that influence health care practices are emphasized. Theories of health, wellness and illness are related to health promotion, disease prevention and illness prevention nursing interventions.

NURS-B 244 Comprehensive Health Assessment (2 cr.) This course focuses on helping students acquire skills to conduct a comprehensive health assessment, including the physical, psychological, social, functional, and environmental aspects of health. The process of data collection, interpretation, documentation, and dissemination of assessment data will be addressed. (C: NURS-B 245)

NURS-B 245 Comprehensive Health Assessment: Practicum (2 cr.) Students will have the opportunity to use interview, observation, percussion, palpation, inspection, and auscultation in assessing clients across the life span in simulated and actual environments. (C: NURS-B 244)

NURS-B 248 Science and Technology of Nursing (3 cr.) This course focuses on the fundamentals of nursing from a theoretical research base. It provides an opportunity for basic care nursing skills development. Students will be challenged to use critical thinking and problem solving in developing the ability to apply an integrated nursing therapeutics approach for clients experiencing health alterations across the life span. (C: NURS-B 249)

NURS-B 249 Science and Technology of Nursing: Practicum (2 cr.) Students will have the opportunity to demonstrate fundamental nursing skills in the application of nursing care for clients across the life span. (C: NURS-B 248)

NURS-B 252 Pathophysiology (3 cr.) This course focuses on the development of student understanding of alterations in normal human physiological functioning. Students will explore alterations of health and related basic diagnostic tests related to the management of selected alterations. (P: ANAT-A 215, PHSL-P 215)

NURS-B 304 Professional Nursing Seminar 1: Health Policy (3 cr.) Social, ethical, cultural, economic, and political issues that affect the delivery of health and nursing services globally are critically analyzed. Government and entrepreneurial interests are examined. Emphasis is placed on the impact of policy decisions on professional nursing practice and health services. This course is restricted to RN to BSN students only.

NURS-B 403 Gerontological Nursing (3 cr.) This course promotes a holistic approach to persons in the later years of life. Death and dying, legal and ethical issues, family care giving, and future challenges will be discussed in the context of best practices as outlined by the John A Hartford Foundation: Institute for Geriatric Nursing. Note:

some sections of this course are restricted to RN to BSN students.

NURS-B 404 Professional Nursing Seminar 2: Informatics (3 cr.) This course addresses nursing informatics: state of the science and issues for research, development, and practice. It clarifies concepts of nursing, technology, and information management; and comprises theory, practice, and the social and ethical issues in nursing and health care informatics. This course is restricted to RN to BSN students only.

NURS-H 351 Alterations in Neuro-Psychological Health (3 cr.) This course focuses on individuals and small groups experiencing acute and chronic neuropsychological disorders. Content includes the effect of the brain-body disturbances on health functioning. Other content areas are growth and development, stress, mental status, nurse-client relationships, psychopharmacology, and nursing approaches for clients experiencing DSM-IV neuropsychological disorders. (P: All sophomore-level courses. C: NURS-H 352)

NURS-H 352 Alterations in Neuro-Psychological Health: Practicum (2 cr.) Students will provide nursing care to individuals and small groups who are experiencing acute and chronic neuropsychological disturbances related to psychiatric disorders. Student experiences will be with individuals and small groups in supervised settings such as acute care, community-based, transitional, and/or the home. (C: NURS-H 351)

NURS-H 353 Alterations in Health I (3 cr.) This course focuses on the pathophysiology and holistic nursing care management of clients experiencing acute and chronic problems. Students will use critical thinking and problem solving skills to plan interventions appropriate to health care needs. (P: All sophomore-level courses. C: NURS-H354)

NURS-H 354 Alterations in Health I: Practicum (2 cr.) Students will apply the science and technology of nursing to perform all independent, dependent, and interdependent care functions. Student will engage clients in a variety of settings to address alteration in health functioning, identify health care needs, and determine the effectiveness of interventions given expected care outcomes. (C: NURS-H 353)

NURS-H 355 Data Analysis in Clinical Practice and Health Care Research (3 cr.) This course introduces nursing and other health sciences students to the basic concepts and techniques of data analysis needed in professional health-care practice. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. Differences in types of qualitative data and methods by which these types of data can be interpreted are also explored. Emphasis is placed on the application of fundamental concepts to real-world situations in client care. Note: some sections of this course are restricted to RN to BSN students.

NURS-H 361 Alterations in Health II (3 cr.) This course builds on Alterations in Health I and continues to focus on pathophysiology and holistic nursing care management of clients experiencing acute and chronic health problems and their associated needs. (P: NURS-H 351, NURS-H

352, NURS-H 353, NURS-H 354, all sophomore-level courses. C: NURS-H 362)

NURS-H 362 Alterations in Health II: Practicum (2 cr.) Students will continue to apply the science and technology of nursing to perform all independent, dependent, and interdependent care functions. Students will engage clients in a variety of settings to address alterations in health functioning. (C: NURS-H 361, P: NURS-H 351, NURS-H 352, NURS-H 353, NURS-H 354 and all sophomore courses)

NURS-H 363 The Developing Family and Child (4 cr.) This course focuses on the needs of individuals and their families who are facing the phenomena of growth and development during the childbearing and child raising phases of family development. Factors dealing with preserving, promoting, and restoring health status of family members will be emphasized. (C: NURS-H 364)

NURS-H 364 The Developing Family and Child: Practicum (2 cr.) Students will have the opportunity to work with childbearing and child raising families, including those experiencing alterations in health. (C: NURS-H 363)

NURS-H 365 Nursing Research (2 cr.) This course is on development of students' skills in using the research process to define clinical research problems and to determine the usefulness of research in clinical decisions related to practice. The critique of nursing and nursing related research studies will be emphasized in identifying applicability to nursing practice. (C: NURS-H 361, NURS-H 362, NURS-H 363, NURS-H 364)

NURS-I 630 Introduction to Nursing Informatics (3 cr.) This course provides an introduction to the field of nursing informatics, the current state of the science, and major issues for research, development, and practice. It includes clarification of the concepts of nursing, technology, and information management. In addition, the course also explores the theoretical underpinnings of nursing informatics and the practice of nursing informatics.

NURS-J 360/K 490 Operating Room Nursing/Peri-operative Nursing (lecture -- 2 cr., clinical -- 2 cr. cr.) This course is designed to enable the student to participate in the professional and technical components of peri-operative nursing practice with supervision. Learning opportunities include care of the patient undergoing the stress of surgery in the pre-, intra-, and post-operative phases. The student participates as a member of the surgical team in the circulating and scrub nurse's role. The student will also participate in the care of the patient pre-operatively by doing admission assessments.

NURS-J 595 Nursing Administrative Elective (3 cr.) This course is an intensive study and discussion of a specific topic of current interest in the theory and/or practice of Nursing Administration.

NURS-K 301 The Art and Science of Complementary Health (3 cr.) This course will serve as an introduction to a variety of complementary therapies, including healing touch, guided imagery, hypnosis, acupuncture, aromatherapy, reflexology, and massage. The class will critically examine each therapy through assigned readings, literature reviews, presentations, guest lecturers,

and optional experiential activities. Note: some sections of this course are restricted to RN to BSN students.

NURS-K 304 Nursing Specialty Elective (3 cr.) This course allows the RN to BSN student to apply nationally recognized specialty nursing knowledge and skills to the BSN degree, through a portfolio or independent study approach. National specialty standards will be used to devise learning objectives, implementation and evaluation plan. This course is restricted to RN to BSN students only.

NURS-K 305 New Innovation in Health and Health Care (3 cr.) This course explores emergent trends in health and health care, including technological advances in health care, developing approaches to care based on new knowledge and/ or research findings, and trends in health care delivery in a themed, survey or independent study format. Note: some sections of this course are restricted to RN to BSN students.

NURS-K 415 Special Needs Children in the Community (2-4 cr.) This course focuses on children with special health needs in the community setting. Concepts of growth and development will be explored in relationship to the identified health needs. Principles of health education, health maintenance, and health promotion will be integrated in the experiential component of the course.

NURS-K 432 Korean Culture and Healthcare (1 cr.) This course provides a forum for students to explore Korean culture in terms of history, culture, language, business, foods, traditions, perspectives, and healthcare. Students interact with their peers from a Korean University.

NURS-K 433 Korean Culture and Healthcare: Practicum (2 cr.) This 2-week cultural immersion experience is based at a school of nursing in South Korea. Students will participate in classroom, laboratory, clinical, cultural and leisure time activities with Korean students. Prerequisites: Must be a student in good standing in the IU School of Nursing, successfully complete the Korean Culture & Healthcare course, and be selected to participate.

NURS-K 434 Global Health Issues in Nursing (3 cr.) This course is designed to provide learning opportunities to acquire knowledge about global health issues, the diverse conditions that contribute to health and global health disparities, and an understanding of nursing's role in addressing these health problems. Issues addressed include infectious and chronic illness, reproductive and womens health issues, politics and public health policy, economics and health care, and health in conflict environments. Conceptual models and health equity concepts, evidence-based practice, and health care delivery systems are analyzed to explore strategies for addressing global health issues. Learning opportunities emphasize the knowledge and skills needed to use technology to investigate global health issues, advocate for health justice from a human rights perspective, and critically appraise global health issues.

NURS-K 440 Critical Care Elective (2 cr.) Students will hear presentations from physicians and advanced practice nurses and participate in discussions related to critical care concepts and hemodynamic monitoring. (P: Sophomore and junior level courses)

NURS-K 441 Critical Care Clinical (2 cr.)

Students will participate in a preceptored critical care clinical experiences and simulations to promote critical thinking.

NURS-K 490 Clinical Nursing Elective (1-6 cr.) Planned and supervised clinical experience in an area of concentration. Course is S/F graded. (P: Consent of instructor)

NURS-K 492 Nursing Elective (1-6 cr.) Opportunity for the student to pursue study in an area of interest. (P: Consent of instructor)

NURS-K 499 Genetics and Genomics (3 cr.) This course introduces a basic knowledge of genetics in health care, including genetic variation and inheritance; ethical, legal, and social issues in genetic health care; genetic therapeutics; nursing roles; genetic basis of selected alterations to health across the life span; and cultural considerations in genetic health care are all considered. Note: some sections of this course are restricted to RN to BSN students.

NURS-L 530 Legal Environment of Health Care (3 cr.) This course further develops the ability to analyze, synthesize, and utilize knowledge related to the complex and interdependent legal environment of health care. This is accomplished through a variety of experiences including formal lecture, seminars, clinical experiences, and independent study.

NURS-L 574 Administrative Management (3 cr.) This course encompasses concepts, theories, perspectives, and research relevant to administration of nursing services. Emphasis on management principles and organizational processes related to patient care delivery systems. Examines contemporary literature in nursing and business.

NURS-L 579 Nursing Administration Practicum (3 cr.) This course is a practicum experience designed for synthesis of theory and practice. Agency observation and activities are independently planned. Includes Web-supported communication. P: Must complete all core and administration track courses except R590 Nursing Study which can be taken concurrently to after completion of the practicum.

NURS-L 671 Financial Management (3 cr.) This course is designed to inform nurses of the concepts and principles related to budget preparation and fiscal management of a nursing unit or division. Constructs to be examined include the following: methods of obtaining personnel input, estimating costs, and cost justification.

NURS-N 502 Nursing Theory (3 cr.) This course focuses on evaluating the factors and issues influencing the development of theory in nursing. Theoretical terminology and criteria for the evaluation of theories are examined. Linkages applied between theory, research and best practice are explored.

NURS-N 504 Leadership for Advanced Nursing Practice (3 cr.) This course addresses core competencies such as leadership, professional role, health care economics, policy, and law and ethics that are essential to all advanced nursing practice roles and health care in complex systems.

NURS-P 216 Pharmacology (3 cr.) This course focuses on basic principles of pharmacology. It includes the pharmacologic properties of major drug classes and individual drugs, with an emphasis on the clinical application of drug therapy through the nursing process. Note: some sections of this course are restricted to RN to BSN students.

NURS-R 500 Nursing Research (3 cr.) This course provides a survey of research in nursing, including critique of research literature, research designs, sampling, data collection and measurement strategies, relation of research and theory, development of researchable problems, and theory utilization.

NURS-R 505 Measurement and Data Analysis (3 cr.) This course analyzes principles and application of data analysis, descriptive, inferential, and multivariate statistics. Considers the research purpose and phenomenon under study as determinants of measurement techniques and data analysis. The purpose, assumptions, and limitations of statistics will be presented. Tools and techniques for data presentation and analysis will be utilized. Introductory Item Response Theory will be explored. These topics will be considered from the perspective of research in nursing and health care.

NURS-R 590 Nursing Study (3 cr.) This course is a guided experience in identifying a researchable problem and in developing and implementing a research proposal.

NURS-S 470 Restorative Health Related to Multi-System Failures (3 cr.) This course focuses on the pathophysiology and nursing care management of clients experiencing multisystem alterations in health status. Correlations among complex system alterations and nursing interventions to maximize health potential are emphasized. (P: All Sophomore and Junior level courses. C: NURS-S 471, NURS-S 472, NURS-S 473.)

NURS-S 471 Restorative Health Related to Multi-System Failures: Practicum (2 cr.) The students will apply the nursing process to the care of clients experiencing acute multi-system alterations in health. (C: NURS-S 470, NURS-S 472, NURS-S 473.)

NURS-S 472 A Multi-System Approach to the Health of the Community (3 cr.) This course focuses on the complexity and diversity of groups or aggregates within communities and their corresponding health care needs. Through a community assessment of health trends, demographics, epidemiological data, and social/political issues in local and global communities, the student will be able to determine effective interventions for community-centered care. (P: All junior level courses. C: NURS-S 470, NURS-S 471, NURS-S 473.)

NURS-S 473 A Multi-System Approach to the Health of the Community: Practicum (2 cr.) Students will have the opportunity to apply the concepts of community assessment, program planning, prevention, and epidemiology to implement and evaluate interventions for community-centered care to groups or aggregates. Professional nursing will be practiced in collaboration with diverse groups within a community. (C: NURS-S 470, NURS-S 471, NURS-S 472.)

NURS-S 474 Applied Healthcare Ethics (3 cr.) Building on the ANA Code of Ethics for Nurses, this course

explores the nurse's role in ethical clinical practice, academic work, health policy, and research conduct, focusing particularly on the advocacy role of the nurse. Common ethical problems are discussed and strategies for resolution of ethical dilemmas are applied. Note: some sections of this course are restricted to RN to BSN students.

NURS-S 475 A Multi-System Approach to the Health of the Community: RN to BSN (3 cr.) Basic epidemiological principles and community health nursing models are applied in collaboration with diverse groups. Disease prevention strategies are applied to individuals and populations to promote health. Students apply the concepts of community assessment, disease prevention, and health promotion to plan, implement, and evaluate interventions for populations in the community. This course is restricted to RN to BSN students only.

NURS-S 481 Nursing Management (2 cr.) This course focuses on the development of management skills assumed by professional nurses, including delegation of responsibilities, networking, facilitation of groups, conflict resolution, leadership, case management and collaboration. Concepts addressed include organizational structure, change, managing quality and performance, workplace diversity, budgeting and resource allocation, and delivery systems. (P: All Sophomore, Junior, and First Semester Senior level courses. C: NURS-S 481, NURS-S 482, NURS-S 483, NURS-S 485.)

NURS-S 482 Nursing Management: Practicum (2 cr.) Students will have the opportunity to apply professional management skills in a variety of nursing leadership roles. (C: NURS-S 481, NURS-S 483, NURS-S 485.)

NURS-S 483 Clinical Nursing Practice Capstone (3 cr.) Students will have the opportunity to demonstrate competencies consistent with program outcomes and to refine their nursing care practice skills. Students will collaborate with faculty and a preceptor in choosing a care setting, planning and organizing a learning experience, and practicing professional nursing in a safe and effective manner. (C: NURS-S 481, NURS-S 482, NURS-S 485.)

NURS-S 485 Professional Growth and Employment (3 cr.) This course focuses on issues related to professional practice, career planning, personal goal setting, and empowerment of self and others. Students will discuss factors related to job performance, performance expectations and evaluation, reality orientation, and commitment to life-long learning. (C: NURS-S 481, NURS-S 482, NURS-S 483.)

NURS-S 487 Nursing Management: RN to BSN (3 cr.) This course focuses on development of management skills assumed by professional nurses, including delegation of responsibilities, networking, and facilitation of groups, conflict resolution, leadership, case management, and collaboration. Concepts addressed include organizational structure, delivery systems, change, managing quality and performance, budgeting and resource allocation, staffing, scheduling, evaluation and career development. This course is restricted to RN to BSN students only.

NURS-T 615 Curriculum in Nursing (3 cr.) This course is designed for persons who are or will be engaged in teaching within nursing education settings. The primary focus is the process of curriculum development;

philosophical, social, political, economic, and professional issues that need to be considered in planning curricula, evaluating existing curricula, and changing curricula are examined.

NURS-T 617 Evaluation in Nursing (3 cr.) This course integrates concepts of assessment and evaluation into a nursing framework. Students analyze assessment/evaluation concepts, models, and frameworks for applicability for students, faculty, curricula, and programs.

NURS-T 619 Computer Technologies for Nurse Educators (3 cr.) This course provides nurse educators an opportunity to acquire knowledge and skills for using computer technologies to support the teaching/learning process. Emphasis is given to theoretical frameworks that guide the selection, use, and integration of computer technologies in nursing education programs.

NURS-T 670 Teaching in Nursing (3 cr.) This course provides seminar and guided experiences in teaching of nursing, including planning, developing, implementing, and evaluating classroom and clinical instruction.

NURS-T 675 Nursing Elective (3 cr.) This course is an intensive study and discussion of a specific topic of current interest in the theory and/or practice of nursing education.

NURS-T 679 Nursing Education Practicum (3 cr.) This course is a capstone practicum experience designed for application, demonstration and synthesis of theory and competencies related to the role of nurse educator. Learning experiences are planned and negotiated to meet individual learning goals in the context of preceptor-supervised experiences in classroom and/or clinical health care practice settings. P: Must complete all core and education track courses except NURS-R 590 Nursing Study which can be taken concurrently or after completion of the practicum.

NURS-Y 510 Advanced Practice Concepts 1 (3 cr.) This course analyzes selected nursing concepts and related research with a focus on ethics, human diversity and social issues including genomics and genetics as well as health promotion and disease prevention including select pathophysiology, pharmacology, and health assessment. Course investigates the advanced practice nurse role in population health and public health science. Relationship of concepts to advanced practice models is explored.

NURS-Y 520 Advanced Practice Concepts 2 (3 cr.) This course analyzes selected nursing concepts and related research with a focus on health care policy, organization of health care delivery systems, health care financing and health care economics and the impact of quality and safety on these concepts. Relationship of concepts to advanced practice models is explored.

NURS-Z 490 Clinical Experience in Nursing (1-6 cr.) P: consent of instructor. S/F graded. Planned and supervised clinical experiences in the area of the student's major interest.

NURS-Z 492 Individual Study in Nursing (1-6 cr.) P: Consent of instructor. Opportunity for the student to pursue independent study of topics in nursing under the guidance of a selected faculty member.

Academic Policies for the Graduate Nursing Program

Progression Policy

Any period of absence that prevents a student from meeting course outcomes may result in withdrawal or an incomplete grade in the course at the discretion of the instructor. Failure to register in each sequential semester also constitutes an interruption in the student's program. Students who have interrupted their program of study for more than one semester are required to submit a written request to re-enter the program to the IU Kokomo MSN Committee. All requests to the MSN Committee must be sent to the School of Nursing via registered mail, to the attention of the Assistant Dean for Nursing Graduate Programs. All requests for re-entry will be evaluated on the basis of the availability of resources. Reentry of students who have interrupted their study for any reason is not guaranteed and may require a refresher course and/or documentation of current competencies.

Curriculum changes during the period of interrupted progress toward the degree may result in review and revision of degree requirements based on evaluation of individual situations. Students who re-enter must adhere to the current policies and curriculum of the School of Nursing in effect at the time of reentry. Students re-entering will be expected to apply all knowledge and skills from previous courses upon re-entry.

Withdrawals

Withdrawals are issued to students wishing to withdraw from any or all courses if the official withdrawal request is completed by the deadline dates printed in the current class schedule. A grade of W will appear on student transcripts when students complete the official withdrawal request by the published deadline. Once the deadline for course withdrawals has passed, the student will need the permission of the faculty member responsible for the course and Dean of Nursing to withdraw. A grade of either "F" or "W" will be awarded as determined by the instructor. "W" is an option after the withdrawal deadline only if the student is passing (with at least a B-) the course at the time of the request and has an overall program GPA of at least 3.0. A grade of "FN" will be recorded on the official transcript if a student stops attending but does not officially withdraw from class.

Students planning to withdraw from the graduate nursing program should meet with the Assistant Dean for Nursing Graduate Programs. Additionally, the following policies pertain to students:

- Failure to register in two sequential semesters constitutes withdrawal from the nursing program.
- A pattern of withdrawals may influence consideration of further reinstatement requests.

Repeat Nursing Courses

A student who receives a grade lower than B- in a nursing course(s) will be required to repeat that/those course(s). A student will receive no more than two opportunities to successfully complete a given nursing course. Failure to receive a minimum grade of B- upon repeating a nursing course will result in dismissal.

Validation examinations may not be used as substitutes for repeating any nursing course. Students who need to repeat a nursing course must make a request to the IU Kokomo SON MSN Committee for placement in the repeated course. All requests for re-entry will be evaluated on the basis of the availability of resources. All requests to the MSN Committee must be sent to the School of Nursing via registered mail, to the attention of the Assistant Dean for Nursing Graduate Programs. When a student receives permission from the MSN Committee to repeat a nursing course, the request is granted on a space available basis. All future enrollments in the nursing major will be based on space availability.

Grade Appeals

Grade appeals must be initiated in writing within 30 calendar days after the student's grade was posted. After 30 calendar days a student may only appeal a grade if severe circumstances have prohibited the student from filing on time. Examples of such circumstances include military deployment or catastrophic illness. Please access the Indiana University Kokomo Grade Appeals.

Policy for the complete grade appeals process at http://www.iuk.edu/admin-services/academic_affairs/resident_faculty/policies_procedures/grades/grade_appeal_process.shtml

Academic Probation

A student will be placed on academic probation when any of the following conditions exist:

- The cumulative grade point average falls below 3.0.
- The semester grade point average is below 3.0.
- A grade below B- has been earned in a required course.
- Failure to comply with School of Nursing and/or MSN Program policies.

Academic probation will be removed after the semester during which the following conditions have been met:

- The cumulative grade point average is 3.0 or higher.
- The semester grade point average reaches 3.0 or higher.
- A minimum grade of B- has been earned in all required courses taken.
- Compliance with School of Nursing policies.

Dismissal

A student will be dismissed from the school of nursing when there is a lack of progress toward the degree. Evidence of lack of progress consists of one or more of the following:

- Failure to attain a 3.0 grade point average in any two consecutive semesters.
- Failure to attain a cumulative grade point average of 3.0 in two semesters.
- Falsification of records or reports, plagiarism, or cheating on an examination, quiz, or any other assignment is cause for dismissal. See the *Indiana University Code of Students Rights, Responsibilities & Conduct*.
- The faculty reserves the right to dismiss any student whose personal integrity, health, or conduct demonstrates unfitness to continue preparation

in the profession of nursing. Integrity and conduct will be judged according to the standards set by the 2001 revised Code for Nurses adopted by the American Nurses' Association.

Reinstatement

A student who has been dismissed from the School of Nursing for academic failure may request reinstatement by petitioning the IU Kokomo SON MSN Committee. Students who desire reinstatement in the program must submit a written request to the Assistant Dean for Nursing Graduate Programs. All requests to the Assistant Dean for Nursing Graduate Programs must be sent via registered mail.

Reinstatement is not guaranteed. Reinstatement requests will be evaluated individually on the basis of faculty recommendations at the time of dismissal, academic standing, potential for progress toward the degree, availability of resources, and satisfactory completion of any conditions existing at the time of withdrawal or dismissal. Students who are reinstated must adhere to policies and curriculum in effect at the time of reinstatement.

Intercampus Transfers

Students in the MSN Program who are in good academic standing may seek intercampus transfer by sending a written request to the Assistant Dean of Graduate Programs. Intercampus transfer requests will be evaluated individually based on student record review. Transfer students must meet or exceed admission qualifications. Further, the availability of course positions, faculty, and facilities to meet student needs and program objectives will be considered.

Completion of Degree Requirements

All candidates for the Master of Science in nursing must fulfill the following requirements:

1. Satisfactory completion of a minimum of 39 credit hours that apply to the degree.
2. Achievement of a minimum cumulative grade point average of 3.0 on a 4.0 scale.
3. Achievement of a minimum of B- in each required course or equivalent by the second completed attempt.
4. Removal of all incompletes, deferred grades, and special credit course grades in nursing courses by three weeks prior to the end of the student's last semester before graduation.
5. Completion of all coursework within four years after the enrollment in nursing courses.
6. Apply for the degree according to published IU Kokomo deadlines.

Back

Department of Public Administration and Health Management

Interim Dean: Linda Wallace **Graduate Program**

Director: Karl Besel

Professor: Robert Dibie **Associate Professor:** Karl Besel

Visiting Lecturer: Jerry Horn

Mission The Department of Public Administration and Health Management (PAHM) is a multidisciplinary unit of Indiana University Kokomo and it is organized as a professional division. It is the mission of PAHM to prepare tomorrow's leaders through innovative education, to solve complex problems through interdisciplinary research, and to enrich society through professional service. The Department of Public Administration and Health Management at Indiana University Kokomo defines the mission of both undergraduate and graduate programs in terms of its responsibility to the profession of public administration and health management; to the public, non-profit, and community organizations which the field supports; to the university and its diverse students; and to the national and international communities they all serve.

PAHM's teaching mission is defined in terms of the role the department plays in enabling current and future public servants to develop skills necessary to address challenges posed in public management, health management, and administration in nonprofit organizations, governance, policy-making, implementation, and organizational effectiveness. PAHM strives to orient its students to the public interest, humanistic acumen, personal contribution and to the client/citizens, not merely to technical outcomes. In its service mission role, PAHM strives to fulfill the ideal of public service as an example to the profession and to its students as a means to continued personal development as faculty, to provide leadership, technical support, and mentoring in a manner that recognizes social interdependence, democratic ideals, and the needs of social justice. Through its research mission, PAHM strives to meaningfully address the body of social knowledge and experience through interpretation, re-interpretation, and creative insight. We accept the responsibility for helping to create standards of excellence and conduct for the profession of public administration both nationally and internationally. We are especially concerned with knowledge that promotes a functional and responsible praxis of thought and action in the classroom, in the work environment, and in the society within which they co-exist. Overall, PAHM strives to develop student sensibilities to a wide variety of human, social and organizational realities, which assist public and nonprofit organizations in formulating and achieving responsible social change.

Goals As an integral part of the university, IU Kokomo PAHM is committed to providing an academic and social environment for its majors that will develop in each student:

1. A basic understanding of the institutions, processes, and actors in the public administration and health management arenas, with special appreciation of the problems and responsibilities of dispensing public governance, public policy, and health management in a democratic social order.
2. A basic understanding of world public administration and health management so as to provide an appreciation of global diversity and to provide a contrast and comparison to the American system.
3. Strong writing, verbal, and analytical skills that will facilitate successful employment inside and/or

outside the public management and criminal justice systems and general life-long learning.

4. A sense of professionalism that will assist the student in being a success in his/her post-graduation endeavors. In the context of these goals, IU Kokomo PAHM department offers course work leading to:
 - Bachelor of Science in Public Administration (B.S.P.A.)
 - Graduate Certificate in Public Management
 - Graduate Certificate in Health Management
 - Master of Public Management (MPM) with track in Public Management and Policy
 - Master of Public Management (MPM) with track in Health Management

Majors/Minors**Undergraduate Degrees**

- Bachelor of Science in Public Administration:
 - Health Administration Minor

Master Degrees

- Master of Public Management

Certificate Program

- Graduate Certificate in Health Management
- Graduate Certificate in Public Management

Courses

- Undergraduate Courses
- Graduate Courses

Public Administration

Students with a Bachelor of Science in Public Administration (B.S.P.A.) degree can continue their education in law, planning, policy analysis, or business administration. For those who choose immediate employment, the degree is flexible enough to provide the necessary background to begin a career in the public or nonprofit sector. The B.S.P.A. requires 120 credit hours. The B. S. in Public Administration degree includes a Health Administration minor.

Degree Requirements

The program includes three main areas: general education, core courses in the major area, and general electives.

General Education Core: Unless otherwise indicated, all courses require a C or better. Graduates of the PAHM undergraduate program must fulfill all of the General Education requirements as passed by the Faculty Senate. These general education requirements are effective with the Fall 2012 admitted students and are found elsewhere in this bulletin.

Information Literacy/Communication Skills (3 Courses Required, 9 cr)

- ENG-W 131 Elementary Composition I (3 cr)
- ENG-W 132 Elementary Composition II (3 cr)
- SPCH-S 121 Public Speaking

Quantitative Literacy (4-8 credits) Must earn C- or higher in one of the following options:

- **Option 1:** MATH-M 118 (3 cr) or MATH-M 119 (3cr) or MATH-M215 (3cr) AND a statistics course at a major level: ECON-E270, MATH-M366, MATH-K310, PSY-K300, EDUC-K490, NURS-H355
- **Option 2:** MATH-M 133 (2cr) AND MATH-M 134 (2cr.): These courses have MATH-M105 as a prerequisite and have the statistics content.

Critical Thinking (3cr) One course from the list:

- PSY-P211, HSS-S400, PHIL-P150, ENG-L202, SPCH-S336, SOC-S340, BUS-J401, PAHM-V379, CJHS-J201, NURS-S470, INFO-I303, EDUC-P251, EDUC-P255, NMCM-N411, CHEM-105/125, BIOL-L105, MATH-M216, BIOL-L364, PHIL-P383, AHLT-R406

Cultural Diversity (3cr) One course from the list:

- HSS-I 100, HSS-F200, SPCH-S302, SPCH-S427, EDUC-M300, BUS-D301, CJHS-J355, FOLK-F101, INFO-I356, SOC-C100, Any 100-level or above foreign language course.

Ethics and Civic Engagement (3cr) One course from list:

- SPCH-S223, SPCH-S233, PHIL-P100, PHIL-P140, PHIL-P242, PHIL-P342, PHIL-P375, PHIL-P383, EDUC-H340, BUS-L201, CJHS-J101, NURS-S472, AHLT-R407

Social and Behavioral Sciences (18cr)

- POLS-Y103 Introduction to American Politics (3cr)
- ECON-E201 Introduction to Microeconomics (3cr)
- ECON-E202 Introduction to Macroeconomics (3cr)
- HIST-H105 American History I (3cr)
- HIST-H106 American History II (3cr)
- **PLUS One (1) additional course from the following subject areas:** (3cr each)
- History (other than H105 or H106), Political Science (other than Y103), Psychology, Sociology

Humanities and Arts (6cr) two 3 credit hour courses, each from a different area:

- Literature and Philosophy: SPAN-S360, Any PHIL course except PHIL-P150, Any ENG-L course or ENG-E course, COAS-E103, FINA-A101, FINA-A102
- Fine, Performing, and Communication Arts: FINA-A101, FINA-A102 or any studio art course, HUMA-U101, HUMA-U102, HUMA-U103, HUMA-U305, MUS-M174, MUS-X001, MUS-X040, MUS-X070, MUS-U320 or any music performance course, THTR-T120, ENG-W203, EDUC-M333, EDUC-M323, HSS-E103

Physical and Life Sciences (8cr) two course: one 5cr course and one 3cr hour course. The two courses must come from two different science areas. One must have an associated lab.

- Biology: BIOL-L100 (5), BIOL-L105 (5), BIOL-L270 (3), BIOL-L370 (3), ANAT-A215 (5), PHSL-P215 (5), MICR-J200 (3), PLSC-B203 (5), PLSC-B364 (5), HSS-E105
- Chemistry: CHEM-C390 (3), CHEM-C100/C120 (5), CHEM-C101/C121 (5), CHEM-C105/C125 (5), HSS-E105, CHEM-C109

- Physics: PHYS-P100 (5), PHYS-P201 (5), AST-A110, AST-A100, SCI-E105
- Geology: GEOG-G315 (3), GEOG-G107 (3), GEOL-G100 (5), GEOL-G133 (5), GEOL-G400 (3), GEOL-T312 (3), SCI-E105

Core Concentration – Students must have an average of 2.5 or higher in the core and concentration courses.

Public Administration Core (7 Courses)

- PAHM-V 171 Introduction to Public Administration (3 cr.) **prerequisite for all other public administration courses**
- PAHM-V 263 Public Management (3 cr.)
- PAHM-V 264 Urban Structure and Policy (3 cr.)
- PAHM-V 372 Government Finance and Budgets (3 cr.)
- PAHM-V 373 Human Resource Management in the Public Sector (3 cr.)
- PAHM-V 376 Law and Public Policy (3 cr.)
- PAHM-V 378 Public Policy Processes in the United States (3 cr.)

Public Administration Major: Total 30 credits

Requirements: SEVEN (7) courses (21 cr) from the following, chosen in consultation with PAHM faculty/advisor.

- PAHM-V 346 Introduction to Government Accounting Financial Reporting (3 cr.)
- PAHM-V 366 Managing Behavior in Public Organizations (3 cr.)
- PAHM-V 368 Managing Government Operations (3 cr.)
- PAHM-V 370 Research Methods and Statistics (3 cr.)
- PAHM-V 379 Performance Measurement and Program Evaluation (3 cr.) **Critical Thinking Requirement**
- PAHM-V 380 Internship in Public Administration (3 cr.) **required for track**
- PAHM-V 386 Case Study for Policy Analysis (3 cr.)
- PAHM-V 405 Public Law and the Legislative Process (3 cr.)
- PAHM-V 444 Public Administrative Organization (3 cr.)
- PAHM-V 460 Intergovernmental Relations (3 cr.)

Three (3) of the following courses (9 cr.)

- PAHM-V 221 Nonprofit and Voluntary Sector (3 cr.)
- PAHM-V 362 Nonprofit Management and Leadership (3 cr.)
- PAHM-V 412 Leadership and Ethics (3 cr.) OR PAHM-H474 Health Administration Ethics (3cr)
- PAHM-V 443 Managing Workforce Diversity (3 cr.)
- PAHM-V 473 Management, Leadership, and Policy (3 cr.)
- ADDITIONAL elective courses to reach 120 credit hours required for graduation.

Health Administration

Students with a Bachelor of Science in Public Administration (B.S.P.A.) degree can continue their

education in law, planning, policy analysis, or business administration. For those who choose immediate employment, the degree is flexible enough to provide the necessary background to begin a career in the public or nonprofit sector. The B.S.P.A. requires 120 credit hours. The B.S. in Public Administration degree includes a Health Administration minor.

Degree Requirements

The program includes three main areas: general education, core courses in the major area, and general electives.

General Education Core: Unless otherwise indicated, all courses require a C or better. Graduates of the PAHM undergraduate program must fulfill all of the General Education requirements as passed by the Faculty Senate. These general education requirements are effective with the Fall 2012 admitted students and are found elsewhere in this bulletin.

Information Literacy/Communication Skills (3 Courses Required, 9 cr)

- ENG-W 131 Elementary Composition I (3 cr)
- ENG-W 132 Elementary Composition II (3 cr)
- SPCH-S 121 Public Speaking

Quantitative Literacy (4-8 credits) Must earn C- or higher in one of the following options:

- **Option 1:** MATH-M 118 (3 cr) or MATH-M 119 (3cr) or MATH-M215 (3cr) AND a statistics course at a major level: ECON-E270, MATH-M366, MATH-K310, PSY-K300, EDUC-K490, NURS-H355
- **Option 2:** MATH-M 133 (2cr) AND MATH-M 134 (2cr.): These courses have MATH-M105 as a prerequisite and have the statistics content.

Critical Thinking (3cr) One course from the list:

- PSY-P211, HSS-S400, PHIL-P150, ENG-L202, SPCH-S336, SOC-S340, BUS-J401, **PAHM-V379**, CJHS-J201, NURS-S470, INFO-I303, EDUC-P251, EDUC-P255, NMCM-N411, CHEM-105/125, BIOL-L105, MATH-M216, BIOL-L364, PHIL-P383, AHLT-R406

Cultural Diversity (3cr) One course from the list:

- HSS-I100, HSS-F200, SPCH-S302, SPCH-S427, EDUC-M300, BUS-D301, **PAHM-V443**, CJHS-J355, FOLK-F101, INFO-I356, SOC-C100, Any 100-level or above foreign language course.

Ethics and Civic Engagement (3cr) One course from list:

- SPCH-S223, SPCH-S233, PHIL-P100, PHIL-P140, PHIL-P242, PHIL-P342, PHIL-P375, PHIL-P383, EDUC-H340, BUS-L201, **PAHM-V171**, CJHS-J101, NURS-S472, AHLT-R407

Social and Behavioral Sciences (18cr) Requirement

– SIX 3 credit hour courses:

- POLS-Y103 Introduction to American Politics (3 cr)
- ECON-E201 Introduction to Microeconomics (3 cr)
- ECON-E202 Introduction to Microeconomics (3 cr)
- HIST-H105 American History I (3 cr)
- HIST-H106 American History II (3 cr)

- **PLUS One (1) additional course from the following subject areas:** (3 cr each) History (other than H105 or H106), Political Science (other than Y103), Psychology, Sociology

HUMANITIES AND ARTS (6 cr) Requirement – TWO 3 credit hour courses, each from a different area:

- Literature and Philosophy: SPAN-S 360, Any PHIL course except PHIL-P 150, Any ENG L course or ENG-E course, COAS-E 103*, FINA-A 101, FINA-A 102
- Fine, Performing, and Communication Arts:FINA-A 101, FINA-A 102 or any studio art course, HUMA-U 101, HUMA-U 102, HUMA-U 103, HUMA-U 305, MUS-M 174, MUS-X 001, MUS-X 040, MUS-X 070, MUS-U 320 or any music performance course, THTR-T 120, ENG-W 203, EDUC-M 333 AND EDUC-M 323, HSS-E 103.

PHYSICAL AND LIFE SCIENCES (8 cr) Requirement

–TWO (2) courses: ONE 5cr course and ONE 3 cr hour course. The two courses must come from two different science areas. One course must have an associated lab.

- Biology BIOL-L 100 (5), BIOL-L 105 (5), BIOL-L 270 (3), BIOL-L 370 (3), ANAT-A 215 (5), PHSL-P 215 (5), MICR-J 200 (3), PLSC-B 203 (5), PLSC-B 364 (5), SCI-E 105
- Chemistry CHEM-C 390 (3), CHEM-C 100/C 120 (5), CHEM-C 101/CHEM-C 121 (5), CHEM-C 105/CHEM-C 125 (5), SCI-E 105, CHEM-C 109
- Physics PHYS-P 100 (5), PHYS-P 201 (5), AST-A 110, HSS-E 105
- Geology GEOG-G 315 (3), GEOG-G 107 (3), GEOL-G 100 (5), GEOL-G 133 (5), GEOL-G 400 (3), GEOL-T 312 (3), SCI-E 105

Core Concentration – Students must have an average of 2.5 or higher in the core and concentration courses.

Public Administration Core (7 Courses)

- PAHM-V 171 Introduction to Public Administration (3 cr.) **prerequisite for all other public admin courses**
- PAHM-V 263 Public Management (3 cr.)
- PAHM-V 264 Urban Structure and Policy (3 cr.)
- PAHM-V 372 Government Finance and Budgets (3 cr.)
- PAHM-V 373 Human Resource Management in the Public Sector (3 cr.)
- PAHM-V 376 Law and Public Policy (3 cr.)
- PAHM-V 378 Public Policy Processes in the United States (3 cr.)

Health Administration Minor

Requirements: 10 courses from the following, chosen in consultation with PAHM faculty/advisor.

- PAHM-H 320 Health Systems Administration (3 cr.)
- PAHM-H 352 Health Finance and Budgeting (3 cr.)
- PAHM-H 354 Health Economics (3 cr.)
- PAHM-H 365 Health Administration Practicum (3 cr.) **required for track**
- PAHM-H 401 Strategic Planning for Health Care Organization (3 cr.)

- PAHM-H 402 Hospital Administration (3 cr.)
- PAHM-H 411 Chronic and Long-Term Care Administration (3 cr.)
- PAHM-H 432 Health Care Marketing (3 cr.)
- PAHM-H 441 Legal Aspects of Health Care (3 cr.)
- PAHM-H 455 Topics in Public Health (3 cr.)
- PAHM-H 456 Health Care Reimbursement (3 cr.)
- PAHM-H 474 Health Administration Ethics (3 cr.) or V-412 Leadership and Ethics (3 cr.)

Graduate Certificate in Public Management

Graduate Certificate in Public Management

This certificate is a 15 credit hours program in public administration at the graduate level. The program is flexible enough to be adapted to the needs of pre-career and in-service individuals. Career employees of public sector agencies seeking courses in public administration, especially those changing from professional or technical roles to managerial roles, will find the certificate program beneficial. Course work includes:

Required Core Courses (9 credit hours)

- PAHM-V 502 Public Management (3 cr.)
- PAHM-V 560 Public Finance and Budgeting (3 cr.) or PAHM-H 509 Financial Management Principles of Health Care
- PAHM-V 561 Public Human Resources Management (3 cr.)

Electives (6 credit hours)

Two additional graduate public management courses approved by advisor.

- PAHM-V 506 Statistical Analysis for Effective Decision Making
- PAHM-V 509 Administrative Ethics in the Public Sector
- PAHM-V 512 Public Policy Analysis
- PAHM-V 562 Public Program Evaluation
- PAHM-V 566 Executive Leadership
- PAHM-V 504 Public Organizations
- PAHM-V 517 Public Management Economics
- PAHM-V 540 Law and Public Affairs
- PAHM-V 561 Public Human Resource Management
- PAHM-V 525 Management in Non-Profit Sector
- PAHM-V 557 Topics in Public Affairs- Grant Administration

Admission Requirements

When applying for the Graduate Certificate in Public Management the following documentation is required:

1. Submit application to the PAHM office
2. Bachelor degree from an accredited university or college with a GPA between 2.6 or 3.0
3. Official transcript from all university or colleges attended must be submitted with the completed application forms. Students who have taken course work on any Indiana University campus do not need to submit an Indiana University transcript.

4. Pay a non refundable application fee of \$40

Academic Standards:

Students will be referred to the Graduate Director if their cumulative grade point average (GPA) falls below a 3.0. During this meeting the referred student will be required to develop a plan in tandem with the Graduate Director for improving their academic performance.

Each Course Requirement:

All graduate students are expected to earn an average grade of "B" (3.0) or higher in each course. Subsequently, students receiving a C or lower will be referred to the Graduate Director in order to develop a plan for improving their academic performance. Subsequently, the Director may recommend that a student who receives a C or lower in a particular course retake the class.

Graduate Certificate in Health Management

This certificate is a 21 credit hours program in health management at the graduate level. The program is flexible enough to be adapted to the needs of pre-career and in-service individuals. Career employees of public sector agencies seeking courses in public management, especially those changing from professional or technical roles to managerial roles, will find the certificate program beneficial. It is significant to note that admission into the Certificate Program is separate from admission into the MPM Degree Program. Subsequently, students must pay a separate application fee for potential admission into the MPM Degree program if they select to pursue this degree option following the completion of the Certificate. In addition, students cannot apply for this Certificate program once they have completed the requirements for the MPM degree with a concentration in health care management. Course work includes:

Required Core Courses (18 credit hours)

- PAHM-H 509 Financial Management Principles of Health Care
- PAHM-H 514 Health Economics
- PAHM-H 515 Seminar in Health Policy and Law
- PAHM-H 628 Health Care Information Systems
- PAHM-V 543 Health Services Management
- PAHM-V 561 Public Human Resource Management
- PAHM-V 631 Health Application of Strategic Planning

Electives/Practicum

(3 credit hours)

- PAHM-V 550 Topics in Health Care –Environmental Health
- PAHM-V 557 Topics in Public Administration- Proposal Development and Grants Administration
- PAHM-V 592 Global Health Issues and Management
- PAHM-H 612 Marketing for Health Service Delivery
- PAHM-V 585 Practicum in Public Administration - (experiential or professional requirements)

Admission Requirements

When applying for the Graduate Certificate in Health Management the following documentation is required:

1. Submit application to the PAHM office.
2. Bachelor degree from an accredited university or college with a GPA between 2.6 or 3.0.
3. Official transcript from all university or colleges attended must be submitted with the completed application forms. Students who have taken course work on any Indiana University campus do not need to submit an Indiana University transcript.
4. Pay a nonrefundable application fee of \$40

Students with a GPA between 2.6 and 3.0 may be admitted to the Graduate Certificate Program in Public Management (GCPM) and on successful completion apply to the Master in Public Management (MPM) degree program. Students seeking admission to the (GCPM) do not need to take the GRE or GMAT test. These tests may be required for students applying for admission into the MPM program that exhibit undergraduate GPAs that are lower than 3.0. Subsequently, students with lower GPAs may also be expected to successfully complete two graduate level courses within the MPM program before being admitted. Applications for the Graduate Certificate in Health Management program are processed on a year-round basis for admission in any academic semester.

Academic Standards:

Students will be referred to the Graduate Director if their cumulative grade point average (GPA) falls below a 3.0. During this meeting the referred student will be required to develop a plan in tandem with the Graduate Director for improving their academic performance.

Each Course Requirement:

All graduate students are expected to earn an average grade of "B" (3.0) or higher in each course. Subsequently, students receiving a C or lower will be referred to the Graduate Director in order to develop a plan for improving their academic performance. Subsequently, the Director may recommend that a student who receives a C or lower in a particular course retake the class.

Master in Public Management

The Master of Public Management (MPM) program provides public service managers the skills to cope with challenging human and technical issues. It also provides a broad interdisciplinary background in the values and ethics of public management. It is designed as preparation for executive leadership positions in the public, private and nonprofit sectors. The program can be completed on either a full-time or part-time basis. Most coursework for the program is offered in the evenings to allow students to work full-time and participate in the MPM program part-time. To meet the needs of our dynamic and diverse students population, PAHM offers three avenues for graduate education: online courses, cohort programs (intensive weekend courses), and traditional courses offered on the Indiana University Kokomo campus. Online courses provide the option to complete some coursework from a location of choice. Weekend cohort courses conveniently condense a semester-long course into several weekend sessions.

Curriculum Information

The 39-credit hours MPM a track in Public Management and Policy program is designed to develop leaders for public, private and nonprofit organizations and allows

for expertise in public management and policy analysis. The 39 credit hours of courses require the completion of 18 hours in core courses, 15 hours in concentration areas in public management and policy analysis, 3 hours in experiential or professional requirements and 3 credit hours in electives. The 42-credit hour MPM a track in Health Management require the completion of 18 hours in core courses, 18 hours in concentration areas in public management and policy analysis, 3 hours in experiential or professional requirements and 3 credit hours in electives. The electives add breadth to a chosen program, further exploration of the field of concentration, and enhance quantitative and analytical skills or administrative techniques. The experiential requirement ensures that each graduate of the MPM gains insight into the world of public service through an experience outside the classroom.

TRACKS (SELECT ONE---Public Management and Policy or Health Management)

Master of Public Management (MPM) with a in Public Management and Policy Track

Core Required Courses (18 Credit Hours)

- PAHM-V 502 Public Management
- PAHM-V 506 Statistical Analysis for Effective Decision Making
- PAHM-V 509 Administrative Ethics in the Public Sector
- PAHM-V 560 Public Finance and Budgeting
- PAHM-V 562 Public Program Evaluation
- PAHM-V 566 Executive Leadership

Concentration Requirements: (15 Credit Hours)

- PAHM-V 504 Public Organizational Behavior
- PAHM-V 517 Public Managerial Economics
- PAHM-V 540 Law and Public Affairs
- PAHM-V 561 Public Human Resource Management
- PAHM-V 512 Public Policy Analysis

Electives (3 Credit Hours)

- PAHM-V 525 Management in Non-Profit Sector
- PAHM-V 557 Topics in Public Affairs- Proposal Development and Grant Administration

Practicum (3 credit Hours)

- PAHM-V 585 Practicum in Public Administration - (experiential or professional requirements)

Master of Public Management with a in Health Management Track

Core Required Courses (18 Credit Hours)

- PAHM-V 502 Public Management
- PAHM-V 504 Public Organizational Behavior
- PAHM-V 506 Statistical Analysis for Effective Decision Making
- PAHM-V 509 Administrative Ethics in the Public Sector
- PAHM-V 560 Public Finance and Budgeting or H509 Financial Management Principles of Health Care
- PAHM-V 566 Executive Leadership

Concentration Requirements Courses (18 Credit Hours)

- PAHM-H 514 Health Economics
- PAHM-V 515 Seminar in Health Policy and Law
- PAHM-V 561 Public Human Resource Management
- PAHM-V 543 Health Services Management
- PAHM-H 628 Health Care Information
- PAHM-V 631 Health Application of Strategic Planning

Electives (3 Credit Hours)

- PAHM-V 550 Topics in Health Care –Environmental Health
- PAHM-V 550 Topics in Public Affairs-Proposal Development and Grant Administration
- PAHM-H 612 Marketing for Health Service Delivery

Practicum (3 Credit Hours)

- PAHM-V 585 Practicum in Public Administration - (experiential or professional requirements)

MPM Students may choose any graduate course offered in the area of their interest for three credits. In addition, students may take 3 credit hours in experiential or professional requirements (PAHM-V 585). Students who do not have public management or policy analysis experience will be required to take PAHM-V 585 Practicum in Public Administration.

MPM Application Requirements

Eligibility

Applicants with bachelor's degrees in any field from an accredited institution are eligible to apply for admission to the graduate programs of the School of Public Administration and Health Management. Minimum preferred requirements for admission include a baccalaureate degree from an accredited college or university with a grade point average (GPA) of "B" (3.0) or higher. The GRE or GMAT may be required for students applying for admission into the MPM program that exhibit undergraduate GPAs that are lower than 3.0. Subsequently, students with lower GPAs may also be expected to successfully complete two graduate level courses within the MPM program before being admitted.

Applications for the Graduate Certificate in Public Management program are processed on a year-round basis for admission in any academic semester.

Subsequently, students with a GPA between 2.6 and 3.0 may be admitted to the Graduate Certificate Program in Public Management (GCPM) and on successful completion apply to the MPM degree program. Students seeking admission to the (GCPM) do not need to take the GRE or GMAT test. Applications for the MPM program are processed on a year-round basis for admission in any academic semester.

Application Submission

Applicants should apply to a degree or certificate program and request financial assistance as early as possible before the desired semester of enrollment. All application forms must be completed and received by the PAHM office at Indiana University Kokomo.

Admission

Each application for admission is carefully evaluated by the admissions committee. Applicants to all PAHM degree programs must do the following:

1. Submit applications to the PAHM program office.
2. Submit complete official transcripts from all colleges and universities attended. Students who have taken course work on any Indiana University campus does not need to submit an Indiana University transcript.
3. Pay a nonrefundable application fee of \$40 to IU Kokomo.
4. Submit three Application Reference letters written by individuals familiar with the applicant's activities and potential to succeed in graduate work.
5. Read carefully the applicable sections in this bulletin for any specific program or campus admission requirements.
6. Submit proof of bachelor's degree certification from an accredited institution. Students who have not completed undergraduate course work at the time of application may be admitted based on the strength of previous work, but a final transcript attesting to the award of a bachelor's degree must be submitted before the student can enroll.

GRE Requirements

As previously mentioned, prospective students may be required to take the GRE or GMAT as a part of the application process. Information with regard to taking the GRE is available from Graduate Record Examination, Educational Testing Service, P.O. Box 6000, Princeton, NJ 08541, (609) 771-7670 or (866) 473-4373, and on the Web at www.gre.org.

Academic Standards:

Students will be referred to the Graduate Director if their cumulative grade point average (GPA) falls below a 3.0. During this meeting the referred student will be required to develop a plan in tandem with the Graduate Director for improving their academic performance.

Each Course Requirement:

All graduate students are expected to earn an average grade of "B" (3.0) or higher in each course. Subsequently, students receiving a C or lower will be referred to the Graduate Director in order to develop a plan for improving their academic performance. Subsequently, the Director may recommend that a student who receives a C or lower in a particular course retake the class.

Public Administration and Health Management Courses

PAHM-H 320 Health Systems Administration (3 cr.)

An overview of the U.S. health care delivery system. It examines the organization, function, and role of the system; current system problems; and alternative systems or solutions.

PAHM-H 352 Health Finance and Budgeting (3 cr.)

A study of the financial management of health care facilities, based on generally accepted business principles. Accounting and managerial control of cash, accounts receivable, inventory control, budgeting, and cost control,

as well as accounting and evaluation of short- and long-term debt will be examined.

PAHM-H 354 Health Economics (3 cr.) This course applies economics to the study of administrative and policy issues in the health care sector. Economic concepts are used to explain the system of health care financing and the organization of health care delivery in the U.S. The economic evaluation of health care programs is also discussed.

PAHM-H 365 Health Administration Practicum (3 cr.) The Health Administration Practicum will consist of a personal career-planning component coupled with weekly field visits to health care agencies in central Indiana. Students must perform satisfactorily in both parts of the practicum to receive a passing grade.

PAHM-H 401 Strategic Planning for Health Care Organizations (3 cr.) This course examines strategic planning techniques as they apply to health care organizations. Students will develop and defend a comprehensive strategic plan for a case facility. One half of the course will be conducted in a workshop format.

PAHM-H 402 Hospital Administration (3 cr.) The study of organization, structure, function, and fiscal operations within hospitals. The role of the hospital in the community, relationship to official and voluntary health agencies, coordination of hospital departments, and managerial involvement will be examined.

PAHM-H 411 Long-Term Care Administration (3 cr.) Nursing home regulations, legal aspects, and insurance; personnel management; medical records; diet and food service; rehabilitation; nursing services; psychiatric aspects in handling of geriatric patients; professional standards; use of volunteer groups.

PAHM-H 432 Health Care Marketing (3 cr.) A practical study of marketing in health care institutions, health service organizations, and health insurers. A basic foundation in marketing principles, new methods in marketing products and services, and inexpensive marketing techniques will be examined.

PAHM-H 441 Legal Aspects of Health Care Administration (3 cr.) An overview of the liability and legal responsibility, as well as legal recourse, that health care facilities may exercise. This course will discuss policies and standards relating to health facility administration. Also included is a discussion of financial aspects unique to the hospital/ health care facility environment, such as third-party payments and federal assistance.

PAHM-H 455 Topics in Public Health (1-3 cr.) Extensive discussion of selected topics in public health. The topic may change from semester to semester, based on resource availability and student demand. May be repeated for credit.

PAHM-H 456 Health Care Reimbursement (3 cr.) Course examines the organizational structures of managed care as used in the health industry. The strengths and weaknesses of managed care organizations are examined, as well as the performance of both public and private managed care organizations. Course also

examines and discusses current issues surrounding managed care.

PAHM-H 474 Health Administration Ethics (3 cr.) This course examines health care ethical decision making challenges from the managerial perspective and explores broader policy issues associated with ethical problems in health care institutions. It provides an overview of general theories of ethical challenges in everyday managerial coursework.

PAHM-H 509 Financial Management Principles of Healthcare (3 cr.) Provides knowledge of corporate finance practice in health care organizations. Establishes an understanding of the basic elements of financial theory used to address service expansion or contraction, capital investment issues, developing business plans and working capital management.

PAHM-H 514 Health Economics (3 cr.) Examines the principles and applications of economic analysis in the health field; the economist's approach to health care issues, and provides insights offered by economic analysis of specific health issues and problems.

PAHM-H 515 Seminar in Health Policy: Special Topic (3 cr.) Exploration of health policy topics from economic, financial, sociological, political and psychological perspectives. Analytical paradigms are applied to organizational or macro-policy making issues that vary in response to changing environments.

PAHM-H 612 Marketing for Health Services Delivery (3 cr.) The course provides a working knowledge and the skills required to market health services. Health institution-based projects are emphasized.

PAHM-H 628 Health Care Information Systems (3 cr.) A study of the terminology, technology, and application of information systems in various health care settings. Topics include the gathering, organization, storage, and retrieval of complex data banks, as well as assessment of health service data needs and considerations in developing information systems. Includes many computer-based exercises.

PAHM-V 130 Current Topics in Public Affairs (1-3 cr.) Readings and discussion of current public affairs issues and problems. May be repeated for credit.

PAHM-V 171 Introduction to Public Administration (3 cr.) Broad coverage of public affairs through critical and analytical inquiry into policy making at all levels of government. Particular emphasis on intergovernmental relations as they affect policy in the federal system.

PAHM-V 221 Nonprofit and Voluntary Sector (3 cr.) This course provides a broad overview of the U.S. nonprofit sector. Topics include the sector's size and scope and its religious, historical, and theoretical underpinnings. It also examines perspectives on why people organize, donate to, and volunteer for nonprofit organizations, and looks at current challenges that the sector faces.

PAHM-V 263 Public Management (3 cr.) This course is an examination of the management process in public organizations in the United States. Special attention will be given to external influences on public managers, the effects of the intergovernmental environment, and, in

particular, problems of management in a democratic, limited government system.

PAHM-V 264 Urban Structure and Policy (3 cr.) An introduction to urban government and policy issues. Topics include: urban government structure and policy making, the economic foundations and development of cities, demography of cities and suburbs, land-use planning, and other selected urban policy problems.

PAHM-V 272 Terrorism and Public Policy (3 cr.) A survey of the incidence of terrorism in democratic societies, with particular emphasis on public policy responses designed to combat terrorism in cities. Overviews of ongoing conflicts with terrorist organizations in various countries are interspersed with analyses of significant terrorist events and public policies and responses such events create.

PAHM-V 275 Introduction to Emergency Management (3 cr.) An examination of the background and nature of the profession, the central theoretical debates concerning natural and human-induced disasters, mitigating and reacting to these catastrophic events, and the major roles and responsibilities of emergency managers. Current practical problems and future directions will be explored.

PAHM-V 346 Introduction to Government Accounting and Financial Reporting (3 cr.) An introduction to government accounting, including comparison with accounting for the private sector; intended as background for the use of financial administrators. The course primarily deals with municipal accounting. Not open to students with more than seven credit hours of accounting.

PAHM-V 362 Nonprofit Management and Leadership (3 cr.) Students in this course examine the management practices of nonprofit organizations. The course encourages students to take the perspectives of nonprofit managers, volunteers, board members, policy-makers, donors, and clients. Course projects expand understanding of the nonprofit sector and develop students' management skills, analytical tools, and knowledge.

PAHM-V 366 Managing Behavior in Public Organizations (3 cr.) This course provides an introduction to the management of people in public organizations. Focus is on behavioral science in management and related analytical and experiential applications.

PAHM-V 368 Managing Government Operations (3 cr.) P:PAHM-V 348 Application of analytical techniques to operating decisions in the public management sector. Cases are used extensively to illustrate the application of techniques (such as charting, capacity and demand analysis, forecasting, performance measurement, decision analysis, queuing/simulation, Markov modeling, and cost-effective analysis) to design, scheduling, and inventory assignment, transportation, and replacement decisions.

PAHM-V 370 Research Methods and Statistical Modeling (3 cr.) This course will introduce the student to the basic methods, issues, analytical techniques, and ethical considerations of evaluation research.

PAHM-V 372 Government Finance and Budgets (3 cr.) Study of fiscal management in public agencies, including

revenue administration, and fiscal federalism. Examples and applications to contemporary government decisions.

PAHM-V 373 Human Resource Management in the Public Sector (3 cr.) The organization and operation of public personnel management systems, with emphasis on concepts and techniques of job analysis, position classification, training, affirmative action, and motivation.

PAHM-V 376 Law and Public Policy (3 cr.) The purpose of this course is to provide a basic understanding of the origins, process, and impact of law in the making and implementing of public policy. The course's major objective is to provide students with the substantive concepts necessary to understand the judicial system and law in its various forms.

PAHM-V 378 Policy Processes in the United States (3 cr.) Course content includes analytical perspectives of the policy process, the centers of policy, and the public interest. Selected cases involving problem analysis and decision making on public issues are included, as well as discussion of current policy issues.

PAHM-V 379 Performance Measurement and Program Evaluation (3 cr.) This course provides an overview of program evaluation as it relates to public affairs, criminal justice, health policy, and environmental science with particular emphasis on measuring program outcomes. The course is designed for students who envision themselves working in management, policy-making, or research roles.

PAHM-V 380 Internship in Public and Environmental Affairs (1-6 cr.) Requires permission of the instructor. Open to interested majors upon approval of the faculty. Students are placed with public agencies or governmental units for assignment to a defined task relevant to their educational interests in public affairs. Tasks may involve staff work or research. Full-time participants may earn up to 6 credit hours. May be repeated for credit. Course is graded S/F (Satisfactory/Fail).

PAHM-V 386 Case Studies for Policy Analysis (3 cr.) This course focuses on analyzing case studies of public policies using a variety of disciplinary perspectives, including application of the principles and concepts of intermediate microeconomic theory.

PAHM-V 387 Public Administration and Emergency Management (3 cr.) An examination of the American federal system and how it affects policy making and emergency management. Topics include government programs, participation of agencies and actors from all three levels of government, the nonprofit sector, and the private sector. Administrative processes involved in managing major hazards and disasters will be presented.

PAHM-V 405 Public Law and the Legislative Process (3 cr.) This course focuses on Congress as a policy-making body in the U.S. public law system. It covers the constitutional framework for congressional operations, as well as technical aspects of the legislative process such as bill drafting and analysis, the role of leadership, and the prerogatives of individual members.

PAHM-V 412 Leadership and Ethics (3 cr.) This course is designed to examine the complex leadership issues and challenges facing communities and to explore how citizens and government can work together to address

these challenges. This includes exploration of how the problems, conflicts, and dilemmas encountered by leaders when making decisions must be considered within an ethical framework.

PAHM-V 443 Managing Workforce Diversity (3 cr.)

The composition and nature of the workforce is changing. Managers must decide how to accommodate real differences among the members of their organizations. This course seeks to provide information for practitioners who hope to integrate an understanding of workforce diversity into their management style and professional behavior.

PAHM-V 444 Public Administrative Organization (3 cr.)

A review of research findings and analysis of the operation of public agencies and their performance.

PAHM-V 460 Intergovernmental Relations (3 cr.)

Overview of the dynamics of multi-organizational governance in the United States. Examination of federal and other systems. Structure and operations of intergovernmental programs and the role of managers within these systems.

PAHM-V 473 Management, Leadership, and Policy (3 cr.)

This course seeks to integrate learning across the public affairs curriculum. Students will review and reflect about their learning in management, leadership, and policy. Experiential methods service learning, projects, cases, and exercises – will be used to help students apply theory, concepts, and skills.

PAHM-V 502 Public Management (3 cr.) Analysis of concepts, methods, and procedures involved in managing public organizations. Problems of organization, planning, decision making, performance evaluation, and management of human resources are considered. Cases are drawn from a variety of public services found at federal, state, and local levels of government.

PAHM-V 504 Public Organizations (3 cr.) This course focuses on the behavior and theory of public organizations in four areas: (1) individual and groups in public organizations; (2) the design of public organizations; (3) organization environment relations, and (4) inter organizational relations.

PAHM-V 506 Statistical Analysis for Effective Decision Making (3 cr.) Non-calculus survey of concepts in probability, estimation, and hypothesis testing. Applications of contingency table analysis and analysis of variance, regression, processing of data emphasized.

PAHM-V 509 Administrative Ethics in Public Sector (3 cr.) Ethical conduct in the public sector is examined. Topics covered could include personal ethical responsibility, deception, corruption, code of ethics, policy making, morality, politics, and whistle blowing. Case studies and media materials will be used to illustrate these and other such issues affecting the workplace.

PAHM-V 512 Public Policy Process (3 cr.) An examination of the role of the public affairs professionals in policy processes. Focuses on relationships with political actors in various policy areas.

PAHM-V 517 Public Management Economics (3 cr.) This course focuses on applications of the principles and concepts of intermediate microeconomic theory and

managerial economics to public-sector management decisions and policy analysis. The course utilizes case studies with the goal of giving students opportunities to recognize the economic dimensions inherent in the public policy problems and to develop an analytical problem solving orientation.

PAHM-V 525 Management in the Nonprofit Sector (3 cr.)

P: PAHM-V 521. An examination of nonprofit organizations and their role in society. Management issues and public policy affecting these organizations are discussed. Primary emphasis is upon U.S. organizations, but attention is given to the global nature of the sector.

PAHM-V 540 Law and Public Policy (3 cr.) Explanation of law in society and its influence on public-sector operations. Examination of some of the central substantive areas of the study of law, including regulatory processes, administrative adjudication, the Administrative Procedures Act, ombudsmen, and citizens' rights, among others.

PAHM-V 543 Health Services Management (3 cr.) A course that integrate theory and application with respect to management of health service organizations. Emphasis on the role of managers and management within formal health service organizations. Current management and organization theories are applied to an understanding of health care delivery settings.

PAHM-V 550 Topics in Public Affairs (3 cr.) Selected research and discussion topics organized on a semester-by-semester basis usually with significant student input in the course design.

PAHM-V 557 Proposal Development and Grant Administration (3 cr.) This course provides the opportunity for each student to develop a complete proposal through participation in the entire grant application process. The integration of case studies, visual media, printed materials, and class discussions provides students with practical knowledge for writing successful proposals.

PAHM-V 560 Public Finance and Budgeting (3 cr.) The fiscal role of government in a mixed economy; sources of public revenue and credit; administrative, political revenue and credit; administrative, political, and institutional aspects of the budget and the budgetary process; problems and trends in intergovernmental fiscal relations.

PAHM-V 561 Public Human Resources Management (3 cr.) Analysis of the structure, operations, and design of public personnel systems, including government agencies and public enterprise. Relationships between public policy and personnel concepts, values, and operations considered.

PAHM-V 562 Public Program Evaluation (3 cr.) Examination of how the program of public agencies is proposed, established, operated, and evaluated. Discussion of the role and conduct of research in the program evaluation process. In addition, techniques of effective evaluation and analysis are discussed.

PAHM-V 566 Executive Leadership (3 cr.) The course offers an in-depth examination of factors that contribute to successful executive leadership practices in a variety of organizational settings. Topics include what leadership is,

what impact leadership has, and how leaders use various approaches and powers to achieve their goals.

PAHM-V 585 Practicum in Public Affairs (1-6 cr.) Students hold work assignments with public agencies. Grading is on an S/F basis.

PAHM-V 631 Health Planning (3 cr.) A workshop in analysis and use of health data in a planning context. Course deals with the planning process and methods with an emphasis on systems theory. Class project or plan is developed and presented and defended in a simulated public hearing format.

Graduate Courses

PAHM-H 320 Health Systems Administration (3 cr.) An overview of the U.S. health care delivery system. It examines the organization, function, and role of the system; current system problems; and alternative systems or solutions.

PAHM-H 352 Health Finance and Budgeting (3 cr.) A study of the financial management of health care facilities, based on generally accepted business principles. Accounting and managerial control of cash, accounts receivable, inventory control, budgeting, and cost control, as well as accounting and evaluation of short- and long-term debt will be examined.

PAHM-H 354 Health Economics (3 cr.) This course applies economics to the study of administrative and policy issues in the health care sector. Economic concepts are used to explain the system of health care financing and the organization of health care delivery in the U.S. The economic evaluation of health care programs is also discussed.

PAHM-H 365 Health Administration Practicum (3 cr.) The Health Administration Practicum will consist of a personal career-planning component coupled with weekly field visits to health care agencies in central Indiana. Students must perform satisfactorily in both parts of the practicum to receive a passing grade.

PAHM-H 401 Strategic Planning for Health Care Organizations (3 cr.) This course examines strategic planning techniques as they apply to health care organizations. Students will develop and defend a comprehensive strategic plan for a case facility. One half of the course will be conducted in a workshop format.

PAHM-H 402 Hospital Administration (3 cr.) The study of organization, structure, function, and fiscal operations within hospitals. The role of the hospital in the community, relationship to official and voluntary health agencies, coordination of hospital departments, and managerial involvement will be examined.

PAHM-H 411 Long-Term Care Administration (3 cr.) Nursing home regulations, legal aspects, and insurance; personnel management; medical records; diet and food service; rehabilitation; nursing services; psychiatric aspects in handling of geriatric patients; professional standards; use of volunteer groups.

PAHM-H 432 Health Care Marketing (3 cr.) A practical study of marketing in health care institutions, health service organizations, and health insurers. A basic foundation in marketing principles, new methods in

marketing products and services, and inexpensive marketing techniques will be examined.

PAHM-H 441 Legal Aspects of Health Care Administration (3 cr.) An overview of the liability and legal responsibility, as well as legal recourse, that health care facilities may exercise. This course will discuss policies and standards relating to health facility administration. Also included is a discussion of financial aspects unique to the hospital/ health care facility environment, such as third-party payments and federal assistance.

PAHM-H 455 Topics in Public Health (1-3 cr.) Extensive discussion of selected topics in public health. The topic may change from semester to semester, based on resource availability and student demand. May be repeated for credit.

PAHM-H 456 Health Care Reimbursement (3 cr.) Course examines the organizational structures of managed care as used in the health industry. The strengths and weaknesses of managed care organizations are examined, as well as the performance of both public and private managed care organizations. Course also examines and discusses current issues surrounding managed care.

PAHM-H 474 Health Administration Ethics (3 cr.) This course examines health care ethical decision making challenges from the managerial perspective and explores broader policy issues associated with ethical problems in health care institutions. It provides an overview of general theories of ethical challenges in everyday managerial coursework.

PAHM-H 509 Financial Management Principles of Healthcare (3 cr.) Provides knowledge of corporate finance practice in health care organizations. Establishes an understanding of the basic elements of financial theory used to address service expansion or contraction, capital investment issues, developing business plans and working capital management.

PAHM-H 514 Health Economics (3 cr.) Examines the principles and applications of economic analysis in the health field; the economist's approach to health care issues, and provides insights offered by economic analysis of specific health issues and problems.

PAHM-H 515 Seminar in Health Policy: Special Topic (3 cr.) Exploration of health policy topics from economic, financial, sociological, political and psychological perspectives. Analytical paradigms are applied to organizational or macro-policy making issues that vary in response to changing environments.

PAHM-H 612 Marketing for Health Services Delivery (3 cr.) The course provides a working knowledge and the skills required to market health services. Health institution-based projects are emphasized.

PAHM-H 628 Health Care Information Systems (3 cr.) A study of the terminology, technology, and application of information systems in various health care settings. Topics include the gathering, organization, storage, and retrieval of complex data banks, as well as assessment of health service data needs and considerations in developing

information systems. Includes many computer-based exercises.

PAHM-V 130 Current Topics in Public Affairs (1-3 cr.) Readings and discussion of current public affairs issues and problems. May be repeated for credit.

PAHM-V 171 Introduction to Public Administration (3 cr.) Broad coverage of public affairs through critical and analytical inquiry into policy making at all levels of government. Particular emphasis on intergovernmental relations as they affect policy in the federal system.

PAHM-V 221 Nonprofit and Voluntary Sector (3 cr.) This course provides a broad overview of the U.S. nonprofit sector. Topics include the sector's size and scope and its religious, historical, and theoretical underpinnings. It also examines perspectives on why people organize, donate to, and volunteer for nonprofit organizations, and looks at current challenges that the sector faces.

PAHM-V 263 Public Management (3 cr.) This course is an examination of the management process in public organizations in the United States. Special attention will be given to external influences on public managers, the effects of the intergovernmental environment, and, in particular, problems of management in a democratic, limited government system.

PAHM-V 264 Urban Structure and Policy (3 cr.) An introduction to urban government and policy issues. Topics include: urban government structure and policy making, the economic foundations and development of cities, demography of cities and suburbs, land-use planning, and other selected urban policy problems.

PAHM-V 272 Terrorism and Public Policy (3 cr.) A survey of the incidence of terrorism in democratic societies, with particular emphasis on public policy responses designed to combat terrorism in cities. Overviews of ongoing conflicts with terrorist organizations in various countries are interspersed with analyses of significant terrorist events and public policies and responses such events create.

PAHM-V 275 Introduction to Emergency Management (3 cr.) An examination of the background and nature of the profession, the central theoretical debates concerning natural and human-induced disasters, mitigating and reacting to these catastrophic events, and the major roles and responsibilities of emergency managers. Current practical problems and future directions will be explored.

PAHM-V 346 Introduction to Government Accounting and Financial Reporting (3 cr.) An introduction to government accounting, including comparison with accounting for the private sector; intended as background for the use of financial administrators. The course primarily deals with municipal accounting. Not open to students with more than seven credit hours of accounting.

PAHM-V 362 Nonprofit Management and Leadership (3 cr.) Students in this course examine the management practices of nonprofit organizations. The course encourages students to take the perspectives of nonprofit managers, volunteers, board members, policy-makers, donors, and clients. Course projects expand understanding of the nonprofit sector and develop

students' management skills, analytical tools, and knowledge.

PAHM-V 366 Managing Behavior in Public Organizations (3 cr.) This course provides an introduction to the management of people in public organizations. Focus is on behavioral science in management and related analytical and experiential applications.

PAHM-V 368 Managing Government Operations (3 cr.) P:PAHM-V 348 Application of analytical techniques to operating decisions in the public management sector. Cases are used extensively to illustrate the application of techniques (such as charting, capacity and demand analysis, forecasting, performance measurement, decision analysis, queuing/simulation, Markov modeling, and cost-effective analysis) to design, scheduling, and inventory assignment, transportation, and replacement decisions.

PAHM-V 370 Research Methods and Statistical Modeling (3 cr.) This course will introduce the student to the basic methods, issues, analytical techniques, and ethical considerations of evaluation research.

PAHM-V 372 Government Finance and Budgets (3 cr.) Study of fiscal management in public agencies, including revenue administration, and fiscal federalism. Examples and applications to contemporary government decisions.

PAHM-V 373 Human Resource Management in the Public Sector (3 cr.) The organization and operation of public personnel management systems, with emphasis on concepts and techniques of job analysis, position classification, training, affirmative action, and motivation.

PAHM-V 376 Law and Public Policy (3 cr.) The purpose of this course is to provide a basic understanding of the origins, process, and impact of law in the making and implementing of public policy. The course's major objective is to provide students with the substantive concepts necessary to understand the judicial system and law in its various forms.

PAHM-V 378 Policy Processes in the United States (3 cr.) Course content includes analytical perspectives of the policy process, the centers of policy, and the public interest. Selected cases involving problem analysis and decision making on public issues are included, as well as discussion of current policy issues.

PAHM-V 379 Performance Measurement and Program Evaluation (3 cr.) This course provides an overview of program evaluation as it relates to public affairs, criminal justice, health policy, and environmental science with particular emphasis on measuring program outcomes. The course is designed for students who envision themselves working in management, policy-making, or research roles.

PAHM-V 380 Internship in Public and Environmental Affairs (1-6 cr.) Requires permission of the instructor. Open to interested majors upon approval of the faculty. Students are placed with public agencies or governmental units for assignment to a defined task relevant to their educational interests in public affairs. Tasks may involve staff work or research. Full-time participants may earn up to 6 credit hours. May be repeated for credit. Course is graded S/F (Satisfactory/Fail).

PAHM-V 386 Case Studies for Policy Analysis (3 cr.)

This course focuses on analyzing case studies of public policies using a variety of disciplinary perspectives, including application of the principles and concepts of intermediate microeconomic theory.

PAHM-V 387 Public Administration and Emergency Management (3 cr.)

An examination of the American federal system and how it affects policy making and emergency management. Topics include government programs, participation of agencies and actors from all three levels of government, the nonprofit sector, and the private sector. Administrative processes involved in managing major hazards and disasters will be presented.

PAHM-V 405 Public Law and the Legislative Process (3 cr.)

This course focuses on Congress as a policy-making body in the U.S. public law system. It covers the constitutional framework for congressional operations, as well as technical aspects of the legislative process such as bill drafting and analysis, the role of leadership, and the prerogatives of individual members.

PAHM-V 412 Leadership and Ethics (3 cr.) This course is designed to examine the complex leadership issues and challenges facing communities and to explore how citizens and government can work together to address these challenges. This includes exploration of how the problems, conflicts, and dilemmas encountered by leaders when making decisions must be considered within an ethical framework.

PAHM-V 443 Managing Workforce Diversity (3 cr.)

The composition and nature of the workforce is changing. Managers must decide how to accommodate real differences among the members of their organizations. This course seeks to provide information for practitioners who hope to integrate an understanding of workforce diversity into their management style and professional behavior.

PAHM-V 444 Public Administrative Organization (3 cr.)

A review of research findings and analysis of the operation of public agencies and their performance.

PAHM-V 460 Intergovernmental Relations (3 cr.)

Overview of the dynamics of multi-organizational governance in the United States. Examination of federal and other systems. Structure and operations of intergovernmental programs and the role of managers within these systems.

PAHM-V 473 Management, Leadership, and Policy (3 cr.)

This course seeks to integrate learning across the public affairs curriculum. Students will review and reflect about their learning in management, leadership, and policy. Experiential methods service learning, projects, cases, and exercises – will be used to help students apply theory, concepts, and skills.

PAHM-V 502 Public Management (3 cr.) Analysis of concepts, methods, and procedures involved in managing public organizations. Problems of organization, planning, decision making, performance evaluation, and management of human resources are considered. Cases are drawn from a variety of public services found at federal, state, and local levels of government.

PAHM-V 504 Public Organizations (3 cr.) This course focuses on the behavior and theory of public organizations

in four areas: (1) individual and groups in public organizations; (2) the design of public organizations; (3) organization environment relations, and (4) inter organizational relations.

PAHM-V 506 Statistical Analysis for Effective Decision Making (3 cr.)

Non-calculus survey of concepts in probability, estimation, and hypothesis testing. Applications of contingency table analysis and analysis of variance, regression, processing of data emphasized.

PAHM-V 509 Administrative Ethics in Public Sector (3 cr.)

Ethical conduct in the public sector is examined. Topics covered could include personal ethical responsibility, deception, corruption, code of ethics, policy making, morality, politics, and whistle blowing. Case studies and media materials will be used to illustrate these and other such issues affecting the workplace.

PAHM-V 512 Public Policy Process (3 cr.)

An examination of the role of the public affairs professionals in policy processes. Focuses on relationships with political actors in various policy areas.

PAHM-V 517 Public Management Economics (3 cr.)

This course focuses on applications of the principles and concepts of intermediate microeconomic theory and managerial economics to public-sector management decisions and policy analysis. The course utilizes case studies with the goal of giving students opportunities to recognize the economic dimensions inherent in the public policy problems and to develop an analytical problem solving orientation.

PAHM-V 525 Management in the Nonprofit Sector (3 cr.)

P: PAHM-V 521. An examination of nonprofit organizations and their role in society. Management issues and public policy affecting these organizations are discussed. Primary emphasis is upon U.S. organizations, but attention is given to the global nature of the sector.

PAHM-V 540 Law and Public Policy (3 cr.) Explanation of law in society and its influence on public-sector operations. Examination of some of the central substantive areas of the study of law, including regulatory processes, administrative adjudication, the Administrative Procedures Act, ombudsmen, and citizens' rights, among others.

PAHM-V 543 Health Services Management (3 cr.) A course that integrate theory and application with respect to management of health service organizations. Emphasis on the role of managers and management within formal health service organizations. Current management and organization theories are applied to an understanding of health care delivery settings.

PAHM-V 550 Topics in Public Affairs (3 cr.) Selected research and discussion topics organized on a semester-by-semester basis usually with significant student input in the course design.

PAHM-V 557 Proposal Development and Grant Administration (3 cr.)

This course provides the opportunity for each student to develop a complete proposal through participation in the entire grant application process. The integration of case studies, visual media, printed materials, and class discussions provides students with practical knowledge for writing successful proposals.

PAHM-V 560 Public Finance and Budgeting (3 cr.)

The fiscal role of government in a mixed economy; sources of public revenue and credit; administrative, political revenue and credit; administrative, political, and institutional aspects of the budget and the budgetary process; problems and trends in intergovernmental fiscal relations.

PAHM-V 561 Public Human Resources Management (3 cr.)

Analysis of the structure, operations, and design of public personnel systems, including government agencies and public enterprise. Relationships between public policy and personnel concepts, values, and operations considered.

PAHM-V 562 Public Program Evaluation (3 cr.)

Examination of how the program of public agencies is proposed, established, operated, and evaluated. Discussion of the role and conduct of research in the program evaluation process. In addition, techniques of effective evaluation and analysis are discussed.

PAHM-V 566 Executive Leadership (3 cr.) The course offers an in-depth examination of factors that contribute to successful executive leadership practices in a variety of organizational settings. Topics include what leadership is, what impact leadership has, and how leaders use various approaches and powers to achieve their goals.

PAHM-V 585 Practicum in Public Affairs (1-6 cr.)

Students hold work assignments with public agencies. Grading is on an S/F basis.

PAHM-V 631 Health Planning (3 cr.) A workshop in analysis and use of health data in a planning context. Course deals with the planning process and methods with an emphasis on systems theory. Class project or plan is developed and presented and defended in a simulated public hearing format.

Purdue University College of Technology

Purdue University began offering courses at IU Kokomo in the fall of 1967. The College of Technology is a system school at Purdue University. The College of Technology at Kokomo is one of ten locations around the State. Purdue College of Technology courses are taught by Purdue faculty; and mathematics, science, and general education courses are taught by local educational institutions. In Kokomo, these courses are taught by Indiana University Kokomo faculty. The College of Technology provides career educational opportunities to students whose technological interests and aptitudes are essentially application-oriented. The College of Technology produces occupationally ready college graduates with salable skills. Graduates have the potential to grow to meet technical workforce needs, primarily for Indiana business, industry, and service agencies. The College of Technology emphasizes meeting student needs through appropriate counseling, as well as through classroom and laboratory teaching and other relevant learning experiences. In addition to technical knowledge and skills, graduates also acquire verbal and written communication skills. They are also prepared to develop as responsible citizens through courses in technical fields, communications, humanities, and social sciences. Every effort is made to help the student find a job upon graduation. Purdue University is

accredited by the North Central Association of Colleges and Schools. Other academic programs are accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 Telephone: (410) 347-7700.

Programs

Academic programs offered in Kokomo, which are continuously updated to meet these goals, are offered in the following areas:

Bachelor of Science

Electrical and Computer Engineering Technology
Engineering Technology
Organizational Leadership and Supervision
Computer and Information Technology

Certificate Programs

Organizational Leadership Certificate
Students in these programs are admitted to Purdue University, and are regulated and governed by Purdue policies as if they were on the West Lafayette campus.

Partial Program Offerings

General education courses that satisfy degree requirements are available in Kokomo for other baccalaureate degrees offered by the Purdue College of Technology in West Lafayette, Indiana. For detailed information about these programs, contact the Purdue Student Services Office, Kelley Student Center 250.

For information on admission criteria, application process, academic calendar, scholarships, course information, and faculty information please see www.purdue.edu/kokomo or visit Purdue University College of Technology at Kokomo in room KC 250. (765) 455-9339

ROTC

Reserve Officer Training Corps (ROTC)

Army ROTC (Reserve Officer Training Corps offers challenging training to build confidence and character while developing leadership skills for future success. Students can participate in Army ROTC obligation-free for the first two years. Those who decide to make a commitment are further groomed for military service as an Army officer, receiving a Second Lieutenant's commission upon graduation. Qualified students willing to make the commitment are eligible for scholarships and other monies to help pay for college. For further information contact the campus Military Science advisor.

School of Sciences

Dean: Christian Chauret

Professors: Chauret, Finkler, Kasem, Ross

Associate Professors: Hansen

Assistant Professors: Alnusair, Lindsey, Masuda, Motl, Olsen, Rifai, Sullivan

Senior Lecturers: Gillette, Gottemoller, Krause, Sehr

Lecturers: Casey, Dailey, Duffitt, Hampshire

Laboratory Supervisors: Deyo, Kinsey

Laboratory Instructor: Houston

Mission

The mission of the School of Sciences is to provide students with the undergraduate academic, research, and experiential background that will enable them to pursue meaningful careers in science, mathematics, and informatics-related fields or to meet general education or program requirements in their major. The purposeful combination of theoretical and practical educational experiences, coupled with the flexibility of the available degrees will enable students to prepare for a wide variety of graduate programs, professional schools, secondary school teaching careers, and/or entry into the workplace. Students graduating from the School of Sciences will be lifelong learners and able to make positive contributions in a world where quantitative and scientific literacy, sustainability, and environmental quality are being challenged.

Degrees

Courses in the School of Sciences can be taken in various areas: natural sciences, mathematics, and informatics. The general studies program is also housed in the School of Sciences. Course descriptions and specific degree requirements for each area follow after a general discussion of curricula and degrees.

The School of Sciences offers several Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degrees. B.S. and B.A. degrees are four-year undergraduate degrees requiring 120 credit hours of coursework. Students wishing a greater emphasis on their major will likely opt to earn a B.S. degree in their discipline. The B.S. degrees follow the campus-wide general education curriculum. On the other hand, students wishing a greater emphasis on courses outside the School of Sciences will likely opt to earn a B.A. degree in their selected discipline. The B.A. degrees follow the general education requirements established in the past by the former School of Arts and Sciences, which has a stronger emphasis on the social sciences and humanities than the campus-wide general education curriculum.

In addition to the bachelor's degrees, the School of Sciences offer minors in biology, chemistry, environmental and earth sciences, informatics, and mathematics. Other available minors can be completed in other areas. Please consult an advisor for additional information.

The unique nature and flexibility of the School of Sciences programs enable students to tailor their degree selection to focus their studies in a particular field of interest, thus preparing themselves for a specific career or graduate school objective.

Through majors in the School of Sciences, a student may complete all of the pre-professional requirements for medicine, dentistry, chiropractic, veterinary medicine, pharmacy, or optometry in the process of earning a Bachelor's degree at IU Kokomo. See a faculty advisor for details.

In addition to the courses in the major in any of the areas of the School of Sciences, students are required to take general education courses. These are introductory courses which permit the student to gain some background in the disciplines of the former departments in Arts and Sciences — Humanities, English, Foreign Language, Psychology, Sociology, History, and Political Science, and be well positioned to function professionally in a global society and workplace. The specific general

education requirements for the Bachelor of Arts degrees differ from those required for Bachelor of Science degrees. Thus, students must work closely with an academic advisor to ensure that the appropriate general education courses are taken along with the courses required for their major.

Additional Information

- Degree Requirements for Bachelor of Arts Degrees
- Degree Requirements for Bachelor of Science Degrees
- General Studies Degree Program

Majors/Minors

Bachelors Degrees

- Bachelor of Arts in Biology
- Bachelor of Arts in Biological and Physical Sciences
- Bachelor of Arts in Chemistry
- Bachelor of Arts in Mathematics
- Bachelor of Science in Biology
- Bachelor of Science in Biological and Physical Sciences (including pre-physical therapy track, pre-occupational therapy track, and earth and sustainability sciences track)
- Bachelor of Science in Biochemistry
- Bachelor of Science in Chemistry
- Bachelor of Science in Chemical Biology
- Bachelor of Science in Informatics
- Bachelor of Science in Mathematics

Minors

- Biology
- Chemistry
- Environmental and Earth Sciences
- Informatics
- Mathematics

Courses

- Undergraduate Courses

Degree Requirements for Bachelor of Arts Degrees

General requirements for the Bachelor of Arts degrees are listed below. Specific requirements for each degree program are listed under the department information.

1. The regular matriculation requirements of Indiana University.
2. A minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher. See requirements for specific degree programs.
3. English - A demonstrated ability to use written and spoken English in a correct, clear, and effective manner. This requirement will be satisfied by completing ENG-W 131 and ENG-W 132 Elementary Composition I-II with a grade of C or higher and ENG-W 350 Advanced Expository Writing or an approved intensive writing course in the major with a grade of C– or higher. These courses do not count toward the distribution or concentration requirements. A student may earn an exemption from ENG-W 131 in one of four ways: 1) scoring 3 or higher on either the AP English Language and Composition exam

of the AP English Literature and Composition exam, 2) scoring 670 or higher on the verbal section of the SAT, 3) scoring 29 or higher on the English section of the ACT, or 4) scoring 8 on the IU Kokomo Placement test. Please consult the program chair of English for further information on exemption from ENG-W 131 and further options for receiving credit through further testing.

4. Speech - Students must demonstrate a proficiency in speech by completing SPCH-S 121, Public Speaking with a grade of C or above.

5. Computer Literacy - Students must complete CSCI-C 100 Computing Tools (1 cr.) or earn exemption from this requirement by demonstrating that they have access to a computer with legal word processing, spreadsheet, and database software and that they are able to use that software.

6. Foreign Language - There is a language requirement of 6 credit hours at the 200 level (or higher) in a foreign language. The first year (100 level) in the student's first language will apply as credit toward the degree completed at IU Kokomo. (These credits may or may not apply toward degrees completed at other campuses or institutions.) First- and second-year courses in the student's first language may not be taken on the Pass/Fail option. All students who have had a foreign language before entering Indiana University are encouraged to take the College Entrance Examination Board Achievement Test in that language. Students who place into the second year or higher of a language on the test will be eligible to receive S credit for the first year upon completion of a second-year course in that language with a grade of C or better. Similarly, students who place into the second semester of a language will be eligible for S credit for the first semester upon completion of the second-semester course with a grade of C or better. International students may not receive credit for their native languages.

7. Mathematics - Students must demonstrate a proficiency in mathematics by completing MATH-M 133 Topics in Probability & Statistics and MATH-M 134 Topics in Mathematics with a grade of C- or better; or completing MATH-M 125 Precalculus or MATH-M 118 Finite Mathematics with a grade of C or better; or by completing MATH-M 119 Brief Survey of Calculus I or MATH-M 215 Calculus I with a grade of C- or better; or by scoring 620 or higher on the Mathematics SAT or 27 or higher on the Mathematics ACT.

8. General Education -

- Eight to nine credit hours in Humanities (literature, performance, and ethics).
- Thirteen credit hours in the Biological and Physical Sciences.
- Fifteen credit hours in the three different disciplines in the Social and Behavioral Sciences. Note, students should check with an advisor for specifics of general education requirements.

9. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.

10. Major - 24-48 credit hours depending on the major requirements of the specific degree program.

11. Completion of 30 of the last 60 credit hours at Indiana University Kokomo.

12. No more than 15 credit hours in courses outside the School of Humanities and Social Sciences and the School of Sciences.

13. Graduation dates at IU Kokomo occur in December, May, and August. Students planning to graduate in December must apply for their degrees by September 15. The application deadline for May and August graduations is January 15.

Degree Requirements for Bachelor of Science Degrees

General requirements for the Bachelor of Science degrees are listed below.

1. The regular matriculation requirements of Indiana University.
2. A minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
3. Completion of 30 of the last 60 credit hours at Indiana University Kokomo.
4. Major - at least 40 credit hours. See requirements for specific degree programs.
5. [The campus General Education requirements](#) – found earlier in this bulletin

Freshman Learning Communities

Indiana University Kokomo provides a unique experience for entering freshman students designed to help them acclimate to their new college environment and to get to know students in their major. The School of Sciences Freshman Learning Community course, SSCI- E 105, is a one-credit hour experience taught in the Fall of the freshman year.

Bachelor of Arts in Biological and Physical Sciences

The Bachelor of Arts degree in Biological and Physical Sciences centers on a traditional core of courses in the natural sciences. Through academic counseling and proper course selection, students may choose a curriculum that is uniquely suited to their specific needs in the biological and physical sciences. Students may follow a very specific curriculum or they may elect to pursue a more general science education. Graduates of the program are prepared to continue their education at the graduate level of certain disciplines or to enter a health-related profession such as occupational therapy or physical therapy. They may also choose to work in environmental and earth sciences or in laboratories.

Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. General Education. Students must complete all of the requirements of the School of Sciences general education curriculum.
3. Mathematics. Students must take MATH-K 310 Statistical Techniques and one additional mathematics course (MATH-M 118, MATH-M 119, or MATH-M 215).

4. Sciences. Students must complete at least 20 credit hours at the 300- /400-level and at least 10 credit hours at the 200-level in courses from the School of Sciences.
5. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.
6. 30 of the last 60 credit hours at Indiana University Kokomo.

Bachelor of Science in Biological and Physical Sciences

The Bachelor of Science degree in Biological and Physical Sciences centers on a traditional core of courses in the natural sciences. Through academic counseling and proper course selection, students may choose a curriculum that is uniquely suited to their specific needs in the biological and physical sciences. Students may follow a very specific curriculum or they may elect to pursue a more general science education. Graduates of the program are prepared to continue their education at the graduate level of certain disciplines or to enter a health-related profession such as physical therapy or occupational therapy. They may also choose to follow the track in environmental and earth sciences and in laboratories or environmental consulting.

Basic Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum.
4. Mathematics and Informatics. Students must take MATH-K 310 Statistical Techniques (3 cr.), MATH-M 215 Calculus I (5 cr.), and INFO-I 101 Introduction to Informatics (4 cr.). CSCI-C 106 (3 cr.) can replace INFO-I 101.
5. Sciences. Students must complete at least 30 credit hours at the 300-/400-level and at least 15 credit hours at the 200-level in courses from the School of Sciences. At the 200-level, at least two lab courses must be selected from two different areas (biology and physical sciences). At the 300-/400-level, at least two courses with a lab must be selected and either a capstone course or an internship is required.
6. 30 of the last 60 credit hours at Indiana University Kokomo.

Earth and Sustainability Sciences Track Specific Requirement (in addition to the basic degree requirement)

1. Biology Courses (13-15 cr): BIOL-L 105 (5 cr), BIOL-L 473/474 (5 cr), biology elective (3-5 cr)

2. Chemistry Courses (20 cr): CHEM-C 105/125, CHEM-C 106/126, CHEM-C 300 (4 cr), CHEM-C 390 Environmental Science (3 cr), CHEM-C 390 Sustainability (3 cr)

3. Geology Courses (20-22 cr): GEOL-G 100 (5 cr), GEOG-G 107 or GEOL-G 133 (3-5 cr), GEOL-G 300, GEOG-G 315, GEOL-T 312, GEOL-G 400

4. Physics courses (10 cr): PHYS-P 201/202 or PHYS-P 221/222 (10 cr)

5. Capstone, research course, or internship (min 3 cr): BIOL-L 403 or CHEM-C 495 or BIOL-L 490 or CHEM-C 409 or GEOL-G 440

6. Science electives (to complete 120 cr): BIOL-L 203, PLSC-B 364, BIOL-L 379, MICR-M 320, BIOL-L 345, BIOL-L 465, CHEM-C 310/311, CHEM-C 341/343, PHYS-P 310, GEOL-T 326.

Pre-Physical Therapy Track Specific Requirement (in addition to the basic degree requirement)

1. Biology courses (10 cr): ANAT-A 215 (5 cr), PHSL-P 215 (5 cr)
2. Chemistry courses (10 cr): CHEM-C 105/125, CHEM-C 106/126
3. Physics courses (10 cr): PHYS-P 201/202 or PHYS-P 221/222
4. Psychology courses (6 cr): PSY-P 103 (3 cr), PSY-P 216 (3 cr)
5. Medical terminology (2-3 cr): CLAS-C 209 (2 cr)

Pre-Occupational Therapy Track Specific Requirement (in addition to the basic degree requirement)

1. Biology courses (10 cr): ANAT-A 215 (5 cr), PHSL-P 215 (5 cr)
2. Psychology courses (9 cr): PSY-P 103 (3 cr), PSY-P 216 (3 cr), PSY-P 324 (3 cr)
3. Medical terminology (2-3 cr): CLAS-C 209 (2 cr)
4. Sociology (3 cr): SOC-S 100 (3 cr)

Minor in Environmental and Earth Sciences

To complete an Environmental and Earth Sciences Minor, students must complete a minimum of nineteen (19) credit hours in geology, geography, biology, chemistry, and physics with a minimum grade of C in each course. The first eight to ten (8 to 10) credit hours are prescribed (GEOL-G 100 and a choice of either GEOG-G 107 or GEOL-G 133) and form the foundation of the higher level courses in Geology and Geography. In addition, students must complete at least three (3) credit hours of upper level course work outside of geology and geography. Finally, students must complete a minimum of two additional geology or geography electives chosen from the list of elective courses below. Students must take all the necessary pre-requisites before enrolling in courses for the minor. The following is required: GEOL-G 100 General Geology (5 cr.).

Students must take one of the following

courses: GEOL-G 100 General Geology (5 cr.), GEOG-G 107 Physical Systems of the Environment (3 cr.) or GEOL-G 133 Geology of the United States (5 cr.).

Students must select a minimum of one course from the following list: BIOL-L 473 Ecology (3 cr.), CHEM-C 351 Green Chemistry and Sustainability Sciences (4 cr.), CHEM-C 300 Energy and Green Chemistry - A Natural Science Perspective (3 cr.), CHEM-C 390 Environmental Science (3 cr.), or PHYS-P 310. Environmental Physics.

Finally, students must select two or more courses from the following list to complete the 20-credit hour minimum requirement: GEOL-T 326 Geology of Mineral Resources (3 cr.), GEOL-G 300 Environmental Geology and Urban Geology (3 cr.), GEOL-T 312 Geology of Indiana (3 cr.), GEOG-G 315 Environmental Conservation (3 cr.), GEOL-G 400 Energy: Sources and Needs (3 cr.), or GEOL-G 421 United States Geology: Field Experience (1 to 5 cr.).

Bachelor of Arts in Biology

The Bachelor of Arts degree in Biology centers on a traditional core that includes cell biology, genetics, morphology, physiology, plant science, and microbiology. Additional courses in general chemistry, organic chemistry, physics, and mathematics round out the basic program. In addition to their scientific training, students in biology are expected to be able to communicate effectively and to possess an understanding of Western culture and society. Biology B.A. students are exposed to a core of courses in the humanities and social and behavioral sciences, as well as the natural sciences. Graduates of the program are well suited to continue their education at the graduate level, or to enter a health-related profession such as medicine or dentistry. The degree program is structured along three tracks to enable students to pursue post-baccalaureate studies. These tracks are biology, pre-medicine, and pre-dentistry.

Degree Requirements:

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the School of Arts and Sciences general education curriculum.
4. Mathematics. Students must take MATH-K 310 Statistical Techniques and either MATH-M 119 Brief Survey of Calculus or MATH-M 215 Calculus I.
5. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.
6. Specific Biology B.A. Degree Requirements - Students must complete BIOL-L 105 Introduction to Biology (5 cr.), CHEM-C 105 Principles of Chemistry I (3 cr.), CHEM-C 106 Principles of Chemistry II (3 cr.), CHEM-C 125 Experimental Chemistry I (2 cr.), CHEM-C 126 Experimental Chemistry II (2 cr.), CHEM-C 341 Organic Chemistry I (3 cr.), CHEM-C 342 Organic Chemistry II (3 cr.), CHEM-C 343 Organic Chemistry I Laboratory (2 cr.), CHEM-

C 344 Organic Chemistry II Laboratory (2 cr.), PHY- P 201 or P 221 General Physics I (5 cr.), and PHYS-P 202 or PHYS-P 222 General Physics II (5-cr.); and either MATH-M 119 Brief Survey of Calculus I (3 cr.) or MATH-M 215 Calculus I (5 cr.) (mathematics courses require a grade of C- or higher), and MATH-K 310 Statistical Techniques (3 cr.). In addition, students must satisfy the computer literacy requirement.

7. Biology Courses - A minimum of 33 credit hours in biology at or above the 200-level must be taken with a grade of C- or better in each course. The following biology courses are required: BIOL-L 211/213 Molecular Biology with lab (5 cr.) or PLSC-B 203 Survey of the Plant Kingdom (5 cr.), ZOOL-Z 315 Developmental Anatomy (5 cr.), BIOL-L 364 Principles of Genetics (3 cr.), MICR-M-310 Microbiology (3 cr.), MICR-M 315 Microbiology Laboratory (2 cr.), BIOL-L 473 Ecology (3 cr.), PHSL-P 416 Comparative Animal Physiology (3 cr.), and BIOL-L 403 Biology Seminar (3 cr.). Students must also select a minimum of 6 credits from the following courses: BIOL-L 321 Immunology (3 cr.), BIOL-L 490 Individual Study (1-12 cr.); CHEM-C 483 Biological Chemistry (3 cr.); PLSC-B 364 Summer Flowering Plants (5 cr.); BIOL-L 345 Vertebrate Biology, BIOL-L 379 Ornithology (3 cr.), BIOL-L 336 Evolutionary Medicine (3 cr.), PHSL-P 418 Comparative Animal Physiology Lab (2 cr.), and BIOL-L 367 Cell Physiology (3 cr.). For other biology electives, consult an advisor.
8. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.
9. 30 of the last 60 credit hours at Indiana University Kokomo.

Bachelor of Science in Biology

The Bachelor of Science degree in Biology centers on a traditional biology core that includes cell biology, genetics, evolution, molecular biology, but with a lot of flexibility with biology electives. Additional courses in general chemistry, organic chemistry, physics, and mathematics round out the basic program. In addition to their scientific training, students in biology are expected to be able to communicate effectively and to possess an understanding of humanities and society. Biology B.S. students are exposed to a core of courses in the humanities and social and behavioral sciences, as well as the natural sciences. Graduates of the program are well suited to continue their education at the graduate level in various biological fields, or to enter a health-related profession such as medicine, optometry, chiropractic, or dentistry.

Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum. The

General Education requirements in quantitative literacy, critical thinking, and physical and life sciences are satisfied by the major.

4. Mathematics and Informatics. Students must take MATH K 310 Statistical Techniques (3 cr.), MATH-M 215 Calculus I (5 cr.) (a grade of C- or higher is required), and INFO-I 101 Introduction to Informatics (4 cr.).
5. Specific Biology B.S. Degree Requirements. Students must complete BIOL-L 105 Introduction to Biology (5 cr.), CHEM C-105 Principles of Chemistry I (3 cr.), CHEM-C 106 Principles of Chemistry II (3 cr.), CHEM-C 125 Experimental Chemistry I (2 cr.), CHEM-C 126 Experimental Chemistry II (2 cr.), CHEM-C 341 Organic Chemistry I (3 cr.), CHEM C-342 Organic Chemistry II (3 cr.), CHEM-C 343 Organic Chemistry I Laboratory (2 cr.), CHEM C-344 Organic Chemistry II Laboratory (2 cr.), PHYS-P 201 or PHYS-P 221 General Physics I (5 cr.), and PHYS-P 202 or PHYS-P 222 General Physics II (5 cr.).
6. Biology Courses—A minimum of 45 credit hours in biology at or above the 200 level must be taken with a grade of C- or better in each course. The following biology courses are required: BIOL-L 211/213 Molecular Biology (5 cr.), BIOL-L 203 Evolution & diversity of Life (3 cr.), BIOL-L 367 Cell Physiology (3 cr.) or MICR-M 310 Microbiology (3 cr.), BIOL-L 364 Principles of Genetics (3 cr.), BIOL-L 490 Individual Study (3 cr.), and BIOL-L 403 Biology Seminar (3 cr.). An additional minimum of 20 credits of biology electives (at the 300/400-level) is required with at least one course from each of the concentrations below. Courses with labs count as one. At least two courses with a lab (5 cr.) must be selected. For other biology electives, consult an advisor or the Dean.
 - Life Science Concentration: BIOL-L 321 (3 cr.), CHEM-C 483 (3 cr.), MICR-M 310 (3 cr.)/315 (2 cr.), BIOL-L 498 (3 cr.), BIOL-L 367 (3 cr.), BIOL-L 329 (5 cr.), MICR-M 320 (3 cr.)
 - Ecology and Organismal Biology Concentration: ZOOL-Z 315 (lecture and lab, 5 cr.), PHSL-P 416 (3 cr.)/418 (2 cr.), BIOL-L 345 (3 cr.), BIOL-L 391 (3 cr.), BIOL-L 473 (3 cr.)/474 (2 cr.)
7. 30 of the last 60 credit hours at Indiana University Kokomo.

Biology Minor

To earn a minor in biology students must take the following courses:

Required: BIOL-L 211/213 Molecular Biology with lab or PLSC-B 203 Survey of the Plant Kingdom (5 cr.), BIOL-L 105 Introduction to Biology (5 cr.) plus 6 to 10 hours from the following: BIOL-L 364 Principles of Genetics (3 cr.), BIOL-L 321 Immunology (3 cr.), BIOL-L 367 Cell Physiology (3 cr.), BIOL-L 473 Ecology (3 cr.), MICR-M 310/315 Microbiology/Lab (5 cr.), PHSL-P 416 Comparative Animal Physiology (3 cr.), ZOOL-Z 315 Developmental Anatomy (5 cr.) Students must take all the necessary prerequisites before enrolling in courses required for the minor.

Bachelor of Science in Biochemistry

The objective of the Bachelor of Science (B.S.) degree in Biochemistry is to prepare students for health-related professional schools including medical, pharmacy, and dental school, as well as for admission to graduate programs in biochemistry, molecular biology, and biological sciences. Students with a diverse background in chemistry and biochemistry will be well prepared to address challenges in pharmaceutical and biotechnology industries.

Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum. The General Education requirements in quantitative literacy, critical thinking, and physical and life sciences are satisfied by the major.
4. Mathematics and Informatics. Students must take MATH-K 310 Statistical Techniques (3 cr.), MATH-M 215 Calculus I (5 cr.) (a grade of C- or higher is required), and INFO-I 101 Introduction to Informatics (4 cr.).
5. Specific Biochemistry Degree Requirements: Chemistry Courses (28 credits, all with grades of C- or higher) - Students must complete CHEM-C 105 Principles of Chemistry I (3 cr.), CHEM-C 106 Principles of Chemistry II (3 cr.), CHEM-C 125 Experimental Chemistry I (2 cr.), CHEM-C 126 Experimental Chemistry II (2 cr.), CHEM-C 341 Organic Chemistry I (3 cr.), CHEM-C 342 Organic Chemistry II (3 cr.), CHEM-C 343 Organic Chemistry I Laboratory (2 cr.), CHEM-C 344 Organic Chemistry II Laboratory (2 cr.), CHEM-C 361 Physical Chemistry I (3 cr.), CHEM-C 310 Analytical Chemistry (3 cr.), CHEM-C 311 Analytical Chemistry Laboratory (2 cr.).
6. Biochemistry Courses (10 credits; must include CHEM-C 483 and CHEM C-487, all with grades of C- or higher) —Students must complete ten credits from the following courses: CHEM-C 483 Biological Chemistry (3 cr.), CHEM C 329 Proteins and Enzymes (5 cr.), CHEM-C 487 Biochemistry Laboratory (2 cr.), CHEM-C 484 Biomolecules and Catabolism (3 cr.), and CHEM-C 485 Biosynthesis and Physiology (3 cr.).
7. Biology Courses (16-18 credit hours, all with grades of C- or higher)—Students must complete the following courses: BIOL-L 105 Introduction to Biology, BIOL-L 211 Molecular Biology, BIOL-L 213 Molecular Biology Laboratory, BIOL-L 321 Principles of Immunology, MICR-M 310 Microbiology, and MICR-M 315 Microbiology Laboratory
8. Physics Courses (10 credit hours)—Students must complete either PHYS-P 201 General Physics I (5 cr.), and PHYS-P 202 General Physics II (5 cr.), or PHYS-P 221 General Physics I (5 cr.) and PHYS-P 222 General Physics II (5 cr.).
9. Capstone and Research Courses (6-8 credits, all with grades of C- or higher) —Students just

complete either BIOL-L 403 Biology Seminar (Capstone) (3 cr.) or CHEM-C 495 Chemistry capstone (3 cr.) and either BIOL-L 490 Individual Study (3 cr.) (Biology Research) or CHEM-C 409 Chemistry research (3 cr.).

10. Chemistry, Biochemistry, and Other Science Electives (as needed to complete 120 credit hours, all with grades of C- or higher) CHEM-C 324 Proteins and Enzymes (5 cr.), CHEM-C 484 Biomolecules and Catabolism (3 cr.), CHEM-C 485 Biosynthesis and Physiology (3 cr.), CHEM-C 430 Inorganic Chemistry (3 cr.), CHEM-C 300 Energy and Green Chemistry (4 cr.), BIOL-L 364 Principles of Genetics (3 cr.), BIOL-L 473 Ecology (3 cr.), and BIOL-L 474 Ecology Laboratory (2 cr.).
11. 30 of the last 60 credit hours at Indiana University Kokomo.

Bachelor of Arts in Chemistry

The Bachelor of Arts (B.A.) Degree in Chemistry centers on a traditional core that includes organic, analytical, inorganic and physical chemistry; biochemistry, and mathematics. This degree is perfectly suited for students planning on going to post-baccalaureate professional schools (graduate school, medical school, dental school, law school, etc.), for those wishing to work in an industrial or governmental laboratory setting, and for students wishing to teach chemistry in middle- and high school. Because good scientists also need to be exposed to other fields of knowledge—to the arts, the social sciences, and humanities, taking general education courses is part of the degree requirements. Students should work closely with an academic advisor to ensure that their curriculum will meet the necessary requirements to facilitate entry into their desired post-baccalaureate program or to reinforce their career goals.

Degree Requirements:

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the School of Sciences general education curriculum.
4. Mathematics. Students must take MATH-K 310 Statistical Techniques (3 cr.), MATH-M 119/120 Brief Survey of Calculus I and II (6 cr.), or MATH-M 215/216 Calculus I and II (10 cr.).
5. A student must complete a total of 30 credit hours in 300–400-level courses within the School of Humanities and Social Sciences and the School of Sciences, although credits may come from both schools.
6. Chemistry Courses (all with grades of C- or higher)—Students must complete CHEM-C 105 Principles of Chemistry I, CHEM-C 106 Principles of Chemistry II, CHEM-C 125 Experimental Chemistry I, CHEM-C 126 Experimental Chemistry II, CHEM-C 210/211 Introduction to Quantitative Analytical Chemistry with Lab (5 cr.) or an elective; CHEM-C 310 Analytical Chemistry, CHEM-C 311 Analytical Chemistry Laboratory, CHEM-C 341 Organic Chemistry I, CHEM-C 342 Organic Chemistry II, CHEM-C 343 Organic Chemistry I Laboratory, CHEM-C 344 Organic Chemistry II Laboratory, CHEM-C 361 Physical Chemistry I, a 300-/400-level chemistry elective (3 cr.), and CHEM-C 495 Capstone in Chemistry. In addition, students must take BIOL-L 105 Introduction to Biology (5 cr.). The list of recommended chemistry electives (minimum 3 cr.) includes CHEM-C 362, CHEM-C 351, CHEM-C 430, CHEM-C 483, CHEM-C 409, CHEM-C 443, and CHEM-C 400.
7. Physics Courses (10 credit hours)—Students must complete either PHYS-P 201 General Physics I (5 cr.), and PHYS-P 202 General Physics II (5 cr.), or PHYS-P 221 General Physics I (5 cr.) and PHYS-P 222 General Physics-II (5 cr.).

Chemistry Minor

To earn a minor in chemistry, students must complete a minimum of twenty-one (21) credit hours in chemistry with a minimum grade of C in each course. Students must take all the necessary prerequisites before enrolling in courses required for the minor.

The following courses are required: CHEM-C 105: Principles of Chemistry I (3 cr.)
CHEM-C 125 Experimental Chemistry I (2 cr.)
CHEM-C 106 Principles of Chemistry II (3 cr.)
CHEM-C 126 Experimental Chemistry II (2 cr.)
CHEM-C 341 Organic Chemistry I (3 cr.).

In addition, students must take one of the following two analytical chemistry courses: CHEM-C 210 Introduction to Quantitative Analytical Chemistry (3 cr.) or CHEM-C 310 Analytical Chemistry (3 cr.).

Students must also take one of the following laboratory courses: CHEM-C 211 Introduction to Quantitative and Analytical Chemistry Laboratory (2 cr.), CHEM-C 311 Analytical Chemistry Laboratory (2 cr.), or CHEM-C 343 Organic Chemistry I: Laboratory (2 cr.).

Finally, students can select one (or more) course(s) from the following list to complete the 21-credit hour minimum requirement: CHEM-C 342 Organic Chemistry II (3 cr.), CHEM-C 344 Organic Chemistry II (2 cr.), CHEM-C 300 Energy and Green Chemistry: A Natural Science Perspective (4 cr.), CHEM-C 329 Proteins and Enzymes (5 cr.), CHEM-C 361 Physical Chemistry I (3 cr.), CHEM-C 400 Chemical Information Sources and Services (1 cr.), CHEM-C 430 Inorganic Chemistry (3 cr.), CHEM-C 443 Organic Spectroscopy (3 cr.), and CHEM-C 483 Biological Chemistry Lecture (3 cr.).

Bachelor of Science in Chemical Biology

Chemical biology involves the application of chemical techniques, tools, and synthesized molecules to the study of and transformation of biological systems. It is a very practical discipline that interfaces biology and chemistry. This type of curriculum produces broadly trained interdisciplinary scientists. With such a diverse background in chemistry and biology, these students are well prepared to address challenges in pharmaceutical and biotechnology industries.

Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum. The General Education requirements in quantitative literacy, critical thinking, and physical and life sciences are satisfied by the major.
4. Mathematics and Informatics. Students must take MATH-K 310 Statistical Techniques (3 cr.), MATH-M 215 Calculus I (5 cr.) (a grade of C- or higher is required), and INFO-I 101 Introduction to Informatics (4 cr.).
5. Chemistry Courses. Students must complete CHEM-C 105 Principles of Chemistry I (3 cr.), CHEM-C 106 Principles of Chemistry II (3 cr.), CHEM-C 125 Experimental Chemistry I (2 cr.), CHEM-C 126 Experimental Chemistry II (2 cr.), CHEM-C 341 Organic Chemistry I (3 cr.), CHEM-C 342 Organic Chemistry II (3 cr.), CHEM-C 343 Organic Chemistry I Laboratory (2 cr.), CHEM-C 344 Organic Chemistry II Laboratory (2 cr.), CHEM-C 361 Introductory Physical Chemistry (3 cr.), PHYS-P 201 or PHY-P 221 General Physics I (5 cr.), and PHYS-P 202 or PHYS-P 222 General Physics II (5 cr.).
6. Biology Courses. The following biology courses are required: BIOL-L 105 Introduction to Biology (5 cr.), BIOL-L 211/213 Molecular Biology (5 cr.), BIOL-L 321 Principles of Immunology (3 cr.), BIOL-L 367 Cell Physiology (3 cr.), MICR-M 310 Microbiology (3 cr.), and MICR-M 315 Microbiology Lab (2 cr.).
7. Capstone and Research Courses (6-8 cr.). Students must take BIOL-L 403 Biology Seminar (3 cr.) or CHEM-C 495 Chemistry Capstone (3 cr.), and BIOL-L 490 Individual Study (3-5 cr.) or CHEM-C 409 Chemistry research (3-5 cr.).
8. Chemistry and other science electives. Students must take courses from the following list to complete 120 cr.: CHEM-C 430 Inorganic Chemistry (3 cr.), CHEM-C 324 Proteins and Enzymes (5 cr.), CHEM-C 484 Biomolecules and Catabolism (3 cr.), CHEM-C 485 Biosynthesis and Physiology (3 cr.) CHEM-C 351 Green Chemistry and Sustainability Science (4 cr.), CHEM-C 300 Energy and Green Chemistry (3 cr.), BIOL-L 473/474 Ecology and Ecology Lab (3-5 cr.), PHSL-P 416/418 Comparative Physiology (3-5 cr.), and BIOL-L 364 Principles of Genetics (3 cr.).
9. 30 of the last 60 credit hours at Indiana University Kokomo.

Bachelor of Science in Informatics

Informatics is the study and application of computing and information technology to a particular area or discipline of study. Informatics also considers the use of information and computing technology in organizations and society at large. Information technology (IT) is rapidly changing the world, creating new challenges and opportunities every day. Informatics equips students to study IT, consider its social impact, and find ways to use technology to solve problems. The Informatics program's aim is to produce qualified IT professionals who understand the ways people work with and use information, and who can develop

solutions that are effective and easy-to-use. Informatics emphasizes problem solving, innovation, communication, and teamwork along with technical skills and knowledge.

An informatics degree prepares graduates for a range of positions. Some of the career options include database developer/administrator, bioinformatics, chemical informatics, human-computer interface designer, information architect, IT consultant, multimedia specialist, software developer, system administrator, technical writer, webmaster, etc.

Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. A minimum of 30 credit hours must be taken at the 300 level or above.
3. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
4. General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum. The General Education requirements in critical thinking and cultural diversity are satisfied by the major. Courses that fulfill the requirements for a cognate area may also meet the general education distribution requirements. Any course used to meet major requirements may also be used to meet one but not more than one of the general education distribution requirements. Core and the cognate area must be completed with a grade of C- or better. A minimum overall GPA of 2.0 in the informatics core and the cognate area is required. Courses in other departments that are used to fulfill general education requirements or general electives may be completed with any passing grade except ENG-W 131, ENG-W 132, and SPCH-S 121 which require a grade of C. A minimum overall GPA of 2.0 is required for graduation.
5. Informatics Courses (40 cr.). INFO-I 101 Introduction to Informatics (4 cr.), INFO-I 201 Mathematical Foundations of Informatics (4 cr.), INFO-I 202 Social Informatics (3 cr.), INFO-I 210 Information Infrastructure I (4 cr.), INFO-I 211 Information Infrastructure II (4 cr.), INFO-I 213 Website Design and Development (3 cr.), INFO-I 300 Human Computer Interaction (3 cr.), INFO-I 303 Organizational Informatics (3 cr.), INFO-I 308 Information Representation, (3 cr.), and INFO-I 356 Globalization (3 cr.), INFO-I 450 Systems Design (3 cr.), and INFO-I 451 Systems Development (3 cr.) (senior standing; capstone courses).
6. Cognate area courses cannot count as Informatics core courses or Informatics elective courses even if these courses are cross-listed with Informatics. If cognate area courses are equivalent to Informatics core courses, students should substitute additional Informatics elective courses in place of Informatics core courses to meet the 40 credit hour requirement. (See Informatics core courses).
7. Cognate Areas (15-18 cr.).

Biology

BIOL-L 105 Introduction to Biology (5 cr.)

BIOL-L 211 Molecular Biology (3 cr.) and BIOL-L 213 Molecular Biology Laboratory (2 cr.)
 BIOL-L 364 Genetics (3 cr.)
 A minimum of 3 cr. credits from the following: BIOL-L 321 Immunology, BIOL-L 367 Cell Physiology, BIOL-L 473 Ecology, MICR-M 310 Microbiology, MICR-M 315 Microbiology Laboratory, PHSL-P 416 Comparative Animal Physiology.

Chemistry

CHEM-C 105 Principles of Chemistry I
 CHEM-C 106 Principles of Chemistry II
 CHEM-C 341 Organic Chemistry I: Lecture
 CHEM-C 400 Chemical Information Sources & Services
 Choose 2 courses from the following: CHEM-C 342 Organic Chemistry II: Lecture, CHEM-C 310 Analytical Chemistry, CHEM-C 361 Physical Chemistry I, CHEM-C 430 Inorganic Chemistry, CHEM-C 483 Biological Chemistry.

Cognitive Science

Required Courses: PSY-P 103 General Psychology, PSY-P 335 Cognitive Psychology, PHIL-P 100 Introduction to Philosophy.

Select one from the following: PHIL-P 360 Introduction to the Philosophy of the Mind, PHIL-P 304 Nineteenth Century Philosophy, PHIL-P 335 Phenomenology and Existentialism, PHIL-P 352 Logic and Philosophy, Select one from the following: PSY-P 211 Methods of Experimental Psychology, PSY-P 326 Neuroscience, PHIL-P 150 Elementary Logic, Any Philosophy course not selected from 300-level courses listed above.

Mathematics

Required Courses: MATH-M 215 Calculus I, MATH-M 216 Calculus II, MATH-M 311 Calculus III
 Select one from the following: MATH-M 303 Linear Algebra for Undergraduates, MATH-M 313 Elementary Differential Equations with Applications, MATH-M 347 Discrete Mathematics, MATH-M 360 Elements of Probability.

New Media

Students are required to take any five New Media Communication courses (i.e., courses with the NMCM prefix). At least two of these courses must be at the 300-level or higher.

Sociology

SOC-S 100 Introduction to Sociology OR SOC-S 101 Social Problems and Policies, SOC-S 252 Methods of Sociological Research, PSY-K 300 Statistical Techniques. Three additional Sociology electives at the 300 – 400 level.

Public Administration

Required Courses: PAHM-V 170 Introduction to Public Affairs. Select three from the following: PAHM-V 263 Public Management, PAHM-V 366 Managing Behavior in Public Organizations, PAHM-V 376 Law and Public Policy

Minor in Informatics

Students are required to take: INFO-I 101 Introduction to Informatics (4 cr.), INFO-I 202 Social Informatics (3 cr.) or INFO-I 213 Web Design and Development (3 cr.), INFO-I 210 Information Infrastructure I (4 cr.), INFO-I 300 Human Computer Interaction (3 cr.), INFO-I 303 Organizational

Informatics (3 cr.) A minimum grade of C- is required in all courses taken for the minor.

Bachelor of Arts in Mathematics

The Bachelor of Arts degree in Mathematics is designed to prepare individuals to understand the nature of truth and the concept of proof in the discipline of mathematics, to understand the application of mathematical techniques to other fields, and to formulate and solve problems mathematically. Students may select courses to enter graduate school in mathematics or enter business or industry.

Degree Requirements:

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the School of Arts and Sciences general education curriculum.
4. Mathematics Courses—Students must complete a minimum of 32 credit hours in mathematics with a grade point average of at least 2.0. The following courses are required: MATH-M 215 and M-216 Calculus I-II (10cr.), MATH-M 311 Calculus III (4 cr.), MATH-M 303 Linear Algebra for Undergraduates (3 cr.). In addition, students must complete one sequence from Group A and three additional courses chosen from Groups A and B.
 - Group A: MATH-M 403/404 Introduction to Modern Algebra I-II (6 cr.), MATH-M 413/414 Introduction to Analysis I-II (6 cr.), MATH-M 413/415 Introduction to Analysis I/Elementary Complex Variables with Applications (6 cr.), MATH-M 447/448 Mathematical Models and Applications I-II (6 cr.), MATH-M 471/472 Numerical Analysis I-II (6 cr.)
 - Group B: MATH-M 313 Elementary Differential Equations with Applications (3 cr.), MATH-T 336 Topics in Euclidean Geometry (3 cr.), MATH-M 347 Discrete Mathematics (3 cr.), MATH-M 360 Elements of Probability (3 cr.), MATH-M 366 Elements of Statistical Inference (3 cr.).
5. General Examination—Students must pass a written examination covering the entire undergraduate mathematics program. The examination will be given near the end of the semester in which the student is expected to graduate. The mathematics faculty may permit a student who does not perform satisfactorily on the written examination to take an oral examination that same semester. Students who still do not perform satisfactorily may take the general examination the next time it is offered. Those who do not pass the general examination on the second attempt must petition the mathematics faculty to take the general examination a third time, and are expected to document additional preparation in mathematics.
6. Students must complete 30 of the last 60 credit hours, including at least 9 credit hours of

mathematics from Groups A or B, and the general examination at Indiana University Kokomo.

Bachelor of Science in Mathematics

The Bachelor of Science degree in Mathematics is designed to prepare individuals to understand the nature of truth and the concept of proof in the discipline of mathematics, to understand the application of mathematical techniques to other fields, and to formulate and solve problems mathematically. The Bachelor of Science places a greater emphasis on mathematical knowledge and its relation to the sciences through additional coursework and potential research opportunities. Students have greater opportunities to complete coursework for either graduate school in mathematics or entry into business or industry.

Degree Requirements:

- Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
- Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
- General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum. The General Education requirements in quantitative literacy, critical thinking, and physical and life sciences are satisfied by the major.
- Required Science and Informatics Courses
 - PHYS-P 221 Physics 1 (5 cr.)
 - One of the following: CHEM-C105/125 Principles of Chemistry I and Laboratory (5 cr.), BIOL-L 105 Intro to Biology (5 cr.), or GEOL-G 100 General Geology (5 cr.)
 - INFO-I 101 Introduction to Informatics (4 cr.)
 - Five additional credits in the School of Sciences outside of Mathematics/statistics.
- Mathematics Courses—Students must complete a minimum of 41 credit hours in mathematics with a grade point average of at least 2.0. The following courses are required: MATH-M 215-216 Calculus I-II (10cr.), MATH-M 311 Calculus III (4 cr.), MATH-M303 Linear Algebra for Undergraduates (3 cr.). In addition, students must complete two sequences from Group A and an additional 12 credit hours from Groups A or B.
 - Group A: MATH-M 403/404 Introduction to Modern Algebra I-II (6 cr.), MATH-M 413/414 Introduction to Analysis I-II (6 cr.), MATH-M 413/415 Introduction to Analysis I/Elementary Complex Variables with Applications (6 cr.), MATH-M 447/448 Mathematical Models and Applications I-II (6 cr.), MATH-M 471/472 Numerical Analysis I-II (6 cr.)
 - Group B: MATH-M 313 Elementary Differential Equations with Applications (3 cr.), MATH-T 336 Topics in Euclidean Geometry (3 cr.), MATH-M 347 Discrete Mathematics (3 cr.), MATH-M 360 Elements of Probability (3 cr.), MATH-M 366 Elements of Statistical Inference (3 cr.), MATH-M 415 Elementary Complex Variables with Applications (3 cr.)
- General Examination—Students must pass a written examination covering the entire undergraduate mathematics program. The examination will be given near the end of the semester in which the student is expected to graduate. The mathematics faculty may permit a student who does not perform satisfactorily on the written examination to take an oral examination that same semester. Students who still do not perform satisfactorily may take the general examination the next time it is offered. Those who do not pass the general examination on the second attempt must petition the mathematics faculty to take the general examination a third time, and are expected to document additional preparation in mathematics.
- Students must complete 30 of the last 60 credit hours, including at least 9 credit hours of mathematics from Groups A or B, and the general examination at Indiana University Kokomo.

Minor in Mathematics

Students must complete a minimum of 20 cr. hours in mathematics with a grade point average of 2.0 or higher. At least 6 cr. hours of mathematics must be completed at IU Kokomo. Students must complete the following courses: MATH-M 215 Calculus I (5 cr.), MATH-M 216 Calculus II (5 cr.), MATH-M 311 Calculus III (4 cr.), MATH-M 303 Linear Algebra for Undergraduates (3 cr.), Students must also select one from the following list of courses: MATH-M 313 Elementary Differential Equations with Applications (3 cr.), MATH-T 336 Topics in Euclidean Geometry (3 cr.), MATH-M 347 Discrete Mathematics (3 cr.), MATH-M 360 Elements of Probability (3 cr.), MATH-M 403 Introduction to Modern Algebra (3 cr.), MATH-M 413 Introduction to Analysis I (3 cr.), MATH-M 415 Elementary Complex Variables with Applications (3 cr.), MATH-M 447 Mathematical Models and Applications I (3 cr.), MATH-M 471 Numerical Analysis I (3 cr.)

General Studies Degree Program

Director and General Studies Coordinator, Distance Education and Grant Administration: Candy Thompson

Mission

The General Studies degree is designed with the aim of providing nontraditional scheduling options for returning and adult students in North Central Indiana. Higher-education degree opportunities are offered through a variety of learning options including hybrid and accelerated courses through the ACCElERated Evening College and 100% online distance education courses.

General Studies Degree Programs

The General Studies Degree Program where students earn a Bachelor of General Studies (B.G.S.) offers the opportunity of a college education to those who have been prevented from beginning or Completing college coursework in a traditional degree program because of work schedules, domestic responsibilities, or logistical problems. The program enables students to complete a degree in general studies at their own pace. Course work consists of a core of arts and sciences courses - humanities, social and behavioral sciences, mathematics, and sciences - and a wide range of electives. Requirements toward a degree may be

completed in a variety of ways, allowing students to design a flexible program of study that is tailored to their backgrounds and needs. The program accepts course work earned by the following:

1. Regular session courses completed at any Indiana University campus
2. Evening courses and distance education courses
3. Independent study by correspondence
4. Course work done at other accredited institutions

In addition, students may complete requirements through:

1. Credit by examination
2. Educational programs in non-collegiate organizations
3. Credit for self-acquired competency
4. Military service credit
5. Paramedic and/or EMT certification

A separate, more detailed bulletin is available from the office of General Studies, Indiana University Kokomo. Call (765) 455-9426 for more information or to receive a detailed bulletin.

Admission

Applicants who have earned a high school diploma or its equivalent during the three years preceding their application and who have pursued academic work at another accredited college or university are normally required to meet admission criteria established by the admissions office of the campus to which they apply. Complete admission policies and procedures are contained in the Indiana University Kokomo Bulletin.

Degree Requirements

The B.G.S. degree consists of two parts: (1) course work that must be done in broad categories called "required areas of learning" and (2) course work called "elective credit" that can be done in any school, division, or program of the university. The three required areas of learning are (1) arts and humanities, (2) science and mathematics, and (3) social and behavioral sciences. These requirements are designed to provide the student with a broad exposure to the humanities and the sciences. The electives permit students to explore other areas of interest and to tailor the degree to their individual needs.

Fundamental Skills Degree Requirements

In the plan of study for B.G.S. degree, students must meet fundamental skills requirements that demonstrate college-level competency in each of the following areas: written communication, oral communication, quantitative reasoning, computer literacy, ethic or civic engagement and diversity. Acceptable grades for courses meeting basic competency requirements must be consistent with the requirements of the campus. Students should consult with their advisor to determine which courses fulfill basic competency requirements.

Additional Information

- Overview
- Accelerated Evening College
- Previously Earned Credit

Majors/Minors

- Bachelor of General Studies Degree
- Certificate in Contemporary Entrepreneurship
- **Bachelors Degrees
Certificates**

Bachelor of General Studies Degree

The requirements for the Bachelor of General Studies degree are:

36 cr. - Twelve credit hours in each of the three required areas of learning: social and behavioral sciences, arts and humanities, and science and mathematics (Note: Credit hours required in each area must be taken in at least two academic disciplines.)

18 cr. - A minimum of 18 additional credit hours in one of the preceding areas with courses from at least two academic departments-concentration area.

66 cr. - Electives (15 of the 66 hours must be course work within the Schools of Humanities, Social Sciences or Sciences)

120 cr. - Total credit hours required for the B.G.S., with a minimum grade point average of a 2.0. Bachelor degree graduates of this program will comply with the general education requirements as determined by the IU Kokomo Faculty Senate.

Other requirements:

At least 30 of the 120 required credit hours of course work must be taken within Indiana University. Self-acquired competency credit may not be counted toward this 30 credit hour minimum. At least 30 of the required 120 credit hours must be in upper-division course work. Upper-division courses are numbered in the 300s and 400s. A grade of C- or better must be achieved in the three required areas and the concentration area to be counted toward the degree.

Accelerated Evening College

The ACCErated Evening College is designed for adults who have earned some college credit but have been unable to complete their degrees because of family obligations, work responsibilities, and other time constraints. Students can earn an Indiana University Bachelor of General Studies degree, with or without a minor, in less time. The ACCErated Evening College offers:

- Shorter, intensive course terms (eight weeks instead of sixteen weeks)
- Classes that meet one evening a week
- 50 percent of weekly instruction delivered online via the Internet for many courses
- Credits that may be applicable to the General Studies degree
- Previously earned IU credits and/or credits transferred from other accredited colleges and universities (old credits accepted)
- Military training
- Credit for approve training and testing programs
- IU independent study courses
- Paramedic and EMT certification
- Self Acquired Competency

Previously Earned Credit

Recognition of Previously Earned Credit

Many students in the General Studies Program have previously earned academic credit at Indiana University or at other institutions. Such credit is applied to the degree requirements of the B.G.S. degree within the guidelines listed below.

Credits from Indiana University Eligible for Transfer

A maximum of 100 credit hours can be applied to the B.G.S. degree, provided the grades earned were D or better. Exception: credit for the grade of D will be granted only for elective courses, not those in required areas of learning.

Credits Eligible for Transfer from Institutions Other than Indiana University

A maximum of 90 credit hours [64 from a community college] can be applied to the B.G.S. degree, provided the applicant has earned grades of C or better. In order for transfer credit to be applied in any of the required areas of learning, courses taken must be equivalent in nature to those offered by Indiana University in these areas. Courses taken at another institution in which the student received grades of D or F will not be accepted for credit. Students who have been dismissed from another postsecondary institution cannot be admitted to the General Studies degree program until at least one calendar year has passed since the date of dismissal. University regulations require that the admissions office indicate on the credit transfer report any deficiencies in grade point average (average grade below 2.0 on a 4.0 scale) at another institution.

Credit by Examination at Indiana University

Students who wish to pursue credit by examination at Indiana University should consult with their General Studies degree program advisor.

Credit by Examination from Other Institutions

If the transcript indicates credit by examination and if students do not enroll in sequential courses to validate their knowledge in the subject matter, credit will be granted only on the basis of review by the appropriate academic department of Indiana University Kokomo.

Credit Awarded Through Non-departmental Examinations

The General Studies degree program awards credit for such programs as Advanced Placement Examinations, DANTES, and College Level Examination Programs (CLEP) on the basis of scores determined by the Indiana University Kokomo faculty. For more information, consult your advisor.

Credits Awarded for Educational Programs in Non-collegiate Organizations

Where relevant to the academic program, the General Studies degree program, will consider the evaluation and credit recommendations of the two publications below as a guide in awarding credit to persons who have successfully completed non-collegiate or in-company sponsored instruction: The National Guide to Educational Credit for Training Programs, American Council on Education

and A Guide to Educational Programs in Non-collegiate Organizations, The State University of New York.

Credit for Self-Acquired Competency (SAC)

The General Studies degree program recognizes that students do gain college-level knowledge and understanding through various life experiences that are equivalent to the subject matter of specific courses in the university curriculum or that may be recognized as general-elective credit. Students who believe themselves eligible for such credit may accelerate their college programs by discussing their background in detail with their General Studies degree program advisor.

Transfer of Self-Acquired Competency Credit within Indiana University

Self-acquired competency credit awarded by the faculty of Indiana University Kokomo campus is recorded and explained on the permanent record of the student. Any other Indiana University campus to which the student may transfer in order to complete a bachelor's degree in General Studies will therefore honor such credit. The student should be aware, however, that such credit will not necessarily be honored by other degree programs of Indiana University, nor by other institutions.

Transfer of Self-Acquired Competency Credit from Other Institutions

Up to 15 credit hours of the possible credit toward the B.G.S. degree will be awarded for self-acquired competency previously recognized by other accredited postsecondary institutions. Additional credit hours of self-acquired competency credit from other institutions must be reviewed in the same manner as other Indiana University Kokomo self-acquired competency credit.

Military Service Credit

Veterans of military service and military personnel on active duty are eligible for academic credit as a result of their military training and experience. The General Studies degree program follows the provisions of the American Council on Education's "Guide to Evaluation of Educational Experiences in the Armed Services" in granting credit.

Paramedic and EMT certification Special credit for students who have their EMT and/or Paramedic certification can be awarded.

Graduation Requirements

To be eligible for graduation, students must complete the course work specified in their plans of study with an overall grade point average of 2.0 (C) or better. Students must receive a grade of C- or better in all courses used to fulfill course requirements in the three principal areas and the concentration area of learning. Any course in which a student receives a grade of D will count as a general elective to fulfill total credit hours required for the degree program. In order to graduate, a student must have a grade point average of 2.0. This is taken from classes taken after being admitted to the General Studies degree program.

Student Responsibility

Students should understand that the responsibility for designing an appropriate academic program and for meeting every degree requirement rests with them; academic advisors are obligated only to assist students in meeting this responsibility. Students needing clarification of any of the requirements for their baccalaureate degrees are urged to obtain that clarification from their academic advisors.

Certificate in Contemporary Entrepreneurship

The certificate is designed to offer students the opportunity to complement their major in General Studies with an additional concentration in Entrepreneurship. Offered under the auspices of the General Studies degree program with administrative oversight by the School of Business, students will take a series of courses and receive a certificate that endorses their knowledge in this area. The Contemporary Entrepreneurship Certificate has strong synergies with other strategic initiatives by the campus by adding an additional and critical educational component to support economic development and potential professional and technical job creation across north central Indiana. This certificate is offered exclusively in the accelerated evening college in the hybrid format, meaning 50 percent of weekly instruction will be face-to-face and 50 percent will be via the web. A certificate in contemporary entrepreneurship is awarded upon completion of these five required courses* (15 cr.):

- BUS-A 200 Foundations of Accounting
- BUS-L 200 Elements of Business Law
- BUS-F 260 Personal Finance
- ECON-E 200 Fundamental of Economics
- BUS-W 211 Contemporary Entrepreneurship

*These courses do not fulfill School of Business degree requirements

Science, Mathematics, and Informatics Courses Undergraduate

Note: The university reserves the right to cancel courses for insufficient enrollment.

P = prerequisite R = recommended C = co-requisite * = lab fee

Anatomy

ANAT-A 215 Basic Human Anatomy (5 cr.) Fall, Spring. Structure of cells, tissues, organs, and systems and their relationship to function.*

Astronomy

AST-A 100 The Solar System (3 cr.) Celestial sphere and constellations, measurement of time, astronomical instruments, earth as a planet, the moon, eclipses, planets and their satellites, comets, meteors, theories of origin of solar system.

AST-A 110 Introduction to Astronomy (3 cr.) Spring.

This course presents a survey of modern astronomy including planetary science, stellar and galactic astrophysics and cosmology.

Biology

BIOL-L 100 Humans and the Biological World (5 cr.)

Fall, Spring. Principles of biological organization, from molecules through cells and organisms, with special reference given to humans. Credit given for only one 100-level biology course. For non-majors.*

BIOL-L 105 Introduction to Biology (5 cr.) Fall, Spring. Integrated picture of manner in which organisms at diverse levels of organization meet most problems in maintaining and propagating life. Credit given for only one 100-level biology course.* (P: high school or college chemistry)

BIOL-L 203 Evolution and Diversity of Life (3 cr.) To provide an understanding and overview over the concept of evolution and how it shaped the diversity of life. (P: BIOL-L105)

BIOL-L 211 Molecular Biology (3 cr.) Spring. Introduction to molecular biology, including mechanisms and regulation of gene expression as well as mechanisms of mutation, repair, and recombination of DNA. (P: BIOL-L105, C: BIOL-L213)

BIOL-L 213 Molecular Biology Laboratory (2 cr.) Spring. Accompanying laboratory for L 211. Introduction to basic techniques in molecular biology.* (C: BIOL-L211)

BIOL-L 270 Humans and Microorganisms (3 cr.) Alternate years. Beneficial and harmful activities of bacteria, fungi, protozoa, viruses. Production of fermented foods, food poisoning and foodborne infections. Introduction to epidemiology, microbial diseases, antibiotics and immunization. Water and wastewater microbiology and waterborne infections.

BIOL-L 321 Principles of Immunology (3 cr.) Alternate years. An introduction to the basic principles of immunology and its applications. Topics covered include the inflammatory response, complement, cell-mediated and humoral immunity, cell interactions, genetics of the immune response, immunization and immunological methods. (P: BIOL-L105, CHEM-C101 or CHEM-C105)

BIOL-L 329 Proteins and Enzymes (3 - 5 cr.) This course focuses on protein structure and function, enzyme kinetics and mechanisms. Topics in bioinformatics are covered. The laboratory studies methods to isolate, purify, and identify enzymes and proteins. Determination of enzyme kinetics.

BIOL-L 336 Evolutionary Medicine (3 cr.) An introduction and overview of the evolutionary perspectives of health and disease, with emphasis on human diseases. (P: BIOL-L 100 or BIOL-L 105 or permission of the instructor.)

BIOL-L 345 Vertebrate Biology (3 cr.) Alternate years. A general overview of the biology of vertebrate animals including aspects of their evolutionary history, taxonomy, anatomy, physiology, ecology, behavior and natural history. (P: BIOL-L 105.)

BIOL-L 350 Environmental Biology (3 cr.) Not open to biology majors. Interactions of human beings with other elements of the biosphere with emphasis on population, community, and ecosystem levels of ecology. (P: Junior or Senior standing)

BIOL-L 364 Principles of Genetics (3 cr.) Alternate years. Analysis of genetic mechanisms and processes, recombination, genetic interaction, gene regulation, biotechnological applications, genomics, cancer genetics and evolution. (P: BIOL-L 105, BIOL-L 367 or MICR-M 310.)

BIOL-L 367 Cell Physiology (3 cr.) Alternate years.

Introduction to biochemical structure and metabolic activities of plant, animal, and microbial cells; physiology of membranes; locomotion and response; growth, division, and differentiation of cells. (P: an introductory biology and general chemistry course. R: organic chemistry.)

BIO-L 370 Plants, Animals, and Civilization (3 cr.)

Fall, Spring. R: Junior or senior standing. The principal domesticated plants and animals from prehistoric times to the present, with consideration of their origin, spread, and relationship to development of civilization and to present problems of hunger. Not open to students who have had PLSC-B 368. Note: BIO-L 370 will not count toward a Bloomington or Kokomo biological science degree.

BIOL-L 379 Principles of Ornithology (3 cr.) Summer

This course will cover bird evolution, taxonomy, biology, ecology and behavior with emphasis on Indiana birds. (P: One introductory biology course or permission of the instructor.)

BIOL-L 391 Special Topics in Biology (3 cr.) Study and analysis of selected biological issues and problems. Topics vary from semester to semester.

BIOL-L 403 Biology Seminar (3 cr.) Alternate years. A seminar course concerned with current topics and issues in the biological sciences. (P: junior or senior standing.)

BIOL-L 473 Ecology (3 cr.) Alternate years. Major concepts of ecology for science majors; relation of individual organisms to their environment, population ecology, and structure and function of ecosystems. (P: 8 hours of biology. R: BIOL-L105 and BIOL-L 364.)

BIOL-L 474 Laboratory in Ecology (2 cr.) Introduction to research problems and techniques in the ecology of individuals, populations, and ecosystems.* (C: BIOL-L 473.)

BIOL-L 490 Individual Study (1-12 cr.) Arr. Must complete a written assignment as evidence of each semester's work. Must present oral report to complete more than 6 credit hours. (P: overall GPA of 2.5 or above; must have written consent of faculty member supervising research.)

BIOL-L 498 Internship in Professional Practice (1-6 cr.)

Designed to provide opportunities for students to receive credit for career-related, full-time work. Evaluation by employer and departmental chairperson. Course credit may count as elective hours in the Biology B.A./B.S. and Biological and Physical Sciences B.A./B.S. degree requirements.

Chemistry

CHEM-Y 398 Professional Practice in Chemistry (1-6 cr.) Designed to provide opportunities for students to receive credit for career-related, full-time work.

CHEM-C 410 Principles of Chemical Instrumentation (2-4 cr.) Modern methods of instrumental analysis, including spectroscopy, chromatography, and electrochemistry. (P: CHEM-C 310/311)

CHEM-C 100 The World of Chemistry (3 cr.) Fall, Spring. For students requiring only one semester of chemistry. Descriptive course, including inorganic, organic, and biological chemistry, with illustrations of

scientific reasoning. May be taken concurrently with the laboratory, CHEM-C 120. Credit given for only one of the following: CHEM-C 100, CHEM-C 101, or CHEM-C 105.

CHEM-C 101 Elementary Chemistry I (3 cr.) Fall.

Introduction to chemistry. Usually taken concurrently with CHEM-C 121. The two sequences, CHEM-C 101-C121 and CHEM-C 102-C122, usually satisfy programs that require only two semesters of chemistry. Admission to advanced courses on basis of CHEM-C 101, 121, 102, 122 granted only in exceptional cases. May be taken without credit in preparation for CHEM-C 105. Credit given for only one of the following: CHEM-C 100, 101, or 105.

CHEM-C 102 Elementary Chemistry II (3 cr.) Spring.

Continuation of CHEM-C 101. Usually taken concurrently with CHEM-C 122. The chemistry of organic compounds and their reactions, followed by an extensive introduction to biochemistry. Credit not given for both CHEM-C 102 and CHEM-C 106. (P: CHEM-C 101.)

CHEM-C 105 Principles of Chemistry I (3 cr.) Fall.

Basic principles, including stoichiometry, thermochemistry, atomic and molecular structure, gases, solutions, and selected topics in descriptive chemistry. Credit given for only one of the following, CHEM-C 100, CHEM-C 101, or CHEM-C 105-125. (P: two years of high school algebra or MATH-M 125, which may be taken concurrently; one year of high school chemistry. C: CHEM-C 125.)

CHEM-C 106 Principles of Chemistry II (3 cr.)

Spring. Chemical equilibrium with emphasis on acids, bases, solubility and electrochemistry, elementary thermodynamics, chemical kinetics, and selected topics in descriptive chemistry. Credit not given for both CHEM-C 102, and CHEM-C 106-C126. (P: CHEM-C 125. C: CHEM-C 126)

CHEM-C 109 Introductory Chemistry for Health and Nursing Sciences (3 cr.)

Designed for students with no prior chemistry background. Students will learn the role of chemistry in physiological, health, and nursing applications.

CHEM-C 120 Chemistry Laboratory (2 cr.) Fall, Spring.

For non-majors. An introduction to techniques and reasoning of experimental chemistry. Experiments and projects illustrate topics studied in CHEM-C 100. Credit given for only one of the following: CHEM-C 120, 121 or 125*. (P or C: CHEM-C 100.)

CHEM-C 121 Elementary Chemistry Laboratory (2 cr.)

Fall. An introduction to the techniques and reasoning of experimental chemistry. Credit not given for both CHEM-C 121 and 125.* (P or C: CHEM-C 101.)

CHEM-C 122 Elementary Chemistry Laboratory II (2 cr.) Spring.

Continuation of CHEM-C 121. Emphasis on organic and biochemical experimental techniques. Credit not given for both CHEM-C 122 and 126.* (P: CHEM-C 101, 121. P or C: CHEM-C 102.)

CHEM-C 125 Experimental Chemistry I (2 cr.) Fall.

Introduction to laboratory experimentation, with particular emphasis on the collection and use of experimental data, some properties of solutions, stoichiometry, thermochemistry, and synthesis. Credit given for only one of the following: CHEM-C 121, or 125.* (C: CHEM-C 105.)

CHEM-C 126 Experimental Chemistry II (2 cr.) Spring.

A continuation of CHEM-C 125 with emphasis on equilibria; qualitative analysis; acids and bases; oxidation-reduction reactions including electrochemistry, chemical kinetics, and synthesis. Credit given for only one of the following: CHEM-C 126, or 122.* (P: CHEM-C 125. C: CHEM-C 106.)

CHEM-C 210 Introduction to Quantitative Analytical Chemistry (3 cr.) Fall.

Introduction to the theory and practice of non-instrumental quantitative/qualitative analytical chemistry, including sample selection and preparation and methods of data analysis. Emphasis will be placed on the theory of titrimetric and gravimetric techniques. (P: CHEM-C 106, 126. C: CHEM-C 211.)

CHEM-C 211 Introduction to Quantitative and Analytical Chemistry Laboratory (2 cr.) Fall.

Laboratory instruction in the fundamental analytical techniques discussed in CHEM-C 210.* (P: CHEM-C 126. C: CHEM-C 210.)

CHEM-C 300 Energy and Green Chemistry - A Natural Science Perspective (3-4 cr.)

An introduction to topics in existing and potential renewable sources of energy, including hydroelectric, geothermal, tidal, wind and solar energy.

CHEM-C 310 Analytical Chemistry (3 cr.) Spring.

Fundamental analytical processes including solution equilibria, theory and applications of electrochemistry and spectrophotometry, and chemical methods of separation. (P: CHEM C-106.)

CHEM-C 311 Analytical Chemistry Laboratory (2 cr.)

Spring. Laboratory instruction in the fundamental analytical techniques discussed in CHEM-C 310.* (C: CHEM-C 310.)

CHEM-C 329 Proteins and Enzymes (3 - 5 cr.)

This course focuses on protein structure and function, enzyme kinetics and mechanisms. Topics in bioinformatics are covered. The laboratory studies methods to isolate, purify, and identify enzymes and proteins. Determination of enzyme kinetics.

CHEM-C 341 Organic Chemistry I: Lecture (3 cr.)

Fall. Chemistry of carbon compounds; nomenclature; qualitative theory of valence; structure and reactions. Syntheses and reactions of major classes and monofunctional compounds. (P: CHEM-C 106. C: CHEM-C 343 or consent of chemistry undergraduate advisor.)

CHEM-C 342 Organic Chemistry II: Lecture (3 cr.)

Spring. Syntheses and reactions of polyfunctional compounds, natural and industrial products, physical and chemical methods of identification. (P: CHEM-C 343. C: CHEM-C 344 or consent of instructor.)

CHEM-C 343 Organic Chemistry I: Laboratory (2 cr.)

Fall. Laboratory instruction in the fundamental techniques of organic chemistry and the use of general synthetic methods.* (C: CHEM-C 341.)

CHEM-C 344 Organic Chemistry II: Laboratory (2 cr.)

Spring. Preparation, isolation, and identification of organic compounds. Emphasis on modern research methods.* (P: CHEM-C 343. C: CHEM-C 342.)

CHEM-C 361 Physical Chemistry I (3 cr.) Fall.

Alternate years. Chemical thermodynamics and kinetics,

introduction to statistical thermodynamics. (P: CHEM-C 106, PHYS-P 202, MATH-M 216.)

CHEM-C 362 Physical Chemistry II (3 cr.) Introduction to quantum mechanics. Structure and spectra of atoms, molecules, and solids. (P: CHEM-C 361.)

CHEM-C 390 Environmental Science (3 cr.) Spring. For non-majors. Exploration of the complex interrelationships among the physical, chemical, biological, cultural, economic, and political forces that shape the global environment. Note: CHEM-C 390 will not count toward a Bloomington or Kokomo chemistry degree.

CHEM-C 400 Chemical Information Sources and Services (1 cr.) Techniques for the storage and retrieval of chemical information in both printed and computer-readable formats; sources of chemical information, including Chemical Abstracts; development of search strategies; online searching of chemical databases. (P: CHEM-C 341.)

CHEM-C 409 Chemical Research (1-3 cr.) For outstanding students. To be elected only after consultation with the faculty research advisor. Cannot be substituted for any course required in the chemistry major. A research thesis is required.

CHEM-C 430 Inorganic Chemistry (3 cr.) Alternate years. Structure and bonding of inorganic compounds, survey of chemistry of nonmetal and metal elements, coordination compounds, organometallic compounds, mechanisms and reactions. (P: CHEM-C 106. R:CHEM-C 342.)

CHEM-C 443 Organic Spectroscopy (3 cr.) Elucidation of molecular structures by use of IR, UV, NMR, mass spectroscopy, and other methods.* (P: CHEM-C 344.)

CHEM-C 483 Biological Chemistry Lecture (3 cr.)

Alternate years. Introduction to structure, chemical properties, and interrelationships of biological substances. (P: 18 credit hours of chemistry, including CHEM-C 341.)

CHEM-C 487 Biochemistry Laboratory (2 cr.)

Laboratory instruction in the fundamental techniques of biochemistry, including separation of macromolecules by electrophoresis and chromatography; isolation, purification and analysis of enzymes; recombinant DNA procedures; and polymerase chain reaction (PCR).

CHEM-C 495 Capstone in Chemistry (1-3 cr.)

Independent study, under the supervision of a chemistry faculty member or appropriate academic advisor can be earned by completion of (a) a chemical research project; (b) a library research project in an area of current scientific investigation; (c) a research investigation in industry; or (d) a service activity in university, government, public schools, or other science-related groups or organizations. Students will report the results of their activities in both a formal written report and oral presentation, prepare portfolios of undergraduate work in chemistry, discuss recent scientific literature, and explore chemistry in society. Enrollment in the Capstone in Chemistry requires joint approval of the capstone instructor and the independent project advisor. (P: Senior standing.)

Computer Information Systems

CSCI-C 100 Computing Tools (1 cr.) An introduction to computing applications useful in college work.

Microcomputer systems, word processing, spreadsheets, graphics, e-mail and Web browsers are used.

CSCI-C 106 Introduction to Computers and Their Use (3 cr.) Introduction to computers and data processing. Includes the historical and current status of data processing and electronic digital computers; a survey of computer applications; foundations of computer programming; survey of programming languages; and the fundamentals of a high-level language such as Visual Basic. (P: CSCI-C 100; (for ACCEL sections: P: CSCI-C 100 and sophomore standing.))

Geography

GEOG-G 107 Physical Systems of the Environment (3 cr.) Physical environment as the home of humans, emphasizing the distribution and interaction of environmental variables (landforms, vegetation, soils, and climate). Note: Business majors may count GEOG-G 107 only as a social science.

GEOG-G 315 Environmental Conservation (3 cr.) Conservation of natural resources including soil, water, wildlife, and forests as interrelated components of the environment, emphasizing an ecological approach. Current problems relating to environmental quality. (R: 3 credit hours of geography or junior standing.)

Geology

GEOG-G 100 General Geology (5 cr.) Broad study of the earth. The earth in the solar system, earth's atmosphere. Formation and modification of earth materials, landforms, continents and oceans through geologic time.*

GEOG-G 133 Geology of the United States (5 cr.) Introduction to physical and historical geology with applications to United States geology. Study of the geologic events (and their associated rocks and structures) that have shaped the continent, including mountain building, earthquakes, volcanoes, plate tectonics, intercontinental seaways, sedimentary environments, glacial geology and modern processes.*

GEOG-G 300 Environmental and Urban Geology (3 cr.) Significance of regional and local geologic features and processes in land use. Use of geologic factors to reduce conflict in utilization of mineral and water resources and damage from geologic hazards. (R: GEOG-G 100, GEOG-G 133, or GEOG-G 107)

GEOG-G 400 Energy: Sources and Needs (3 cr.) Renewable and non-renewable energy resources, their origins, society's needs and usage, environmental impacts of use and production, and future directions in energy technologies. Also may include study of non-energy resources including metallic and nonmetallic resources.

GEOG-G 421 United States Geology: Field Experience 1 (5 cr.) A six week lecture/field trip course incorporating a 2 - 3 week field experience in the western United States. Students will explore the geologic events (and their associated rocks and structures) that have shaped the continent, including mountain building, earthquakes, volcanoes, plate tectonics, intercontinental seaways, sedimentary environments and glacial geology. Possible destinations include (but are not limited to) the Black Hills, Yellowstone, Grand Tetons, Mt. Rainier, Mt. St. Helens and the Glacier National Park.*

GEOG-G 440 Professional Practice in Geosciences (1-6 cr.) The course is designed to provide opportunities for students to receive credit for career-related, full-time work. (P: At least 9 credit hours of coursework in geology/physical geography or instructor permission.)

GEOG-T 107 Physical Systems of the Environment (3 cr.) Physical environment as the home of humans, emphasizing the distribution and interaction of environmental variables (landforms, vegetation, soils, and climate).

GEOG-T 312 Geology of Indiana (3 cr.) Study of the physiography and bedrock structure of Indiana, first with topographic and geologic maps, and then with field trips to selected areas. Rock and fossil specimens will be collected for study. (P: GEOG-G 100.)

GEOG-T 362 Geology of Mineral Resources (3 cr.) Formation of minerals and mineral deposits. Gem materials and metallic and non-metallic economic minerals: occurrence and uses. (P: a course in geology or consent of the instructor.)

Informatics

INFO-I 100 First Year Experience (1 cr.) This course introduces specific survival skills for success in college and beyond, while reconciling personal learning skills with instructor-based teaching styles. Master the art of inquiry and elevate your sense of integrity while sharpening your personal edge by exploring critical thinking, project managements and current/future job market trends. Required by all Informatics and new media majors.

INFO-I 101 Introduction to Informatics (4 cr.) Problem solving with information technology; introductions to information representation, relational databases, system design, propositional logic, cutting-edge technologies: CPU, operation systems, networks; laboratory emphasizing information technology including Web page design, word processing databases, using tools available on campus. (P: Computer literacy.)

INFO-I 201 Mathematical Foundations of Informatics (4 cr.) An introduction to methods of analytical, abstract and critical thinking, deductive reasoning, and logical and mathematical tools used in information sciences. The topics include propositional and predicate logic, natural deduction proof system, sets, functions and relations, proof methods in mathematics, mathematical induction, and graph theory. Credit given for either INFO-I 201 or COGS-Q 250. P: INFO-I 101 and MATH-M 118.)

INFO-I 202 Social Informatics (3 cr.) Introduction to key social research perspectives and literatures on the use of information and communication technologies. Discusses current topics such as information ethics, relevant legal frameworks, popular and controversial uses of technology (e.g., peer-to-peer file sharing), digital divides, etc. Outlines research methodologies for social informatics. (P: INFO-I 101.)

INFO-I 210 Information Infrastructure I (4 cr.) The software architecture of information systems. Basic concepts of systems and applications programming. Cross listed with CSCI-C 297. Credit given for only one of the following: INFO-I 210, CSCI-N 331 (IUPUI), CSCI-C 297 or CSCI-A 201 (IUB). (Recommended prerequisite or concurrent: INFO-I 101.)

INFO-I 211 Information Infrastructure II (4 cr.)

The systems architecture of distributed applications. Advanced programming, including an introduction to the programming of graphical systems. Cross listed with CSCI-C 309. Credit given for only one of the following: INFO-I 211, CSCI-N 345 (IUPUI), CSCI-A 202 (IUB), or CSCI-C 212 (IUB). (P: INFO-I 210.)

INFO-I 213 Web Site Design and Development

(3 cr.) Introduction to web design and development covering high-level concepts in addition to hands-on activities. Topics include: internet infrastructure, client-side technologies, embedded media, page design, site design, visibility and others. Technologies covered include: XHTML, JAVA script and cascading style sheets. This course runs concurrently with NMCM-N 213.

INFO-I 300 Human Computer Interaction (3 cr.)

The analysis of human factors and the design of computer application interfaces. A survey of current HCI designs with an eye toward what future technologies will allow. The course will emphasize learning HCI based on implementation and testing interfaces.

INFO-I 303 Organizational Informatics (3 cr.) Examines the various needs, uses, and consequences of information in organizational contexts. Topics include organizational types and characteristics, functional areas and business processes, information-based products and services, the use of and redefining role of information technology, the changing character of work life and organizational practices, sociotechnical structures, and the rise and transformation of information-based industries. (P: INFO-I 101.)

INFO-I 308 Informatics Representation (3 cr.) The basic structure of information representation in digital information systems. Begins with low-level computer representations such as common character and numeric encodings. Introduces formal design and query languages through Entity Relationship Modeling, the Relational Model, XML, and XHTML. Laboratory topics include SQL and XPath querying. (P: INFO-I 101, INFO-I 201, and INFO-I 210.)

INFO-I 310 Multimedia Arts and Technology (3 cr.)

The study of the evolution of media arts and underlying principles of communication. Application development paradigms in current practice.

INFO-I 356 Globalization: Where we fit in (3 cr.)

Globalization, increasingly enabled by information technology, changes how we work, what we buy and who we know. Learn about the past, present, and future of globalization from an information technology perspective, and what it means for you, your career, and your community.

INFO-I 399 Current Topics in Informatics (1 - 3 cr.)

Emphasis is on new developments and research in informatics. For example issues such as bioinformatics and medical informatics would be explored.

INFO-I 400 Topics in Informatics (1 - 3 cr.) Variable topic. Emphasis on new developments and research in informatics.

INFO-I 450 Systems Design and Development (3 cr.)

Students work on capstone projects in supervised teams. They select an appropriate project (preferably based

on cognate), then learn to develop a plan that leads to success. Teamwork, communication, and organizational skills are emphasized in a real-world-style environment. (P: Approval of the dean and completion of required core informatics courses.)

INFO-I 460 Senior Thesis (3 cr.) The senior student prepares and presents a thesis: a substantial, typically multi-chapter paper based on a well-planned research or scholarly project, as determined by the student and a sponsoring faculty member. (P: Senior standing and approval of the dean.)

INFO-I 490 Internship in Informatics Professional Practice (1-3 cr.)

Students gain professional work experience in an industry or research organization setting using skills and knowledge acquired in informatics course work. May be repeated for a maximum of 3 cr. hours. S/ F grading. (P: Approval and completion of 100- and 200-level requirements in Informatics.)

Mathematics**MATH-K 310 Statistical Techniques (3 cr.)**

Fall, Spring. Introduction to probability and statistics; elementary probability theory, conditional probability, independence, random variables, discrete and continuous probability distributions, measurement of central tendency and dispersion. Concepts of statistical inference and decision: estimation, hypothesis testing, Bayesian inference, statistical decision theory. Special topics discussed may include regression and correlation, time series, analysis of variance, nonparametric methods. Credit given for only one of the following: PSY-K 300, ECON-E 270, MATH-K 310 or STAT 301. (P: MATH-M 125 or MATH-M 118 or MA 153)

MATH-M 002 College Math Readiness Program (0 cr.)

Students will review and strengthen the prealgebra and algebra skills necessary for success in college mathematics classes (MATH-M 007, MATH-M 117, MATH-M 104, MATH-M 105, MATH-M 125, MATH-M 118, MATH-M 133, MATH-M 134) (P: Mathematics placement exam and authorization by advisor.)

MATH-M 003 Mathematics Laboratory (0 cr.)

Mathematics Laboratory to accompany algebra courses. (C: MATH-M 007, MATH-M 117, MATH-M 104, or MATH-M 105.)

MATH-M 007 Elementary Algebra (3 cr.)

Fall, Spring. Signed numbers, operations with polynomials, solving equations, factoring, introduction to graphing, fractional and radical expressions. Not open to students who have had MATH-M104. Credit may not be applied toward any degree.

MATH-M 104 Foundations of College Algebra (3 cr.)

Fall, Spring. Students will develop critical problem solving skills, acquire an understanding of the core concept of functions and learn appropriate technology skills while strengthening their mastery of linear equations and inequalities, systems of linear equations, polynomial operations and graphing techniques for linear equations. (P: Mathematics placement exam.)

MATH-M 105 College Algebra (3 cr.)

Fall, Spring. Students will deepen their understanding of functions, acquire non-linear problem solving skills and develop the algebraic skills necessary for precalculus and

general education mathematics courses: factoring; quadratic, polynomial, rational and radical equations and applications; and operations with rational expressions, radicals, and rational exponents. (P: Math-M 104 OR Mathematics placement exam.)

MATH-M 117 Intermediate Algebra (3 cr.) Fall, Spring. Factoring, rational expressions, fractional exponents, radicals, quadratic equations, and functions. Does not count toward the arts and sciences divisional distribution requirements. (P: MATH-M 007 or equivalent. R: C- or above in MATH-M 007.)

MATH-M 118 Finite Mathematics (3 cr.) Fall, Spring. Set theory, linear systems, matrices and determinants, probability, linear programming. Applications to problems from business and the social sciences. (P: two years of high school algebra or MATH-M 117. R: a grade of C- or better in MATH-M 117 or equivalent.)

MATH-M 119 Brief Survey of Calculus I (3 cr.) Fall, Spring. Introduction to calculus. Primarily for students in the social sciences. Not open to those who have had MATH-M 211 or MATH-M 215. Credit not given for both MATH-M 215 and MATH-M 119. (P: two years of high school algebra or MATH-M 125 or equivalent. R: a grade of C- or better in MATH-M 125 or equivalent.)

MATH-M 120 Brief Survey of Calculus II (3 cr.) Spring. A continuation of MATH-M 119, covering topics in elementary differential equations, calculus of functions of several variables and infinite series. Intended for non-physical science students. Credit not given for both MATH-M 216 and MATH-M 120. Knowledge of trigonometry required. (P: MATH-M 119. R: a grade of C- or above in MATH-M 119.)

MATH-M 125 Precalculus Mathematics (3 cr.) Fall, Spring. Designed to prepare students for calculus. Algebraic operations, polynomials, functions and their graphs, conic sections, linear systems of equations. Does not count toward the arts and science divisional distribution requirements. (P: MATH-M 117. R: a grade of C- or better in MATH-M 117 or equivalent.)

MATH-M 126 Trigonometric Functions (3 cr.) Spring. Designed to develop the properties of the trigonometric, exponential, and logarithmic functions and to prepare for courses in calculus (MATH-M 211 or MATH-M 215). P: MATH-M 125.)

MATH-M 133 Topics in Probability and Statistics (2 cr.) Topics in set theory, probability, descriptive statistics, binomial and normal distributions, and confidence intervals. (P: MATH-M 117 or equivalent)

MATH-M 134 Topics in Mathematics (2 cr.) Variable topics in mathematics such as graph theory, logic, mathematics of personal finance, mathematics in music and art, modeling using regression, matrices and Markov chains, geometry, governmental mathematics, game theory and linear programming. (P: MATH-M 117 or equivalent)

MATH-M 215/216 Calculus I-II (5-5 cr.) Fall, Spring. Coordinates, functions, straight line, limits, continuity, derivative and definite integral, applications, circles, conics, techniques of integration, infinite series. MATH-M 215 not open to those who have had MATH-M 119 or MATH-M 211. A student cannot receive credit

for both MATH-M 215, MATH-M 119 and MATH-M 215, MATH-M 211 and MATH-M 215, MATH-M 120 and MATH-M 216 or MATH-M 212 and MATH-M 216. (P: two years of high school algebra and trigonometry, or both MATH-M 125 and MATH-M 126.)

MATH-M 303 Linear Algebra for Undergraduates (3 cr.) Introduction to theory of real and complex vector spaces. Coordinate systems, linear dependence, bases. Linear transformations and matrix calculus. Determinants and rank. Credit not given for both MATH-M 301 and MATH-M 303. (P: MATH-M 216 or consent of instructor.)

MATH-M 311 Calculus III (4 cr.) Elementary geometry of 2, 3, and n-space; functions of several variables; partial differentiation; minimum and maximum problems; and multiple integration. (P: MATH-M 216 or consent of instructor.)

MATH-M 313 Elementary Differential Equations with Applications (3 cr.) Ordinary differential equations of first order and linear equations of higher order with applications, series solutions, operational methods, Laplace transforms, and numerical techniques. A student may not receive credit for both MATH-M 313 and 343. (P: MATH-M 216 or consent of instructor.)

MATH-M 347 Discrete Mathematics (3 cr.) Injective and surjective functions; inverse functions; composition; reflexive, symmetric, and transitive relations; equivalence relations; sets including complements, products, and power sets; cardinality; introductory logic including truth tables and quantification; elementary techniques of proof including induction and recursion; counting techniques; graphs and trees; discrete probability. (P: MATH-M 212 or MATH-M 216.)

MATH-M 360 Elements of Probability (3 cr.) Introduction to mathematical theory of probability. Probability models, combinatorial problems, conditional probability and independence, random variables, discrete and continuous distributions, repeated Bernoulli trials, gambler's ruin problems, moments, moment generating functions, law of large numbers, central limit theorem, and applications. (P: MATH-M 216. C: MATH-M 311.)

MATH-M 366 Elements of Statistical Inference (3 cr.) Sampling distributions (Chi square, t and F distributions), order statistical decisions, and inference. Hypothesis-testing concepts, Neyman-Pearson Lemma, likelihood ratio tests, power of tests. Point estimation, method of moments, maximum likelihood, Cramer-Rao bound, properties of estimators. Interval estimation, applications. Regression, correlation, analysis of variance, nonparametric methods. (P: MATH-M 360.)

MATH-M 403 Introduction to Modern Algebra I (3 cr.) Study of groups, rings, fields (usually including Galois theory), with applications to linear transformations. (P: MATH-M 301 or MATH-M 303.)

MATH-M 413 Introduction to Analysis I (3 cr.) Modern theory of real number system, limits, functions, sequences and series, Riemann-Stieltjes integral, and special topics. (P: MATH-M 301 or MATH-M 303, and MATH-M 311, or consent of instructor.)

MATH-M 415 Elementary Complex Variables with Applications (3 cr.) Algebra and geometry of complex

numbers, elementary functions of a complex variable, power series, integrations, calculus of residues, conformal mapping. Application to physics. (P: MATH-M 311.)

MATH-M 447 Mathematical Models and Applications I (3 cr.) Formation and study of mathematical models used in the biological, social, and management sciences. Mathematical topics include games, graphs, Markov and Poisson processes, mathematical programming, queues, and equations of growth. Suitable for secondary school teachers. (P: MATH-M 301 or MATH-M 303, MATH-M 311, and MATH-M 360, which may be taken concurrently, or with consent of instructor.)

MATH-M 471 Numerical Analysis I (3 cr.) Interpolation and approximation of functions, numerical integration and differentiation, solution of nonlinear equations, acceleration and extrapolation, solution of systems of linear equations, eigenvalue problems, initial and boundary value problems for ordinary differential equations, and computer programs applying these numerical methods. (P: MATH-M 301 or MATH-M 303, MATH-M 313 or MATH-M 343, and MATH-M 311, or consent of instructor. R: CSCI-C 301 or FORTRAN programming.)

MA 153 Algebra and Trigonometry I (3 cr.) Fall, Spring. Algebra for students with inadequate preparation for calculus. This is the first half of a two-semester version of MA 151. Not open to students with credit for MA 151. (R: A grade of C- or better in MATH M 117 or equivalent.)

MA 154 Algebra and Trigonometry II (3 cr.) Spring. Trigonometry for students with inadequate preparation for calculus. This is the second half of a two-semester version of MA 151. Not open to students with credit for MA 151. (P: MA 153 or equivalent.)

MA 221 Calculus for Technology I (3 cr.) MA221 Calculus for Technology I (3 cr.) Spring. Not open to students with credit in MATH-M119. First course in techniques of calculus for students enrolled in certain technical curricula. (P: MA153 or equivalent. R: a grade of C- or better in MA153 or MA154 or equivalent.)

MA 222 Calculus for Technology II (3 cr.) Spring. Note open to students with credit in MA 224 or MATH-M120. Continuation of MA221. Knowledge of trigonometry required. (P: MA 221. R: a grade of C- or better in MA 221 or equivalent.)

MATH-T 109 Mathematics for Elementary Education I (3 cr.) Fall, Spring. Introduction to problem-solving, including use of patterns and Venn diagrams; study of various numeration systems; whole numbers, fraction, and decimal algorithms with manipulatives; ratio; percent; logic. Open only to elementary education majors. Does not count towards divisional distribution requirement. (P: MATH-M 118 or MATH-M 125.)

MATH-T 110 Mathematics for Elementary Education II (3 cr.) Fall, Spring. Emphasis on geometry with use of manipulatives; study of plane figures and solids. Discussion of area, volume, symmetry, perimeter, tessellation, constructions with mira and compass, congruence, similarity, probability, statistics. Open only to elementary education majors. Does not count toward divisional distribution requirement. (P: MATH-M 118 or MATH-M 125.)

MATH-T 336 Topics in Euclidean Geometry (3 cr.) Axiom systems for the plane, the parallel postulate and non-Euclidean geometry, classical theorems. Geometric transformation theory, vectors and analytic geometry, convexity, theory of area and volume. (P: MATH-M 301 or MATH-M 303 and MATH-M 391 or their equivalents.)

MATH-Y 398 Internship in Professional Practice (1 - 3 cr.) Internship with businesses requiring applied mathematics (or pure mathematics) projects. (P: Junior or Senior standing)

Microbiology

MICR J 200 Microbiology and Immunology (3 cr.) Fall, Spring. For students of the baccalaureate curricula in the School of Nursing and in the Division of Allied Health Sciences; others by consent of instructor. Concurrent or previous registration in J201 Microbiology Laboratory is recommended. Basic principles of microbiology, cell biology and epidemiology. Consideration of pathogenic bacteria, viruses, fungi, and parasites in human disease; immunology and host-defense mechanisms. (P: ANAT-A 215 and PHSL-P 215 or equivalent.)

MICR-J 201 Microbiology Laboratory (1 cr.) Fall, Spring. Bacteriological techniques of microscopy, asepsis, pure culture, and identification of unknown bacteria. Biology of microorganisms; action of antimicrobial agents and disinfectants, food microbiology and bacterial agglutination reactions.* (P or C: MICR-J 200.)

MICR-M 310 Microbiology (3 cr.) Alternate years. Application of fundamental biological principles to the study of microorganisms. Significance of microorganisms to humans and their environment. Topics covered include bacterial growth and metabolism, microbial genetics, microbial diversity, mechanisms of pathogenicity, epidemiology and environmental microbiology. (P: two semesters of college chemistry; BIOL-L 105. C: MICR-M 315.)

MICR-M 315 Microbiology Laboratory (2 cr.) Alternate years. Laboratory exercises and demonstrations to yield proficiency in principles and techniques of cultivation and utilization of microorganisms under aseptic conditions. These principles will include microscopy, asepsis, pure culture, bacterial metabolism, genetic transformation and identification of unknown bacteria.* (C: MICR-M 310.)

MICR-M 320 Environmental and Public Health Microbiology (3 cr.) Introduction to basic concepts in environmental microbiology and epidemiology. Significance of waterborne pathogenic microorganisms and indicators. Importance of drinking water treatment and wastewater treatment. Introduction to foodborne pathogens and foodborne infections. (R: BIOL-L 105 and BIOL-L 211/213; MICR-M 310 is recommended)

Physiology

PHSL-P 215 Basic Human Physiology (5 cr.) Fall, Spring. Functional aspects of cells, tissues, organs, and systems in mammalian organisms. Designed for pre-professional students in allied health, nursing, speech and hearing and HPER.* (R: MATH-M007, ANAT-A215, intro to chemistry.)

PHSL-P 416 Comparative Animal Physiology (3 cr.) Alternate years. Physiological principles of the respiratory,

circulatory, excretory, and related systems in a variety of invertebrate and vertebrate animals. (P:CHEM-C 106, two college biology courses, and one college mathematics course.)

PHSL-P 418 Laboratory in Comparative Animal Physiology (2 cr.) Laboratory experiments using a variety of animals to illustrate physiological principles.* (P or C: PHSL-P 416.)

Physics

PHYS-P 100 Physics in the Modern World (5 cr.) Fall, Spring. Ideas, language, methods, impact, and cultural aspects of physics today. Includes classical physics up to physical bases of radar, atomic energy applications, etc. Beginning high school algebra used. Cannot be substituted for physics courses explicitly designated in specified curricula. No credit in this course will be given to students who have passed PHYS-P 201-202.*

PHYS-P 201 General Physics I (5 cr.) Fall. Newtonian mechanics, oscillations and waves, bulk properties of matter and thermodynamics.* (P: MATH-M 125 or high school equivalent.)

PHYS-P 202 General Physics II (5 cr.) lab fee Spring. Electricity and magnetism, geometrical and physical optics, and modern physics. (P: PHYS-P 201)*

PHYS-P 221 Physics I (5 cr.) Alternate years. This course is the first semester of a two semester sequence of calculus-based, introductory physics. In PHYS-P 221, we will explore Newtonian mechanics, fluid dynamics, oscillations and waves, thermodynamics, and elementary kinetic energy. (P: MATH-M 215.)

PHYS-P 222 Physics II (5 cr.) Spring Alternate years. This course is the second semester of a two semester sequence of calculus-based, introductory physics. In PHYS-P 222, we will focus primarily on electricity and magnetism. We will also learn about geometrical and physical optics, the special theory of relativity and elements of contemporary physics. (P: MATH-M 215, PHYS-P 221.)

PHYS-P 301 Contemporary Physics (3 cr.) Arr. Introduction to modern physics. Atomic and nuclear physics, kinetic theory, relativity, elementary particles. (P: PHYS-P 202 or PHYS-P 222; MATH-M 215, which may be taken concurrently with consent of instructor.)

PHYS-P 310 Environmental Physics (3 cr.) Arr. Relationship of physics to current environmental problems. Energy production, comparison of sources and by-products; nature of and possible solutions to problems of noise; particulate matter in atmosphere. (P: PHYS-P 201 or consent of instructor.)

Physical and Life Sciences

PLSC-B 203 Survey of the Plant Kingdom (5 cr.) Spring. Survey of various groups of plants, including their structure, behavior, life histories, classification, and economic importance.*

PLSC-B 364 Summer Flowering Plants (5 cr.) Summer A course for students desiring a broad, practical knowledge of common wild and cultivated plants.* (P: one introductory biology course.)

Zoology

ZOOL-Z 315 Developmental Anatomy (5 cr.) Alternate years. Comparative study of the structure and development of vertebrates, including humans.* (P: BIOL-L 105.)

Bachelor of Science in Chemistry

Students completing the Bachelor of Science (B.S.) Degree in Chemistry has a broad theoretical and practical chemistry background as well as laboratory, research, and internship experiences preparing them to enter a variety of chemistry or chemistry-related graduate programs, to teach high school chemistry, or to work in entry-level laboratory positions. The B.S. in Chemistry program is ideal for students heading for professional programs in pharmacy, medicine or dentistry. The degree provides a strong background for students completing wishing to enter the workforce in research, development, production, quality control, and management.

Degree Requirement

1. Students must complete a minimum of 120 credit hours with a cumulative grade point average of 2.0 or higher.
2. Entering freshmen must take SSCI-E 105 Science Freshmen Learning Community (1 cr.).
3. General Education. Students must complete all of the requirements of the Indiana University Kokomo campus-wide general education curriculum. The General Education requirements in quantitative literacy, critical thinking, and physical and life sciences are satisfied by the major.
4. Mathematics and Informatics. Students must take MATH-K 310 Statistical Techniques (3 cr.), MATH-M 215/216 Calculus I and II (10 cr.), and INFO-I 101 Introduction to Informatics (4 cr.).
5. Chemistry Courses (all with grades of C- or higher) - Students must complete CHEM-C 105 Principles of Chemistry I (3 cr.), CHEM-C 106 Principles of Chemistry II (3 cr.), CHEM-C 125 Experimental Chemistry I (2 cr.), CHEM-C 126 Experimental Chemistry II (2 cr.), CHEM-C 300 Energy and Green Chemistry (3-4 cr.), CHEM-C 310 Analytical Chemistry (3 cr.), CHEM-C 311 Analytical Chemistry Laboratory (2 cr.), CHEM-C 341 Organic Chemistry I (3 cr.), CHEM-C 342 Organic Chemistry II (3 cr.), CHEM-C 343 Organic Chemistry I Laboratory (2 cr.), CHEM-C 344 Organic Chemistry II Laboratory (2 cr.), CHEM-C 361 and 362 Physical Chemistry I and II (6 cr.), CHEM-C 430 Inorganic Chemistry (3 cr.), CHEM-C 483 Chemical Biology (3 cr.) or CHEM-C 329 Proteins and Enzymes (3 cr.), CHEM-C 409 Chemistry Research (3 cr.), CHEM-C 410 Principles of Chemical Instrumentation (3 cr.) or CHEM-Y 398 (3 cr.), and CHEM-C 495 Capstone in Chemistry (3 cr.). In addition, students must take BIOL-L 105 Introduction to Biology (5 cr.).
6. Physics Courses (10 credit hours)—Students must complete either PHYS-P 201 General Physics I (5 cr.), and PHYS-P 202 General Physics II (5 cr.), or PHYS-P 221 General Physics I (5 cr.) and PHYS-P 222 General Physics II (5 cr.).
7. Chemistry Electives (as needed to complete 120 credit hours, all with grades of C- or higher). 300-/400-level chemistry courses including CHEM-

Y 398 Professional Practice in Chemistry (3 cr.), BIOL-L 367 Cell Physiology (3 cr.), MICR-M 310 Microbiology (3 cr.), and MICR-M 315 Microbiology Lab (2 cr.).

8. 30 of the last 60 credit hours at Indiana University Kokomo.

Absence

Illness is usually the only acceptable excuse for absence from class. Other absences must be explained to the satisfaction of the instructor, who will decide whether omitted work may be made up. The names of students who are excessively absent are to be reported by their instructors to the Office of the Registrar.

Academic Standing of Students

A student is considered to be a candidate in good standing for an Indiana University degree when admitted into a degree program by the Office of Admissions, when the academic grade point average is not less than a 2.0 (C) for the last semester's work, and when the cumulative average is not below this same level.

Application for Graduation

Degrees are awarded at IU Kokomo in December, May, and August. Students planning to graduate in December must apply for their degrees by September 15. The application deadline for May and August graduation is January 15. Please go to the degree requirements section to be sure all requirements for graduation are met.

Classification of Students

Class standing is based on the number of credit hours earned:

Freshman: 1-25
 Sophomore: 26-55
 Junior: 56-85
 Senior: 86 or more

Graduate: Students who have applied for and have been accepted into a graduate degree program.

Credit Hours

Credit Hours Completed at Close of Semester/Minimum Cumulative GPA

(Total Grade Pts./Total Cr. Hrs.)

12–24:1.50

25–36:1.75

37–45:1.90

46 or more: 2.00

Suppose that a student has earned the following grades in a semester:

3 credit hours of A (12 credit points)

3 credit hours of B (equals 9 credit points)

3 credit hours of C+ (equals 6.9 credit points)

3 credit hours of D- (equals 2.1 credit points)

3 credit hours of F (equals 0 credit points)

The semester grade point average would be 2.0 (30 credit points divided by 15 credit hours) Students have access to a GPA calculator online at

<http://studentcentral.indiana.edu/register/policies-grades/calculations.shtml>

Dean's List

The Academic Affairs honors list includes students from each undergraduate division who have met the following academic criteria. Full-time students must have carried at least 12 credit hours of work throughout a semester with a grade point average of 3.5 or higher. Part-time students must have accumulated a minimum of 12 credit hours during the spring semester, summer session, and fall semester with a grade point average of 3.5 or higher. Academic Affairs honor list students are recognized on Honors Day, prior to Commencement activities.

Degree Requirements

Each student is responsible for planning his/her own program and for meeting the following degree requirements by the time he/she expects to graduate:

1. Apply to graduate by completing and submitting a degree candidate form. Deadlines and the degree candidate form can be found at <http://www.iuk.edu/admin-services/registrar/graduation.shtml>. If degree requirements are not met, a change in the graduation date must be made. It is the responsibility of the student to report this change to his/her advisor.
2. Earn a minimum of 120 credit hours toward a baccalaureate degree and 60 credit hours toward an associate degree, excluding any duplicate course credits. Some curricula require more.
3. Earn 30 of the final 60 credit hours toward a baccalaureate degree and 15 of the final 30 credit hours toward an associate degree from Indiana University Kokomo.

4. To complete a baccalaureate degree, earn a minimum of 30 credit hours at the 300- and 400-level of which 15 must be earned from Indiana University Kokomo.
5. Earn a minimum grade point average (GPA) of 2.0. Certain curricula require a higher minimum grade point average.

Additional degree requirements may be specified by the school of the students' chosen curricula. Students should consult the relevant section of this bulletin for complete information about degree requirements for their programs.

The dean of each college is responsible for certifying the completion of degree requirements for each candidate for graduation.

Upon certification of the candidates for graduation, those candidates who are free of all University obligations and who are designated as having completed degree requirements are issued the corresponding diploma from the Office of the Registrar. The academic record is closed once graduation is certified; no record changes will be permitted once the degree is awarded. No further registrations beyond the semester of completion are permitted. If the graduate desires to pursue a second degree, he/she must be readmitted.

Extended X Policy

Any undergraduate student may retake an IU course for which he/she received a grade below an A. A student may exercise this option for no more than three courses, totaling no more than 10 credits during an academic career. In addition, a student may use this option only once for a given course. The course in which the student reenrolls should be the same course which is being replaced. However, course numbers and titles occasionally change, and this will be taken into account. For the course retaken, only the second grade shall be counted in the determination of the student's grade-point average (GPA). The grade for the course that has been replaced shall be marked with an "X" on the transcript. The student's transcript shall record both grades. To exercise the Extended X option, students must obtain an Extended X form from their academic unit, secure the appropriate signatures, and return the form to the Office of the Registrar.

The following regulations apply:

1. The policy applies to undergraduate students only.
2. The FX option applies to all undergraduate schools and divisions on all Indiana University campuses.
3. Any prior undergraduate course will be eligible for replacement if the replacement course is taken Spring 2004 or later under the new policy.
4. Courses repeatable with different content are not eligible for replacement under this policy unless an academic unit chooses to permit this by means of a specific authorization procedure.
5. The following grades cannot be replaced under the Extended X Policy: S, P, W, I, R, NC. In addition, a grade may not be replaced with a second grade of W, I, R, or NC.
6. A student who has failed a course due to academic dishonesty may not retake that course for grade replacement under this policy.

7. Enforcement of the Extended X policy shall be the responsibility of the school or division which certifies the student's fulfillment of degree requirements.
8. Problems relating to the policy shall be referred to the school or division dean, or the administrator fulfilling the equivalent responsibility on the campus.
9. This policy does not apply to students enrolled in the Purdue University School of Technology programs.

Financial Encumbrance

Students who incur a financial encumbrance are not permitted to register for another semester or receive official transcripts and will be denied all university services until the indebtedness is satisfied and the encumbrance is removed.

Forgiveness Policy

A "forgiveness policy" was adopted by IU Kokomo in 1997. The purpose of the policy is to establish an effective means for students to return to IU Kokomo after they have achieved poorly, affording them a fresh start. For details, go to http://www.iuk.edu/admin-services/registrar/academic_forgiveness.shtml

General Education

The General Education curriculum is designed to meet the needs of students in all of IU Kokomo's baccalaureate programs. The goals are essentially threefold: to enable students to acquire knowledge common to educated people; to provide students with the ability to integrate knowledge from different disciplines and to discover the connections between diverse thoughts and ideas; and to empower students with the skill, creativity, and curiosity to be life-long learners.

The following general education curriculum (effective fall 2009) is required of each student who is granted a baccalaureate degree at the Indiana University Kokomo campus. Total credit hours will typically number 42 or 44. Each course must be completed with a passing grade, and students must obtain a minimum GPA of 2.0 in the General Education curriculum. If a student takes more than the required number of courses within a section, the course(s) with the highest grade(s) will be used in the GPA calculation. With the exception of courses jointly listed under Sections I and II, no course can be used twice to satisfy multiple requirements. Some courses may have prerequisites. Additional departments and/or schools may have specific general education requirements rather than the general ones listed here. Students should consult with their advisor for more information.

Below is the listing of the 9 general education outcomes and the courses that fulfill them.

Category I - Communication Skills

Requirement – Three required courses (total of 9 hours)

Courses that fulfill

1. ENG-W 131 (not required if student places into ENG-W 132)
2. ENG-W 132
3. SPCH-S 121

Category II- Information Literacy Requirement – no incremental requirement

Courses that fulfill

1. ENG-W 131 (not required if student places into ENG-W 132)
2. ENG-W 132
3. SPCH-S 121

Category III – Quantitative Literacy

Requirement – Choose from one of three options (total of 4 – 8 hours)

Option 1 MATH-M 118 or MATH-M 119 or MATH-M 215 AND a statistics course at the major level: ECON-E 270, MATH-M 366, MATH-K 310, PSY-K 300, EDUC-K 490, NURS-H 355, SOC-S 360

Option 2 MATH-M 133 (2 cr.) AND MATH-M 134 (2 cr.): These courses have MATH-M117 as a prerequisite and have the statistics content.

Option 3 Students pursuing the B.A. in Mathematics will satisfy the statistics requirement through MATH-M 366 or through an independent study project that will be assessed on the General Examination.

Category IV – Critical Thinking

Requirement – One course from the list (total of 3 hours)

Courses that fulfill

PSY-P211, HSS-S400, PHIL-P150, ENG-L202, SPCH-S336, SOC-S340, BUS-J401, PAHM-V379, CJHS-J201, NURS-S470, INFO-I303, EDUC-P251, EDUC-P255, NMCM-N411, CHEM-105/125, BIOL-L105, MATH-M216, BIOL-L364, PHIL-P383, AHLT-R406

Category V – Cultural Diversity

Requirement – One course from the list (total of 3 hours)

Courses that fulfill

HSS-I100*, HSS-F200*, SPCH-S302, SPCH-S427, EDUC-M300, BUS-D301, PAHM-V130, CJHS-J355, Any 100-level or above foreign language course,

FOLK-F101, INFO-I356, SOC-S100

Category VI – Ethics and Civic Engagement

Requirement – One course from the list (total of 3 hours). Courses are required to satisfy at least two of the three learning ou=

Courses that fulfill

SPCH-S 223, SPCH-S 233, PHIL-P 100, PHIL-P 140, PHIL-P 242, PHIL-P 342, PHIL-P 375, PHIL-P 383, EDUC-H 340, BUS-L 201, PAHM-V 170, NURS-S 472, AHLT-R 407, AHLT-H400, NURS-S474

Category VII – Social and Behavioral Sciences

Requirement – two 3 credit hour courses, each from a different area (total of 6 hours)

Courses that fulfill - Psychology PSY-P 103

Courses that fulfill – Sociology SOC-S 100, SOC-S 101

Courses that fulfill – Political Science POLS-Y 103, POLS-Y 217, POLS-Y 219

Courses that fulfill – Economics ECON-E 175, ECON-E 200, ECON-E 201, ECON-E 202

Courses that fulfill – History HIST-H 105, HIST-H 106, HIST-H 113, HIST-H 114

Courses that fulfill – depends on the topic that semester HSS-E104*

*To facilitate the graduation checklist process, records will be kept at the registrar level or the advisor level indicating the goal satisfied in any given semester.

Category VIII – Humanities and Arts Requirement – two 3 credit hour courses, each from a different area (total of 6 hours)

Courses that fulfill - Literature and Philosophy SPAN-S 360, Any PHIL course except PHIL-P 150, Any ENG-L course or ENG-E course, HSS-E103*, FINA-A 101, FINA-A 102

Courses that fulfill - Fine, Performing, and Communication Arts FINA-A 101, FINA-A 102 or any studio art course, HUMA-U 101, HUMA-U 102, HUMA-U 103, HUMA-U 305, MUS-M 174, MUS-X 001, MUS-X 040, MUS-X 070, MUS-U 320 or any music performance course, THTR-T 120, ENG-W 203, EDUC-M 333, EDUC-M 323, HSS-E 103

*To facilitate the graduation checklist process, records will be kept at the registrar level or the advisor level indicating the goal satisfied in any given semester.

Category IX – Physical and Life Sciences Requirement – One 5 credit hour course with a lab and one 3 credit hour course from a different area (total of 8 hours)

Courses that fulfill - Biology BIOL-L 100 (5), BIOL-L 105 (5), BIOL-L 270 (3), BIOL-L 370 (3), ANAT-A 215 (5), PHSL-P 215 (5), MICR-J 200 (3), PLSC-B 203 (5), PLSC-B 364 (5), SCI-E 105*

Courses that fulfill - Chemistry CHEM-C 390 (3), CHEM-C 100/C 120 (5), CHEM-C 101/CHEM-C 121 (5), CHEM-C 105/CHEM-C 125 (5), SCI-E 105*, CHEM-C 109

Courses that fulfill - Physics PHYS-P 100 (5), PHYS-P 201 (5), AST-A 100, AST-A 110, SCI-E 105*

Courses that fulfill - Geology GEOG-G 315 (3), GEOG-G 107 (3), GEOL-G 100 (5), GEOL-G 133 (5), GEOL-G 400 (3), GEOL-T 312 (3), SCI-E 105*

Grading Policy

Instructors in undergraduate and graduate courses use a grading system that includes plus and minus grades as well as straight grades for all undergraduate and graduate course records. The registrar computes numerical grades for plus and minus grades when calculating grade point averages (GPAs) (A+ or A=4.0, A-=3.7, B+=3.3, B=3.0, B-=2.7, C+=2.3, C=2.0, C-=1.7, D+=1.3, D=1.0, D-=0.7, F=0.0). A minimum cumulative grade point average of 2.0 is required for graduation.

Credit points are calculated by multiplying the grade points earned in a course by the number of credit hours for that course. For example, 3 hours of A=12 grade points. The grade point average for a semester is computed by dividing the total number of credit points earned by the number of credit hours attempted.

Graduation with Distinction

To graduate with distinction, baccalaureate and associate degree candidates must rank within the highest 10 percent of the graduating class of their respective degree-granting units. Additionally, baccalaureate candidates must have completed a minimum of 60 credit hours in residence on the campus where the degree is awarded. Associate degree candidates must have completed half of the credit hours required for their degree on the campus where the degree is awarded.

Holds

Holds may be placed on the record of a student for a variety of reasons, including but not limited to, academic, financial or misconduct reasons. A hold may prevent services which may not be accessed without authorization from the office that placed the hold.

Incompletes

The grade of Incomplete (I) is an agreement between the student and the instructor. It is assigned only when the required work of the course is substantially completed and the student's work is of a passing quality.

A grade of Incomplete must be removed within the time stipulated by the instructor; under no circumstances may this exceed one calendar year. If a grade of Incomplete has not been removed within the calendar year of its recording, it will be changed to an F. Students should not register for credit in a course in which they have received a grade of Incomplete.

Intercampus Transfer

A student changing from the Kokomo campus to another Indiana University campus does not need a transcript; however, arrangements should be made with the academic division to have required credentials other than the permanent record forwarded to the appropriate office on the other campus. Intercampus transfer is an on-line process and information can be found at <http://www.iupui.edu/~moveiu/>.

Students on other IU campuses are eligible to complete an intercampus transfer as long as they have not been dismissed from another IU campus. If a student has been dismissed, the IU Kokomo readmission policy applies. Moreover, when a student's GPA and total credits would warrant dismissal from IU Kokomo, IU Kokomo's readmission policy will apply.

Students requesting an ICT with a cumulative GPA of 2.0 or greater and a most recent semester GPA of 2.0 or greater are considered in good standing. Students who do not meet the above criteria are probationary transfers. The IU Kokomo policy regarding probation and dismissal will apply to these students.

Pass/Fail Option

The P/F option, which permits students to designate courses to be recorded for either Pass (P) or Fail (F), is available to all undergraduate students for a maximum of two elective courses per academic calendar year, with a maximum of eight courses to be applied toward graduation. These courses may not include those offered only on a Satisfactory/ Fail basis. Graduate students may elect the option for a maximum of four elective courses (which may be restricted to one such course

per semester) to be applied toward graduation. Other specific course limitations vary from division to division. The student should consult a divisional advisor for details.

Exercise and approval of the option must be completed by the end of the fourth week of classes during the fall or spring semester, or the second week of classes during the summer session. The student should obtain a Pass/Fail form from the Office of the Registrar, secure the signature of the chairperson or acting representative of the division, and return the completed form to the Office of the Registrar by the deadline noted above.

The grades of A, B, C, and D (pluses and minuses) shall be considered as Pass (P) under the option. In no case will these grades be substituted at a later time in place of a P. The grade of P is not counted in computing grade point averages; the grade of F is included.

Instructors will not be notified of those students registering for this option. A final grade of A, B, C, D, or F (pluses and minuses) will be submitted by the instructor and will be converted to the appropriate Pass/Fail grade (P or F) by the registrar.

Probation and Dismissal Policies

The following policy regarding academic probation and dismissal applies to all Indiana University Kokomo students. Dismissal from the university occurs when a student has ceased to make adequate progress toward a degree.

1. Any student whose cumulative GPA falls below 2.0 will be placed on academic probation.
2. A student may be continued on probation when his/her semester GPA is above a 2.0 but his/her cumulative GPA is below 2.0.
Note: The faculty of a school, division or degree program may enact more stringent or more specific policies governing probation, suspension or readmission in that school, division or degree program.
3. A student on academic probation shall be dismissed from Indiana University Kokomo if his/her semester GPA is below 2.0 and his/her cumulative GPA is below that required in the table below.

Credit Hours Completed at Minimum Cumulative GPA
Close of Semester (Total Grade Pts./Total Cr. Hrs.)

12 to 24—1.50

25 to 36—1.75

37 to 45—1.90

46 or more—2.00

4. Students will not be evaluated for possible dismissal until they have completed 12 credit hours.
5. A student will be removed from academic probation when he/she has a cumulative GPA of 2.0 or higher.
6. Summer sessions will count as one semester when considering probation, dismissal, and re-admission criteria.

Note: Students may be dismissed from their school or program if they fail to meet academic or professional

standards. Such students will be informed of their dismissal in writing by the school's dean or the dean's campus representative.

(Faculty Senate, 9/18/2006)

Student Load

A student may register for a single course or for a full-time college program. A student who registers for 12 or more credit hours a semester (6 or more per summer session) is regarded as a fulltime student. A student working full time should generally not register for more than 6 credit hours during a regular semester or 3 in the summer session. A teacher who is employed full time is prohibited by the Indiana State Department of Education from earning more than 6 credit hours in one semester.

A student who expects to graduate in four academic years, not counting summer sessions, should carry at least 15 credit hours during each semester of the regular academic year. Except with special permission from the advisor, a student is not permitted to enroll in more than 17 credit hours. A minimum grade point average of 3.0 (B) is required if a student wishes to carry more than 17 credit hours.

Transcripts

Official transcripts may be obtained from the Office of the Registrar. Information about transcripts, including cost and how to order, may be found at <http://www.iuk.edu/admin-services/registrar/transcripts.shtml>.

Withdrawals

Students who have officially registered and who wish to withdraw must follow withdrawal procedures. Details can be found at http://www.iuk.edu/admin-services/academic_affairs/policies_procedures/withdrawal_policy.shtml. Deadlines can be found at <http://www.iuk.edu/admin-services/registrar/deadlines.shtml>.

Undergraduate Programs

The university's academic policies, rules, and procedures have been developed for the collective good of the university community. The information contained in this section is under the authority of the faculty, except for mandates from state and federal statutes.

Citizenship Verification

Effective July 1, 2011, Indiana state law requires that Indiana University collect verification of citizenship from every individual who applies for "state or local public benefits." The legislation stipulates that students who are not lawfully residing in the United States are:

- ineligible for in-state tuition rates
- ineligible for scholarships, grants, assistantships or other aid funded by the university

All students are required to complete an electronic citizenship verification within OneStart.

- If you are a U.S. Citizen, once you complete the verification, your existing residency status and financial aid/scholarship awards will be unaffected.
- If you are a foreign national with a valid U.S. visa or immigration status, once you complete the verification, your existing residency status and financial aid/scholarship awards will be unaffected.

- If you live outside the U.S. and will complete your program while residing abroad, once you complete the verification, your residency status and any financial aid/scholarships awards will be unaffected.
- If you are unable to verify that you are lawfully residing in the U.S., you will no longer be eligible for in-state tuition rates or institutional aid/scholarships.

International students with any concerns about their visa/immigration status may contact the Office of International Services in Bloomington at intlserv@indiana.edu or 812-855-9086.

More information about this new legislation can be found here:

Indiana House Enrolled Act 1402 <http://www.in.gov/legislative/bills/2011/PDF/HE/HE1402.1.pdf>

Indiana Senate Enrolled Act 590 <http://www.in.gov/legislative/bills/2011/PDF/SE/SE0590.1.pdf>

Confidentiality of Student Records

Release of Information Policy Indiana University's Annual Notification of Student Rights under FERPA The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the University to amend a record should write believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent. The University discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent; the Indiana University Foundation and Indiana University Alumni Association; and vendors of services such as email or other electronic applications, enrollment verification, and so on); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University. Upon request, the University may disclose education records without consent to officials of another school in which a student seeks or intends to enroll. Finally, "public information" may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available at the Office of the Registrar. Public information is limited to name; address; e-mail address; phone; major field of study; dates of attendance; admission or enrollment status; campus; school, college, or division; class standing; degrees and awards; activities; sports; and athletic information.

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information contained in such records—including your Social Security Number, grades, or other private information—may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and personally identifiable information without your consent to *any* third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as

well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and personally identifiable information without your consent to researchers performing certain types of studies, in certain cases *even when we object to or do not request such research*. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your personally identifiable information, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent personally identifiable information from your education records, and they may track your participation in education and other programs by linking such personally identifiable information to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Indiana University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: failures by Indiana University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office

U.S. Department of Education

400 Maryland Avenue, SW

Washington, DC 20202-5901

Equal Opportunity / Affirmative Action Policy

Indiana University pledges itself to continue its commitment to the achievement of equal opportunity within the university and throughout American society as a whole. In this regard, Indiana University will recruit, hire, promote, educate, and provide services to persons based upon their individual qualifications. Indiana University prohibits discrimination based on arbitrary consideration of such characteristics as age, color, disability, ethnicity, gender, marital status, national origin, race, religion, sexual orientation, or veteran status. Indiana University shall take affirmative action, positive and extraordinary, to overcome the discriminatory effects of traditional policies and procedures with regard to the disabled, minorities, women, and veterans. If you have questions or problems related to any of the protected classes list above contact Gerry Stroman, the Affirmative Action Officer, at (765) 455-9529 or room 280 of the Main Building.

Military Reserve Policy

Indiana University realizes that students who are members of the Indiana military reserves may be called to active duty. The following policy is provided in order to minimize

disruptions or inconveniences for students fulfilling their military responsibilities.

Any student called to active duty may withdraw from all courses and receive a 100 percent refund of tuition and fees. Alternatively, with the permission of the instructor(s), a student may receive an incomplete or a final grade in the courses taken. Either alternative may occur anytime during the semester through the end of final examinations. If the withdrawal is processed after the first week of classes, the grade of W will be assigned initially. Students receiving financial aid will be subject to the refund policies of the agencies sponsoring the aid. The request to withdraw needs to be made within one week of being called to active duty and may be made by either the student or other responsible party who has the student's military information.

Students who wish to withdraw from courses as a result of being called to active duty must provide a copy of their orders to the Office of the Registrar on their campus along with a signed note asking to be withdrawn. These materials may be delivered in person, through the mail, or by fax to the Office of the Registrar. The Office of the Registrar will notify the student's instructors, the student's school, and other campus offices. Students or other responsible parties may wish to call the Office of the Registrar first to begin the withdrawal process, with the understanding that a copy of the orders needs to be forthcoming.

For any questions about this process or to request a withdrawal from all classes due to military orders, [contact the Office of the Registrar](#) on your campus. We will be happy to talk about your particular situation so we can minimize inconvenience to you.

Residency

Because IU is a state-funded public university, in-state and out-of-state students pay different rates for tuition. The rules for determining residence are established by the Trustees of Indiana University. The initial determination of a student's residency status is made at the time of admission. If the student is found to be a nonresident and wishes to appeal the decision, the student should contact the Office of the Registrar for an Application for Classification as a Resident Student.

For further information, review the rules for residency and the classification application:

- [Application for Classification as a Resident Student](#)
- [Rules for Residency](#)

University Policies

Students are responsible for the requirements and regulations described herein. In addition, the Indiana University Kokomo Bulletin is not intended to be a comprehensive compilation of academic and administrative policies. Students are expected to be familiar with the various regulations that are office-specific, such as regulations related to financial aid, the Office of the Registrar, academic majors, as well as campus-wide rules, to include the Student Code of Conduct. Although every effort is made to provide accurate and current information, Indiana University Kokomo reserves the right to change rules, policies, fees, curricula, courses,

and other programs described to reflect faculty or administrative action.

Advanced Placement, Credit and Exemption

Indiana University Kokomo recognizes excellence in academic preparation and achievement in several ways. Advanced placement credit and exemption, college level examination program, military credit and are available opportunities. See an advisor for more information.

Credit By Examination

Students who believe they are proficient in a subject area may seek to earn credit by taking a written "end-of-course" or comprehensive examination in that subject. Arrangements to sit for the examination must be made with the appropriate academic division chairperson. A \$5 administration fee must be paid at the Bursar's Office prior to taking the examination. A grade of C or above will earn the appropriate number of satisfactory (S) credit hours for the course. No credit will be given for a grade below C.

1. If Special Credit is given for credentials or experience, a flat per-hour rate of \$20.00 is assessed with a ceiling of 5 hours per class.
2. If by Exam
 - 1) And taken within the first two semesters following matriculation, there is no charge.
 - 2) And taken within the first semester as a transfer student, the same hourly flat rate (A) applies.
 1. For all others, student pays the full instructional credit rate of resident or non-resident. Students will pay the hourly rate in effect at the time they make payment at the Office of the Bursar.

NOTE: Special credit forms are good for six months from date of issue.

College Level Examination Program (CLEP)

Students who take certain CLEP Subject Examinations may be considered for advanced credit. Contact the Office of Admissions for more information.

Military Credit

Veterans of military service may be eligible for academic credit as a result of their military training and experience. Contact the Office of Admissions for more information.

College Board Advanced Placement (AP) Examination Program

Advanced Placement examination scores in mathematics, American history, European history, American government, comparative government, psychology, chemistry, biology, physics, English composition/literature, and English language/composition are considered for possible exemption or advanced credit at Indiana University College Board AP exams are not administered on the IU Kokomo campus; contact high school guidance offices for more information.

Special Programs

The faculty at IU Kokomo have designed two programs that will enhance your academic experience. The IU Kokomo Honors Program offers educational and cultural opportunities to foster intellectual curiosity and professional development. In addition to engaging coursework, honor students are given special opportunities to work with faculty on research projects, to present their work at conferences, and to receive individualized mentoring from faculty members in their major area of study.

The Overseas Study Program provides students with opportunities to study in a variety of countries for a semester or a year. In addition, the faculty have designed courses that include one week travel experiences as part of a course. These trips usually occur over spring break or in the summer.

Honors Program

Joe Keener, Director

The IU Kokomo Academic Honors Program offers educational and cultural opportunities to foster intellectual curiosity and professional development for talented, highly motivated, and creative students. In addition to coursework, Honors students are given special opportunities, for example, to participate with faculty on research projects, to present their work at regional conferences, and to receive individualized counseling.

There are two types of honors courses. Honors colloquia are three-credit courses that focus on interdisciplinary topics, such as "Ethics and Technology" and "Human Intelligence." H-Option courses provide students with a way to gain honors credit from regular courses. An H-Option section runs concurrently with a section of a regular course, and the Honors student attends class with other students. The instructor and the Honors student develop a special set of course requirements to fit the student's abilities and interests; typically these include many of the regular requirements. To do this, students must complete an H-Option contract form with the professor's approval and submit the form to the Honors director, who will then arrange for honors credit upon completion of the project. H-Option course sections may also be set up for internships, independent studies, field-work experience, undergraduate thesis, or other research/creative projects. Students should consult the Honors Director for currently offered honors courses.

Incoming freshman students are eligible to apply if they have combined SAT scores of 1100 or better (or an ACT score of 23) and if they have ranked in the upper 20 percent of their high school graduating class. Continuing students who have completed a minimum of 12 credit hours at IU Kokomo and maintain a GPA of 3.3 or higher are also eligible to apply.

There are two notations of student attainment. These are noted on the student's diploma and transcript. Students may attain both University Honors and Honors in their majors.

University Honors

To qualify for the University Honors notation, students must complete 9 credit hours in honors course work inside

and outside the major, a presentation of work at a student conference, plus two honors colloquia of 3 credits each.

Major Honors

Each academic division has special honors courses available for students who are majoring in disciplines offered by the division. (There are no major honors available for AHLT students at this time.) To qualify for the degree in major honors, the student must complete 9 credit hours in honors course work in the major, as determined by the division or department, a presentation of work at a student conference, plus two honors colloquia of 3 credits each. Students may count the same two honors colloquia as satisfying both university and major honors requirements.

Major Honors in Nursing

The major honors in the baccalaureate nursing program follows the general guidelines of the IU Kokomo University Honors program. Students secure eligibility to participate and remain in the major honors in nursing by attending to the eligibility criteria outlined for the Academic Honors Program. Aware of the special needs of superior nursing students, the Major Honors in Nursing Program provides these outstanding students with a variety of opportunities to enrich their nursing career and the nursing profession overall. To graduate with honors in nursing, a nursing student must complete 6 credit hours in honors courses in nursing as well as two 2-credit hour honors colloquium courses.

Honors projects within a course are meant to enhance or broaden regular course work. However, the work is in lieu of specific course activities, not in addition to those activities. Honors activities may include: research papers, field work, visual or oral presentations, creative works, analytical library work, annotating a bibliography, writing a series of position papers, or participating in a major scientific project. Honors nursing students and faculty responsible for teaching the specific honors courses work together to create a project and a contract for completing the project.

Overseas Study Program

Donna McLean, Coordinator

IU Kokomo students are eligible to participate in Indiana University's overseas study programs offered at a number of universities including the Kokomo campus. Most credits earned in these programs are considered Indiana University credits, not transfer credits; however, dependent on the course of study selected, some of the courses offered may earn transfer credits. When students enroll in IU programs, they will discover that most university scholarships and loans are applicable to the fees for these programs. Credit usually satisfies Indiana University degree requirements and generally meets the residence requirements. Programs are not restricted to language majors. In fact, there are a broad range of courses offered in multiple schools, geared to meeting varied student interests. Undergraduate students, particularly liberal arts majors, are encouraged to explore the possibilities of experiencing a semester or an academic year at a university in another country.

Overseas Programs

IU administered and IU co-sponsored programs include the following:

1. One year of college-level language (College of Arts and Sciences language requirement) or the equivalent.
2. Two years of college-level language or the equivalent.
3. Three years of college-level language or the equivalent.

Academic-Year Programs:

- Bologna, Italy
- Canterbury, England
- Legon, Ghana
- Hamburg, Germany
- Jerusalem, Israel
- Madrid, Spain
- Nagoya, Japan
- Nanjing, People's Republic of China
- Paris, France (critical studies, film studies)
- San Jose, Costa Rica
- São Paulo, Brazil
- Strasbourg, France

Semester Programs:

- Adelaide, Australia
- Alicante, Spain
- Athens, Greece
- Beijing, People's Republic of China
- Budapest, Hungary
- Canberra, Australia
- Costa Rica (tropical biology)
- Freiburg, Germany
- Leiden, The Netherlands (Public and Environmental Affairs)
- London, England
- Maastricht, The Netherlands (business)
- Madrid, Spain
- Paris, France
- Prague, Czech Republic
- Rennes, France
- Rotterdam, The Netherlands (public and environmental affairs)
- Rouen, France (business)
- Santiago, Chile
- Santiago, Chile (business)
- Seoul, South Korea
- Seville, Spain (language, liberal arts)
- Singapore (business)
- St. Petersburg, Russia
- Tokyo, Japan
- Wollongong, Australia

Summer Language Programs:

- Baden Wurttemberg, Germany
- Florence, Italy
- Graz, Austria
- Guanajuato, Mexico
- London, England
- Maastricht, The Netherlands (business)
- Mexico City, Mexico
- Mikkeli, Finland (business)
- Oldenburg, Germany
- Paris, France

- Quebec, Canada
- Salamanca, Spain
- St. Petersburg, Russia

Shorter Travel Options:

Annually, short term travel options may be included within a regular course offered at IU Kokomo. In the past, students have traveled on trips of 14 days or less to England, Guatemala, France, Ireland, South Korea, Italy, Spain and Turkey. Courses offering such travel have ranged from the Hispanic Culture and Health Care Practicum (Guatemala), to courses on Irish, British and Italian culture, to courses in art history in Italy or France, to a course on Irish drama, or a Korean Health Care Practicum, among others. These courses are announced in the spring or fall prior to travel and students often engage in fundraising and other preparations in advance of actual enrollment.

In addition, IU Kokomo students are eligible to participate in any of a large number of foreign study programs administered by other U.S. colleges and universities.

Students interested in overseas study are advised to start planning as far ahead as possible in order to facilitate their choices and ease preparations. For further information, please consult the IU Kokomo Overseas Studies coordinator, Donna McLean, (765) 455-9442 or by e-mail at: domclean@iuk.edu.

IU Kokomo Academics

Library

As part of one of the nation's largest university library systems, the Indiana University Kokomo Library provides local access to millions of books, journal articles, and other scholarly resources. That access, along with interlibrary loan services, offers virtually limitless access to information no matter where it is actually housed.

The library is the academic hub of the Kokomo campus and is equipped with both high-tech and high-touch resources for students. Beyond state-of-the-art computers, software, scanners, and printers, there is also a *Digital Media Center* for developing student multimedia projects. At the *Ask A Librarian Service Desk*, librarians offer convenient instruction and help via phone, chat, e-mail, and in-person. Guides, both print and online, also provide support in using the library's varied resources. Additionally, students may participate in information literacy instruction sessions or schedule an appointment with library faculty for more in-depth research assistance or training. Further, the library is home to other sources of high-touch face-to-face help including the Information Technologies' (IT) *Computer Services Helpdesk*, the *Writing Center*, and the *Student Success Center*, which offers students tutoring and help with technology tools, writing skills, academic skills, and English as a second language.

The library is open to the public, who may access all print and online library resources on site. Any Indiana resident with a valid Indiana driver's license or proof of residency may be issued a library borrower's card.

Services and Facilities

Services and Facilities

Roy Tamir, Administration and Finance, Vice Chancellor

The Office of Administration and Finance provides major support for the educational services of Indiana University Kokomo. This office handles the receipt, disbursement, and recording of all university funds, including student fees. Business functions include procedures relating to purchasing, personnel, payroll, inventory, and accounting. The office also assists student organizations with accounting procedures.

Administration and finance personnel oversee custodial work and maintenance of buildings and grounds, campus beautification, enforcement of parking regulations, operation of the bookstore and vending machines, copying and duplicating procedures, collection and distribution of mail, and coordination of planning of new buildings and of renovation and remodeling of existing facilities.

This office's general approach is of a friendly, service oriented and respectful attitude towards students, staff and faculty. We are here for you!

Information Technologies

Elizabeth Van Gordon, Chief Information Officer

Planning and support for Indiana University Kokomo's instructional technology, audio-visual, multimedia, computing, and telephone services are provided through the Office of Information Technologies. The office is responsible for technological support of a broad range of academic and administrative functions of IU Kokomo. E-mail is available for students, faculty and staff. The Web address for IU Kokomo is www.iuk.edu.

Public Affairs and Advancement

Cathy Valcke, Interim Vice Chancellor for Public Affairs and Advancement

The mission of the Office for Advancement is to engage the north central Indiana region and build and advance relationships in support of the mission of Indiana University Kokomo. Advancement consists of Development, Alumni Relations and Campus Ceremonies, Media and Marketing, and Public Affairs.

Media and Marketing

Marie Radel, Director of Media and Marketing

The Media and Marketing department provides a full range of advertising, public relations, and marketing services for all academic and administrative units on the IU Kokomo campus. We create effective communications and marketing strategies to support efforts such as student recruitment, student retention, community and alumni relations, and the academic mission of IU Kokomo.

In addition, our office promotes the goals of the campus by striving to make residents of our service area aware of IU Kokomo's identity as a world-class regional campus of Indiana University, offering high quality education at a reasonable cost. We further strive to make the community aware of the cultural and economic development benefits that our campus offers to north central Indiana.

Havens Auditorium

Jeffrey Gegner, Technical Director

A prominent feature of the Indiana University Kokomo complex, Havens Auditorium is an outstanding performing arts facility, capable of handling large and technically complicated productions. It includes an 814-seat house, a proscenium stage with a 25-line fly system, an orchestra lift, dressing rooms, a sound system, a scene shop, a computer-controlled lighting system, and a cyclorama. It was refurbished in 2011.

The auditorium is a lasting memorial to Cressy Thomas Havens, whose estate provided approximately \$225,000 toward the construction of the facility. Built at a cost of nearly \$1 million, Havens Auditorium was opened in 1965.

IU Kokomo's Havens Auditorium is available for use by a broad spectrum of community organizations. It has served as the site for such activities as local amateur theater and music productions, public meetings, recitals, concerts, arts competitions, pageants, and film series.

Fees

Karen Shaw, Bursar

Fees are paid according to published schedules each semester and are subject to change by action of the Indiana University Board of Trustees. A nonrefundable application fee of \$35 is charged to all undergraduate credit students new to Indiana University. Rules for determining resident and nonresident student status may be found in the section entitled "University Policies."

Fees are subject to change by the Trustees of Indiana University, the vice president of finance, or the campus chancellor. Students should visit our web site at www.iuk.edu/bursar for the most current information, due dates, tuition and fee rates, how to make payment, and our payment plan option. The QuikPAY™ (QP) electronic billing and payment system is the official means of generating bursar bills (e-bills) to all Indiana University students. Paper billing statements are not provided for enrolled students.

Students will receive a notice in their University-assigned e-mail account when their QP bill is ready to be viewed online. This online statement will detail the amount due and the payment due date.

Student University-assigned e-mail accounts have been established as the official means of communication between the student and Indiana University Kokomo. It is each student's responsibility to check for e-mail messages that the university may be sending.

Development

Cathy Valcke, Interim Director of Development

Cathy Clearwaters, Assistant Director of Development
Brittany Cole, Assistant Director of Development,
Coordinator of Regional Engagement

The Development Office engages current and prospective donors and campus friends throughout north central Indiana, cultivating and maintaining meaningful relationships, to share the story of how IU Kokomo is transforming the region, and to solicit funds to support the strategic initiatives of the campus.

Center for Teaching, Learning and Assessment

Kathy Ross, Director

The mission of the Center for Teaching, Learning, and Assessment is to support effective teaching and promote student learning through development of the faculty. The Center's activities include

- Identifying and providing resources for faculty to improve their teaching.
- Promoting effective teaching practices in and out of the classroom.
- Promoting the Scholarship of Teaching and Learning (SoTL).
- Providing technology training and consultation for faculty and staff.
- Supporting assessment of student learning by academic programs and support units

Center for Early Childhood Education

Marilyn Skinner, Director

In September 2005, Lilly Endowment provided a five-year, \$1.5 million grant for the IU Kokomo Center for Early Childhood Education through its Community Alliances to Promote Education (CAPE) program.

The goal of the Center for Early Childhood Education (CECE), is to improve the level of kindergarten readiness of children in Howard County. The major thrust of the center is to develop and sustain family and community resources considered necessary to raise the level of kindergarten readiness in Howard County. To achieve the goal, the CECE functions as a research and programmatic center for the ongoing and sustainable delivery of activities to promote community awareness of kindergarten readiness, provide resources and workshops to assist parents in their role as first teachers, and provide ongoing professional development. In partnership with the Indiana University Kokomo's School of Education, Ivy Tech State College, area libraries and social service agencies, churches, and businesses, the center attempts to develop and deliver a strong message designed to persuade all segments of our community of the importance of kindergarten readiness of our children.

Center for Education Partnership (CEP)

The IU Kokomo School of Education Center for Educational Partnership (CEP) was established in March 2011 in response to the need for increased educationally purposeful collaboration between the IU Kokomo School of Education and K-12 schools in the surrounding region. A total of 21 area school corporations comprise the CEP and are represented at quarterly CEP meetings and provide support for CEP activities. Additional information and calendar of events may be found at <http://www.iuk.edu/academics/majors/education/CEP.shtml>

Center for Economic Education

Kathy Parkison, Director

The mission of the Center for Economic Education “is to promote economic literacy in central Indiana.” The Center has the following objectives:

- improving the quality of classroom offerings of K-12 teachers, through pre-service and in-service courses in economic, financial, and entrepreneurship education, as well as after-school programming in those subjects;
- conducting research on issues relevant to economic literacy and economic and entrepreneurship education;
- enhancing community awareness of the wide-reaching consequences of economic education;
- acting as a community resource to seek additional funding in the area of economic education.

The Center is accredited by the Council for Economic Education (CEE) and operates under the auspices of the Indiana Center for Economic Education.

Campus Safety and Security

Indiana University Police Department – Kokomo
Jerry Williams, Interim Chief of Police

The security of students, employees, and visitors is a priority at IU Kokomo. The campus is patrolled on a regular basis, and escort service to parking areas is available upon request. Safety concerns should be directed to the Security Office, Room 250, Kelley Student Center, or by calling (765) 455-9363. The office is open from 8 a.m. to 10 p.m. Monday through Friday; Saturday, 8 a.m. to 5 p.m. and Sunday from 1 to 6 p.m. Accidents or emergencies that occur when the office is closed should be reported to the Physical Plant Services Office, (765) 455-9273.

Regulations and Policies Applicable to Students on the Kokomo Campus Motor Vehicles Regulations

1.1 All faculty, staff members, students, and visitors to Indiana University Kokomo are commuters.

Smooth traffic flow and proper parking are therefore important to the operation of the

university. The following regulations are designed to provide effective, safe, and equitable

management of driving and parking on university property.

a. Sec. 3.09., Indiana Burns Statutes 28-6539, I.C. 20-12-3.53. Acts 1971, P.L. 329, s.1. defines the powers and duties of campus police and powers relating to traffic and parking control. The regulations applicable to traffic and parking may include, but not be limited to, the following:

1. Provisions governing the registration, speed, operation, parking and time, places, and manner of use of motor vehicles, bicycles and other vehicles.
2. Provisions prescribing penalties for the violation of regulations may include the imposition of reasonable charges, the removing and impounding of vehicles at the expense of the violator that are operated or parked in violation of the regulations, and the denial or permission to operate vehicles on the property of such institutions. The law does not limit or restrict

the powers of any other governmental authority with jurisdiction over public streets, roads or alleys.

b. These regulations are subject to amendment at any time:

3. The speed limit for motor vehicles on university property is 15 miles per hour.
4. Motorbikes, motorcycles, and motor scooters are subject to all regulations and must be operated only on streets normally used by automobiles.
5. Any accident involving a motor vehicle on IU Kokomo property must be reported to the Campus Safety and Security Office, Room 107 or 234D, Kelley Student Center. This office is open 8 a.m. to 10 p.m. Monday through Friday, and 8 a.m. to 5 p.m. on Saturday and 1 p.m. to 6 p.m. on Sunday. When the office is closed or there is no one in the office, report accidents to Physical Plant in the Main Building.
6. Parking of motor vehicles on university property is confined to areas designated for that purpose. Parking is prohibited on grass, in construction areas, or any other place that will mar the landscape of the campus, inconvenience or endanger anyone, create a hazard, or interfere with the use of university facilities by others. Violators are subject to tickets, and vehicles may be towed away.
7. Yellow curbs designate no parking zones. Parking is also not allowed at any loading and service vehicle dock or zone, entrance to buildings, or emergency zones. Parking is not permitted on the oval entrance drive.
8. Individuals utilizing handicapped parking facilities must have a special permit in addition to the regular parking permit. There is no charge for this special handicapped permit.
9. Any vehicle in violation of parking regulations or any that are apparently abandoned may be towed away without notice and stored at the owner's expense.
10. Parking regulations are enforced from 8 a.m. to 10 p.m., Monday through Friday, including examination and holiday periods.

c. Vehicles owned by other Indiana higher education institutions, and vehicles with faculty/staff parking permits from other Indiana higher education institutions where similar parking programs are in force, will be honored. All vehicles must properly display a valid parking permit in order to park in designated parking areas of IU Kokomo.

d. Removal of a permit from a vehicle is required upon change of vehicle ownership, termination of association with the university, or expiration of the permit. The person in whose name a vehicle is registered at the IU Kokomo Office of Administration and Finance is held responsible for all violations by the vehicle bearing that person's permit.

e. The regulations are internal administrative regulations of the university and do not replace state laws or municipal ordinances. In addition to the university parking violations described below, any violation of state or municipal laws may result in arrest of the violator and/or notice to appear before state or municipal courts:

1. Parking across lines in designated parking spaces.
2. Parking against the traffic flow.

3. Parking in a posted or marked area, i.e., no parking zone, loading zone, yellow curb area, near a fire hydrant, or on a hashmarked area.
 4. Moving violations.
 5. Parking on curbs, crosswalks, or grass.
 6. Blocking a driveway.
 7. Double parking.
 8. Parking in a restricted area without a properly displayed permit.
- Fines are \$25 each. Those parked in Handicapped posted areas without proper permits will be charged \$50 for each offense. Fines are to be paid within seven days of the date of issuance of a ticket at the IU Kokomo Office of Administration and Finance between 8 a.m. and 5 p.m., Monday through Friday. Payment may be in cash or by check, payable to IU Kokomo. The traffic violation notice must accompany payment.
 - Persons have a right to appeal the issuance of a parking citation to the Parking

Appeals Committee. Appeals must be in writing. Explanations, supporting statements, or memoranda must be attached.

- Fee Schedule for Parking Permits (Parking fees are subject to change by action of the Trustees of Indiana University, the Vice Chancellor of Finance, or the campus Chancellor.)

Type of Permit Per semester/session
Credit students \$4.40/cr. hour per permit

Art Gallery

The Indiana University Kokomo Art Gallery is a stunning 2,000-square-foot exhibition space located in Alumni Hall of the Kelley Center Complex. The Gallery provides premier visual arts exhibitions for the campus, community and surrounding region and hosts 6-9 exhibitions annually from local, regional, national and international artists. Exhibitions include traveling loans from other galleries and museums, shows of works of professional artists, student shows, juried shows and area K-12 school exhibitions.

Alumni Relations and Campus Ceremonies

Ryan Bowman, Director of Alumni Relations and Campus Ceremonies

Alumni Relations cultivates relationships with alumni of Indiana University Kokomo throughout the world in an effort to foster support of the university's mission. Campus Ceremonies oversees official Indiana University Kokomo events including the campus' signature ceremony, Commencement.

The mission of the Office of Advancement is to cultivate and advance relationships to build support for Indiana University Kokomo. The office consists of four operational units (Alumni Relations and Public Affairs; Marketing; and Advancement) which serve the campus to achieve the individual unit and overall campus goals.

IU Kokomo Bulletin

Effective July 2013

Welcome to Indiana University Kokomo's Online Bulletin

A new year and a new bulletin! As you can see the look of the bulletin has changed. The new face-lift allows you to easily search the Bulletin along with adding quicker and easier access to IU Kokomo's main web pages. The catalog has also become an annual publication, allowing changes to programs and courses to occur more quickly. As the bulletin is the contract with the student, our goal is to always stay accurate and up to date with changes you need to know about. Each student needs to follow the bulletin that coincides with the year he or she entered IU Kokomo and each student should follow the major program requirements that are in effect when they were admitted to the program.

Academic Advising Centers

Academic Advising Centers

- Advising Center for School of Education, General Studies, and Exploratory, Room 280, Main Building, 765 455-9405
- Advising Center for Business, Criminal Justice, Homeland Security and Department of Public Administration and Health Management, Room 280, Main Building, 765 455-9405
- Advising Center for School of Humanities and Social Sciences, School of Sciences, and Exploratory, Room 280, Main Building, 765 455-9205
- Advising Center for School of Nursing, and Division of Allied Health Sciences, Room 120, East Building, 765 455-9384

New Student Convocation Information

New Student Convocation is a time for all students admitted for fall semester to come together and celebrate their fresh new start to IU Kokomo. Students have an opportunity to meet faculty and other students in their majors. Students also have an opportunity to hear a motivational speaker to get them ready for the first semester at the Home of the Cougars! The entire campus community is involved in new student convocation. For more information [click here](#).

New Student Orientation

Orientation is a welcoming experience and an avenue to assist students in understanding the academic community. The IU Kokomo orientation is designed to provide new students with an array of information on activities and services about our campus and promote and enhance student success. We have 4 new student orientations in May, June, July and August for summer and fall semesters; and two new student orientations for spring semester in December and January. Students are invited based on their admission dates. For more information, [click here](#).

Testing Center

The testing center primarily supports the academic functions of the campus. Placement exams for English, math, reading and foreign languages are administered in the testing center. Other tests administered include test out exams for C100, Computing Tools, DANTES subject, independent study exams, classroom makeup, and disability services exams. The testing center operating hours are 8:00 to 5:00 but additional hours are available upon request. The testing center is located in room 280 of the Main Building. 765 455-9405

Student Affairs

Director: Gerry Stroman, Assistant Vice Chancellor
Coordinator of Academic Advising: C. Catherine Barnes

The staff of the Office of Student Success provide students with course scheduling and a roadmap to courses needed for graduation. The advisors provide counseling for academic and career planning and monitor the progress of students as they progress through their programs. They also refer students to campus and community resources for assistance.

The office provides oversight and planning for new student orientation, convocation, the student success center, testing, and retention efforts of all students. The campus has advising centers with advisors and support staff in every center to assist students move toward academic excellence and student success with the goal of graduation.

Courses

Allied Health

AHLT-A 344 Strength Training and Conditioning (3 cr.) This course is intended to cover the essentials of strength training and conditioning to prepare a student who is interested in becoming a Certified Strength and Conditioning Specialist or a Certified Personal Trainer. (P: ANAT-A 215, PHYS-P 215)

AHLT-C 180 Introduction to Clinical Laboratory (1 cr.) This course is an accelerated 8 week course. An overview and introduction to laboratory safety and basic skills as used in specimen processing and laboratory information systems, urinalysis, hematology, chemistry, immunology, immunohematology, and microbiology and phlebotomy. Universal precautions and proper procedures in regard to specimen processing will be taught to the student. Laboratory quality control, and the proper use of instrumentation will be presented as used in the clinical laboratory settings. Normal human laboratory values will be discussed. Students will take field trips to local health facilities' laboratories. Attendance for these trips is mandatory for success in this course.

AHLT-C 340 Principles of Sports Officiating (1 cr.) Topics in sports officiating will include sports such as football, basketball, softball (baseball) and volleyball. Ethics of sport officiating; mastery, interpretation, and application of sports rules. Laboratory and classroom experiences.

AHLT-C 350 Theory and Technique of Coaching Basketball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Basketball at elementary, secondary, and collegiate levels.

AHLT-C 351 Theory and Technique of Coaching of Baseball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Baseball at elementary, secondary, and collegiate levels.

AHLT-C 352 Theory and Technique of Coaching of Soccer (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Soccer at elementary, secondary, and collegiate levels.

AHLT-C 353 Theory and Technique of Coaching Softball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Softball at elementary, secondary, and collegiate levels.

AHLT-C 354 Theory and Technique of Coaching of Volleyball (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Volleyball at elementary, secondary, and collegiate levels.

AHLT-C 355 Theory and Technique of Coaching Tennis (2 cr.) This course will provide students an understanding and knowledge of the theory, principals, philosophy, techniques, and strategies of Tennis at elementary, secondary, and collegiate levels.

AHLT-C 360 Philosophical Foundations of Coaching (3 cr.) A philosophical approach to coaching for various sports. Topics include, but are not limited to, different coaching styles and strategies, growth and development characteristics, legal issues and liability, pedagogical considerations, coaching relationships, and other issues and problems related to sport.

AHLT-C 424 Issues in Intercollegiate Athletics (3 cr.) Examination of current issues in intercollegiate sport in America. This course presents the historical foundation of current issues and solutions, and examines current positions and arguments.

AHLT-C 485 Practicum in Coaching (1-6 cr.) Under the advisement of a faculty member and supervision of a coach/ sports/ fitness specialist, the student will work or otherwise actively participate in a coaching setting. (Junior/Senior standing and admission to the Coaching Minor) CPR Certification must be completed and recorded prior to enrollment in AHLT-C 485. May be repeated for credit.

AHLT-E 371 Exercise Physiology (3 cr.) Evaluation of the acute responses and chronic adaptations of the body to the stresses of exercise. (P: ANAT-A 215; PHSY-P 215; AHLT-E 409)

AHLT-E 409 Foundations of Exercise Science (3 cr.) History, philosophy, and scientific foundations of exercise science and sport. Overview of careers, fields of study and requirements in physical education and allied disciplines. Issues, challenges, and current/future trends are also addressed.

AHLT-E 440 Basic Exercise Physiology (3 cr.) A survey of human physiology parameters as related to physical exercise and work, and the development of physiological fitness factors. Physiological foundations will be considered.

AHLT-F 144 Foundations of Human Movement (3 cr.) Identification, analysis, and evaluation of fundamental motor patterns, progressions in skill development and skills for effective teaching. Analysis, evaluation and development of personal movement and sports skills.

AHLT-F 165 First Aid and Emergencies (3 cr.) First Aid and Emergencies covers the necessary First Aid and knowledge about emergencies to proper care for someone who experiences injury or sudden illness.

AHLT-F 340 Physical Fitness Appraisal and Performance Assessments (3 cr.) A study of the basic scientific components of fitness and the measurement of different indices of physical fitness. (P: ANAT-A 215; PHSY-P 215)

AHLT-H 327 Intro to Public Health (3 cr.) A foundational overview of the field of Public Health to include policy and functions of governmental health organizations and disease containment.

AHLT-H 331 Environmental Health (3 cr.) This course is a survey course intended to give students a basic understanding of how environmental factors impact the health of people and the community, and of the efforts made to prevent or minimize the effects of negative impacts.

AHLT-H 364 Stress Management in Health Professions (3 cr.) This course examines the biology of stress and the psychological aspects of stress and its relationship to physiological/ psychological illnesses. Practical and effective stress management options such as coping strategies, time management, behavior modification, and relaxation techniques are explored.

AHLT-H 400 Topics in Health Sciences (3 cr.) The course topic, civic engagement and cancer, has a focus on public health education and advocacy and the politics of breast cancer. The course begins with a recognition that ethical issues can arise in the breast cancer advocacy movement. Other topics will cover chronic diseases such as diabetes, cardiovascular disease and obesity

AHLT-H 404 Consumer and Environmental Health (3 cr.) The course is divided into two, eight week sections. The first section, Environmental Health, consists of an in-depth overview of the interrelationship between environmental systems and humans and the impact of the ecosystem (air, water, noise, chemical, nuclear and industrial pollutants) on the health of individual communities. The second section, Consumer Health, consists of comprehensive examination of the factors involved in the selection and evaluation of health products and services including protection laws and services, fraudulent practices/products, consumerism, and traditional and alternative health care.

ALTH-H 411 Health Communications (3 cr.) Concepts, theories and applied approaches for health communications with emphasis on social marketing, media, advocacy and the process of media messages on

health behaviors. (P: SPCH-S 121, and AHLT-H 327, or instructor permission)

AHLT-H 415 Child and Adolescent Health (3 cr.) An overview of determinants and indicators of health of children and adolescents.

AHLT-H 419 Advocacy Internship (3 cr.) Learn about the science of breast cancer and how to be a credible health advocate and apply knowledge at the local and national levels. Student will participate in a national summit in Washington DC and serve as a civilian lobbyist on Capitol Hill.

AHLT-H 434 Diseases of Diverse Population (3 cr.) This course covers current information about infectious and chronic diseases from a community health perspective; including physiological, psychological, social, cultural, political, environmental, healthcare and economic aspects influencing disease of diverse populations of the world.

AHLT-H 499 Senior Health Sciences Capstone (3 cr.) Demonstration of competencies and skills acquired throughout the health sciences education program. To include a professional portfolio (Senior in Health Science major or consent of Professor).

AHLT-K 410 Kinesiology (3 cr.) A course designed to aid the student's understanding of the muscular control of the body and the mechanics of body and implement control. This course is designed to develop a basic understanding of sport mechanics and an appreciation of how superior sport techniques are based on the use of developmentally appropriate scientific concepts and natural law. (P: ANAT-A 215; PHSY-P 215 and Health Science Major).

AHLT-M 101 Introduction to Health Records (3 cr.) Focus on the role of the coding professionals as an essential part of the healthcare team.

AHLT-M 102 Clinical Experience (2-4 cr.) Clinical assessment in systems and processes for collecting, maintaining, and disseminating health related information; development of professional attitude for interacting with consumers and other professions in the health care industry.

AHLT-M 190 Coding I (3 cr.) The study of ICD-9-CM coding and classification principles and CPT coding principles, as used in acute ambulatory and long-term care facilities.

AHLT-M 191 Coding II (3 cr.) Advanced principles of the ICD-9-CM classification system; optimization; DRG's, sequencing, reimbursement; application of CPT coding principles in acute and ambulatory settings.

AHLT-M 192 Introduction to HIM and Reimbursement Methodologies (3 cr.) Introduction to health information management, health records, standards, regulations and content; overview of release of information principles, privacy and security; reimbursement methodologies including Medicare, third party payers, ambulatory settings and physician practices.

AHLT-M 195 Medical Terminology (3 cr.)

This course presents a study of basic medical terminology. Prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols are included in the content. A programmed learning, word building systems approach will be used to learn word parts that are used to construct or analyze new terms. This provides the opportunity to decipher unfamiliar terms and check their spelling. Emphasis is placed on spelling, definition, usage and pronunciation. Abbreviations will be introduced as related terms. *This course is now an-line offering.*

AHLT-M 301 Electronic Medical Records Management (3 cr.) This course is designed to introduce the student to the basics of electronic medical records (EMR) management. This course outlines the essential documents/data content required for maintaining legal medical records using electronic and paper media.

AHLT-N 130 Introduction to Foods (3 cr.) This course examines the relationship between nourishment, lifestyle choices, and health and disease. Topics include sources and functions of nutrients and their metabolism. Investigation of eating patterns using database technology demonstrates the relationship between food consumption and nutrient adequacy. The economic, cultural and psychological implications of food choices and eating behaviors are studied.

AHLT-N 220 Principles of Nutrition (3 cr.) Introduces the student to the investigation of the principles of nutrition as applied to humans. It is an introductory nutrition course for nutrition majors as well as non-majors and does not require a prerequisite.

AHLT-N 271 Cultural Gustatory Perceptions (3 cr.) The phrase "go for the gusto" medical terminology wise refers to the sense of taste. The sense of taste is necessary to identify food and forms a taste preference, although the appeal of both sweet- and salty-tasting substances, in large part at least, is innately determined. Designed on one hand to examine food preferences, delicacies and taboos tied to some of the world's most unusual sources of sustenance, the course is also crafted to connect the simple acts of eating, no matter how unusual the product or preparation, with the supper table's intricate links to culture, identity, politics and economics. This course seeks to explore ways people are working to preserve their food cultures. In doing so, students also receive education through concepts and basic nutrition knowledge.

AHLT-N 314 Nutritional Assessment (3 cr.) This course will include the review of devices utilized in nutritional assessment practice. Review of all indication, strengths, weaknesses, methodologies, and scope of practice will be discussed. Current evidence based guidelines will be reviewed and assessment guidelines and interpretation will be studied. The value of healthcare provider nutrition assessment evaluation will be emphasized.

AHLT-N 323 Topics in Nutritional Science (3 cr.) The topical seminars relate to current issues in the field of nutrition/ dietetics. Possible topics for this seminar are weight reduction and fad diets, food additives, diet and human performance (diet for the athlete), vegetarianism,

child nutrition, diet for senior citizens, diet and disease (*P: AHLT – N 130 or HPER -N 220*)

AHLT-N 336 Nutrition Through the Lifecycle (3 cr.) Application of nutrition principles to the human life cycle: nutrient functions, needs from infants to mature aging.

AHLT-N 362 Science of Nutrition (3 cr.) P: ANAT-A 215, PHSY-P 215, AHLT-N 220 This course is an intended to explore the relationship between nourishment, lifestyle choices, and long term health. Topics include digestion, sources, and functions of nutrients; and their digestion, absorption, and metabolism. Investigation of eating patterns using database technology demonstrates the relationship between food consumption and nutrient adequacy. The economic, cultural, and psychological implications of food choices and eating behaviors are studied.

AHLT-N 378 Global Nutrition (3 cr.) The history of food and hunger, and the global nature of our food systems focusing on the impact of our food decisions on the environment, agricultural production, world population relative to food supply, hunger, biotechnology, and safety of our food supply. No prerequisites to this course. Also discuss community nutrition and resources for underserved populations such as meals-on-wheel and WICS.

AHLT-N 402 Nutrition and Fitness (3 cr.) P: ANAT-A 215, AHLT-N 220 This course examines human growth and development through the lifecycle, from prenatal nutrition through old age. It involves the study of the interrelationship between eating habits, exercise habits, and some of the following: preventative care; cardiovascular health; flexibility and strength; physical endurance; stress; substance abuse; and eating and behavioral disorders. In addition, this course will explore current trends in processing and marketing foods and other important socioeconomic, cultural and life cycle factors that affect human growth and development.

AHLT-N 420 Nutrition and Disease (3 cr.) This course will provide an in-depth look at the relationship between nutrition and disease. Cancer, cardiovascular, digestive, diabetes and various other diseases will be discussed. The nutritional strategies of prevention and treatment for evidence based medicine and applied research. Evidence based health practice will be identified. An overall comprehensive plan of integrating positive nutritional impacts in to the interdisciplinary team will be addressed.

AHLT-N 442 Exercise and Nutrition (3 cr.) Nutritional needs of individuals participating in physical activity and sport. Topics include the role of individual nutrients in metabolism, estimation of energy needs, fluid balance, food fads, meal planning and nutritional needs of the body during various stages of activity.

AHLT-N 456 Nutrition through the Life Cycle (3 cr.) Application of nutrition principles to the human life cycle: nutrient functions, needs from infants to mature aging.

AHLT-R 100 Orientation to Radiologic Technology (2 cr.) C or P: AHLT-R 101, AHLT-R 102, and AHLT-R 181. Introduction to the field of radiology and its history. Students learned proper ethical standards, become acquainted with the duties and responsibilities in personal

care for the patient, and investigate radiation protection for the patient and personnel.

AHLT-R 101 Radiologic Procedures 1 (4 cr.) C or P: AHLT-R 100, AHLT-R 102, and AHLT-R 181. Concepts in radiography with emphasis on the radiographic procedures used to demonstrate the skeletal system.*

AHLT-R 102 Principles of Radiography I (3 cr.) C or P: AHLT-R 101, AHLT-R 181. Basic concepts of radiation, its production, and its interactions with matter. Includes the production of the radiographic image and film processing.

AHLT-R 181 Clinical Experience in Radiography I (4 cr.) C or P: AHLT-R 100. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 182 Clinical Experience in Radiography II (4 cr.) P: AHLT-R 101 and AHLT-R 181. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 200 Pathology (2 cr.) P: ANAT-A 215 and PHSL-P 215. A survey of the changes that occur in the diseased state to include general concepts of disease, causes of disease, clinical symptoms and treatment, and diseases that affect specific body systems.

AHLT-R 201 Radiographic Procedures II (4 cr.) C or P: AHLT-R 101, and AHLT-R 182. Concepts in radiography with emphasis on radiographic procedures used to demonstrate the skull and those requiring the use of contrast media.*

AHLT-R 202 Principles of Radiography II (3 cr.) C or P: AHLT-R 102, R 201, and R 181. Continuation of R102 with emphasis on the properties that affect the quality of the radiographic image.

AHLT-R 205 Radiographic Procedures III (4 cr.) C or P: AHLT-R 201 and AHLT-R 222. Concepts in radiography with emphasis on special radiographic procedures and related imaging modalities.*

AHLT-R 207 Current Topics in Radiography (2 cr.) Individual and group study focusing on the state of the art in radiography.

AHLT-R 208 Topics in Radiography (2 cr.) Selected topics in radiography. May be repeated for credit if topics differ. Prerequisites may exist for some topics.

AHLT-R 222 Principles of Radiography III (3 cr.) P: AHLT- R 202 Continuation of AHLT-R 202 with emphasis on the application of radiography principles on imaging equipment.

AHLT-R 250 Physics Applied to Radiology (3 cr.) P: MATH-M 117 Fundamentals of radiation physics, X-ray generation, and equipment quality control.

AHLT-R 260 Radiation Biology and Protection in Diagnostic Radiology (3 cr.) P: AHLT-R 250 Study of the biological effects of ionizing radiation and the standards and methods of protection. Emphasis is placed on X-ray

interactions. Also included are discussions on radiation exposure standards and radiation monitoring.

AHLT-R 281 Clinical Experience in Radiography III (5 cr.) P: AHLT-R 201 and AHLT-R 182. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 282 Clinical Experience in Radiography IV (5 cr.) P: AHLT-R 201 and AHLT-R 182. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 283 Clinical Experience in Radiography V (3 cr.) P: AHLT-R 201 and AHLT-R 182. Clinical application of radiography positioning, exposure techniques, and departmental procedures in all phases of radiologic technology, under the direct supervision of a registered technologist until mastery of clinical objectives is reached.*

AHLT-R 290 Comprehensive Experience (5 cr.) P: AHLT-R 281, AHLT-R 282, and AHLT-R 283. Clinical application of radiographic positioning, exposure techniques, and departmental procedures in all phases of radiologic technology under the direct supervision of a registered technologist. Successful completion involves mastery of all clinical aspects of the program.*

AHLT-R 404 Sectional Imaging Anatomy (3 cr.) An in-depth study of sectional anatomy pertinent to ultrasound, computed tomography, and magnetic resonance imaging. Standard transverse, parasagittal, and coronal planes are included, utilizing images from all three imaging modalities. A discussion of technique, artifacts, and pathology-related alterations of cross-sectional anatomic appearances is included.

AHLT-R 405 Advanced Diagnostic Imaging I (3 cr.) Physics and imaging concepts in cardiovascular interventional technology, computed tomography, diagnostic medical sonography, and magnetic resonance imaging.

AHLT-R 406 Advanced Diagnostic Imaging II (3 cr.) Procedural concepts in cardiovascular interventional technology, computed tomography, diagnostic medical sonography, and magnetic resonance imaging. Image analysis of normal and abnormal studies will be presented.

AHLT-R 407 Seminar: Advanced Medical Imaging Technology (3 cr.) Seminar in advanced imaging modalities. Topics will vary.

AHLT-R 408 Topics in Radiologic Sciences (3 cr.) Study of selected topics in radiologic sciences. May be repeated once for credit if topics differ.

AHLT-R 409 Senior Project in Medical Imaging Technology (3 cr.) Independent readings and research on a selected medical imaging topic. A paper in publishable form must be written as part of the project.

AHLT-R 481 Clinical Practicum: Vascular Imaging (8-12 cr.) Clinical experience in the performance of vascular and neurological imaging studies.*

AHLT-R 482 Clinical Practicum: Computed Tomography (8-12 cr.) Clinical experience in the performance of computed tomographic imaging studies.*

AHLT-R 483 Clinical Practicum: Magnetic Resonance Imaging (8-12 cr.) Clinical experience in the performance of magnetic resonance imaging studies.*

AHLT-R 484 Clinical Practicum: Ultrasound Imaging (8-12 cr.) Clinical experience in the performance of ultrasound imaging studies.*

AHLT-R 485 Clinical Practicum (6 cr.) Clinical experience in various radiological modalities –Variable topics.*

AHLT-R 490 Independent Study in Medical Imaging Technology (1-6 cr.) Prerequisite currently enrolled in MIT major or instructor consent. This course is designed to offer medical imaging technology students the ability to complete various topics of study related to this field but that are not covered in other MIT courses. Topics will vary according to the student's desired direction of study.

AHLT-S 214 Introduction to Health Sciences (3 cr.) This course is designed for students to explore a wide array of subject areas in the field of health sciences. This course will focus on the Health, Exercise, Fitness and Sports. Topics will include sport psychology, exercise psychology, motor behavior, and health and wellness.

AHLT-S 280 Principles of Athletic Training (3 cr.) this course will provide the student an introduction to athletic training which will include history, injury prevention establishing a program for injury prevention and rehabilitation. Emphasis will be on preventing injuries and recognition. (P. ANAT- A 215 or consent of instructor)

AHLT-S 455 Topics in Sports and Fitness (3 cr.) The aim of this course is to explore the social psychological research and theories that facilitate understanding of personal excellence in sport. The course introduces theoretical and empirical work on participation and acquisition of expertise in sport as well as methodological issues related to developmental research in sport. Specific discussion will focus on developmental aspects and learning conditions that allow individuals to maintain participation and reach high levels of performance in sport.

AHLT-S 491 Sports and Fitness Internship (1-6 cr.) Under the advisement of a faculty member and supervision of a coach/ sports/ fitness specialist, the student will work or otherwise actively participate in a sports and fitness setting. (Prerequisites: Declared Health Science major; junior or senior standing or permission of instructor). May be repeated for credit

AHLT-W 100 Careers in the Health Professions (3 cr.) This course explores many of the primary Allied Health Science professions found in health care.

AHLT-W 120 Lifetime Fitness and Wellness (3 cr.) Designed to provide students the knowledge and opportunity to develop and participate in a fitness

program to include the four health-related physical fitness components: cardiovascular endurance, muscular strength & endurance, flexibility, and body composition.

AHLT-W 165 First Aid and Emergencies (3 cr.) Covers the necessary First Aid and knowledge about emergencies to proper care for someone who experiences injury or sudden illness.

AHLT-W 210 Current Issues in Health Care (3 cr.) This course is designed to expose students to a variety of issues relevant to healthcare and promotions of healthy lifestyles. This course is aimed at examining current issues that affect health of individuals, USA population and global populations. Emphasis will be placed on life-style behaviors contributing to health wellness and disease prevention. This course will have different topics and issues depending on the climate of health care. Various governmental policies and global events.

AHLT-W 280 Principles of Athletic Training (3 cr.) Counts towards coaching minor* : An introduction to the principles of injury prevention through proper application of current training techniques.

AHLT-W 301 Intergraded and Complimentary Health (3 cr.) This course focuses on the pathophysiology and holistic health management of acute and chronic problems.

AHLT-W 310 Women's Health (3 cr.) Examines the relationship of women to health and health care. Five dimensions of health – physical, mental, emotional social and spiritual- provide a framework for comparison and contrast of health concerns unique to women and common to both sexes of all ages.

AHLT-W 314 Ethics for Health Professionals (3 cr.) Professionals provides a thorough grounding in ethical theories and principles as reflected in current health care issues and policies. Students are introduced to a variety of frameworks for ethical decision-making and policy analysis. Current trends in the political, economic, and legal spheres of the contemporary health care arena are analyzed through the use of case studies, articles and video presentations.

AHLT-W 340 Physical Fitness Appraisal and Performance Assessments (3 cr.) A study of the basic scientific components of fitness and the measurement of different indices of physical fitness. (P ANAT – A 215; PHSY – P 215)

Business

BUKO-C 564 Effective Negotiations (3 cr.) P: BUS-Z 302 or equivalent. The study of establishing coalitions and systems of authority and power configurations and the issue of control in the organization. The course examines the relationships of people, interests, mutual gain, and the use of objective criteria in problem solving and conflict resolution.

BUKO-C 566 Issues in International Management (1-3 cr.) P: BUS-D 301 or equivalent. Issues and topics relating to managing and global environment. The focal areas could include international marketing, financing and producing; the cultural and national context; multinational corporate operations; political, legal and economic aspects and other areas of special current interest.

BUKO-C 567 Issues in Financial Management (1-3 cr.)

P: BUS-F 301 or equivalent. Application of financial theory to current problems and topics in financial management. The approach may include case analyses and active class discussion; emphasis on decision making in an uncertain financial environment. Topics include dividend theory, capital structure, investments and agency theory.

BUKO-C 568 Issues in Marketing Management

(1-3 cr.) P: BUS-M 301 or equivalent. Major contemporary issues confronting marketing managers; development of appropriate marketing plans and strategies that may incorporate analytical and/or heuristic techniques and inter-functional aspects of marketing. Topics may include: global marketing, technology marketing, intelligence marketing, value marketing, Eco marketing, ethics and marketing, marketing's change role, and services marketing.

BUKO-C 570 Issues in Human Resource Management

(1-3 cr.) P: BUS-Z 302 or equivalent. This course examines in depth selected topics in human resource management, such as strategic human resource planning and recruitment, employee rights and responsibilities, performance appraisal and training, and occupational health and safety. ("Staffing Organizations" typical topic offered).

BUKO-C 571 International Corporate Finance (3 cr.)

P: BUS-F 301 or equivalent. This course examines how firms and investors manage their operation or investments in an international environment. Topics to be discussed include foreign exchange risk management, financing the global firm, foreign investment decisions and multinational capital budgeting.

BUKO-C 573 Issues in Legal Environment of

Business (1-3 cr.) P: BUS-L 201 or equivalent. Focus on fundamental legal principles and issues concerning the legal environment of business. Examples include business ethics, intellectual property, computer law, international sales transactions, business organizations, government regulation and the international legal environment.

BUKO-C 578 International Marketing (3 cr.)

P: BUS-M 301 or equivalent. Differences in market arrangements and in legal, cultural, and economic factors in different countries. Planning and organizing for international marketing operations, forecasting and analyses; interrelationships with other functions; and strategy of product, pricing, promotion and channels.

BUKO-C 581 Advertising and Sales Promotion (3 cr.)

P: BUS-M 301 or equivalent. Theories and practices of advertising, sales promotion and public relations as they relate to the overall marketing program. Emphasis is placed on policy planning, decision tools, and the legal and social environment.

BUKO-C 590 Independent Study In Business And

Administration (1-3 cr.) (permission of instructor and MBA Director) The objective behind independent study is to provide an opportunity to the graduate student to study, analyze, and/or evaluate in-depth some topic of interest.

BUKO-C 599 Project Demonstrating Expertise (PDE)

(3-6 cr.) (permission of instructor and MBA Director) A significant project in the student's field that demonstrates expertise in applying knowledge to the benefit of the

organization and student. Expectations, determined jointly by faculty and executive mentors, include the ability to effectively manage the responsibilities involved. To optimize learning, PDE may coincide with other projects and studies.

BUKO-D 542 Advanced Managerial Accounting (3 cr.)

P: BUS-A 201. Spring Semesters. The uses of accounting information for decision making, and for planning and controlling business operations. The behavioral aspects of performance reports, budgets, and variance analysis.

BUKO-E 530 Survey of International Economics (3 cr.)

P: ECON-E 201 and ECON-E 202 or equivalent. Basis for and effects of international trade, commercial policy and effects of trade restrictions, balance of payments and exchange rate adjustments, international monetary systems, and fixed vs. flexible exchange rates.

BUKO-E 542 Strategic Managerial Economics

(3 cr.) Prerequisites: ECON-E 201 and ECON-E 202 or equivalent. Fall Semesters. Provides the microeconomic understanding that business managers will find useful in making decisions under conditions of uncertainty. Topics include demand and cost estimations, pricing, market structure and analysis, and the organization of the firm. The course will include case analyses of situations in business using a managerial economics perspective.

BUKO-F 542 Advanced Financial Management

(3 cr.) P: BUS-F 301. Spring Semesters. Study of the aggregation and distribution of financial resources. Topics include analysis of money and capital markets, financial instruments and securities, interest rate theory, and public and private institutions of the United States financial system.

BUKO-J 512 Small Business Management and Entrepreneurship (3 cr.)

(permission of instructor) This course integrates students' knowledge in various application of management theory and development of practical solutions for real problems necessary to formulate a business plan. Attention is given to the role of the entrepreneur or small business manager.

BUKO-J 560 Organizational Strategy and Policy (3 cr.)

Spring Semesters. This course emphasizes the integration and application of diverse knowledge and understanding to organizational strategy. Students, as top executive decision makers, study actual business cases; then test and present their ideas. Successful global commerce requires innovative strategies. Use of analytical, creative, collaborative, and teamwork skills.

BUKO-L 506 Employment Problems and the Law

(3 cr.) Current legal problems in the area of employment. Topics include the hiring process, managing a diverse workforce, affirmative action, race and sex discrimination, harassment, the American with Disabilities Act, pay equity, employment at will, privacy issues such as drug testing and limits on monitoring and testing, termination issues and post-termination issues.

BUKO-L 512 Law and Ethics in Business (3 cr.)

Fall Semesters. The objective is to provide the student of management with that knowledge of the American legal system--its processes and the substantive law itself--which is necessary to the making of informed and effective business decisions. Because the law develops

and evolves in response to changing social, economic, political, and technological forces, and because business decisions often carry long-lasting as well as delayed effects, this course will emphasize the study of legal change. It is hoped that consideration of past legal developments will give prospective managers sufficient insight into the dynamics of this process to enable them to predict as soundly as possible the future legal environment in which their present decisions will bear fruit.

BUKO-M 560 Advanced Marketing Management (3 cr.) P: BUS-M 301. Fall Semesters. The formulation and implementation of strategic marketing plans for the development, pricing, promotion, and distribution of products and services in domestic and international markets. Topics include the role of marketing research and information systems, market opportunity analysis, market segmentation, and analytical tools for optimizing marketing decisions. Extensive use of selected readings, cases, and research projects.

BUKO-M 570 Advanced Operations Management (3 cr.) P: BUS-K 302. Spring Semesters. An in-depth study of topics such as operations planning, material requirements, planning, capacity planning, scheduling, master production scheduling, forecasting, inventory management, the just in time inventory system, and operations control.

BUKO-Z 542 Creating, Leading, and Maintaining High Performance Organizations (3 cr.) P: BUS-Z 302. Fall Semesters. This course explores how managers create high-performance organizations by marshaling traditional and non-traditional human resource management, organization leadership and change-management practices to align those practices with organizational strategy.

Business

BUS-A 201 Introduction to Financial Accounting (3 cr.) P: completion of 26 credit hours. Concepts and issues of financial reporting for business entities; analysis and recording of economic transactions.

BUS-A 202 Introduction to Managerial Accounting (3 cr.) P: BUS-A 201 Concepts and issues of management accounting; budgeting; cost determination and analysis.

BUS-A 311 Intermediate Accounting (3 cr.) P: BUS-A 202 Theory of asset valuation and income measurement. Principles underlying published financial statements including consideration of enterprise assets and liabilities.

BUS-A 312 Intermediate Accounting (3 cr.) P: BUS-A 311. Application of intermediate accounting theory to problems of accounting for economic activities, including long-term liabilities, corporations, earnings per share, tax allocation, pensions, and leases. Also covered are the statement of changes in financial position, and inflation accounting.

BUS-A 325 Cost Accounting (3 cr.) P: BUS-A 202. Conceptual and technical aspects of management and cost accounting. Product costing; cost control over projects and products; profit planning.

BUS-A 328 Introduction to Taxation (3 cr.) P: BUS-A 202 or consent of instructor. Internal Revenue Code and regulations. Emphasis on the philosophy of taxation,

including concepts, exclusions from income, deductions, and credits.

BUS-A 339 Advanced Income Tax (3 cr.) P: BUS-A 328. Internal Revenue Code and regulations; advanced aspects of income, deductions, exclusions, and credits, especially as applied to tax problems of partnerships and corporations.

BUS-A 380 Professional Practice in Accounting (3-6 cr.) P: junior or senior year standing in major area and consent of instructor. Provides work experience in a cooperating firm or agency. Comprehensive written report required. Grades of S or F are assigned by faculty.

BUS-A 422 Advanced Financial Accounting (3 cr.) P: BUS-A 312 Generally accepted accounting principles, as applied to partnerships, business combinations, branches, foreign operations, and nonprofit organizations. Particular emphasis on consolidated financial statements.

BUS-A 424 Auditing (3 cr.) P: BUS-A 312. Public accounting organization and operation; review of internal control, including EDP system; verification of balance sheet and operating accounts; statistical applications in auditing.

BUS-A 490 Independent Study in Accounting (1-3 cr.) P: consent of instructor.

BUS-D 301 The International Business Environment (3 cr.) P: ECON-E 201, ECON-E 202, 56 cr. hours. The national and international environmental aspects of international business. Examines the cultural, political, economic, systemic, legal-regulatory, trade, and financial environments; and how they affect the international business activities of firms in the United States and, selectively, in other countries.

BUS-D 302 International Business: Operations of International Enterprises (3 cr.) P: BUS-D 301 The administration of international aspects of business organizations through an examination of their policy formulation, forms of foreign operations, methods of organization and control, and functional adjustments.

BUS-D 490 Independent Study in International Business (1-3 cr.) P: Consent of instructor. Supervised individual study and research in student's special field of interest. The student will propose the investigation desired and, in conjunction with the instructor, develop the scope of work to be completed. Written report required.

BUS-F 301 Financial Management (3 cr.) P: Admission to BUS, 56 cr., BUS-A 202, ECON-E 201, ECON-E 202, ECON-E 270. Conceptual framework of the firm's investment, financing, and dividend decision; includes working capital management, capital budgeting, and capital structure strategies.

BUS-F 302 Financial Decision Making (3 cr.) P: BUS-F 301. Application of financial theory and techniques of analysis in the search of optimal solutions to financial management problems.

BUS-F 420 Equity and Fixed Income Investment (3 cr.) P: BUS-F 301. Conceptual and analytical frameworks for formulating investment policies, analyzing securities, and constructing portfolio strategies for individuals and institutions.

BUS-F 480 Professional Practice in Finance (3-6 cr.)

P: junior or senior standing in major area and consent of instructor. Work experience is offered in cooperating firms and agencies. Comprehensive written report required. Grades of S or F are assigned by faculty.

BUS-F 490 Independent Study in Finance (1-3 cr.)

P: Consent of instructor. Supervised individual study and research in a student's special field of interest. The student will propose the investigation desired and, in conjunction with the instructor, develop the scope of work to be completed. Written report required.

BUS-F 494 International Finance (3 cr.) P: BUS-F 301 or equivalent. Covers the international dimension of both investments and corporate finance. Develop strategies for investing internationally, including lodging exchange rate risk, adjusting to client preferences and home currencies, evaluating performance, estimating a corporation's exposure to real exchange rate risk, strategies to hedge risk or to dynamically adjust to shocks, and reasons for a corporation to hedge. Also covers international capital budgeting, multinational transfer pricing, and international cash management.

BUS-J 401 Administrative Policy (3 cr.) P: BUS-F 301, BUS-M 301, BUS-P 301, BUS-Z 302. Administration of business organizations — policy formulation, organization, methods, and executive control.

BUS-J 404 Business and Society (3 cr.) P: Senior standing. Intellectual, philosophical, and scientific foundations of business. The business dynamic; its role in the evolution of enterprise and society from the small and simple to the large and complex; structure, discipline, and goals of a business society.

BUS-K 201 The Computer in Business (3 cr.)

Introduction to digital computers and illustrations of their use in business. Stored program concept, types of languages, instruction in a special language, utilization of Business Computing Center. Impact of computers upon business management and organization. Note: Student may receive credit for only one of BUS-K 201, CSCI-C 201, and CSCI-C 301.

BUS-K 302 Introduction to Management Science (3 cr.)

P: BUS-K 201 or equivalent. An introductory management science course with a forecasting component of approximately 25 percent of the course. Topics covered include multiple regression, smoothing techniques, linear programming, integer programming, statistical decision theory, simulation and network analysis; coverage may also include inventory theory, Markov process, and goal programming. heavy emphasis on the application of these topics to business decision making using computer.

BUS-L 201 Legal Environment of Business (3 cr.)

P: sophomore standing. Emphasis on the nature of law by examining a few areas of general interest: duty to avoid harming others (torts), duty to keep promises (contracts), and government regulation of business (trade regulation). Credit not given for both BUS-L 201 and BUS-L 302.

BUS-L 303 Commercial Law II (3 cr.) P: BUS-L 201. Covers the law of ownership, forms of business organization, commercial paper, and secured transactions. For accounting majors and others desiring a rather broad and detailed knowledge of commercial law.

BUS-L 406 Employment Problems and the Law

(3 cr.) P: BUS-L 201. Current legal problems in the area of employment. Topics include race and sex discrimination, harassment, the American with Disabilities Act, employment at will, privacy issues such as drug testing, and limits on monitoring and testing.

BUS-M 301 Introduction to Marketing Management

(3 cr.) P: Admission to BUS, 56 cr., ECON-E 201, ECON-E 202, BUS-A 201, BUS-A 202. Overview of marketing for all undergraduates. Marketing planning and decision making, examined from firm's and consumer's points of view; marketing concept and its company-wide implications; integration of marketing with other functions. Market structure and behavior and their relationship to marketing strategy. Marketing systems viewed in terms of both public and private policy in a pluralistic society.

BUS-M 401 International Marketing (3 cr.)

P: BUS-M 301. Covers world markets, their respective consumers, and their political/economic marketing environments. Examines the marketing issues required to meet the product, promotion, price, and distribution demands of a world market. Although the course has a global orientation, issues specific to exporting are discussed.

BUS-M 405 Buyer Behavior (3 cr.)

P: BUS-M 301. Description and explanation of consumer behavior in retail markets. Topics include demographic, socioeconomic, psychographic, attitudinal, and group influences on consumer decision making. Applications to promotion, product design, distribution, pricing, and segmentation strategies.

BUS-M 415 Advertising and Promotion Management

(3 cr.) P: BUS-M 301. Basic advertising and sales-promotion concepts. The design, management, and integration of a firm's promotional strategy. Public policy aspects and the role of advertising in marketing communications in different cultures.

BUS-M 450 Marketing Strategy (3 cr.)

P: BUS-M 301, BUS-M 303, BUS-M 405, and senior standing. Ideally taken in student's last semester. Elective capstone course for marketing majors. Draws on and integrates materials previously taken. Focuses on decision problems in marketing strategy and policy design, and application of analytical tools for marketing and decision making. Note: course is restricted to students in marketing concentration.

BUS-M 480 Professional Practice in Marketing

(3-6 cr.) P: BUS-M 301 and permission of instructor. Work experience is provided in cooperating firms and agencies. Comprehensive written report required. Grades of S or F are assigned by the faculty.

BUS-M 490 Special Studies in Marketing (3-6 cr.)

P: BUS-M 301 and permission of instructor. Offers supervised individual study and research in the student's field of interest. The student will propose the investigation desired and, in conjunction with the instructor, will develop the scope of the work to be completed. Comprehensive written report required.

BUS-P 301 Operations Management (3 cr.)

P: Admission to BUS, 56 cr., BUS-K 201, ECON-E 201, ECON-E 202, ECON-E 270. Analysis of planning and control decisions made by the operations manager of any enterprise. Topics include forecasting, production and

capacity planning, project planning, operations scheduling, inventory control, work measurement, and productivity improvement.

BUS-P 302 Management Information Systems (3 cr.)

P: 56 cr., BUS-K 201 or consent of instructor. Overview of management information systems (MIS) within a business context, MIS theory and practice as they relate to management and organization theories; current trends in MIS; managerial usage of information systems; computer hardware, software, and telecommunications; functional information systems; systems development process; the role of microcomputers. Experiential learning with widely used software packages.

BUS-W 100 Business Administration: Introduction (3 cr.)

Business administration from the standpoint of a manager of a business firm operating in the contemporary economic, political, and social environment. No credit if taken in the junior or senior year.

BUS-W 430 Organizations and Organizational Change (3 cr.)

P: BUS-Z 302. Analysis and development of organizational theories, with emphasis on environmental dependencies, socio-technical systems, structural design, and control of the performance of complex systems. Issues in organizational change such as barriers to change, appropriateness of intervention strategies and techniques, organizational analysis, and evaluation of formal change programs.

BUS-W 480 Professional Practice in Management (3-6 cr.)

P: Junior or senior standing with a concentration in management and consent of instructor. Application filed through Professional Practice Programs office. Provides work experience in cooperating firm or agency. Comprehensive written report required. Grades of S or F are assigned by faculty.

BUS-W 490 Independent Study in Business Administration (1-6 cr.)

P: Consent of instructor.

BUS-X 293 Honors Seminar in Business (1-3 cr.) For student in the Business Honors Program. May be taken twice for credit.

BUS-X 393 Honors Writing Experience (1 cr.) For students in the School of Business Honors Program.

BUS-X 487 Seminar in Business Administration (3-6 cr.) Instruction of an interdisciplinary nature for student groups involved in university-related, nonprofit ventures. Interested groups must be sponsored by a School of Business faculty member, as approved by the Curriculum and Policy Committee (CPC). May be repeated up to a maximum of 6 credits except in the marketing concentration. Students must have a cumulative G.P.A. of 2.0 to enroll in the course.

BUS-X 493 Honors Seminar in Business (1-3 cr.)

For students in the Business Honors Program. May be repeated twice for credit.

BUS-X 496 Supervised Independent Honors Research in Business (1-5 cr.) P: Senior-year standing. For students in the Business Honors Program.

BUS-Z 302 Managing and Behavior in Organizations (3 cr.) P: SOC-S 100, PSY-P 103, and junior standing. Integration of behavior and organizational theories. Application of concepts and theories toward improving

individual, group, and organizational performance. Builds from a behavioral foundation toward an understanding of managerial processes. Credit given for only one of BUS-Z 300, BUS-Z 301, or BUS-Z 302.

BUS-Z 440 Personnel-Human Resource Management (3 cr.)

P: BUS-Z 302. Nature of human resource development and utilization in American society and organizations. Government programs and policies, labor force statistics, organizational personnel departments, personnel planning, forecasting, selection, training and development. Integration of government and organizational human resource programs.

BUS-Z 480 Professional Practice in Human Resource Management (3-6 cr.)

P: Junior or senior standing with a concentration in management and consent of instructor. Application filed through Professional Practice Programs office. Provides work experience in cooperating firm or agency. Comprehensive written report required. Grades of S or F assigned by faculty.

BUS-Z 490 Independent Study in Personnel Management and Organizational Behavior (1-3 cr.)

P: BUS-Z 302. For senior-year students with consent of instructor. Research, analysis, and discussion of current topics. Written report required.

Criminal Justice and Homeland Security

CJHS-J 460 Police in the Community (3 cr.) In-depth examination of crime as an urban policy problem; focusing on the role of police and victims in defining crime as a policy problem, and their role in seeking to reduce the incidence of crime.

CJHS-J 101 American Criminal Justice System (3 cr.)

Introduction to elements of the criminal justice system: the police, the courts, and corrections, and how they function in contemporary American society.

CJHS-J 201 Theoretical Foundations of Criminal Justice Policies (3 cr.)

This course examines the impact of sociological, biological, and economic theories of crime and the practice of criminal justice. Focus is upon the natural and importance of theory, context of theoretical developments, methods for the critical analysis of theoretical developments, and policy implications of the varying perspectives considered.

CJHS-J 202 Criminal Justice Data, Methods and Resources (3 cr.)

Course examines basic concepts of criminal justice. Students become familiar with research techniques necessary for systematic analysis of the criminal justice system, offender behavior, crime trends, and program effectiveness. Students will learn to critically evaluate existing research. Students will become familiar with existing sources of criminal justice data and will learn to assess the quality of that data.

CJHS-J 278 Principles and Practices in Homeland Security (3 cr.)

An examination of the basic operations, functions, and issues involved in securing our homeland from domestic and international threats including possible threats and proactive and reactive measures against such threats.

CJHS-J 301 Substantive Criminal Law (3 cr.)

The development, limitations, and applications of substantive criminal law utilizing the case-study method.

CJHS-J 302 Procedural Criminal Law (3 cr.) Criminal Law application and procedure from the initiation of police activity through the correctional process utilizing the case-study method.

CJHS-J 303 Evidence (3 cr.) The rules of law governing proof at trial of disputed issues of fact; burden of proof; presumptions and judicial notice; examination, impeachment, competency, and privileges of witnesses hearsay rule and exceptions. All related as nearly possible to criminal as opposed to civil process.

CJHS-J 304 Correctional Law (3 cr.) Legal problems from conviction to release: pre-sentence investigations, sentencing, probation and parole, incarceration, loss and restoration of civil rights.

CJHS-J 305 The Juvenile Justice System (3 cr.) Current developments in the legal, administrative, and operational aspects of the juvenile justice system

CJHS-J 306 The Criminal Courts (3 cr.) An analysis of the criminal justice process from prosecution through appeal. The organization and operation of felony and misdemeanor courts are examined. Topics include: prosecutorial decision-making, plea bargaining, judicial selection, the conduct of trials, sentencing, and appeal.

CJHS-J 310 Introduction to Administrative Processes (3 cr.) Theory of investigation; crime scene procedures; interviews, interrogations, surveillance and sources of information; collection and preservation of physical evidence; investigative techniques in specific crimes.

CJHS-J 321 American Policing (3 cr.) A broadly based study of the operations and interrelationships of the American police system, including discussion of the limitations of the police function, inter-jurisdictional matters, and intra-agency processes.

CJHS-J 322 Introduction to Criminalistics (3 cr.) The broad range of physical evidence developed through the investigative process, and methods of identifying and establishing validity and relevance through forensic laboratory techniques.

CJHS-J 323 Court Procedure and Evidence (3 cr.) Criminal law application and procedure from the initiation of police activity through the correctional process and the rules of law governing proof at trial of disputed issues of fact; burden of proof; presumptions and judicial notice; examination, impeachment, competency, and privileges of witnesses; hearsay rule and exceptions. The focus will be on the criminal rather than the civil process. This course also includes a discussion on the 4th amendment and admissibility of evidence.

CJHS-J 331 Corrections (3 cr.) A survey of contemporary correctional systems, including analysis of federal, state, and local corrections; adult and juvenile facilities and programs; probation and parole. This course is not open to students who have not completed SOC-S 420 Topics in Deviance: Corrections.

CJHS-J 355 Global Criminal Justice Perspectives (3 cr.) This course will survey various criminal justice systems from a variety of cultures and regions of the world. Particular attention will be given to the contrast of eastern and western systems, as well as systems that do not fit neatly into established categories.

CJHS-J 360 Seminar in Criminal Justice (3 cr.) Selected Contemporary topics in criminal justice. May be repeated for credit.

CJHS-J 380 Internship in Criminal Justice (1-6 cr.) P: Permission of instructor and junior or senior status. May be repeated for credit. Course grade is S/F (Satisfactory/Fail). Students are placed with a criminal justice agency for assigned tasks. Students also complete an academic component.

CJHS-J 387 Foundations of Homeland Security (3 cr.) An examination of the theory and research driving homeland security and emergency management measures and an analytical look at the practices and principles of homeland security from an empirical perspective.

CJHS-J 439 Crime and Public Policy (3 cr.) This course is an introduction to the major efforts designed to control or reduce crime. A review of existing knowledge is followed by an investigation of current crime control theories, proposals, and programs.

CJHS-J 440 Corrections in the Community (3 cr.) An introduction to correctional alternatives to incarceration that focus on the reintegration of the offender while remaining in the community. Because of their extensive use, considerable attention is given to probation and parole. Other topics include diversion, community residential programs, restitution, halfway houses, and home detention.

CJHS-J 470 Seminar in Criminal Justice (3 cr.) Senior standing. Emphasizes current developments in legal, administrative, and operational aspects of the criminal justice system.

CJHS-J 480 Research in Criminal Justice (1-6 cr.) Junior standing and consent of instructor. Individual research under guidance of faculty member.

PAHM-V 272 Terrorism and Public Policy (3 cr.) Survey of the incidence of terrorism in democratic societies, with particular emphasis on public policy responses designed to combat terrorism in cities. Overviews of ongoing conflicts with terrorist organizations in various countries are interspersed with analysis of significant terrorist events and public policies and responses such events create.

PAHM-V 275 Introduction to Emergency Management (3 cr.) An examination of the background and nature of the profession, the central theoretical debates concerning natural and human-induced disasters, mitigating and reacting to these catastrophic events and the roles and responsibilities of emergency managers. Current practical problems and future directions will be explored.

PAHM-V 387 Public Administration and Emergency Management (3 cr.) An examination of the American federal system and how it affects policy making and emergency management. Topics include: government programs, participation of agencies and actors from all three levels of the government, the nonprofit sector, and the private sector. Administrative processes involved in managing major hazards and disasters will be presented.

Communication Arts

COM-C 227 Intercollegiate Forensics (1 cr.) Experiential learning through participation in intercollegiate forensics

including research and analysis, organization of evidence and argument, diverse use of language, various modes of oral presentation, and the oral interpretation of literature. May be repeated for a maximum of 4 credit hours.

Economics

ECON-E 175 Economics for Educators (3 cr.)

Designed for students preparing to be teachers. Covers basic concepts and analytical techniques in both microeconomics and macroeconomics. Emphasis is placed on active learning exercises, discussion and analysis of current events, group problem solving and other instructional techniques useful in primary and secondary education. Does not count toward a major or minor in economics.

ECON-E 200 Fundamentals of Economics (3 cr.) Study of the basic institutions of market economy and the role they play in defining and pursuing economic goals in the U.S. economy. Emphasis is placed upon the effects of existing economic institutions; current economic policy alternatives as they affect both the individual and the society. No credit toward a B.S. or A.B.S. in business; no credit for both ECON-E 200 and ECON-E 201.

ECON-E 201 Introduction to Microeconomics (3 cr.)

P: MATH-M 117. Scarcity, opportunity cost, competitive market pricing, and interdependence as an analytical core. Individual sections apply this core to a variety of current economic policy problems such as poverty, pollution, excise taxes, rent controls, and farm subsidies.

ECON-E 202 Introduction to Macroeconomics (3 cr.)

P: MATH-M 117 Measuring and explaining total economic performance, money, and monetary and fiscal policy as an analytical core. Individual sections apply this core to a variety of current economic policy problems such as inflation, unemployment, economic growth, and underdeveloped countries.

ECON-E 270 Introduction to Statistical Theory in Economics and Business (3 cr.)

P: MATH-M 118 Review of basic probability concepts. Sampling, inference, and testing statistical hypotheses. Applications of regression and correlation theory, analysis of variance, and elementary decision theory. Credit not given for both ECON-E 270 and BUS-K 310.

ECON-E 300 Survey of Economics (3 cr.) Provides the macroeconomic and microeconomic understanding that managers will use throughout their careers. Microeconomic topics include supply and demand, pricing, production and costs, and applications of microeconomic theory. Macroeconomic topics include international economics, monetary and fiscal policies, aggregate demand and aggregate supply, and models of the macro economy. This course does NOT count towards an undergraduate degree in business.

ECON-E 303 Survey of International Economics (3 cr.)

P: ECON-E 201 and ECON-E 202 or equivalent, or E 300 as an equivalent. Basis for and effects of international trade, commercial policy and effects of trade restrictions, balance of payments and an exchange rate adjustment, international monetary systems, and fixed vs. flexible exchange rates.

ECON-H 203 Introduction to Microeconomics Honors (3 cr.)

For students in the Honors Program.

Education

EDUC-E 325 Social Studies in the Elementary Schools (3 cr.) P: EDUC-E 339, and EDUC-M 299. Emphasizes the development of objectives, teaching strategies, and evaluation procedures that facilitate the social learning of young children. Special attention given to concept learning, inquiry, decision making and value analysis.**

EDUC-E 328 Science in the Elementary Schools (3 cr.) P: EDUC-E 339, EDUC-E 340, and EDUC-M 299. Objectives, philosophy, selection, and organization of science materials and methods. Concept development and use of the multidimensional materials in science experiments. Analysis of assessment techniques and bibliographical materials. Field experience arranged in public schools. **

EDUC-E 335 Introduction to Early Childhood

Education (3 cr.) P: Admission to the TEP. This course has a dual focus. The first involves an overview of the field including an historic perspective, program models, goals of early childhood education, and professional organizations. The second emphasizes the study of observation skills, the characteristics of young children, teacher-child interaction, and classroom management skills.**

EDUC-E 339 Methods of Teaching Language Arts in the Elementary Schools I (3 cr.)

P: Admission to the TEP. Describes the methods, materials, and techniques employed in the elementary language arts program.**

EDUC-E 340 Methods of Teaching Reading in the Elementary Schools I (3 cr.)

P: EDUC-E 339. Focuses on materials, methods, and techniques employed in a developmental reading program. Field experience arranged in public schools.**

EDUC-E 341 Methods of Teaching Reading in the Elementary Schools II (3 cr.)

P: EDUC-E 339. Focuses on classroom procedures and materials used to provide diagnostic and corrective instruction for learning needs in reading.**

EDUC-E 343 Mathematics in the Elementary Schools (3 cr.)

P: EDUC-M 299, MATH-T 109, and MATH-T 110. Emphasizes the developmental nature of the arithmetic process and its place as an effective tool in the experiences of the elementary school child. Field experience arranged in public schools.**

EDUC-E 349 Teaching and Learning for All Young

Children I: Focus on Birth to Age 3 (3 cr.) skills in real-life settings with typically and atypically developing young children, birth to age three. They will learn how to become keen observers of children, and will acquire proficiency in designing, implementing, and assessing environments that are developmentally appropriate and literacy-rich.**

EDUC-E 352 Teaching and Learning in Preschool/ Kindergarten II (6 cr.)

P: EDUC-E 349. This course engages students in the development, implementation, and assessment of curricula for all children ages 3-5 years. Content areas of mathematics, social studies, science, literacy, and art will be emphasized.**

EDUC-E 353 Foundations of Early Care and

Education: III (6 cr.) P: EDUC-E 351. Students will examine how historical, social, cultural, and political factors influence the growth, development, and learning

of the K-3 child. They will examine how these factors influence the K-3 child's educational experiences and how programs should be designed to address the needs of all children.**

EDUC-E 354 Teaching and Learning for All Young Children: III Focus on K/Primary (6 cr.) P: EDUC-E 352. This course engages students in the development, implementation, and assessment of curricula for all children in K- Grade 3 classrooms. Content areas of mathematics, social studies, science, literacy, and art will be emphasized.**

EDUC-E 490 Research in Elementary Education (1-3 cr.) P: consent of instructor. Individual research.**

EDUC-E 524 Workshop in Early Childhood Education (arr. cr.) Individual and group study of problems in nursery school and kindergarten education. Emphasis on broadening understanding of curriculum problems and their application to teaching in nursery schools and kindergarten.

EDUC-E 525 Advanced Curriculum Study in Early Childhood Education (3 cr.) Curriculum planning, guiding and evaluating learning experiences, and interpreting values of early childhood education. New approaches to teaching.

EDUC-E 535 Elementary School Curriculum (3 cr.) Social, economic, and educational forces influencing changes in the curriculum of the elementary school; observation and study of the curriculum and methods of evaluating it.

EDUC-E 536 Supervision of Elementary School Instruction (3 cr.) Modern concepts of supervision and the evolutionary processes through which they have emerged. Supervisory work of the principal, general supervisor, and supervisor or consultant. Study of group processes in a democratic school system.

EDUC-E 543 Advanced Study in the Teaching of Mathematics in the Elementary Schools (3 cr.) Designed to help the experienced teacher improve the teaching of mathematics. Opportunities will be provided for individual and group study of content, methodology, and instructional materials for modern mathematics programs.

EDUC-E 545 Advanced Study in the Teaching of Reading in the Elementary Schools (3 cr.) For experienced teachers. Review of developmental reading program in the elementary school, use of reading in various curriculum areas, appraisal of reading abilities, and techniques and materials for individualized instruction.

EDUC-E 547 Advanced Study in the Teaching of Social Studies in the Elementary Schools (3 cr.) For experienced teachers. Goals and functions of social studies and underlying principles that influence the teaching of social studies; content, resources, and methodology that facilitate the implementation of these.

EDUC-E 548 Advanced Study in the Teaching of Science in the Elementary Schools (3 cr.) Helps experienced teachers gain proficiency in the teaching of science in the elementary school. Characteristics of good elementary school science programs.

EDUC-E 549 Advanced Study in the Teaching of Language Arts in the Elementary Schools (3 cr.)

Helps experienced teachers gain further insight into the development of the English language and how best to teach language arts. Emphasizes basic communication skills and significant trends and materials.

EDUC-E 553 The Teacher and Elementary School Organization (3 cr.) The structure and organization of the elementary school and the role of the teacher in its effective operation. For classroom teachers.

EDUC-F 205 Study of Education and the Practice of Teaching (3 cr.) A review of the literature on various approaches to education as a discipline and a field of inquiry, and an exploration of several approaches to teacher education. Integrates scholarship and inquiry with the development of educational possibilities. Students will begin the process of constructing a set of personal and social commitments that will guide their future teaching activities.

EDUC-H 340 Education and the American Culture (3 cr.) P: EDUC-F 205, EDUC-P 251 or EDUC-P 255 and admission to TEP. The present educational system - its social impact and future implications - viewed in historical, philosophical, and sociological perspectives. Special attention is given to ethnic, minority, and cultural aspects.

EDUC-H 520 Education and Social Issues (3 cr.) Identification and analysis of major problems set for education by the pluralistic culture of American society.

EDUC-J 500 Instruction in the Context of Curriculum (3 cr.) Extends concepts introduced in undergraduate teacher preparation. Topics include conceptions and definitions of curriculum and instruction; and their impact on social contexts, learning theories, and schooling practices. Elementary and secondary contexts are studied.

EDUC-K 205 Introduction to Exceptional Children (3 cr.) P: EDUC-F 205. An overview of the characteristics and the identification of exceptional children. The course presents the issues in serving exceptional children and the educational, recreational, and social aspects of their lives.**

EDUC-K 305 Teaching Students with Special Needs in the Elementary Classroom (3 cr.) P: EDUC-K 205. Knowledge, attitudes, and skills basic to the education of exceptional learners (students who are handicapped as well as gifted and talented in the regular elementary classroom. Topics include historical and international perspectives, the law and public policy, profiling the exceptional learner, a responsive curriculum, teaching and management strategies, teachers as persons and professionals. **

EDUC-K 306 Teaching Students with Special Needs in the Secondary Classroom (3 cr.) P: EDUC-K 205. This course includes an overview of the skills and knowledge necessary for effective instruction of students with disabilities in inclusive secondary programs. **

EDUC-K 343 Emotional and Behavioral Disorders I (3 cr.) P: EDUC-K 205. A basic survey of the field of emotional disturbance and social maladjustment. Definitions, classifications, characteristics, and diagnostic and treatment procedures are discussed from a psycho-educational point of view.

EDUC-K 344 Emotional and Behavioral Disorders II (3 cr.) P: EDUC-K 343. A survey of educational curricula, procedures, and materials for socially and emotionally disturbed children. Development of teaching skills is emphasized.

EDUC-K 352 Learning Disability Methods (3 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A. Educational programs for optimum growth and development of educable mentally retarded and learning disabled children. Study and observation of curriculum content, organization of special schools and classes, and teaching methods and materials.

EDUC-K 361 Assistive Technology (2 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A, EDUC-K 362. Prepares future teachers with the knowledge required to integrate assistive technology into curricula for students with mild to moderate disabilities.

EDUC-K 362 Team Approaches to Educating Students with Disabilities (3 cr.) P: EDUC-K 343; EDUC-K 370, EDUC-K 495A. Students will learn techniques related to effective collaboration and interactive teaming in educational settings. Focus will be the development of skills necessary to serve as consultant or co-teacher in school environments.

EDUC-K 370 Language and Learning Disorder (3 cr.) P: EDUC-K 205. Survey of historical development and current status of definitions, classifications, assessment, and treatment procedures for learning-disabled students.

EDUC-K 371 Assessment and Individualized Instruction in Reading and Math (3 cr.) P: EDUC-K 362. Emphasizes assessment and remediation procedures that address reading and math problems of mildly handicapped students.

EDUC-K 441 Transition Across the Lifespan (3 cr.) P: EDUC-K 362. Gives prospective teachers the information and skills necessary to effectively teach students with disabilities at the high school level. An overview of characteristics of secondary students with mild disabilities, school programs, transition from school life to adult life, curriculum issues, and strategies of effective instruction for students with disabilities will be covered.

EDUC-K 488 Student Teaching in Special Education (6 cr.) Provides students an opportunity to teach exceptional children under the supervision of a licensed special education teacher and a university special education supervisor.**

EDUC-K 490 Topical Seminar: Assessment 1 (3 cr.) Assessment and Instruction This seminar assists students in gaining knowledge of formal and informal assessment techniques; how to link assessment to curriculum and instruction; and how to effectively choose, construct, deliver, and evaluate curriculum and instruction to students with diverse learning needs

EDUC-K 495A Special Education Field Experience (1 cr.) P: EDUC-K 343, EDUC-K 370. Provides the student with a field-based, supervised experience with individuals with severe handicaps. It allows the opportunity to interact within school/ work/community settings on a daily basis (three hours/day, five days/week). Specific assignments, which are mutually agreed upon between

student, cooperating teacher, and practicum supervisor, are also required.**

EDUC-K 495B Special Education Field Experience (2 cr.) P: EDUC-K 495A. Provides the student with a field-based, supervised experience with individuals with severe handicaps. It allows the opportunity to interact within school/ work/community settings on a daily basis (three hours/day, five days/week). Specific assignments, which are mutually agreed upon between student, cooperating teacher, and practicum supervisor, are also required.**

EDUC-K 505 Introduction to Special Education for Graduate Students (3 cr.) P: graduate standing or consent of instructor. Basic special education principles for graduate students with no previous course work in special education.

EDUC-M 199 Passing scores on PRAXIS I (0 cr.) Beginning January 1, 2013, for admission to the Teacher Education Program (TEP) students will take the Pearson Core Academic Skills Assessment.

EDUC-M 299 Admission to Teacher Education Program (0 cr.)

EDUC-M 300 Teaching in a Pluralistic Society (3 cr.) P: EDUC-F 205, EDUC-P 251 or EDUC-P 255 and admission to TEP. These courses are designed to introduce the students to teaching as a profession. Students focus upon the self as teacher, learning styles, cultural pluralism, and classroom teaching strategies that respond positively to the personal and ethnic diversity of the learner.**

EDUC-M 323 The Teaching of Music in the Elementary Schools (2 cr.) P: EDUC-M 299. Fundamental procedures of teaching elementary school music, stressing music material suitable for the first six grades.

EDUC-M 333 Art Experience for the Elementary Teacher (2 cr.) P: FINA-A 101 or FINA-A 102 and admission to TEP. The selection, organization, guidance, and evaluation of art activities, both individual and group. Laboratory experiences with materials and methods of presenting projects.

EDUC-M 416 Inquiry into Secondary English Methods: High School (3 cr.) Study of current trends, issues, theory, and research in teaching and learning English/ Language Arts. Explores language, composition, literature, and media arts; developing multicultural curricula; and engaging students in meaningful inquiry facilitating students' responsibility for themselves and their world.**

EDUC-M 423 Student Teaching: Early Childhood (6 cr.) Full-time supervised student teaching for a minimum of eight weeks in a preschool identified by the university. The experience is directed by a qualified supervising teacher and has university provided supervision.**

EDUC-M 424 Student Teaching: Kindergarten-Primary (6 cr.) Full-time supervised student teaching for a minimum of eight weeks in a kindergarten or primary grade in a school accredited by the state of Indiana. The experience is directed by a qualified supervising teacher and has university-provided supervision.**

EDUC-M 425 Student Teaching in the Elementary Schools (9-15 cr.) P: Consent of the faculty. Classroom teaching and other activities associated with the work of

the full-time elementary classroom teacher. Minimum of 14 weeks.**

EDUC-M 430 Foundations of Art Education and Methods II (3 cr.) Advanced study of curriculum developments in art education. Special attention is given to art teaching in secondary schools.**

EDUC-M 437 Teaching Science 5-12 (3 cr.) Focuses on curriculum decisions teachers make every day. Specifically, students in this course will examine current learning theories and apply these theories to instructional practices at the middle grades and high school.

EDUC-M 440 Teaching Problems and Issues (3 cr.) Seminar taught as a co-requisite with early childhood (EDUC-M 423), kindergarten/primary (EDUC-M 424), elementary (EDUC-M 425), and/or middle/junior high school (EDUC-M 470) student teaching experiences. This seminar will address several issues related to the process of becoming a teacher.

EDUC-M 441 Methods of Teaching Senior High/Junior High/Middle School Social Studies (3 cr.) Develops concepts and theories from social science, humanities, and education into practices of successful social studies instruction. Integrates social issues and reflective thinking skills into the social studies curriculum. Emphasis on curriculum development skills and building a repertoire of teaching strategies appropriate for middle/secondary school learners.**

EDUC-M 442 Teaching Secondary School Social Studies (3 cr.) I Includes consideration of philosophical and psychological perspectives, development and practice of skills and techniques, selection of content and materials, and evaluation of student and teacher performance. Micro-teaching laboratory included.**

EDUC-M 446 Methods of Teaching Senior High/Junior High/Middle School Science (3 cr.) P: 35 credit hours of science. Designed for students who plan to teach biology, chemistry, earth science, general science, or physics in junior high/middle school or secondary school.**

EDUC-M 452 Methods of Teaching Senior High/Junior High/Middle School English (3 cr.) Methods, techniques, content, and materials applicable to the teaching of English in the secondary school. Field experiences with secondary students and teachers provided to assess ongoing programs in public schools and to study materials appropriate for these programs.**

EDUC-M 457 Methods of Teaching Senior High/Junior High/Middle School Mathematics (3 cr.) Study of methodology, heuristics of problem solving, curriculum design, instructional computing, professional affiliations, and teaching of daily lessons in the domain of secondary and/or junior high/middle school mathematics.**

EDUC-M 459 Teaching Mathematics 5-12 (3 cr.) Focuses on the curriculum and instruction issues that teachers make every day in the classroom. Specifically, students in the course will examine current theories and apply these theories to instructional practices.**

EDUC-M 464 Methods of Teaching Reading (3 cr.) Focuses on middle, junior high, and senior high school. Curriculum, methods, and materials for teaching students to read more effectively.**

EDUC-M 480 Student Teaching: Secondary (1-14 cr.) Full-time supervised student teaching in the student's major certification area and in the grades included within a high school, or at another level if the major area permits; within the state of Indiana unless the integral program includes student teaching in an approved and accredited out-of-state site. Each student assumes, under the direction of the selected supervising teacher and with university-provided supervision, responsibility for teaching in the cooperating school. Grade: S or F.**

EDUC-M 550 Practicum: (variable title) (1-8 cr.) Teaching or experience in an accredited school, normally in Indiana. Credit will be commensurate with time spent in the instructional setting. Grade: S or F. **

EDUC-P 251 Educational Psychology for Elementary Teachers (3 cr.) P: EDUC-F 205. The application of psychological concepts to school learning and teaching using the perspective of development from childhood through preadolescence. Special attention is devoted to the needs of the handicapped.**

EDUC-P 255 Educational Psychology for Middle and Secondary School Teachers (3 cr.) P: EDUC-F 205. The application of psychological concepts to school learning and teaching in the perspective of development from the beginning of preadolescence adolescence. Special attention is devoted to the needs of the handicapped.**

EDUC-P 290 Professional Practices: Education (2 cr.) P: Admission to the TEP. Provides students with knowledge of basic concepts in physical education and potential outcomes of preschool and elementary school motor development programs. Further, the implementation and evaluation of such programs and appropriate movement experiences for young children will be provided. Emphasis will be placed on curriculum planning and design that is developmentally appropriate.**

EDUC-P 348 Foundations of Child Growth and Development: Focus on Birth to Age 3 (3 cr.) P: Admission to the TEP. Students will examine historical as well as contemporary theories of child growth and development for typically and atypically developing children throughout the early childhood period. All facets of development will be examined including physical, emotional, social, language, and cognitive development. Particular focus will be on prenatal to age three development.**

EDUC-P 351 Foundations of Child Development: Focus on 3 to 8 year old children (3 cr.) P: P 348. Students will examine child growth and development for typically and atypically developing children, including physical, emotional, social, language, and cognitive development. Particular focus will be on 3- to 8-year old children.**

EDUC-P 501 Statistical Method Applied to Education (3 cr.) An introduction to statistical methods needed for basic data analysis in education. Includes an introduction to distribution of variables, measures of central tendency, variability, hypothesis testing, and correlation techniques. Emphasis on theoretical and computational skills.

EDUC-P 503 Introduction to Research (3 cr.) Methods and procedures in educational research.

EDUC-P 507 Testing in the Classroom (3 cr.)

An introduction to the central concepts of tests and measurements, and formal and informal assessment strategies for assessing students and instructional programs.

EDUC-P 510 Psychology in Teaching (3 cr.) Basic study of psychological concepts and phenomena in teaching. An analysis of representative problems and the teacher's assumptions about human behavior and its development. This course is intended for those working toward the master's degree and who currently are or are planning to be classroom teachers.

EDUC-P 514 Life Span Development: Birth to Death (3 cr.) A survey course of human development from infancy through old age, emphasizing the life span perspective of development. Classical stage theorists, current popular conceptions, major research findings, and educational implications for all life stages from birth to death.

EDUC-P 540 Learning and Cognition in Education (3 cr.) Survey of theoretical positions in the areas of learning and cognition, with emphasis on their relevance for the design of classroom learning situations.

EDUC-P 570 Behavior Problems in the Public Schools (3 cr.) For teachers, administrators, psychologists, case workers, and others concerned with the adjustment of children in school. Recognition of behavioral symptoms indicative of the need for special attention; role and methods used in dealing with behavioral problem children.

EDUC-Q 200 Introduction to Scientific Inquiry (3 cr.) Course provides the elementary education major with background in the science process skills needed to complete required science courses.**

EDUC-Q 528 Demonstration and Field Strategies in Science (1-6 cr.) Identification, selection, design, implementation, and evaluation of demonstrations and field trips. Strategies in science for elementary, middle school, junior high, and secondary school teachers.

EDUC-Q 540 Teaching Environmental Education (3 cr.) For elementary and secondary teachers. Basic principles of environmental/conservation education stressed in grades K-12. Methods and techniques for integrating these principles into existing curricula. Designed for the development and evaluation of new interdisciplinary teaching materials.

EDUC-S 503 Secondary School Education (3 cr.) Designed to provide an overview for the teacher of the basic theories underlying the secondary school curriculum, as well as an examination of the subject areas, problems, trends, challenges for the future and significant research in the field.

EDUC-S 505 The Junior High and Middle School (3 cr.) Role of the junior high school and middle school in American education. Total program: philosophy, functions, curriculum, guidance, activities, personnel, and administration.

EDUC-S 507 The Teacher and Secondary School Organization (3 cr.) For teachers and administrators. Functions of school personnel, organization of professional and lay people for a more effective school

program, professional leadership, lay participation, and effective personnel organization.

EDUC-S 514 Advanced Study in the Teaching of Reading in the Junior High and Secondary School (3 cr.) The developmental reading program in junior high and secondary schools; use of reading in various curriculum areas, appraisal of reading abilities, and techniques and materials for helping reluctant and retarded readers.

EDUC-S 530 Junior High and Middle School Curriculum (3 cr.) The educational program designed for the junior high and middle school. Functions, organization, planning, and evaluation of the junior high and middle school curriculum in specific areas.

EDUC-W 200 Computers in Education: An Introduction (3 cr.) Required of all students pursuing teacher certification. Introduction to instructional computing, educational computing literature, and BASIC programming. Review of and applied experience with educational software packages and commonly used microcomputer hardware. For education majors only.

EDUC-W 505 Multimedia in the Classroom (3 cr.) Intended to equip teachers and administrators with confidence when using the myriad of technology tools available for educators. Skills covered include: scanning, digital camera photography, video capture, creating slide shows, developing web pages, and audio capture.

EDUC-X 460 Books for Reading Instruction (3 cr.) P: EDUC-E 349. Examines use of trade books and non-text materials for teaching Language Arts and Reading K-8. Special sessions may focus on specific student populations.

EDUC-X 490 Research in Reading (1-6 cr.) P: Consent of instructor. Individual research.

EDUC-X 504 Diagnosis of Reading Difficulties in the Classroom (3 cr.) P: EDUC-E 545 or EDUC-S 514 or consent of instructor. Treats the theory, correlates, instruments, and techniques of diagnosing reading difficulties in the classroom.

EDUC-X 530 Topical Workshop in Reading (3 cr.) Individual and group study of special topics in the field of reading. Means for improving the teaching of reading. One credit hour is offered for each week of full-time work.

EDUC-Y 520 Strategies for Educational Inquiry (3 cr.) Methods and procedures in educational research. The primary purpose of this course is to introduce students to the basics of educational research, principally as it occurs in and is applied to practical, classroom settings. Course design will include lecture and discussions, independent study, individual conferences/ tutorials with the instructor, and student-led presentations related to proposed research projects.

EDUC-Y 595 Educational Inquiry: Authentic Application (3 cr.) P: Successful completion of EDUC-Y 520. Application of methods and procedures in educational research. The primary purpose of this course is to apply educational inquiry strategies and skills learned in Y 520 Strategies for Educational Inquiry. Course design will include lecture and discussions, independent study, individual conferences/tutorials with the instructor, and

student-led presentations related to completed research projects.

Health, Physical Education and Recreation

HPER-E 100 Experiences in Physical Activity (1-3 cr.)

Instruction in a specified physical education activity that is not regularly offered by the Department of Kinesiology. Emphasis on development of skill and knowledge pertinent to the activity. Repeatable for credit with different topic.

HPER-E 102 Group Exercise (1 cr.) A total fitness class that emphasizes cardiorespiratory conditioning, flexibility, muscular endurance. A variety of activities will be featured utilizing such equipment as steps, weights, resistance bands and music. S/F grades given. Repeatable once for credit.

HPER-E 111 Basketball (1 cr.) Instruction in fundamental skills of shooting, passing, ball handling, footwork, basic strategies of offensive and defensive play, and interpretation of rules.

HPER-E 112 Bicycling (1 cr.) Beginning instruction in the principles of fitness through a cycling program. Fitness testing and cardiovascular training. Proper riding technique, safety, and other features of competitive and recreational cycling. Lecture only.

HPER-E 115 Body Dynamics (1 cr.) Uses aerobic exercises to improve cardiovascular and respiratory conditioning.

HPER-E 117 Bowling (1 cr.) Beginning instruction in the fundamentals of approach, release, arm swing, methods of scoring, rules, and etiquette on the lanes. Explanation of lane construction, lane condition, and automatic machines. Fee charged.

HPER-E 119 Personal Fitness (2 cr.) Instruction in basic principles of conditioning and fitness. Emphasis on muscular strength, muscular endurance, flexibility, and cardiorespiratory endurance. For students without prior knowledge of conditioning methods.

HPER-E 121 Conditioning and Weight Training (1 cr.) Instruction in basic principles of conditioning and weight training. Emphasis on muscular strength, muscular endurance, flexibility, and cardiorespiratory endurance.

HPER-E 130 Army Physical Fitness (2 cr.) The path to total fitness requires a combination of physical conditioning, mental conditioning, and common-sense dietary considerations. Army Physical Fitness is for those willing to accept a disciplined regimen proven to lead to total fitness.

HPER-E 133 Fitness and Jogging (1 cr.) Beginning instruction in the basic principles of fitness as they apply to a jogging program. Emphasis on cardiorespiratory endurance and flexibility. Basic concepts underlying Dr. Kenneth Cooper's aerobic program. For students without prior experience in jogging programs, aerobics levels I through III. Only S/F grades given.

HPER-E 148 T'ai Chi Ch'uan (1 cr.) Introduction to the slow movements of t'ai chi ch'uan. Course provides instruction in William C. C. Chen's 60 movement form, physics of body leverage, history, philosophy, and cultural

context. One of the most popular forms of exercise in China.

HPER-E 150 Tae Kwon Do (1 cr.) Beginning instruction in techniques of blocking, kicking, striking, punching, limited free fighting, and self-defense.

HPER-E 159 Racquetball (1 cr.) Instruction in basic skills for beginning players. Includes both four-wall singles and doubles games.

HPER-E 185 Volleyball (1 cr.) Instruction in fundamental skills of power volleyball, including the overhand serve, bump, set, dig, and spike. Team offensive and defensive strategies.

HPER-E 187 Weight Training (1 cr.) Instruction in basic principles and techniques of conditioning through use of free weights. Emphasis on personalized conditioning programs. Only S/F grades given.

HPER-E 190 Yoga (1 cr.) Instruction in basic principles and techniques of yoga. Emphasis on personalized training.

HPER-E 230 Advanced Army Physical Fitness (2 cr.) P: HPER-E 130 or instructor consent. Continuing along the path to total fitness begun in E 130, this course emphasizes the leadership aspect of Army Physical Fitness. Students will lead PT sessions, participate in and lead formation runs, and continue the disciplines regimen begun in E 130.

HPER-E 275 Aquatic Conditioning (1 cr.) Acquire a moderate to high level of aerobic capacity while using water, equipment and other useful techniques skills and ideas. Achieve students' desired goal through fitness utilizing the water.

HPER-H 170 Health and Surviving the College Years (3 cr.) This course covers the health and wellness issues related to a student's transition from high school to college. It focuses on education and prevention issues and includes the following topics: stress, sexuality, safety, substance use and abuse, fitness, nutrition, budgeting, and emotional health.

HPER-H 206 Recreational Sport Programming (3 cr.) Overview of programmatic elements and techniques in recreational sports. Topics include informal, intramural, club, extramural, and instructional sports programming; values of recreational sports; and terminology and career opportunities in various recreational sport settings.

HPER-H 263 Personal Health (3 cr.) Information and current concepts on the area of health and wellness are addressed from an applied health care specialist aspect. The following areas will be covered: mental health, stress, drug use and abuse, sexuality, relationships, nutrition, fitness, major health problems, infectious diseases, health care costs, environmental health, and death and dying.

HPER-H 315 Consumer Health (3 cr.) The course is an overview or survey course of health care products and services. The medical health care system is large and complex. Therefore, the consumer needs to exercise proper discretion in selecting and properly utilizing the myriad of medical goods and services based upon personal values and decision-making skills.

HPER-N 220 Nutrition for Health (3 cr.)

Introduction to nutrients, their uses, and food sources. Application of nutrition principles to personal eating habits for general health; overview of current issues in nutrition.

HPER-P 211 Introduction to Health Science (3 cr.)

This course is designed for students to explore a wide array of subject areas in the field of health sciences. This course will focus on the Health, Exercise, Fitness and Sports. Topics will include sport psychology, exercise psychology, motor behavior, and health and wellness. (Cross-reference AHLT – S 214).

HPER-P 212 Introduction to Exercise Science (3 cr.)

This course is a survey of the discipline of kinesiology, including knowledge derived from performing physical activity, studying about physical activity, and professional practice centered in physical activity. It includes an analysis of the importance of physical activity in daily life, the relationship between physical activity and the discipline of kinesiology, and the general effects of physical activity experiences. The course surveys the general knowledge base of the discipline as reflected in the major sub-disciplines and reviews selected concepts in each, showing how they contribute to our understanding of the nature and importance of physical activity. In addition, the course introduces students to the general characteristics of the professions, to specific types of physical activity professions typically pursued by those graduating from programs of sport and exercise sciences, and assists them in making some early career decisions.

HPER-P 263 Personal Health (3 cr.)

Basic information and current concepts on the area of health and wellness are addressed from an applied health care specialist aspect. The following areas will be covered: mental health, stress, drug use and abuse, sexuality, relationships, nutrition, fitness, major health problems, infectious diseases, health care costs, environmental health, and death and dying

HPER-P 280 Basic Care and Prevention of Athletic Injuries (3 cr.)

This course is designed for future athletic trainers, coaches, sports and fitness majors, and anyone else who plans on working with active individuals who may encounter injury while performing physical activities. This course introduces the concepts and practical skills of athletic training, including the prevention, recognition, evaluation, and management of athletic injuries.

HPER-P 328 Issues in Intercollegiate Athletics (3 cr.)

Examination of current issues in intercollegiate sport in America. This course presents the historical foundation of current issues and solutions, and examines current positions and arguments.

HPER-P 391 Biomechanics (3 cr.)

A course designed to aid the student's understanding of the muscular control of the body and the mechanics of body and implement control. This course is designed to develop a basic understanding of sport mechanics and an appreciation of how superior sport techniques are based on the use of developmentally appropriate scientific

concepts and natural law. (P: ANAT – A 215, HPER – P 141)

HPER-P 397 Kinesiology (3 cr.)

A course designed to aid the student's understanding of the muscular control of the body and the mechanics of body and implement control. This course is designed to develop a basic understanding of sport mechanics and an appreciation of how superior sport techniques are based on the use of developmentally appropriate scientific concepts and natural law. (P ANAT- A 215; PHSY- P 215 and Health Science Major).

HPER-P 402 Ethics in Sport (3 cr.)

This course will help students develop their abilities to reason morally through an examination within competitive sports of ethical theories, moral values, intimidation, gamesmanship, and violence, eligibility, elimination, winning, commercialization, racial equity, performance-enhancing drugs, and technology. Students will develop a personal philosophy of sport and learn how to apply a principled decision-making process to issues in sport.

HPER-P 405 Introduction to Sports Psychology (3 cr.)

The psychology of sport is the study of the interaction between psychological variables and performance in sport and physical activity. Because the multifaceted field continues to evolve, it assumes many of its theories and concepts from general, social, personality, and developmental psychology as well as exercise physiology, sport sociology, and motor learning. Thus, it is an interdisciplinary field of study in sport and exercise science rather than a sub-discipline of general psychology. This introductory course is ideal for students who wish to work with athletes in some capacity, pursue a career in physical education teaching and/or coaching, or plan on working with individuals in the health and fitness industry

HPER-P 409 Basic Physiology of Exercise (3 cr.)

P: ANAT-A 215 and PHSL-P 215 or equivalent. A survey of human physiology parameters as related to physical exercise and work and the development of physiological fitness factors. Physiological foundations will be considered.

HPER-P 452 Motor Learning (3 cr.)

PHSL-P 215, or consent of instructor. Open to juniors and seniors only. An examination of factors that affect the acquisition and performance of motor skills. Topics include perception, psychomotor learning, practice methods, and theories of neuromuscular integration

HPER-P 455 Special Topics in Sports and Fitness (3 cr.)

The aim of this course is to explore the social psychological research and theories that facilitate understanding of personal excellence in sport. The course introduces theoretical and empirical work on participation and acquisition of expertise in sport as well as methodological issues related to developmental research in sport. Specific discussion will focus on developmental aspects and learning conditions that allow individuals to maintain participation and reach high levels of performance in sport.

HPER-P 490 Motor Development and Learning (3 cr.)

Motor learning and development principles throughout the life span. Emphasis on observing and analyzing characteristic movement behavior, motor learning, and

motor performance, with application to developmentally appropriate movement experiences.

HPER-R 206 Recreational Sports Programming (3 cr.)

Overview of programmatic elements and techniques in recreational sports. Topics include informal, intramural, club, extramural, and instructional sports programming; values of recreational sports; and terminology and career opportunities in various recreational sport settings.

HSS

HSS-E 103 Topics in Arts and Humanities (3 cr.)

Specific topics will vary by section and over time, but all versions of E 103 will meet the objectives of the HSS TOPICS curriculum. The curriculum is open to freshmen who will learn how scholars from the arts and humanities distribution area frame questions, propose answers, and assess the validity of competing approaches. Writing and communication skills are integrated in the course.

HSS-E 104 Topics in Social and Historical Studies (3 cr.)

Specific topics will vary by section and over time, but all versions of E 104 will meet the objectives of the HSS TOPICS curriculum. The curriculum is open to freshmen and sophomores, who will learn how scholars from the social and historical studies distribution area frame questions, propose answers, and assess the validity of competing approaches. Writing and communication skills are integrated in the course.

HSS-E 105 Topics in Natural and Mathematical Sciences (3 cr.)

Specific topics will vary by section and over time, but all versions of E 105 will meet the objectives of the HSS TOPICS curriculum. The curriculum is open to freshmen and sophomores, who will learn how scholars from the natural and mathematical sciences distribution area frame questions, propose answers, and assess the validity of competing approaches. Writing and communication skills are integrated in the course.

HSS-Q 294 Basic Career Development (2 cr.)

P: freshman or sophomore standing. Development and integration of career planning and academic area. Students follow an individually designed career plan leading to understanding of personal values, interests, and abilities in relation to vocational options and the academic process. This course does not count toward the 112-credit-hour requirement inside the School of Humanities and Social Sciences.

HSS-S 200 Introduction to Leadership Studies (3 cr.)

This course provides an overview of leadership theories and practices. It is offered in the hybrid format, meeting once per week on campus and once per week online.

HSS-S 300 Leadership Practicum - Leadership in Action (1-2 cr.)

This course provides hands-on experiences with leadership activities and events that provide a leadership opportunity. Students will take this class for three credits--either as three one-credit modules or as a one credit/two credit sequence.

HSS-S 400 Leadership Capstone (3 cr.)

This course is an applied, experiential learning course where students can practice the knowledge gained in other courses. It serves as a capstone for the minor and students will complete a semester-long project

Liberal Studies

LBST-D 501 Humanities Seminar (3 cr.)

An interdisciplinary graduate seminar in the humanities. Topics vary from semester to semester. May be repeated twice for credit

LBST-D 502 Social Science Seminar (3 cr.)

An interdisciplinary graduate seminar in the social sciences. Topics vary from semester to semester. May be repeated twice for credit.

LBST-D 503 Science Seminar (3 cr.)

An interdisciplinary graduate seminar in the sciences. Topics vary from semester to semester. May be repeated twice for credit.

LBST-D 510 Introduction to Graduate Liberal Studies (3 cr.)

A comprehensive introduction to graduate liberal studies. Explores the cultures of the humanities, social sciences, and sciences. Investigates interdisciplinary methodologies. Offers strategies for graduate-level reading, research, and writing for other publics.

LBST-D 511 Humanities Elective (3 cr.)

P: LBST-D 510. M.A.L.S. graduate elective course in the humanities. Topics vary. May be repeated for credit.

LBST-D 512 Social Science Elective (3 cr.)

P: LBST-D 510. M.A.L.S. graduate elective course in the social sciences. Topics vary. May be repeated for credit.

LBST-D 513 Science Elective (3 cr.)

P: LBST-D 510. M.A.L.S. graduate elective course in the sciences. Topics vary. May be repeated for credit.

LBST-D 514 Graduate Liberal Overseas Study (3-6 cr.)

P: LBST-D 510. This course will enable M.A.L.S. students to participate in overseas studies. In some cases there may be a language prerequisite.

LBST-D 525 Topics in International Studies (1-6 cr.)

P: LBST-D 510. This course is a graduate seminar with varied topics in international studies. The content will vary, but it will always focus on international issues and topics in different fields of studies. At times, this course will have an interdisciplinary and/or comparative focus.

LBST-D 550 Teaching Assistantship (3-6 cr.)

P: LBST-D 510 and prior consent of director and instructor. This course will enable students to have a practical experience in teaching by assisting a faculty member in planning, teaching and grading a course in the student's area of concentration. This course is a requirement for the academic teaching track.

LBST-D 551 Research Assistantship (3-6 cr.)

P: LBST-D 510 and prior consent of director and instructor. This course will enable students to assist resident faculty in their research.

LBST-D 591 Graduate Workshop on Teaching (3 cr.)

P: LBST-D 510 and prior consent of director and instructor. This course is a requirement for the academic teaching track. This workshop will focus on best practices in teaching including syllabus construction, teaching philosophy, assessment of student work, faculty and student conduct and an introduction to the scholarship of teaching and learning.

LBST-D 594 Liberal Studies Directed Readings (1-3 cr.)

P: LBST-D 510 and prior consent of instructor. Independent study involving systematic schedule of

readings sponsored and supervised by a faculty member. May be repeated up to a maximum of 6 credit hours.

LBST-D 596 Liberal Studies Independent Research (1-3 cr.) P: LBST-D 510 and prior consent of instructor. An independent research project formulated and conducted in consultation with a faculty member and culminating in a final analytical paper. May be repeated up to a maximum of 6 credit hours.

LBST-D 600 Public Intellectual Practicum (3 cr.) P: Completion of all other program course work. A capstone seminar for the M.A.L.S. public intellectual option. Students will study the history of public intellectuals, explore the variety of ways in which public intellectuals carry out their work, and create a portfolio of their own public intellectual work.

LBST-D 603 Thesis Proposal (3 cr.) Independent initial research/exploration of thesis topic including a formal proposal containing a statement of purpose, a background or rationale, an extensive literature review, a methodology, and a working thesis title. This course is a prerequisite for students registering for D604.

LBST-D 604 Thesis (3 cr.) Independent thesis work conducted in consultation with Thesis Committee.

Nursing

NURS-B 216 Nursing Pharmacology (2 cr.) This course focuses on the physiological actions of drugs and their therapeutic use; the nurse's role in administering drugs, and the need for continuous study of drug therapy. (P: ANAT-A 215, PHSL-P 215)

NURS-B 231 Communication for Health Care Professionals: RN to BSN (3 cr.) Note: this course must be taken in the first semester for RN to BSN Students. This course addresses professional communication, inter/intra professional collaboration, and professional engagement to foster growth and development in nursing. This course also focuses on issues related to professional practice, theory, development and use, professional organization participation, service, continuing education, autonomy and accountability.

NURS-B 232 Introduction to the Discipline of Nursing: Theory, Practice, Research (2 cr.) This course focuses on the core theoretical concepts of nursing practice: health, wellness, illness, holism, caring environment, self-care, uniqueness of persons, interpersonal relationships, and decision-making. This course helps the student understand nursing's unique contribution to meeting societal needs through integrating theory, research and practice.

NURS-B 233 Health and Wellness (3 cr.) This course focuses on the use of concepts from nursing, nutrition, pharmacology, and biopsychosocial sciences to critically examine the determiners of health, wellness, and illness across the lifespan. Environmental, sociocultural, and economic factors that influence health care practices are emphasized. Theories of health, wellness and illness are related to health promotion, disease prevention and illness prevention nursing interventions.

NURS-B 244 Comprehensive Health Assessment (2 cr.) This course focuses on helping students acquire skills to conduct a comprehensive health assessment, including the physical, psychological, social, functional,

and environmental aspects of health. The process of data collection, interpretation, documentation, and dissemination of assessment data will be addressed. (C: NURS-B 245)

NURS-B 245 Comprehensive Health Assessment: Practicum (2 cr.) Students will have the opportunity to use interview, observation, percussion, palpation, inspection, and auscultation in assessing clients across the life span in simulated and actual environments. (C: NURS-B 244)

NURS-B 248 Science and Technology of Nursing (3 cr.) This course focuses on the fundamentals of nursing from a theoretical research base. It provides an opportunity for basic care nursing skills development. Students will be challenged to use critical thinking and problem solving in developing the ability to apply an integrated nursing therapeutics approach for clients experiencing health alterations across the life span. (C: NURS-B 249)

NURS-B 249 Science and Technology of Nursing: Practicum (2 cr.) Students will have the opportunity to demonstrate fundamental nursing skills in the application of nursing care for clients across the life span. (C: NURS-B 248)

NURS-B 252 Pathophysiology (3 cr.) This course focuses on the development of student understanding of alterations in normal human physiological functioning. Students will explore alterations of health and related basic diagnostic tests related to the management of selected alterations. (P: ANAT-A 215, PHSL-P 215)

NURS-B 304 Professional Nursing Seminar 1: Health Policy (3 cr.) Social, ethical, cultural, economic, and political issues that affect the delivery of health and nursing services globally are critically analyzed. Government and entrepreneurial interests are examined. Emphasis is placed on the impact of policy decisions on professional nursing practice and health services. This course is restricted to RN to BSN students only.

NURS-B 403 Gerontological Nursing (3 cr.) This course promotes a holistic approach to persons in the later years of life. Death and dying, legal and ethical issues, family care giving, and future challenges will be discussed in the context of best practices as outlined by the John A Hartford Foundation: Institute for Geriatric Nursing. Note: some sections of this course are restricted to RN to BSN students.

NURS-B 404 Professional Nursing Seminar 2: Informatics (3 cr.) This course addresses nursing informatics: state of the science and issues for research, development, and practice. It clarifies concepts of nursing, technology, and information management; and comprises theory, practice, and the social and ethical issues in nursing and health care informatics. This course is restricted to RN to BSN students only.

NURS-H 351 Alterations in Neuro-Psychological Health (3 cr.) This course focuses on individuals and small groups experiencing acute and chronic neuropsychological disorders. Content includes the effect of the brain-body disturbances on health functioning. Other content areas are growth and development, stress, mental status, nurse-client relationships,

psychopharmacology, and nursing approaches for clients experiencing DSM-IV neuropsychological disorders. (P: All sophomore-level courses. C: NURS-H 352)

NURS-H 352 Alterations in Neuro-Psychological Health: Practicum (2 cr.) Students will provide nursing care to individuals and small groups who are experiencing acute and chronic neuropsychological disturbances related to psychiatric disorders. Student experiences will be with individuals and small groups in supervised settings such as acute care, community-based, transitional, and/or the home. (C: NURS-H 351)

NURS-H 353 Alterations in Health I (3 cr.) This course focuses on the pathophysiology and holistic nursing care management of clients experiencing acute and chronic problems. Students will use critical thinking and problem solving skills to plan interventions appropriate to health care needs. (P: All sophomore-level courses. C: NURS-H354)

NURS-H 354 Alterations in Health I: Practicum (2 cr.) Students will apply the science and technology of nursing to perform all independent, dependent, and interdependent care functions. Student will engage clients in a variety of settings to address alteration in health functioning, identify health care needs, and determine the effectiveness of interventions given expected care outcomes. (C: NURS-H 353)

NURS-H 355 Data Analysis in Clinical Practice and Health Care Research (3 cr.) This course introduces nursing and other health sciences students to the basic concepts and techniques of data analysis needed in professional health-care practice. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. Differences in types of qualitative data and methods by which these types of data can be interpreted are also explored. Emphasis is placed on the application of fundamental concepts to real-world situations in client care. Note: some sections of this course are restricted to RN to BSN students.

NURS-H 361 Alterations in Health II (3 cr.) This course builds on Alterations in Health I and continues to focus on pathophysiology and holistic nursing care management of clients experiencing acute and chronic health problems and their associated needs. (P: NURS-H 351, NURS-H 352, NURS-H 353, NURS-H 354, all sophomore-level courses. C: NURS-H 362)

NURS-H 362 Alterations in Health II: Practicum (2 cr.) Students will continue to apply the science and technology of nursing to perform all independent, dependent, and interdependent care functions. Students will engage clients in a variety of settings to address alterations in health functioning. (C: NURS-H 361, P: NURS-H 351, NURS-H 352, NURS-H 353, NURS-H 354 and all sophomore courses)

NURS-H 363 The Developing Family and Child (4 cr.) This course focuses on the needs of individuals and their families who are facing the phenomena of growth and development during the childbearing and child raising phases of family development. Factors dealing with preserving, promoting, and restoring health status of family members will be emphasized. (C: NURS-H 364)

NURS-H 364 The Developing Family and Child: Practicum (2 cr.) Students will have the opportunity to work with childbearing and child raising families, including those experiencing alterations in health. (C: NURS-H 363)

NURS-H 365 Nursing Research (2 cr.) This course is on development of students' skills in using the research process to define clinical research problems and to determine the usefulness of research in clinical decisions related to practice. The critique of nursing and nursing related research studies will be emphasized in identifying applicability to nursing practice. (C: NURS-H 361, NURS-H 362, NURS-H 363, NURS-H 364)

NURS-I 630 Introduction to Nursing Informatics (3 cr.) This course provides an introduction to the field of nursing informatics, the current state of the science, and major issues for research, development, and practice. It includes clarification of the concepts of nursing, technology, and information management. In addition, the course also explores the theoretical underpinnings of nursing informatics and the practice of nursing informatics.

NURS-J 360/K 490 Operating Room Nursing/Peri-operative Nursing (lecture -- 2 cr., clinical -- 2 cr.) This course is designed to enable the student to participate in the professional and technical components of peri-operative nursing practice with supervision. Learning opportunities include care of the patient undergoing the stress of surgery in the pre-, intra-, and post-operative phases. The student participates as a member of the surgical team in the circulating and scrub nurse's role. The student will also participate in the care of the patient pre-operatively by doing admission assessments.

NURS-J 595 Nursing Administrative Elective (3 cr.) This course is an intensive study and discussion of a specific topic of current interest in the theory and/or practice of Nursing Administration.

NURS-K 301 The Art and Science of Complementary Health (3 cr.) This course will serve as an introduction to a variety of complementary therapies, including healing touch, guided imagery, hypnosis, acupuncture, aromatherapy, reflexology, and massage. The class will critically examine each therapy through assigned readings, literature reviews, presentations, guest lecturers, and optional experiential activities. Note: some sections of this course are restricted to RN to BSN students.

NURS-K 304 Nursing Specialty Elective (3 cr.) This course allows the RN to BSN student to apply nationally recognized specialty nursing knowledge and skills to the BSN degree, through a portfolio or independent study approach. National specialty standards will be used to devise learning objectives, implementation and evaluation plan. This course is restricted to RN to BSN students only.

NURS-K 305 New Innovation in Health and Health Care (3 cr.) This course explores emergent trends in health and health care, including technological advances in health care, developing approaches to care based on new knowledge and/ or research findings, and trends in health care delivery in a themed, survey or independent study format. Note: some sections of this course are restricted to RN to BSN students.

NURS-K 415 Special Needs Children in the Community (2-4 cr.) This course focuses on children with special health needs in the community setting. Concepts of growth and development will be explored in relationship to the identified health needs. Principles of health education, health maintenance, and health promotion will be integrated in the experiential component of the course.

NURS-K 432 Korean Culture and Healthcare (1 cr.) This course provides a forum for students to explore Korean culture in terms of history, culture, language, business, foods, traditions, perspectives, and healthcare. Students interact with their peers from a Korean University.

NURS-K 433 Korean Culture and Healthcare: Practicum (2 cr.) This 2-week cultural immersion experience is based at a school of nursing in South Korea. Students will participate in classroom, laboratory, clinical, cultural and leisure time activities with Korean students. Prerequisites: Must be a student in good standing in the IU School of Nursing, successfully complete the Korean Culture & Healthcare course, and be selected to participate.

NURS-K 434 Global Health Issues in Nursing (3 cr.) This course is designed to provide learning opportunities to acquire knowledge about global health issues, the diverse conditions that contribute to health and global health disparities, and an understanding of nursing's role in addressing these health problems. Issues addressed include infectious and chronic illness, reproductive and women's health issues, politics and public health policy, economics and health care, and health in conflict environments. Conceptual models and health equity concepts, evidence-based practice, and health care delivery systems are analyzed to explore strategies for addressing global health issues. Learning opportunities emphasize the knowledge and skills needed to use technology to investigate global health issues, advocate for health justice from a human rights perspective, and critically appraise global health issues.

NURS-K 440 Critical Care Elective (2 cr.) Students will hear presentations from physicians and advanced practice nurses and participate in discussions related to critical care concepts and hemodynamic monitoring. (P: Sophomore and junior level courses)

NURS-K 441 Critical Care Clinical (2 cr.) Students will participate in a preceptored critical care clinical experiences and simulations to promote critical thinking.

NURS-K 490 Clinical Nursing Elective (1-6 cr.) Planned and supervised clinical experience in an area of concentration. Course is S/F graded. (P: Consent of instructor)

NURS-K 492 Nursing Elective (1-6 cr.) Opportunity for the student to pursue study in an area of interest. (P: Consent of instructor)

NURS-K 499 Genetics and Genomics (3 cr.) This course introduces a basic knowledge of genetics in health care, including genetic variation and inheritance; ethical, legal, and social issues in genetic health care; genetic therapeutics; nursing roles; genetic basis of selected alterations to health across the life span; and cultural

considerations in genetic health care are all considered. Note: some sections of this course are restricted to RN to BSN students.

NURS-L 530 Legal Environment of Health Care (3 cr.) This course further develops the ability to analyze, synthesize, and utilize knowledge related to the complex and interdependent legal environment of health care. This is accomplished through a variety of experiences including formal lecture, seminars, clinical experiences, and independent study.

NURS-L 574 Administrative Management (3 cr.) This course encompasses concepts, theories, perspectives, and research relevant to administration of nursing services. Emphasis on management principles and organizational processes related to patient care delivery systems. Examines contemporary literature in nursing and business.

NURS-L 579 Nursing Administration Practicum (3 cr.) This course is a practicum experience designed for synthesis of theory and practice. Agency observation and activities are independently planned. Includes Web-supported communication. P: Must complete all core and administration track courses except R590 Nursing Study which can be taken concurrently to after completion of the practicum.

NURS-L 671 Financial Management (3 cr.) This course is designed to inform nurses of the concepts and principles related to budget preparation and fiscal management of a nursing unit or division. Constructs to be examined include the following: methods of obtaining personnel input, estimating costs, and cost justification.

NURS-N 502 Nursing Theory (3 cr.) This course focuses on evaluating the factors and issues influencing the development of theory in nursing. Theoretical terminology and criteria for the evaluation of theories are examined. Linkages applied between theory, research and best practice are explored.

NURS-N 504 Leadership for Advanced Nursing Practice (3 cr.) This course addresses core competencies such as leadership, professional role, health care economics, policy, and law and ethics that are essential to all advanced nursing practice roles and health care in complex systems.

NURS-P 216 Pharmacology (3 cr.) This course focuses on basic principles of pharmacology. It includes the pharmacologic properties of major drug classes and individual drugs, with an emphasis on the clinical application of drug therapy through the nursing process. Note: some sections of this course are restricted to RN to BSN students.

NURS-R 500 Nursing Research (3 cr.) This course provides a survey of research in nursing, including critique of research literature, research designs, sampling, data collection and measurement strategies, relation of research and theory, development of researchable problems, and theory utilization.

NURS-R 505 Measurement and Data Analysis (3 cr.) This course analyzes principles and application of data analysis, descriptive, inferential, and multivariate statistics. Considers the research purpose and phenomenon under study as determinants of measurement techniques and

data analysis. The purpose, assumptions, and limitations of statistics will be presented. Tools and techniques for data presentation and analysis will be utilized. Introductory Item Response Theory will be explored. These topics will be considered from the perspective of research in nursing and health care.

NURS-R 590 Nursing Study (3 cr.) This course is a guided experience in identifying a researchable problem and in developing and implementing a research proposal.

NURS-S 470 Restorative Health Related to Multi-System Failures (3 cr.) This course focuses on the pathophysiology and nursing care management of clients experiencing multisystem alterations in health status. Correlations among complex system alterations and nursing interventions to maximize health potential are emphasized. (P: All Sophomore and Junior level courses. C: NURS-S 471, NURS-S 472, NURS-S 473.)

NURS-S 471 Restorative Health Related to Multi-System Failures: Practicum (2 cr.) The students will apply the nursing process to the care of clients experiencing acute multi-system alterations in health. (C: NURS-S 470, NURS-S 472, NURS-S 473.)

NURS-S 472 A Multi-System Approach to the Health of the Community (3 cr.) This course focuses on the complexity and diversity of groups or aggregates within communities and their corresponding health care needs. Through a community assessment of health trends, demographics, epidemiological data, and social/political issues in local and global communities, the student will be able to determine effective interventions for community-centered care. (P: All junior level courses. C: NURS-S 470, NURS-S 471, NURS-S 473.)

NURS-S 473 A Multi-System Approach to the Health of the Community: Practicum (2 cr.) Students will have the opportunity to apply the concepts of community assessment, program planning, prevention, and epidemiology to implement and evaluate interventions for community-centered care to groups or aggregates. Professional nursing will be practiced in collaboration with diverse groups within a community. (C: NURS-S 470, NURS-S 471, NURS-S 472.)

NURS-S 474 Applied Healthcare Ethics (3 cr.) Building on the ANA Code of Ethics for Nurses, this course explores the nurse's role in ethical clinical practice, academic work, health policy, and research conduct, focusing particularly on the advocacy role of the nurse. Common ethical problems are discussed and strategies for resolution of ethical dilemmas are applied. Note: some sections of this course are restricted to RN to BSN students.

NURS-S 475 A Multi-System Approach to the Health of the Community: RN to BSN (3 cr.) Basic epidemiological principles and community health nursing models are applied in collaboration with diverse groups. Disease prevention strategies are applied to individuals and populations to promote health. Students apply the concepts of community assessment, disease prevention, and health promotion to plan, implement, and evaluate interventions for populations in the community. This course is restricted to RN to BSN students only.

NURS-S 481 Nursing Management (2 cr.) This course focuses on the development of management skills assumed by professional nurses, including delegation of responsibilities, networking, facilitation of groups, conflict resolution, leadership, case management and collaboration. Concepts addressed include organizational structure, change, managing quality and performance, workplace diversity, budgeting and resource allocation, and delivery systems. (P: All Sophomore, Junior, and First Semester Senior level courses. C: NURS-S 481, NURS-S 482, NURS-S 483, NURS-S 485.)

NURS-S 482 Nursing Management: Practicum (2 cr.) Students will have the opportunity to apply professional management skills in a variety of nursing leadership roles. (C: NURS-S 481, NURS-S 483, NURS-S 485.)

NURS-S 483 Clinical Nursing Practice Capstone (3 cr.) Students will have the opportunity to demonstrate competencies consistent with program outcomes and to refine their nursing care practice skills. Students will collaborate with faculty and a preceptor in choosing a care setting, planning and organizing a learning experience, and practicing professional nursing in a safe and effective manner. (C: NURS-S 481, NURS-S 482, NURS-S 485.)

NURS-S 485 Professional Growth and Employment (3 cr.) This course focuses on issues related to professional practice, career planning, personal goal setting, and empowerment of self and others. Students will discuss factors related to job performance, performance expectations and evaluation, reality orientation, and commitment to life-long learning. (C: NURS-S 481, NURS-S 482, NURS-S 483.)

NURS-S 487 Nursing Management: RN to BSN (3 cr.) This course focuses on development of management skills assumed by professional nurses, including delegation of responsibilities, networking, and facilitation of groups, conflict resolution, leadership, case management, and collaboration. Concepts addressed include organizational structure, delivery systems, change, managing quality and performance, budgeting and resource allocation, staffing, scheduling, evaluation and career development. This course is restricted to RN to BSN students only.

NURS-T 615 Curriculum in Nursing (3 cr.) This course is designed for persons who are or will be engaged in teaching within nursing education settings. The primary focus is the process of curriculum development; philosophical, social, political, economic, and professional issues that need to be considered in planning curricula, evaluating existing curricula, and changing curricula are examined.

NURS-T 617 Evaluation in Nursing (3 cr.) This course integrates concepts of assessment and evaluation into a nursing framework. Students analyze assessment/evaluation concepts, models, and frameworks for applicability for students, faculty, curricula, and programs.

NURS-T 619 Computer Technologies for Nurse Educators (3 cr.) This course provides nurse educators an opportunity to acquire knowledge and skills for using computer technologies to support the teaching/learning process. Emphasis is given to theoretical frameworks that guide the selection, use, and integration of computer technologies in nursing education programs.

NURS-T 670 Teaching in Nursing (3 cr.) This course provides seminar and guided experiences in teaching of nursing, including planning, developing, implementing, and evaluating classroom and clinical instruction.

NURS-T 675 Nursing Elective (3 cr.) This course is an intensive study and discussion of a specific topic of current interest in the theory and/or practice of nursing education.

NURS-T 679 Nursing Education Practicum (3 cr.) This course is a capstone practicum experience designed for application, demonstration and synthesis of theory and competencies related to the role of nurse educator. Learning experiences are planned and negotiated to meet individual learning goals in the context of preceptor-supervised experiences in classroom and/or clinical health care practice settings. P: Must complete all core and education track courses except NURS-R 590 Nursing Study which can be taken concurrently or after completion of the practicum.

NURS-Y 510 Advanced Practice Concepts 1 (3 cr.) This course analyzes selected nursing concepts and related research with a focus on ethics, human diversity and social issues including genomics and genetics as well as health promotion and disease prevention including select pathophysiology, pharmacology, and health assessment. Course investigates the advanced practice nurse role in population health and public health science. Relationship of concepts to advanced practice models is explored.

NURS-Y 520 Advanced Practice Concepts 2 (3 cr.) This course analyzes selected nursing concepts and related research with a focus on health care policy, organization of health care delivery systems, health care financing and health care economics and the impact of quality and safety on these concepts. Relationship of concepts to advanced practice models is explored.

NURS-Z 490 Clinical Experience in Nursing (1-6 cr.) P: consent of instructor. S/F graded. Planned and supervised clinical experiences in the area of the student's major interest.

NURS-Z 492 Individual Study in Nursing (1-6 cr.)
P: Consent of instructor. Opportunity for the student to pursue independent study of topics in nursing under the guidance of a selected faculty member.

Public Administration and Health Management

PAHM-H 320 Health Systems Administration (3 cr.)
An overview of the U.S. health care delivery system. It examines the organization, function, and role of the system; current system problems; and alternative systems or solutions.

PAHM-H 352 Health Finance and Budgeting (3 cr.)
A study of the financial management of health care facilities, based on generally accepted business principles. Accounting and managerial control of cash, accounts receivable, inventory control, budgeting, and cost control, as well as accounting and evaluation of short- and long-term debt will be examined.

PAHM-H 354 Health Economics (3 cr.) This course applies economics to the study of administrative and policy issues in the health care sector. Economic concepts are used to explain the system of health care financing and the organization of health care delivery in the U.S.

The economic evaluation of health care programs is also discussed.

PAHM-H 365 Health Administration Practicum (3 cr.)
The Health Administration Practicum will consist of a personal career-planning component coupled with weekly field visits to health care agencies in central Indiana. Students must perform satisfactorily in both parts of the practicum to receive a passing grade.

PAHM-H 401 Strategic Planning for Health Care Organizations (3 cr.) This course examines strategic planning techniques as they apply to health care organizations. Students will develop and defend a comprehensive strategic plan for a case facility. One half of the course will be conducted in a workshop format.

PAHM-H 402 Hospital Administration (3 cr.) The study of organization, structure, function, and fiscal operations within hospitals. The role of the hospital in the community, relationship to official and voluntary health agencies, coordination of hospital departments, and managerial involvement will be examined.

PAHM-H 411 Long-Term Care Administration (3 cr.)
Nursing home regulations, legal aspects, and insurance; personnel management; medical records; diet and food service; rehabilitation; nursing services; psychiatric aspects in handling of geriatric patients; professional standards; use of volunteer groups.

PAHM-H 432 Health Care Marketing (3 cr.) A practical study of marketing in health care institutions, health service organizations, and health insurers. A basic foundation in marketing principles, new methods in marketing products and services, and inexpensive marketing techniques will be examined.

PAHM-H 441 Legal Aspects of Health Care Administration (3 cr.) An overview of the liability and legal responsibility, as well as legal recourse, that health care facilities may exercise. This course will discuss policies and standards relating to health facility administration. Also included is a discussion of financial aspects unique to the hospital/ health care facility environment, such as third-party payments and federal assistance.

PAHM-H 455 Topics in Public Health (1-3 cr.) Extensive discussion of selected topics in public health. The topic may change from semester to semester, based on resource availability and student demand. May be repeated for credit.

PAHM-H 456 Health Care Reimbursement (3 cr.)
Course examines the organizational structures of managed care as used in the health industry. The strengths and weaknesses of managed care organizations are examined, as well as the performance of both public and private managed care organizations. Course also examines and discusses current issues surrounding managed care.

PAHM-H 474 Health Administration Ethics (3 cr.) This course examines health care ethical decision making challenges from the managerial perspective and explores broader policy issues associated with ethical problems in health care institutions. It provides an overview of general

theories of ethical challenges in everyday managerial coursework.

PAHM-H 509 Financial Management Principles of Healthcare (3 cr.) Provides knowledge of corporate finance practice in health care organizations. Establishes an understanding of the basic elements of financial theory used to address service expansion or contraction, capital investment issues, developing business plans and working capital management.

PAHM-H 514 Health Economics (3 cr.) Examines the principles and applications of economic analysis in the health field; the economist's approach to health care issues, and provides insights offered by economic analysis of specific health issues and problems.

PAHM-H 515 Seminar in Health Policy: Special Topic (3 cr.) Exploration of health policy topics from economic, financial, sociological, political and psychological perspectives. Analytical paradigms are applied to organizational or macro-policy making issues that vary in response to changing environments.

PAHM-H 612 Marketing for Health Services Delivery (3 cr.) The course provides a working knowledge and the skills required to market health services. Health institution-based projects are emphasized.

PAHM-H 628 Health Care Information Systems (3 cr.) A study of the terminology, technology, and application of information systems in various health care settings. Topics include the gathering, organization, storage, and retrieval of complex data banks, as well as assessment of health service data needs and considerations in developing information systems. Includes many computer-based exercises.

PAHM-V 130 Current Topics in Public Affairs (1-3 cr.) Readings and discussion of current public affairs issues and problems. May be repeated for credit.

PAHM-V 171 Introduction to Public Administration (3 cr.) Broad coverage of public affairs through critical and analytical inquiry into policy making at all levels of government. Particular emphasis on intergovernmental relations as they affect policy in the federal system.

PAHM-V 221 Nonprofit and Voluntary Sector (3 cr.) This course provides a broad overview of the U.S. nonprofit sector. Topics include the sector's size and scope and its religious, historical, and theoretical underpinnings. It also examines perspectives on why people organize, donate to, and volunteer for nonprofit organizations, and looks at current challenges that the sector faces.

PAHM-V 263 Public Management (3 cr.) This course is an examination of the management process in public organizations in the United States. Special attention will be given to external influences on public managers, the effects of the intergovernmental environment, and, in particular, problems of management in a democratic, limited government system.

PAHM-V 264 Urban Structure and Policy (3 cr.) An introduction to urban government and policy issues. Topics include: urban government structure and policy making, the economic foundations and development

of cities, demography of cities and suburbs, land-use planning, and other selected urban policy problems.

PAHM-V 272 Terrorism and Public Policy (3 cr.) A survey of the incidence of terrorism in democratic societies, with particular emphasis on public policy responses designed to combat terrorism in cities. Overviews of ongoing conflicts with terrorist organizations in various countries are interspersed with analyses of significant terrorist events and public policies and responses such events create.

PAHM-V 275 Introduction to Emergency Management (3 cr.) An examination of the background and nature of the profession, the central theoretical debates concerning natural and human-induced disasters, mitigating and reacting to these catastrophic events, and the major roles and responsibilities of emergency managers. Current practical problems and future directions will be explored.

PAHM-V 346 Introduction to Government Accounting and Financial Reporting (3 cr.) An introduction to government accounting, including comparison with accounting for the private sector; intended as background for the use of financial administrators. The course primarily deals with municipal accounting. Not open to students with more than seven credit hours of accounting.

PAHM-V 362 Nonprofit Management and Leadership (3 cr.) Students in this course examine the management practices of nonprofit organizations. The course encourages students to take the perspectives of nonprofit managers, volunteers, board members, policy-makers, donors, and clients. Course projects expand understanding of the nonprofit sector and develop students' management skills, analytical tools, and knowledge.

PAHM-V 366 Managing Behavior in Public Organizations (3 cr.) This course provides an introduction to the management of people in public organizations. Focus is on behavioral science in management and related analytical and experiential applications.

PAHM-V 368 Managing Government Operations (3 cr.) P:PAHM-V 348 Application of analytical techniques to operating decisions in the public management sector. Cases are used extensively to illustrate the application of techniques (such as charting, capacity and demand analysis, forecasting, performance measurement, decision analysis, queuing/simulation, Markov modeling, and cost-effective analysis) to design, scheduling, and inventory assignment, transportation, and replacement decisions.

PAHM-V 370 Research Methods and Statistical Modeling (3 cr.) This course will introduce the student to the basic methods, issues, analytical techniques, and ethical considerations of evaluation research.

PAHM-V 372 Government Finance and Budgets (3 cr.) Study of fiscal management in public agencies, including revenue administration, and fiscal federalism. Examples and applications to contemporary government decisions.

PAHM-V 373 Human Resource Management in the Public Sector (3 cr.) The organization and operation of public personnel management systems, with emphasis

on concepts and techniques of job analysis, position classification, training, affirmative action, and motivation.

PAHM-V 376 Law and Public Policy (3 cr.) The purpose of this course is to provide a basic understanding of the origins, process, and impact of law in the making and implementing of public policy. The course's major objective is to provide students with the substantive concepts necessary to understand the judicial system and law in its various forms.

PAHM-V 378 Policy Processes in the United States (3 cr.) Course content includes analytical perspectives of the policy process, the centers of policy, and the public interest. Selected cases involving problem analysis and decision making on public issues are included, as well as discussion of current policy issues.

PAHM-V 379 Performance Measurement and Program Evaluation (3 cr.) This course provides an overview of program evaluation as it relates to public affairs, criminal justice, health policy, and environmental science with particular emphasis on measuring program outcomes. The course is designed for students who envision themselves working in management, policy-making, or research roles.

PAHM-V 380 Internship in Public and Environmental Affairs (1-6 cr.) Requires permission of the instructor. Open to interested majors upon approval of the faculty. Students are placed with public agencies or governmental units for assignment to a defined task relevant to their educational interests in public affairs. Tasks may involve staff work or research. Full-time participants may earn up to 6 credit hours. May be repeated for credit. Course is graded S/F (Satisfactory/Fail).

PAHM-V 386 Case Studies for Policy Analysis (3 cr.) This course focuses on analyzing case studies of public policies using a variety of disciplinary perspectives, including application of the principles and concepts of intermediate microeconomic theory.

PAHM-V 387 Public Administration and Emergency Management (3 cr.) An examination of the American federal system and how it affects policy making and emergency management. Topics include government programs, participation of agencies and actors from all three levels of government, the nonprofit sector, and the private sector. Administrative processes involved in managing major hazards and disasters will be presented.

PAHM-V 405 Public Law and the Legislative Process (3 cr.) This course focuses on Congress as a policy-making body in the U.S. public law system. It covers the constitutional framework for congressional operations, as well as technical aspects of the legislative process such as bill drafting and analysis, the role of leadership, and the prerogatives of individual members.

PAHM-V 412 Leadership and Ethics (3 cr.) This course is designed to examine the complex leadership issues and challenges facing communities and to explore how citizens and government can work together to address these challenges. This includes exploration of how the problems, conflicts, and dilemmas encountered by leaders when making decisions must be considered within an ethical framework.

PAHM-V 443 Managing Workforce Diversity (3 cr.)

The composition and nature of the workforce is changing. Managers must decide how to accommodate real differences among the members of their organizations. This course seeks to provide information for practitioners who hope to integrate an understanding of workforce diversity into their management style and professional behavior.

PAHM-V 444 Public Administrative Organization (3 cr.)

A review of research findings and analysis of the operation of public agencies and their performance.

PAHM-V 460 Intergovernmental Relations (3 cr.)

Overview of the dynamics of multi-organizational governance in the United States. Examination of federal and other systems. Structure and operations of intergovernmental programs and the role of managers within these systems.

PAHM-V 473 Management, Leadership, and Policy (3 cr.)

This course seeks to integrate learning across the public affairs curriculum. Students will review and reflect about their learning in management, leadership, and policy. Experiential methods service learning, projects, cases, and exercises – will be used to help students apply theory, concepts, and skills.

PAHM-V 502 Public Management (3 cr.)

Analysis of concepts, methods, and procedures involved in managing public organizations. Problems of organization, planning, decision making, performance evaluation, and management of human resources are considered. Cases are drawn from a variety of public services found at federal, state, and local levels of government.

PAHM-V 504 Public Organizations (3 cr.)

This course focuses on the behavior and theory of public organizations in four areas: (1) individual and groups in public organizations; (2) the design of public organizations; (3) organization environment relations, and (4) inter organizational relations.

PAHM-V 506 Statistical Analysis for Effective Decision Making (3 cr.)

Non-calculus survey of concepts in probability, estimation, and hypothesis testing. Applications of contingency table analysis and analysis of variance, regression, processing of data emphasized.

PAHM-V 509 Administrative Ethics in Public Sector (3 cr.)

Ethical conduct in the public sector is examined. Topics covered could include personal ethical responsibility, deception, corruption, code of ethics, policy making, morality, politics, and whistle blowing. Case studies and media materials will be used to illustrate these and other such issues affecting the workplace.

PAHM-V 512 Public Policy Process (3 cr.)

An examination of the role of the public affairs professionals in policy processes. Focuses on relationships with political actors in various policy areas.

PAHM-V 517 Public Management Economics (3 cr.)

This course focuses on applications of the principles and concepts of intermediate microeconomic theory and managerial economics to public-sector management decisions and policy analysis. The course utilizes case studies with the goal of giving students opportunities to recognize the economic dimensions inherent in the public

policy problems and to develop an analytical problem solving orientation.

PAHM-V 525 Management in the Nonprofit Sector (3 cr.) P: PAHM-V 521. An examination of nonprofit organizations and their role in society. Management issues and public policy affecting these organizations are discussed. Primary emphasis is upon U.S. organizations, but attention is given to the global nature of the sector.

PAHM-V 540 Law and Public Policy (3 cr.) Explanation of law in society and its influence on public-sector operations. Examination of some of the central substantive areas of the study of law, including regulatory processes, administrative adjudication, the Administrative Procedures Act, ombudsmen, and citizens' rights, among others.

PAHM-V 543 Health Services Management (3 cr.) A course that integrate theory and application with respect to management of health service organizations. Emphasis on the role of managers and management within formal health service organizations. Current management and organization theories are applied to an understanding of health care delivery settings.

PAHM-V 550 Topics in Public Affairs (3 cr.) Selected research and discussion topics organized on a semester-by-semester basis usually with significant student input in the course design.

PAHM-V 557 Proposal Development and Grant Administration (3 cr.) This course provides the opportunity for each student to develop a complete proposal through participation in the entire grant application process. The integration of case studies, visual media, printed materials, and class discussions provides students with practical knowledge for writing successful proposals.

PAHM-V 560 Public Finance and Budgeting (3 cr.) The fiscal role of government in a mixed economy; sources of public revenue and credit; administrative, political revenue and credit; administrative, political, and institutional aspects of the budget and the budgetary process; problems and trends in intergovernmental fiscal relations.

PAHM-V 561 Public Human Resources Management (3 cr.) Analysis of the structure, operations, and design of public personnel systems, including government agencies and public enterprise. Relationships between public policy and personnel concepts, values, and operations considered.

PAHM-V 562 Public Program Evaluation (3 cr.) Examination of how the program of public agencies is proposed, established, operated, and evaluated. Discussion of the role and conduct of research in the program evaluation process. In addition, techniques of effective evaluation and analysis are discussed.

PAHM-V 566 Executive Leadership (3 cr.) The course offers an in-depth examination of factors that contribute to successful executive leadership practices in a variety of organizational settings. Topics include what leadership is, what impact leadership has, and how leaders use various approaches and powers to achieve their goals.

PAHM-V 585 Practicum in Public Affairs (1-6 cr.) Students hold work assignments with public agencies. Grading is on an S/F basis.

PAHM-V 631 Health Planning (3 cr.) A workshop in analysis and use of health data in a planning context. Course deals with the planning process and methods with an emphasis on systems theory. Class project or plan is developed and presented and defended in a simulated public hearing format.

Psychology

PSY-K 300 Statistical Techniques (3 cr.) Fall and Spring. P: MATH-M 118 or MATH-M 119 or equivalent. Introduction to statistics, nature of statistical data, ordering and manipulation of data, measures of central tendency and dispersion, elementary probability. Concepts of statistical inference decision-making, estimation, and hypothesis testing. Special topics include regression and correlation, analysis of variance, nonparametric methods.

PSY-P 103 General Psychology (3 cr.) Fall, Spring, and Summer. Introduction to psychology: its methods, data, and theoretical interpretations in areas of learning, sensory psychology, psychophysiology, individual differences, personality development, and abnormal and social psychology.

PSY-P 216 Life Span Developmental Psychology (3 cr.) Fall, Spring, and Summer. P: PSY-P 103. A survey course that integrates the basic concepts of physical, cognitive, and psychosocial development from the prenatal period to death. Throughout the life span, theories, research, and critical issues in developmental psychology are explored, with consideration of practical implications. Credit not given for both PSY-P 216 and PSY-P 316.

PSY-P 2?? Introduction to Psychological Inquiry (3 cr.) Fall and Spring (will be offered starting Fall 2013, and will be taught under the variable course number PSY-P 390 until further notice). P: PSY-P 103 and ENG-W 132. Students entering the psychology major in Fall 2012 or after are required to take this course. Credit not to be given for both PSY-P 211 Methods of Experimental Psychology, and Introduction to Psychological Inquiry.

This course will provide psychology majors with an introduction to the basic processes of psychological inquiry. Students will be assisted in becoming more effective learners and critical thinkers, reading primary literature in psychology, and conducting basic survey research as well as learning about the most common methods in psychological research. This course will also include an overview of the psychology major and opportunities for graduate study and careers.

PSY-P 303 Health Psychology (3 cr.) Spring, 2015. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Focuses on role of psychological factors in health and illness. Through readings, lecture, and discussion, students will become better consumers of research on behavior-health interactions and develop a broad base of knowledge concerning how behavior and other psychological factors can impart health both positively and negatively.

PSY-P 319 Psychology of Personality (3 cr.) Fall 2013. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Methods and results of scientific study of

personality. Basic concepts of personality traits and their measurements; developmental influences; problems of integration.

PSY-P 320 Social Psychology (3 cr.) Fall 2014.

Alternate years. P: PSY-P 103. R: completion of 26 credit hours. The study of psychological theories and research dealing with social influence and social behavior, including topics such as conformity, personal perception, aggression, attitudes, and group dynamics.

PSY-P 322 Psychology in the Courtroom (3 cr.) Spring,

2015. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. This course considers the psychological aspects of roles and interactions in the courtroom. Topics include: definitions of "sanity" and "competency", eyewitness testimony, jury selection, instructions, and the role of psychologists as "expert witnesses" and jury selection consultants. Emphasis will be placed on empirical law-psychology research.

PSY-P 324 Abnormal Psychology (3 cr.) Fall and

Spring. P: PSY-P 103. R: completion of 26 credit hours. A first course in abnormal psychology, with emphasis on forms of abnormal behavior, etiology, development, interpretation, and final manifestations.

PSY-P 325 Psychology of Learning (3 cr.) Every Fall. P:

PSY-P 103. R: completion of 26 credit hours. Facts and principles of human and animal learning, especially as treated in theories attempting to provide a framework for understanding what learning is and how it takes place.

PSY-P 326 Neuroscience (3 cr.) Spring 2014. Alternate

years. P: PSY-P 103. R: BIOL-L 100 or BIOL-L 105 and completion of 26 credit hours. Central nervous system functions in relation to sensory processes, motivation, and learning.

PSY-P 335 Cognitive Psychology (3 cr.) Spring,

2015. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Introduction to human cognitive processes, including attention and perception, memory, psycholinguistics, problem solving, and thinking.

PSY-P 355 Experimental Psychology (3 cr.) Spring,

2014. Alternate years. P: Introduction to Psychological Inquiry, ENG-W 132, PSY-K 300. Scientific methods applied to the problems of psychology. Design and execution of simple psychological experiments, treatment of results, and preparation of written reports. This course is required for students entering the psychology major in Fall, 2012 or later. Students entering the major prior to Fall, 2012 are NOT required to take this course.

PSY-P 381 Helping Skills and Ethics (3 cr.) Every Fall

and Spring. P: 6 credit hours in psychology. Introduction to the helping relationship, including theories and strategies of effective helping, ethical issues, and limitations of the helper role.

PSY-P 391 Psychology of Gender and Ethnicity

(3 cr.) Spring, 2014. Alternate years. P: PSY-P 103. R: completion of 26 credit hours. Basic psychological concepts and research from the perspectives of gender and ethnicity, focusing on both the similarities and differences across gender and ethnic groups. Explores the impact of social and political forces on psychological

development and adjustment. Contemporary theory on ethnicity, gender, and class will also be examined.

PSY-P 459 History and Systems of Psychology (3 cr.)

Fall 2013 and Spring 2014. P: PSY-P 103 and completion of 12 credit hours of psychology. Historical background and critical evaluation of major theoretical systems of modern psychology: structuralism, functionalism, associationism, behaviorism, Gestalt psychology, and psychoanalysis. Methodological problems of theory construction and system-making. Emphasizes integration of recent trends.

PSY-P 493 Supervised Research I (3 cr.) Scheduled

with agreement of instructor, Fall, Spring, or Summer. P: consent of instructor. Active participation in research. An independent experiment of modest magnitude; course will include a research proposal submitted to the appropriate research ethics review board. Students who enroll in PSY-P 493 will be expected to enroll in PSY-P 494.

PSY-P 494 Supervised Research II (3 cr.) Scheduled

with agreement of instructor, Fall, Spring, or Summer. P: PSY-P 493. A continuation of PSY-P 493. Course will include a journal-type report of the two semesters of work.

PSY-P 495 Topics Course (1-3 cr.) P: Consent of

instructor. Participation in ongoing research in a single laboratory or independent reading and writing on a psychological topic. Other topic currently in use:

Practicum in Psychology (3 cr.) Fall, Spring, and

Summer. P: PSY-P 381 and consent of instructor.

This course involves participation in a supervised field experience of at least 120 on-site hours, in an applied area. Common placements involve problems of the mentally retarded, children, the elderly, family relations, industrial relations, and mental health. Reflective writing is also required.

**School of Humanities and Social Sciences
Humanities**

Afro-American Studies (AFRO)

AFRO-A 150 Survey of the Culture of Black Americans

(3 cr.) The culture of blacks in America viewed from a broad interdisciplinary approach, employing resources from history, literature, folklore, religion, sociology, and political science.

AFRO-A 210 The Black Woman in America (3 cr.) A

historical overview of the black woman's role in American society, including family, social, and political relationships.

AFRO-A 303 Topics in Afro-American Studies (1-3 cr.)

Study of selected topics or issues in Afro-American studies, occasionally, but not always, coordinated with symposia and/or conferences sponsored by the Afro-American Studies Program.

Classical Studies

CLAS-C 209 Medical Terms from Greek and Latin

(2 cr.) This course introduces students to the process by which technical medical terms are formed.

Comparative Literature

CMLT-C 190 Introduction to Film (3 cr.) History of film and growth of cinematic techniques from Melies and the Lumiere brothers to the present. Topics such as adaptation, the visual image, genres, and the film as social document, and how they relate to the history and

development of film art. Students will become familiar with the basic terminology and technical aspects of film study.

CMLT-C 390 Film and Society (3 cr.) P: CMLT-C 190 or consent of instructor. Film and politics; censorship; social influences of the cinema; and rise of the film industry.

CMLT-C 392 Genre Study in Film (3 cr.) P: CMLT-C 190 or consent of instructor. Problems of definition; the evolution of film genres such as criminal or social drama, comedy, the western, science fiction, horror, or documentary film; themes, subject matter, conventions, and iconography peculiar to given genres; relationship of film genres to literary genres. Focus is on one specific genre each time the course is offered. May be repeated once with different topic.

East Asian Languages and Cultures

EALC-E 100 East Asia: An Introduction (3 cr.) Basic introduction to China, Japan, and Korea. Intended to help students understand the unique character of each of these three cultures within the general framework of East Asian civilization, comprehend the historical importance of the three countries, and appreciate the crucial role they play in the world today.

English

ENG-W 303 Writing Poetry (3 cr.) P: Submission of acceptable manuscript to instructor in advance of registration. R: W103 or W203.

ENG-L 395 British and American Film Stds (3 cr.) Intensive study of specific topics related to film narratives; emphasis on American or British film as a cultural phenomenon. Topic varies.

ENG-A 303 Topics in Afro-American Studies (3 cr.) Study of selected topics or issues in Afro-American studies.

ENG-E 205 Introduction to the English Language (3 cr.) Acquaints the student with contemporary studies of the nature of language in general and of the English language in particular.

ENG-E 301 Literatures in English 1600-1800 (3 cr.) Representative study of British and American literature of the sixteenth through the eighteenth centuries in the context of transatlantic cultural developments.

ENG-E 303 Literatures in English 1800-1900 (3 cr.) Representative study of nineteenth-century British and American literature in the context of transatlantic cultural developments.

ENG-E 304 Literatures in English 1900-Present (3 cr.) Representative study of twentieth-century literatures in English. In addition to Britain and North America, cultural locations may include the Indian subcontinent, Australasia, Anglophone Africa, the Caribbean, etc. Focus on themes associated with modernity and cross-cultural contacts.

ENG-G 301 History of the English Language (3 cr.) Historical and structural analysis of English language in the stages of its development. Political and social events affecting development of language; interrelationship of language and literature; evolution of modern phonology and syntax.

ENG-L 101 Western World Masterpieces I (3 cr.)

Literary masterpieces from Homer to Chaucer. Aims to teach thoughtful, intensive reading and to introduce students to the aesthetic values of the classical literary heritage of Western literature.

ENG-L 102 Western World Masterpieces II (3 cr.)

Literary masterpieces from Shakespeare to the present. Introduces the student to the literature of the modern world and its aesthetic and philosophical values. May be taken before ENG-L 101.

ENG-L 202 Literary Interpretation (3 cr.) Close analysis of representative texts (poetry, drama, fiction) designed to develop the art of lively, responsible reading through class discussion and writing of papers. Attention to literary design and critical method.

ENG-L 203 Introduction to Drama (3 cr.) Representative significant plays to acquaint students with characteristics of drama as a type of literature. Readings will include plays from several ages and countries.

ENG-L 204 Introduction to Fiction (3 cr.) Representative works of fiction; structural techniques in the novel. Novels and stories from several ages and countries.

ENG-L 205 Introduction to Poetry (3 cr.) Kinds, conventions, and elements of poetry in a selection of poems from several historical periods.

ENG-L 207 Women and Literature (3 cr.) Issues and approaches to the critical study of women writers and their treatment in British and American literature.

ENG-L 209 Topics in American Literature and Culture (3 cr.) Selected works of American literature in relation to a single cultural problem or theme. Topics will vary from semester to semester.

ENG-L 220 Introduction to Shakespeare (3 cr.) Rapid reading of at least a dozen of Shakespeare's major plays and poems. May not be taken concurrently with ENG-L 313 or ENG-L 314.

ENG-L 225 Introduction to World Masterpieces (3 cr.) Representative masterpieces in all genres from world literature of any period.

ENG-L 230 Science Fiction (3 cr.) Study of the kinds, conventions, and theories of science fiction. Course may include both literature (predominantly British and American) and film.

ENG-L 295 American Film Culture (3 cr.) Film in relation to American culture and society. Topic varies. Works of literature may be used for comparison, but the main emphasis will be on film as a narrative medium and as an important element in American culture.

ENG-L 308 Elizabethan and 17th Century Drama (3 cr.) English drama from Shakespeare's time to the closing of the theaters in 1642 and beyond.

ENG-L 315 Major Plays of Shakespeare (3 cr.) A close reading of a representative selection of Shakespeare's major plays.

ENG-L 320 Restoration and Early Eighteenth-Century Literature (3 cr.) Major poetry and prose with emphasis on Dryden, Swift, and Pope.

ENG-L 327 Later Eighteenth-Century Literature (3 cr.)

Major poetry and prose 1730-1800 with emphasis on Johnson and Boswell.

ENG-L 331 Studies in 19th Century British Literature (3 cr.)

British authors; groups of authors; genres and modes. Topic varies.

ENG-L 332 Romantic Literature (3 cr.)

Major Romantic writers, with emphasis on two or more of the following: Blake, Wordsworth Coleridge, Byron, Shelley, and Keats.

ENG-L 335 Victorian Literature (3 cr.) Major poetry and prose, studied against social and intellectual background of the period.

ENG-L 346 Twentieth-Century British Fiction (3 cr.)

Modern fiction and its techniques and experiments. Particular emphasis is on Joyce, Lawrence, and Woolf; some later novelists may be included.

ENG-L 347 British Fiction to 1800 (3 cr.) Forms, techniques, and theories of fiction as exemplified by such writers as Defoe, Richardson, Fielding, Smollett, and Sterne.

ENG-L 348 Nineteenth-Century British Fiction (3 cr.)

Forms, techniques, and theories of fiction as exemplified by such writers as Scott, Dickens, Eliot, and Hardy.

ENG-L 350 Early American Writing and Culture to 1800 (3 cr.) Broad survey of American writers in Colonial, Revolutionary, and Republican periods.

ENG-L 351 Critical and Historical Study of American Literature I (3 cr.)

American writers to 1865. Emerson, Hawthorne, Melville, Whitman, and two or three additional major writers.

ENG-L 352 Critical and Historical Study of American Literature II (3 cr.)

American writers 1865-1914: Twain, Dickinson, James, and two or three additional major writers.

ENG-L 354 American Literature Since 1914 (3 cr.)

American writers since 1914: Faulkner, Hemingway, Eliot, Frost, and two or three additional major writers.

ENG-L 355 American Fiction to 1900 (3 cr.)

Survey of representative nineteenth century American novels, with emphasis on works of Cooper, Hawthorne, Melville, Twain, James, and Dreiser.

ENG-L 357 Twentieth-Century American Poetry (3 cr.)

American poetry since 1900, including such poets as Pound, Eliot, Frost, Stevens, Williams, and Lowell.

ENG-L 358 Twentieth-Century American Fiction (3 cr.)

American fiction since 1900, including such writers as Dreiser, Lewis, Fitzgerald, Hemingway, Faulkner, and Bellow.

ENG-L 366 Modern Drama: English, Irish, American, and Post-Colonial (3 cr.)

Shaw, Synge, O'Neill, and other significant dramatists, such as Harold Pinter, Edward Albee, August Wilson, Athol Fugard, and Wole Soyinka.

ENG-L 369 Studies in British and American Authors (3 cr.)

Studies in single authors (such as Wordsworth and Melville), groups of authors (such as minority writers), and periods (such as American writers of the 1920s). Topics

will vary from semester to semester. May be repeated once for credit.

ENG-L 370 Recent Black American Writing (3 cr.)

A study of selected black American writers of the late nineteenth and twentieth centuries, with emphasis on very recent writing. The focus of this course will be on the literary qualities unique to those writers as individuals and as a group. Credit not given for both ENG-L 370 and AFRO-A 370.

ENG-L 371 Critical Practices (3 cr.)

P: ENG-L 202. Study of and practice in critical methodologies; can be focused on specific topics; may be repeated once for credit by departmental permission.

ENG-L 378 Studies in Women and Literature (3 cr.)

British and American authors such as George Eliot, Gertrude Stein; groups of authors such as the Brontë sisters, recent women poets; or genres and modes such as autobiography, film, and criticism. Topics will vary from semester to semester.

ENG-L 379 American Ethnic and Minority Literature (3 cr.)

A survey of representative authors and of works of American ethnic and minority literature, with a primary focus on African-American, Hispanic, and American-Indian literature.

ENG-L 381 Recent Writing (3 cr.)

Selected writers of contemporary significance. May include groups and movements such as black writers, poets of projective verse, new regionalist, para-journalists and other experimenters in pop literature, folk writers, and distinctly ethnic writers; several recent novelists, poets, or critics; or any combination of groups. May be repeated once for credit.

ENG-L 383 Studies in British or Commonwealth Culture (3 cr.)

Study of a coherent period of British or Commonwealth culture (such as medieval, Elizabethan, or Victorian England, or modern Canada), with attention to the relations between literature, the other arts, and the intellectual milieu.

ENG-L 388 Studies in Irish Literature and Culture (3 cr.)

An intensive classroom and on-site study of Irish culture and the literature it has produced.

ENG-L 390 Children's Literature (3 cr.)

Historical and modern children's books and selections from books. Designed to assist future teachers, parents, or others in selecting the best in children's literature for each period of the child's life.

ENG-L 391 Literature for Young Adults (3 cr.)

Study of books suitable for junior high and high school youths. Special stress on works of fiction dealing with contemporary problems; but also including modern classics, biography, science fiction, and other areas of interest to young adults.

ENG-L 406 Topics in African-American Literature (3 cr.)

Focuses on a particular genre, time, and period. Topics may include 20th-century African-American women's novels, black male identity in African-American literature, or African-American autobiography. May be repeated once for credit with different focus.

ENG-L 431 Topics in Literary Study (3 cr.) Studies in individual authors, groups of authors, movements, themes, modes, or genres. Topic varies.

ENG-L 433 Conversations with Shakespeare (3 cr.) An interdisciplinary and intertextual study of Shakespeare's work and its influence to the present day. Students will compare Shakespeare texts with latter day novels, plays, poems, and films that allude to or incorporate some aspect of Shakespeare's art.

ENG-L 450 Seminar: British and American Authors (3 cr.) Intensive study of a major author or a school, or closely-related authors.

ENG-L 460 Seminar: Literary Form, Mode, and Theme (3 cr.) Study of texts written in several historical periods united by a common mode or form (narrative, romanticism, lyric, etc.), or by a common theme (Bildungsroman, the city and the country, the two cultures question, the uses of literacy, etc.).

ENG-L 495 Individual Reading in English (1-3 cr.)
P: Consent of instructor and department chair. May be repeated once for credit.

ENG-L 553 Studies in Literature (3 cr.) Variable topics at the graduate level related to the study of literature.

ENG-W 105 Composition Lab (0-1 cr.) A composition lab in which students will practice writing skills taught in ENG-W 131.

ENG-W 131 Elementary Composition I (3 cr.) Offers instruction and practice in the reading, writing, and critical thinking skills required in college. Emphasis is on written assignments that require summary, synthesis, analysis, and argument.

ENG-W 132 Elementary Composition II (3 cr.) P: ENG-W 131. Continuation of ENG-W 131, with emphasis on writing from secondary sources: research, evaluation of evidence, and documentation. Introduces both MLA and APA documentation styles.

ENG-W 202 English Grammar Review (1 cr.) Provides basic understanding of grammatical terms and principles sufficient to enable students to edit their own prose with confidence. No prior knowledge of grammar is assumed or required.

ENG-W 203 Creative Writing (3 cr.) P: Sophomore standing and consent of the instructor in advance of registration. Exploratory course in imaginative writing: fiction, poetry, and drama.

ENG-W 231 Professional Writing Skills (3 cr.) P: ENG-W 131. This course helps students in any field develop writing skills appropriate for situations and tasks encountered in workplace and organizational settings. Course assignments and activities emphasize the role of professional writing and the importance of developing professional writing skills, emphasizing documents done in the world of work, such as letters, memos, reports, proposals, etc. Credit will not be given for both ENG-W 231 and ENG-W 321.

ENG-W 301 Writing Fiction (3 cr.) P: Consent of instructor. Writing workshop. May be repeated once for credit.

ENG-W 311 Creative Nonfiction (3 cr.) P: completion of 100-level writing requirements. Study and practice of the essay utilizing creative writing techniques. Genres such as memoir, personal essay, nature essay, segmented essay, critical essay, and literary journalism will be studied.

ENG-W 321 Advanced Technical Writing (3 cr.) P: ENG-W 131. Instruction in preparing engineering and other technical proposals and reports, with an introduction to the use of graphics. Credit will not be given for both ENG-W 231 and ENG-W 321.

ENG-W 331 Business and Administrative Writing (3 cr.) P: ENG-W 131 or ENG-W 231 or consent of instructor. Emphasizes principles of business writing, such as audience analysis and adaptation, design and readability of written documents, stylistic analysis and control, persuasion, communicating negative news, and the ethics of communication. The course focuses on writing documents, such as challenging business letters and memos, proposals, and performance appraisals.

ENG-W 350 Advanced Expository Writing (3 cr.) P: Completion of English composition requirement. Close examination of assumptions, choices, and techniques that go into a student's own writing and into the writing of others.

ENG-W 365 Theories and Practices of Editing (3 cr.)
P: ENG-W 131. Students examine the workplace roles of editors while developing their own editing skills. Topics include editorial practices, style, grammar, ethics, and resources for editing.

ENG-W 368 Research Materials and Methods (3 cr.)
P: ENG-W 131. Introduction to information sources and research methods in English studies, textual studies, and digital humanities. Explores databases, concordances, bibliographies, archives, electronic text editing, text encoding and analysis, and other online and library sources. Emphasis on locating, analyzing, and evaluating relevant and credible sources as the basis for effective research.

ENG-W 395 Individual Study of Writing (1-3 cr.) P: Consent of instructor. Exercise in the study of written expression and communication in informative, persuasive, or imaginative writing. May be repeated once for credit.

ENG-W 398 Internship in Writing (0-3 cr.) P: Consent of instructor. Internship in the Writing Center, designated IU Kokomo offices, or other arranged settings. Focus on writing, the teaching of writing, and writing-related tasks. Apply during semester prior to desired internship.

ENG-W 400 Issues in Teaching Writing (3 cr.) Focuses on the content of rhetoric and composition and considers fundamental theoretical and practical issues in the teaching of writing. Reviews rhetorical and compositional principles that influence writing instruction, textbook selection, and curriculum development.

ENG-W 411 Directed Writing (1-3 cr.) Individualized project assigned by instructor consenting to direct it. Individual critical projects worked out with director. Credit varies with scope of project.

ENG-L 498 Internship in English (0-3 cr.) P: Major standing, minimum GPA of 3.0, 12 credit hours in English at 200 level or above (including ENG-L 202), prior

arrangement with faculty member or editor. Supervised experience in various English department positions, in editing, or in approved work setting. May be repeated once for a maximum of 6 credit hours; only 3 credit hours may count toward the major.

ENG-W 512 Topics in English Studies (1-3 cr.)

Examines areas within the discipline of English Studies: rhetoric, composition, linguistics, literacy, technology, and literature. Topics vary.

Fine Arts

FINA-S 215 Digital Media Studio (3 cr.)

Introductory work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.

FINA-A 262 Introduction to Japanese Art and Culture (3 cr.)

A historical survey of Japanese art in the context of culture, society, and politics; the arts of traditional Buddhism; ink painting and other arts associated with the Zen sect; the created landscape, in painting and garden design; historical narratives and scenes of ordinary life; and decorative and useful things, e.g., ceramics, lacquer, textiles, and "golden screens."

FINA-A 280 Art of the Comics (3 cr.)

Analysis of the visual and narrative language of comics from the earliest newspaper strips to the graphic novels of today.

FINA-S 330 Studio in Digital Media II (3 cr.)

Intermediate work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.

FINA-Y 398 Professional Practice in Fine Arts (1 cr.)

This course addresses professional issues related to the art field such as portfolio preparation, approaching galleries, dealing with and establishing alternative studio spaces, internships, residencies, job application and granting opportunities. Preparation for graduate school, exhibition, careers in the art field and installation strategies will be central to the class.

FINA-S 408 Advanced Photography/Cinematography (3 cr.)

This is an advanced course in the use of photography and cinematography. The recent developments in digital cameras and the inclusion of video capabilities are compelling. The ability to use still and moving images are at the core of the cultural communications milieu and require our attention. This course will explore the creative use of the digital image in still and moving formats. Emphasis will be on the possibilities provided by this advanced technology and the growing sets of delivery options available. Students will learn to think and adopt creative approaches to photography and cinematography/videography through a set of challenging class projects, exercises, demonstrations, and presentations.

FINA-A 101 Ancient and Medieval Art (3 cr.) A survey of major styles and monuments in art and architecture from prehistoric times to the end of the Middle Ages.

FINA-A 102 Renaissance Through Modern Art (3 cr.)

A survey of major artists, styles, and movements in European and American art and architecture from the fifteenth century to the present.

FINA-A 200 Topics in Art History (3 cr.)

Various topics in the history of art will be offered depending upon instructors and their area of expertise. May be repeated with a different topic for a maximum of 6 credit hours.

FINA-A 333 From Van Eyck to Vermeer (3 cr.)

CASE S&H R: FINA-A 101, FINA-A 102, or consent of instructor. Survey of major artists and themes in Netherlandish painting from the fifteenth to the seventeenth century.

FINA-A 340 Topics in Modern Art (3 cr.)

Special topics in the history and study of nineteenth and twentieth-century European and American art. May be repeated with different topics for a maximum of 6 credits.

FINA-F 100 Fundamental Studio-Drawing (3 cr.)

Development of visual awareness and coordination of perceptual and manual skills; seeing, representing, and inventing on an experimental, exploratory level in two dimensions. Includes placement, scale, volume, light, formal articulation, and investigations of graphic tools and media.*

FINA-F 101 Fundamental Studio-3D (3 cr.)

Volume, space, material, and physical force studies provide the basis for exploration of three-dimensional form; includes carving, construction, modeling, and casting, using wood, plaster, styrofoam, clay, etc.*

FINA-F 102 Fundamental Studio-2D (3 cr.)

Color, shape, line, and value structures are studied as the basis for exploration of two-dimensional spatial relationships; includes investigation of conventional and invented tools and media.*

FINA-P 490 Topics in Studio Fine Arts (1-6 cr.)

In-depth projects and studies of special studio art topics closely related to existing areas of concentration. May be repeated.*

FINA-S 200 Drawing I (3 cr.)

Preliminary course for advancement in drawing stressing basic visual awareness; seeing, representing, and technical command on a two dimensional surface. Problems in handling placement, scale, space, volume, light, and formal articulation.*

FINA-S 230 Painting I (3 cr.)

P: FINA-F 100, FINA-F 102, or consent of the instructor. Preliminary course for advancement in painting. Exploration of the technical and visual aspects of color media. Emphasis on media command and structural problems in painting. Media: oil and acrylics.*

FINA-S 240 Basic Printmaking Media (3 cr.)

Introduction to printmaking. Emphasis on three basic media: intaglio, lithography, and silkscreen. Problems in pictorial composition and drawing. Study of the interrelationships of all graphic media.*

FINA-S 260 Ceramics I (3 cr.)

CASE A&H A limited introduction to hand-building, throwing, glaze mixing, and glaze application, including lectures on basic ceramic techniques. Critiques of student work.*

FINA-S 270 Sculpture I (3 cr.)

P: Foundation in basic technical and formal methods of traditional and

contemporary sculpture. Use of tools and equipment for additive and subtractive techniques including wood construction, steel fabrication, clay modeling, plaster mold making and cold casting, and assemblage. Emphasis placed on technical execution, conceptualization, and creative problem solving.*

FINA-S 272 Studio in Objects, Time, and Space I (3 cr.) Introduction to object making and sculptural theory in contemporary art. Explores visual and object-based outcomes for the use of sculpture in the modern world.*

FINA-S 280 Metalsmithing and Jewelry Design I (3 cr.) CASE A&H P: FINA-S 101, FINA-S 102, or consent of instructor. Introductory course for exploring metalworking and jewelry design as a serious form of creative expression. Focuses on the basic techniques of piercing of metals, soldering, sheet metal construction, surface embellishment, mechanical joining, wire forming and forging, stretching of sheet metals, and various metal finishing techniques.*

FINA-S 301 Drawing II (3 cr.) P: FINA-S 200. Intermediate course in drawing from the model and other sources. Emphasis on technical command of the media in conjunction with the development of a visual awareness. Continued problems in the articulation of space, scale, volume, value, and linear sensitivity. May be repeated once.*

FINA-S 331 Painting II (3 cr.) P: FINA-S 230. Intermediate course in painting from the model and other sources. Emphasis on technical command and understanding of the components of painting space, color, volume, value, and scale. Media: oil or acrylics. May be repeated once.*

FINA-S 341 Printmaking II Intaglio (3 cr.) Advanced study with emphasis on intaglio. Problems in pictorial composition and drawing stressed.*

FINA-S 343 Printmaking II Lithography (3 cr.) Advanced study with emphasis on lithography. Problems in pictorial composition and drawing stressed.*

FINA-S 344 Printmaking II Silk Screen (3 cr.) Advanced study with emphasis on silkscreen. Problems in pictorial composition, color, and collage design strategies stressed.*

FINA-S 351 Graphic Design II (3 cr.) P: FINA-S 250 or NMCM-N 250. Further studies exploring design principles. Students utilize both hand and digital methods to solve design problems creatively and effectively. Course includes typographic exploration.*

FINA-S 361 Ceramics II (3 cr.) CASE A&H P: FINA-S 260. Continued practice in forming and glazing, with emphasis on wheel throwing, surface decoration, and kiln firing techniques. Instruction through lectures, demonstrations, and critiques. May be repeated once.*

FINA-S 371 Sculpture II: Studio in Objects, Time, and Space II (3 cr.) Development of skills in both traditional and contemporary sculpture methodology. Rotating semester topics include figurative sculpture, casting, steel/wood construction, installation art, and ideas through the sculptural form and knowledge of materials and historical traditions. May be repeated once.*

FINA-S 381 Metalsmithing and Jewelry Design II (3 cr.) CASE A&H P: FINA-S 280. Extensive designing and model making for exploring forms and ideas in metal and mixed media, either as jewelry, hollowware objects, flatware, tea strainers and infusers, boxes, or small-scale sculpture. Focus on techniques of angle raising, repoussé and chasing, forging of flatware, stone setting, and lost-wax casting, jewelry mechanisms, hinge making, and patination of metals. May be repeated for a maximum of 6 credit hours.*

FINA-S 431 Painting III (3 cr.) P: FINA-S 331. Advanced course in painting. Continuation of FINA-S 331. May be repeated for a total of 20 credit hours.*

FINA-S 445 Relief Print Media (1-3 cr.) P: FINA-S 240 or consent of instructor. Relief printmaking media: woodcut, linocut, monotype, and collograph. Students create prints in each medium in both black-and-white and color using a variety of traditional and innovative techniques such as photo and the computer. May be repeated for a total of 20 credit hours.*

FINA-S 471 Sculpture III (3 cr.) P: FINA-S 270, FINA-S 371. Advanced work in sculpture for qualified students working in the chosen materials. The course focuses on the development of ideas as manifest in sculptural form.*

FINA-S 472 Sculpture IV (3 cr.) P: FINA-S 270, FINA-S 371, FINA-S 471. Production of a body of work reflecting the student's specific interests. Students meet independently with professor and in group critiques to maintain a dialogue and provide technical advice.*

FINA-S 481 Metalsmithing and Jewelry Design III (arr. cr.) P: FINA-S 381. Improves and expands knowledge and skill in metalsmithing and jewelry design. Guidance toward developing a personal direction of creative expression, artistic aesthetic, and art philosophy. Advanced techniques include large-scale vessel forming from sheet metal, large-scale soldering, die forming, jewelry mechanisms, chain making, chasing and repoussé, enameling, stone cutting, PNP etching, and working with alternative materials. May be repeated for a total of 20 credit hours.*

FINA-T 320 Video Art (3 cr.) Exploration of the medium of video as an aesthetic expression. Time and sound are elements incorporated into visual composition's traditional concerns. Emphasis on technical command of video camera and digital editing procedures in conjunction with development of a visual sensitivity. Readings and a research project are required.*

FINA-U 200 Digital Art (3 cr.) Introduction to digital art will cover a variety of digital means for the creation of art work and design work. Photoshop, Illustrator, Flash, Dreamweaver, and digital audio will be introduced and examined in projects designed to create a familiarity with the digital work flow, storage and output. This course is cross-listed with NMCM-N 200.*

FINA-U 301 Special Topics in Studio Art (1-3 cr.) Selected intermediate-level topics not ordinarily covered in other studio art courses. May be repeated once with a different topic for a maximum of 6 credit hours.

FINA-U 400 Sources and Resources: Professional Skills in Fine Arts (1-3 cr.) P: BFA major or advanced BA studio art major. Focuses on both personal and cultural

issues in aesthetics and on building professional skills for careers in art. Seminar format will be structured to foster individual growth and insight in understanding both conceptual and practical concerns of choosing to be an artist.*

FINA-U 401 Special Topics in Studio Art (1-3 cr.)

Selected topics in studio art not ordinarily covered in other departmental courses. May be repeated once with a different topic.*

FINA-U 450 Independent Studio Projects (1-3 cr.)

Individual studio projects under guidance of faculty member or committee. Does not fulfill a specific course requirement for a fine arts major.*

Folklore

FOLK-F 101 Introduction to Folklore (3 cr.) A view of the main forms and varieties of folklore and folk expression in tales, ballads, myth, legends, beliefs, games, proverbs, riddles, and traditional arts and crafts. The role of folklore in human society.

French

FREN-F 260 French Lit & Civilization (3 cr.)

Readings of representative literature from period chosen, their political, social and philosophical background, and parallel trends in the arts and music. Lectures in English. Readings in English.

FREN-F 111 Elementary French I (4 cr.) Drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary. Includes elements of French culture.

FREN-F 112 Elementary French II (3 cr.) P: FREN-F 111 or equivalent. Continuation of FREN-F 111. Drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary. Includes elements of French culture.

FREN-F 203 Second Year French I (3 cr.) P: FREN-F 112 or equivalent. Composition, conversation, and grammar coordinated with the study of expository and literary texts.

FREN-F 204 Second Year French II (3 cr.) P: FREN-F 203 or equivalent. Continuation of FREN-F 203. Composition, conversation, and grammar coordinated with the study of expository and literary texts.

German

GER-G 111 Elementary German I (4 cr.) Intensive introduction to present-day German with drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary.

GER-G 112 Elementary German II (4 cr.) P: GER-G 111 or equivalent. Continuation of GER-G 111. Intensive introduction to present-day German with drills for mastery of reading, phonology, basic structural patterns, and functional vocabulary.

GER-G 203 Second Year German I (3 cr.) P: GER-G 112 or equivalent. Intensive review of important structural problems and vocabulary primarily through the reading and discussion of modern German fiction and nonfiction.

GER-G 204 Second Year German II (3 cr.) P: GER-G 203 or equivalent. Continuation of GER-G 203 Intensive

review of important structural problems and vocabulary primarily through the reading and discussion of modern German fiction and nonfiction.

GER-G 306 Introduction to German Literature (3 cr.) P: GER-G 204 or equivalent. Study of a single literary theme (such as music, generational conflict, love, revolution) as represented in two or more periods. Conducted in German.

GER-G 363 Introduction to German Cultural History (3 cr.) P: GER-G 204 or equivalent. A survey of the cultural history of German-speaking countries, with reference to its social, economic, and political context.

Humanities

HUMA-U 101 Introduction to Humanities (3 cr.) This course provides the student with multiple opportunities to experience Shakespeare's 400-year-old classic drama. This class will feature a series of filmed performances of various actors playing Hamlet. Students will explore the playwright's use of verse through various drama and speech activities and will analyze and perform a soliloquy.

HUMA-U 102 Introduction to Modern Humanities: The Live Performances (3 cr.) This course examines the approach to attending live performances including opera, symphony, theatre, and dance. Topics include protocol and traditions of the audience, criteria for critical listening, and discrimination of basic elements of performance. Students will attend live performances, engage in discussions of performances by genre, and develop critical listening skills.

HUMA-U 103 Introduction to Creative Arts (3 cr.) An interdisciplinary course that brings together music, art, dance, theatre, cinema, and storytelling into a cohesive, comprehensive, and thematic study of the interrelationships of the fine arts.

HUMA-U 305 Art and Music in the 20th Century (3 cr.) This course will explore the similarities of artistic movements in the 20th century, starting with the Impressionism of Monet and Debussy through the Minimalism of Robert Morris and Philip Glass.

Journalism

JOUR-J 343 Broadcast News (3 cr.) Techniques of gathering, analyzing, and writing news and features for broadcast. Practice in interviewing, observation, and use of documentary references that include computer information retrieval and analysis skills.

JOUR-C 200 Introduction to Mass Communications (3 cr.) Survey of functions, responsibilities, and influence of various mass communications media. Directed toward the consumer and critic of mass media in modern society.

JOUR-J 200 Writing for Mass Media (3 cr.) P: ENG-W 131. Working seminar stressing principles of writing for mass media. Emphasis on development of story ideas, information gathering, organization, and effective presentation of material for various news media; print and electronic. Basics of computer proficiency introduced.

Music

MUS-M 174 Appreciation of Music I (3 cr.) How to listen to music, art of music and its materials, instrument and musical forms.

MUS-T 109 Rudiments of Music (3 cr.) Entry level class for students interested in how music works. The class deals with the fundamentals of notation, ear training, and music reading. Melody and harmony are explored.

MUS-U 110 Special Topics in Music (2 cr.) Various topics from semester to semester.

MUS-X 001 Ensemble Singing - The IU Kokomo Singers (2 cr.) This course may be taken for up to 8 credit hours of elective credit toward an arts and sciences degree.

MUS-X 004 Ensemble Lab (1 cr.) Audition required. Student must register for MUS-X 001, IUK Singers. This course will focus on vocal proficiency, pronunciation and performance style. May be repeated twice for credit.

MUS-X 040 Instrumental Ensemble: Band (1-2 cr.) This course may be taken for up to 8 credit hours with different topics. Topics currently in use: Band (2 cr.) and Handbells (1 cr.).

MUS-X 070 University Choral Ensemble (2 cr.) Course requires an audition.

MUS-Z 111 Introduction to Music Theory (3 cr.) A study of fundamentals of the language and notation of music: listening, music reading and writing, and the elements of music as used in a variety of genres and historical periods. Open to non-music majors and students in the School of Music interested in a general background in music.

MUS-Z 201 History of Rock 'n' Roll Music (3 cr.) A history and appreciation of rock's classic era. The course begins with the 1964 British Invasion, which signaled the arrival of rock's second generation. Examines the major musical figures and social issues (civil rights struggle, the war in Vietnam) of the 1960s.

MUS-Z 301 Rock Music in the 70s and 80s (3 cr.) A lecture-oriented course that covers the history of rock 'n' roll in the 1970s and 1980s. The post-Sgt. Pepper "splintering" of rock and ensuing style changes are highlighted.

MUS-Z 315 Music for Film (3 cr.) P: CMLT-C 190, Introduction to Film. A stylistic and analytic survey of music for moving pictures, concentrating on American and English narrative films.

MUS-Z 373 The American Musical: Context and Development (3 cr.) The origins of the American Musical: its societal impact and its development from vaudeville and European operetta to the rock musicals of today.

MUS-Z 393 History of Jazz (3 cr.) Periods, major performers and composers, trends, influences, stylistic features, and related materials. For non-music majors only.

New Media Communication

NMCM-N 200 Digital Art (3 cr.) Introduction to digital art will cover a variety of digital means for the creation of art work and design work. Photoshop, Illustrator, Flash, Dreamweaver, and digital audio will be introduced and examined in projects designed to create a familiarity with the digital work flow, storage and output. This course is cross-listed with FINA-U 200.*

NMCM-N 201 Introduction to New Media Communication (3 cr.) P: ENG-W 131. This course is an introduction to New Media Communication. Through readings and projects, students learn basic principles of web sites and other online communication, focusing on creating content, developing designs, and producing graphics. Particular attention is paid to learning web site creation and management software.*

NMCM-N 210 Visual Communication (3 cr.) P: ENG W-131. This course looks at the visual aspects of print and electronic communication. It deals with issues of page design, visuals and other graphics, from practical, historical, and theoretical perspectives. Students will produce visual designs, including flyers and brochures.*

NMCM-N 211 Typography (3 cr.) This course is an introduction to the aesthetics, mechanics, history, terminology, specifications, and use of type in design. Typefaces will be evaluated and rendered in a variety of studio assignments using both hand written and computer techniques.

NMCM-N 213 Web Site Design and Development (3 cr.) This course introduces web site design and development covering high level concerns along with hands-on activities. Topics range from infrastructure and page design to XHTML and Javascript.*

NMCM-N 215 Studio in Digital Media I (3 cr.) Introductory work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.*

NMCM-N 220 Introduction to Business Website Design (3 cr.) Focuses on the design and creation of websites for small businesses and nonprofit organizations. Still will be able to make their own basic business and nonprofit websites. No prior website creation experience is needed. Primarily intended for non-majors.

NMCM-N 231 Introduction to Video Game Design (3 cr.) Introduces video game design, including game concept, scripting, and development.*

NMCM-N 245 Introduction to Website Design Principles and Practices (3 cr.) P: INFO-I 213, NMCM-N 213 or permission from the instructor. Teaches basic principles of web design and gives students practice creating sites using these principles and common website creation tools. Students will become comfortable using professional tools to create websites.*

NMCM-N 250 Graphic Design I (3 cr.) Emphasis on visual communication through the perceptive use of line, form, and color. Elementary study of letter forms and typography. Introduction to basic tools, drawing disciplines of graphic design, and computer graphics.*

NMCM-N 255 History of Graphic Design (3 cr.) Explore how the technologies used in graphic design have evolved as well as consequences of those changes for designers.

NMCM-N 260 Video Production Practicum (3 cr.) Students will receive hands-on instruction in a production lab setting. Gain experience in field and studio camera operation. Camera techniques, video editing, and related production software.*

NMCM-N 261 ActionScript 3 Programming (3 cr.) Introduction to Action Script programming for Flash.

Students will use technology to create artwork, design, games, databases interfaces, web interfaces, and others. Basic skills for further study of JAVA, Objective C, C++, and others.*

NMCM-N 262 Intro to Web Scripting (3 cr.) This course introduces students to fundamental programming concepts and techniques. Students will develop a solid foundation that can be used to learn other programming languages. Using the JavaScript programming language as a basis for instruction, this course focuses on client-side Web programming and teaches students how to create highly dynamic and interactive Web pages.*

NMCM-N 281 Honors Study in Beginning New Media Communication (1-3 cr.) P: consent of the instructor. For outstanding students, in place of a 200-level course in New Media Communication. Meets concurrently with course it replaces. May be repeated once with a different course.

NMCM-N 298 Intermediate Photography (3 cr.) This course uses more advance photography techniques including compositional strategies for shooting individuals and groups of people, lighting techniques using natural and off-camera strobe light and editing workflow using the latest versions of Lightroom and Photoshop. Special attention will also be paid to journalism or documentary photography.

NMCM-N 301 Advanced Web Layout and Design (3 cr.) P: NMCM-N 201 and either NMCM-N 213 or INFO-I 213, or consent of instructor. Focuses on using advanced CSS techniques and advanced features of web design software (such as Dreamweaver) to produce attractive, professional-level websites.*

NMCM-N 310 Advanced Visual Design (3 cr.) P: NMCM-N 200 and NMCM-N 210 or consent of instructor. Focuses on learning and applying advanced principles of various aspects of visual design, including typography, layout (including grid theory), color, and theme. Students learn to produce professional quality brochures, advertisements, flyers, posters, logos, and other visual designs.*

NMCM-N 311 Evolution of New Media Communication (3 cr.) P: ENG-W 131. This course examines how new media communication has evolved throughout history, examining the impact of the development of various media on society, ranging from the invention of writing to the development of a computer networked society. Students will develop a critical understanding of media of the past, present, and future.*

NMCM-N 312 Digital Illustration (3 cr.) Course explores basic development of digital illustrations for use in graphic design.*

NMCM-N 315 Web Usability and Information Architecture (3 cr.) P: ENG-W 131. This course covers designing professional web sites. It focuses on learning principles to make web sites both well-structured and usable. Activities include web site analysis, design, and usability testing.*

NMCM-N 320 Video Production (3 cr.) Exploration of the medium of video as an aesthetic expression. Time and sound are elements incorporated into visual composition's traditional concerns. Emphasis on technical command of video camera and digital editing procedures in conjunction

with development of a visual sensitivity. Readings and a research project are required.*

NMCM-N 330 Studio in Digital Media II (3 cr.) Intermediate work in the use of digital media tools, including video, animation, image manipulation, and digital illustration in the creation of art.*

NMCM-N 345 Intermedia Website Design Principles and Practice (3 cr.) P: NMCM-N 245 or permission of instructor. Teaches intermediate principles of web design and gives students practice creating sites using these principles and common website creation tools. Students should learn to produce professional-quality websites.*

NMCM-N 351 Cyberculture and Community (3 cr.) The rise of new media communication technology has altered stretches of our social landscape. This course explores how emerging technologies form new types of social networks while also changing the rules of communication in existing social units.*

NMCM-N 360 Adv. Video Prod Prac (3 cr.) Students will take a leadership role in the video production process and coordinate the development of a program. They will also gain additional video production experience.*

NMCM-N 361 Graphic Design II (3 cr.) P: NMCM-N 250. Further studies exploring design principles. Students utilize both hand and digital methods to solve design problems creatively and effectively. Course includes typographic exploration.*

NMCM-N 362 Server-side Web Programming Using PHP (3 cr.) This course discusses server-side Web programming using the PHP programming language. Through a detailed discussion of PHP programming fundamentals, students will develop a comprehensive understanding of the server-side aspects of developing interactive Web applications using the PHP programming language. This course also offers an introductory overview of interfacing web applications with relational databases. Students are expected to develop real-world server-side Web applications with MySQL database connectivity.*

NMCM-N 365 Type in Motion (3 cr.) Learn to create motion typography for traditional domains, such as movies & television, along with interactive interfaces such as web sites & information kiosks.*

NMCM-N 370 Animation For Integrated Media (3 cr.) Images and animation converge to develop an animated sequence. Using text, graphics and sound, students will create animation and visualizations. Photoshop and illustrator plus Flash will be used in addition to traditional methods for creating animations.*

NMCM-N 371 Identity Design & Branding (3 cr.) Teaches how to create a visual identity that communicates the essential qualities desired by the particular business.*

NMCM-N 372 Graphic Design Prod & Prac (3 cr.) This course focuses on the interaction graphic designers have with clients & printers. professional graphic design skills.*

NMCM-N 381 Honors Study in Intermediate New Media Communication (1-3 cr.) P: consent of the instructor. For outstanding students, in place of a 300-level course in New Media Communication. Meets concurrently with

course it replaces. May be repeated once with a different course.*

NMCM-N 391 Seminar (1-8 cr.) P: consent of the instructor. Topics announced in prior semester. Oriented toward current topics in new media communication; readings, projects, and papers as indicated by the topic and instructor. May be repeated up to a total of 8 credit hours.

NMCM-N 395 Independent Study in New Media Communication (1-3 cr.) P: consent of the Instructor and Department Chair. May be repeated once for credit.

NMCM-N 398 Internship in New Media Communication (1-6 cr.) P: Consent of the instructor. Internship focusing on producing and managing new media communication projects. Apply during semester prior to desired internship. Must represent a minimum of 45 hours of experience per credit hour. May be repeated once for credit, but no more than 6 credits total may be earned.

NMCM-N 401 Senior Seminar (1-3 cr.) P: Junior or Senior Status or approval of instructor. Senior experience for New Media Communication students. Meets concurrently with ENG-L 495 and SPCH-C 398.

NMCM-N 408 Advanced Photography and Cinematography (3 cr.) P: FINA-N198, FINA-N298 or instructor consent. This is an advanced course in the use of photography and cinematography. The recent developments in digital cameras and the inclusion of video capabilities are compelling. The ability to use still and moving images are at the core of the cultural communications milieu and require our attention. This course will explore the creative use of the digital image in still and moving formats. Emphasis will be on the possibilities provided by this advanced technology and the growing sets of delivery options available. Students will learn to think and adopt creative approaches to photography and cinematography/videography through a set of challenging class projects, exercises, demonstrations, and presentations.

NMCM-N 410 Publication & Editorial Design (3 cr.) Despite the rise of the Internet, downloadable .PDF and .ps files, the eBook and microfilm, the basic book of ink and paper is still the main conveyor of written information in the 21st century. It is important for a designer's success to have a basic understanding of the structure of a book and the various problems encountered when designing one.*

NMCM-N 411 New Media Communication Theory (3 cr.) P: ENG-W 131. This course examines various theories of new media communication and its effects on the world. Theories of design, criticism and computer-mediated communication will be explored. After taking this course, students should be able to critique new media and their societal effects.

NMCM-N 445 Advanced Website Design Principles and Practice (3 cr.) : NMCM-N 345 or permission of instructor. Teaches advanced principles of web design and gives students practice creating sites using these principles and common website creation tools. Students will produce high-quality, professional level website.*

NMCM-N 481 Honors Study in Advanced New Media Communication (1-3 cr.) P: consent of the instructor.

For outstanding students, in place of a 400-level course in New Media Communication. Meets concurrently with course it replaces. May be repeated once with a different course.

Philosophy

PHIL-P 100 Introduction to Philosophy (3 cr.) Perennial problems of philosophy, including problems in ethics, in epistemology and metaphysics, and in the philosophy of religion. Readings in selected writings of philosophers from Plato to the present.

PHIL-P 105 Critical Thinking (3 cr.) Basic rules of correct reasoning; roles of definitions and language in thinking; roles of observation, hypothesis and theory in knowledge and basic techniques for gather information, testing and evaluating arguments for truth and problem solving.

PHIL-P 140 Elementary Ethics (3 cr.) Some ancient, medieval, or modern philosophers' answers to ethical problems (e.g., nature of good and evil, relation of duty to self-interest, objectivity of moral judgments).

PHIL-P 145 Introduction to Social and Political Philosophy (3 cr.) Fundamental problems of social and political philosophy: the nature of the state, political obligation, freedom and liberty, quality, justice, rights, social change, revolution, and community. Readings from classical and contemporary sources.

PHIL-P 150 Elementary Logic (3 cr.) Development of critical tools for the evaluation of arguments.

PHIL-P 242 Applied Ethics (3 cr.) Application of moral theory to a variety of personal, social, and political contexts, such as world hunger, nuclear weapons, social justice, life and death decisions, and problems in medical ethics.

PHIL-P 304 Nineteenth-Century Philosophy (3 cr.) Selected survey of post-Kantian philosophy, including Hegel, Marx, Kierkegaard, and Mill.

PHIL-P 311 Environmental Ethics (3 cr.) Selective survey of philosophical problems concerning environmental ethics. Topics may include defining environment, different approaches to the study of environmental ethics, determining the value of environment, issues of preservation and sustainability and the relationship between human social issues and environmental values.

PHIL-P 335 Phenomenology and Existentialism (3 cr.) P: 3 credit hours of philosophy. Selective survey of central themes in nineteenth- and twentieth- century phenomenology and existentialism. Readings from some or all of Heidegger, Camus, Heidegger, Husserl, Jaspers, Kierkegaard, Marcel, Nietzsche, Beauvoir, and Sartre.

PHIL-P 342 Problems in Ethics (3 cr.) May concentrate on a single large problem, e.g., whether utilitarianism is an adequate ethical theory, or several more or less independent problems, e.g., the nature of goodness, the relation of good to ought, the objectivity of moral judgments.

PHIL-P 345 Problems in Social and Political Philosophy (3 cr.) Problems of contemporary relevance: civil disobedience, participatory democracy, conscience and authority, law and morality.

PHIL-P 346 Classics in Philosophy of Art (3 cr.) P: 3 cr. of Philosophy. Readings from Plato and Aristotle to Nietzsche and Dewey. Topics include the definition of art, the nature of beauty, and art and society.

PHIL-P 360 Introduction to Philosophy of Mind (3 cr.) Selected topics from among the following: the nature of mental phenomena (e.g., thinking, volition, perception, emotion); the mind-body problem (e.g., dualism, behaviorism, functionalism); connections to cognitive science issues in psychology, linguistics, and artificial intelligence; computational theories of mind.

PHIL-P 371 Philosophy of Religion (3 cr.) Topics include the nature of religion, religious experience, the status of claims of religious knowledge, the nature and existence of God.

PHIL-P 375 Philosophy of Law (3 cr.) Selective survey of philosophical problems concerning law and the legal system. Topics include nature and validity of law, morality and law, legal obligation, judicial decision, rights, justice, responsibility, and punishment.

PHIL-P 383 Topics in Philosophy (3 cr.) An advanced study of special, experimental, or timely topics drawn from the full range of philosophical discussion and designed to pursue interests unmet in the regular curriculum.

Religion

REL-R 152 Introduction to Religions of the West (3 cr.) Origins, development, institutions, beliefs, and current status.

REL-R 153 Introduction to Religions of the East (3 cr.) Human ideas and value systems in the religions of India, China, and Japan.

REL-R 212 Comparative Religions (3 cr.) Approaches to the comparison of recurrent themes, religious attitudes, and practices found in selected Eastern and Western traditions.

REL-R 233 Introduction to the Hebrew Bible (Old Testament) (3 cr.) A critical examination of the literary, political, cultural, and religious history of Israel from the period of the Patriarchs to the Restoration, with emphasis on the growth and formation of the major traditions contained in the Hebrew Bible.

REL-R 243 Introduction to the New Testament (3 cr.) An examination of the history, culture, and literature of the New Testament period, with special emphasis on the emergence of early Christian beliefs.

Spanish

SPAN-S 111 Elementary Spanish I (4 cr.) Intensive introduction to present-day Spanish, with drills for mastery or phonology, basic structural patterns, and functional vocabulary.

SPAN-S 112 Elementary Spanish II (4 cr.) P: SPAN S111 or equivalent. Continuation of SPAN S111. Intensive introduction to present-day Spanish, with drills for mastery or phonology, basic structural patterns, and functional vocabulary.

SPAN-S 160 Spanish for Health Care Personnel (3 cr.) This course examines the approach to attending live performances including opera, symphony, theatre, and dance. Topics include protocol and traditions of the

audience, criteria for critical listening, and discrimination of basic elements of performance. Students will attend live performances, engage in discussions of performances by genre, and develop critical listening skills.

SPAN-S 203 Second-Year Spanish I (3 cr.) P: SPAN-S 112 or equivalent. Intensive drill reviewing important structural and vocabulary problems, coordinated with literary readings.

SPAN-S 204 Second-Year Spanish II (3 cr.) P: SPAN-S 203 or equivalent. Continuation of SPAN S203. Discussions in Spanish of contemporary Spanish literature. Practice in composition both semesters.

SPAN-S 275 Hispanic Culture and Conversation (3 cr.) Practice of language skills through reading and discussion of Hispanic culture. Discusses facets of popular culture, diversity of the Spanish speaking world, and themes of social and political importance. Prior knowledge of Spanish not required.

SPAN-S 311 Spanish Grammar (3 cr.) P: SPAN-S 204 or equivalent. This course is designed to integrate the four basic language skills into a review of the major points of Spanish grammar. Course work will combine grammar exercises with brief controlled compositions based on a reading assignment and class discussion in Spanish. Sentence exercises will be corrected and discussed in class.

SPAN-S 312 Written Composition in Spanish (3 cr.) P: SPAN-S 204 or equivalent. This course integrates the four basic language skills into a structured approach to composition. Some review of selected points of Spanish grammar will be included. Each student will write a weekly composition, increasing in length as the semester progresses. Emphasis will be on correct usage, vocabulary building, and stylistic control.

SPAN-S 317 Spanish Conversation and Diction (3 cr.) P: SPAN-S 204 or equivalent. Practice of conversation in Spanish with emphasis on pronunciation, vocabulary development, and fluency.

SPAN-S 325 Spanish for Teachers (3-4 cr.)

SPAN-S 360 Introduction to Hispanic Literature (3 cr.) Study of literature in Spanish.

Speech

SPCH-C 205 Introduction to Oral Interpretation (3 cr.) Basic principles and practice in analysis and reading of selections from prose, poetry, and drama. Public presentation of programs. Lecture and recitation.

SPCH-C 281 Topics in Nonverbal Communication (1-3 cr.) Explores the basic theories of nonverbal behavior and experientially focuses on the ways in which nonverbal codes combine and interact to satisfy important communication functions. May be repeated under different topics up to a total of 6 credit hours.

SPCH-C 300 Practicum (0-8 cr.) Practical experience in various departmental areas as selected by the student prior to registration, outlined in consultation with the instructor, and approved by the department. Must represent a minimum of 40 hours of practical experience per credit hour. A student shall take no more than a total of 9 credit hours of SPCH-C 300 and SPCH-S 398.

SPCH-C 305 Advanced Oral Interpretation (3 cr.)

Continuation of SPCH-C 205.

SPCH-C 310 Rhetoric and Public Address (3 cr.) P: SPCH-S 121 or equivalent. Development of theory of oral discourse; the influence of public address; historical and current problems in rhetoric of conflict, in freedom of speech, and in propaganda and persuasion. Lectures and oral reports.

SPCH-C 321 Persuasion (3 cr.) P: SPCH-S 121 or equivalent. Motivational appeals in influencing behavior, psychological factors in speaker-audience relationship, principles and practice of persuasive speaking. Lecture and recitation.

SPCH-C 325 Interviewing Principles and Practices (3 cr.) P: SPCH-S 121 or equivalent. Study and practice of methods used in business and industrial interviews, emphasis on the logical and psychological bases for the exchange of information-attitudes. Lecture and recitation.

SPCH-C 330 Diffusion of Innovations (3 cr.) This course will explore the process by which disruptive technologies become adopted within cultures. Three major themes will be explored: development of innovations, manner in which innovations become adopted, and the consequences of innovations on individuals, organizations, and cultures.

SPCH-C 380 Organizational Communication (3 cr.) The application of communication theory and research to the study of communication within the formal organization. Communication behavior is examined in a variety of organizational settings: interpersonal, small group, and inter-organizational units.

SPCH-C 391 Topics Course (1-8 cr.) Current topics in use include: **Seminar** (1–3 cr.) P: consent of instructor. Topic announced in prior semester; oriented to current topics in communication and theatre; readings, projects, and papers as indicated by the topic and instructor. May be repeated up to a total of 8 credit hours. Topics currently in use are: **Public Relations Campaigns** (1–3 cr.) This course teaches students public relations theories, methods, and practice. Working in teams, students design and place three media messages for community-based public relations clients; **Organizational Training and Development** (3 cr.) Provides experience in the design, development, presentation, and evaluation of instructional communication training programs.

SPCH-C 393 Communication Research Methods (3 cr.) P: ENG-W 131 This course explores major research methods used by communication scholars, including experimental research, survey research, textual analysis, and ethnography. Students learn how to interpret, evaluate and propose research.

SPCH-C 437 Creative Dramatics (3 cr.) Laboratory course in informal dramatics that emphasizes the child rather than the production; includes methods of stimulating the child to imaginative creation of drama with the materials of poetry, stories, choral readings, and music.

SPCH-C 444 Political Communication (3 cr.) Examination of communication in political campaigns and social movements. Campaign topics include speech-making, advertising, news coverage, and debates. Case

studies in social movements, including anti-war, civil rights, feminism, and others.

SPCH-S 121 Public Speaking (3 cr.) Theory and practice of public speaking; training in thought processes necessary to organize speech content, personality, components of effective delivery, and language.

SPCH-S 122 Interpersonal Communication (3 cr.) Practical consideration of spontaneous human interaction in face-to-face situations. Special attention to perception, language, and attitudes, in dyads and small groups.

SPCH-S 130 Public Speaking, Honors (3 cr.) For outstanding students, in place of SPCH-S 121.

SPCH-S 201 Communicating in Public (3 cr.) R: SPCH-S 121. Theory and advanced practice of public speaking. Designed primarily for, but not limited to, majors in communication-related fields.

SPCH-S 205 Introduction to Speech Communication (3 cr.) Overview of the theories and principles of effective communication in interpersonal, group, organizational, and public settings.

SPCH-S 223 Business and Professional Speaking (3 cr.) P: SPCH-S 121. Preparation and presentation of types of speeches and oral reports appropriate to business and professional occupations; group discussion and parliamentary procedures.

SPCH-S 229 Discussion and Group Methods (3 cr.) Leadership and participation in group, committee, conference, and public discussion; logical and psychological aspects of group process.

SPCH-S 233 Introduction to Public Relations (3 cr.) A survey of the historical antecedents and contemporary practice of public relations in the U.S. Emphasis is on the nature of day-to-day tasks and the communication responsibility of public relations practitioners in a variety of professional settings.

SPCH-S 301 Rhetoric and Society (3 cr.) This course examines the impact of verbal and nonverbal symbol systems on communities and cultures. Students explore the way in which meaning is created, maintained, affirmed or altered across time and periods of social change. Although the topic and focus of the class varies from semester to semester, this course emphasizes the process by which communication systems may transform users or be transformed by users over time.

SPCH-S 322 Advanced Interpersonal Communication (3 cr.) P: SPCH-S 122. Advanced consideration of communication in human relationships. Emphasis given to self-concept; perception; language; nonverbal interaction; listening; interpersonal conflict; and communication skills in family, social, and work situations.

SPCH-S 323 Speech Composition (3 cr.) R: SPCH-S 121 and either SPCH-S 223 or SPCH-S 229. Advanced speechwriting; theories of style, written and spoken language; logical proofs; and emotional and ethical appeals. Practice in composition and delivery.

SPCH-S 333 Public Relations (3 cr.) Principles of contemporary public relations, including ethics of public relations; impact on society; and uses by government, business, and social institutions for international and

external communication. Public relations as a problem solving process utilizing theoretical and application strategies.

SPCH-S 336 Current Topics in Communication (3 cr.)

Extensive analysis of selected problems in contemporary speech communication. Topics vary each semester and are listed in the Schedule of Classes. May be repeated once for credit.

SPCH-S 398 Independent Study in Speech

Communication (1-6 cr.) P: junior standing and approval of instructor. Independent study or practicum experience. Projects must be approved by faculty member before enrolling. May be repeated up to a total of 6 credit hours.

SPCH-S 427 Cross-Cultural Communication (3 cr.)

A survey study of national, cultural, and cross-cultural persuasion in theory and practice.

SPCH-S 440 Organizational Communication (3 cr.)

Examination of internal and external communication in business and other professional organizations, with emphasis on theory, techniques, practices, goals, and the social environment in which such communication exists.

Telecommunications

TEL-R 309 Television Production (3 cr.) Introduction to the production process in the studio and in the field.

TEL-R 407 Field Television Production (3 cr.) P:

TEL-R 309 and consent of instructor. Planning, writing, producing, and editing program inserts and segments for television using portable video equipment.

TEL-R 424 Advanced Production Workshop (3 cr.)

P: TEL-R 407 or TEL-R 409 or consent of instructor. Advanced production techniques in a specialized area. The topics will cover advanced theory and concepts that build upon lower-level video production courses. May be repeated once with different topic.

TEL-T 283 Introduction to Production Techniques and Practices (3 cr.)

Introduction to audio, field, and studio production bridges the theoretical and practical aspects of production through written hands-on exercises.

TEL-T 337 Video Field Production (3 cr.) P: TEL-T 283

or TEL-R 309. Advanced course in video production. Students will apply their knowledge of visual aesthetics, production, and communication to produce a corporate video campaign.

Theatre

THTR-C 130 Introduction to Theatre (3 cr.) An introduction to the study of theatre; the wide range of critical, historical, aesthetic, and practical interests necessary to a well-rounded view; emphasis on theatre as an art form; elements of dramatic construction.

THTR-C 300 Practicum (1-8 cr.) Practical experience in various departmental areas as selected by the student prior to registration, outlined in consultation with the instructor, and approved by the department. Must represent a minimum of 45 hours of practical experience per credit hour.

THTR-C 437 Creative Dramatics (3 cr.) Laboratory course in informal dramatics that emphasizes the child rather than the production; includes methods of simulating

the child to imaginative creation of drama with the materials of poetry, stories, choral reading, and more.

THTR-T 120 Acting I (3 cr.) Introduction to theories, methodology and skills; body movement, voice and diction, observations, concentration, imagination. Emphasis on improvisation exercises.

THTR-T 149 Introductory Speech and Theatre Practicum (1-2 cr.) Introductory directed projects in speech and theatre.

THTR-T 220 Acting II (3 cr.) P: THTR-T 120 or consent of instructor. Textual analysis and techniques of communicating with body and voice. Study and performance of characters in scenes from Shakespeare and modern realistic and nonrealistic dramas.

THTR-T 226 Readers Theatre I (3 cr.) Exploration of theory and techniques, Practical experience materials; fiction and nonfiction, poetry, prose, dramatic dialogue.

THTR-T 236 Readers Theatre I (3 cr.) Exploration of theory and techniques. Practical experience with a variety of materials: fiction and nonfiction, poetry, prose, dramatic dialogue.

THTR-T 245 Living Theatre (1-2 cr.) Attendance at eight selected productions in the community during the semester, lecture and discussion of each production, short written analyses, and term paper. No withdrawal permitted after second week of class. For 1 credit hour: attend lectures and productions. For 2 credit hours: complete course as described. May be repeated for a maximum of 4 credit hours.

THTR-T 320 Acting III (3 cr.) P: THTR-T 220 and audition. Character analysis and use of language on stage. Study and performance of characters in scenes from Shakespeare and modern realistic and nonrealistic dramas. Lecture and laboratory.

THTR-T 336 Readers Theatre II (3 cr.) Continued practice in Readers Theatre. Development of one or more productions.

THTR-T 345 Theatre for Children (3 cr.) Purposes, principles, and problems of staging plays for children.

THTR-T 349 Speech and Theatre Practicum (1-2 cr.)

Directed projects in speaker's bureau, rhetorical research, theatre practice, and other projects connected with production and events in process. Project plans, report, and term paper required. May be repeated for a maximum of 9 credit hours.

Sociology, History, and Political Science Anthropology

ANTH-A 103 Human Origins and Prehistory (3 cr.) Humans, their biological evolution, and their archaeological history through stone and metal ages.

ANTH-A 104 Culture and Society (3 cr.) Every semester. Introduction to the comparative study of contemporary human cultures and social processes that influence behavior.

ANTH-E 329 Indians in the U.S. in the Twentieth (3 cr.) Position of the American Indian as an ethnic minority, including health, education, economy, and political consideration of proposals to change the Indian's status.

ANTH-E 445 Medical Anthropology (3 cr.) A cross-cultural examination of human biocultural adaptation in health and disease, including biocultural epidemiology; ethnomedical systems in the prevention, diagnosis, and treatment of disease; and sociocultural change and health.

ANTH-E 455 Anthropology of Religion (3 cr.) Critical evaluation of current approaches to the analysis of religious myth, ritual, and symbolism. Problems in understanding religious beliefs of other cultures. Modern development of the anthropology of religion.

ANTH-P 360 Prehistory of North America (3 cr.) Introduction to antiquity of the American Indian, principal culture areas, and field methods and techniques incident to recovery of archaeological data and materials.

History

HIST-A 314 United States History, 1917-1945 (3 cr.)
R: HIST-H 106 or completion of 56 credit hours. Political, demographic, economic, and intellectual transformations. 1917-1945: World War I, the twenties, the depression, the New Deal, World War II.

HIST-A 315 United States Since World War Two (3 cr.)
R: HIST-H 106 or completion of 56 credit hours. Alternate years. Political, demographic, economic, and intellectual transformations. 1945-present: the cold war, problems of contemporary America.

HIST-A 333 History of Indiana I (3 cr.) I: The course deals with the development of a midwestern state, with emphasis on the French and British periods; the West in the American Revolution; the transition from territory to state; political, economic, and cultural patterns; and the sectional crisis.

HIST-A 334 History of Indiana II (3 cr.) The period since 1865, tracing the development of a modern industrial commonwealth—agriculture, industry, politics, society, education, and the arts.

HIST-A 375 Crime and Punishment in American History (3 cr.) R: HIST-H 106 or completion of 56 credit hours. Alternate years. This course focuses on the history of crime and punishment in the 20th-century United States.

HIST-A 382 The Sixties (3 cr.) R: HIST-H 106 or completion of 56 credit hours. Alternate years. This course focuses on the history of the United States during the 1960s and the political change and dissent; rights movements; United States foreign policy and the conflict in Vietnam; gender, exploitation, and legal change that occurred. It addresses a variety of topics, including; and the increasing diversity of expression in social values and cultural practices.

HIST-B 361 Europe in the Twentieth Century I (3 cr.) Economic, social, political, and military-diplomatic developments, 1900 to present. I: 1900-1930: origins, impact, and consequences of World War I; peacemaking; postwar problems; international communism and fascism; the Great Depression.

HIST-B 362 Europe in the Twentieth Century II (3 cr.) 1930-present: Depression politics; crisis of democracy; German national socialism; World War II; Cold War; postwar reconstruction and recovery.

HIST-D 410 Russian Revolutions and Soviet Regime (3 cr.) Alternate years. Causes and development of Russian revolutions and civil war; Lenin, Trotsky, and Stalin; purges, terror, economic development, society, and arts under Stalin; struggle against Hitler; scope and limits of de-Stalinization under Khrushchev; minorities; dissent, and life in the former Soviet Union today.

HIST-H 105 American History I (3 cr.) Every semester. I: colonial period, revolution, confederation and constitution, national period to 1865.

HIST-H 106 American History II (3 cr.) Every semester. 1865 to present. Evolution of American society: political, economic, social structure; racial and ethnic groups; sex roles; Indian, inter-American, and world diplomacy of United States; evolution of ideology, war, territorial expansion, industrialization, urbanization, international events and their impact on American history.

HIST-H 113 History of Western Civilization I (3 cr.) Every semester. I: Rise and fall of ancient civilizations; barbarian invasions; rise, flowering, and disruption of medieval church; feudalism; and national monarchies.

HIST-H 114 History of Western Civilization II (3 cr.) Every semester. Rise of middle class; parliamentary institutions, liberalism, political democracy; industrial revolution, capitalism, and socialist movements; nationalism, imperialism, international rivalries, and world wars.

HIST-H 405 Global History of Modern Sport (3 cr.) Alternate Years. Origins and development of sport in the modern world. From British public schools and ideals of fair play, through the Olympic movement, international soccer, holliganism and fandom, sport's role in identity creation and nationalism, and mass culture.

HIST-H 421 Topics: Asia, Africa, Latin America (3 cr.) Intensive study and analysis of selected historical issues and/or problems in African, Asian, or Latin American history. Topics will vary from semester to semester.

HIST-H 425 Topics in History (1-3 cr.) Intensive study and analysis of selected historical issues and problems of limited scope. Topics will vary; but will ordinarily cut across fields, regions, and periods. May be repeated once for credit.

HIST-H 495 Individual Readings in History (arr. cr.) Every semester (undergraduate). P: consent of instructor.

HIST-H 496 Internship in History (arr. cr.) Every semester (undergraduate). P: consent of instructor.

HIST-J 495 Senior Seminar for History Majors (3 cr.) Alternate years, Spring Semester. Senior Seminar for History/Political Science majors. P: consent of instructor.

Political Science

POLS-Y 103 Introduction to American Politics (3 cr.) Every semester. Introduction to the nature of government and the dynamics of American politics. Origin and nature of the American federal system and its political party base.

POLS-Y 215 Introduction to Political Theory (3 cr.) Every three semesters. An introduction to major ideas and theories in Western political thought, including theories of democracy and the analysis of conflict and cooperation. The course also addresses the attempts

made by prominent political philosophers – from Aristotle and Plato to Locke, Marx, and Rawls – to understand and describe the nature of politics.

POLS-Y 217 Introduction to Comparative Politics (3 cr.) Every three semesters. A course that introduces students to the major political systems of the world. Students will study systems within Western and non-Western countries. Comparisons will include executive and legislative structures, elections, political parties, interest groups and key areas of public policy. Not open to students who have completed POLS-Y 107.

POLS-Y 219 Introduction to International Relations (3 cr.) An introduction to the global political system, and issues that shape relations among countries. The course looks at problems of conflict resolution, the role of international law and organizations, the challenges of poverty and development, and the other major policy issues over which nations cooperate, argue, or go to war. Not open to students who have completed POLS-Y 109.

POLS-Y 301 Political Parties and Interest Groups (3 cr.) Theories of American party activity; behavior of political parties, interest groups, and social movements; membership in groups; organization and structure; evaluation and relationship to the process of representation.

POLS-Y 304 Constitutional Law (3 cr.) Nature and function of law and judicial process; selected Supreme Court decisions interpreting the American constitutional system.

POLS-Y 311 Democracy and National Security (3 cr.) Exploration of a basic dilemma in a democratic polity: How can demands for national security be reconciled with democratic practices and values? Concepts of civil-military relations, national security structure, professional and political commitments of the military, human resource utilization, popular control of policy, and the nature of individual liberty.

POLS-Y 338 African Politics (3 cr.) Politics in contemporary sub-Saharan Africa. Topics include processes of nation building, dependency and underdevelopment; role of political parties, leadership, ideology, and military rule; continuing relevance of colonial heritage and traditional culture; network of international relations; and special situation of South Africa.

POLS-Y 360 United States Foreign Policy (3 cr.) Analysis of institutions and processes involved in the formation and implementation of United States foreign policy. Emphasis is on post-World War II policies.

POLS-Y 480 Undergraduate Readings in Political Science (arr cr.) Every semester. Individual readings and research. May be taken only with consent of the instructor.

POLS-Y 481 Field Experience in Political Science (arr cr.) P: junior or senior standing and approval of instructor. Faculty-directed study of aspects of the political process through internship experience in local, state, or national government.

POLS-Y 490 Senior Seminar in Political Science (3 cr.) Alternate years, Spring Semester. Senior Seminar for History/Political Science majors. P: consent of instructor.

Sociology

SOC-R 320 Sexuality and Society (3 cr.) P: S100 or S101 The study of social issues and problems related to human sexuality using sociological perspectives. Examines diversity with regard to in sexual practices among various cultures and categories of people. Includes sociological research about topics such as the use of sex in the media and advertising, social controversies surrounding sexual orientation, and the sexualization of children.

SOC-S 100 Introduction to Sociology (3 cr.) Every semester. Introduction to the concepts and methods of sociology with a focus on American Society as well as global issues.

SOC-S 101 Social Problems and Policies (3 cr.) Provides an introduction to sociology through an in-depth study of major social problems; explores the policy implications of the general sociological perspective and of sociological knowledge of particular problems. Problems include population, drug use, science and technology, and poverty.

SOC-S 252 Methods of Sociological Research (3 cr.) P: S100 or S101 and Sophomore standing. Every fall semester. P: 3 credit hours of sociology. This course is a prerequisite for most upper level (300-400 level) courses in sociology. A survey of methods and techniques used by sociologists for gathering and interpreting information about human social behavior.

SOC-S 302 Organizational Life (3 cr.) P: 3 credit hours of sociology or consent of instructor. Sources, types, and consequences of variations in organizational structures and functions. Varying organizational arrangements as they have affected and are affected by changes in input and output. Complex organizations and their impact from a comparative perspective.

SOC-S 314 Social Aspects of Health and Medicine (3 cr.) P: 3 credit hours of sociology or consent of instructor. Survey of the nature of health care systems. Patient and professional role behavior are explored, as well as the characteristics of different health care settings.

SOC-S 315 Work and Occupations (3 cr.) P: 3 credit hours of sociology or consent of instructor. Examines work roles within such organizations as factory, office, school, government, and welfare organizations; career and occupational mobility in work life; formal and informal organizations within work organizations; labor and management conflict and cooperation; problems of modern industrial workers.

SOC-S 316 The Family (3 cr.) Every semester. P: 3 credit hours of sociology or consent of instructor. The sociological study of family relationships and the interconnections between the individual, family and wider society. Considers American families as well as other cultural family types. Emphasis on theories and empirical research explaining family patterns.

SOC-S 317 Inequality (3 cr.) P: 3 credit hours of sociology or consent of instructor. Nature, functioning, and maintenance of systems of social stratification in local communities and societies. Correlates and consequences of social class position and vertical mobility.

SOC-S 325 Juvenile Delinquency (3 cr.) P: 3 credit hours of sociology or consent of instructor. Factors in

genesis of crime and organization of criminal behavior from points of view of the person and the group.

SOC-S 328 Criminology (3 cr.) P: 3 credit hours of sociology or consent of instructor. Legal definition of delinquency, measurement and distribution of delinquency. Causal theories considered for empirical adequacy and policy implications. Procedures for processing juvenile offenders by police, courts, and prisons are examined.

SOC-S 331 Sociology of Aging (3 cr.) P: 3 credit hours of sociology or consent of instructor. Survey of the social dimensions of the aging process within a multidisciplinary context. Emphasis on the empirical and theoretical findings with regard to the role of the elderly in society, problems of the elderly, and cross-cultural differences in the aging process.

SOC-S 335 Race and Ethnic Relations (3 cr.) P: 3 credit hours of sociology or consent of instructor. Relations between racial and ethnic minority and majority groups; psychological, cultural, and sociological theories of prejudice and discrimination; comparative analysis of diverse systems of intergroup relations.

SOC-S 338 Gender Roles (3 cr.) P: 3 credit hours of sociology or consent of instructor. Exploration of the research and theories explaining gender roles in contemporary societies. Emphasis on defining gender roles; tracing their historical development; considering their implications for work, marriage, parenting, and equality in society. Includes cross-cultural comparisons.

SOC-S 340 Social Theory (3 cr.) P: 3 credit hours of sociology or consent of instructor. Junior standing recommended. Sociological theory, with focus on content, form, and historical development. Relationship between theories, data, and sociological explanations.

SOC-S 344 Sociology of Childhood (3 cr.) P: SOC-S 100 or SOC-S 101 and SOC-S 316, and SOC S232 recommended or by consent of the instructor. Analysis of childhood as a structural form and children as social agents who contribute to societal reproduction and change. Considers the relation of childhood to other social institutions and children's contributions to society historically and cross-culturally. Examines how social policies in education, family, work, and the media affect children's lives.

SOC-S 360 Topics in Social Policy: (3 cr.)

P: 3 credit hours of sociology or consent of instructor, but some courses have additional prerequisites. Variable topics in social policy. May be repeated for credit with different topics. Recent topics include:

1. Statistics for Social and Health Professionals (Spring) P: 3 hours of sociology and Math 118 or Math 119 or equivalent. This course replaces PSY K 300 and is the required statistics course for all sociology majors.
2. Drugs and Society (P: 3 hours of sociology.)
3. Family Violence (P: 6 hours of sociology including SOC S316; SOC S252 recommended.)

1-5

SOC-S 361 Cities and Suburbs (3 cr.) P: 3 credit hours of sociology or consent of instructor. Introduction to theory

and research on the changing scale and complexity of social organization (urbanization), the quality of life in urban areas, demographic and ecological city growth patterns, and public policy concerns in contemporary urban society.

SOC-S 363 Sociology of Development (3 cr.) P: 3 credit hours of sociology or consent of instructor. An introduction to the various theoretical perspectives and empirical studies pertaining to development. Specific topics include women in development, sustainable development, and the third world within the context of the global political economy.

SOC-S 375 Issues in Human and Social Service Policy (3 cr.) P: Junior or Senior standing and completion of at least 12 credits in sociology including SOC-S 100 or SOC-S 101, SWK S141 or equivalent, and 2 other courses or instructor approval. Recommended for students before enrolling in SOC-S 494/497 Field Experience. Examination of theories in sociology relevant to human/social services delivery, as well as the ethical and professional issues of workers in human/social service agencies with clients from diverse populations. Application of sociological concepts, theories, and methods as they apply to the management, practice, and evaluation of human/social service agencies.

SOC-S 411 Sociology of Power (3 cr.) P: 3 credit hours of sociology or consent of instructor. Power in social systems; its nature, organization, distribution, determinants, and consequences.

SOC-S 419 Social Movements and Collective Action (3 cr.) P: 3 credit hours of sociology or consent of instructor. Change-oriented social and political collective action and consequences for groups and societies. Resource mobilization, historical and comparative analysis of contemporary movements, and collective action.

SOC-S 420 Topics in Deviance: White Collar Crime or Organized Crime (3 cr.) P: 3 credit hours of sociology or consent of instructor. An examination of the historical development, causes, and consequences of white collar or organized crime. Emphasis given to law enforcement responses to these forms of criminal behavior. White collar crime topic offered alternating offerings with Organized Crime topic.

SOC-S 470 Senior Seminar in Sociology (Traditional Track) (3 cr.) P: Completion of core requirements including S252, S340, S360 Topics in Social Policy: Statistics for Social & Health Professionals, Senior standing, and completion of a minimum of 18 credit hours in sociology or consent of instructor. Capstone course in sociology for the Traditional track of the B.A. or B.S. degree. Students conduct individual research projects under faculty supervision, make presentations, discuss sociological issues, prepare for applying to graduate school and seeking employment with a sociology degree after graduation. May not be repeated as SOC-S471.

SOC-S 471 Senior Seminar in Applied Sociology/Human Services (3 cr.) P: Completion of core requirements including S252, S340, S360 Topics in Social Policy: Statistics for Social & Health Professionals, Senior standing, and completion of a minimum of 18 credit hours in sociology or consent of instructor. Capstone Course for the Applied Sociology/Human Services Track in the Sociology B.A. or B.S. Students will investigate

issues related to social service agencies, their clients, and/or workers as well as employment strategies after graduation and graduate school options. May not be repeated as SOC-S470.

SOC-S 494 Field Experience in Sociology (3 cr.) C: for students in the Traditional Track of the Sociology B.A. or B.S. SOC-S 494 Field Experience in Sociology (3 cr.) P: Junior or Senior Standing and Consent of instructor. Faculty-directed study of aspects of sociology based on field experience, in conjunction with directed readings and writings. Specifically, each intern is required to keep a daily journal that is given at regular intervals to the faculty sponsor, and write an analytic paper dealing with the field experience. May not be repeated as SOC-S 497.

SOC-S 495 Individual Readings in Sociology (arr. cr.) P: Junior or Senior Standing and Consent of instructor. Prior arrangement required.

SOC-S 497 Field Experience in Human/Social Services (arr. cr.) C: For students in the Applied Sociology/Human Services track in the Sociology B.A. or B.S. P: Junior or Senior Standing with completion of 15 hours of upper level sociology courses including SOC-S 100 or SOC-S 101, SOC-S 252, SOC-S 340, and S-360 Statistics, and consent of instructor. Practical work in a social service agency under direction of a site supervisor and completion 120 hours of supervised internship. Student will job shadow key persons, observe client cases and assist with the usual work of the agency as approved by the site supervisor. Under direction of instructor, student will keep a journal applying sociological concepts and write a directed research paper about an issue related to the experience. May be repeated once for credit in varied setting. May not be repeated as SOC-S 494.

School of Sciences

Anatomy

ANAT-A 215 Basic Human Anatomy (5 cr.) Fall, Spring. Structure of cells, tissues, organs, and systems and their relationship to function.*

Astronomy

AST-A 100 The Solar System (3 cr.) Celestial sphere and constellations, measurement of time, astronomical instruments, earth as a planet, the moon, eclipses, planets and their satellites, comets, meteors, theories of origin of solar system.

AST-A 110 Introduction to Astronomy (3 cr.) Spring. This course presents a survey of modern astronomy including planetary science, stellar and galactic astrophysics and cosmology.

Biology

BIOL-L 100 Humans and the Biological World (5 cr.) Fall, Spring. Principles of biological organization, from molecules through cells and organisms, with special reference given to humans. Credit given for only one 100-level biology course. For non-majors.*

BIOL-L 105 Introduction to Biology (5 cr.) Fall, Spring. Integrated picture of manner in which organisms at diverse levels of organization meet most problems in maintaining and propagating life. Credit given for only one 100-level biology course.* (P: high school or college chemistry)

BIOL-L 203 Evolution and Diversity of Life (3 cr.) To provide an understanding and overview over the concept of evolution and how it shaped the diversity of life. (P: BIOL-L105)

BIOL-L 211 Molecular Biology (3 cr.) Spring. Introduction to molecular biology, including mechanisms and regulation of gene expression as well as mechanisms of mutation, repair, and recombination of DNA. (P: BIOL-L105, C: BIOL-L213)

BIOL-L 213 Molecular Biology Laboratory (2 cr.) Spring. Accompanying laboratory for L 211. Introduction to basic techniques in molecular biology.* (C: BIOL-L211)

BIOL-L 270 Humans and Microorganisms (3 cr.) Alternate years. Beneficial and harmful activities of bacteria, fungi, protozoa, viruses. Production of fermented foods, food poisoning and foodborne infections. Introduction to epidemiology, microbial diseases, antibiotics and immunization. Water and wastewater microbiology and waterborne infections.

BIOL-L 321 Principles of Immunology (3 cr.) Alternate years. An introduction to the basic principles of immunology and its applications. Topics covered include the inflammatory response, complement, cell-mediated and humoral immunity, cell interactions, genetics of the immune response, immunization and immunological methods. (P: BIOL-L105, CHEM-C101 or CHEM-C105)

BIOL-L 329 Proteins and Enzymes (3 - 5 cr.) This course focuses on protein structure and function, enzyme kinetics and mechanisms. Topics in bioinformatics are covered. The laboratory studies methods to isolate, purify, and identify enzymes and proteins. Determination of enzyme kinetics.

BIOL-L 336 Evolutionary Medicine (3 cr.) An introduction and overview of the evolutionary perspectives of health and disease, with emphasis on human diseases. (P: BIOL-L 100 or BIOL-L 105 or permission of the instructor.)

BIOL-L 345 Vertebrate Biology (3 cr.) Alternate years. A general overview of the biology of vertebrate animals including aspects of their evolutionary history, taxonomy, anatomy, physiology, ecology, behavior and natural history. (P: BIOL-L 105.)

BIOL-L 350 Environmental Biology (3 cr.) Not open to biology majors. Interactions of human beings with other elements of the biosphere with emphasis on population, community, and ecosystem levels of ecology. (P: Junior or Senior standing)

BIOL-L 364 Principles of Genetics (3 cr.) Alternate years. Analysis of genetic mechanisms and processes, recombination, genetic interaction, gene regulation, biotechnological applications, genomics, cancer genetics and evolution. (P: BIOL-L 105, BIOL-L 367 or MICR-M 310.)

BIOL-L 367 Cell Physiology (3 cr.) Alternate years. Introduction to biochemical structure and metabolic activities of plant, animal, and microbial cells; physiology of membranes; locomotion and response; growth, division, and differentiation of cells. (P: an introductory biology and general chemistry course. R: organic chemistry.)

BIO-L 370 Plants, Animals, and Civilization (3 cr.)

Fall, Spring. R: Junior or senior standing. The principal domesticated plants and animals from prehistoric times to the present, with consideration of their origin, spread, and relationship to development of civilization and to present problems of hunger. Not open to students who have had PLSC-B 368. Note: BIO-L 370 will not count toward a Bloomington or Kokomo biological science degree.

BIOL-L 379 Principles of Ornithology (3 cr.)

Summer. This course will cover bird evolution, taxonomy, biology, ecology and behavior with emphasis on Indiana birds. (P: One introductory biology course or permission of the instructor.)

BIOL-L 391 Special Topics in Biology (3 cr.) Study and analysis of selected biological issues and problems. Topics vary from semester to semester.

BIOL-L 403 Biology Seminar (3 cr.) Alternate years. A seminar course concerned with current topics and issues in the biological sciences. (P: junior or senior standing.)

BIOL-L 473 Ecology (3 cr.) Alternate years. Major concepts of ecology for science majors; relation of individual organisms to their environment, population ecology, and structure and function of ecosystems. (P: 8 hours of biology. R: BIOL-L105 and BIOL-L 364.)

BIOL-L 474 Laboratory in Ecology (2 cr.) Introduction to research problems and techniques in the ecology of individuals, populations, and ecosystems.* (C: BIOL-L 473.)

BIOL-L 490 Individual Study (1-12 cr.) Arr. Must complete a written assignment as evidence of each semester's work. Must present oral report to complete more than 6 credit hours. (P: overall GPA of 2.5 or above; must have written consent of faculty member supervising research.)

BIOL-L 498 Internship in Professional Practice (1-6 cr.)

Designed to provide opportunities for students to receive credit for career-related, full-time work. Evaluation by employer and departmental chairperson. Course credit may count as elective hours in the Biology B.A./B.S. and Biological and Physical Sciences B.A./B.S. degree requirements.

Chemistry**CHEM-Y 398 Professional Practice in Chemistry**

(1-6 cr.) Designed to provide opportunities for students to receive credit for career-related, full-time work.

CHEM-C 410 Principles of Chemical Instrumentation

(2-4 cr.) Modern methods of instrumental analysis, including spectroscopy, chromatography, and electrochemistry. (P: CHEM-C 310/311)

CHEM-C 100 The World of Chemistry (3 cr.)

Fall, Spring. For students requiring only one semester of chemistry. Descriptive course, including inorganic, organic, and biological chemistry, with illustrations of scientific reasoning. May be taken concurrently with the laboratory, CHEM-C 120. Credit given for only one of the following: CHEM-C 100, CHEM-C 101, or CHEM-C 105.

CHEM-C 101 Elementary Chemistry I (3 cr.)

Fall. Introduction to chemistry. Usually taken concurrently with CHEM-C 121. The two sequences, CHEM-C 101-C121

and CHEM-C 102-C122, usually satisfy programs that require only two semesters of chemistry. Admission to advanced courses on basis of CHEM-C 101, 121, 102, 122 granted only in exceptional cases. May be taken without credit in preparation for CHEM-C 105. Credit given for only one of the following: CHEM-C 100, 101, or 105.

CHEM-C 102 Elementary Chemistry II (3 cr.)

Spring. Continuation of CHEM-C 101. Usually taken concurrently with CHEM-C 122. The chemistry of organic compounds and their reactions, followed by an extensive introduction to biochemistry. Credit not given for both CHEM-C 102 and CHEM-C 106. (P: CHEM-C 101.)

CHEM-C 105 Principles of Chemistry I (3 cr.)

Fall. Basic principles, including stoichiometry, thermochemistry, atomic and molecular structure, gases, solutions, and selected topics in descriptive chemistry. Credit given for only one of the following, CHEM-C 100, CHEM-C 101, or CHEM-C 105-125. (P: two years of high school algebra or MATH-M 125, which may be taken concurrently; one year of high school chemistry. C: CHEM-C 125.)

CHEM-C 106 Principles of Chemistry II (3 cr.)

Spring. Chemical equilibrium with emphasis on acids, bases, solubility and electrochemistry, elementary thermodynamics, chemical kinetics, and selected topics in descriptive chemistry. Credit not given for both CHEM-C 102, and CHEM-C 106-C126. (P: CHEM-C 125. C: CHEM-C 126)

CHEM-C 109 Introductory Chemistry for Health and Nursing Sciences (3 cr.)

Designed for students with no prior chemistry background. Students will learn the role of chemistry in physiological, health, and nursing applications.

CHEM-C 120 Chemistry Laboratory (2 cr.)

Fall, Spring. For non-majors. An introduction to techniques and reasoning of experimental chemistry. Experiments and projects illustrate topics studied in CHEM-C 100. Credit given for only one of the following: CHEM-C 120, 121 or 125*. (P or C: CHEM-C 100.)

CHEM-C 121 Elementary Chemistry Laboratory (2 cr.)

Fall. An introduction to the techniques and reasoning of experimental chemistry. Credit not given for both CHEM-C 121 and 125.* (P or C: CHEM-C 101.)

CHEM-C 122 Elementary Chemistry Laboratory II

(2 cr.) Spring. Continuation of CHEM-C 121. Emphasis on organic and biochemical experimental techniques. Credit not given for both CHEM-C 122 and 126.* (P: CHEM-C 101, 121. P or C: CHEM-C 102.)

CHEM-C 125 Experimental Chemistry I (2 cr.)

Fall. Introduction to laboratory experimentation, with particular emphasis on the collection and use of experimental data, some properties of solutions, stoichiometry, thermochemistry, and synthesis. Credit given for only one of the following: CHEM-C 121, or 125.* (C: CHEM-C 105.)

CHEM-C 126 Experimental Chemistry II (2 cr.)

Spring. A continuation of CHEM-C 125 with emphasis on equilibria; qualitative analysis; acids and bases; oxidation-reduction reactions including electrochemistry, chemical kinetics, and synthesis. Credit given for only one of the following: CHEM-C 126, or 122.* (P: CHEM-C 125. C: CHEM-C 106.)

CHEM-C 210 Introduction to Quantitative Analytical Chemistry (3 cr.) Fall. Introduction to the theory and practice of non-instrumental quantitative/qualitative analytical chemistry, including sample selection and preparation and methods of data analysis. Emphasis will be placed on the theory of titrimetric and gravimetric techniques. (P: CHEM-C 106, 126. C: CHEM-C 211.)

CHEM-C 211 Introduction to Quantitative and Analytical Chemistry Laboratory (2 cr.) Fall. Laboratory instruction in the fundamental analytical techniques discussed in CHEM-C 210.* (P: CHEM-C 126. C: CHEM-C 210.)

CHEM-C 300 Energy and Green Chemistry - A Natural Science Perspective (3-4 cr.) An introduction to topics in existing and potential renewable sources of energy, including hydroelectric, geothermal, tidal, wind and solar energy.

CHEM-C 310 Analytical Chemistry (3 cr.) Spring. Fundamental analytical processes including solution equilibria, theory and applications of electrochemistry and spectrophotometry, and chemical methods of separation. (P: CHEM C-106.)

CHEM-C 311 Analytical Chemistry Laboratory (2 cr.) Spring. Laboratory instruction in the fundamental analytical techniques discussed in CHEM-C 310.* (C: CHEM-C 310.)

CHEM-C 329 Proteins and Enzymes (3 - 5 cr.) This course focuses on protein structure and function, enzyme kinetics and mechanisms. Topics in bioinformatics are covered. The laboratory studies methods to isolate, purify, and identify enzymes and proteins. Determination of enzyme kinetics.

CHEM-C 341 Organic Chemistry I: Lecture (3 cr.) Fall. Chemistry of carbon compounds; nomenclature; qualitative theory of valence; structure and reactions. Syntheses and reactions of major classes and monofunctional compounds. (P: CHEM-C 106. C: CHEM-C 343 or consent of chemistry undergraduate advisor.)

CHEM-C 342 Organic Chemistry II: Lecture (3 cr.) Spring. Syntheses and reactions of polyfunctional compounds, natural and industrial products, physical and chemical methods of identification. (P: CHEM-C 343. C: CHEM-C 344 or consent of instructor.)

CHEM-C 343 Organic Chemistry I: Laboratory (2 cr.) Fall. Laboratory instruction in the fundamental techniques of organic chemistry and the use of general synthetic methods.* (C: CHEM-C 341.)

CHEM-C 344 Organic Chemistry II: Laboratory (2 cr.) Spring. Preparation, isolation, and identification of organic compounds. Emphasis on modern research methods.* (P: CHEM-C 343. C: CHEM-C 342.)

CHEM-C 361 Physical Chemistry I (3 cr.) Fall. Alternate years. Chemical thermodynamics and kinetics, introduction to statistical thermodynamics. (P: CHEM-C 106, PHYS-P 202, MATH-M 216.)

CHEM-C 362 Physical Chemistry II (3 cr.) Introduction to quantum mechanics. Structure and spectra of atoms, molecules, and solids. (P: CHEM-C 361.)

CHEM-C 390 Environmental Science (3 cr.) Spring. For non-majors. Exploration of the complex interrelationships among the physical, chemical, biological, cultural, economic, and political forces that shape the global environment. Note: CHEM-C 390 will not count toward a Bloomington or Kokomo chemistry degree.

CHEM-C 400 Chemical Information Sources and Services (1 cr.) Techniques for the storage and retrieval of chemical information in both printed and computer-readable formats; sources of chemical information, including Chemical Abstracts; development of search strategies; online searching of chemical databases. (P: CHEM-C 341.)

CHEM-C 409 Chemical Research (1-3 cr.) For outstanding students. To be elected only after consultation with the faculty research advisor. Cannot be substituted for any course required in the chemistry major. A research thesis is required.

CHEM-C 430 Inorganic Chemistry (3 cr.) Alternate years. Structure and bonding of inorganic compounds, survey of chemistry of nonmetal and metal elements, coordination compounds, organometallic compounds, mechanisms and reactions. (P: CHEM-C 106. R:CHEM-C 342.)

CHEM-C 443 Organic Spectroscopy (3 cr.) Elucidation of molecular structures by use of IR, UV, NMR, mass spectroscopy, and other methods.* (P: CHEM-C 344.)

CHEM-C 483 Biological Chemistry Lecture (3 cr.) Alternate years. Introduction to structure, chemical properties, and interrelationships of biological substances. (P: 18 credit hours of chemistry, including CHEM-C 341.)

CHEM-C 487 Biochemistry Laboratory (2 cr.) Laboratory instruction in the fundamental techniques of biochemistry, including separation of macromolecules by electrophoresis and chromatography; isolation, purification and analysis of enzymes; recombinant DNA procedures; and polymerase chain reaction (PCR).

CHEM-C 495 Capstone in Chemistry (1-3 cr.) Independent study, under the supervision of a chemistry faculty member or appropriate academic advisor can be earned by completion of (a) a chemical research project; (b) a library research project in an area of current scientific investigation; (c) a research investigation in industry; or (d) a service activity in university, government, public schools, or other science-related groups or organizations. Students will report the results of their activities in both a formal written report and oral presentation, prepare portfolios of undergraduate work in chemistry, discuss recent scientific literature, and explore chemistry in society. Enrollment in the Capstone in Chemistry requires joint approval of the capstone instructor and the independent project advisor. (P: Senior standing.)

Computer Information Systems

CSCI-C 100 Computing Tools (1 cr.) An introduction to computing applications useful in college work. Microcomputer systems, word processing, spreadsheets, graphics, e-mail and Web browsers are used.

CSCI-C 106 Introduction to Computers and Their Use (3 cr.) Introduction to computers and data processing. Includes the historical and current status of data processing and electronic digital computers; a survey

of computer applications; foundations of computer programming; survey of programming languages; and the fundamentals of a high-level language such as Visual Basic. (P: CSCI-C 100; (for ACCEL sections: P: CSCI-C 100 and sophomore standing.))

Geography

GEOG-G 107 Physical Systems of the Environment (3 cr.) Physical environment as the home of humans, emphasizing the distribution and interaction of environmental variables (landforms, vegetation, soils, and climate). Note: Business majors may count GEOG-G 107 only as a social science.

GEOG-G 315 Environmental Conservation (3 cr.)

Conservation of natural resources including soil, water, wildlife, and forests as interrelated components of the environment, emphasizing an ecological approach. Current problems relating to environmental quality. (R: 3 credit hours of geography or junior standing.)

Geology

GEOG-G 100 General Geology (5 cr.) Broad study of the earth. The earth in the solar system, earth's atmosphere. Formation and modification of earth materials, landforms, continents and oceans through geologic time.*

GEOG-G 133 Geology of the United States (5 cr.)

Introduction to physical and historical geology with applications to United States geology. Study of the geologic events (and their associated rocks and structures) that have shaped the continent, including mountain building, earthquakes, volcanoes, plate tectonics, intercontinental seaways, sedimentary environments, glacial geology and modern processes.*

GEOG-G 300 Environmental and Urban Geology (3 cr.)

Significance of regional and local geologic features and processes in land use. Use of geologic factors to reduce conflict in utilization of mineral and water resources and damage from geologic hazards. (R: GEOL-G 100, GEOL-G 133, or GEOG-G 107)

GEOG-G 400 Energy: Sources and Needs (3 cr.)

Renewable and non-renewable energy resources, their origins, society's needs and usage, environmental impacts of use and production, and future directions in energy technologies. Also may include study of non-energy resources including metallic and nonmetallic resources.

GEOG-G 421 United States Geology: Field Experience 1 (5 cr.)

A six week lecture/field trip course incorporating a 2 - 3 week field experience in the western United States. Students will explore the geologic events (and their associated rocks and structures) that have shaped the continent, including mountain building, earthquakes, volcanoes, plate tectonics, intercontinental seaways, sedimentary environments and glacial geology. Possible destinations include (but are not limited to) the Black Hills, Yellowstone, Grand Tetons, Mt. Rainier, Mt. St. Helens and the Glacier National Park.*

GEOG-G 440 Professional Practice in Geosciences (1-6 cr.)

The course is designed to provide opportunities for students to receive credit for career-related, full-time work. (P: At least 9 credit hours of coursework in geology/physical geography or instructor permission.)

GEOL-T 107 Physical Systems of the Environment (3 cr.)

Physical environment as the home of humans,

emphasizing the distribution and interaction of environmental variables (landforms, vegetation, soils, and climate).

GEOL-T 312 Geology of Indiana (3 cr.) Study of the physiography and bedrock structure of Indiana, first with topographic and geologic maps, and then with field trips to selected areas. Rock and fossil specimens will be collected for study. (P: GEOL-G 100.)

GEOL-T 362 Geology of Mineral Resources (3 cr.)

Formation of minerals and mineral deposits. Gem materials and metallic and non-metallic economic minerals: occurrence and uses. (P: a course in geology or consent of the instructor.)

Informatics

INFO-I 100 First Year Experience (1 cr.) This course introduces specific survival skills for success in college and beyond, while reconciling personal learning skills with instructor-based teaching styles. Master the art of inquiry and elevate your sense of integrity while sharpening your personal edge by exploring critical thinking, project managements and current/future job market trends. Required by all Informatics and new media majors.

INFO-I 101 Introduction to Informatics (4 cr.)

Problem solving with information technology; introductions to information representation, relational databases, system design, propositional logic, cutting-edge technologies: CPU, operation systems, networks; laboratory emphasizing information technology including Web page design, word processing databases, using tools available on campus. (P: Computer literacy.)

INFO-I 201 Mathematical Foundations of Informatics (4 cr.)

An introduction to methods of analytical, abstract and critical thinking, deductive reasoning, and logical and mathematical tools used in information sciences. The topics include propositional and predicate logic, natural deduction proof system, sets, functions and relations, proof methods in mathematics, mathematical induction, and graph theory. Credit given for either INFO-I 201 or COGS-Q 250. P: INFO-I 101 and MATH-M 118.)

INFO-I 202 Social Informatics (3 cr.)

Introduction to key social research perspectives and literatures on the use of information and communication technologies. Discusses current topics such as information ethics, relevant legal frameworks, popular and controversial uses of technology (e.g., peer-to-peer file sharing), digital divides, etc. Outlines research methodologies for social informatics. (P: INFO-I 101.)

INFO-I 210 Information Infrastructure I (4 cr.)

The software architecture of information systems. Basic concepts of systems and applications programming. Cross listed with CSCI-C 297. Credit given for only one of the following: INFO-I 210, CSCI-N 331 (IUPUI), CSCI-C 297 or CSCI-A 201 (IUB). (Recommended prerequisite or concurrent: INFO-I 101.)

INFO-I 211 Information Infrastructure II (4 cr.)

The systems architecture of distributed applications. Advanced programming, including an introduction to the programming of graphical systems. Cross listed with CSCI-C 309. Credit given for only one of the following: INFO-I 211, CSCI-N 345 (IUPUI), CSCI-A 202 (IUB), or CSCI-C 212 (IUB). (P: INFO-I 210.)

INFO-I 213 Web Site Design and Development

(3 cr.) Introduction to web design and development covering high-level concepts in addition to hands-on activities. Topics include: internet infrastructure, client-side technologies, embedded media, page design, site design, visibility and others. Technologies covered include: XHTML, JAVA script and cascading style sheets. This course runs concurrently with NMCM-N 213.

INFO-I 300 Human Computer Interaction (3 cr.) The analysis of human factors and the design of computer application interfaces. A survey of current HCI designs with an eye toward what future technologies will allow. The course will emphasize learning HCI based on implementation and testing interfaces.

INFO-I 303 Organizational Informatics (3 cr.) Examines the various needs, uses, and consequences of information in organizational contexts. Topics include organizational types and characteristics, functional areas and business processes, information-based products and services, the use of and redefining role of information technology, the changing character of work life and organizational practices, sociotechnical structures, and the rise and transformation of information-based industries. (P: INFO-I 101.)

INFO-I 308 Informatics Representation (3 cr.) The basic structure of information representation in digital information systems. Begins with low-level computer representations such as common character and numeric encodings. Introduces formal design and query languages through Entity Relationship Modeling, the Relational Model, XML, and XHTML. Laboratory topics include SQL and XPath querying. (P: INFO-I 101, INFO-I 201, and INFO-I 210.)

INFO-I 310 Multimedia Arts and Technology (3 cr.) The study of the evolution of media arts and underlying principles of communication. Application development paradigms in current practice.

INFO-I 356 Globalization: Where we fit in (3 cr.) Globalization, increasingly enabled by information technology, changes how we work, what we buy and who we know. Learn about the past, present, and future of globalization from an information technology perspective, and what it means for you, your career, and your community.

INFO-I 399 Current Topics in Informatics (1 - 3 cr.) Emphasis is on new developments and research in informatics. For example issues such as bioinformatics and medical informatics would be explored.

INFO-I 400 Topics in Informatics (1 - 3 cr.) Variable topic. Emphasis on new developments and research in informatics.

INFO-I 450 Systems Design and Development (3 cr.) Students work on capstone projects in supervised teams. They select an appropriate project (preferably based on cognate), then learn to develop a plan that leads to success. Teamwork, communication, and organizational skills are emphasized in a real-world-style environment. (P: Approval of the dean and completion of required core informatics courses.)

INFO-I 460 Senior Thesis (3 cr.) The senior student prepares and presents a thesis: a substantial, typically

multi-chapter paper based on a well-planned research or scholarly project, as determined by the student and a sponsoring faculty member. (P: Senior standing and approval of the dean.)

INFO-I 490 Internship in Informatics Professional Practice (1-3 cr.)

Students gain professional work experience in an industry or research organization setting using skills and knowledge acquired in informatics course work. May be repeated for a maximum of 3 cr. hours. S/ F grading. (P: Approval and completion of 100- and 200-level requirements in Informatics.)

Mathematics

MATH-K 310 Statistical Techniques (3 cr.) Fall, Spring. Introduction to probability and statistics; elementary probability theory, conditional probability, independence, random variables, discrete and continuous probability distributions, measurement of central tendency and dispersion. Concepts of statistical inference and decision: estimation, hypothesis testing, Bayesian inference, statistical decision theory. Special topics discussed may include regression and correlation, time series, analysis of variance, nonparametric methods. Credit given for only one of the following: PSY-K 300, ECON-E 270, MATH-K 310 or STAT 301. (P: MATH-M 125 or MATH-M 118 or MA 153)

MATH-M 002 College Math Readiness Program (0 cr.)

Students will review and strengthen the prealgebra and algebra skills necessary for success in college mathematics classes (MATH-M 007, MATH-M 117, MATH-M 104, MATH-M 105, MATH-M 125, MATH-M 118, MATH-M 133, MATH-M 134) (P: Mathematics placement exam and authorization by advisor.)

MATH-M 003 Mathematics Laboratory (0 cr.)

Mathematics Laboratory to accompany algebra courses. (C: MATH-M 007, MATH-M 117, MATH-M 104, or MATH-M 105.)

MATH-M 007 Elementary Algebra (3 cr.)

Fall, Spring. Signed numbers, operations with polynomials, solving equations, factoring, introduction to graphing, fractional and radical expressions. Not open to students who have had MATH-M104. Credit may not be applied toward any degree.

MATH-M 104 Foundations of College Algebra (3 cr.)

Fall, Spring. Students will develop critical problem solving skills, acquire an understanding of the core concept of functions and learn appropriate technology skills while strengthening their mastery of linear equations and inequalities, systems of linear equations, polynomial operations and graphing techniques for linear equations. (P: Mathematics placement exam.)

MATH-M 105 College Algebra (3 cr.)

Fall, Spring. Students will deepen their understanding of functions, acquire non-linear problem solving skills and develop the algebraic skills necessary for precalculus and general education mathematics courses: factoring; quadratic, polynomial, rational and radical equations and applications; and operations with rational expressions, radicals, and rational exponents. (P: Math-M 104 OR Mathematics placement exam.)

MATH-M 117 Intermediate Algebra (3 cr.)

Fall, Spring. Factoring, rational expressions, fractional exponents,

radicals, quadratic equations, and functions. Does not count toward the arts and sciences divisional distribution requirements. (P: MATH-M 007 or equivalent. R: C- or above in MATH-M 007.)

MATH-M 118 Finite Mathematics (3 cr.) Fall, Spring. Set theory, linear systems, matrices and determinants, probability, linear programming. Applications to problems from business and the social sciences. (P: two years of high school algebra or MATH-M 117. R: a grade of C- or better in MATH-M 117 or equivalent.)

MATH-M 119 Brief Survey of Calculus I (3 cr.) Fall, Spring. Introduction to calculus. Primarily for students in the social sciences. Not open to those who have had MATH-M 211 or MATH-M 215. Credit not given for both MATH-M 215 and MATH-M 119. (P: two years of high school algebra or MATH-M 125 or equivalent. R: a grade of C- or better in MATH-M 125 or equivalent.)

MATH-M 120 Brief Survey of Calculus II (3 cr.) Spring. A continuation of MATH-M 119, covering topics in elementary differential equations, calculus of functions of several variables and infinite series. Intended for non-physical science students. Credit not given for both MATH-M 216 and MATH-M 120. Knowledge of trigonometry required. (P: MATH-M 119. R: a grade of C- or above in MATH-M 119.)

MATH-M 125 Precalculus Mathematics (3 cr.) Fall, Spring. Designed to prepare students for calculus. Algebraic operations, polynomials, functions and their graphs, conic sections, linear systems of equations. Does not count toward the arts and science divisional distribution requirements. (P: MATH-M 117. R: a grade of C- or better in MATH-M 117 or equivalent.)

MATH-M 126 Trigonometric Functions (3 cr.) Spring. Designed to develop the properties of the trigonometric, exponential, and logarithmic functions and to prepare for courses in calculus (MATH-M 211 or MATH-M 215). P: MATH-M 125.)

MATH-M 133 Topics in Probability and Statistics (2 cr.) Topics in set theory, probability, descriptive statistics, binomial and normal distributions, and confidence intervals. (P: MATH-M 117 or equivalent)

MATH-M 134 Topics in Mathematics (2 cr.) Variable topics in mathematics such as graph theory, logic, mathematics of personal finance, mathematics in music and art, modeling using regression, matrices and Markov chains, geometry, governmental mathematics, game theory and linear programming. (P: MATH-M 117 or equivalent)

MATH-M 215/216 Calculus I-II (5-5 cr.) Fall, Spring. Coordinates, functions, straight line, limits, continuity, derivative and definite integral, applications, circles, conics, techniques of integration, infinite series. MATH-M 215 not open to those who have had MATH-M 119 or MATH-M 211. A student cannot receive credit for both MATH-M 215, MATH-M 119 and MATH-M 215, MATH-M 211 and MATH-M 215, MATH-M 120 and MATH-M 216 or MATH-M 212 and MATH-M 216. (P: two years of high school algebra and trigonometry, or both MATH-M 125 and MATH-M 126.)

MATH-M 303 Linear Algebra for Undergraduates (3 cr.) Introduction to theory of real and complex vector spaces. Coordinate systems, linear dependence, bases. Linear transformations and matrix calculus. Determinants and rank. Credit not given for both MATH-M 301 and MATH-M 303. (P: MATH-M 216 or consent of instructor.)

MATH-M 311 Calculus III (4 cr.) Elementary geometry of 2, 3, and n-space; functions of several variables; partial differentiation; minimum and maximum problems; and multiple integration. (P: MATH-M 216 or consent of instructor.)

MATH-M 313 Elementary Differential Equations with Applications (3 cr.) Ordinary differential equations of first order and linear equations of higher order with applications, series solutions, operational methods, Laplace transforms, and numerical techniques. A student may not receive credit for both MATH-M 313 and 343. (P: MATH-M 216 or consent of instructor.)

MATH-M 347 Discrete Mathematics (3 cr.) Injective and surjective functions; inverse functions; composition; reflexive, symmetric, and transitive relations; equivalence relations; sets including complements, products, and power sets; cardinality; introductory logic including truth tables and quantification; elementary techniques of proof including induction and recursion; counting techniques; graphs and trees; discrete probability. (P: MATH-M 212 or MATH-M 216.)

MATH-M 360 Elements of Probability (3 cr.) Introduction to mathematical theory of probability. Probability models, combinatorial problems, conditional probability and independence, random variables, discrete and continuous distributions, repeated Bernoulli trials, gambler's ruin problems, moments, moment generating functions, law of large numbers, central limit theorem, and applications. (P: MATH-M 216. C: MATH-M 311.)

MATH-M 366 Elements of Statistical Inference (3 cr.) Sampling distributions (Chi square, t and F distributions), order statistical decisions, and inference. Hypothesis-testing concepts, Neyman-Pearson Lemma, likelihood ratio tests, power of tests. Point estimation, method of moments, maximum likelihood, Cramer-Rao bound, properties of estimators. Interval estimation, applications. Regression, correlation, analysis of variance, nonparametric methods. (P: MATH-M 360.)

MATH-M 403 Introduction to Modern Algebra I (3 cr.) Study of groups, rings, fields (usually including Galois theory), with applications to linear transformations. (P: MATH-M 301 or MATH-M 303.)

MATH-M 413 Introduction to Analysis I (3 cr.) Modern theory of real number system, limits, functions, sequences and series, Riemann-Stieltjes integral, and special topics. (P: MATH-M 301 or MATH-M 303, and MATH-M 311, or consent of instructor.)

MATH-M 415 Elementary Complex Variables with Applications (3 cr.) Algebra and geometry of complex numbers, elementary functions of a complex variable, power series, integrations, calculus of residues, conformal mapping. Application to physics. (P: MATH-M 311.)

MATH-M 447 Mathematical Models and Applications I (3 cr.) Formation and study of mathematical models used in the biological, social, and management sciences.

Mathematical topics include games, graphs, Markov and Poisson processes, mathematical programming, queues, and equations of growth. Suitable for secondary school teachers. (P: MATH-M 301 or MATH-M 303, MATH-M 311, and MATH-M 360, which may be taken concurrently, or with consent of instructor.)

MATH-M 471 Numerical Analysis I (3 cr.) Interpolation and approximation of functions, numerical integration and differentiation, solution of nonlinear equations, acceleration and extrapolation, solution of systems of linear equations, eigenvalue problems, initial and boundary value problems for ordinary differential equations, and computer programs applying these numerical methods. (P: MATH-M 301 or MATH-M 303, MATH-M 313 or MATH-M 343, and MATH-M 311, or consent of instructor. R: CSCI-C 301 or FORTRAN programming.)

MA 153 Algebra and Trigonometry I (3 cr.) Fall, Spring. Algebra for students with inadequate preparation for calculus. This is the first half of a two-semester version of MA 151. Not open to students with credit for MA 151. (R: A grade of C- or better in MATH M 117 or equivalent.)

MA 154 Algebra and Trigonometry II (3 cr.) Spring. Trigonometry for students with inadequate preparation for calculus. This is the second half of a two-semester version of MA 151. Not open to students with credit for MA 151. (P: MA 153 or equivalent.)

MA 221 Calculus for Technology I (3 cr.) MA221 Calculus for Technology I (3 cr.) Spring. Not open to students with credit in MATH-M119. First course in techniques of calculus for students enrolled in certain technical curricula. (P: MA153 or equivalent. R: a grade of C- or better in MA153 or MA154 or equivalent.)

MA 222 Calculus for Technology II (3 cr.) Spring. Note open to students with credit in MA 224 or MATH-M120. Continuation of MA221. Knowledge of trigonometry required. (P: MA 221. R: a grade of C- or better in MA 221 or equivalent.)

MATH-T 109 Mathematics for Elementary Education I (3 cr.) Fall, Spring. Introduction to problem-solving, including use of patterns and Venn diagrams; study of various numeration systems; whole numbers, fraction, and decimal algorithms with manipulatives; ratio; percent; logic. Open only to elementary education majors. Does not count towards divisional distribution requirement. (P: MATH-M 118 or MATH-M 125.)

MATH-T 110 Mathematics for Elementary Education II (3 cr.) Fall, Spring. Emphasis on geometry with use of manipulatives; study of plane figures and solids. Discussion of area, volume, symmetry, perimeter, tessellation, constructions with mira and compass, congruence, similarity, probability, statistics. Open only to elementary education majors. Does not count toward divisional distribution requirement. (P: MATH-M 118 or MATH-M 125.)

MATH-T 336 Topics in Euclidean Geometry (3 cr.) Axiom systems for the plane, the parallel postulate and non-Euclidean geometry, classical theorems. Geometric transformation theory, vectors and analytic geometry, convexity, theory of area and volume. (P: MATH-M 301 or MATH-M 303 and MATH-M 391 or their equivalents.)

MATH-Y 398 Internship in Professional Practice (1 - 3 cr.) Internship with businesses requiring applied mathematics (or pure mathematics) projects. (P: Junior or Senior standing)

Microbiology

MICR J 200 Microbiology and Immunology (3 cr.) Fall, Spring. For students of the baccalaureate curricula in the School of Nursing and in the Division of Allied Health Sciences; others by consent of instructor. Concurrent or previous registration in J201 Microbiology Laboratory is recommended. Basic principles of microbiology, cell biology and epidemiology. Consideration of pathogenic bacteria, viruses, fungi, and parasites in human disease; immunology and host-defense mechanisms. (P: ANAT-A 215 and PHSL-P 215 or equivalent.)

MICR-J 201 Microbiology Laboratory (1 cr.) Fall, Spring. Bacteriological techniques of microscopy, asepsis, pure culture, and identification of unknown bacteria. Biology of microorganisms; action of antimicrobial agents and disinfectants, food microbiology and bacterial agglutination reactions.* (P or C: MICR-J 200.)

MICR-M 310 Microbiology (3 cr.) Alternate years. Application of fundamental biological principles to the study of microorganisms. Significance of microorganisms to humans and their environment. Topics covered include bacterial growth and metabolism, microbial genetics, microbial diversity, mechanisms of pathogenicity, epidemiology and environmental microbiology. (P: two semesters of college chemistry; BIOL-L 105. C: MICR-M 315.)

MICR-M 315 Microbiology Laboratory (2 cr.) Alternate years. Laboratory exercises and demonstrations to yield proficiency in principles and techniques of cultivation and utilization of microorganisms under aseptic conditions. These principles will include microscopy, asepsis, pure culture, bacterial metabolism, genetic transformation and identification of unknown bacteria.* (C: MICR-M 310.)

MICR-M 320 Environmental and Public Health Microbiology (3 cr.) Introduction to basic concepts in environmental microbiology and epidemiology. Significance of waterborne pathogenic microorganisms and indicators. Importance of drinking water treatment and wastewater treatment. Introduction to foodborne pathogens and foodborne infections. (R: BIOL-L 105 and BIOL-L 211/213; MICR-M 310 is recommended)

Physiology

PHSL-P 215 Basic Human Physiology (5 cr.) Fall, Spring. Functional aspects of cells, tissues, organs, and systems in mammalian organisms. Designed for pre-professional students in allied health, nursing, speech and hearing and HPER.* (R: MATH-M007, ANAT-A215, intro to chemistry.)

PHSL-P 416 Comparative Animal Physiology (3 cr.) Alternate years. Physiological principles of the respiratory, circulatory, excretory, and related systems in a variety of invertebrate and vertebrate animals. (P:CHEM-C 106, two college biology courses, and one college mathematics course.)

PHSL-P 418 Laboratory in Comparative Animal Physiology (2 cr.) Laboratory experiments using a variety

of animals to illustrate physiological principles.* (P or C: PHSL-P 416.)

Physics

PHYS-P 100 Physics in the Modern World (5 cr.) Fall, Spring. Ideas, language, methods, impact, and cultural aspects of physics today. Includes classical physics up to physical bases of radar, atomic energy applications, etc. Beginning high school algebra used. Cannot be substituted for physics courses explicitly designated in specified curricula. No credit in this course will be given to students who have passed PHYS-P 201-202.*

PHYS-P 201 General Physics I (5 cr.) Fall. Newtonian mechanics, oscillations and waves, bulk properties of matter and thermodynamics.* (P: MATH-M 125 or high school equivalent.)

PHYS-P 202 General Physics II (5 cr.) lab fee Spring. Electricity and magnetism, geometrical and physical optics, and modern physics. (P: PHYS-P 201)*

PHYS-P 221 Physics I (5 cr.) Alternate years. This course is the first semester of a two semester sequence of calculus-based, introductory physics. In PHYS-P 221, we will explore Newtonian mechanics, fluid dynamics, oscillations and waves, thermodynamics, and elementary kinetic energy. (P: MATH-M 215.)

PHYS-P 222 Physics II (5 cr.) Spring Alternate years. This course is the second semester of a two semester sequence of calculus-based, introductory physics. In PHYS-P 222, we will focus primarily on electricity and magnetism. We will also learn about geometrical and physical optics, the special theory of relativity and elements of contemporary physics. (P: MATH-M 215, PHYS-P 221.)

PHYS-P 301 Contemporary Physics (3 cr.) Arr. Introduction to modern physics. Atomic and nuclear physics, kinetic theory, relativity, elementary particles. (P: PHYS-P 202 or PHYS-P 222; MATH-M 215, which may be taken concurrently with consent of instructor.)

PHYS-P 310 Environmental Physics (3 cr.) Arr. Relationship of physics to current environmental problems. Energy production, comparison of sources and by-products; nature of and possible solutions to problems of noise; particulate matter in atmosphere. (P: PHYS-P 201 or consent of instructor.)

Physical and Life Sciences

PLSC-B 203 Survey of the Plant Kingdom (5 cr.) Spring. Survey of various groups of plants, including their structure, behavior, life histories, classification, and economic importance.*

PLSC-B 364 Summer Flowering Plants (5 cr.) Summer A course for students desiring a broad, practical knowledge of common wild and cultivated plants.* (P: one introductory biology course.)

Zoology

ZOOL-Z 315 Developmental Anatomy (5 cr.) Alternate years. Comparative study of the structure and development of vertebrates, including humans.* (P: BIOL-L 105.)

Statistics

STAT 301 Elementary Statistical Methods I (3 cr.) Fall, Spring. A basic introductory statistics course with applications shown to various fields and emphasis placed on assumptions, applicability, and interpretations of various statistical techniques. Subject matter includes frequency distribution, descriptive statistics, elementary probability, normal distribution, applications, sampling distribution, estimation, hypothesis testing, and linear regression. (P: MATH-M 125 or MATH-M118 or MA 153.)

Women and Gender Studies

WOST-W 350 Women: Images and Perspectives (3 cr.) Fall or spring. This interdisciplinary course studies how women's lives in America are shaped by social values; by cultural beliefs, traditions, and ideology; and by social, political, and economic institutions or policies. It also considers how these are reflected in imaginative literature as well as social reality.
